Public Schools Week—March 5-9

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 108 years ago. In 1824 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 5 through March 9, 1932. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school—if but for a day.

We Must Trade

"The American Way of Life Depends Upon Foreign Commerce."

That is the title of the lead article in a recent issue of Barron's, the authoritative financial weekly. And it has a wealth of evidence to support this position.

Because of the mounting acceptance of imports, it points out, "U. S. industry, from chemicals to steel, has had to hold the line on prices. Foreign competition... has given the American consumer a nearly global freedom of choice."

Consumer goods represent but one phase of the import picture. As Barron's puts it, "... imports are essential to the survival of the U. S. as an industrial power." We must bring, from one part of the world or another, iron ore, manganese, chrome, copper, tin and a long list of other raw materials to supply our factories and to keep our ever-growing labor force employed.

We must sell abroad too—and in a world in which competition becomes more intense almost daily. It is inevitable that, little by little, tariffs will be lowered. That the European Common Market, when in full operation, will represent an economic force equal to our own, indicates the way the tide runs.

We must trade—with all the free world. And that means that we must have the many implements which make world trade possible. One of the most important of these is a U. S. flag merchant marine which is second to none.

Congratulations to Dr. Frank Spencer, who has recently been commissioned as a "Kentucky Colonel" by Gov. Bert T. Combs. Dr. Spencer, a native of Haskell, is the son of Mrs. Frank Spencer of this city.

The attainment of Eagle rank recently by six Boy Scouts of Haskell is an achievement deserving utmost praise for these youths, since this is the highest award offered in Scouting. We are proud to see a revival of interest both in Scouting and in Girl Scout work, because of the fine training it affords young people.

Scouting has come a long way since the first Troop was organized in Haskell around 1912 by then-County School Superintendent T. C. Williams, who now lives in Eastland. How many charter members of that Troop still live here? One of the first hikes and over-

night camp-outs we recall was a four-mile march south of town to a point on Mule Creek near the railroad. Scoutmaster Williams had a hectic night of it, administering first aid for assorted hurts, insect stings and bites for a dozen reckless youngsters. One of the first casualties we recall was while gathering firewood, Ted Alexander was stung by a scorpion. Ted's compassionate companion's were more interested in capturing the scorpion than they were in getting medical aid for the injury, their first concern was finding a jar, box or some other suitable receptacle that would hold a big scorpion. It was probably five minutes before Scoutmaster Williams learned one of his charges had been stung by the vicious looking scorpion.

60 Years Ago—March 1, 1902

An alarm of fire about 9 o'clock Thursday night brought most of our able-bodied male population out in double-quick time, but fortunately the danger was brought under control before any damage was done. It appears that some boys had two turpentine balls lighted and with a wire attached were tossing them about the streets. T. C. Dodson happened to be passing, and picking up one of the balls by its wire gave it a sling, thinking to throw it straight up. However, it went sideways and landed on the roof of a building on the west side. They say that Dodson made record time up an awning post and onto the roof, tossing the blazing ball to the ground before the roof caught fire. There should be no more turpentine balls or other similar playthings allowed on our streets.

We understand that not all of the stock in the ice and electric light plant has been taken out but that the matter will probably be closed up in a few days.

J. G. Owens of Oklahoma, formerly a Haskell citizen, is here this week. He reports the Territory in prosperous condition and a great deal of railroad building going on.

R. E. Carruth came in Friday to make the final arrangement toward establishing his nursery here. He will do some planting this spring if weather conditions permit, and complete the removal of his Comanche stock to this place in the fall.

We overlooked the item last week of the marriage of E. W. King and Miss Lee Armstrong, both of the western part of the county. They drove into town Sunday afternoon and halting in front of Judge Hamilton's residence, he performed the ceremony that made them man and wife.

J. F. Jones returned the first of the week from a trip to Jones Bros. Ranch in Schleicher County.

F. G. Alexander returned Thursday evening from Chicago, where he has been in markets for the past two weeks.

one of the last persons we'd have considered interested in the current scientific approach toward controlling screwworms.

Although he doesn't own a ranch or cattle herds, we learned the other day that Shorty is intensely interested in the new program designed by scientists which will completely eradicate the screwworm and save livestock raisers millions.

The Haskell man's interest was aroused when he read an article recently in which a scientist and biologist stated that eradication of the screwworm would not only be a boon to livestock raisers. It will also benefit wildlife and the deer and antelope population in Texas will be doubled or quadrupled.

