Rudy Salazar is shown above with Dean Hauser, Fire Chief of the Stratford Fire Department. Rudy was presented Fireman of the Year. The Stratford Fire Department held their Annual Fireman's Banquet on Saturday, April 30th, 2011 at Stratford Fire Station. A delicious meal was served by Lynn and Kathy Allen (great job guys). Fireman, their families and guests were treated to a very nice meal and fellowship. Thank you all. We must always remember and support our Fireman, as dry as it is at this time, anything could happen and we need every one of them. Good Luck guys and girls, and again THANK YOU.

Xcel Energy urges safety with backup generators

AMARILLO, Texas — Xcel Energy is urging customers who use backup generators to avoid tying the generators directly into their home's electricity system. Instead, the company suggests using generators only to power key appliances and lights in the home by running extension cords to the backup source of power.

Certain backup systems can be tied safely into a home's central grid, but it requires a licensed electrician to install a switch that prevents "back feed" by shutting off the backup power once power is restored. Portable generators must not be used to tie into a central system.

Back feed occurs when electric power is introduced to the utility's power lines from generators with faulty connections. Lines expected to be de-energized are in fact live, and could potentially electrocute crew members attempting to make repairs.

"We understand why some customers choose to have backup power systems available, but we want customers to be aware of the dangers these systems can present if they are improperly connected," said Mike Cline, Amarillo-based lineman journeyman serviceman for Xcel Energy.

Cline added that the benefits of a whole-house backup generator may not outweigh the expense to install, considering that the company's system reliability averages 99 percent; a smaller generator to power key appliances may be more cost effective. He said customer agents are available to answer questions about generators, or customers can access information at xcelenergy.com.

Xcel Energy (NYSE: XEL) is a major U.S. electricity and natural gas company with regulated operations in eight Western and Midwestern states. Xcel Energy provides a comprehensive portfolio of energy-related products and services to 3.4 million electricity customers and 1.9 million natural gas customers through its regulated operating companies. Xcel Energy's headquarters are located in Minneapolis. More information is available at www.xcelenergy.com.

Street Maintenance Sales Tax Information

On May 14, 2011 the Citizens of Stratford will be hitting the poles to place their vote for three 2-year terms and one 1-year term City Council positions. In addition to this, Citizens will be voting for or against the implementation of a Street Maintenance Sales Tax. This article is to provide you a little information regarding the Street Maintenance Sales Tax.

Section 327.004, Tax Code, allows cities to raise their local sales tax rate by one-eighth of one percent or one-fourth of one percent if the funds are dedicated to street maintenance and repair. With the voters' approval, the City will be able to impose this tax in order to provide more revenues for the repair and maintenance of existing streets within the City.

If the voters approve the implementation of this tax it will become effective on the first day of the first calendar quarter after one complete quarter passes from the date the Comptroller receives the City's notice that voters have approved the tax. In other words, the tax will become effective October 1, 2011. The Street Maintenance Sales Tax expires four years after it takes effect unless voters vote to continue it in an election held for that purpose. Therefore, voters have the choice every four years to extend the tax or to not extend the tax.

Stratford's Volunteer Fire Department

The Stratford Fire Department shown above consists of these individuals shown above. When you see one of them around town, take the time to stop them and tell them how much you appreciate their time of volunteering for this job. Not many of us sign up for this task, and it is not an easy one. Good Luck and stay safe.

She was also a member of Eastern Star, the Home Demonstration Club and Cowbells.

Elizabeth helped in Boy Scouts, school band events and all the school parties as her children were growing up. She was a 4-H clothing project leader, conducting sewing classes in Sherman County. She worked with the 4-H food concession stand during the livestock shows. She was recognized as Friend of 4-H. Elizabeth supported the Sherman County Library and Sherman County Museum. She took up oil painting and also piecing and designing quilts. Some special blankets had matching pillows that were given to family and friends.

She was preceded in death by her parents and her husband, Albert, on Jan. 11, 2000.

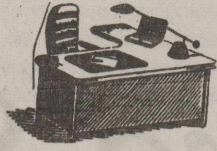

Elizabeth is survived by her daughter, Andrea Woolley and husband Gary of Spearman; two sons, Bill Zimmer of Stratford and Bob Zimmer of Gruver; six grandchildren, Shannon Norris of Sachse, Lezli Waits and husband Eric of Columbus, Miss., Matt Zimmer and wife Ashley of Amarillo, George Zimmer and wife Madison of Panhandle, Austin Zimmer of Lubbock and Molly Zimmer of Baltimore; three great-grandchildren, Emmie Waits, Magan Waits and Patrick Norris; three brothers, Reynold Brandt and wife Pat of Stow, Ohio, Robert Brandt of Amarillo and Mack McCormack and wife Joy of Houston; and a godson, John Lavake of Stratford.

From the desk of Chief Powell

First of all, last week's article. To clear up any confusion in reference to the No U-turn signs on Main Street, Making any type of U-turn is illegal where there are "No U-turn" signs present. We will enforce this just as we do any and every other city ordinance or state law. Officers are given what is called "officer discretion" when it comes to issuing citations or warnings in most Traffic-related circumstances. They will use this discretion along with collation sense when these situations come to our attention.

