NUMBER 41

— This grinding gridiron collision between Fighting Fullback Gary Conner (32) and Colored Little Halfback Artie Butler (22) is typical of the frenzied fans here witnessed last Friday night.

Here, Conner, who put the Fightin' Indians in the scoring column with a 55-yard touchdown sprint in the second stanza, picks up six yards on a left end sweep in the third period.

5-BELL

BULLETINS

And the first five-bell bulletin is about a bell itself.

Haskell area citizens have been given a big steam engine locomotive bell weighing 300 or more pounds as a contribution to the museum and tourist attraction project of the Hey Day Committee here.

In appreciation of the efforts of citizens here to preserve the heritage of the railroad, the Fort Worth & Denver has provided the bell, thanks to the attentive courtesy of Ellis L. Simmons, vice president of the railroad, and H. E. Moyer, district superintendent.

The mellow "bonger" will be placed in the main foyer of the Courthouse here until it can be permanently placed in the restored depot.

Fire caused damage estimated at \$10,000 by Owner-Publisher Alton Richards when it ravaged the 58-year-old plant of the Rule Review, Rule weekly newspaper, Tuesday night.

Apparently starting in wiring over a photographic dark room at the rear of the building, the flames were discovered at 9:55 p. m., and the Rule volunteer Fire Department had it under control by 11:15 p. m.

Stock loss was said to be extensive from smoke and water, Richards said.

The Rule newspaper is being published this week on the press of the Rochester Reporter, which uses a similar format.

First Annual Jaycee Carnival, a project inaugurated by the Haskell Junior Chamber of Commerce to provide a scholarship for a needy, deserving Haskell County young man interested in civic development, will begin a three night stand here Thursday, President Jesse Priest has announced.

Gates open at 6 p. m. each night through Saturday on the carnival grounds on the west side of U. S. Highway 277 across the street from the Bill Wilson Motor Company here.

Central State Shows will provide the "rides" for young and old, and Jaycees and their wives will operate about 10 concession stands, according to Billy Jack Ray, Haskell Jaycee leader "advancing" for the show.

Haskell High School seniors are selling ticket books for the carnival in a fund raising endeavor in support of their 1965 senior trip next spring.

A discerning board of representative citizens will make the selection of the deserving youth who will be awarded the first Haskell Jaycee Scholarship.

Friday, October 16, eight days from now, is the day Haskell citizens vote in a \$40,000 street improvement bond election called by the Mayor and City Council.

The \$40,000, Mayor J. E. Walling, Jr., has explained, would be Haskell's share of a highway widening program in the city limits on Highway 24 recently authorized by the Texas Highway Commission. Estimated cost of the state's share in resurfacing and widening 2.2 mile stretch to a width of 64 feet will be \$214,000.

The bonds can be voted and the money obtained "without raising taxes and without disturbing the property of any owner along the route," Mayor Walling has declared.

The Central Telephone Company of the Southwest and West Texas Utilities have offered to set back their facilities without cost as their contribution to the project.

Henry W. Smith was unanimously re-elected to a second five-year term on the board of directors of the Wichita-Brazos Soil Conservation District, Zone 1, in an election held at Mattson Rural School Tuesday night.

Smith, who lives between Weinert and Mattson, will represent the northeast quadrant of Haskell County, which corresponds generally to the territory served by County Commissioner Leon Newton, of Weinert, according to J. C. Yearly, Jr., work unit supervisor of the soil conservation office in Haskell.

ADVANCE GIFTS CAMPAIGN STARTS MONDAY—

HUF Army Poised For "Over The Top" Drive By Oct. 31

Time To Open Our Hearts

Next Monday, we begin to open our hearts again.

A new United Fund campaign gets off the ground, and we are reminded again of those who need us... and of those for whom we must provide.

It's something we WANT to do. As good citizens, we find a genuine pleasure in doing it. It gives us a warm, glowy feeling.

For, doing our share to keep these fine agencies in our community alive and operating, is one of the finest opportunities, and most cherished privileges, of citizenship.

More than that, what we are asked to do is our duty. Our duty!

To those of us who have seen the crippled learn to walk, the blind learn to support themselves, tears turned to laughter, and sorrow softened because somebody cared, this campaign has a priority in our heads, and in our hearts.

We know the great stake our community has in its success. For children to learn the skills and build the character that will make strong citizens of them is enough.

For succor to be provided in the wake of great disasters, such as we had right here in May, 1962, is enough.

For all our people to be treated as our neighbors is enough. But, all these things... and more... we now proceed to guarantee.

The services of the United Fund agencies to which we subscribe here are as indispensable as the church and the school.

Without them, we would be a sorry, shoddy, selfish community... Without them, the hungry would starve, the lonely would be buried in their loneliness, the children with stars in their eyes would have those lights flicker out, being denied an opportunity.

Ours would be known as a community without a heart, without compassion, without concern for the needs of our people.

And it would also sustain a physical hurt. Because new business and new people would not come into such a climate. Why should people come here to live? The prime incentive would be gone.

