

## Sellout Crowd To Greet Hayden Fry Tonight

A sellout crowd of some 350 of the sports-minded already is assured for the annual All-Sports Banquet of the Haskell Booster Club here at which SMU Head Coach Hayden Fry will be principal speaker on Thursday night, January 23, at 7:30 p. m. in the cafeteria of the New Elementary School here. Lyndon Harris, booster club president, announced Saturday.

Fry, who has more than a passing interest in Haskell since he will be coaching a Haskell product, Johnny Kimbrough, son of the immortal Aggie All-American from here, Jarrin' John, next fall, will be introduced to his audience by Ray Overton, Jr., head coach of Haskell High School, recently chosen All-Area Coach for the mythical District 6-AA football team.

Johnny Kimbrough, a 1963 HHS graduate, who played lots of freshman ball for the SMU Colts last season, will be trying to make Fry's varsity as a sophomore.

Harris will emcee a fast-moving program Thursday night. Edd Smart will give the invocation, followed by dinner, then sparkling entertainment by Haskell's own famed choral group, a bevy of beauties known as the "Nine Teens."

Following the introduction of both Haskell's "A" and "B" squads, by Coaches Overton, Carlos Berry, Bill Blakley, Sonny Everett and David Middleton, awards will be made to individual players in the following categories: The Dick Gaines Memorial Trophy, given this year for only the second time by Mrs. Gaines, a member of the faculty of Abilene Christian College, in honor of her late husband, who was a Haskell coach who died of cancer four years ago. ## LOUIE THROGMORTON, CIVIC SPARKPLUG, C of C SPEAKER

Louie Throgmorton, retired vice president and director of public services for the Republic National Life Insurance Company of Dallas, who is much in demand as a speaker before civic and business organizations, will be the speaker for the Haskell Chamber of Commerce's 25th annual banquet meeting, which has been scheduled for Friday, March 27, at the Haskell Hotel, commencing Saturday.

The Haskell chamber of commerce president said Throgmorton, who travels some 200,000 miles each year to deliver approximately 400 addresses throughout the United States, "has chosen a most appropriate subject for our size community." The title of his speech is "Those Who Care Build Cities."

Throgmorton joined Republic National Life 13 years ago, moving to Dallas from Shreveport, La., where he had served as general agent for Aetna Life Insurance Company. He has been connected with the life insurance industry for over 31 years.

Born in Piggott, Arkansas, and receiving his education in the Jonesboro and Little Rock schools, his early business experience was in the wholesale grocery business in Little Rock.

Throgmorton has been an influential and active member of various business and civic organizations both in Dallas and during his residence in Shreveport. He is on the board of the South and East Dallas Chambers of Commerce and is a member of the Dallas Sales Executives and Dallas Downtown Kiwanis Clubs. He is a past president of both the Sales Executives and the Kiwanis Clubs of Shreveport, and is on the board of advisors of McKendree College in Lebanon, Illinois.

The outstanding platform personality coming here is one of the organizers of the Religious Heritage of America, Inc., and now serves on its board of trustees. He is also a member of the World Convention of Disciples of Christ Churches and assistant teacher of the John G. Slayter Bible Class and an honorary elder of the East Dallas Christian Church.

He is listed in "Who's Who in the South and Southwest," "Who's Who in Arkansas," "Who's Who in Insurance," and "Who's Who in Commerce and Industry."

FOR SERVICE ABOVE SELF: Howard Perry, Haskell businessman, is pictured here (left) receiving from Edd Smart, Scoutmaster of Haskell Boy Scout Troop 36 (right) a trophy for his loyal service during a long tenure as assistant Scoutmaster in Haskell. The award presentation was made on the occasion of Perry's retirement at an awards banquet attended by area scout executives in Fellowship Hall of the First Methodist Church here recently, with more than 150 persons attending.

## Bert Orr, 40-Year Resident Here, Succumbs At 69

Bert Orr, 69, a painter who had lived in Haskell 40 years, died in Haskell County Hospital at 3:45 p. m. Sunday after having entered the hospital Saturday afternoon. He had been in failing health several months.

Funeral services were held at 2 p. m. Tuesday in the First Baptist Church here with the Rev. Ray Nobles, pastor, officiating, assisted by Rev. Hubert Sego, pastor of the Mattson Baptist Church. Burial was in Wilkew Cemetery under direction of Holden's Funeral Home.

