USDA Seeks Applications for Grants to Help Socially Disadvantaged Rural Businesses

TEMPLE, TEXAS, June 6, 2016 - USDA Rural Development Texas State Director Paco Valentin today announced that USDA is seeking applications for grants to provide assistance to socially-disadvantaged business groups in rural areas.

"One of USDA Rural Development's missions is to provide assistance that will increase the economic conditions of rural communities," said Valentin. "These grants allow eligible applicants to provide technical assistance to socially disadvantaged groups in rural areas and in turn, promote job creation and improve their operations."

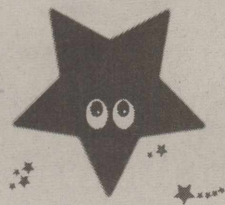

The funding is being provided through the Socially Disadvantaged Groups Grant (SDGG) program. USDA provides grants to local cooperatives and other organizations that provide technical assistance to socially disadvantaged groups in rural areas. Examples of technical assistance include providing leadership training, conducting feasibility studies and developing business and strategic plans.

Recipients eligible for these grants include groups of cooperatives, individual cooperatives and cooperative development centers that serve socially-disadvantaged groups. The cooperatives or development centers can be based in any area, but the groups that receive technical assistance must be located in an eligible rural area. USDA is encouraging applications for projects in census tracts with poverty rates of 20 percent or higher.

USDA is making \$3 million in grants available nationwide. The maximum award a recipient may receive is \$175,000. All grants are awarded through a national competition. More information on how to apply can be found on page 36254 of the June 6, 2016 Federal Register. Applications must be submitted by August 5, 2016, or electronically by August 1, 2016.

Since 2009, USDA Rural Development (@USDARD) has invested \$11 billion to start or expand 103,000 rural businesses; helped 1.1 million rural residents buy homes; funded nearly 7,000 community facilities such as schools, public safety and health care facilities; financed 185,000 miles of electric transmission and distribution lines; and helped bring high-speed Internet access to nearly 6 million rural residents and businesses. For more information, visit www.usda.gov/results.

CASA 69, Inc. - Volunteer Opportunities

Every child has a chance – It's You. Your voice can be a child's only chance.

CASA 69 (Court Appointed Special Advocates) currently needs volunteers to advocate for the safety and future of children in foster care in Dallam, Hartley, Moore and Sherman counties. Training provides volunteers the resources they need to give foster children a chance at finding happiness in a safe, permanent forever home.

Requirements – You must be 21 years of age or older and willing to commit to at least one year of advocacy. You must be able to pass criminal and CPS history background checks. You must complete training – 10 hours online course work plus 20 hours of classroom work.

Training dates: July 11th, 12th, 14th, 19th

We hope you will consider taking classes that could enrich your life, making you better prepared to help someone else, especially a vulnerable child. Please contact the CASA office TODAY to start the application process— 244-2684 or 934-4417 or casa69@xit.net.

Attention-Residents of Stratford:

As of June 1, 2016, storm siren testing has changed to Wednesdays at 12:00 p.m.

Residents de Stratford: A partir del 1 de Junio del 2016, la prueba de las sirenas de tormenta ha cambiado a cada Miercoles a las 12:00 p.m.

Attention Stratford Residents,

Please be advised that high grass and weeds are a fire/health/safety issue and must be kept under control per Stratford Ordinance Sections 6.03.00 1 and 6.03.002. The City Code Enforcement Officer will be checking properties in the upcoming weeks for compliance with these and other ordinances. Citations for non-compliance may be issued. Please be sure to keep your property, including behind fence lines and up to the alleyways, free of high grass/weeds and other debris in order to avoid a Citation. For further information, call 806-268-4158.

OBITUARIES

ROBERT E. LEE

AUGUST 2, 1924-MAY 25, 2016

Robert Eugene Lee was born August 2, 1924, in Stratford, Texas to Albert and Bessie Lee. Mr. Lee passed away May 25, 2016, in Carlsbad, California. Robert was preceded in death by his parents and step-father John Shaw. Robert Evan Lee, son. Betty Rhea Lee, sister and J. Baskin Brown, brother-in-law. Joe R. Brown, nephew.