Ours is a good community because of the good things we do, not because of brick and masonry, and even a proud history.

Ours is a good community because of the good things we do today and plan to do in the months directly ahead.

This is a good place to live when we have a heart... and show it by the concern we have for others... and when we are generous enough to provide the things that keep it good.

So, the United Fund is our duty. It also is our hope... and this will be a happy place only if we discharge duties like this in the exercise of our good citizenship.

Join your neighbor in "having a heart"... the United Way... won't you?

HEY DAY PROFITS TO BE USED TO START DEPOT RESTORATION

A clear profit of \$1,077.50 was realized from all activities connected with Haskell County's second annual Hey Day observance here on August 8, and the money will be "put to work" on the restoration of Haskell's archaic depot as a museum and tourist attraction.

Dr. Frank Cadehead, Jr., and Mrs. Tom Barfield, co-general chairmen, have announced.

Dr. Cadenhead and Mrs. Barfield, following a meeting of the Chamber of Commerce's Hey Day Committee, said bids will be accepted by Desmond Dulaney, at Brazelton Lumber Company here, for repairing the roof and placement of protective covering over the doors and windows. Painting of the exterior of the old depot will have to be postponed until more funds can be obtained. Dr. Cadenhead reported.

With funds obtained in the first annual Hey Day last summer, Haskell's train station, symbol of another era in the "Hey Day" of the Old West here, was moved from its original location to a site over L. Force, of O'Brien.

Allen Strickland, of Haskell, was named secretary.

Other grand jurors chosen Thursday on the investigative body which will serve through December 31, were D. W. Adkins, Herman Josselot, Carl Anderson, R. H. (Bob) Sego, and T. C. Walker, all of Haskell; Alfred Grand, of Paint Creek; Tom Florence and Wilson Bean, of Rule; Buford Gholson, of Rochester; and H. L. Force, of O'Brien.

US 277 Planners To Confer With Commissioner Greer

Coincident with double ceremonies officially opening the Burk Burnett leg of the Red River Valley Expressway north of Wichita Falls and the H. E. Bailey Turnpike between Burk Burnett and Lawton, Okla., tomorrow, representatives of the U. S. Highway 277 Association, recently formed in Haskell, will assemble in Wichita Falls to discuss with Texas Highway Commissioner D. C. Greer, highway expansion plans from that city to Abilene.

Henry Grace, chairman of the Texas-Oklahoma Express-

In a rousing session punctuated with enthusiasm Monday night, members of the board of directors of the Haskell United Fund, headed by Allen Rieves, president, and key volunteer workers recruited by 1964 United Way Campaign Chairman W. N. (Dude) Mercer set the timetable and mapped strategy for an "over the top" drive here October 12-31.

"General" Mercer announced the following aides who will bear the brunt of the organizational efforts for the drive here to achieve a \$9500 goal: Jesse Priest, who will direct volunteers in the area west of Highway 277; Bert Kregger, Pete Wright, and Richard Josselot, who share responsibility for the territory east of Highway 277; Dr. J. F. Cadenhead, Jr., all personnel associated with the medical profession, including the Haskell County Hospital employees; the members of the Business and Professional Women's Club, all business establishments.

E. J. Stewart, longtime business and civic leader here, has accepted the advance gifts portion of the drive, which will be launched with a breakfast for workers at 7 a. m. next Monday morning, Oct. 12, in Sam's Cafe.

A kickoff breakfast for workers participating in the general solicitation canvass will be held the following Monday morning, Oct. 19, also at 7 a. m. at Sam's Cafe.

Next meeting of the Haskell United Fund board, Rieves said, will be Monday, Oct. 12, at 7 p. m., in Sam's Cafe.

Mrs. Jimmy Bledsoe has been named office manager for the 1964 campaign here and has set up shop in the Chamber of Commerce office on North Avenue D here. She will set up headquarters in the Western Auto Associate Store on the Square here when the main portion of the drive opens.

Rev. Douglas B. Finch, budget and admissions chairman, has announced the following agencies included in this year's campaign here, together with amounts budgeted:

- Boy Scouts, \$1,000; Girl Scouts, \$800; Salvation Army, \$1,500; West Texas Rehabilitation Center, \$1,000; Red Cross, \$1,500; Southwest Diabetic Assn., \$1,000; Haskell Teen-Age Baseball League, \$1,500; and Haskell Little League, \$1,200.

Next Monday Is Bank Holiday; Open Saturdays

Haskell National Bank, closed on Saturdays during the summer months, has returned to its fall and winter schedule, and will be open from 9 a. m. until noon each Saturday until further notice, Abe Turner, Jr., announced Monday.

The bank here will observe the Columbus Day national bank holiday next Monday, October 12, A. C. Pierson, president, has announced, at the same time suggesting that Haskell merchants and businessmen take cognizance of the bank holiday Monday in determining their needs for operating funds.

UNDER FELIX MULLINO'S LEADERSHIP—

County Cancer Unit Cited For 'Bettering Their Best'

Haskell County Chapter, American Cancer Society, received a special award for "Bettering Their Best" in the 1964 Cancer Crusade at a recent meeting of the Society's 13th District of Texas in Wichita Falls.

