VIEWPOINT

BY LON WILLIAMS

Everybody's talking 'bout the season (deer season), and there undoubtedly is as big a bunch of liars who hunt deer as there are fishermen.

"How's the hunt?" one great white hunter sez to the other.

"Not too good this year," the other great white hunter replies, "only got an 18-point buck that weighed out dressed at just over 200 lbs. . . all white meat."

"How'd you get 'im?" "Aw, I saw him standing just over thuh ridge about six miles away. I knew I couldn't get my scope on him, so I shot the water tower and the bullet ricocheted three miles over, hitting him just a half-inch below the heart. . . Nothing complicated."

Needless to say, after this story was told, coffee cups dropped all over the room. And of course, everyone believed it. Why, I am even printing it. Which proves that this writer knows the truth when he hears it. Yes. Yes. . .

Kids are beautiful. We've been getting the chance to look over some of the cutest pictures this past week, as Moms and Dads and Grandparents bring in pictures of their little ones to be printed in the pages of the paper.

I failed to mention that this is FREE! We are glad to do it. One lady even sent in her pet poodle . . . because she didn't have grandchildren in the right age bracket. We take all children's pictures up to age 5 for this new feature.

Football is on my mind. I am in the process of working myself into a dither against the Brownwood Lions, Coach Gordon Wood, the Brownwood School System, the Brownwood Airport, and everything within a 120-mile radius of the city of Brownwood.

Folks, that's carrying it a little too far, I guess.

Seriously, though, the Bulldogs of Burkburnett will be meeting another one of the great Brownwood football teams come Friday night. But then again, the Lions are meeting one of the great Bulldog football teams, too.

Prediction: Bulldogs 26, Brownwood 14.

Dog Bites Reach Epidemic Proportions In Burkburnett

Sixty-one cases of dog bites have been investigated by the Burkburnett Police Department thus far this year according to a report from Chief of Police Buck Abbott.

Police intend to crack down on pet owners under Ordinance 250 of the City of Burkburnett stating that any dog must be on a leash and the leash controlled by a responsible person if a dog is off its own premises, or must be kept in a penned yard. The penalty carries a fine of not less than \$15 nor more than \$200, and is a misdemeanor.

"We have pleaded for a long time now with the people of the City to cooperate with us in helping to stop this dog-bite problem. Now, we are going to put some 'teeth' into the ordinance," the Burkburnett chief told Informer-News.

"Our children in this city ARE going to be able to walk down a city street or ride a bicycle without having to fear the harassment of a dog nipping at their feet or legs," the Chief continued.

"The Burkburnett Police Department deeply regrets

having to impound pets or impose a fine on anyone who is a pet owner, but for the overall protection of the kids of Burkburnett -- who have been PRIMARY DOG-BITE TARGETS -- we will issue ONE WARNING to pet owners and on the second offense will issue a ticket which will require the pet owner to appear before the City Judge and will, under Ordinance 250, incur a minimum fine of \$15.00."

"I am a dog owner myself," Abbott said, "and I like dogs. But when you see a large gaping wound caused by a loose dog, it makes you realize the responsibility of knowing where your dog is at all times. Parents, watch your dogs to see that they do not follow your child to school. Teachers, please discourage all children from bringing their pets to school.

"Citizens: Please check your dog's rabies vaccination tags and don't turn your dog out for the night.

"Our Animal Control Patrol Wagon will continue to patrol Burkburnett streets and highways with an extra keen eye for

loose animals.

"Please report to the Burkburnett Police Department any dangerous animal in your neighborhood or any dog packs that may be seen in the city.

"If we will all cooperate in this matter, we can eliminate this problem quickly," concluded Burkburnett Chief of Police Abbott.

First Savings Passes \$8 Million Mark

Albert Dillard, President of First Savings and Loan Association, announced today that the assets of the Association had passed the \$8 million dollar mark.

Dillard also stated that the Association was subscribing to both the letter and the spirit of President Nixon's proclamation on interest rates.

Post Office To Close

Postmaster W. T. Zimmerman has announced that the Post Office will be closed Thanksgiving Day, Thursday, Nov. 25, 1971.

There will be no city or rural delivery of mail, and a holiday schedule for dispatch of mail will prevail.

NOTICE

The Band Parents organization will meet Monday, Nov. 22, in the Junior High Band Hall. Films of the marching competition will be shown.

The collision course of these two fine AAA football teams is narrowing fast as the Burkburnett Bulldogs prepare to meet the Brownwood Lions for the District Championship of 4-AAA Friday night in Bulldog Stadium.

The Lions whacked Stephenville to the tune of 48-7 last week to rack up their fifth consecutive District win against no defeats. Brownwood stands 7-2 for the season, having lost to two 4-A clubs earlier in the season.

The Lions of Brownwood are ranked as the number 6 rated club in Texas AAA High School ranks, and they go into the ball game Friday night a heavy favorite to walk away with another 4-AAA District crown.

