C.D. Shamburger Lumber Company Holds Grand Opening In Burkburnett

Shown above are Jerry Brooks, C. D. Shamburger Lumber Co. manager, Terry Armstrong, Bob Tyles and Dale Brooks.

Grand opening of the new C. D. Shamburger Lumber Company has been set for Friday, Aug. 27 at 10:00 a.m. by yard manager, Jerry Brooks.

Much work has gone into the tearing down of old buildings and the remodeling of the lumber yard. Brooks states that along with offering the people of

Burkburnett and this area quality products, the new lumber yard will strive to give superior service to their customers.

In order that the people of Burkburnett might get acquainted with the lumber yard and its employees, Brooks announced that special sale items would be offered through Sept. 30, and that people visiting the yard are encouraged to register for free gifts.

Riley Chosen For Inclusion In OYMA

J.B. Riley has been chosen for inclusion in the 1971 edition of OUTSTANDING YOUNG MEN OF AMERICA, according to the Burkburnett Chamber of Commerce.

Nominated by the organization earlier this year, the men were chosen for the annual awards volume in recognition of their professional and community leadership, a spokesman said today.

Sponsored by leading men's civic and service organizations, OUTSTANDING YOUNG MEN OF AMERICA honors men between the ages of 21 and 35 whose demonstrated excellence has marked them for future leadership in the nation.

"These young men," according to Doug Blankenship, Chairman of the Board of Advisory Editors, OUTSTAND-

ING YOUNG MEN OF AMERICA, "are truly outstanding because they have distinguished themselves in one or more aspects of community and professional life." Blankenship was U.S. Jaycee President in 1962-63.

Nominations for the awards volume are submitted each year by civic organizations, Jaycee chapter, college alumni associations, and military commandants.

President Nixon, complimenting the awards volume, has said, "OUTSTANDING YOUNG MEN OF AMERICA presents a most fitting testimonial, not only to the success of many of our young people, but also to their awareness of the debt which they owe our free society."

Publication date for the 1971 edition is November.

First Meeting Held By Burk Booster Club

All citizens of Burkburnett are urged to give their support in promoting Texas products by using our agricultural products. TAP products are labeled with a TAP emblem as shown above.

Born Sept. 10, 1915 in Midlothian, Tex., Page was a veteran of World War II and an active community leader.

Burk To Conduct Survey

Two multi-million dollar industries which would offer stable employment for up to 750 men and women are currently considering locating large plants in the North Texas - Southern Oklahoma area.

In order that these industries and others which will follow, may know what the labor potential of this area is, a potential labor survey (page 2) must be taken. This labor survey is a "MUST" for Burkburnett and will require the combined efforts of all.

Note that the labor survey questionnaire is for men and women and schoolagers who lack one year of school. This survey is for "labor potential." For example a housewife with a child at home,

who may not be interested in working for possibly a year until her child enters school, she is still potential labor and should fill out a labor survey form. If a person lives in Burk and works in a neighboring town, he or she will still be potential labor for an industry.

The project is a joint effort of the citizens of a nine-county area and is being conducted through the combined efforts of Burkburnett and other area towns. The survey will be coordinated through the Wichita Falls Board of Commerce and Industry with technical advice and council being provided by the Area Development Department of Texas Electric Service Company.

These labor survey forms will be distributed by means of the Burkburnett Chamber of Commerce, civic groups, churches, schools and the mail. Also on page 2 of the INFORMER/STAR.

It is a must for Burkburnett to make a good showing in this area. All material will be kept confidential.

Bulldogs To Scrimmage at Altus Friday 7:30

The Burkburnett Bulldogs journey to Altus, Okla. Friday night where they will clash with the Altus Bulldogs. Scrimmage time will be 7:30 at Altus.

Head coach Bill Froman stated that the team has been concentrating on basic fundamentals and conditioning and that the boys were over most of the soreness of two-a-day workouts.

They need a little more polish offensively stated Froman, and their timing is weak. Much of the remaining time will be spent on specialties, kicking, throwing and punt return.