Pallbearers were Guinn Medford, Tom Rhoads, W. S. Pogue, Jr., Roy Wiseman, Slover Bledsoe and Stanley Furr.

A resident of Haskell since 1924, Orr came here from Throckmorton. Bertie Newton Orr was born February 13, 1894, in Wise County. He had been a painter and decorator all his adult life until his retirement a few months ago.

He married Allie May Condon in 1916, and she died in December, 1924. On November 20, 1936, Orr married Eula Quattlebaum, who survives him. In Haskell he was a member of the First Baptist Church and the Haskell Lodge of I.O.O.F.

In addition to his wife, he is survived by one daughter, Mrs. Alberta Jetton, of Long Beach, Calif.; one grandson, Barry Vincent Jetton, of Long Beach; one brother, Garland Orr, Haskell; and seven sisters, Miss Myrtle Orr, Haskell; Mrs. Leah Winningham, of Post; Mrs. Pauline Crawford, Livingston Manor, N. Y.; Mrs. Lorene McCarron, of Elbert; Mrs. Velma Holt, Haskell; Mrs. Etha Tidrow, of Breckenridge; and Mrs. Dixie Dejana, Dallas.

HAYDEN FRY

is on a point system for leadership, scholarship, citizenship and athletic ability.

Next, Bud Lane, president of the Haskell Jaycees, will present three Jaycee trophies to an outstanding player on each of the boys' football teams, and the boys' and girls' basketball teams. Finally, Bob Dulaney, ardent Haskell sports supporter and past president of the Haskell Booster Club, will present the booster club's trophy to the "Most Conscientious Player" of any sports in HHS.

The speech of Coach Fry, one of the nation's outstanding grid strategists, will be followed by the benediction by Steve Harper to climax the annual event here.

## Royce Adkins Asks Reelection District Attorney

Royce Adkins, of Haskell, district attorney for the 39th Judicial District comprising Haskell, Stenwall, Throckmorton and Kent Counties, will be a candidate for re-election, subject to the action of the May 2 Democratic Primary, he announced late Wednesday.

Adkins, a highly regarded native of this area during a lifelong association with the people who live in it, is a familiar figure at the Courthouses in the four counties he has been serving as district attorney.

In announcing his candidacy and soliciting continued support for re-election, District Attorney Adkins declared, "I would like to thank all the people in the 39th Judicial District who have been so kind, cooperative and courteous to me in the past. It has been an honor to serve you as your District Attorney."

## Bond Election Is Called Saturday At Paint Creek

Trustees of Paint Creek Rural School, eight miles southeast of here, have called a \$65,000 school bond election to be held in the vocational agriculture building adjacent to the school next Saturday, Jan. 25, from 8 a. m. to 7 p. m. Superintendent Pat Morrison has announced.

The purpose of the election will be to determine whether bonds should be voted to obtain funds for replacing the west wing of Paint Creek School, leveled by a disastrous fire early on the night of December 11. Loss of the building housing two large classrooms for first three grades, accommodating 45 pupils, a cafeteria and storeroom and contents, was estimated in excess of \$85,000 at the time by Supt. Morrison.

The unique wing, often referred to as "education under glass" because of the "goldfish bowl" appearance of its predominantly glass construction, was built in 1964 at a cost of \$54,000.

The remainder of the sprawling 140-student, one-story school was saved through the tremendous effort of the Haskell and Stamford Fire Departments battling in 26 degree weather in a high wind on the night of December 11.

An Abilene architectural firm, Tittle and Luther, has been employed to draw up plans for the new wing, which is to have some 3,000 more square feet of floor space, principally in the cafeteria, Morrison said. Whereas the destroyed wing had some 4,800 square feet, the projected new one has 7,700, he reported.

The new structure would have two large classrooms, as before, a larger cafeteria seating 60 more people, 210 as compared with 180 previously, the superintendent's office, a board room, store room for food staples, and an equipment room.

Only \$40,000 of the estimated loss to building and contents was covered by insurance in the school fire, according to Morrison. It is believed the bulk of this sum will be used to replace equipment consumed by the flames which ravaged and gutted the entire wing of the school.

## Lihue H. Mathis Of Rule, Dies; Services Monday

Lihue H. Mathis, 67, died at 10:10 a. m. last Saturday in Hamlin Memorial Hospital where he had been a patient 19 days.

Funeral was held at 2 p. m. Monday in First Baptist Church in Rule, with the Rev. Rodney Dowdy, pastor, officiating. Burial was in Rule Cemetery under direction of Pinkard Funeral Home.