Felix Mullino, of Rochester, the 1964 crusade chairman, received the award in behalf of the county chapter. He also was elected to the state board of directors, ACS. The award, signed by Attorney General Waggoner Carr, Texas Crusade chairman, declared, "The American Cancer Society, with deep and abiding appreciation, acknowledges and commends the Haskell County Unit for bettering their best during the 1964 Crusade to conquer cancer and by so doing intensified the attack on cancer through education, research, and service to cancer patients."

Haskell County's per capita giving this year was 33 cents per person compared with 9.4 cents in the district and 14.5 cents in Texas.

The Mullino-led drive, in which W. O. (Bill) Holden directed the campaign in Haskell, netted more than \$3600, which was \$600 beyond this year's goal, and better than any previous total contributed in previous years.

Mrs. Melvin Vojtko, of Haskell, had a leading role on the annual district meeting program at which Dr. Jack Miller, of New York, administrator for research on therapy of cancer, American Cancer Society, was the principal speaker.

In addition to Mrs. Vojtko and Mullino, Mrs. Ed Hester and Mrs. Felix Mullino were delegates from the Haskell County Unit.

Santa Claus Is Coming To Town Saturday, Nov. 28

Five major divisions, headed by Santa Claus, and including bands, merchants, schools and organization floats, together with the Rotary Club of Haskell's annual Pet Parade, will snake through downtown Haskell to officially open the Christmas season here.

Turning on of Christmas lights on the Courthouse square and unveiling of Christmas store fronts will highlight the post-parade activities on Saturday evening, Nov. 28.

Turner announced the following committee appointments to handle the season launching details: H. V. (Woody) Woodard and Pluto Pruett, installers of lights at Courthouse; Mrs. R. A. Lane, Mrs. Myron Beard and Porter Oakes, procurement of bands for parade; James Franklin and Haskell Jaycees, installation of street decorations; Desmond Dulaney, general liaison; and E. J. Stewart, chairman of fund-raising effort among merchants and businessmen to underwrite expense of event.

STEERING COMMITTEE NAMED TO PUSH JUNIOR COLLEGE PLAN

A minister and three veteran school administrators were named last Thursday by Haskell Chamber of Commerce President Abe Turner, Jr., as a steering committee to assemble data for a comprehensive survey which will be submitted to the State Board of Education as the first step toward establishment of a junior college to serve this territory.

Another function of the committee, Turner said, will be to inform residents not only of Haskell, but of adjoining counties, concerning the requirements for establishing what state board officials term a "joint college district," embracing more than one county.

Rev. Douglas B. Finch, pastor of the First Presbyterian Church of Haskell; Mrs. Luther R. Burkett, supervisor of instruction in Haskell Schools; Douglas Myers, superintendent of Webster Schools; and Phil R. Simmons, superintendent of Rochester Schools, comprise the steering committee.

The action taken by Turner was in accordance with the initial step suggested by Dr. B. W. Musgraves, of Austin, assistant commissioner of education in charge of public junior colleges, who spelled out ways and means of securing location of a junior college in this area at a meeting in Haskell on Sept. 9.

Dr. Musgraves, who said it would take "at least two years" to complete the procedures (See Steering Comm., Page 10)

Need Urgent For Junior College, Rotarians Told

One of the principal reasons for high school dropouts, a veteran school teacher and administrator told Haskell Rotarians last Thursday noon, is the "slim chance many, many high school students have of getting to go to college."

Mrs. L. R. Burkett, supervisor of instruction in Haskell schools, and chairman of the education committee of the Haskell Chamber of Commerce, told a large Rotary audience this is one, among many, reasons why "there is a crying need to establish a community or junior college, in this area, which can qualify for one. We can get it if we think, and work positively," Mrs. Burkett emphasized. (See Need Urgent, Page 10)

It's Later Than . . .

Haskell County is being besieged by a pincer movement for progress, which, sooner or later, and we'll bet on sooner, will occasion some action here. If we want to be economically stimulated by a coast-to-coast E-way "amaak dab" through our bullwink.

Two events north and east of here tomorrow officially will bring four-lane highways 64 miles closer to Haskell. We speak of ribbon cutting ceremonies opening the Bailey Turnpike in Oklahoma from Lawton to the Red River, a distance of some 50 miles, and the Red River Expressway from Burkburnett to Wichita Falls, 14 miles.

South of us, Jones County has built a four-lane ribbon of pavement from Taylor County, already four-laned north of Abilene, to Anson. The rights-of-way have been purchased from Anson's north city limits to Stamford by an alert, highway-conscious Jones County Commissioners' Court.

The approximately 130 mile stretch from Wichita Falls to Anson, embracing parts of Wichita, Baylor, Knox and about 34 miles in Haskell County, and the potentiality of four-laning it, will be the principal subject of discussion at a conference set tomorrow in Wichita Falls in which a very busy State Highway Commissioner DeWitt C. Greer will give an audience to members of the U. S. Highway 277 Association. The association members are deeply grateful for the attentive courtesy of this dedicated public servant.

