...LONG VIGIL BY GARRETT AND GIBSON CLEARS 8 BREAK-INS

An all night vigil by Haskell County Sheriff Garth Garrett and Stonewall County Sheriff Charles Gibson resulted in the arrest early Monday of a 20-year-old Old Glory man who since has signed statements concerning eight area break-ins since Christmas night.

Haskell District Atty. Royce Adkins obtained statements in the presence of the arresting officers in his office here late Monday.

The suspect was arrested at his Old Glory home after officers received a tip about a liquor store break-in. The officers caught the alleged suspect as he approached his residence.

The Koonce family lived and farmed on an extensive piece of property southeast of Haskell near Paul Creek, later establishing a home in Haskell.

The body was brought by train to Sweetwater, arriving Wednesday, and was brought by Holden Funeral Home coach here where it lay in state until 1 p. m. Wednesday.

Other burglaries with which the man has been linked, according to Sheriff Garrett, were at the Quaddy Liquor Store just west of Sagerton on January 15; the Sellers Gulf Service Station, Sagerton, the same night; the Davis Shamrock Service Station in Rule, Feb. 8; the Rentro Grocery, Haskell, March 7; two break-ins, one on Christmas night, 1963, and the second Jan. 15 at Gene's Drive-in operated by Gene Tonn at the intersection of Highway 24 and Aspermont-Stamford highway, a mile southwest of Old Glory.

INDIANS GET TALLEST TROPHY AT COLEMAN; SEYMOUR NEXT

Prior to the Coleman win, Haskell's shiny cleats placed second in the respected Possum Kingdom Relays at Graham behind Lake Highlands, and were a healthy fourth place finisher in their season's first outing at Iowa Park.

This Saturday, Haskell will be pitted against at least three of the five District 6-AA rivals it will see in the 6-AA district meet on the campus at McMurry College, Abilene, April 11. So the Seymour spectacle

Tickets for the 28th annual Haskell Chamber of Commerce banquet to be held in Indian Gymnasium here Friday night,

March 27, are well on their way to sellout status. Abe Turner, president, and Max Towne, manager, announced on Wednesday.

More than 300 of the 450 available tickets had been bought Wednesday for the annual spectacular event here, still eight days away, and Turner urged area citizens interested in attending to contact the Chamber of Commerce office in Haskell about reservations in order to assure a seat.

Louie E. Throgmorton, retired executive of the Republic National Life Insurance Company of Dallas, in such demand as a speaker that he has averaged 400 addresses and some 200,000 miles a year in traveling to engagements, during the past several years, will make the principal address of a scheduled fast-moving program.

Mr. Throgmorton is one of the organizers of the Religious Heritage of America, Inc., and now serves on its board of trustees.

His subject at the Haskell Chamber banquet will be a timely one "Those Who Care Build Cities."

Wallace Cox, Jr., young Haskell businessman, is chairman of the ticket selling brigade here, and longtime Haskell citizen, J. M. Crawford, continues to lead the ducat dispensers, with some 75 already sold by Crawford alone.

Chalk up a point in favor of the freshman class at Goree High School for long-range planning.

The class announced Tuesday it will sponsor a domino tournament at the Goree Memorial Building Friday night, March 20, at 7 p. m., with prizes going to the first three winners.

Proceeds from the domino tourney will go to finance the senior trip this freshman class will take in the Spring of 1967.

Pete Eaton Faces Mayor A. E. Ball For Top Rule Post

Although two incumbent city councilmen are unopposed, Mayor A. E. Ball will have opposition in the April 7th city election in Rule.

A. R. (Pete) Eaton has announced his candidacy for the mayor's post.

City Councilmen R. E. McCandless and James Moore, who have filed for re-election, are unopposed.

Political cauldrons have gone from simmer to boil around the Haskell Jaycees' headquarters during the past week, with a continuous jockeying for positions as an April 7 election nears.

Two previously announced candidates for the secretary and treasurer's slots, Duke and Dan Dixon, respectively, withdrew due to lack of time to devote to the potential jobs, and two new names loomed up in their stead.

The two top posts in the Jaycee organization will be contested. Offering themselves as candidates for president are: Jesse Priest, state highway patrolman headquartered here, and Wayne Bradford, partner in Frazier's Appliances, a firm on the Courthouse Square.

Bill Tomlinson, printer at the Haskell Free Press, and James Franklin, assistant cashier at the Haskell National Bank, are squaring off in the race for first vice president.

Six hopefuls have announced for three slots on the Jaycee board of directors. They are David Strickland, Duke Dixon, Oris Gibson, Lyndon Harris, Allen Rieves and Joe Warren.

Only one candidate has announced for the second vice president, secretary, and treasurer jobs. They are T. J. Ballard, Alton Peiser and Von Marr, running for the three positions, in that order.

Haskell, The Beautiful? ... We Could Make It So

In the United States, for unaccountable reasons, some officials at all levels of government tend to shy away from projects designed to enhance natural beauty. To an unfortunate extent, this also is true of part of the general public.

Today in many projects of government, natural beauty is neglected, though the situation has changed somewhat for the better in recent years. Some very false and very costly ideas still exist, however, in various departments of government with respect to land.

