**FIREMEN MADE 71 RUNS WITH 8 GENERAL ALARMS IN 1965**

Haskell's Volunteer Fire Department made 71 runs during 1965, eight of which were general alarm blazes, Fire Chief Tom Watson and Floyd (Satch) Lusk, supervisor of the department, reported.  
 Seventeen of the runs were out of the city limits of Haskell.  
 July, 1965, was the busiest month for Haskell volunteer firemen, who answered 12 calls in the 31-day period.  
 The fewest fires occurred in April, May, October and December, when three runs were made in each of those months, according to Chief Watson.  
 Haskell had two downtown business fires during 1965. One was on March 22, at the Modern Way Grocery and the other was on November 11, at Woodson Radio & Electric Shop. The fire on March 22 was the greatest loss, Lusk said.  
 Total amount of insurance loss during 1965 was approximately \$50,000, the records reveal.  
 Thirty-three grass fires were reported during the year.  
 Watson and Lusk said that fire managers are to be commended, as only one call was made to gins during the ginning season.  
 Firemen held 26 drills (two hours each) during 1965.  
 E. J. Stewart, Olen Bartley, Chester Hodgkin, Jim Alvis, R. V. Black, Sonny Reynolds, Robert Dumas, Wayne Waincott, Jack Speer and Belton Duncan were cited for the attendance at drills and fires.  
 Stewart missed only 2 drills and one fire; Hodgkin missed one drill but made all fire calls; Alvis missed one drill and one fire; Black missed four drills, but made all fire calls; Reynolds missed two drills and two fires; Dumas missed two drills and one fire call; Waincott missed three drills, but did not miss any fire calls; Bartley made all drills and missed only one fire; Speer missed three drills, but only one fire and Duncan missed only two fires.

**Dave Strickland Announces For Commissioner 4**

D. S. (Dave) Strickland authorized the Free Press to announce his candidacy for Commissioner Precinct 4 and his statement to the voters will be found elsewhere in today's issue.  
 Mr. Strickland is no newcomer to politics as he served as Commissioner Precinct 4 for two elective terms from 1951 through 1954.  
 With Strickland's entry, there are now six candidates seeking the Commissioner 4 place.  
 So, the old political pot is not only bubbling...it is boiling over in Haskell County especially in Commissioner 4.  
 Commissioner two also has drawn considerable amount of interest as four candidates are in that race.

**The World Famous Harlem Stars Are Coming To Haskell**

**Problems Of Water In West Texas Heard At Rotary Club Meeting**

Dr. T. W. Williams brought about the State-wide water plan for Texas. It simply proposes to firm up enough of the potable waters of the State at practical points and deliver required waters to points of need where this can be done economically.  
 "In its simplest terms, the plan embraces 83 new dams to firm up, as required over the next 40 years, (in combination with present storage) a total of some 17 million acre-feet of water to meet predicted needs throughout the State.  
 "It is important to note that the proposed interbasin transfer of water throughout the State is the key to solution of West Texas water problems where such are capable of solution.  
 "By freeing waters now dedicated to downstream use and permitting their redistribution for upstream in basins such as the Nueces, Colorado, Brazos (four area), San Antonio and Guadalupe, many of these waters now firm up in the upstream portions of these basins  
 "These easy-going, uncoordinated days of the past way of water use are gone. West Texas now faces a brutal reality: Give deep consideration to its water problems or stop growing.  
 "In some portions of West Texas economic decline is inevitable. This is exemplified by the High Plains now in their third decade of mining ground water at a furious rate. The present High Plains culture, and economy, are based on water mining process; the decline is inevitable. Other areas long ago reached the limit of their water supplies; the lower Rio Grande Valley for example. Here, however, import of large quantities of water is a practical matter and there is no limit to economic expansion because of water availability. Some basins (Nueces, Colorado, Guadalupe, San Antonio and Brazos) can profit materially both upstream and downstream (and this is of particular interest to West Texas) by interchange of basin water supplies. This requires acceptance by West Texans of problems of the State as a whole. Accept this circumstance and work with it and West Texas, overall can expand. Ignore it and the blunt truth is that by and large the economy of West Texas will decline.  
 "I would tell West Texas that solution of their water problems is to a considerable extent intertwined with the solution of the Texas water problem on a statewide basis. The West Texans either concern themselves with the state-wide water solutions or they will not solve many of their own water problems.