Born Jan. 13, 1897 in Sager-ton, he had farmed and ranched in the Rule area all his life. He was a 32nd degree Mason and a member of the Jud Baptist Church. He had extensive land and oil holdings in the area.

Surviving are a daughter, Zora Mathis Wood, of El Paso; three sons, Joe D., of Rule; Richard E., of Rule; and Lt. Col. Eldon R. Mathis, of Luke AFB, Phoenix, Ariz.; D. grand-children and one great-granddaughter; two brothers, Emmett L. of Stamford and Robert E., of Sager-ton.

## Eight Fires In Just Three Hours Frazzle Fireboys

The heat was on and finally turned off in Haskell last Saturday, thanks to 20 plucky volunteer fireboys who actually saved the town in a high wind, answering eight calls within the hour to set a record. It was heat and lack of humidity that helped create the abnormally high incidence of fires, officials here said.

Weatherman Sam P. Herren, Jr., put the pencil to the situation which touched off a series of general alarm fires here last Saturday afternoon. His calculations of 79 degrees Fahrenheit plus a humidity reading of 10 per cent at most, and a 40-mile-an-hour wind, painted a hazardous picture.

Tinderbox Haskell about 2:00 p. m. started "acting up," according to Fire Chief Tom Watson and Fire Department Supervisor Floyd Lusk.

In rapid-fire succession, flames broke out here within a 20-block circumscribed area, with one single exception, a grass-fire at the Haskell County Golf Club Course, where some old boy probably under par with a hot putter, occasioned a two-mile run.

With almost simultaneous conflagrations occurring near the old Schlumberger building on the Throckmorton highway, a vacant lot half block square in the Negro section, an outbreak licking the old Fairgrounds, a trash barrel fire out of control right in the middle of town, a grocery store, the H. M. Stone's endangered and grass afire precariously close to the foundations of the Fielding Nursing Care Home, housing a number of practically bedfast patients, Haskell's three mobile units met the emergency, in order of urgency, enough and on time. Miraculously, there was no loss of life, there were no injuries and property damage was negligible.

There was no camera to catch it, but the manpower pouring from each of the four sides of Haskell's venerated Courthouse Square, catching the hind end of fire trucks as they criss-crossed the main arteries here, was reminiscent of an over-the-shoulder pass catcher headin' for paydirt.

Fire Department Supervisor Lusk, veteran of last year's record smashing 46 fire runs in Haskell, in January, and breathing a non-acrid breath for the first time in several hours Saturday night, said of the situation here in which Haskell, usually moist when other areas aren't (except that it missed the "Big Snow" of two days last week), "There just isn't anything wrong with us—that a good gully-washer wouldn't cure."

Then he went to fill up the truck tanks for another life and property saving run. The 20 volunteers who had already logged eight hours fighting fires Saturday were supplemented by 12 cohorts, bringing to full strength a dedicated department for an all-night vigil in case more of the same occurred. Fortunately, it didn't.

## C of C Industrial Group "Lays To" In Quest For New Payrolls Here

Having laid a solid foundation through action here last week to secure industrial payrolls for Haskell, the Industrial Committee of the Haskell Chamber of Commerce and a representative cross-section of citizenship here will send a delegation of at least 16 to Olney's Chamber of Commerce banquet Thursday night to rub elbows with that enterprising community's leaders.

Olney, a town the same size of Haskell, is a community "on the grow," with an airplane factory and textile plant established recently there and furnishing employment for some 300 people.

Tom Barfield, industrial committee chairman here, Abe Turner, chamber president, and others make no bones about it. They're going to Olney to get an eye-witness account of how the booming Young County capital went about obtaining industry, and hope to "borrow a page from Olney's book," except, in terms of community enterprise, the aim and object of Haskell's industry seekers, "is to out-Olney Olney," said Haskell Chamber Manager Bob Lowrance.

J. M. Haggar, president of an ever expanding manufacturing company, turning out a popular trouser, will be the principal speaker at the annual Ol-

## Looking Down The Long Road Marked "1964" ... Horizons Unlimited

Now that we have turned the corner into the new year, each of us is peering down that long road marked "1964," and wondering what lies ahead in our personal and professional futures and in the future of our nation.