On the other hand, the Soil Conservation Service justifiably spends large sums and great effort to control erosion and conserve land. Then along comes the F.H.A. which undoes the good work by refusing to allow funds for adequate landscaping to be included in the home mortgage. There's no policy against this—it's just an attitude, which shows a lack of appreciation of the fact that land, in order not to erode, must be planted, especially in West Texas. For just this reason, some housing developments with which we are familiar, have eroded almost beyond restoration.

People move out of housing developments and values decline where the land has been neglected and where it is not beautified. They seldom move out of beautifully landscaped homes, and, if they do, someone else immediately moves in.

Landscaping has a sound function. It not only controls erosion, it also is a tremendous bulwark against "picking up and leaving." It is not too far-fetched to opine that landscaping and community beautification are just as important factors as any to invite progress, development, economic growth and stability in a town. We'd even say it would help lure industry. The folks who turn the wheels flock to soothing surroundings.

The purpose of home landscaping is to provide maximum comfort and convenience for the family. For factories, it provides more desirable working conditions. For a town like ours, it is a trade and tourist booster. For highways, it has been proved to save lives by reducing headlight glare, relieving monotony, and serving as directional guides.

Potentials exist in every piece of land. By proper care of the land, we all can be proud of it. Neglected, it can be ugly, as much of it is now.

Land neglect can cause a vast loss to the nation, economically as well as aesthetically. Planting and landscaping can be the cure. The purpose of this piece is to remind that NOW IS THE TIME TO SPRUCE UP YOUR PREMISES, "police your area," as they say in the military. Plant, produce pulchritude... prosper.

Our Hearts And Hearths Are Yours... Ladies of Mesquite District, TFWC

For the second consecutive weekend, Haskell will be the showcase of the countryside, opening its collective heart and hearth, this time to a pulchritudinous assembly of lady leadership. They are officers and key committee heads of the Mesquite District, Texas Federated Women's Clubs in Northwest and North Central Texas.

One of our very own, Mrs. R. W. Herren, has dedicatedly served this public spirited and culturally minded organization for the past two years. The meeting here in her home town is a testimonial to this dedication and devotion by Anita Herren, and climaxes her tenure in office.

We are not unmindful of the tremendous influence for good, for community betterment, cultural development, for happy, compatible existence, and all-around productive, Christian living exerted by federated women's clubs, individually, and locally, and at district, state, and national level.

Haskell hopes, Ladies, that your stay among us is as pleasurable and productive as is our happiness over your choice of our town for your important annual deliberations.

And may we here publicly record our deep gratitude for the day-to-day role you are assuming, both in your own homes, and in public service, in shouldering the responsibility for making this land of ours a better place in which to live.

God speed you in all your exemplary efforts and projects.

Haskell truly was a Haven of Hospitality On The Highway last weekend with Legionnaires and their Ladies from 19 area counties converging on our town for the 13th District American Legion convention.

What the host post here and other Haskellites did for the numerous guests last weekend helped the "image" of our town immeasurably, and we know more of the same is in store when our threshold is crossed by some 200 members of the Mesquite District, TFWC, assembling here tomorrow and Saturday.

To open our hearts and hearths to these folks like we are doing is a big boost for Haskell. Makes us feel mighty proud.

We see where female fedora fashions this Spring are shaping up in behalf of the "pointed head" effect. Well now, that's convenient. With a built-in, someone we know, bless her little won't need any eye-pegear, since she is in the vogue!

Now that we said THAT, someone probably will take back what she said the other night about our resemblance to the fellow who comes riding in on the white charger in the Ajax commercial.

It probably was a case of who pulled the wool over whose eyes when Peggy McNair, of Wichita Falls, "Miss Wool" this year, hair up in curlers, with little lamb appropriately tucked under arm, made an unheralded visit one evening last week to Lane-Folker's, where Mattie Murrell was toiling late. Peggy was in between personal appearances, and spontaneously stepped on a wool gatcher's holiday. We hear tell this Intriguer was intrigued herself with her visit, Mattie Murrell ain't no slouch herself when it comes to merchandising!

This bein' "wit" on St. Patrick's Day reminds us of the folks who claim Irish antecedents on this day, whether bona fide or not. A classic example is the Year Notre Dame, known universally as the Fightin' Irish, and which always has a lineup filled with tongue-twistin' names, had a certain backfield. And the great rouser: Graham McNamee said, "And onto the field come the Fightin' Irish, led by their tremendous backfield: Melinkovitch, Schwartz, Chketyak and Carideo."

After last weekend's experiences, this reporter keeps hummin' a song, "I Don't Want To Set The World On Fire... and wish the rest of the folks would quit tryin' to!"

We read the other day that making up your mind is like making a bed. It usually helps to have someone on the other side. Which, if true, means we gotta whole passel of bed-makers around here.

One of the stock statements in this season of tax paying is the question, "Are you rendered?" And our stock answer is, "No, just quartered and drawn."

It came out in Rotary banter last Thursday via Pat Morrison that one of Hooper Wilkin's favorite tunes is "Teen Angel." Considering that up with which Hooper puts in the teen age realm, this is what we would call real wishful thinking!