That gets Shorty into the picture. The more deer there are, the higher the bag limit will be, the biologist explained, in order to keep the deer population from getting completely out of hand.

Following that line of thinking, Shorty reasons that the deer hunting season might also be lengthened, a move he would heartily support.

Shorty is not altogether selfish about this, either. He's considering a good friend and hunting partner who would profit from more deer and a longer hunting season.

Although Shorty has never failed to bag his limit in the regular season, we understand this partner of his has yet to get deer No. 1. In fact, Shorty and some of his friends had considered trying to get Legislative action that would give their luckless partner permission to hunt "overtime" until he kills at least one deer.

On the subject of wildlife, there is no question about deer increasing in this general area during the past decade.

A number are reported killed in Haskell and neighboring counties each season, whereas they were just beginning to make a comeback here in the early 40's.

Both deer and turkey are now fairly plentiful in the area, due mainly to the protective efforts of land owners and game officials.

One game animal which will probably never be seen in abundance here again is the antelope. Wildlife experts say they cannot exist in the limited areas now available as range.

We recall hearing the late C. L. (Pat) Lewis tell of hunting antelope on horseback around 1910 on the prairie in what is now the Irby community, which was mostly rangeland at that time.

Until the Reynolds Brothers sold their X Ranch in Haskell and Throckmorton Counties in the 30's, they had two buffalo on the Reynolds' Wolf Creek Ranch. The shaggy creatures ranged freely over the huge ranch, but remained in the Wolf Creek area along the Clear Fork. They were often seen by fishermen and sportsmen allowed on the ranch, but

were generally given a wide berth because of their rumored viciousness and willingness to attack anything—car or cowboy—at which the buffalo became angered. They were said to be the survivors of a small herd of buffalo the late Col. R. V. Colbert of Stamford had accumulated on his ranch properties.

It is said the wild buffalo was inspiration for the song, popular in wartime, "Don't Fence Me In."

Whether true or not, we had always heard that a barbed wire fence meant nothing to a buffalo.

After becoming well acquainted with "Doug" Harrison, manager of the Wolf Creek Ranch for years, and the late John Culp, general manager of all the Reynolds Ranch properties in this area, we asked whether these two buffalo we had seen could be kept within a fenced pasture.

Both answered in the negative. Ordinarily, they explained, the buffalo was only grazing and grass was plentiful, the animal would turn after encountering a fairly "tight" fence.

At other times, when the buffalo were "on the move" looking for new feeding ground, the big animals would simply lower their heads and walk through any fence they came to, the ranchers said.

Back around the turn of the century, the Reynolds Ranch holdings were among the largest in this section, embracing a large area of Haskell and Throckmorton Counties.

They extended from the Clear Fork in the southeast corner of the county to within a few miles of Haskell, ending at the northwest corner of what later became known as the Bascom Pasture, adjacent to the farm of Mrs. Noah Lane.

Mr. and Mrs. Marvin Cobb, county pioneers who celebrated their 50th wedding anniversary several years ago, lived on the Reynolds Wolf Creek Ranch when they first married.

The ranch house still stands, but is probably unoccupied today. The ranch property is now owned by the Hendrick Estate of Abilene, but has been under lease for a number of years to Carl Damron.

Due to the rush of other matters, combined with a faulty memory, we failed to cover a case in County Court last week which we had fully intended to give our complete attention.