As a youngster, Robert was always planning on being another great military general, just like the Confederate General Robert E. Lee. He was devastated to find out that the government would not accept his enlistment because of high blood pressure. His drive for perfection took him far in the aerospace industry, where he became a Tool Engineer for Ryan Aeronautical in San Diego. Robert worked extremely hard and advanced up the management ladder. People loved working for his team because they were often awarded overtime and other bonuses. Robert could be strict at times, but he knew how to motivate men to work hard and do things right the first time. Robert met his current wife, Barbara Johnson, while dancing. He loved country-western music, big band music and almost anything with a heavy beat.

Mr. Lee is survived by his wife, Barbara Johnson and step-son Robert Johnson, Carlsbad, California. Nephew, Jim Bob Brown and wife Patty, Stratford, Texas. Niece-in-law Rose Brown, El Paso, Texas. Great Nephew, Blair Brown and wife Patty, Panhandle, Texas. Great Niece Carrie Austin and husband David of Dallas, Texas. Great Niece Ashley Wilson. Great Nephew Caleb J. Brown, Stratford, Texas. Great Nephew Joe S. Brown, Tucson, Arizona, and several Cousins, Great-Great Nephews and Nieces.

The modern orchestral harp has 46 strings. The instrument has six and a half octaves with no accidentals.

The precursor of the tuba was an instrument called the serpent. First made in the late 16th century, it was often painted to look like a fat snake. It was used as the bass line in European churches.

The great trouble with baseball today is that most of the players are in the game for the money and that's it, not for the love of it, the excitement of it, the thrill of it.

—Ty Cobb

The trouble with baseball is that it is not played the year round.

—Gaylord Perry

Baseball is like a poker game. Nobody wants to quit when he's losing; nobody wants you to quit when you're ahead.

—Jackie Robinson

People ask me what I do in winter when there's no baseball. I'll tell you what I do. I stare out the window and wait for spring.

—Rogers Hornsby

Brook Walker Honored with Baby Shower

A baby shower honoring Brook (Barnard) Walker was held on Saturday, June 11, 2016 in the home of Jeanne Bell. Shown above are Brook and her mother Nita Barnard.

May Springs Forth at Legacy

By Paula Nusz

Typically, May is the month to plant gardens. This is also true at Legacy. This month, Legacy began to "plant" the new Art Garden. This garden is being placed at the front entrance to the facility. Residents have been making art projects including bowling ball ladybugs, magical mushrooms and turtles. Ms. Finchum's 6th grade class from St. Anthony's school spent two afternoons doing the demolition of the original flowerbeds and old plants. Mr. Clay's Industrial Arts class at Dalhart High School made a bottle tree and placed it in the garden. Residents placed bottles on the tree as the decorations. Each week at a new art piece will be created and placed in the garden area continuing into June. Come by at 301 Texas Boulevard (Dalhart) and see the project.

Legacy celebrated the Kentucky Derby with a post-derby party. Each resident had chosen a horse before the race and made a guess as to the length of time the race would take. Unfortunately, no one chose the winning horse nor had the correct time. Refreshments of mint chocolate chip ice cream and coffee were served. A discussion of the race was the entertainment.

The Missionary Guild of the First Christian Church concluded their Bible study on May 11. After the study, a salad luncheon was held at the church. Resident, Grace Lyles was able to attend the luncheon. The Bible Study for the summer session will be about the Apostle Paul.

Mother's Day was celebrated with a Mother's Day Dance brought by the Panhandle Academy of Ballet. The dancers gave the group a preview of their upcoming ballet - Coppe'lia. The party took place on Friday, May 13. The snacks for the party were: Spicy Roasted Red Pepper Pimiento Cheese, Key Lime Refrigerator Cake and Peach Tea. Twenty five guests and twenty one residents enjoyed the beautiful dancing.

A Container Garden Contest has begun. Three residents along with a staff member formed a garden team to plant a container with their choice of plants. Each garden will be given a title; and judging will occur in late June.

The May birthday party was held on Friday, May 20. Refreshments were Coconut Pound Cake and Strawberry punch. The program was a quick refresher course on the emergency protocol for Legacy concerning thunderstorms and tornadoes. Ten special guests attended and four residents had birthdays this month.