Been tryin' to see if Alvin Sherman would consider including us in some sort of business arrangement. "Sherman Oaks" already has a real solid image. So does Dumbarton Oaks. And Mighty. But not Scrub or Poison.

We were readin' in the 25-years-ago column of an area newspaper the other day that one, Charles H. Tennyson, then a history teacher in high school (we know, 'cause we went to him, but it was PRIOR to 25 years ago!) had been elected president of District 7, Texas State Teachers' Association. We reckon that was probably one of the real stepping stones to Charles' ascendancy to the pinnacle of TSTA, which he has guided as its executive lo, these many years.

Charles Tennyson was a pop-

Three stills, 1200 gallons of mash, and a small quantity of liquor were seized when officers raided five places in the northwest part of the county on Thursday. Taking part in the raids were Deputy Sheriffs Olen Dotson and Dan Kirkpatrick, Constable Bill Davis, of Rochester, and City Marshall Jim McCoy, of Rule. Three men were arrested in the raids. The stills, which were found west of Rochester, were not in operation when discovered. Only a small quantity of liquor was found at the other two places hit by the raiders, near O'Brien. The stills were of 50, 60 and 100 gallon capacity. Corn, rye, and peach mash were found, and the officers said.

Funeral for W. P. Whitman, 83, pioneer Haskell County merchant and stockman, was held Tuesday afternoon at the First Baptist Church.

Rev. and Mrs. H. R. Whitley spent several days in Pampa this week visiting their son and wife. Mr. and Mrs. Herman Whitley.

Mr. and Mrs. John A. Couch and Mrs. R. J. Reynolds were in Abilene the first of the week. S. Hassen was a business vis-

itor school teacher, and seems to have had more nicknames than any teacher in our memory. Wonder if the same yardstick applies today... the more nicknames a teacher has, none of which a student would call to the teacher's face... the more popular. That's the way it seems it used to be.

Seeing stories in the dailies about Latin Club plays recently takes us back to the only two fights we initiated in school days. Both were challenges we issued to the hecklers to meet us on the "fightin' grounds" after being taunted by schoolmates, once for wearin' a Scotch kilt ("dress" to the undisciplined) and another time, for wearin' a Roman wrap around toga, both in school plays. Bein' called a "sissy", naturally, was the overt act promoting the fistic encounters. If a public decision had been announced, we split about even, and nothing else was, we're pleased to say, in the two ring appearances.

Don't think there's anything more frustrating than trying to buy three palm leaves in palm-tree adorned San Antonio. That was a recent experience of ours, and it was hilarious. Finally brought home the prize, though, and got it legitimate, though the temptations were great to "liberate" the object of our search.

When one sees one's offspring appearing in some public display of his or her abilities, said offspring is not only the apple of our eye. He or she is the whole orchard... which is as it should be, we reckon. We had this experience recently, and had to get the buttons sewed back on the shirt we wore that day.

Heard roundin' the Square (honest!)—He: I can sow sorghum alum. She: "I can sow wild oats... let's get together and diversify our crops."

Oakescript: Pity the poor newspaper editor, and the knife he carries in his back. But it only hurts when he laughs.

Half of County's Vehicles Still Lack Inspection

The time is almost here—April 15th is the deadline for having your 1964 Motor Vehicle Inspection sticker displayed in the lower right hand corner of your windshield. Only 50% of the 604,369 registered vehicles in Region No. 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1964 safety inspection sticker, according to Captain Alan Johnson, Motor Vehicle Inspection Service of the D.P.S.

"Residents of Haskell County own 6,604 registered vehicles, and 3,400 have not been inspected yet," Johnson said.

"Under the law there can be no extension of the deadline, and motorists who fail to display the new sticker on and after April 16th are subject to arrest," he said. Authority for the enforcement of the provisions of the Motor Vehicle Inspection Act is vested in any Sheriff or Deputy Sheriff and City Policeman as well as the enforcement officers of the Texas Department of Public Safety.

According to Captain Johnson there are seven state inspection stations located in this county.

Army Captain William E. Harper, son of Mrs. Una G. Hines, of Rochester, and more than 800 other soldiers of the 173d Airborne Brigade, at Fort Buckner, Okinawa, recently completed nine days of jungle warfare training on Irimote Island, home of the brigade's Jungle Warfare Training Center, according to word received here.

The island, second largest of the Ryuku chain, lies 250 miles southwest of Okinawa and 120 miles east of Taiwan. Cliffs and steep slopes predominate its shoreline, beyond which tropical forests rise to a rough mountainous interior.

Captain Harper, commander of Company A, 2d Battalion of the Brigade's 503d Infantry on Okinawa, was instructed in techniques of combat and survival, day and night navigation, and the employment of special equipment, all jungle-oriented. He was also taught to utilize the quick hit-and-run tactics of the guerrilla fighter, a type of mobile warfare vital to a paratrooper's effectiveness in both conventional and unconventional warfare.

Harper entered the Army in 1958, and arrived overseas in July, 1963, on his current tour of duty.

The captain is a 1954 graduate of Rochester High School.

