## Editor's Viewpoint

RAYMOND GREENWOOD

I took a short jaunt last week out to the old Horseshoe Lake located just off FM 367 a little ways. Three Wichita Falls men recently purchased the lake and are in the process of remodeling and generally "fixing up" the recreational area again.

I went out just to shoot a few pictures for them, but nothing would do but for them to treat me to a horse back ride. Well, I saw an animal with four legs and I knew at once it must be a horse since it didn't have any horns. So off I went following the guide. Can you imagine what type of cowboy I looked like with double knit pants and a double knit shirt and a bright tie?

The guides out there are real experienced cowboys and luckily good natured, cause if they hadn't of been then they would have laughed this cowboy off the trail.

Anyway, it was good to have a horse under me again--and almost as good to have the ground back under me after the ride! All kidding aside, they have a nice operation going and some fine horses with some real good trails to ride. Of course, if you don't like horseback riding you can always go fishing in their large lake, or paddle boat riding or what ever you prefer.

I plan to go back soon and brush up on my horsemanship cause there might be a Play Day or something I might get asked to perform in someday and I sure want to be ready--that is if I'm not too old to ride by the time I get good enough to be in a Play Day!

With all of the June weddings coming up I am reminded of the very first meal my wife prepared. "The two best things I cook are meat loaf and apple dumplings," stated my wife. To which I replied, "Gee, which is this?"

Recently I ran across an item titled "Ten Most Wanted Men" and I thought it worthy of passing on. It went like this:

1. The man who tries to be the right example to every child rather than talk about it.
2. The man who has passion to help rather than passion to be helped.
3. The man who is willing to say, "I'm sorry."
4. The man who will look at temptation squarely and say "No".
5. The man who puts God's business first above any other.
6. The man who throws himself totally into a project, then gives the credit for its success to his helpers.
7. The man who has a ready smile and a pat on the back for others.
8. The man who brings his children to church rather than sending them.
9. The man who can see his own faults before he sees the faults of others.
10. The man who gives his money, time and talent without thought of return.

A HERO HAS HIS DAY--It was a pleasant Sunday afternoon when over 2,000 people gathered in the civic auditorium of Gadsden to observe their annual "Loyalty Day" celebration, as has been their custom for over 25 years. An important part of the ceremony was when Mayor Lesley L. Gilliland presented an emposed citation to a 14 year old youth of nearby Ashland. The citation read: "Veterans of Foreign Wars of the United States; April 30, 1972. To Billy Joe Zackery: The true test of a man is his willingness to sacrifice for the good of others. He achieves nobility when he risks his own life to save that of another. "In unhesitatingly plunging See Editor, Pg. 2

# Stanley Zachary Grand Prize Winner

CONGRATULATIONS TO THE WINNER--Informer/Star Publisher Raymond Greenwood, left, congratulates Stanley Zachary upon being the top youth in the Subscription Sweepstakes. Looking on are Stanley's parents, Mr. and Mrs. Ray Zachary.

Stanley Zachary, the 12 year old son of Mr. and Mrs. Ray Zachary of Randlett, Okla. led the 86 youths entered in the Informer/Star Subscription Sweepstakes to give his parents the Grand Prize.

Ray Zachary and his wife had the choice of \$500 in cash or a seven day, six night trip to Hawaii and they chose to take the fun filled vacation in beautiful Hawaii.

Following Zachary with the next highest score as far as total number of new subscriptions sold was Becky Reed, the 11 year old daughter of Mr. and Mrs. Eddie Reed of Burk Burnett.

Over 500 NEW subscribers have been added to the Informer/Star mailing lists due to the fantastic response to the campaign. "I'd like to thank all of those who bought subscriptions from me, and all of those who listened as I told them what I was selling," stated Stanley Zachary.

"To all of those entered in the sweepstakes as well as the dozens and dozens of people who subscribed to our paper during the sweepstakes, we at the INFORMER/STAR say "Thanks" ", stated Raymond Greenwood, publisher. "Because of our thousands of subscribers and because of the tremendous response from the youth in our sweepstakes the Informer/Star ranks among the top in the weekly newspaper class in the state of Texas.