Froman noted that there was more depth in the interior line than the Bulldogs had ever had. The interior line has five tackles and five guards that are tops.

The team has two tough pre-season games, Altus and the Wichita Falls Coyotes. Froman believes that playing these teams will give the Bulldogs some good experience and will show up the weak areas. As usual the Bulldogs seem strong defensively.

Froman feels that the Bulldogs are looking at a tough schedule in District 4AAA, but the potential of taking it. As was stated, the Bulldogs need a little polish and a little experience, which they should get in these first two scrimmages.

Local families provided food for the two-day affair. Snap shots and movies were enjoyed by all. A short meeting was held following dinner on Sunday. Mr. and Mrs. Richard Schroeder were elected in charge of the next reunion. Mr. and Mrs. Virgil Klinkerman presided over this year's gathering.

Those attending were: Mr. and Mrs. Emil Schroeder, Mr. and Mrs. Lyle Eaton, Mr. and Mrs. Raymond Schroeder and children, Mrs. Clara Klinkerman, Mrs. Tom Goins and children, Mr. and Mrs. Elmer Klinkerman and children, Mr. and Mrs. Charles Klinkerman, Mr. and Mrs. Virgil Klinkerman and girls, and Randy Holland.

Out of town guests included: Mr. and Mrs. Richard Schroeder and children, Mr. Jack Witherspoon, Mr. and Mrs. Joe Rogers and children of Iowa Park, Mr. and Mrs. Grady Hancock, and Mr. and Mrs. Mike Cardwell of Wichita Falls; Mr. Oscar Schroeder, Mr. and Mrs. Preston McDaniel of Perryton; Mr. and Mrs. Eugene Schroeder, Mr. and Mrs. Robert Connelly and children of Amarillo; Mrs. Tom Garza and children of Garland; Mr. and Mrs. Lloyd Finstad and children of Grapevine; Mr. and Mrs. Loy Walker and children of Austin.

Guidelines of Life

Ed Morris, Minister
Church of Christ

THANK GOD I AM NOT AN ATHEIST

There is a woman in America that we all know. She knows there is no God, no Heaven, no Hell and says sooner than we Christians think, she and her associates will remove the Bible and its superstitions from America. We all know that this is the desire of a woman who has come to be known as "The most hated woman in America." Evidently she is aware of this, for she feels that her life is in constant danger. She keeps a large German police dog with her constantly. Do you thank God that you are not an atheist? I thank God that I am not an atheist but in thanksgiving, I don't want to be as the pharisee in the Temple saying, "God I thank thee that I am not as other men--or even as this pharisee." We might say, "even as this atheist." In the book of James, the writer says, "The devils believe and tremble." Even the devils were not atheists. They believed that God existed but remained devils just the same. This reminds me that millions of people are not atheists, but they remain non-Christian just the same. Will they be any better off than this hated atheist woman at the judgement day?

AND NOW, CHRISTIAN FRIEND, WHAT ARE WE DOING? (Here is a woman who will work to establish an atheist center, sacrifice, and have her life and soul at stake in her work against Christianity) What are WE doing FOR Christianity? A dollar a Sunday, maybe two services a week, and maybe a visit or two--WHAT A SACRIFICE. When was the last time you were in danger because you were a Christian?

LETTER to the EDITOR

August 17, 1971
Chugtak, Alaska

Dear Sir: Your notice that my subscription had expired arrived today. I would have renewed it at the time of your contest but alas I never did see what the price was. However I am glad I waited so now I can take advantage of the special rates.

We have moved from the big city of Anchorage to the little town of Chugtak. Seems as how after living in Burkburnett for 10 years, we like the smaller town better than the big, hence the move.

We enjoy the paper very much especially the children as they can keep up with their school mates and what is going on there.

We especially enjoyed the '71 Bulldog graduation edition as we had one who would have graduated in that class had we stayed there. We moved during the school year of '69-'70. Lester Eddins is now in basic training with the U.S. Coast Guard. He enlisted after graduation.