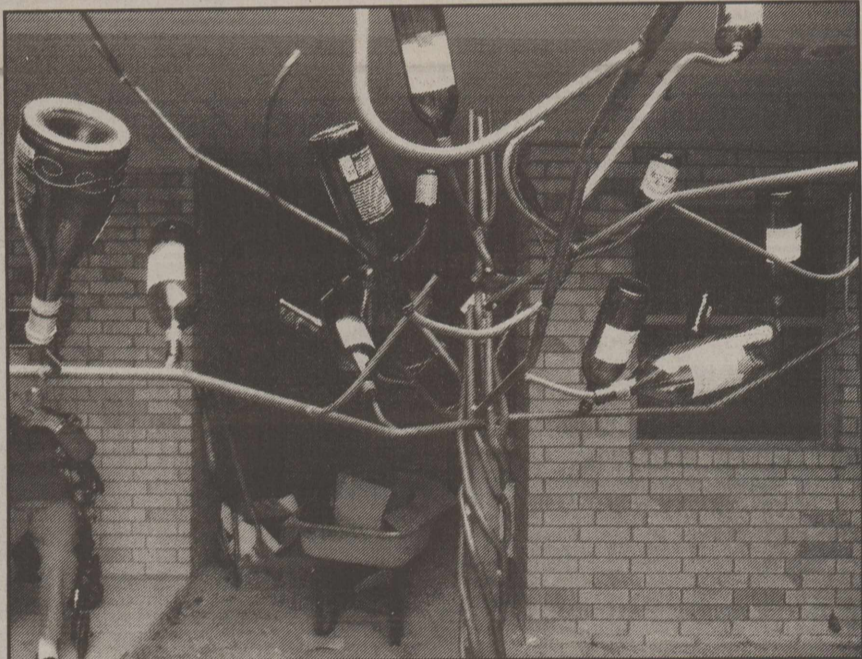

The monthly Dutch-treat lunch was on May 24th to the Air Port Café. The monthly movie was Casablanca Express with Glen Ford. Other regularly scheduled activities included, Cowboy Church video, Mennonite Singers, Bingo, and Game Nite.

Kitchen Korner

Six Things You May Not Have Known You Could Do With Your Range

(NAPS)—Here's hot news for home cooks: You may be able to get much more out of the kitchen stove than you realize. Today's ranges let you do more than just heat up a frozen pizza or boil water. Here are six things you can do to make meals easier, faster and more fun to make.

1. Understand the conventions of convection heating: True European Convection is a setting that may be a bit confusing to people who haven't used it before. Simply stated, it means that a separate heating element works in conjunction with the traditional top and bottom elements along with a fan that works to evenly distribute heat. This makes for fast, even baking. Plus, this function limits flavor transfer between foods so that you can cook a savory main dish with a sweet desert without mixing flavors—saving valuable time and energy, too.

2. Make defrosting delightful: Some ranges, like the professional-style Verona, have a defrost setting that turns on the fan and oven lamp simultaneously. This function allows food to defrost quickly without beginning to par-cook, which is what usually happens when you use the defrost setting on the microwave. The defrost setting also keeps food from drying out as it would in a microwave.

3. Create a great personal pizza: Try the pizza mode setting for your frozen or handmade pizza. An exclusive feature of the Italian-made ILVE range, the pizza mode setting removes the guesswork by automatically heating the oven's elements and setting the temperature to 480° F for a perfectly crisp crust and flawlessly melted toppings without burning.

Some ranges let you do a lot of really cool things in the kitchen.

4. Wake up to the possibilities of the wok ring: Whether you enjoy making your own Asian foods or just want to sauté some vegetables quickly for dinner, this can be a great tool. It's especially designed to cradle the bottom of a wok and evenly distribute heat for high-temperature cooking and sautéing without burning.

5. Be up on upper element mode: This setting found on ILVE ranges turns on the top heating element only. It's great for that last 10 minutes of cooking lasagna or any dish that says "remove lid" so you can brown, crisp or melt for a special finishing touch.

6. Get cooking faster: Some ranges can preheat faster; for example, ILVE offers an exclusive quick start mode, which goes from 0° to 350° F in just eight minutes.