And we concur completely with the declaration of a genuine statesman of increasingly greater stature daily. Congressman Walter Rogers, the able congressman from the 18th District, the Panhandle of Texas. He says that no man in the United States can look forward to a more imposing array of problems or a greater mental and physical burden, than our President, Lyndon B. Johnson, whose position of leadership was thrust upon him in such a way that the magnitude and delicacy of the challenges facing him are without precedent in our history.

The principal point which Congressman Rogers so astutely makes is that in meeting these challenges with courage, intelligence and imagination, yes, the President will be as aware as any American that this is election year, and that he needs to establish a record in his own name before November.

But the obligation for a President of the United States to perform well goes far beyond purely political considerations. Because, in these perilous times, the very survival of the Nation and the Free World can hinge on how well a President meets the challenges that are HIS ALONE to meet.

Despite the help of a corps of staff advisers and assistants and experts of every kind whose business the President makes it, and who make it their business in meeting their own challenges of responsibility, the final decisions, especially in the realm of foreign policy, remain the President's to make, on his own, alone. It is tremendously hard and very lonely work.

And so, it would seem, meet, and right, at this time to urge all Americans from us here at the grassroots, to the thick urban centers, regardless of political party or political convictions, to respect the President and his office, and the enormity of his duties; to recognize the Constitutional obligation that is upon him to formulate a program of legislation and to lead the Nation's foreign policy.

It also would seem proper to acknowledge the love he shares with us for our country, and his boundless desire to see it prosper in continued safety and full sovereignty, to support those programs we can support, to reject those we cannot support—but TO SUPPORT OR REJECT IN A SPIRIT OF GOOD WILL, AND WITH A WILLINGNESS TO EXAMINE THE OPPOSING POINT OF VIEW.

And, of course, to pray to Divine Providence that our President will continue to have the Guidance of Him Above and be strengthened thereby, all along the way.

## Oakescripts A Pencil Pusher's Potpourri By PORTER

People in Haskell, seems to us, always do like to be different. Cigarette sales in at least one of the main grocery establishments here "definitely" have gone up, and pipe tobacco volume has "increased a little," too, in the 10 days since the doctors blacklisted cigarettes as cancer producing, reports Steve Stephens, amiable and able manager of the "M" System Store.

Stephens "I'm not kidding" report (and we won't challenge it— he's too big) bears out what we reported in just to the newspaper boys in the city last Monday night. Told 'em we had made a survey in Haskell and that more people here were smoking than prior to the publication of the eyebrow raising information for this simple reason: They wanted to see what they had missed by not living dangerously before!

Some of the reaction here to the condemnation of smoking has been classic, ranging from "Humpf, it's risky to drive an automobile, too!" to "things are gonna get so bad the dogs will be running around with cobs in their mouths."

Vance Abeldt, our versatile linotype operator, an inveterate pipe smoker, sometimes smokes a seegar almost as big as he is. He applied to himself a saying that has been with us since we were in rompers. All our early life we heard it credited to Professor James A. Tate, who with O' Sawyer Webb, was an early day educator in Tennessee. Of smokers, Fessor Tate then, and Vance Abeldt now, said, "Fool on one end, fire on the other. Vance paraphrased it, referring to seegar smokers, "BIG fool on one end, BIG fire on the other."

Well, the announcement, and pronouncement ... may change lots of things, like the words to "Cigarettes, Whiskey, and Wild, Wild Women." That'll have to go.

Glad we started out writing on this subject. We're low on pipe tobacco ourselves, and it reminds us we gotta stop and get some on the way home tonight.

Did you read the "serial" that ran in the Abilene paper, "If I can Do It, Hopaback" by the late John Hendrix of Sweetwater? The installment about Capt. S. B. Burnett taking those two grizzled ranchers riding in his 1910 Pierce Arrow was a honey.

And if you can remember the Pierce Arrow jokes such as the one about the boy on the bicycle who tried going between the wide apart headlights of the car as it approached at night, then you don't have to worry about the draft.

We'll NEVER forget the first ride we had in a Pierce-Arrow. It was a blue sedan, seven passenger, in Colorado Springs in 1925, and it belonged to the head of a dear family with whom we still have close contact today, Mr. Roy Riner. On that "spin," it didn't look for a minute as if we were going to be included, but we were allowed a "jump seat" position, recalling the inside of that car was as big as all outdoors. It was our first truly LEGAL feeling, and the name "Pierce-Arrow" remained an eye-goggling, awesome name ever afterward, even when we received a "Pierce-Arrow Bicycle" with a name like that, it HAD to be the best ... and it was!