In order to keep pace with progress, which could mean a trans-America Expressway route through our area, may we respectfully suggest that the appropriate authorities in Haskell County take due cognizance of this pincer movement for progress which is about to envelop us? We feel sure that cognizance has been taken.

The next thing to take is ACTION.

Just Taking Stock

The United States of America is the finest and greatest nation in the history of mankind. No civilization, modern and ancient, can produce any comparable accomplishments in the government of mankind. No country in any civilization in the history of mankind has approached our country in guaranteeing, insuring, and preserving the basic rights and dignity of the individual man.

Because of our position, brought about by the blood, sweat, tears, and the devotion to duty of our forebears, we have living evidence to substantiate the faith and confidence we all should have in our philosophy of life, in our form of government, and in our understanding of the needs of man. This faith and confidence is absolute and concrete. We can, as a nation, meet and destroy ANY CHALLENGE FROM WITHOUT, OR FROM WITHIN. Knowing that the GREAT MAJORITY of Americans feel as we do, our confidence in the future is, and shall remain, unshaken.

On the other hand, we have a vocal and bitter group in our midst who would defile our governmental structure, demean the basic principles upon which freedom has been founded, and viciously attack their fellow citizens. It is these Americans who are disturbing, not because they will ever mount a force sufficient to destroy America and what it stands for, but because they are contributing to the cause of those in foreign areas who are deeply jealous of our accomplishments . . . and who would destroy those things which we have built.

It is not difficult to understand why Nikita Khrushchev would condemn and demean our institutions, our philosophy of government, and our achievements. He has visited our country for only a short stay. Yet, he saw enough to convince him of the great strength, the great faith, and the great confidence cherished by the American people. Certainly, it would be his mission to return to Communist Russia and try to belittle what he saw here.

The same could be said of Mao Tse-tung, except that he never has visited our country. He, too, is a party in interest with Khrushchev to try to destroy the United States of America and all that it stands for. He is a Communist at heart and bent on the domination of mankind in this world.

The same rule could be applied to Castro, who has known this country much better than any Communist. Castro is fully familiar with our country, our government, our philosophies, and most of all, our people. He has enjoyed the great luxuries that have been made possible for mankind by the ingenuity of the American mind.

Yes, we can understand the people who are either misguided or acting with malice aforethought. They feel they have something to gain.

What we CANNOT UNDERSTAND are those Americans among us who leave no stone unturned to cast every suspicion on our government, our institutions, our activities, our way of life, and even their own neighbors. People, who, in many instances, are living in the lap of luxury, enjoying every conceivable benefit that has yet been produced by man. Some of them have not even had to work for the riches they now enjoy, and many of whom have received the richest blessings of God and their fellowmen, and who, because of their material wealth, could help measurably in the solution of many of the ever-present problems of man.

We cannot believe that they would conscientiously contribute to the cause of those enemies of freedom who constantly seek our destruction. We would hope that they would re-evaluate their positions, their activities, and their attitudes, and realize that an unintentional disservice is as damaging as if it were intentional.

Our country, its institutions, its resources, and all of its people, need these other Americans for a united front in the furtherance of the basic philosophy of the freedom and dignity of man as an individual, which is the bedrock upon which this country stands.

Departing the family hearth before daylight Saturday morning as is our custom (we're not trying to impress anybody—it just takes us about 16 hours a day to negotiate the same obstacle course everyone else runs in 8!) we stole out to the Newport 'neath the car port, and climbed in.

As we inserted the key, and turned it, a brusque "Hands Up" greeted us close, too close, at hand. The White Cliffs of Dover would have looked colorful beside the pale that creased our countenance as a gigantic "What Next?" was telegraphed to a feat-stricken mind.

The next words we heard counted have provided more relief than a pardon from the Governor if we were a resident of Death Row. Those words were, "That's what ALL school children do . . . raise their hands, when asked by their teacher if they like (name of product)."

We'd already figured what we stood to lose in the way of money, not to mention the privilege of breathing our share of this earth's atmosphere when we learned the "command" we heard upon turning the switch came from our car radio.

We been driving an 'antique' car so long until recently, how were we to know the new models have transistor radios that don't need "warming up" before they are operational?

We hadn't switched off the car radio after hearing area ball game scores enroute home Friday night.

Needless to say, we've "aged" considerably as the result of being "held up."

Edgar Allen! (With apologies to Glenn Shelton). She addressed me thus . . . in her syrupy brogue— "Your summer straw . . . it's still in the vogue. But Winters is the team to beat. For Straw Hat Supremacy to stay on the street." Quite frankly, our Stetson Saddle Roll was being worn at a most rakish angle after the win over Colorado City. We must remember to return it to a more parson-like position ere we go overland to Blizzard Land, B-R-R--R! Lucky Top, please return home with us tomorrow night. It is not our desire to leave you in deep freeze at Winters."

Understand both Garth (Don't Know How Much You're Makin', But It Ain't Enough) Garrett, High Sheriff of Haskell, and the Haskell National Bank have been lookin' for a crafty check forger recently. From the looks of our bank balance, that creative writin' "paper hanger" has been usin' OUR name.