The Lions smacked the 'Jackets, rolling up 23 first downs while compiling 236 yards rushing and Shae South--all connected on 10 of 18 passing attempts for 170 yards in the air.

It was 14-7 ballgame at the halftime, but Brownwood stormed back, scoring 27 points in the third quarter to finish the job on Stephenville.

Burkburnett, looking forward to this Friday's match, met an inspired and improved Hirschi Huskie squad on Thursday evening last week. The Huskies settled down to a rugged defensive battle and upset the Dogs 14-7. The loss dropped Burk's season record to 7-2 going into the Friday night championship game with Brownwood.

"The Burkburnett Bulldogs have got the 'hosses' to beat Brownwood, provided they start at the kickoff and do not let up until the final gun sound, no matter what the score," stated an observer, who asked not to be named, and who has seen both teams.

Inspiration will undoubtedly mean a lot to Burkburnett in the Friday night clash between these ball clubs. "Inspiration and momentum" are words that can add fourteen points to any team's play.

The Bulldogs are definite underdogs in the District 4-AAA showdown contest -- not a new role for this ball-club to assume.

A whale of a ballgame it will have to be, this Burkburnett clash.

Game time is 8 p.m.

"Burkburnett Inn" To Be Constructed In City

It was announced this week that one of the most modern drive-in restaurants in the Southwest is to be built in Burkburnett by Burkburnett Inn, Inc., Lon H. Williams, President.

Williams is also publisher and president of Informer-News Corporation of Burkburnett, which owns and publishes the Burkburnett INFORMER/STAR.

"The Burkburnett Inn represents more than a year of planning and looking at restaurant operations throughout Texas. We feel that this kind of eating establishment is needed in Burkburnett, and we

have gone the limit in planning a place where every member of the family can enjoy good food and good fun in a fine atmosphere," Williams stated.

The new Burkburnett Inn will be built at the corner of South Avenue D and Hayworth Streets, just across from City Pharmacy. The facility will thus be located between the downtown section of Burkburnett and the Parker Plaza Shopping Center.

The Inn will feature hamburgers, hot dogs, french fries, shakes, cokes and sundaes, and will specialize in

seafood baskets -- shrimp and catfish baskets -- steak fingers, and many other tasty food items.

The new complex will feature double dining areas with a covered outside patio for summertime outside eating, drive-in car-hop service; an inside dining facility; and a drive-up window.

Ground breaking on the new Burkburnett Inn is expected to take place "in the next two or three weeks," Williams stated. "We expect completion of the building by early March, provided the weather doesn't hurt our working schedule any more than we plan.

"We will also be introducing some totally new concepts to the drive-in food service business, which will be installed in the Burkburnett Inn exclusively."

"I believe in the future of this community and always have. I hope this is an indication of that faith, and I look forward to the time when the entire area of mid-town Burkburnett will be filled with new businesses and new people," he continued, "because Burk is a great place to live."

"We are looking forward to the completion and opening of this new facility," concluded the corporation's president.

Guidelines of Life

Landon Champ, pastor
First Baptist Church

There are many who would never think of using God's Name as a curse or swear word, who, nonetheless, take God's Name in vain. In addition to being guilty of dishonor to God's Name and Character by improper language, there are other ways of taking God's Name in vain.

When one professes that he is a follower of Jesus Christ but doesn't show it in the way he lives, he has taken God's Name in vain. To "say" one is something which he doesn't live out in life is to lie.

One can further take God's Name in vain by failing to avail oneself of the help and provision God offers to those who are His children. All of us need strength for daily living and for the sorrows and frustrations of life. If we are to be a positive influence for God and good we must have the power of God flowing through our lives. We take God's Name in vain when we say we are His people but try to live in human strength.

To become a Christian - to take the Name - is to enter into an agreement with God. It is to say that because of what God has done in Christ, we will follow in His footsteps.

Memories

by Laxson

If you've never carried water and made a good muddy spot or sat around a leaky faucet to play Mumbly Peg with other five- to seven-year-old friends, then you haven't learned what it's like to have a really muddy face.

When the art of winning at mumbly peg was the rape with youngins, rules varied with almost every neighborhood. One thing didn't vary, and you who have not know what I mean. You had to root the peg.

A match or branch was sharpened and driven into the mud by using the back of a pocket knife used in the game.

Some groups made the peg driver be blindfolded. I liked that rule very much, as the peg was not so hard to get at with the teeth, to pull it out of the mud.

Mrs. Trevena has been a Burk resident for about four years, since she and her sister, Miss Tonette Weaver, moved here from Detroit.

She studied social work in high school and college and later taught at both those levels. With this background, she did social work for nearly thirty years for the First Presbyterian Church in Detroit. She has been instrumental in the organizing of several Senior Citizens clubs.

Locals to See TCU-Rice Game

A number of people from the First Christian Church of Burk Burnett are making plans for trips to Fort Worth in the near future.

Members of the church's youth group, along with adult chaperones, are planning to go to T.C.U. to attend the T.C.U. - Rice football game as guests of T.C.U.