Enclosed is my check for another year. Perhaps I can renew in person next year. As we will be down on vacation then. In the meantime, keep up the "newsy-bests" newspaper there is!

Sincerely,
Mrs. Delyne Eddins

C-F Community Meeting Held

The Clara - Fairview Community held its monthly meeting at the Burkburnett Bank with a good attendance.

Chairman, James Roderick, called the meeting to order. The program was presented by Mr. Stalkup who is head of the conservation of fish and wildlife in Texas. He said that hunters and fishermen put millions of dollars into the state economy.

Mr. Stalkup showed a film that was very interesting. It showed how his men banded 36,000 dove, so an accurate count can be made this hunting season.

All dove that are shot, should have the wing tips sent into the game and wildlife conservation office to help them in this work.

Next meeting will be Sept. 9. This will be a cook out, with Joe McDonald, Charles Goins, and E.J. Simmons in charge.

SHEPPARD AIR FORCE BASE CHAP Chapter Held A Picnic

SHEPPARD AFB, TEX.--TRAINING AIDS -- Col. Amos H. Ross, chief of 3750th Technical School's Department of Communications and Missile Training, left, presents an honor graduate certificate to Amn. Carl E. DeLaunay. Airman DeLaunay was a member of the first class of the Trainer Specialist, Electronic Principles course of the Department.

SHEPPARD AFB, TEX -- CRAZY HATS -- Winners of the crazy hat contest model their creations at the brunch held last Wednesday by the Sheppard Officers Wives Club. The winners are, from left to right, Mesdames Joseph Bailey for the prettiest; Donald F. Trautwein, the craziest; and Stanley B. Hersh, the most original. The contest highlighted the meeting held at the Sheppard Officers Club.

Sheppard AFB Councils Are Combined Recently

SHEPPARD AFB, TEX.-- Sheppard's Top Three Council was integrated into the NCO/Airman Advisory Council during a reorganizational meeting Aug. 11. CMSgt. William E. Boatman was also named co-chairman with CMSgt. Donald L. Waterworth, Sheppard Senior Airman Advisor.

Also brought into the 33-member advisory group was CMSgt. Roy W. Hutto as a representative of the base Human Relations Council. This move is designed to provide cross-feed between the two councils since many problems are of mutual concern.

Sergeant Waterworth stated that composition of the NCO/Airman Advisory Council will be altered to include greater minority group representation. Also meetings will be held monthly instead of quarterly.

Sergeant Boatman refers to the council as "eyes and ears for General Page" (Maj. Gen. Jerry D. Page, Sheppard commander). In a letter to the council chairman, General Page said that one of the major purposes of the council is to "provide me with information on the thoughts, feelings, attitudes and opinions of the men and women you represent."

"You are an important avenue for creative and constructive criticism of Air Force

policies and procedures." The general also requested the council to explore ways and means of improving race relations at Sheppard.

It is to these ends that Sergeants Waterworth and Boatman are asking all Sheppardites to seek out their representatives on the council and air their complaints, suggestions and ideas. The names of each council member is posted on unit bulletin boards. Should a person not be able to learn the identity of his representative, Sergeant Waterworth should be contacted at ext. 2177.

Council members have made it clear that they want to help, but they need to hear from each airman who has a problem.

The key is communication. As problems and attitudes are fed to the council they can be discussed, researched and delivered to the highest level of command. This is one of the many avenues through which the man in the street can be heard by the man in the office.

All complaints submitted to the council are discussed openly by the members. Junior members are heard equally with senior members and all are listened to. In most cases the research committee is tasked with a personal investigation of the problem. If their report warrants, corrective action is taken.

Sheppard AFB, Tex.--The Sheppard chapter of CHAP (Children Have A Potential) held a picnic at the golf course picnic area and awards presentation at Chapel 21st Friday evening.

Awards were presented to CHAP children, teen assistants, adult teachers and officials of CHAP.