Learn More
For further facts on the professional-grade home kitchen you can have with the customizable stoves, hand assembled by Italian artisans and available from ILVE and Verona Appliances, go to <http://eurochefusa.com>.

Home Sweet Home

Clean Indoor Air

(NAPS)—For clean, fresh air in your house, you need effective filters in your heating and cooling ducts. This is especially important if you have pets, plants, or people with allergies around. The newer sort of filters can remove more and much smaller particles than could older fiberglass filters.

Dirty filters let dirt, allergens and mold spores in. So do leaks around duct joints. Contaminants cause the heating and cooling system to work harder, use more energy and wear out faster.

Pet dander and hair can accumulate in the HVAC system.

Fortunately, you can address this issue by having the ducts cleaned regularly by a member of the National Air Duct Cleaners Association (NADCA). It's a trade association of the HVAC inspection, cleaning and restoration industry and its members have signed a Code of Ethics and invested time and resources into industry-related training and education. They also have general liability insurance. The contractor should conduct a thorough inspection of the entire HVAC system before doing any work and tell you about any problems.

You can find a NADCA member at <http://nadca.com/en/prosearch/all>. Enter your zip code or state to find a certified professional near you.

A Medical Fund has been set up at Happy State Bank for Zackary Eloy Garcia, son of Tina Garcia. Zackary is related to the Garzas here in Stratford.

When I am painting I have a general notion as to what I am about. I can control the flow of paint: There is no accident.
—Jackson Pollock

Every good artist paints what he is.
—Jackson Pollock

Those who do not want to imitate anything, produce nothing.
—Salvador Dali

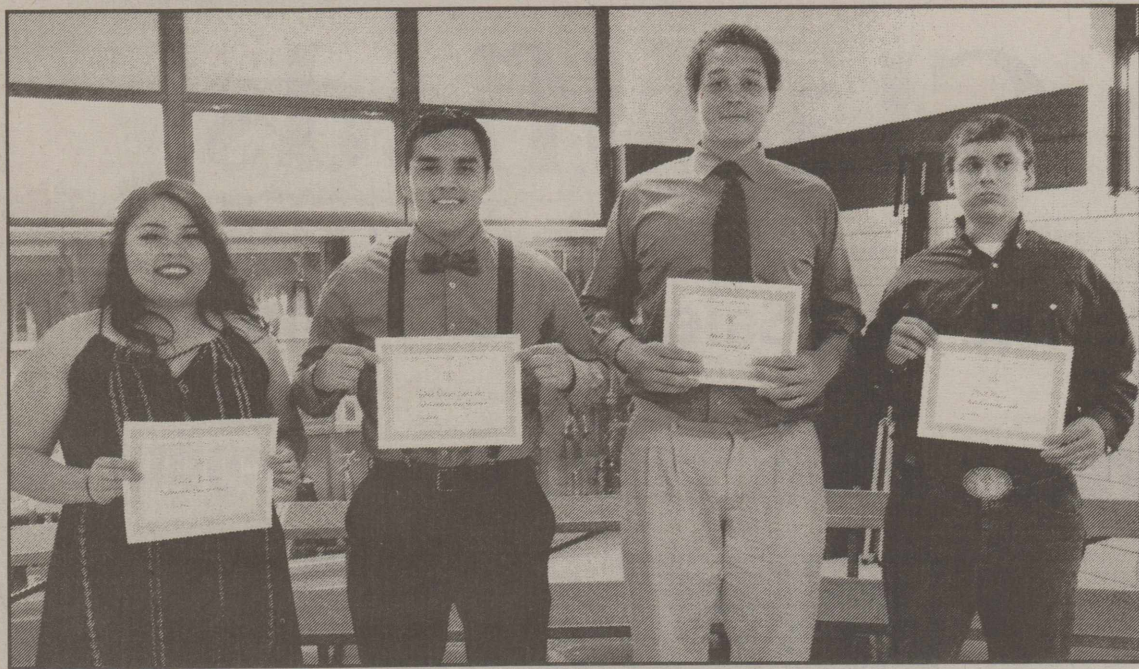

The strangeness will wear off and I think we will discover the deeper meanings in modern art.
—Jackson Pollock

It's on the strength of observation and reflection that one finds a way. So we must dig and delve unceasingly.
—Claude Monet