Back down to earth, the patches on the elbows of sweaters these days mean they're the newest and GREATEST ... We can remember the days when the patches were on a sweater because it was the ON-LIEST!

Coming back from Reserve meeting in the Key City Monday night, every mile of the 50 was agonizing. If we had seen the REAL THANG, THE REAL HASKELL BASKAL, after the experience of the varmint sighting the previous Monday, WHO WOULD BELIEVED US? We were relieved the trip was without incident. And may we say for the record, that having joined the ranks of a "Lion," or cougar, sighter now, we can well understand the reticence of those, who have had like experiences, to report the incident. What we saw was almost unbelievable for this civ-

## Haskell County History

### 50 YEARS AGO (January 25, 1914)

Bank deposits in Haskell increased from \$408,632 to \$628,488 during the time from March 1, 1913, shortly after all banks in the country were closed, until December 31, 1913, tabulation of bank reports shows. During the same length of time, loans decreased from \$302,796 to \$203,563, the banks report.

Beginning next Sunday morning at 12:01 a. m. the places serving 1.2 beer in Haskell County will be closed, so far as the sale of the beverage is concerned, and must remain closed until 12 o'clock Sunday night.

County Attorney, B. C. Chapman and Sheriff W. T. Sarrely have notified proprietors of the establishments to that effect.

Mr. and Mrs. S. Hasse and children spent the weekend with relatives and friends in Sulphur, Oklahoma.

At the annual meeting of the stockholders of the Farmers and Merchants State Bank, officers were elected as follows: J. C. McKinney, president; J. T. Hester, vice president; A. M. Turner, active vice president; Joe L. Cooper, cashier.

Almost twice the number of automobiles have been registered in this county up to January 16 than to the same date last year, according to records in the office of County Tax Collector Ed F. Fouts. To date, 1,206 passenger cars have been registered this year compared with 608 for the same date last year.

The sum of \$5,277.66 was paid to CWA workers in Haskell County last week, to about 470 men, according to Civil Works Administration officials. A still larger sum, which will probably reach \$6,000 will be paid out this coming Saturday, they said.

At the annual meeting of the Haskell National Bank stockholders, all present officers and directors were re-elected. Officers are Mrs. M. S. Pierson, president; Hardy Grissom, vice president; O. E. Patterson, active vice president; A. C. Pierson, cashier; Miss Nettie McCollum, assistant cashier. Directors are Mrs. Pierson, Hardy Grissom, J. U. Fields, J. W. Pace, G. W. Waldrop, J. W. ized "society." Not that it was gruesome. Just seems incongruous, that's all.

There's still nothing like a Texan with a little vision and imagination ... and the mazzuma to back it up. Friend of ours at Christmastime, not having seen his only son since April when he shipped out with the Navy, took pains to find out where he would be docking as near Christmas as possible. A little checking with the right people garnered him the info, and when they lowered the gangplank at HONG KONG for a 6-day shore leave for the crew of this U. S. Navy vessel, O' Dad was piped aboard to the utter amazement of an adoring son.

Papa "Marco Polo" is Francis Harvey, next to watermelon, one of the greatest claims to fame, of Alvord, Texas. Harvey is the kind of a fellow who kept going to Jaycee meetings 15 years after he should have been placed on "Exhausted Rooster" status, at age 35, because he wanted to keep "thinking young." Still does.

Two "old pros" at the cotton pickin' game were talkin' in the Free Press office this week. Said "Patience" Phelps, a 900-pound a day puller ... in her day, "I like to pull bolls. Would like to today." Declared Jim Norman, "I like to pull 'em, too ... to the gin."

True vignette from the 4-H Steer Show at the Rice Springs Rodeo Grounds outside the Corral last Saturday: Commissioner Leon Newton, "Look at Sherry (who was grooming entry). She squirts Spraynet on herself, then appoints that calf with it."

Judge Jim Alvis: "I only got one girl (Ruby Kaye), referring to Leon's two daughters, Sherry and Kay, and I can't keep HER in Spraynet, much less a calf, too!"

Penel Pusher, after Sherry and Kay finish one-two in judging of steers in lightweight division: "That Spraynet shore does pay off, though, doesn't it?"

Oakescript: We've heard many, many recipes for longevity. Sophie Tucker, the salty ol' troupier, who just turned 80, and admits 76, has the best one yet. "Keep breathing," she says. Try it.