Swimming patches were presented to the CHAP children by Mrs. Greg Bagley, swimming teacher, and other awards to the children were presented by Mrs. John Blanks, a teacher with CHAP.

Patches were presented to the CHAP teens by Maj. Alan Nogen of the Pediatric Clinic at Sheppard's U.S. Air Force Regional Hospital. Awards for the teens' work in schools were presented by Maj. Gen. Jerry D. Page, commander of Sheppard Technical Training Center.

Awards presented to teachers went to Mrs. Donald Cruzan, Mrs. John Christoff, Mrs. Bagley and Mrs. Blank and four Sheppard airmen who helped in the school.

Going away gifts were presented to Capt. Nancy Wright, head nurse in the Pediatric Clinic, and SSgt. and Mrs. Donald Clabaugh. They were presented by Col. A.J. Thiele Jr., acting commander of the hospital.

Maj. Nogen was presented an honorary CHAP Teen Swimming Patch by Mrs. Donald Brady.

Master of ceremonies for the awards presentations was TSgt. William McGoff, CHAP president.

Dependents Graduate From Specialist Courses

Sheppard AFB, Tex.--Five dependent trainees in the Electrician, Carpentry and Plumbing Specialist courses in the Department of Civil Engineering Training, 3750th Technical School at Sheppard AFB received their diplomas during ceremonies held recently at the school conference room.

The graduates were Alan C. Reger, son of Lt. Col. and Mrs. Paul E. Reger, who completed the Electrician course; James Brown, son of Sgt. and Mrs. James L. Brown; Mark Cole, son of MSgt. (Retired) and Mrs. Jerry Q. Cole, who completed the Carpenter course; John Abel, son of CMSgt. and Mrs. Arthur G. Abel, and Joel Rupard, son of TSgt. and Mrs. Jack Rupard, who completed the Plumber course.

Each student was presented a certificate of training by Col. Thomas B. Miller, commander, 3750th Technical School. The certificates indicated the course, subject and hours of attendance.

The parents of the trainees along with department and branch officials were present. The trainees were enrolled as "overload students" and

were given the same training along side the military students under the Military Dependent Training Program.

Each student did exceptionally well in his area, and John Abel was one of the top students in his class.

Colonel Miller and Lt. Col. Robert L. Johnson, chief of the Department of Civil Engineering Training, were instrumental in initiating the training program for vacationing high school and college students.

The Carpentry course is eight weeks long, and both the Electrician and Plumbing courses are nine weeks in length.

Three others will complete their courses Aug. 25. They are Halle C. Jr. and Andrew Martinez, sons of MSgt. and Mrs. Halle C. Martinez; and Glenn Ford, son of SMSgt. and Mrs. Duane E. Ford.

Colonel Johnson said that he anticipates that this training program will be open to dependents again next summer.

Cantorial Concert Will Be Presented Sunday, Aug. 29

SHEPPARD AFB, TEX.-- A cantorial concert will be presented at 7 p.m. Sunday, Aug. 29 in chapel 3. Theme of the concert will be "Jewish Music from Sinai to the Space Age," and will be conducted by the Rev. Yitzchak Cohen, cantor of the Tiferet Israel Congregation in Dallas. The Rev. Cohen will be accompanied by Mrs. Donald Guten.

Cantor Cohen received his training in Jerusalem and sang with Richard Tucker and Jan Peerce during their Israeli

tours. Born in Poland, Cantor Cohen came to the United States under contract to sing the lead in the Jewish opera "Shulamith," directed by Sholom Secunda, a widely-known Jewish composer.

Cantor Cohen accepted the position of cantor of Ohev Shalom Talmud Torah congregation in Washington, D.C. There he served five years prior to his recent appointment to Tiferet Israel.

Sergeant Boatman refers to the council as "eyes and ears for General Page" (Maj. Gen. Jerry D. Page, Sheppard commander). In a letter to the council chairman, General Page said that one of the major purposes of the council is to "provide me with information on the thoughts, feelings, attitudes and opinions of the men and women you represent."