As the GRAND PRIZE winners the Zachary's will fly from Dallas, via Braniff International's fantastic 747, non-stop to Honolulu where they will spend seven days and six nights at the world famous Hilton Hawaiian Village Hotel on Waikiki

Beach. There they will enjoy the Hilton Hawaiian's own 20 acre beach and:

1. Round trip air transportation aboard Braniff's International 747.
2. Delicious gourmet meals en route.
3. A traditional formal lei greeting upon arrival in Honolulu.
4. All transportation between the airport and the hotel.
5. A special "get acquainted" briefing where you will get to know the islands.

The first day of their wonderful week calls for Whaline Punch, a movie and a luau Braniff style while they are aboard the 747 enroute to Honolulu. On arrival they will receive the traditional flower lei greeting. The Zachary's will then transfer to the famous Hilton Hawaiian Village Hotel on the beautiful Waikiki Beach. The remainder of the evening will be free to become acquainted with the 20-acre tract on the beach owned by the hotel.

The second day there will be a get acquainted meeting. The brief orientation meeting will be with the guide tour hosts who will tell them of the exciting days to come and the many places to see. The balance of the day will be free for your leisure activities.

On the third day they will begin a half-day tour visiting the main points of Honolulu. They will visit the Tenahou School, University of Honolulu, tour the Manoa Residential area, visit the Punch Bowl Memorial Cemetery, as well as Mt. Tantalus and Lolani Palace and other extra-ordinary sites.

Waikiki Leisure Day is the title given to the fourth day. The Zachary's will relax on

the beach or take the optional Pearl Harbor cruise on the ship ADVENTURE.

The fifth day is also a Waikiki leisure day, but they will have the chance to visit the Kapaolani Park where they'll enjoy the Kodak Hula show. The seventh and final day See Sweepstakes, Pg. 2

## Glenn Ash Show Scheduled For June 10; Other Activities Told

The citizens of Burk Burnett are urged to get their feet ready for some real toe tapping, heel stomping music as the Glenn Ash Show is scheduled to come to Burk Burnett Saturday night, June 10.

The Glenn Ash Show, led by famed Glen Ash himself, will help kick off a full week of running of activities for Burk Burnett's annual Heritage Week and its 65th Anniversary. Ash has made numerous appearances on Hee-Haw as well as several other popular television shows. He'll bring a group with him to help put on one of the finest

programs ever held in this area.

Tickets for the event will go on sale Friday at the Chamber of Commerce office and are priced at \$4.00 for adults and \$2.50 for children under 12. The show is sponsored by the Burk Burnett Chamber of Commerce and will get underway at 8:00 June 10 in the Community Center.

Other special activities scheduled for that special week include the monthly Chamber of Commerce luncheon which was rescheduled from this Monday until Monday, June 12. A

special program is planned for that meeting.

A city-wide auction is set for that Tuesday and Wednesday (June 13 and 14) with all citizens urged to bring items to be auctioned off. Although clothes will not be auctioned off at that time, a special place will be provided if anyone wishes to hold a rummage sale near the Downtown Auction Sale. Burk Burnett merchants will provide a good list of new items that will be auctioned and a number of other individuals have already been digging in their garages for unwanted items that they might bring to the auction.

Tagging for the auction will begin at 7:00 a.m. each day at the Chamber of Commerce Office.

A three par Golf tournament is also scheduled for Boontown Golf Center for June 16, 17 and 18.

The qualifying round, which will count in the total score, will be held Friday and the

tourney will be held Saturday and Sunday.

An entry fee of \$15 per team will be charged and at least one member of each team must be a member of the Burk Burnett Chamber of Commerce in order to enter the tourney.

A total of 54 holes will be played in this Low Ball Partnership tourney with holes No. 5 and No. 9 being designated as speciality holes.

Also scheduled for the weekend will be the Burk Burnett Rotary Club's Art & Antique Show. Several top artists are bringing their work for the show. Paintings in oil, charcoal, pastels and watercolors will all be on display and also for purchase.

A large collection of rare antiques is expected for the show with many of them also for purchase. Anyone needing further information concerning the Art or Antique divisions is urged to contact Bob Dowd at 692-1564.

## Voters To Polls Sat. In Run-Off

Absentee voting in the Democratic and Republican Run-Off Elections was reported light as polls closed Tuesday, but action among the candidates has been far from that.

In the Democratic races interest and conflict have been abundant in three of the four contested races to be decided in Saturday's election.

Barefoot Sanders and Ralph W. Yarborough oppose each other for the U.S. Senator nomination in Saturday's election.

The two that surprised everybody in the Primary elections, Mrs. Frances (Sissy) Farenthold and Dolph Briscoe, are

meeting in the run-off slot for the Governor's seat.