Don Muenzler, local drug magnet, during a sidewalk superintendent's session the other morning, recalled his own Boy Scout Jamboree days at Valley Forge, which, the way he presented it, must have been as rugged as the days when G. Washington was there. He was still gettin' a chuckle out of the Boy Scout contingent from Austin selling cookie-burrs as porcupine eggs and horned toads as Gila Monsters "to the Yankee boys." Having been born and reared in the shadow of the State Capitol, Don says he and his fellow Austinites "learned how to be manipulators from our diaper days."

We had a "run" on our poster board material here at the Free Press last weekend. We wondered what was going on, and found out Fire Prevention Week is this week. It took us back. If you can remember what you put on your fire prevention poster in the late Twenties, like we can, YOU don't have to worry about the draft!

The smiles on the faces of Yankee addicts this week are more than that. They're smirks. We have but one bit of counsel for other than Yankee fans. White Sox, for instance . . . like we are: If you can't beat 'em . . . well, you know what you can do. Let's face it. The only thing that could derail the Yankees in the American League is the Sherman Anti-Trust Act.

Heard roundin' the Square: "I can't pay you right now, but I sure do have a dandy top crop."

Everything was "jes' crick-et," literally, again here last Saturday and Sunday mornings, especially on the south side of the Square. A dawn broom brigade, making a clean sweep of things, had to move mounds of the chirpers waited into Haskell on a high wind to signal a weather change. We don't know where these crickets came from, but we think Canada. We heard one of them chanting in its "chirp," "God Save The Queen."

Tommy Joe Ballard, surveying the cricket infestation Saturday, said he always knew the south side of the Square was "buggy," and here was tangible proof.

Tax Assessor C. M. Brown, who recently returned from a trip over several western counties, says the people of Haskell County are in better condition than any he saw on his trip.

Haskell County's cotton crop is estimated at 8,000 bales this year. Only a few short years ago, it was questioned whether farming and cotton raising could be sustained.

512 Registrants Take Part In Gala Weinert Homecoming

DR. CLAY GRIFFITH

More than 500 former teachers, students and patrons of Weinert School and seven one-room schools that consolidated there joined in the sixth biennial homecoming Saturday at Weinert at which one of their very own, Dr. E. Clay Griffith, Class of 1942, a distinguished Dallas neurosurgeon and psychiatrist, was principal speaker. A total of 512 homecomers registered, and 800 people saw Saturday night's Weinert-Moran ball game, school officials said.

In the audience assembled to hear Dr. Griffith relate that growing up at the grassroots has its advantages in solving the problems he faces in his profession, was Mrs. T. E. Robbins, of Knox City, who was one of the first teachers

New Owners Of Pal-O-Mar Lodge Canada Family

Haskell has four new residents this week—and they have come all the way from Sarnia, Ontario, Canada, to make their home here.

Mr. and Mrs. John Fell have purchased the Pal-O-Mar Lodge, 209 South Avenue E, and assumed operation of their new business last week. The Fells' have two daughters, Thelma 17, and Fern 16, who have enrolled at Haskell High School.

The Canadians have visited in Texas on several occasions, but prior to moving to Haskell had never made the Lone Star State their home. This is also the Fell's first venture in the motel business.

Prior to moving to Haskell, Mr. Fell worked as a maintenance man in a Foundry in Canada.

When a Free Press representative called on the new owners of Pal-O-Mar Lodge Monday, Mrs. Fell was having her afternoon cup of tea.

Elsewhere in today's issue of the Free Press will be found an advertisement concerning the change in ownership of Pal-O-Mar Lodge.

in Weinert 56 years ago, in 1908.

Mrs. Robbins, the essence of professional dignity still at 80, taught in four Haskell County schools from 1908 to 1912, she recalls. They were Pleasant Valley, Mitchell, Joe Bailey and Weinert. In addition to the latter two, Brushy, Dennis Chapel, Myers, Ballow and Lone Star were the country schools which consolidated in Weinert.

The long ago Weinert 'school marm,' who has lived in Knox City 46 years, recalls teaching in a building on the land of the late Herman Weinert, member of the family for whom the town was named. The building was previously utilized as a land office in addition to schoolhouse, she said. The first brick school building was erected about 1909 or 1910 while she was in Weinert, Mrs. Robbins remembers.

Dr. Griffith, TCU, Tulane, and University of Texas Medical School-educated, told his listeners that a rural upbringing "has stood me in good stead so far as learning about people and about how people are going to react are concerned." There is no need for casting aside the lessons learned in a grassroots atmosphere when one moves to an urban area, he declared.

The prominent doctor, a partner in Timberlawn Psychiatric Clinic in Dallas, said that the advantages of initiative and independence learned in less populated territory, where growing up also includes "wearing two or more hats" in numerous endeavors, speak well of rural backgrounds. He advised against changing philosophies or behavior patterns just because one moves from the farm and ranch to the city. "Instead of trying to forget you were once a country boy, I find it advantageous to still be one," he emphasized.