Under the sponsorship of the Haskell Lions Club, the hilarious Harlem Stars are coming to town, and will meet the High School Faculty in an exhibition basketball game at the high school gym, Saturday night, January 15th, at 8 o'clock.  
 Advertised as the greatest and funniest basketball team in the country today, the Stars are a combination of Negro stars who tour the world, making fans laugh.  
 When the name Harlem Stars is mentioned, hoop fans get ready for an evening of entertainment. Fans will see a fancy exhibition — razzle dazzle ball handling, intricate routines, both planned and impromptu comedy and all sorts of 'shenanigans'.  
 The Harlem Stars are unique in the fact they never try to run up a huge score against opponents. It is their policy to keep the game close devoting much time to comedy stuff.  
 The Harlem Stars enjoy playing basketball every day even if they have to travel hundreds of miles to do so. The Stars began their season in Alaska the last week in September and will hit between 36 and 40 states and the following countries: Mexico, Canada, Australia, Japan and some parts of Europe. The round horsehide is the magic carpet that has taken these basketball jesters to all parts of the world.  
 Magicians is what owner Boyd Baile calls them. Referring to his Harlem Stars when they begin their zany antics on the basketball court—razzle dazzle ball handling, intricate pass patterns, trick shooting, marathon dribbling and impromptu comedy antics all go to make this the greatest show in the business. "Go Man Go" really describes the Harlem Stars when they are on the court.  
 Admission will be \$1.50 for adults; \$1.00 for students, and children under 12, 50c.

### Dave Strickland Candidate For Comm. Precinct 4

TO THE VOTERS OF HASKELL COUNTY PRECINCT FOUR: I am placing my candidacy for Commissioner before you for your consideration in the forthcoming Democratic primaries.

First and foremost, I am a Democrat. I was born a Democrat and I will die a Democrat.

It has always been the democratic way to pass the elective offices of our County, State and Nation to qualified persons.

The duties of a County Commissioner are not always pleasant. There are things that have to be done that sometimes are political suicide, but if you don't vote the way you know you should, because you know it will hurt you politically, you are not doing the job you were elected to do, and, therefore, you are not the man for the office.

I served as your Precinct Four Commissioner for two elective terms from 1951

through 1954. The records will show how I voted on matters that had to be done when I was in office.

I assure you that if I am elected again any matter that comes before the Commissioners Court will have my careful and thorough consideration. I will ask: Is this the correct way? Is this the law? Is this good for Haskell County?

For the past 11 years I have been calling on Commissioners Courts in 34 of our surrounding counties. I have sat in meetings with Commissioners Courts where every kind of problem was discussed, and I have heard rulings from the Attorney General's office read pertaining to the problem under discussion. Therefore, I feel that due to this fact, I am better qualified now than I was when I served you before.

I will assure you that if you see fit to elect me to this important office that everything coming before the Court will receive due consideration and will be handled in a business-like way. And, also, that you, the voters, will always be welcome to attend any meetings of the Court.

I will always be available to discuss anything for the betterment of conditions in our County.

If you, the people, want a careful business-like administration, vote for D. S. (Dave) Strickland for Commissioner of Precinct No. 4.

I will try to see each and every one of you before the election, but if I fail to see you, please take this as a personal solicitation of your vote and influence.

Yours for a better county government,  
D. S. (Dave) Strickland

AN ORDINANCE REGULATING THE CONSTRUCTION, ALTERATION, MAINTENANCE, REPAIR AND REMOVAL OF BUILDINGS WITHIN THE CITY OF HASKELL, TEXAS, AND PRESCRIBING A PENALTY FOR VIOLATIONS THEREOF, AND DECLARING AN EMERGENCY.