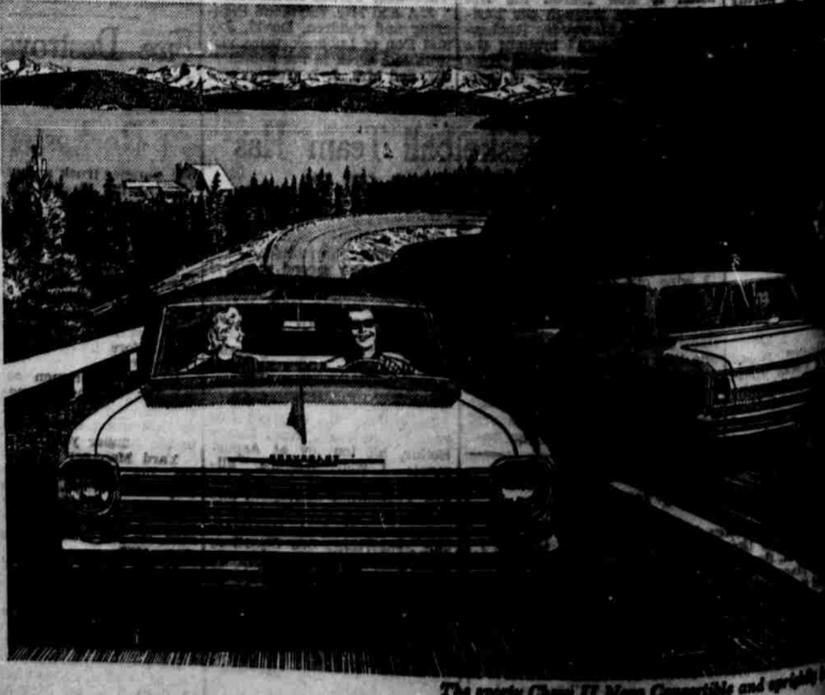

It was a land condemnation suit in County Court. Such hearings are frequent and can correctly be termed "run of the mill" cases.

Important feature of this particular proceeding was the fact that Attorney Joe Williams presided due to the disqualification of County Judge Jim Alvis.

We can report that in the opinion of all concerned, Judge Williams presided with credit to himself and the Court, and to the satisfaction of all litigants.

Area Merchant Admits to Horse And Buggy Store

Bernard Bule of Bule's in Stamford states "We still run a horse and buggy store and we like to have our customers know they have come to an old fashioned country store. We haven't done away with any trills—we just never had 'em. Consequently we sell furniture, pianos, Farmall tractors or mattresses for less. For the next two weeks we are conducting a disposal of choice merchandise at extreme discounts. We don't call it a sale, we just are discounting the already low overhauled prices you can find at plain old Bule's any week."

"We have always been a horse and buggy store from the time when lots of families came to town on Saturday in a wagon. In those days we were a plain country store selling horse collars, wash tubs, oil stoves and steel wheeled Farmalls. We knew then as you know, that the customer pays for fancy frills. Never in our 35 years have we been horse and buggy than right now; never have we been more shorn of non-essentials, white kid gloves and dream wrapping papers. We feel our whole store is bustin' out with bargains, but you won't find it bustin' out with beauty. Our merchandise is just stacked up and priced right—why not come in and look around with us at a bunch of plain high quality, unvarnished items. Bule's have it in stock if you can help us find it."—Adv.

In and Out The Tee-Pees

By JOANNE FRANKS

The busy month of February has passed and all the excitement with it. The highlight of the month was the Junior plays. They required much work and long hours for both the casts and their sponsors. The Juniors and their sponsors pass on their encouragement and sympathy to the Seniors and hope that amid all the hustle and bustle of their play there will be no accidents nor nervous breakdowns.

The activities for the coming month of March are also many. The Chamber of Commerce Banquet is the most important engagement thus far for the "Nineteens." They have practiced extra hours and extra hard to make this their finest appearance. The two newest engagements for the girls are the District Lions Club Convention in Knox City and the District National Bank Convention in the Windsor Hotel at Abilene in the middle of this month.

The mothers of these girls have worked just as hard as the girls and their directors. Mr. and Mrs. Hubert Bell. They have been busy every day making dresses and locating costumes for this occasion.

100 Girl Scouts Take Part In "Thinking Day" Program Feb. 22

Thursday, Feb. 22, was celebrated by 100 Haskell Girl Scouts, coming together at the Presbyterian Church for a "Thinking Day" ceremony. This day is the birthday of Lord Baden-Powell, who founded both Boy and Girl Scout organizations.

A flag ceremony led by Peggy Thigpen, Rita Woodard, and Cecilia Pitman of Troop 487 started the program. Mary Underwood gave the commands and after the audience of Brownies, Girl Scouts and leaders pledged allegiance to the flag, Diane Hester led in singing the National Anthem.

Dara Stephens of Troop 482 told the story of Juliette Gordon Low, who brought Girl Scouting to this country in 1912. She dedicated her life and her fortune, even to her prized family pearls, to the organizing of Girl Scouts.

Terry Kay Diggs of Troop 464 showed and explained her lovely pictures of Juliette Low's home in Savannah, Ga. These had been sent to her by her father, Terry Diggs, who is stationed at Fort Gordon, Ga. She is looking forward to visiting there herself during the coming summer.