This may be the final column on Mark's plane crash in Oklahoma City. I haven't heard the last part of the tape he mailed me, and I'm hoping we learn something of his 18-hour wait following his accident that caused his lapse of memory. In our chapter here I think we have five or six home built planes flying. This is the second Cougar that has crashed. One was fatal. I was lucky-- I made it through mine. I don't think either one was due to aircraft failure. Of course mine was due to a malfunction

which is no excuse, as one should know how much fuel is in his tank--and how long you can fly. Every good pilot does this. I knew better but got careless and paid for it. It ought to be a good lesson to everyone else. I saw a good program on TV that showed a walk-around inspection, and they pulled the cap off and stuck their finger in to check for full tank and that it was the right color gasoline--and this is a very good thing to do.

After the crash we didn't come to until about midnight or sometime about midnight. I crawled out of the plane and didn't realize I had hurt my back. I didn't realize I had a broken leg until I got outside of the airplane and started feeling the pains of that. I was too weak to even put a splint on my leg which I was wanting to do. We laid there 17 hours before they found us. People were working at this airport at the other end of the runway, and never did see or hear us. Finally a plane flew over and remembered the warning to be on the lookout for a certain colored plane--which was us. They flew over and called CAP and reported that they could see movement. The plane landed and had water...BOY, I WAS SURE NEEDING WATER. I was thirsty and weak from loosing a lot of blood. The CAP got in touch with the Midwest City police and it wasn't but a few minutes until the ambulance was there. They started putting fluids into me and I knew then that I was going to make it, but it got awful close. I didn't have but very little fluid left in me, I guess.

The other guy was in pretty good shape with a busted vertebra but no loss of blood. He didn't have any other damage so he didn't have much of a problem. I'm glad I made it but lost my plane. There is a big lesson to be learned out of this. Always have a walkaround inspection. Don't take off without enough gas, and if it means waiting a while for gas, then wait. You're not in that big of a hurry to get flying. Don't take a chance. Always fill up and know what your plane burns per hour. Don't overdo it and you'll live a lot longer. You will enjoy flying a lot longer, also. I think that people who own their own planes tend to get careless like I did. You are so sure that you can't make a mistake--that that's when it gets you. If more people would realize this there would be less accidents. They think they are too good and know too much about it. It really doesn't pay and they lose their lives in many cases.

Next week my comments regarding this particular accident.

Jesse Brown Hutchison was born in 1818 and his wife, Martha Ann Johnston, was born in 1828. They were married in Pike County, Alabama in 1852. They lived there un-

til about 1875/80 when they moved to Texas. One of their daughters, Nancy Barbara, wife of John Green Copeland, is buried in Brundidge, Alabama. At the time of her

death in 1911, an old newspaper stated that she was survived by one brother, James J. Hutchison, of Texas. According to the death certificate, he died in Houston, Dec. 1, 1939, but he was buried in Waco. The informant on the death certificate was Ted Hutchison, believed to be his son and may still be living somewhere in Texas.

John P. Johnston, 440 South Main St., Brundidge, Ala., 36010 is researching the Hutchison family and welcome correspondence. He would also like to know more about the family of Martha Johnston

Hutchison. They moved to Texas, but the exact place is unknown. They were: Wiley Johnston; William G. Johnston; Frances, wife of Samuel Howard; Elizabeth, wife of Wm. David Garrett; Henry T. Johnston; Mary, wife of E.C. Dunn; Hamilton Johnston; James D. Johnston; and Ezra N. Johnston.

Miss Electra Pearson, Box 542, Ranger, Texas, 76470 would like more data on Lydia Dean Pearson, born Jan. 7, 1784 in Hampshire Co., Virginia. Her father, Daniel Dean was in the 2nd Virginia Regt.

during the Revolutionary War. Mrs. T.R. McColloch, 608 Union Street, Richmond, Texas, 77469 would like information on the parents of Loretta Bacon Halyard. Born Loretta Bacon, Oct. 29, 1854 at Seguin, Texas, she married Alfonso Baker Halyard and moved to Columbus, Texas. Her mother's maiden name was Higgins.