SECTION 1. Before the erection, construction, alteration or repair of any building, structure, or wall or any part thereof or of any platform, staging or flooring to be used for standing or seating purposes is commenced within the limits of the City of Haskell, Texas, the owner or lessee or agent, or either, or the architect or builder employed by such owner or lessee in connection with the proposed erection alteration or repair, shall apply to the City Secretary of the City of Haskell, Texas, for a permit to do such work. The application for such permit shall be made on a blank form furnished by such City Secretary and shall state

the exact site to be occupied by the new building, the material to be used, the site of the old building if an old building is to be repaired or altered, the dimensions and estimated cost of such buildings, alterations or repairs or structure or work to be done and the probable time consumed in said work or erection of said building.

SECTION 2. Work must be commenced under any permit granted by the City Secretary within six months after same is granted or all rights thereunder will be barred by limitations.

SECTION 3. Every person, firm or corporation violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction therefore shall be fined in any sum not exceeding one hundred dollars.

SECTION 4. The fact that there is now no sufficient building ordinance in the City of Haskell, Texas, and the further fact that there is now urgent need for such ordinance for the protection of the inhabitants

of said city, creates an emergency and an imperative public necessity that the rules requiring ordinances to be read at two stated meetings and not to become effective until 10 days after publication, be suspended and this ordinance is passed on second reading and final passage and publication, and it is so enacted and ordained.

Passed and approved this the 20th day of February, 1930.

If you're in the market for a new clothes dryer,

(here's why modern Gas is better than you-know-what)

**SAVE MONEY** Modern gas dryers are economical. They dry a whole load of laundry for about a penny — which is a lot less than the cost of doing the job electrically. 91 out of 100 self-service laundries use gas dryers! **SAVE CLOTHES** Gas dries gently. Clothes come out soft, sweet-smelling and fluffy — never stiff or yellow. Many gas dryers have special settings and cycles to protect even the daintiest things. So why lug and lift heavy baskets of wet laundry? Why let wind, dust and rain ruin your clothes?

Enjoy the convenience of a modern, automatic dryer — a gas dryer. **SAVE ON REPAIR BILLS** Like all gas equipment, dryers are well built and virtually maintenance-free. Gas is fast, safe and unlike you-know-what, it dries with just a simple burner. There's no complicated, expensive heating element to wear out. Just a simple gas burner, which hardly ever wears out. Now's the time to enjoy price savings, too. See the new gas dryers on sale at all Gas Appliance Dealers and LONE STAR GAS

**Problems of:**

must be released for downstream rights in the Brazos, Colorado, Guadalupe, San Antonio, Nueces and Rio Grande, vast quantities of water, by import through the Coastal Canal, can remain in upper Texas. "The great quantities of water that can be exported to the west occur in the lower basins of the Nueces and Sabine. When these low lying waters are exported to the west the upper basins then no longer have to release water for downstream requirements and are free to shuffle water around in a manner that can be advantageous to West Texas.

"In conclusion, I wish to remind all who are interested in water problems that the Texas Basins Project, to which I have referred is not a plan conceived in Washington by a fat bureaucrat sitting in a soft saddle on a tall horse, but is the combined thinking of both Federal and State Agencies including eight State river authorities and five decades of experiences of our own capable Texas Water Commission and I do not wish to leave the impression that this plan is the only answer to our difficult problems; however, unless a better plan is proposed, this is the one we should work with."

Cleburne Huston of Stamford was a guest at Thursday's meeting and student guests were Judy Baitz and Jimmy Yeary.

**Horse Sense—and the Mustang Six**

I don't know much about engines. If mine's smooth, powerful and gives great gas mileage, I'm satisfied. That's why I got a Mustang Six.

You don't have to be an engineer to appreciate the Mustang Six. Just get comfortable in one of those deep-foam bucket seats, fire up that husky 200-cu. in. powerplant . . . and let yourself go. Nor do you have to be an investment banker to realize you've made a great buy. Standard Mustang Six luxury includes: all vinyl upholstery; plush wall-to-wall carpeting; padded instrument panel and many other extras at no extra cost.

Sound sweet? Mustang makes lots of nice sounds. Optional stereo-sonic tape is one. Another is moon jingling in your pocket, thanks to Mustang Six's meager appetite for gasoline. See for yourself. Stop in at your Ford Dealer and test-drive America's runaway success car.