Dr. Griffith also explained that in his field, research into adolescent problems pointed up the increasing importance of helping youth "to use what they already know, but are afraid to use." He said he could not over-emphasize the lessons learned in life at the ages of 18 and 19, and that the freedom of movement and lack of transportation problems favor a rural atmosphere during these years.

Bailey Toliver, Haskell businessman and civic leader and president of Weinert Homecoming; Douglas Myers, superintendent of Weinert School; Mrs. Marvin Phemister, vice president of the homecoming; and Raymond Mathison, secretary-treasurer, were in charge of arrangements.

Returnees from some 20 Texas cities and towns, and three other states, registered for the event, climaxed Saturday evening and night by a catered fellowship supper "on the ground" and the Weinert-Moran football game.

Ladies, here's a kitchen candidate you can trust!

...when you turn a GAS burner off, it's really off!

Electric—Even though you've turned control to "off", hangover heat in the coils—can result in over-boiling, hot tempers.

GAS—Turn the flame off, and the heat's off... immediately! No mess, no hangover heat... one reason, maybe, that 99% of the nation's top chefs cook with gas.

Pastor Scheffel Accepts Call To Mission Church

Rev. Fred Scheffel, of St. Paul's Lutheran Church in Sagerton, has accepted a new charge in Taft, a community 20 miles from Corpus Christi.

St. Paul's in Sagerton was the first pastorate to which Rev. Scheffel was called, coming from the seminary in Columbus, Ohio, to the Haskell County community in 1959. Before entering the ministry, Rev. Scheffel had been employed by Sears, Roebuck and

Company in their Houston and San Antonio stores, serving as personnel manager and buyer over a period of eight years.

Rev. Scheffel is a graduate of the University of Texas and received his bachelor of divinity degree from the Evangelical Lutheran Theological Seminary in Columbus, Ohio.

In his new charge, Pastor Scheffel will be serving a mission congregation just established as Faith Lutheran Church, affiliated with the American Lutheran Church.

The congregation was begun through the mission efforts of the Grace Lutheran Church, of Sinton, whose pastor is Rev. Bruno Gaskamp, formerly of Trinity Lutheran Church in Haskell.

August E. Hahn, Sagerton Farmer, Is Found Dead

August Edward Hahn, 80-year-old retired Sagerton farmer, was found dead by his bedside last Friday. Investigating officers estimated his death, ruled by Justice of the Peace Joe Baitz as from natural causes, occurred the previous Sunday.

Haskell County Sheriff Garth Garrett said the body was discovered by Fritz Stegemoeller. He said Mr. Hahn had been to church Sunday and was apparently changing clothes when stricken with a heart attack. He had had a previous heart attack about six months ago.

Prattle

By AL HINDS

Prattler's Prophecy: Out of 7 pre-game predictions for last week-end contests, Prattler's batting average climbed to .888 percentage, having hit 6 correctly and missing only one.

The schedule really gets tough this weekend, and I pick 'em like this:

Haskell 14, Winters, 13. Although the Indians will be playing at Winters, I still think the locals can take 'em, but it will be the toughest game so far this season for the Indians. Most dopsters don't think the Indians can do it, but I'll have to string along with our Indians.

Arkansas over Baylor. After what Arkansas did to TCU last weekend, I have no other choice.

Rice over Stanford. Owls begin to roll.

Texas over Oklahoma. Longhorns are long gone.

A&M over Southern California. A&M is bound to win one of these days.

Texas Tech over TCU. This is a "toughie." The Red Raiders will be playing on the Frogs "home field," but I think Denny Anderson and Company have more speed. The Froggies, however, haven't won a game this season, and they will be trying desperately on this one.

SMU is idle this week. They didn't look too impressive against Arlington State last weekend.

New York Yankees to topple St. Louis in World Series.

Flavored lipstick seems to

be the rage these days for the fairer sex. At my age, and having been married 30 years, it doesn't make a lot of difference to this scribe what flavors the lipstick comes in... since I am not likely to taste much of it anyway.

Mike Campbell says that in a neighboring town a colored man approached a Negro buddy and wanted to know why there were so many people in town wearing a red ribbon pinned to their coats. "Oh," he replied, "I think they belong to the Farm Bureau Assnation."

Several businessmen around the square have called to this scribe's attention the inconvenience and the hazards of "double-parking." I noticed the other day, a driver double parked on the north side of the square, took the keys out, left the vehicle and blocked a couple of cars - which were parked at the curb. One of the owners of the cars parked correctly at the curb, could not get-out, and it was some 30 minutes before the person who double parked came back to move his car. I am sure the driver who had double parked did not think of the inconvenience he might have caused... but nevertheless, in all fairness and courtesy, double parking should never be done, unless someone is in the car to move it. An emergency could arise, and those persons whose automobiles are blocked by "double parking" could not move their vehicles.