Secondly, we have decided to have an open-house at the Police Department during "Stratford Days" in July, so please keep watching the website and the Stratford Star for more information.

We hope everyone enjoyed our first annual Easter Egg Hunt in the Park. In case you missed it, please click on the link on the front page of our site to enjoy a short video clip by GMW Productions.

The Police Department will be at the Stratford High School at the end of

May, presenting a DWI awareness class to students. We are working with the school utilizing DWI simulated goggles etc. to bring awareness to the students about the dangers and consequences of drinking and driving.

Dear Editor:
Update on the Quiet Fighter
Matthew Chaffee went to the doctor again, and was told that he isn't bad enough to go to Baylor at this time. This really was a blow to him. He is a little depressed, and as he told me, "I just want to know if they can fix me." So I did some research, and found two clinics that deal with people like Matthew. One is in Pennsylvania, and one is in Seattle WA.

The best thing about this is the fact that the original doctor he had is in Seattle. I spoke to the doctor there, and he is going to go over Matthews records and let me know if they can help him at this time. We are not going to give up. We will keep trying. As his mom, I don't understand how the doctors can say that he is not "bad enough" to try something else. He is still having pain when he eats anything solid, so how can he not be bad enough?

Well, I guess that is all for now. I will keep you all informed on your Quiet fighter as soon as I find out more.

Thank you for your continued support.

Tiffany Chaffee

FORAGE MANAGEMENT FOR COW-CALF PROGRAMS

By Brad Easterling

As I mentioned last week, both the quantity and the quality of forage available to the cow largely determine her productivity, her need for supplemental feed and the profitability of her production. Proper stocking, year-round mineral supplementation and timely use of protein supplements offer the greatest potential for economically improving body condition scores and rebreeding performance of beef cows.

In order to properly stock a pasture, one has to know how much forage it will produce. It used to be said that the stocking rate for a particular area would be 1 animal unit (au) per 20 acres, or maybe 30 acres depending on where you live. But as we have learned more grasses, soils, and animals over the years we have learned that you cannot really give out a blanket 1 to 20 acres number like that without really going out and doing a little research.

Of course, the most important aspect is rainfall, but afterwards, what type of grass are you growing. Is it a pure stand of improved Bermuda, or a pure stand of bluestem? How about a mixture of native grasses? What is your weed pressure, how heavy has it been grazed the past few years? If you grazed it down to nothing last fall you reduced your stocking rate about 25%, and with the drought conditions. If you have continually grazed it down you are reducing the stocking rate and allowing weed pressure to increase.

What has the rainfall been like in your neck of the woods? Obviously we all know what it has been like this year, but I am trying to give you a few things to think about when stocking your pastures. And when talking about rainfall, here is another thing to keep in mind, you should plan for a drought. From looking at a few preliminary numbers we get somewhere around 16.2 inches of rain a year. Most folks know that it takes more years under the average than over the average to get that number. Therefore, stocking your pasture and expecting 12.15 inches of rainfall would keep you in decent shape most every year and allow you to take advantage of excess forage in extremely wet years. This would be stocking your pasture at 75% of the average annual rainfall. I have met several producers who are using this program and say it works very well. It gives them much more flexibility in their forage production.

Well, we have talked a little on forage quantity and how to start building towards that.

Next week I will ramble on about quality or something else.

Lexi Receives Her New Pool

Lexi Cisneros, daughter of Laurie and Jason Rodgers, Make-A-Wish became a reality on Friday, April 29. Lexi received an above ground swimming pool. This was made possible by the Make-A-Wish Foundation along with help from Stratford Lion's Club and Stratford Fire Department, who filled the pool with water. WTAMU Sorority Chi Omegas brought pool toys for Lexi and helped serve ice cream donated by Gandy's. Dave Rattray and Zac Shelton, of Amarillo took a day off from their regular jobs to come and set up the pool on Thursday, April 28. Several members of the community were in attendance at the big event. Shown with Lexi, are her parents Jason and Laurie, Tom & Thelma Cannon of Dumas, TX and Lilly Walker and Megan Szydoski, all with Make-A-Wish. Shown above are Lexi and her mom Laurie. Have a great time with your new pool Lexi. Make-A-Wish Foundation you rock. Also all of the other mentioned folks.