With the burst of Spring the first day being next Friday, everything seems to take on new zest for life and living. Activities and events sort of put off for awhile seem to find their way onto the calendar and so the days and hours fill up to overflowing before we can say "Rumpelstiltskin."

Of prime importance for March is an Adult 4-H Leader Workshop to be held at the Christian Youth Retreat at Brownwood Lake March 22-24. Each of the 22 counties in District 3 will be eligible to send five women and five men to the training school. Haskell County 4-H girls will benefit greatly as our leaders have been expressing the need for further training to help them to be better qualified to help the girls. The leaders will attend special classes in Organization, Citizenship, Clothing, Foods and Nutrition, and Housing. County Extension Agents will also attend the workshop and special classes for their benefit will be conducted. Names of leaders who will attend this workshop will be announced next week.

Taking proper care of shoes was discussed and demonstrated to the 4-H clubs over Haskell County last week. Perhaps parents and teachers will see some results through cleaner and better polished shoes. We like to think there will be some good results following the meetings. At least from the demonstration on the "5 B's" we surveyed a bit and have the following information: 14 secured a new hairbrush, 80% started brushing their hair more often and 69 were motivated to improve their hair style. 37 added a new toothbrush and 115 started brushing more often while 114 improved their method or technique of brushing. 24 4-H families added nail brushes for better groomed hands.

ALDERMAN

(City Council)

April 7, 1964

I Am Running "FOR" The Office . . . And Not "AGAINST" Any Person

- I STAND FOR:**
- 1. A Council that works for the people and makes public all city business.
 - 2. The periodic publication of City Financial statements.
 - 3. Cooperation by the City with all progressive civic organizations, especially the Chamber of Commerce.
 - 4. An intelligent and friendly approach to all city problems through rational deliberation rather than expensive lawsuits.

As for our water situation, here is where I stand:

Before we cast off as worthless any possibility of solution to our water problem, we should **THINK**. We have, in the past, failed to take advantage of opportunities. Today, we are trying desperately to reclaim one opportunity that we rejected in years past.

Our solution rests with three simple alternatives:

1. If we have plenty of water underground, then I propose that we build an adequate filtering plant, wherein the water can be chemically treated to cut down its mineral content and purified to public health standards.
2. If our underground supply is inadequate, the people should know the facts—and we should exhaust the possibility and the feasibility of going to Lake Stamford.
3. If this is not possible, we should consider (without animosity) the possibility of other surface water resources—before we hot-headedly reject them as worthless—and later regret it.

WE MUST BURY THE HATCHET AND ACT RATIONALLY NOW!

Give the younger generation a voice in projects that they will have to pay for anyway.

The Good Earth

As the rays of the sun A gay pattern weaves, Violets are peeping Up through the leaves.

by MRS. B. F. COBB

Many bedding plants will be set in the garden in the next few days. Precaution should be taken against damage from frost, wind or sun, when the tender flowers or vegetables are first set out in the garden. Protection can be had by using hot caps, paper cups, tin cans or milk cartons. Be sure to anchor the covers well. This can be done by piling dirt close around the cover, or by putting a rock on top of it.

Milk cartons, with the top cut off and windows cut near the bottom, make real good plant conditioners. Invert the carton over the plants. This places the windows at the top. Turn the openings north and south, so the plants get air, but no sun. Close the windows at night. Do this for three nights. Then move the whole carton over the plant for two or three hours a day. The weather permitting, plants should be ready in a week, to grow without any protection.

The old garden fever has bitten me. About this time every year, I visit the nurseries, and drool over the many plants that are available. As I visited

County's First Traffic Death In 1964 Is Recorded

Lester J. Slentz, of Graham, field superintendent for R. H. Siegfried Oil Corp. of Tulsa, Okla., was killed when his car went out of control and overturned several times on a farm to market road in the extreme northeast corner of Haskell County at 8:25 p. m. last Wednesday.

Slentz's death was the first motor vehicle fatality in this county in 1964.

Prior to last Wednesday's traffic death, there had been no fatalities on streets and highways of Haskell County since June 15, 1963, almost nine months.

Investigating officers said Slentz's crash happened 10 miles east of U. S. 277 on the Weinert-Throckmorton road, FM 3720, one mile west of the Throckmorton County line inside Haskell County.

Slentz, 41, was dead when found still in his upside-down automobile fastened in a seat belt. Lee White, a mechanic for the John Deere Co. in Munday found the wreck on the pavement. Site of the crash was 11.4 miles northeast of Weinert.

The body was taken to McCauley Funeral Home in Munday by Charles McCauley, funeral director there, and later moved to Graham for funeral

CAROLYN FISCHER, BONNIE HOWARD MENTIONED BARTLEY AND HOLLAR ALL- DISTRICT 6-AA IN GIRLS' B-BALL

All-District 6-AA girls' basketball and a group honorably mentioned were announced last Thursday following a conference in Abilene of coaches from the district schools. Coach David Middleton was the Haskell representative.