They will leave from the local church at 8:00 a.m. in order to arrive in Fort Worth in time for a tour of the campus before seeing the game.

The church's pastor, the Rev. David Stout, will be in Fort Worth Monday and Tuesday to attend a state board meeting of the Christian Churches (Disciples of Christ) in Texas.

Stout serves on the state board as a representative of District 19 of Christian Churches, of which he is the current vice president.

Electricity that costs less than 10 years ago.

It's true. Your dollar buys more electricity now than it used to. Because Texas Electric's rates for electric service have not increased since 1961.

In fact, there have been two rate reductions since 1961—in 1963 and 1965.

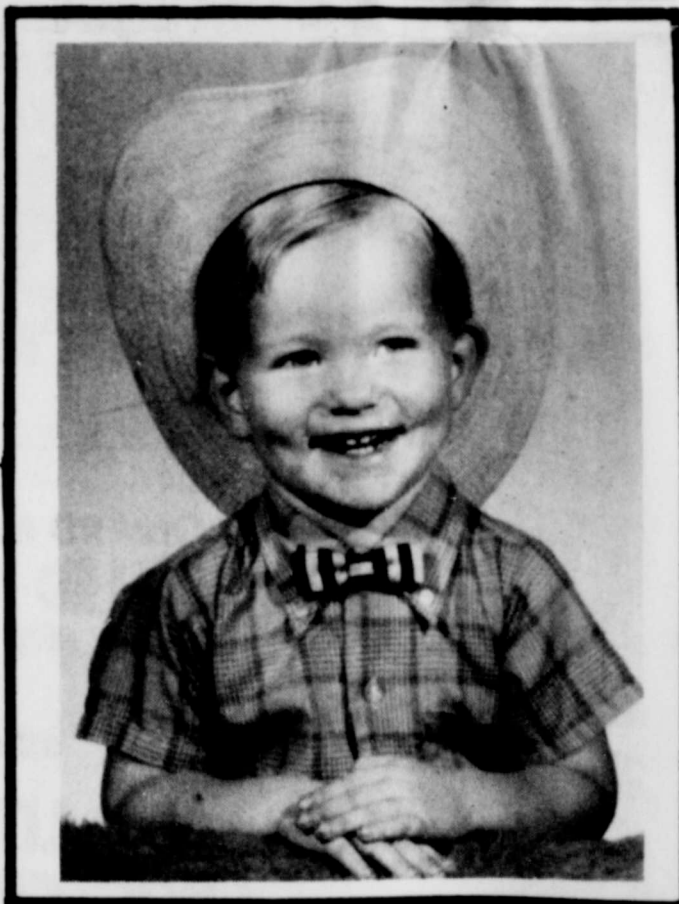

While the cost of living is up about 30 percent over 1961, the average price of electricity per residential kilowatt hour is down more than 30 percent (see chart).

If your bill for electric service at your residence is higher, it's because you're using more electricity. You may have added air conditioning, a clothes dryer, frost-free refrigerator or color TV.

It all adds up to this: In spite of continuing inflation you're getting more electricity for your dollar than you did in 1961. You're also getting all the extra comfort and convenience that electricity makes possible.

Accent
on
Health

Texas is in the midst of an epidemic, say State Health officials. Polio? Rubella? Diphtheria? No, it's an epidemic about which little is said because the public holds the disease itself to be taboo-- a silent epidemic called "venereal disease."

Nationwide, more than two million Americans had VD last year--either gonorrhea or syphilis. Gonorrhea is the nation's number one reportable communicable disease. Syphilis trails not far behind as number three.

More Americans are affected by gonorrhea than by measles, whooping cough, encephalitis and tuberculosis combined. Only the common cold occurs more frequently. Texas last year reported 6,527 cases of gonorrhea in Texas in 1970, or 7.2 percent of the 900,072 cases officially reported nationwide. Texas' high ranking in the occurrence of both diseases is due primarily to the State Health Department's intensive case-finding efforts.

These figures do not represent the extent of the epidemic nationwide, for public health officials say less than one-half -- some authorities say no more than one in ten -- of all VD cases are reported. In many instances, the social taboo of the disease keeps individuals from mentioning suspicious symptoms to their doctors.

The overt symptoms eventually clear up, but the disease never goes away without treatment. It continues to wreak its damage on the body's vital centers -- the heart and central nervous system, as well as the reproductive tract.

Syphilis, if untreated, can cause mental illness, paralysis, blindness, deafness, heart disease and death. Untreated, gonorrhea leads to the development of scar tissue in the fallopian tube of the woman and in the seminal ducts of the male, leading to damage of the sex organs, and if severe enough, even to sterility. Gonorrhea, too, can cause paralysis, blindness and death.

Discovered early, syphilis and gonorrhea can be cured or controlled by antibiotics. There already exists a positive blood test to detect syphilis. Research scientists believe they are close to the development of a more effective diagnostic test for gonorrhea in females.