Mrs. Patsy Roach, Rt. 2, Box 151AE, Granbury, Texas, 76048 needs more data on Dennis North, born in 1810, and his wife, Rebecca, born

1819. Their children were Celia, born 1848, Virginia, born 1850, Nancy, born 1852, John, born 1854, and Ann, born 1856. All were born in Missouri.

Nancy North married Jesse H. Buckingham, and they moved to Texas. She is buried at Cottdonale, Wise County. Mrs. C.E. Dewberry, 5218 "R" Street, Little Rock, Ark., 72207 is seeking the parentage of William, Richard, James Samuel, and Albert Wright. They moved to Tarrant County from near Fredericksburg, Virginia via Missouri. This

was in the period prior to the Civil War. Mrs. Dewberry would also like to have the family record of Austin Giles Wilson, a native of Kentucky who married 1st, Adeline Gilmore of Georgia, and 2nd, a Mrs. Potter of near Jackson, Miss. The Wilson family moved to Wylie, Texas in the 1800's, and their sons were named James Austin, Newton, and Frank.

Correspondence to this column should be sent to Damon Veach, "Your Texas Ancestors", P.O. Drawer 6367,

Shoop To Begin Study Program At Texas A & M Aug. 30

Forrest E. Shoop III of Wichita Falls will begin a four month study program at Texas A & M University as a Game Management Officer Trainee Aug. 30, State Representative Vernon Stewart announced today.

"I have known Forrest for a number of years and feel this young man will be an outstanding addition to the staff of the Parks and Wildlife Department. I am delighted that he has been accepted," Rep. Stewart said.

Shoop is a graduate of Wichita Falls Senior High School and attended Midwestern University. He is the son of Mrs.

Marjorie Murphey and F.E. Shoop. The 23-year-old Wichita Falls resident; his wife, Cindy; and son, Chance, live at 4319 Cunningham Street.

Known by his friends as "Butch", Shoop is a member of the board of directors of the Northwest Texas Field and Stream Association and the local membership chairman of Ducks, Inc. He achieved the rank of Eagle Scout in the Boy Scouts of America.

Following Shoop's training course, he will be assigned a district as a Game Management Officer by the Parks and Wildlife Department.

Agriculture Dept. Will Hold Hearing

AUSTIN-Agriculture Commissioner John C. White has announced that the Texas Department of Agriculture will conduct a public hearing Sept. 7 to establish regulations concerning the labeling of treated seeds. The meeting is scheduled for 10:00 a.m. at the John H. Reagan Building in Austin.

Presiding over the gathering will be Bill Staffel, director of the TDA's Seed Division. Staffel will outline the proposed guidelines for labeling of treated agricultural and vegetable seeds. The TDA has been working on the regulations since the passage of Senate Bill 457 in the last legislature. The bill, which

defined "treated" seeds, called for the Commissioner to make labeling rules and to promulgate the rules through a public hearing. Prior to the act, there was no seed treatment labeling requirement in Texas. Commissioner White advised all parties interested in the new labeling requirements to attend the meeting.

flower, and radishes can also make successful fall crops since they require cool weather for best quality. All these crops may be seeded now with the exception of radishes which may not be ready to plant for a while. Many landowners were not able to control brush with aerial application because of drought conditions in spring 1971. If a landowner is one of the more lucky ones he should consider alternative brush control methods at this time. Earlier the soil was so dry that the only method of control was individual plant treatment with chemicals. Soil moisture allows mechanical methods of rootplowing, tree grubbing, and chaining to be carried out with much success.

Chaining produces excellent control when double chaining, in opposite directions, is done when soil moisture is plentiful. Higher degree of control is obtained on trees with trunks of 4 inches or more in diameter. Areas with large half dead trees can be chained then in 4 to 5 years sprayed aerially with good success. Soil moisture is needed so the chain will uproot the tree rather than break it off at ground level.