Paula Terrell of Troop 463 gave a short talk on the purposes and aims of the Juliette Low World Friendship Fund. This fund was established as a memorial to Mrs. Low after her death and the purpose is to exchange counselors and Scouts with other lands, support international hostels such as "Our Chalet" in Switzerland, "Our Ark" in London, and "Our Cabana" in Mexico, and worldwide relief, such as food and clothing for the Congo.

Juliette Low's nickname was "Daisy" and so the Scouts had a "Dimes for Daisy" March, and raised \$7.73 as Haskell's contribution.

A film, "Wider Worlds" was

shown and told how service was given by Girl Scouts and Girl Guides in Mexico, the United States, Finland and Indochina. The farewell letter of Lord Baden-Powell to all Girl Scouts was read, and Diane Hester of Troop 487 led all the Scouts in singing "Taps."

Sgt. Phillips, a veteran of some 17 years in the military service, completed his final duty tour in Frankfurt, Germany. He and Mrs. Elmore left Bremerhaven Feb. 10 on the USMS Patch, arriving in New York Feb. 18.

Sgt. and Mrs. Phillips have not decided where they will make their home since he is out of the service.

RETURN TO ARIZONA

Airman First Class and Mrs. Bill Russell and little daughter, Mary Darice, have returned to Tucson, Ariz., after a two weeks visit here with their parents and grandparents, Mr. and Mrs. Burt Darnell and Mr. and Mrs. H. Russell.

The Great Ice Age ended about 10,000 years ago. It created thousands of lakes in the northern parts of Europe and North America.

Khaki uniforms were originated by British troops in India. They dipped their white uniforms in muddy water for slight camouflage.

HERE FROM LUBBOCK

Mrs. A. V. Cox and children, Lyle and Laura of Lubbock, were visitors last week in the home of Mrs. Cox's mother, Mrs. Osella Frierson, and with Mr. and Mrs. W. S. Cox of Paint Creek, parents of the Lubbock man. Mr. Cox was in Dallas on business and returned by way of Haskell for a brief visit and to accompany his wife and children home.

Blue-Gold Banquet Held By Cub Scouts

The Cub Scouts of Pack 36 of Haskell had their annual Blue-Gold Banquet Friday at 7:30 p. m. at the Elementary School. The theme was presented from Washington, Lincoln to President Kennedy. The Den Mothers had each table decorated beautifully for each den.

After Allegiance to the Flag, Bro. Jim Pennington of the Haskell Church of Christ, gave the invocation. A delicious meal was enjoyed by all.

Truett Latimer of Abilene Begins Active Campaign for State Senator

Truett Latimer of Taylor County, who has served ten years in the Texas Legislature, has begun his active campaign for State Senator of the 24th District. Latimer is a Democrat and the senior Representative from West Central Texas.

TRUETT LATIMER

He is a staunch advocate of the free enterprise system, local self government, and states rights with the corresponding burden of state responsibility.

As a member of the Legislature he has held many committee posts, including chairmanships and vice-chairmanships of important committees. He has served on twelve (12) committees including two terms on Appropriations, two on Water, three on Agriculture, and four on Insurance.

In 1955 he helped re-write the Texas Insurance Code. In 1957 he was author of the Texas Water Planning Act, the Texas Feed Control Act and also sponsored legislation calling for study of the state's constitution.

He was house author of the bill creating the Water District which is now constructing a reservoir on Hubbard Creek for the cities of Albany, Anson, Abilene and Breckenridge. As a member of the Water Committee he has helped many local areas through the creation of water districts.

In 1959 the Departmental Appropriations Subcommittee with Truett Latimer as chairman, cut the departmental budget requests \$7 million dollars. He also conducted an investigation of the State Health Department. The information he uncovered caused the Health Commissioner to resign, and the entire department was reorganized to cut out waste and duplication.

He has successfully sponsored many pieces of legislation with local and statewide significance and they are too numerous to mention here.

During his five terms in the Legislature, Latimer has been an effective leader who is responsible and conscientious. He is a hard worker who has become well-known for taking positive stands on issues confronting the Legislature.

In asking for a promotion to the Senate, Latimer said he believes his broad legislative experience fully qualifies him for the job. He is seeking the office based on his record of legislative accomplishments.

Latimer believes the 2% sales tax should be reduced to 1% straight across the board. This plan will simplify matters for the taxpayer, the retail merchant and the Comptroller who collects it.

Water will always be in the forefront as one of our major problems in West Texas. To insure an adequate water supply, we must explore every possible source and work together for the orderly development of our water resources. Latimer will help each area in every possible way with their water problems.