SHEPPARD AFB, TEXAS--DIFFERENT TYPE OF CHOW LINE--Members of the 3780th Student Squadron at Sheppard are treated to a ranch style meal at the famed Waggoner Ranch near Vernon, Tex. The group was given a day-long tour of the ranch and all its operations. (OFFICIAL USAF PHOTO BY SGT. TIM MULLENS)

3780th Student Squadron Visits The Famed Waggoner Ranch

By Joe Calvit (USAF Reserve) SHEPPARD AFB, TEXAS--It's big and it's real, agreed some 60 airmen of Sheppard's 3780th Student Squadron after a day-long visit to the famed Waggoner Ranch near Vernon, Texas.

"It is fantastic. I still don't believe you can ride for miles and see nothing but plains and grass after I've done it. It's impossible to comprehend just how big the ranch really is," said Amn. John A. Paolucci, who grew up in a suburban area outside of San Francisco.

Paolucci had been on ranches before, in California. "But they're nothing like the Waggoner Ranch. This one had more than a half million acres."

The big spread stretches from Electra, Tex., on the northeast for more than 80 miles southwestward, touching six counties. It is one of the world's largest. Thousands of fat steers are sent to market from the ranch each year.

"It's so big they scout the ranges by helicopter," explained Amn. Craig K. Richardson of St. Louis, Mo.

Never having been on a ranch before, Richardson did not expect the vastness of the operation. He called it "Fantastic."

"The cowboys are typical old-time cowboys, just like you'd expect to see in the movies, except they don't wear spurs. They've got the boots and spurs, chaps and all the bit. They're good at their

job, and they have to be dedicated to stay out there." The two busloads of airmen who made the trip under the guidance of Earl Moye, head of the squadron adopter, Moye Realty Co. of Wichita Falls, were fascinated as teams of Waggoner cowboys roped, marked, vaccinated and branded calves.

Airman Paolucci described the operation: "One cowboy on a horse threw a rope around the calf's hind legs, then two others on foot grabbed the calf's head and threw it. Then one took out a picket knife and marked while the other vaccinated it. It took about 30 seconds to complete the whole operation."

"They worked the calves out of corrals. There were two teams of cowboys going at the same time. They had one knife for everything. The heated branding irons in a propane furnace."

Amn. Clem T. Nava from Victoria, Tex., had been on ranches before, but not compared to the Waggoner. "I thought they were big until I got on this one. It was fantastic. Every vehicle on the ranch is radio equipped. They have to be."

Dozens of cowboys live on the ranch, some in bunkhouses but many at line camps scattered over the ranch. For days they see nothing but cattle, grass, scrub brush and a few other ranch employees. When the cattle are being worked, they follow the wagons. But they seldom stay in the field

overnight. Large trucks haul their horses back to headquarters of the camps, and spend the night in comfortable quarters with television, stereo music and refrigeration units. At dawn they head back to the range.

Although they respected the cowboys, none of the airmen wanted to swap places. "It's too far out there," said Airman Paolucci. "Too far away from medical facilities, too dusty and too hot. I'd rather be nearer people."

AIC Charles Maurizio of Pittsburg, Pa., who was mak-

ing his first journey to a ranch, said, "It's really a long haul to go to town every day, especially after putting in 12 to 14 hours on the job. A cowboy's life is hard."

The Waggoner cook impressed Amn. Earley D. Wilson of Bartow, Fla., "because he was wearing his boots and his hat while he cooked." The cook, who was a cowboy who had been drafted for the day, prepared the crew's meal at a recreation camp called Cedar Top, about 35 miles southwest of Vernon in a lonely part of Knox County. Later, he would hook the chuckwagon to a truck and tow it to the cowboys in the field. Steak and beans were the fare on the day the airmen were visiting.

The squadron commander, First Lt. William Murphy, said the outing was particularly appreciated by his men. "It was a 'first' in outdoor experiences for many of them. Few had had the opportunity to know what the wide open spaces were really like. They saw the whole ranch operation, from working cattle to preparing feed, and the got a good view of the oil field. "It was extremely educational. Most of our fellows are from the big city areas and some never realized where the beef came from," Lieutenant Murphy explained.

The Waggoner Ranch, founded well before the turn of the century, is one of the largest in the world that is not subdivided. Pioneer Dan Waggoner started putting the spread together in Wise County in the 1850s, and son W. T. Waggoner continued moving to its present location in the 1870s. The ranch has close links with Indians who once roamed its ranges. Its headquarters 12 miles south of Vernon is called "Zacaweista," named for an Indian grass which abounded when Dan Waggoner first laid eyes on the country.

One of the more interesting stops by the Sheppardites was at a lonely cemetery on the ranch where Waggoner cowboys are buried. "They lived all their life on the ranch, and they wanted to remain there even after death," said an airman. "It is a tremendous place."

SAFB To Participate In CAP's 30th Anniversary

Lieutenant William H. Key, commander of Civil Air Patrol's Wichita Falls Composite Squadron, has named Chief Warrant Officer Richard D. Ellis chairman of a committee to plan the unit's participation in CAP's 30th anniversary celebration.