### 40 YEARS AGO (January 25, 1924)

The little son of Mr. and Mrs. R. E. Reeves, who live on the Flower farm near Hemphill Lake, was seriously injured on Monday when he fell from a horse he was riding. The little boy was carried to the Stamford Sanitarium for treatment.

Annual meeting of stockholders of the Haskell Laundry Company was held in the directors' room of the Farmers' State Bank Monday evening. No change was made in officers and directors, with all members of the present board being re-elected. They are: R. C. Montgomery, president; B. Cox, vice president; Emory Menefee, secretary; J. L. Tubbs, manager and treasurer; and J. C. McKinney, board member.

Miss Neoma Hudson and Mrs. W. A. Montgomery, teachers in the Weaver School, were Haskell visitors Tuesday evening.

Dr. and Mrs. J. M. Gose returned from Wichita Falls on Sunday. Dr. Gose had been ill, but is somewhat better since coming home.

The Baker-Campbell firm at Munday has purchased the John E. Robertson store at Weimert. They plan to increase the stock of groceries and dry goods carried by the store.

J. W. Collins, of the State Marketing and Warehouse Department at Austin spent several days in Haskell and Weimert this week visiting friends.

A. R. Couch and family are moving to Goree this week where he will be cashier of the Goree National Bank. He has been cashier of the Weimert State Bank for several years and is still an officer in that bank.

Mrs. F. M. Morton has gone to Austin, where she will spend the remainder of the winter with her niece, Miss Anna Kate Ferguson, who is attending school there.

Mr. and Mrs. Fred Reid have returned from California where they went some time ago to look for a location. They have decided West Texas is the best place after all. They will live in Weimert, and Mr. Reid has been employed as assistant cashier of the Weimert State Bank.

### 60 YEARS AGO (January 25, 1904)

Charles Whitaker left Monday for Dallas to undergo an examination and enlist in the U. S. Navy if passed. He will sign up for four years duty. He will be missed by a large circle of friends.

Louis Touchstone, who had the misfortune of having a foot broken when run over by a wagon a few days ago, is now able to be around some on crutches. Mrs. S. V. Jones, of Marcy,

has returned from a several weeks' visit with relatives in the old state.

A. J. Scheel, of Ample, has returned from a business trip to Chert.

Louise Post has accepted a position in the drug store and post office.

Mrs. H. G. McConnell and two small children left Monday for Austin where she will visit her parents while Judge McNeill is in Fort Worth on legal business.

L. P. Osburn, one of the en-

terprising citizens of the southwest part of the county, was here the first part of the week stocking up on supplies from our merchants. He says everything is looking good in his part of the country.

Mrs. J. O. Bridges received the news by telegram Thursday from St. Louis of the death of her son, Roscoe Williams of that city on Wednesday. Roscoe was about 21 years of age and had been working the past two years on the Southern Pacific Railroad out of St. Louis.

He was a brother of man, E. A. Williams. Miss Maggie Bridges, visiting relatives here.

# CHEVELLE! by Chevrolet

One of the things you'll like best about it is 11 models to choose from.

### MALIBU S.S. SERIES

These two Super Sport models are Chevelle's finest. Front bucket seats, door-to-door carpeting and an all-vinyl interior in seven colors. A wide choice of transmissions and extra-cost high-performance engines. Plus a whole host of other options.

### MALIBU SERIES

Chevelle's middle-of-the-line series, the Malibu, retains many features found in the two Super Sport models. Like all Chevelles, it's a good foot shorter than big cars, making it easy to park and handle. Yet inside it's surprisingly spacious and comfortable.

### 300 SERIES

Chevelle's most economical ... but don't let its gentle price fool you. The 300 has all Chevrolet's traditional value and reliability. Coil suspension. Body by Flush-and-dry rocker panels. Chevy dealer will tell you all.

### Local Serviceman Has Assignment In Alaska Maneuvers

Army PFC Javino D. Sotelo, 20, son of Mr. and Mrs. Jesse Sotelo, of Haskell, is scheduled to participate in Exercise POLAR SIEGE, a 12-day field training maneuver to begin on January 30, according to word received from Fort Lewis, Washington.

### They claim this is not a new trend because ever since 1953, when the government started keeping track of such things, the cost of meals in away-from-home eating places has gone up at the rate of 2 1/2 per cent a year.

And speaking of food—many older people today are supplementing their diets with vitamin-mineral preparations. Surveys show they often do not need them or that they are not using the proper ones. Over a third of 283 households including elderly persons, either living alone or with another person at least 55 years of age, used some dietary supplement.