Haskell, Hamlin and Lakeview each placed two on the All-District sextet. The first team selections were:

Eva Bartley, Haskell; Zula Tomlinson, Lakeview; and Barbara Lakey, Hamlin, forwards; Nancy Hollar, Haskell; Phyllis Scarborough, Hamlin; Ann Bean, Winters; Sally Stovall, Lakeview, guards.

Second team: Nicki Eoff, Winters; Madelon Hunt, Anson; Judy Jenkins, Hamlin, forwards; Sandra Cooley, Anson; June Watson, Lakeview; Carol Freeman, Ballinger, guards.

Two Haskell Squaws received honorable mention.

Honorably mentioned were: Felicia Roberts, Anson; Caro-

lyn Fischer, Haskell; Betty Wagner, Lakeview; Mary Gerdes, Ballinger; and Elaine Beard, Winters, forwards; Darlene Hinkle, Anson, Bonnie Howard, Haskell, Linda Marshall, Lakeview, and Kay Hodnett, Hamlin, guards.

Haskell Justice of the Peace Virgil Brown ruled the death accidental.

A Knox City pumper for the oil company said Slentz had left Knox City shortly before 8 p. m. to return to Graham. A severed right rear wheel may have been a factor in the accident, officers said.

Highway Patrolman Tommy Wood of Haskell said the 1961 auto Slentz was driving traveled 1,059 feet out of control on a curve, turning over three and a half times.

Also investigating at the scene were Haskell County Sheriff Garth Garrett, Munday City Marshall Joe Massey, Deputy Sheriff Pete Mercer and Haskell Police Chief Tom Paul Barnett.

Sheriff Garrett said he understood Slentz moved to Graham from Levelland six months ago.

He is survived by his wife and three children.

PATTERNS FOR PROGRESS

NATURAL RESOURCES

... basic factor in economic development

Many industries are established close to natural resources. One is pictured above — the Bestwall Gypsum Company near Quanah, where gypsum wall board and allied products are made. It is near Quanah because of large gypsum deposits there, and is a perfect illustration of the economic value of a natural resource to a community.

Employing 200 people, it adds payrolls, increases consumer sales, builds deposits in banks such as the one pictured left, and is a major factor in the Quanah economy.

This is a PATTERN FOR PROGRESS.

It is because here is a manufacturer using a natural resource. National studies show that each 100 new factory workers in a community increase local personal income by \$660,000, bank deposits by \$229,000, and create 65 new nonmanufacturing jobs, besides increasing all types of consumer sales.

The manufacture of natural resources pays big profits to a community, and almost every community has natural resources subject to development. WTU urges every community to assess and evaluate its own natural resources as a basic step in economic development.

Mesquite District TFWC Convention To Open Here

A total of 135 federated women's club members from all over Northwest-Central Texas, a record, had pre-registered by Wednesday for the fourth annual spring convention of the Mesquite District, TFWC, to be held here Saturday, Mrs. Bailey Toliver, of Haskell, general chairman of the convention, announced. Carleton, of Houston, an address by Kathryn Duff, assistant editor of the Abilene Reporter-News, a Zodiac Style Show with fashions from Lane-Felker of Haskell, and selection of sites for the 1964 fall board meeting and 1965 convention.

Haskell had the red carpet ready Thursday on the eve of the opening of the preliminaries to the convention, which begin Friday afternoon with an executive committee luncheon at the home of Mrs. R. W. Herren, of Haskell, outgoing president of the Mesquite District.

The convention theme will be "Re-entry: Applied Knowledge." Mrs. Robert Wheatley joins Mrs. Toliver as arrangements chairman of the convention.

OUR TOWN WAS REPRESENTED at the recent Abilene Chamber of Commerce annual banquet by a large group of folks, among whom were President and Mrs. Abe Turner, of our Chamber of

Commerce, at right here. Abe is "shop talking" with two other guests, John Boren and Charles Hartman, both of Snyder, while Mrs. Turner waits for her turn in the serving line at the huge

event which drew 1,200 persons to Rose Field House, where Charles Ferguson, formerly of Abilene, senior editor of Reader's Digest, was the principal speaker.

State Representative Roy Arledge Cites Rising Stature of Women At B&PW

State Representative Roy Arledge, of Stamford, addressing the Business and Professional Women's Club of Haskell this week on "The Changing Status of Women," said that scientists have proved men and women have approximately the same size brain, "but women have a small edge in intelligence."

The Texas legislator, who represents Haskell, Baylor, Knox, Throckmorton and Jones counties in the State Legislature, was introduced by District Judge Ben Charlie Chapman, of Haskell.

Arledge told his audience, "In the past few years, women have entered most fields of industry and business and have proved themselves capable. However, love and marriage still come first for women, as it should be."

He called attention to the fact that since World War II, women of other nations have made themselves known in many different ways, obtaining the right to vote and entering fields previously never unfilled by women.

Fletcher West, Relative of Two At Rule, Dies

Fletcher A. West, 82, former longtime Haskell County resident, died on March 4 in the Colonial Nursing Home in San Angelo. Funeral services were held March 6 at the Robert Massie Chapel there, and burial was in San Angelo. He was the father and brother of residents of Haskell.