I was over at the Fort Worth and Denver Railroad Depot last Thursday to see the huge, shiny bell presented to the citizens of Haskell by the railroad company. Brax Gilmore and Prattler walked over to the depot to view the bell just after it arrived in Haskell. I gave the bell a couple of swings and the clear, strong sound could be heard for many blocks. One just have to see the bell and hear its beautiful tone to really appreciate it. Most football teams now have their rockets, cannons, etc., to shoot when they score. I was just thinking maybe the bell could be placed at Indian Field and could be rung each time the Indians score. Well... no harm in wishful thinking is there? It was a long, hot summer

and my cigar stock is nearly depleted. Thanks to Herman Lacy at Wooten Oil Company, I was pretty well supplied with "Stogies" all summer. Lacy wagered me time and time again it was going to rain. He never came close to winning a "cottonpickin'" friendly little bet, then chickened out about the time the rains came.

We owe much to our cheerful and kindly friends. They add greatly to our happiness and enjoyment of life, giving us a more courageous outlook as we endeavor to climb to their joyful heights.

Gallant Goal

(Continued from Page 1) 4-yard line midway in the second quarter. The magnificent and memorable goal-line stand by the Fightin' Indian line and secondary which "riz" up and clobbered the Wolves' TD effort was the tide-turner in the ball game.

At the time this valiant conduct by the Indians stopped them, the Wolves had taken the Indians' post-touchdown kickoff and roared back for 61 yards. The venomous threat was stemmed when, on fourth down, James Ivy, a steamroller all night, both offensively and defensively, flattened McKay on the 7-yard line, and our boys took possession with 7 minutes to go in the first half.

Capsuling the classic, here were the payoff particulars: Haskell, from its own 20, after a booming kick by CC's Millsap went 62 yards into the end zone, began a march five plays before the end of the first quarter. Josselot and Electric Eddie Hester alternated to tote the mail to the 33. Then Joseph, acting like he was heading for the Promised Land, scooted 9 yards to the 42. Eddie added 3 to the 45, as the first period ended.

After a Josselot-Kreger pass fell incomplete on the first play of the second quarter, Go-Gettun Gary Conner hit right tackle, cut sharply to his left and was a long goner for 55 yards and Haskell's first TD. Then Bill Perry crossed the bar.

Both teams fought on scrappily even terms the last seven minutes of the second period, and all of the third, with Bobby Watson and Perry Millsap engaging a kicking duel punctuated by great downfield hustle by the Fightin' Indians who split the wind to wait for Watson's boomers to come down out of the ozone. Watson kicked seven times during the evening and Millsap five, which tangibly indicates the kind of ball game it was.

On the next to last play of the third quarter, a real ball hawk, Gary Driesedow picked up where he left off the week before, and spread-eagled over a loose ball on Colorado City's 40. It was at this point that Gary Conner (see pix on page 1) bulled his way to the 34. With fourth and four and a kicking situation, a C-C lad roughed Bobby Watson, and it was the Indians' ball on the 21. McKay pounced on one of our fumbles, however, and the Wolves again were in possession.

One play later, Sticky Fingers Ivy picked a McKay pass out of the autumn breeze on the 30 and churned 23 yards down to the C-C 7.

Josselot, Ivy and Josselot again found the going rough as the Wolves barricaded the ramparts near the goal line. So on fourth down from the 10, Quarterback Joe says, "If we can't go through 'em, we'll go over 'em." Which the Indians did on the next play. Joe found Wily Wendell Coston all by his lonesome in the end zone for six more precious points and the scoreboard clock reading 5:30 to go. Fancy Foot Perry again crossed the bar with a pigskin to make his point.

Sterling play from end-to-end was what did it again up front where the horsepower is. It would be hard to pick defensive standouts, so sterling was the Indians' play. But the honor roll for this one evening probably would read like this: Dickie Frierson, Bill Perry, David Wilson and Frankie Don White, four real wild horses in the line; then, Ivy and Conner, to which 16 more names could well be added.

Lions Club Chili Supper Is Set For October 23

As a project to help raise money for the Goodfellows Fund to help less fortunate families at Christmastime, the Haskell Lions will stage a "Chili Supper." Friday, Oct. 23, in the high school lunchroom from the hours of 5:00 to 7:15 p. m.

In past years the club has promoted a Pancake Supper, but it was voted by club members to switch to the chili and beans supper this year.

Tickets will go on sale in the next few days at 75c. All Lions will serve as ticket salesmen, and anyone desiring a ticket may contact a Lion.

Tuesday's Program

Since this is Highway Safety and Improvement Week, Jim Sampson, program chairman, showed a very colorful and timely film, "Money to Burn," at the Tuesday noon-day luncheon meeting.

The film, from the Texas Highway Department, pointed out that 1 1/2 million dollars are spent each year to keep our highways free of trash, most of which is due to "litterbugs." "Money to Burn" brought out very forcefully the harm and the cost that litterbugs cause on our highways.

Ray Lusk, of the local highway department, and John Wallace Cox were guests at Tuesday's meeting.

Bill Holden was presented a 20-year "Old Monarch" Pin, by immediate past president, Wallace Cox, Jr.