Tree grubbing should be done on areas that have scattered stands of brush plants. Uprooting plants that are crown sprouters is an excellent method of control. Rootplowing should be done on selected sites that require seedbed preparation. Summer is the worst time to plant grasses but if rootplowing is done then plant grass following plowing. It could continue to rain on the lucky ones. Livestock producers of the seven cooperating southwestern states submitted a total of 253 non-screwworm samples to the U.S. Department of Agriculture's Screwworm Eradication Laboratory at Mission during July. This compares to 209 non-screwworm samples processed at the Lab in 1970, and 200 the

previous year, and indicates that livestock owners have attempted to report all suspected cases which they discovered. The flare-up of cases in the area of Bowie County, Texas, and Little River County, Arkansas, has prompted a stricter surveillance on the part of livestock owners and animal health representatives on duty in that area.

All livestock owners are reminded to check their herds regularly, collect samples of all worms found within infested wounds, and mail the samples to the Mission Lab, Box 969, for identification. The all-out alert against screwworms must continue through the fall months, officials advise.

Trim dark skin and pink flesh from thick watermelon rind; cut into pieces or as desired. Dissolve lime or salt in 2 quarts water; pour over rind. If needed, add more water to cover rind. Let stand 2 hours if lime is used, or 6 hours if salt is used. Drain, rinse and cover rind with cold water. Cook until tender; drain. Tie spices in thin cloth bag, add with other ingredients and simmer 10 minutes. Add watermelon rind and simmer until clear. Add boiling water if syrup becomes too thick before rind is clear. Remove spice bag. Pack boiling into hot jar, leaving one-eighth head space; close. Process in boiling water bath 5 minutes. Start to count processing time when water returns to boiling. Makes 6 pints.

Outdoor grill roasting is the summer favorite for adding a dash of fun to meal time. This versatile cooking method adapts well to many cuts and varieties of meats. The all-time favorite, of course, is steak -- T-bone, porterhouse, sirloin, rib, club, delmonico or filet mignon.

Chuck steaks, when cut near the rib and properly tenderized, are increasingly in demand for outdoor cooking. Chuck is less expensive than other kinds of steak so it can be served more frequently. Another reason, she continues, is based on simple facts of supply. Just so many steaks are available from each steer;

using chuck cuts is a way to increase the supply. Other good choices, says the specialist, are rib or loin pork chops. Pork, however should be cooked to the well-done stage. Chicken halves and pieces, as well as whole chickens cooked on the rotisserie, are popular and economical. Although relatively new-comer to the outdoor grill, turkey parts are good, too, she says. Canadian bacon, spare ribs, ham slices and sausage patties make attractive meals from the grill.

And remember the two old favorites, hamburgers and hot dogs.

Church of God

The Church of God was organized in Burkburnett in July, 1928, with its headquarters at Cleveland, Tenn. We have missionaries in over 85 foreign countries, with a total of 4,790 ministers in these countries. We are the oldest pentecostal church.

My ministry began in March of 1954, in Rayville, Louisiana, at the age of twenty. I pastored a mission church for a short time and in 1958 I began my pastorate in Rayville, Louisiana, and remained there for ten years and four months.

My ministry carried me to Dublin, Georgia, in January of 1969, where I pastored the church and was also District Overseer of nine churches in the Dublin District for twenty-nine months.

I came to Burkburnett on June 18 of this year. I am enjoying my work here very much. I have found some of the finest people here. The business people here, whom I have had the privilege of meeting, have given me a warm welcome to their fine city. I am married to the former Miss Nancy W. Temple of Ray-

ville, Louisiana. The Lord has blessed us with five children. It is a pleasure of ours to live in a town like Burkburnett to work with the church and community.

The Church of God is conducting revival services this week and will hold a Sing-In this Sunday. We invite all to come and join in the worship with us.