Grassroots Group With' Dam Project

County Judge James C. Alvis heard the "situation presented as we see it" by three federal and state agency top leaders long experienced in water matters in Texas. They were Harry P. Burleigh, of Austin, regional engineer of the U. S. Bureau of Reclamation; Hap Iretton, also of Austin, an engineer on his staff; and Colonel Walter J. Wells, of Waco, general manager of the Brazos River Water Authority.

Mack Myers, longtime advocate of the dam project in this territory, hosted the fact-finding session at which procedures for launching a federal project were meticulously outlined by the visiting experts.

Undaunted by the consensus of the agency representatives that such a project would take not less than 9 years for completion, the citizens' group, which now has some 6,000 signatures on a petition pointing up the urgent desire of area citizens for the dam, said it would continue to assemble the

Rochester Youth Is Shock Victim At Richardson

Ronnie L. Huntsman, 21, former track team member at McMurry College and Rochester High School, was killed at 9:50 a. m. Saturday by an electrical shock in the Texas Instruments Plant in Richardson where he worked as a technician.

He was the son of Mr. and Mrs. O. J. Huntsman of Rochester.

A plant spokesman said that Huntsman was shocked while operating the starting mechanism for an electrically heated chemical furnace in the plant's silicon manufacturing facility.

Huntsman entered McMurry College in the fall of 1961 after concluding an outstanding athletic career at Rochester High School. He earned nine letters in Rochester High School, three each in basketball, track and football.

He was named to the All-Area Class B football team by the Abilene Reporter-News his final two years. In track, he competed in hurdles and high-jump events.

In February, 1963, he transferred to Tarleton State College before going to work for the Texas Instrument Company.

He had worked for them seven months.

Born Dec. 19, 1943, in Knox City, he lived all his life in Rochester, except while attending college and while working for the Texas Instrument Company in Richardson. At McMurry College, he was a member of the Kiva fraternity.

Funeral was held in the Rochester High School auditorium Monday with Smith Funeral Home in charge of arrangements.

Burial was in Rochester Cemetery.

He is survived by his parents, two brothers, O. J. Jr., of Bartlesville, Okla., and Jimmy of Knox City; and one sister, Mrs. Cracker Ballard of Rochester.

Legionnaires

(Continued from Page 1)

drew upwards of 200 registrants. It was held simultaneously with the district auxiliary meeting at which Mrs. Harold J. Cooper, of Beaumont, state president, was honored guest.

Mrs. J. O. Burk, of Vernon, district president, called the session to order in the Community Room of Haskell National Bank. Mrs. Herbert Ray and Mrs. Roy Pittman, of Haskell, advanced the colors, and Mrs. Edna Grubbs recited the preamble.

Mrs. Henry Druessedow, Jr., of Haskell, president of the Haskell Legion auxiliary, delivered a welcome address, which was answered by Mrs. D. Frank Cummins, wife of the district legion commander, of Denton.

Following committee reports on rules, credentials and resolutions, unit presidents reported, and Mrs. George Backus, 13th district vice president, reported on membership.

Mrs. Clayton Mann, of Wichita Falls, wife of a newly elected member of the state board of trustees in the Legion, and a department officer herself in the Auxiliary, discussed the importance of Auxiliary support for civil defense organizations. Mrs. Joe L. Matthews, of Fort Worth, presented rehabilitation matters as state chairman, and Mrs. Elsie King, of Henrietta, talked on the child welfare program of the Auxiliary.

Mrs. Cooper, the state president, concluded the program agenda with an address.

When the Legion and Auxiliary convention opened here Saturday, United States flags graced the fronts of 110 business establishments in Haskell in a hospitable salute to the host community to the Legionnaires. The Haskell Volunteer Fire Department, which is custodian of the Colors, unfurled and cases the flags only on designated holidays during the year, but Saturday for the first time departed custom in the salute to the visiting members of the American Legion.

"We could not think of a more appropriate gesture to such an organization. It is certainly symbolic of the Americanism for which the Legion stands," declared Haskell Fire Chief Tom Watson and Fire Department Supervisor Floyd Lusk.

Fred C. Brookman, long-time service officer and former Burk Burnett newspaper publisher, briefed county service officers on rehabilitation activities as one of the convention highlights.

Mrs. Druessedow and Mrs. Truett Parsons, wife of the adjutant of the Haskell post, were official greeters, receptionists and registrars throughout the convention.

The Haskell Free Press and its editor were the subjects of resolutions passed at the convention for exemplary service in publicizing the convention and for cooperation with the host post in Haskell on all phases of the convention planning and staging.

Abe Turner, president of the Haskell Chamber of Commerce; James Condron, sergeant-at-arms, from Throckmorton; and Billy Ray Wright,

postmaster of Electra, former district chaplain, joined Haskell Post Commander R. V. Black in having key roles on the convention program, in addition to those already named.

I noticed this sign down at Lane-Felker's: "Everyone Should Pay Taxes With A Smile... I tried it, but they wanted cash."

These well-versed lines I saw displayed over at Jones-Cox: "Rules have to be used when brains aren't." "I'm not really busy, just disorganized." "This is Judgement Day. Use Plenty of It." "Caution, be sure brain is in gear, before putting mouth in motion."