In the Senate, Latimer will continue to support agricultural research which has meant so much to the agricultural economy of this district.

He believes we should have

an effective small loan law. This legislation always passes the House and is consistently killed by the Senate. During the recent special session the House passed a bill that would have been the strongest loan shark law in the nation, only to be killed by a 14-16 vote in the Senate.

Latimer will also support an aggressive soil conservation program; a stronger lobby control law; deletion of traffic tickets from the present insurance plan; retention of the number one highway system in the nation; and a 70-mile speed limit on four-lane divided highways.

He believes we should continue to upgrade our schools and colleges and his support of education is a matter of record.

"We must develop an aggressive program designed to bring more tourists, businesses, and investments, as well as new industry to Texas. Through this type of program our state can grow on a sound basis without increasing taxes," Latimer stated.

He is opposed to a city sales tax and a state income tax. Latimer was born in Albany, reared at Lueders and received his B. A. Degree from Hardin-Simmons University. He is married to the former Judy Johnson of Morton and they have two children: Jeff, 3 years old and Laura Gail, 7 months old.

He is a member of the First Baptist Church in Abilene, a Rotarian, and a Jaycee. Latimer operated his own business and since 1955 has directed Ex-Student activities at Hardin-Simmons University.

His widowed mother, Mrs. Zora Latimer, still resides at Lueders.

Rotarians Plan For Conference At Brownwood

Robert R. King has been appointed by R. A. Lane, president of the Rotary Club of Haskell, as chairman of the club's "On to Brownwood" committee for the annual District 579 Conference.

The meeting will be held in Brownwood on Sunday and Monday, March 18 and 19. Officers and several members of

the local club are planning to attend.

District 579 includes 87 Rotary Clubs with more than 2300 members. Briggs Todd of Abilene is district governor.

The conference will open at 1 p. m. March 18 with registration in Hotel Brownwood. A "House of Friendship" will also open Sunday afternoon and continue throughout the conference. Rotarians and members of their families will be guests for a buffet supper Sunday evening.

Three breakfast meetings, one for club presidents, another for club secretaries and the third for other delegates, will be held Monday morning. A luncheon Monday noon and the Governor's banquet Monday night will complete the entertainment features of the program.

Many prominent speakers will appear on the three plenary sessions scheduled during the conference.

Ramsey of Merkel officiated for the rites and burial was in Rule Cemetery under direction of Pinkard - Smith Funeral Home of Rochester.

Mr. Richards died Sunday at 11:40 p. m. in the Rochester Clinic Hospital after suffering a heart attack.

He was born Sept. 27, 1887, in Stephenville, and married Rosa Freeman April 3, 1911, in Rule. Mr. Richards came to Haskell County in 1910 and had lived in Rule since.

Negro Holdup Men Find West Texas Justice Is Quickly Administered

Within less than 30 minutes after they had pulled an attempted holdup of the M-System Food Store in Knox City last Thursday, two Waco Negro men were taken in custody by Sheriff Garth Garrett and Deputy Pete Mercer, who intercepted the pair on US Highway 277 between Weimer and Skell.

Officers said the Negroes, identified as George Curry, 30, and James Stanley Winn, 20, both of Waco, took approximately \$8.40 from the cash register of the Knox City store while the store's cashier, Mrs. Lois Buckley, had momentarily turned away from the reg-

ister to get a package of tobacco one of the Negroes had asked for. When she turned back to the register, she saw the Negro taking bills from the register. She grabbed the Negro, pressed a buzzer on the counter for help and started screaming as the Negroes fled the store.

Knox City officers immediately put out a description of the men and their car and officers throughout the area were alerted.

Sheriff Garrett and Deputy Mercer met the Negroes about four miles south of Weimer, turned and overtook the culprits after a mile chase. They offered no resistance.

The suspects were taken to Monday and given into custody of Knox County Sheriff H. C. Stone.

Charged with misdemeanor theft, the two Negroes were arraigned before County Judge L. A. Parker at Benjamin Thursday afternoon and entered pleas of guilty. Fines of \$250 and 60-day jail sentences were assessed against each Negro by Judge Parker.

Cancer Chapter Workroom Now On West Side

In the future, the workroom for the local chapter of the American Cancer Society will be located in the building between Jones Cox & Company and the Bischoffhausen Barber Shop on the west side of the square.

The workroom is being fitted out this week, and donations to help equip the workroom will be gratefully received. About \$16 is needed to purchase plywood needed as tops for tables. Donations will be appreciated for other needed items, such as chairs, shelving linoleum for floor covering, etc.