Stratford 8th Grade Band Receives "Sweepstakes" Award

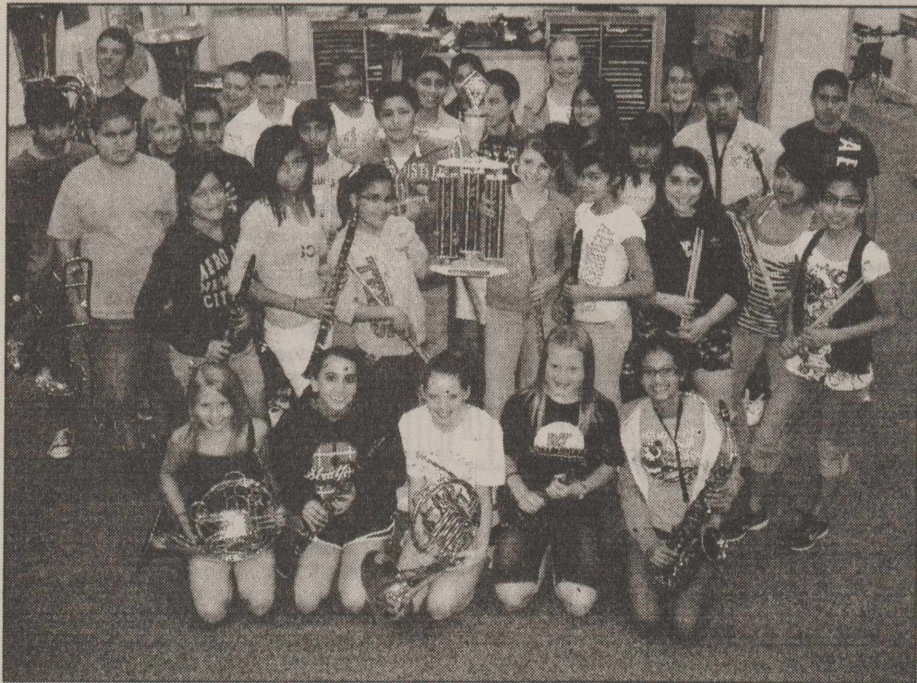

At UIL Region 1 Concert Band Contest

On Thursday, April 14, the Stratford 8th Grade Band traveled to Canyon High School to participate in the UIL Regional Concert and Sight-reading Contest. The band played three prepared pieces in the Concert portion of the contest receiving an overall Division I (Superior) Rating from the three judges. Some comments from the judges were "Very clean and musical performance", "This band is well prepared", "I like the energy with which you play", and "You have done a good job with the individual preparation of your part." The band then sight-read a piece of music they had never seen before and all three judges gave them a Division I rating. Comments from the Sight-reading judges were "Attentive group — everyone is involved — great!", "Outstanding job on rhythms, pitches, and confident playing", "... overall an awesome performance", "I enjoyed your controlled, yet very confident performance", and "Students are well taught and well prepared. Congrats to you and your director!"

Of the 15 Conference C Junior High bands performing at the UIL Contest only 4 bands received a Division I rating in Concert competition. In addition to Stratford, those bands were West Texas, Memphis, and Bushland. Junior High bands that receive a Division I rating in both Concert and Sight-reading competition are awarded the "Sweepstakes Award". This is the highest award presented to Junior High bands by the University Interscholastic League (UIL).

Please congratulate all students for their hard work and great effort in representing Stratford so well at the contest. Also, thanks go to our school administrators (Mr. Birdsong and Mr. Seward), and the parents for supporting the band with their attendance of the contest.

Please support the band students in the upcoming Community Birthday Calendar Fundraiser and also attend their Spring Concert to be held Thursday, May 5, at 7:00 p.m. in the High School Gym. The band will also perform with the High School Band on Thursday, May 12, at 6:00 p.m.

Stratford 7th Grade Band Participates in Highland Park Music Festival

On Saturday, April 9, the Stratford 7th Grade Band travelled to Highland Park to participate in the Highland Park Music Festival. The band played two prepared selections on stage receiving Division I (Superior) ratings from each of the two judges in Concert Competition. Some comments from the judges were "Way to use air support! Bravo!", "Phrases extremely well executed", "I enjoyed your performance today. Way to go Stratford", and "Very good band! Continue to work because you can be GREAT!" The band then was given a piece of music they had never seen before. After a 5 minute preparation period the students performed the song in the Sight-reading portion of the contest. Again both judges gave the band Division I ratings. On this competition judges said, "Very confident group! Fine solid sounds while reading this piece. Good job!", "Rhythms and note values executed well!", "A very well-trained band", and "This was an exceptional reading today. Congrats".

Congratulations go to all students for representing Stratford Junior High so well. And thanks go to Mr. Seward, the Junior High Principal, and to the parents who attended. Please support the students by attending their upcoming Spring Concert on Thursday, May 5, at 7:00 p.m. in the High School Gymnasium.

Card of Thanks

To all my friends and neighbors. Words are such a weak way to try and thank everyone for what they have done for Bill and his family. All the cooked and uncooked food brought to us has been wonderful, help with driving, the house and yard has all been so appreciated. Special thanks go to Cicc Harris, Tom James and Bill Gillenwaters. How can I thank you for all your prayers? Only way I know is to thank God, and you. I know they work as Bill is still fighting. From the bottom of my heart--THANK YOU--

Bill & Pat Boren & family

Differences between electric and hydraulic-driven systems

Have you seen the ads that insist hydraulic-driven systems are the better way to irrigate? Make sure to read between the lines - and we don't mean the oil lines.

Fact is, Reinke® Electrogator® II and Alumigator® electric-driven irrigation systems are, and have always been among the safest, most reliable and cost-effective methods available to deliver water to your thirsty crops.

Reinke encourages you to "share to compare" the electrical energy requirements of electric and hydraulic driven machines. You will be amazed by the dollars you can save by going electric.