Actually 48 of them already had good diets and for them spending money on supplements was probably unnecessary. The other 56 had fair or poor diets which could have been improved by the right supplements.

But of these 56 households, 13 used preparations that provided none of the nutrients short in their diets. Another 31 took vitamin - mineral supplement containing some but not all of the lacking nutrients. Obviously, the money spent on pills could probably have been used on a better selection of a supplement.

Older people need protein for repair and upkeep of body tissue even though body growth is completed. It is known that diets of persons over 40 years of age often lack the recommended amount of protein. Important sources are milk, eggs, cheese, meats, poultry and fish, dry beans peas and nuts.

### Sharon Riley and Glynn Warren Lusk Marry At Canadian; Home in Canyon

Mr. and Mrs. Tom Riley, of Canadian, Texas, announce the marriage of their daughter, Sharon, to Glynn Warren Lusk, formerly of Haskell, son of Mr. and Mrs. Thurman E. Lusk, former Haskell residents, who moved here to Plainview in 1954.

The marriage was solemnized in the home of the bride's parents in Canadian at 11:00 in the morning on Jan. 1, 1964.

The ceremony was performed before an improvised altar in front of the fireplace, which was flanked on each side by tall bouquets of yellow mums and bronze chrysanthemums.

The bride wore a beige suit with brown accessories and a corsage of tansman roses. Mrs. Jerry Martindale, of Amarillo, served her sister as matron of honor, and Mrs. Tom Cathey, of Canyon, was best man.

The bride is a graduate of Canadian High School and West Texas State University, where she was a member of Zeta Tau Alpha sorority.

The groom, who received his early education in Haskell schools, is a graduate of Plainview High School, and will receive his degree in Mathematics this month from West Texas State University. He is a member of the Kappa Alpha Order.

After a wedding trip to Oklahoma City, the couple is at home at 2500 Eighth Avenue, Canyon, Texas.

### Sagerton News

The four Home Demonstration Clubs would like very much to be joined by others. Additional clubs and membership would make our study more effective as more homemakers in more parts of the county could be reached. The Extension program is educational in nature. Membership in clubs is not exclusive so if any lady desires to belong, then please just let it be known. If there's no club in your area, then how about calling a group together and let's get organized. The sooner the better, so as to not miss out on the year's program. There'll be demonstrations, clinics, workshops, speakers, and lots of events to be enjoyed as well as profited by.

The Training meeting for Council officers and committees was an "all day with dinner on the ground" affair. Duties of the various groups was discussed and recommendations for 1964 worked out. These in turn will be taken back to the clubs to be acted upon.

The noon meal—a covered dish affair—was about 11:45 with the County Agricultural Agent, County Judge, and members of the County Commissioners Court invited as special guests.

The U. S. Department of Agriculture economists say that retail prices of food probably will not go up much during the coming year. That should be some consolation, especially to family's with teenage boys who never seem to get "filled up." But eating out will cost more.

The girls should have had theirs in September and the women in December, but due to circumstances beyond anybody's control they are just now "hot off the mimeograph machine."

Girls in Haskell County will have demonstrations primarily on Foods and Clothing. These will include Foods for Breakfast, Shoe Shining, Brushes for Good Grooming, Dressing Appropriately, and Selecting Materials. The girls themselves will present programs on Foods and Clothing plus Safety and Electricity.

Beginning next month the girls will start preparing for Contest events to be entered in the county and perhaps taken to the district at Wichita Falls. Adult leaders are still needed so mothers and friends please hear our S.O.S. During the summer there will be clothing workshops, record workshops and a dress revue.

Despite the setbacks, Haskell still has an 11-4 season record and yet may bounce back in the dog-eat-dog district race.

Last Friday night, the Indians played valiantly, only to be edged 58-52 by Anson's Tigers, the favorites to cop the title, and were plagued by "in the hoop, out of the hoopists" all night long Tuesday, in dropping a heartbreaker to Ballinger 54-43.

James Davis, with 16 and 13 points in the two scraps, was the chief bucket-maker for the Haskell cause in both games.

Point-makers for the Indians, showing their totals for both Anson and Ballinger games, included: Wayne Ferrin, 10; Jerry Thigpen, 16; Davis, 19; Perry Turnbow, 2; Sammy Larned, 18; Joe Josselet, 12; James Brown, 8.