Contest Report

Leroy Haverlah and Dr. J. G. Vaughter gave reports on the membership and attendance contest now underway. Increase in attendance was noted at Tuesday's session.

U. S. 277

(Continued from Page 1) coast-to-coast highway become all the more imminent, Association President Grace has emphasized.

With crystallization of these plans, a link-up at Abilene with Interstate 20, when completed, would provide a four-lane route from Waterville, Me., to Los Angeles, Calif., with this immediate area the "mid-section" of the proposed route, highway planners have pointed out.

Lawton and Wichita Falls highway backers, Grace declared, are "understandably interested" in development of a 4-lane highway from Wichita Falls to Abilene because of the "tremendous impetus such a program would provide toward making the Trans-America Expressway right through this area a reality."

In the two organization sessions in Haskell during which the U. S. Highway 277 Association was established in the spring, officials of the smaller towns along the route expressed concern about being bypassed by a 4-lane highway.

District Highway Engineers L. B. Dean, of Wichita Falls, and J. C. (Jake) Roberts, of Abilene, however, made it quite clear that no town will be by-passed unless and until the town asks for a bypass. In other words, as long as a community can, and desires to absorb the direct flow of traffic, it may.

In addition to President Grace, the following chosen representatives by towns are expected to confer with State Highway Commissioner Greer at Friday afternoon's meeting: Rhea Howard, W. R. Gaston and County Judge Calvin Ashley, of Wichita Falls; Porter Oakes, secretary of the association, and County Judge James C. Alvis, Haskell; Jessie (T-Bone) Winters, Darrell Knight, Taylor County Commissioner Grover Nelson, and Joe Cooley, executive vice president of the Abilene Chamber of Commerce, Abilene; Chamber Manager, Alton V. (Blue) Womack and Jones County Judge Leon Thurman, Anson; Varnie Moore, Mayor J. E. Reeves, and Knox County Judge L. A. Parker, of Munday and Benjamin; E. E. Starkey, Curtis Matthews, Jim Richardson, and Baylor County Judge Donnell Dickson, of Seymour; L. E. Millon, Jr., and Pete Calhoun, of Stamford.

Several Taylor, Jones, Haskell, Knox, Baylor and Wichita County commissioners also will take part in Friday's ceremonies and talks, propitiously scheduled at the height of the statewide observance of "Highway Week" in Texas, pointing up "Mobility, Your Fifth Freedom."

Boykin, of Childers, other honors at a trapshoot on the layout here in a high wind Sunday afternoon. Wooten's 88x100 was good enough for Class A singles first place, and Boykin captured the Class B title.

In handicap shooting, Wooten won with 47x50. Fellow Townsman David Frierson and Wooten were a "dead heat" in Class A Doubles competition, both posting 46x50 scores, but Wooten prevailed in a shootout, bettering Frierson's mark by six 'birds.'

Hey Day

Included in this year's Hey Day receipts was a check for \$100 from a pioneer Haskell County for whom the depot holds many nostalgic memories. The structure was "sold" for \$1 by the Fort Worth and Denver Railroad, through the thoughtfulness of its vice president, Ellis L. Simmons, to Haskell in order that the heritage of the railroad might be preserved. It was slated for the scrap pile when area citizens launched their project to save it.

A group of horseback riding enthusiasts at Old Glory have organized a cross-country trail ride to begin at 2 p. m. Friday, Otis Palmer, one of the leaders of the project, has announced.

Palmer says the group will gather at the roping pens at Old Glory at 2 p. m., ride across country until night, pitch camp, have supper, spend the night, and return Saturday morning after breakfast in the open.

Those who wish may join the campout via automobile and spend the night. Palmer said.

Need Urgent

(Continued from Page 1)

A junior college would provide the potential school dropout with the incentive to finish high school and give him the opportunity to obtain at least two years of college without leaving home, Mrs. Burkett pointed out.

The well-known Haskell educator recently launched a junior college movement here by inviting a high official on the state board of education to come to Haskell to outline the requirements for a junior district. She is carrying his message to adjoining counties, cooperation of which will be needed in order to qualify under the terms of a legislative act passed concerning public junior colleges.

There now are 32 junior colleges in Texas, Mrs. Burkett reported, but the Governor's Committee on Higher Education recently recommended this number be increased to 44, and that several of them be located in West Texas, she said.

Technical and vocational programs not a part of senior college curricula "are essential this day and time beyond high school," declared the Rotary speaker, "and we can qualify for a junior college district with joint cooperation of the area petitioning for its establishment."

The Haskell Rotary message was one of a series Mrs. Burkett and other junior college supporters plan to make in a four or five county territory. She was introduced by H. V. Woodard, program chairman. Roy Johnson, president, was in charge.

Steering Comm.

(Continued from Page 1) necessary for establishing a junior college district and get a school in operation, came here at the instance of Mrs. Burkett, who launched the junior college project here as chairman of the education committee of Haskell Chamber of Commerce. In order to meet requirements of tax base and scholastics set by legislative act, Haskell and possibly three other counties must join in petitioning for a junior college in this area, Dr. Musgraves has advised.