Wayne W. Conally and Billy Hobby vye for the Lt. Governor spot, as Robert S. Calvert and James (Jim) Wilon compete for the Comptroller of Public Accounts office.

All three Democratic boxes (go. 27, 28, and 29) will vote at the same location--the Burk Burnett Community Center with all voting in one box, according to F.T. Felty, election judge.

Albert Bel Ray and Henry C. (Hank) Grover oppose each other in the Run-off Election for the Republican Governor slot.

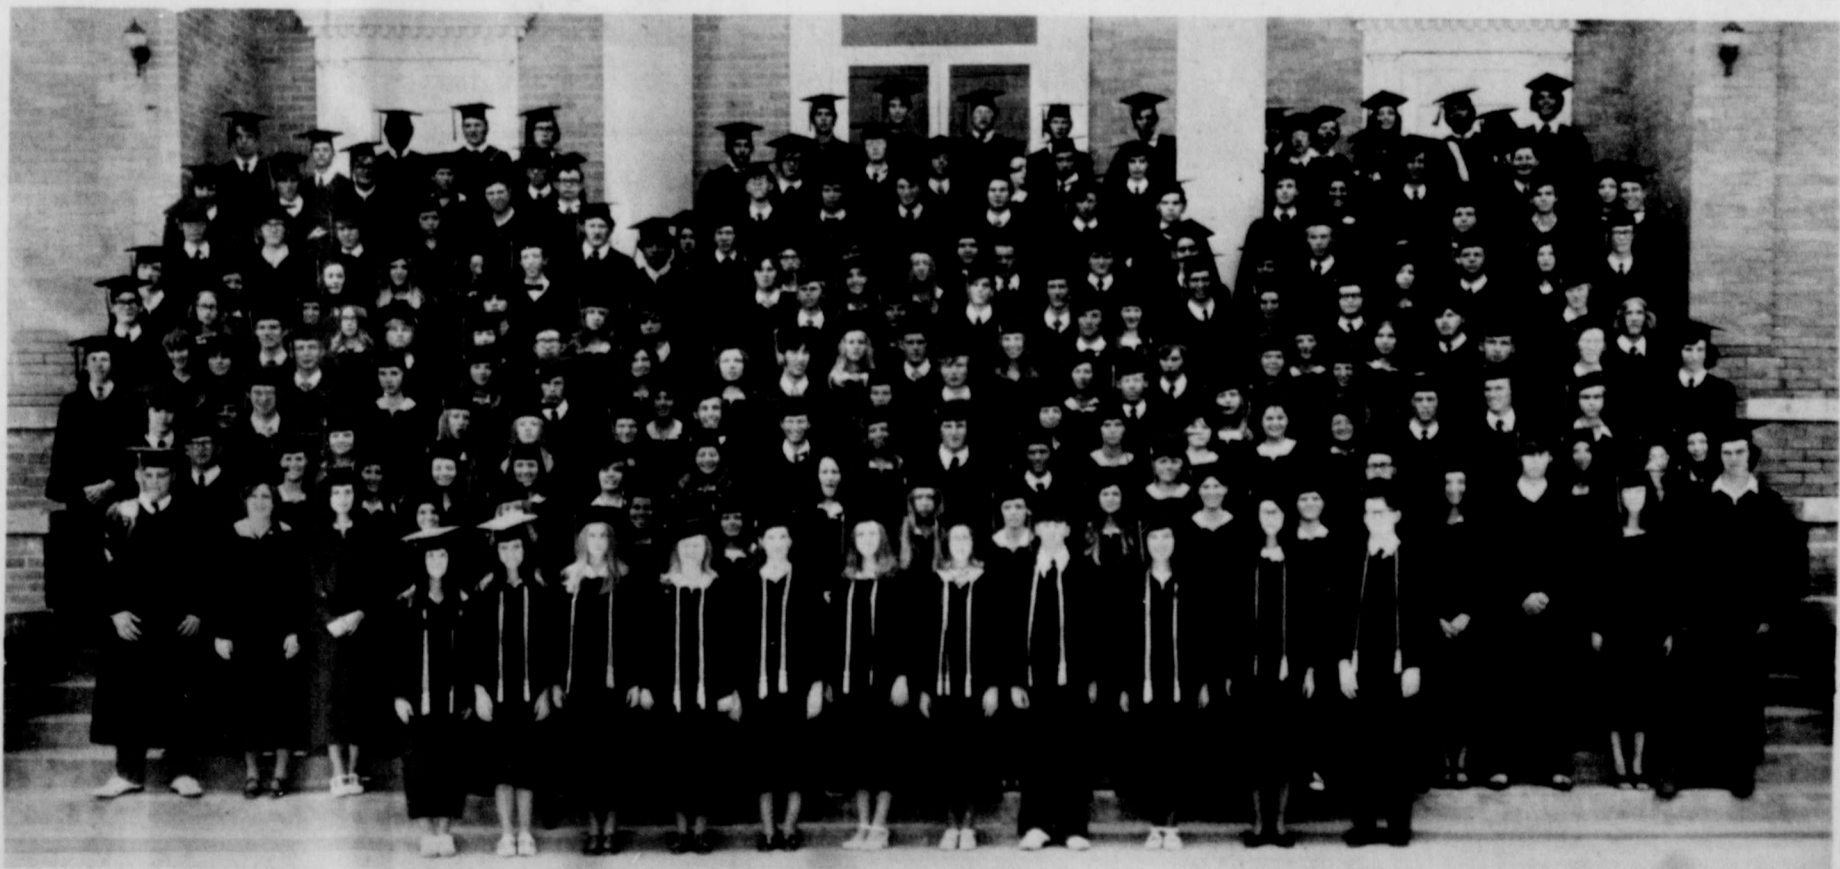

## Jr. Hi. Graduation Exercises Friday

Promotion exercises will be held Friday night at the Burk Burnett Civic Center for more than 300 eight grade students. The class is led by valedictorian Kathi O'Dell and salutatorian Kay Alvey.

This year's honor students include Teresa Allen, Joe Bryan, Doug Carlile, Teresa Deutsch, Jeannie Hamilton, John Ludeke, Martin Pinaud, and Diane Williams. The processional and reces-

sional for the ceremony will be provided by a brass ensemble. The invocation will be given by Nancy Klotsko and the junior high chorus will present vocal selections.

Teresa Allen is on the program as is Principal Carl Dixon who will make the presentation of honors and present diplomas. Vicki Wolfe will give the benediction.

spring season which saw more  
than 400,000 persons visiting  
the family entertainment cen-

A record was also set for a  
single day's attendance when  
36,607 persons passed through  
the turnstiles on May 13.

Beginning this Saturday, SIX  
FLAGS will be open daily from  
10 a.m. until 10 p.m. The

at the Park this year."

He added, "The surveys we

## Horseshoe Lake Re-Opened By Wichita Falls Group

An old established recre-  
ation lake located between  
Burkburnett and Wichita  
Falls, has been purchased  
by three Wichita Falls busi-  
nessmen, Kenneth Eblevins,  
George Stoneking, and D.W.  
Knox.

Horseshoe Lake is located  
1 mile west of FM 367 and  
FM 369 intersection and ac-  