### Local Serviceman Has Assignment In Alaska Maneuvers

Army PFC Javino D. Sotelo, 20, son of Mr. and Mrs. Jesse Sotelo, of Haskell, is scheduled to participate in Exercise POLAR SIEGE, a 12-day field training maneuver to begin on January 30, according to word received from Fort Lewis, Washington.

They claim this is not a new trend because ever since 1953, when the government started keeping track of such things, the cost of meals in away-from-home eating places has gone up at the rate of 2 1/2 per cent a year.

And speaking of food—many older people today are supplementing their diets with vitamin-mineral preparations. Surveys show they often do not need them or that they are not using the proper ones. Over a third of 283 households including elderly persons, either living alone or with another person at least 55 years of age, used some dietary supplement.

Actually 48 of them already had good diets and for them spending money on supplements was probably unnecessary. The other 56 had fair or poor diets which could have been improved by the right supplements.

But of these 56 households, 13 used preparations that provided none of the nutrients short in their diets. Another 31 took vitamin - mineral supplement containing some but not all of the lacking nutrients. Obviously, the money spent on pills could probably have been used on a better selection of a supplement.

Older people need protein for repair and upkeep of body tissue even though body growth is completed. It is known that diets of persons over 40 years of age often lack the recommended amount of protein. Important sources are milk, eggs, cheese, meats, poultry and fish, dry beans peas and nuts.

The Good Earth

The blowing wind and pelted rain brings new life to the growing grain.

by MRS. B. F. COBB

Since my recent column on the use of lye on trees and shrubs, I have been asked by several if this practice would injure these plants.

My grandmother used lye on her peach orchard over fifty years ago; back when the only lye they had was made in a hopper from ashes. This tradition was handed down through the years.

When I introduced lye in Abilene for the first time, people were skeptical of its use. After several trees, presumed dead, were restored, the use of this product caught on like wildfire.

Last year, just before my husband and I moved here from Abilene, we went to a chain grocery store to find lye for our yearly feeding of trees and shrubs. Finding the shelves bare of these products, we contacted a clerk. She advised us to come back later. She turned to my husband and said: "We can't keep lye. Do you know what people are doing with it?" My husband answered, "Treating trees and shrubs." "That's right," the clerk added, and the usual skeptical, "I'd be afraid to try it."

After the leaves turn bright yellow and begin to drop from the trees, you have nothing to lose and everything to gain, by the use of lye. It is best, however, to not wait until the plant is so near death before using this product.

WTU's Customers Buy More Electricity .....At Lower Average Cost!

Electric service is one thing you are buying today at a lower average cost than ten years ago. Sure your total electric bill may be bigger than it used to be—but stop and look. Count all the extra jobs you have been using electricity for (air conditioning, cooking, water heating, television, etc.) and you'll realize how much more electricity, per KWH, has been reduced.

Reddy Kilowatt, your dependable electric servant says, "Electricity costs so little—you can use lots of it."

Ford Wins Motor Trend's "Car of the Year" Award

January 8: Motor Trend magazine's "Car of the Year" Award goes to an engineering breakthrough! It honors all the '64s from Ford "For engineering advancement in the concept of Total Performance, proven in open competition."

Thunderbird, Falcon, Super Torque Ford, Fairlane (reading counterclockwise); winners of Motor Trend's "Car of the Year" Award

Here's what the Motor Trend Award means to you...

The editors of Motor Trend, America's largest general automotive magazine, watched Ford's total performance in open competition... saw competition-modified Fords win every 500-mile stock car race in the last year, saw Ford-built engines end an era at Indianapolis and sweep the sports car circuits.

Then they drove the 1964 Fords, Falcons, Fairlanes and Thunderbirds and discovered how the lessons of open competition have helped breed into them a new kind of total performance for the open road, for your kind of driving. And then they made their award!

The "Car of the Year" Award is an impressive testimonial, but see for yourself—take the wheel of a '64 from Ford. These cars speak for themselves with their ease of handling in a supermarket parking lot or their greater stability on a rain-slick blacktop.

Before you buy any new car this year, test-drive total performance in a Solid, Silent Super Torque Ford, now hundreds of pounds more car than anything in its field. Try America's only total performance compact, the Falcon V-8, totally new, totally changed. Or, any of the '64 Cars of the Year from Ford!

TRY TOTAL PERFORMANCE FOR A CHANGE!

FORD FALCON • FAIRLANE • FORD • THUNDERBIRD

That's Total Performance!