I had the privilege of attending a program at the Rochester school recently. I have never seen such a well-mannered, well-disciplined group of students as to be found at Rochester. The students moved into, and out of, the auditorium quietly and orderly, and while the Paducah High School band and choral club presented their program, the Rochester student body listened attentively, were courteous, polite and never even whispered. Rochester has a first class school plant, of which I know they are justly proud. Congratulations students, faculty, school board, P-TA and residents.

A couple more "cute" elephant jokes comes by way of Jewel Bynum: "How do you keep an elephant from stampeding?" "out his stamper off. And "How do you keep an elephant from charging?" "Take away his credit card."

The three greatest masterpieces in literature, it is said, are the Lord's Prayer, the 23rd Psalm, and Lincoln's Gettys-

burg Address. Incidentally recall their wording: "Our Father which art in Heaven, hallowed be thy name." "The Lord is my shepherd, I shall not want." "Fourscore and seven years ago." "Not a three syllable word in them; hardly any two syllable words. All the greatest things, love, joy, hope, home, child, wife, trust, faith God. All great things are simple."

City, school, county, state and national elections face voters in the near future. All this scribe has to say about the matter is to go to the polls and vote as you PLEASE... but PLEASE vote.

Those persons, who through lack of interest, or who do not take the time to go to the polls and voice their opinions, certainly do not have any right to criticize their governing bodies.

While Haskell Lions were completing the tree planting project last Wednesday afternoon, "final rites were held for one of the trees." This particular tree looked as if it had "had it," and as it was placed in the ground, Rogers Durham, Minister of the First Christian Church said a few chosen words over it as the dirt was shoveled about its roots.

Nearly 200 trees were set-out during the tree planting program in a project to help beautify the town. This was not a money-raising project... in fact it cost the club some money... but it was a very worthy cause and with this many trees added to Haskell, it will mean a more beautiful city in years to come.

This scribe, Wallace Cox, Jr., Rogers Durham, Harold Spain and Jetty Clark were in Knox City last Thursday night attending the last zone meeting of the official Lions year. It was the largest turn-out I have seen at a zone meeting in several years, and good reports were heard from the Haskell, Knox City, Weinert, Munday and Seymour clubs.

A new all-glass front was installed at the M&F Pharmacy north side of the Square, last week, and with the exception of laying the tile on the floor, completes the more than six months rebuilding and remodeling the building inside and out. Congratulations to Mr.

Muenzler and Mr. Ferrusan for one of the most up-to-date drug stores to be found anywhere. It is certainly an asset to Haskell. Also adding attractiveness to the downtown business district is the grand opening, today, Thursday, of Perry's new store on the west side of the Square. Congratulations are in order for Loraine Johnson, owner of the beautiful building, and Perry Brothers for this up-to-date store.

Mike Campbell said that an old Mountaineer came down to a settlement in the valley during World War I, and asked why so many men were wearing uniforms. "Haven't you heard?" the storekeeper said. "We are at war with the Germans." "Wished I'd a knowed it," the Mountaineer quipped. "There is a German family living near me, and I could have killed every d-m one of them when they passed my place this morning."

Last Friday the 13th, supposedly an unlucky day, however the only bad luck this scribe experienced on the 13th was that Don Muenzler crossed my path.

Two Infants

(Continued from Page 1) 3 to 4 p. m. prior to the start of services. Survivors of Teresa Beth, in addition to her parents, are one sister, Tammy, her paternal grandparents, Mr. and Mrs. W. E. Sorrells, of Rule, and her maternal grandparents, Mr. and Mrs. W. R. Carter, of Haskell.

Funeral for the Moeller child was held at 10 a. m. Wednesday in St. George Catholic Church here with the Rev. Father Alvin Wilde, officiating. Burial was in Willow Cemetery under direction of Holden's Funeral Home. The body was in state at the funeral home until time for the service.

Born October 4, 1963, Debra Diane had been baptized in the Catholic Church.

Survivors, in addition to her parents, are one brother, James Wade Moeller; two sisters, Carol Jean and Elaine Joyce; and the maternal grandparents, Mr. and Mrs. Emil Jakubec.

Demo Ballot

(Continued from Page 1) iff posted second. In the gubernatorial ballot, in Haskell County, it will be Don Yarborough, John Connally, M. T. Banks, and Johnnie Mae Hackworth, in that order. Preston Smith was placed at the top of the lieutenant governor's listing, with Albert Fuentes, Jr., of Bexar County, second.

Ralph Yarborough is listed first, with Gordon McLendon, in the U. S. Senatorial race. Dan Sullivan, of Andrews County, a challenger, then Bill Elkins, of Hunt County. Incumbent Joe Pool, of Dallas, Bob Looney, of Harris, and Robert W. (Bob) Baker, also of Harris, comprise the order for Congressman-Al.Large. State Agriculture Commissioner John White, the incumbent, drew a first listing against his opponent, Millard Shivers, former state farm bureau manager. And Wilbarger County's Jesse Owens had the nod over the incumbent, Jim Langdon, in the railroad commissioner listing, in other contested races in this county.