The CAP unit here will join nearly 2,300 others throughout the nation in observing the anniversary of the founding of the humanitarian organization in 1941.

Civil Air Patrol was founded by a band of patriotic, aviation-minded individuals who volunteered their services and privately owned aircraft to assist in America's defense.

During World War II, CAP pilots flew more than 24 million miles on anti-submarine patrol and thousands more miles on a variety of non-combatant missions for the armed forces.

CHAP Mothers Club To Hold Xmas Bazaar

SHEPPARD AFB, TEXAS--The CHAP (Children Have A Potential) Mothers Club will hold a Christmas bazaar Dec. 10 from 9 a.m. to 5 p.m. at the Service Club.

Mrs. Richard Elliott, project chairman, stated that the funds will be used for the various projects for the handicapped children at Sheppard. Gift items for Christmas include dolls, ceramics, waste paper baskets, candles, pin cushions, and stuffed animals. Christmas wreaths will also be available.

Persons wishing to make donations to the bazaar are asked to contact Mrs. Richard A. Elliott at 1031 Wellington Lane, telephone 855-2595.

Today, the all-volunteer force carries on the work started by those pioneers, flying humanitarian mercy missions, conducting air search and rescue efforts, promoting general aviation and aerospace supremacy for the nation, providing aerospace education and experience to selected youths, promoting international good will, maintaining an emergency communications network and assisting in saving lives and property in areas of disaster or crisis.

Agreements with Civil Defense agencies in all states provide for CAP assistance in civil defense in case the nation should ever be attacked. To this end, CAP members train in civil defense techniques to maintain a constant state of readiness.

National Headquarters for Civil Air Patrol, official civilian auxiliary of the U.S. Air Force, is at Maxwell Air Force Base, Alabama.

Many, many pilots have hundreds and hundreds of hours flying time in a Piper J3 than I have, but there is not one of them that enjoyed the experience more than this plane jockey.

To my way of thinking, one can get more downright pleasure from a J3 than any other plane classified in the light class.

Many years back, even before it was illegal to drive geese and ducks in an airplane, I learned many things about such activities. If you have been guilty of helping friends by herding geese and

ducks in range of shotgun-wielding sportsmen then you, too, know that it is almost impossible to drive ducks.

My experience has been discouraging, as the minute ducks know you are after them they go in every direction--especially if a plane gets a few yards too close.

Geese driving is a cinch. There is nothing easier to do if you're flying a Piper J2 (originally a Taylorcraft). They fly slow.

When following a wedge of geese, a pilot only has to vary his plane to the left and speed up a mite and the geese vary their course to the right.

Geese will get lower and lower to the ground if the plane stays above them without crowding or narrowing the distance between plane and geese.

What brought on all the above? I'll tell you what.

October and November issues of THE AOPA PILOT carried history of the Cub plane. October's publication dealt with "Mr. Taylor's Cubs," and November's issue carried "Mr. Piper's Cubs."

If you have an ounce of flying blood in your veins, and this flying fever has been with you some 40 years, I'll give good odds you will get the same enjoyment reading about and remembering the "good ol' days."

The Cub history was written by Peter M. Bowers, AOPA 54408. This writer puts it on paper in a way which shows he must have been an early bird in the standard lighting stripe surrounded by the famous Cub yellow.

Can you guess within one thousand how many J3's were built before this model ceased in 1947? Another game is to guess how many J3's and succeeding models are reported to be still in existence. Misses would probably be wide.

Read the articles and learn something interesting.

Although cooler temperatures are at hand in some areas, the early fall season is historically one of the most critical from the standpoint of screwworm cases. Recent rains over much of the area are likely to worsen the case situation. Livestock owners are urged to check their animals regularly, treat animal wounds with a product recommended for that purpose, collect samples of any worms found within wounds and mail the samples to USDA Screwworm Laboratory, Box 969, Mission, Texas. Collection kits are available at the county agent's office.

The annual Tri-county banquet was held Monday, Nov. 15, at 6:30 p.m. in the Hirschi High School Cafeteria. The banquet was sponsored by the Texas Electric Service Company of Wichita Falls.

Representatives from nine counties received awards. W. A. Hotchkiss, District Manager of Texas Electric, presented the awards. Reagan Brown, Rural Sociologist, Texas A&M University, was the principal speaker. The Midwestern University Choir under the direction of Gene Brooks furnished musical entertainment.

The Farm and Ranch Club will have its regular monthly meeting on Thursday, Nov. 18, at 7:00 p.m. in the Iowa Park High School Cafeteria. The program will be on "Water Now and in the Future." De-salting of Lake Kemp water will also be discussed. This should be a meeting you will want to attend.

The annual Wichita County Pecan and Food Show will be held this year in the auditorium of the Lone Star Gas Company on Dec. 2-3 and is sponsored by the University Kiwanis Club of Wichita Falls.