cording to the management,  
is the number one recreation  
facility in the area.

George Stoneking, who is  
the general manager, says  
that the lake has just been  
re-stocked with 25,000 black  
bass. He also stated that a  
member of the staff caught  
an 8 pound 2 ounce cat fish,  
so the "fishing is good!"

The developers say you can  
take a mini-vacation and  
spend very little money.

Some of the recreation  
facilities available are horse  
back riding, trail rides, fish-

ing, sun bathing, picnicing,  
paddle boats, and over night  
camping.

Stoneking says that they  
have an experienced staff to  
help everyone enjoy their  
"mini-vacation", and that  
they have 37 horses with new  
saddles to add to your en-  
joyment. He went on to say  
that they have a number of  
trails to go on, and most of  
the trails are hovered over  
by beautiful trees. The en-  
tire operation is under su-  
pervision at all times.

According to the manage-  
ment, the lake is open from  
sun up to sun down 7 days a  
week, and they'll guarantee  
you'll have a good time.  
There are no membership  
dues and anyone and every-  
one is welcome.

To remove tarnish from  
copper, moisten a cloth with  
vinegar, sprinkle some table  
salt on it, rub hard, and rinse  
in clear water.

in the cold and dangerous wate-

11, 1972, to rescue Kiffin My-

have demonstrated the highest  
type of courage. Your willing-  
ness to get involved at a time  
when you could not have been  
blamed for standing by is a  
great credit to you and to those  
responsible for instilling in you  
a realization of man's respon-

And that was only one of  
several awards to young Zach-

others honored on the same  
occasion; Gold Star mothers  
and fathers; men and women  
of the armed forces; former  
prisoners of war; families of  
men who have given their lives  
in Vietnam; many local and  
state officials of the VFW, and  
many other dignitaries.