Demo Chairman Conner here also announced at Monday's meeting the following presiding judges for the various Haskell County precincts in the May 7 and June 6 Democratic Primaries, who were empowered to name their own clerks, and the places at which precinct conventions will meet at 2 p. m. on May 2: Prec. 1: Norman Nanny, northwest corner district court-room in Haskell. Prec. 2: J. L. Collier, Haskell County court-room; Prec. 3: Glenn A. Merchant, County Judge's office; Prec. 4: Virgil Sonnemaker, county agent's office; Prec. 5: no judge appointed as yet, American Legion Hall; Prec. 6: C. C. Abernathy, City Hall, Haskell; Prec. 7: Ford Waldrip, Carney School Building, O'Brien; Prec. 8: Cecil Jetton, Jud Club House; Prec. 9: E. C. Lowe, Weinert School Building; Prec. 10: W. R. Hager, Jr., Mattson School; Prec. 11: Ernest Peiser, Sons of Hermann Hall; Prec. 12: Hoyt Perry, Paint Creek School; Prec. 13: R. H. Cobb, at place where election is held, as yet unannounced; Prec. 14: Sam J. Hanson, Ward School Building; Prec. 15: Arthur Knipping, Sager School; Prec. 16: J. C. Coleman, Plainview Baptist Church; and Prec. 17: no appointment yet, at place where election is held.

NEW PERRY BROS. STORE IS PARTNER TO CITY'S PROGRESS

Perry Brothers, a brand new store in a brand new location, hung out a handsome shingle Wednesday on the west side of the Courthouse Square to heralding to Haskell's fast developing business district.

This modern, spacious, well-equipped store, showing the results of long planning, and geared for gracious shopping and customer satisfaction, is located mid-block on the west side of the Square at 11 North Avenue E, where passersby automatically stop to view an expansive and imposing front through which gleaming goalies may be glimpsed with ease and interest.

Rotarians Here Go En Masse To Ft. Worth Meet

At least half of the membership of the Rotary Club of Haskell and Rotary Anns made a mass pilgrimage Sunday and Monday to Fort Worth for the annual conference of District 579, Rotary International, held in the Hotel Texas.

Led by Ira Hester, president, and President-Elect Roy Johnson, the delegation from here endeavored to uphold its conference attendance laurels consistently won by Haskell Rotary in recent years. Results this year will not be known until final tabulations are made in a few days.

Ranking among the first three Rotary Clubs in attendance from month-to-month in the 41-club District 579 in Northwest-North Central Texas, President Hester reported Friday before going to the conference that the aim and object of the club here was to turn out equally as well for the Fort Worth convocation.

Car pooling among Haskell's Rotarians and with members of clubs in the area was accomplished by an "On to Fort Worth" committee urging participation at the annual Rotary get-together.

The accent on attendance, they pointed out, was in keeping with this year's conference theme announced by Dr. J. Harold Farmer, of North Texas State University, Denton, the District Governor. It was "World Understanding Through Personal Participation."

One of the highlights of the Rotary assembly was the District Governor's Banquet Monday night in the Grand Ballroom of the Hotel Texas at which an international variety show of songs, dances, magicians, representing some 20 foreign countries in native dress, was featured. Governor Farmer presided.

Haskell Lions To Visit Rule Club Mon. Night

Upon invitation from the newly organized Rule Lions Club, Haskell Lions will visit with the Rule club next Monday night, March 23.

Some 15 members indicated they would make the trip to Rule Al Hinds was named to head the delegation, and members of the local club desiring to make the visit to Rule, are asked to meet at the Free Press at 6:30 p. m., next Monday, March 23.

Tuesday's Program

High Ratliff was program chairman at the Tuesday noon-day luncheon meeting of Lions, and showed a very interesting film, in color, "The Lady and The Stock Exchange."

The educational film showed scenes of the New York Stock Exchange and how stock is bought and sold.

Jim Sampson, chairman, reported the tree planting project had been completed, with 179 trees set-out.

Alfred Pierson was named by the Wichita Falls Times and Record News, newspapers of that city, to be staged next month on the campus of Midwestern University.

Alfred Pierson was named by the nominating committee to select officers for the new official Lions club year. President Wallace Cox asked that the nominating committee make its report within the next two weeks, with the election of the new slate of officers to follow the nominating committee's report.

Bill Overton Sings And Plays Way To Talent Show Win

Private William Overton, son of Mr. and Mrs. Gene Overton, of Paint Creek, was one of the winners in a recent talent contest sponsored by the 5th Brigade at Fort Polk, La.

The Paint Creek soldier sang two songs, "I Talk To The Trees," and "The Sphinx Won't Tell." He accompanied himself at the piano.

Private Overton is taking basic training in communications at Fort Polk, where he was inducted into the service Feb. 1. He has taught English in Sam Houston Junior High School in Garland for the past two and a half years and took a leave of absence to fulfill his military obligation. He is a graduate of Paint Creek High School and obtained his B. S. degree from North Texas State University, Denton.

Mrs. Jim Byrd, who taught English in Haskell High School several years ago, and whose husband is a former manager of the Brazelton Lumber Co. here, is teaching Overton's classes in Garland while he is in the service.