Pecan plaques, ribbons and trophies will be awarded. Any pecan grower in Wichita County may enter his pecans. A pecan entry will consist of one quart of pecans, but not less than 50 nuts, preferably in a plastic bag.

All entries must be delivered to the County Agent's office or the Iowa Park Experiment Station by 11:00 a.m. Wednesday, Dec. 1. The show will be judged on Friday, Dec. 3, at 9 a.m.

In the pecan food division an individual may enter not more than one exhibit per class. Foods to be entered are pie, cake, cookies, candy, quick loaf bread, coated or salted nuts, appetizers and yeast breads.

Food exhibits may be entered between 8 a.m. and 11 a.m. Thursday, Dec. 2, and Friday, Dec. 3 at the Lone Star Gas Company in Wichita Falls. Pecans for food exhibits do not have to be grown by the exhibitor; however, pecans must be included in the recipe.

Anyone interested in either the pecan show or food show, please call the county agent's office for further information.

Ideal Time For Preparing Plants For Holidays

Fall is the ideal time for home gardeners and housewives to begin preparing Christmas cactus and poinsettia plants for holiday blooming, says Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service.

Extra care is required each day, or the poinsettia and Christmas cactus may fail to bloom for the holiday season. Both plants should get as much sunlight as possible during the day, but they also need long, cool nights. At night, the plants should not be exposed to any artificial lighting; this will upset their delicate flowering - control mechanisms. At least 12 hours of continuous darkness are required to start the flowering process, Janne points out.

Night temperatures of at least 60 degrees F. are ideal for both plants, but the Christmas cactus can grow at temperatures as low as 55 degrees. During the day, ordinary household temperatures are satisfactory.

Avoid placing the poinsettia in a draft, cautions Janne. Sudden excessive changes in temperature can cause the leaves to drop. Supply sufficient water so that the soil is always moist. During active growth, feed poinsettias regularly, preferably with diluted solutions of soluble fertilizers.

Newer types of poinsettias are commercially available in varying shades of pink as well as white and the traditional red.

Bill Requires Agri. Adjustments To Be Made

WASHINGTON -- A bill to require the Secretary of Agriculture to make 100% adjustments in payment yields for Texas cotton producers affected by the severe drought and other calamities was introduced by U.S. Representative Graham Purcell last week.

"Under the Nixon Administration's farm program," Purcell explained, "cotton farmers are forced to accept permanent reductions in their production payments solely on the basis of natural disaster over which they have absolutely no control. This is clearly inequitable."

Purcell, who is Chairman of the Livestock and Grains Subcommittee, said that several areas in California have already received projected yield adjustments of 100% because of pink bollworm infestation. "Devastation from drought, or for that matter hail, windstorms or any other disaster, can be just as damaging to a cotton farmer as the pink bollworm," the veteran Texas Congressman observed.

"I agree with the decision to grant these California areas a 100% adjustment," Purcell emphasized, "but this is the only instance in the country in which the Secretary of Agriculture has decided that projected yield adjustments for a disaster year could exceed 90%. The Administrator of the Agricultural Stabilization and Conservation Service, the man responsible for recommending yield adjustment figure, Kenneth Frick, is a large California cotton producer," Purcell continued. "This is blatant self-interest. Texas cotton farmers should not have to have one of their own men at the top before receiving the adjustment they clearly need."

CHARLES HICKS

Former BHS Athlete All-American Candidate

Charles Hicks, a former outstanding athlete for the Burk Burnett High School Bulldogs, has been named as a strong All-American candidate.

The 6'1", 192-pound Hicks, now a senior running back at Southwestern State College in Weatherford, Oklahoma, is one of the finest running backs in the history of the Oklahoma Colleague Conference.

In his four years of playing at Southwestern, he has compiled an impressive record and become known to all Southwestern's opponents as a dangerous runner with break-away speed who can score from anywhere on the field.

In his freshman year Hicks played only part time, but still gained a total of 513 yards rushing on 97 carries for an average of 5.27 yards per carry, and scored five touchdowns for 30 points.

In his sophomore year, the All-American candidate gained a total of 1046 yards, averaging 5.8 yds. per carry, and scored 9 touchdowns for 54 points. This record earned him a spot on the 1969 All-Conference team.

The break-away runner ran up a total of 1319 yards in 1970, 63 yds. receiving and 1023 yards rushing on 226 carries for a 5.45-yd. average. During that season, the

junior running back scored 13 touchdowns for 78 points, and was picked for the All-Conference team for the second time.