The chapter has a regular workday each Thursday, when bandages and other supplies are made by volunteer workers. As material for making supplies, the chapter will appreciate gifts of old sheets, both white and colored, and pillow cases.

Persons wishing to make donations may do so by contacting Mrs. Lee Brown or Mrs. R. W. Herren.

MRS. A. J. JOSSELET SUFFERS STROKE

Mrs. A. J. Josselet is recovering slowly after suffering a stroke last Sunday at the family home, which left her seriously ill. Relatives who came to be at her bedside included her daughters, Mrs. Jewel Gilleland of Tulsa, Mrs. Ruth Ferguson and Mrs. Dorothy Thompson, both of Lubbock.

A home specialist says the average housewife washes six tons of dishes annually.

Skunk, Believed Rabid, Attacks Mrs. Noah Lane

A skunk, or "polecat," believed to be rabid, attacked and bit Mrs. Noah Lane early Sunday morning at her farm home a few miles southeast of town.

How the animal got into the house could not be imagined. Mrs. Lane, whose little four-year-old grandson Les was spending the night with her, was awakened when the skunk jumped on her bed and bit her just above the eye.

She beat the animal off, and attempted to hold a blanket over it on the floor but it escaped.

She called her son, Buddy Lane, who with his wife lives in a house nearby. He cornered the skunk in the kitchen of the house and killed it. The animal was taken to Dr. David Ballard in Stamford and he sent the head to Austin for examination.

Pending definite information whether the skunk had rabies, Mrs. Lane is being given emergency treatment at the Haskell Hospital.

For some unaccountable reason, and despite the apparent viciousness of the animal in attacking Mrs. Lane, little trace of the skunk's presence in the house could be detected, it was reported.

Relative of the David Duncans In Plane Crash

A young Navy officer killed in a mid-air collision over the Pacific Ocean Friday, was the brother of Mrs. David Duncan of Austin.

Killed was Navy Lt. (j. g.) Charles Edward Morris, 24, of San Antonio. He was navigator on a plane based on the carrier Yorktown which was en route to the United States.

Pilot of the plane was also killed when it fell in the Pacific. Bodies of the victims were not recovered.

Mr. and Mrs. Belton Duncan of this city were on their way to Austin to visit their son, David and wife, at the time of the tragedy.

The Haskell couple went on to San Antonio and joined their son and daughter-in-law and other relatives in attending memorial services for Lt. Morris, held at 4:30 p. m. Monday at Grace Presbyterian Church in San Antonio. Lt. Morris was the son of Mr. and Mrs. W. L. A. Morris of San Antonio.

Dedication of Catholic Church Set March 4th

The dedication of the Saint George Catholic Church has been scheduled for Sunday, March 4, at 8:00 p. m. Officially at the dedication will be The Most Reverend Thomas J. Drury, B.D., Bishop of the San Angelo Diocese. In addition to giving the church blessing, Bishop Drury will offer Holy Mass and will give the sermon.

The Pastor of Saint George Church is Father James A. Meures. Associate Pastor is Father Ralph A. Goddard. Father Meures has indicated that approximately 18 priests of the area will be guests at the dedication. Also attending will be the Fourth Degree Knights of Columbus who will form an honor guard for the Bishop and lead the procession. Also receiving special invitations for the occasions are the Our Lady of Victory Missionary Sisters, Abilene, who teach Catechism in this parish and the Sisters of Divine Providence, Abilene.

The new church replaces the mission building which Haskell Catholics used for several years. Architect was John J. Luther, Tittle and Luther Architectural Firm in Abilene. Gale Gabbath, Abilene, was the Contractor.

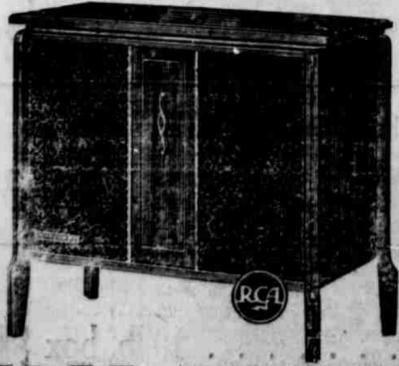

Immediately preceding the dedication, the Catholic Women's Guild will conduct an open house, from 4:30 to 5:30 P. M. Anyone interested in attending either the open house, the dedication or both, will receive a most cordial welcome.