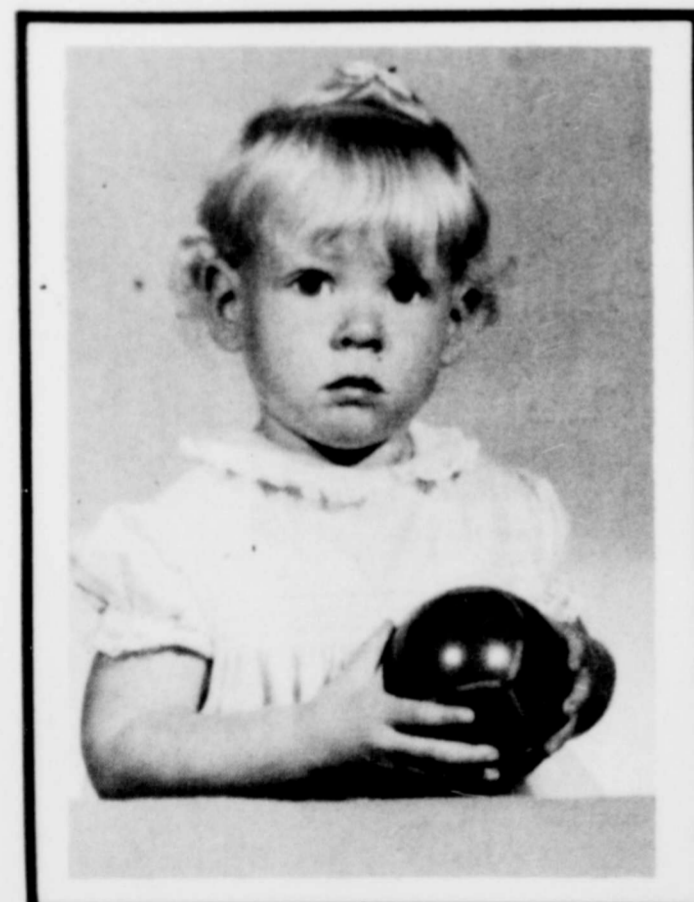

Hicks also set a single game rushing record of 297 yards during his junior year. In that game, he averaged 11.8 yds. per carry.

With 3 games left to play in the 1971 season, the 21-year-old Hicks has already scored 5 touchdowns for 30 points while gaining a total of 1092 yards on 193 carries for a 5.97 average. His longest gain of the season has been 57 yds.

In the seventh game of this season, Hicks put on a 262-yard performance which helped him break the conference record for total yards gained by any player. He also needs less than 100 yards to set a new NAIA record.

The former Bulldog is also an outstanding competitor in track events. He is a consistent 9.7 runner in the 100-yd. dash, and has recorded a time of 9.5 in that event.

Hicks is married and has a daughter. In describing him, his coach stated: "He not only is All-American material as a player, but also as a person. He doesn't think of himself, but of his teammates and of the human race in general."

Ray Olson Presents Optimist Club Program

The Burk Burnett Optimist Club held its weekly meeting Thursday night. Members enjoyed a program presented by club president Ray Olson, who showed slides with commentary on a trip he took to Europe.

Mr. and Mrs. Olson and son Kermit spent three weeks in Europe, touring Norway, Denmark, Germany, the Netherlands, England and Belgium. Olson stated that Norway was of special interest to him since he is of Norwegian descent. In showing and talking about Norway, he spoke of the beauty of the countryside and noted the many tourist attractions there. In Oslo, Viking ships, the polar ship FRAM and the KON TIKI are on view in museums. Olson also spoke of the scenic beauty on the train ride from Oslo to Bergen and of the importance of the ancient city of Bergen in Viking sagas. He told the group that one of the highlights of the trip was a 100-mile trip by hydrofoil, touring the Lyse and Ryfylke fjords from Bergen to Stavanger.

The travelers did not travel for enough north to see the famous midnight sun, but Olson compared the light summer nights they saw to a cloudy day in Texas.

The speaker also mentioned that while in Oslo the family visited in the home of Major Jorgenson, a member of the Norwegian Air Force who was a guest in the Olson home while he was a student at Sheppard AFB.

The Optimists will meet again for their regular meeting this Thursday night.

DALLAS--Three Burk Burnett poets won five first-place prizes and three second- and third-place honorable mentions in the 65 annual contests sponsored this year by the Poetry Society of Texas, it was announced at the society's awards banquet here Saturday night.

Florice Stripling Jeffers of Burk Burnett won the \$50 Ernest Hobbs Award for the best entry on the strength of a man's love for his wife and family and placed third in the Frances Massie competition. Her winning poem was "What More Could A Man Ask?"

Joy Gresham Hagstrom, 506 Magnolia, won two \$25 prizes by tying for the Major Donald J. Crocker Purple Heart prize with her entry, "Standing Mon," and the Harry Kover Award with the poem "Remembered Flame."

Mrs. Clark Gresham won the Alamo Prize of \$25 with "I Cannot Go Back" and the Lone Star Prize with the entry, "The Alamo." She placed second in the Ernest Hobbs and third in the Mini-Narrative competitions.

TPA To Hear Rep. Dave Allred This Weekend

State Rep. Dave Allred of Wichita County, who has fought for laws to require governmental bodies to transact the public's business in public, will discuss that topic at a Texas Press Association conference this weekend.

Allred will be on the program of the association's News and Photo Conference in San Antonio.

He will be part of a panel discussion on Texas' open meetings law and related subjects such as an open records law, the need for a press shield statute in the state and the need for a freedom of information committee.

"Too often, some politicians and bureaucrats have sought to present only information that is favorable to them," Allred said. "A free press is not to give special privileges to reporters -- it has been backed by people who don't want muzzles put on their sources of information. The press is part of the watchdog system needed to insure more honesty in government-- a topic we're all particularly concerned with at the moment."

Allred, who has a master's degree in journalism, has worked many years as a newsman, including coverage of government at all levels from the school board and city council to the White House.

Allred is the only North Texas member of the "Dirty Thirty," a group of House members who stood up against the policies of Speaker Gus Mutscher. The Wichita County representative has fought for legislative reform.

Miss Drake Named Midget Football Queen

The annual bowl games and queen contest of the Burk Burnett Midget Football Leagues were held Saturday in Bulldog Stadium.

In the American Division game, the Eagles held the Oilers until the last minute of play, but were forced to relinquish the Division city championship, losing by a 6-0 score.

The Eagles of the National Division trounced the Oilers 12-0 for their division city championship title.

In the period between the games, the crowning of the queen was preceded by a marching performance of the Junior High School Band.

Miss Laura Drake was crowned 1971 Bowl Queen. Miss Drake, who collected \$165.13 in votes, was escorted by Tim Baker, front lineman for the National Eagles.

Yvette Morett was first runner-up, with over \$100.00 in votes.

The Midget Football boys and their coaches will be honored at an awards banquet Saturday, Nov. 20, at 7:00 p.m. in the High School cafeteria. Trophies will be awarded at that time to all sponsors, coaches, team members and cheerleaders.

NCHA Spends Weekend At Camp Doris

The Boomtowners Chapter of NCHA spent last weekend at Camp Doris in the Wichita Mountains.

Hikers and campers got the full benefit of the striking fall foliage at its best, and cameras and binoculars were in constant use.

On Saturday night, the group enjoyed a chicken and spaghetti meal together. The camp fire was the most popular spot each night as the warmth of the day faded.

On Sunday morning the campers met in the amphitheatre at the camp for a devotional led by Reavis Wooten.

This was the group's last campout for 1971, as they have a Christmas party planned for December.

Participating in the camping trip were: Mr. and Mrs. Bill Halsey, Mr. and Mrs. Herman Miller, Mr. and Mrs. Gene Allen, Danny, Teresa and Kenda Riley, the Tom Coleys, the Nelson Boyles, the Walt Doerre family, the Reavis Wooten family, Sharon and John Sullivan, the Glen Kuapenbengers, and new members the Roland Wootens and the Roy Mahaffey family.

The First Christian Church

The First Christian Church (Disciples of Christ) of Burkburnett traces its history to the year 1907, when a community church met in a one-room school house located on the site of the present church building.

In 1909 the larger portion of the congregation became known as the Methodist Church and built a facility on the present site of the First United Methodist Church.

A small portion of the original congregation, still wanting to follow the doctrine of the Christian Church, organized a new congregation in the home of Mr. and Mrs. W.

C. Vann at 115 N. Avenue D in 1920. This congregation built a church on the land which it still owns at Second and Avenue D.

The Christian Church is a part of a larger body of the church, the General Assembly of the Christian Church (Disciples of Christ).

The church called its present minister, the Reverend David Stout, two years ago. The pastor received his college education at Culver-Stockton College in Canton, Mo., and his seminary degree from Drake Divinity School, Drake University in Des Moines, Iowa.

Rev. Stout has presently completed formal class work and working on his thesis for the Master of Theology Degree in Pastoral Counseling and Pastoral Psychology at Bible Divinity School, Texas Christian University in Fort Worth.

Stout is presently serving as president of the Burkburnett Ministerial Alliance and as vice president of District 19 of the Christian Church in Texas. Rev. Stout's wife Carolyn is employed at Wichita County General Hospital in Wichita Falls, where she works in the newborn nursery. The Stouts have two children, Bryan and Brenda.

Only 31 Shopping Days TIL CHRISTMAS

Girl Scout News
This week, leaders of Girl Scout and Brownie troops will be free to enhance their knowledge and education with an all-level workshop at Christ United Presbyterian Church in Wichita Falls. The program helps the leaders to understand and guide the girls in the best possible way.
Another get-together will be held Thursday Nov. 18 by the Burkburnett leaders. These representatives were invited to attend a meeting at the Wichita Falls Museum and Art Society to show how they can successfully help and support the youth of our community.
December 7 will be the date of the next leaders' luncheon; this one to be held at the First United Methodist Church in Wichita Falls. This is an annual affair, where each leader and assistant brings a covered dish and lots of ideas to exchange with fellow workers.
Activity in the troops is quiet at this time, with most troop working on various badges. Troop #87 started Christmas presents for residents of Evergreen Manor nursing home, while Troop #121 made drinking cups for hikes at their last meeting. Troop #48 plans to start decorative candles for their Christmas project.