But don't expect news of the  
event to be given wide circu-  
lation by those, both here and  
abroad, who hate America.

Billy Joe Zachery is black.  
The young lady he pulled from  
the savage current--after an-  
other brave youth tried, but lost  
his own life in the attempt--  
is white. And Gadsden, where  
this typical American ceremony  
took place, is a state for which  
liberals have never found a kind  
word--Alabama.

will be a day of leisure and  
a day spent in preparation of  
departure for home.

Dozens of youngsters entered  
in the sweepstakes won valuable  
prizes. Scores of radios, tape  
recorder/players and bicycles  
and mini-bikes were given away  
as well as several portable  
television sets. Several young-  
sters remarked, "I hope they  
have another sweepstakes next  
year," which shows some of  
the enthusiasm and interest dis-  
played by the youths entered in  
the sweepstakes.

Maybe next year we'll have  
another Subscription Sweep-

the Grand Prize Winner.

# FARM REVIEW

## 1972 Critical Cotton Year Due To Declining Yields

With demands for cotton increasing and yields on the decline, 1972 will be a critical year for cotton, says Fred Elliott, cotton specialist with the Texas Agricultural Extension Service.

"The trend toward clothing that is colorful, casual, comfortable and carefree has brought about a resurgence in the demand for the cotton fiber," points out the Texas A&M University official. "Farm production must now be geared to meet this demand."

In conjunction with this increased need, a new campaign is under way to boost production. It is titled "Better Yields of Quality Cotton for Profit and Market Growth" and is a cooperative effort of the National Cotton Council, U.S. Department of Agriculture, State Agricultural Extension Services and Experiment Stations, and others.

"Cotton producers throughout Texas and the other Cotton Belt states must unite to provide mills with the type and amount of cotton that they need," emphasizes Elliott.

Texas production was down for the 1971 season with an average of 263 pounds of lint per acre. In 1970 the per acre yield was 315 pounds. Back in 1968, Texas cotton producers boasted an average yield of 410 pounds per acre. The Beltwide average has declined from 516 pounds per acre in 1968 to only 438 pounds for last season.

"Unfavorable weather was the big culprit in the reduced cotton crop in Texas in 1971," explains the specialist. "The spring and summer seasons were extremely dry and then the wet fall hampered harvesting activities in many areas."

According to Elliott, the overall cotton supply situation

is becoming short on all fronts. The national carryover for the 1971-72 season which ends July 31 is projected at 3.25 million bales. This is less than a four-month supply and the lowest in 20 years.

Regarding the special campaign to boost the production of quality cotton, the specialist notes that emphasis will be placed on higher yields to spread overhead costs and lower overall costs. The production of a quality product is also important in that it assures a higher price and a satisfied buyer.

A better yield this season can also increase a farmer's "yield for payment purposes" in 1973, adds Elliott. Furthermore, good yields testify to sound management and facilitate financing.

## COUNTY AGENT NEWS

B.T. Haws  
Wichita County  
Agricultural  
Agent

Animal health officials must have help to stop the screw-worm. The hard screw-worm season is one with more cases than we have had in a long time. Even if there have been no screw-worm cases in your area in recent years, this could be the year. Be alert and inspect your animals regularly, collect samples of the worms you find in the wounds and then treat all wounds with approved smeared. Send worm samples to the Mission Screwworm Lab, Box 969, Mission, Texas. Sample mailing kits may be picked up from the Extension Agent's office, 305 Federal Building, in Wichita Falls.

A disease and insect clinic for shrubs, trees and flowers will be held in Wichita County on June 6. If you are having a problem bring a specimen to any one of the following place and someone will be on hand to help with your problem. This clinic is free to the public.

9 a.m. - 10 a.m. - Sears Garden Center, Wichita Falls 10 a.m. - 11 a.m. - Smith Nursery, Wichita Falls 11:15 - 12:30 - Central Seed & Feed, Wichita Falls 2:00 - 3 p.m. - Berend Brothers, Burkburnett 3:15 - 4 p.m. - K&K Grain Elevator, Electra

Specialists on hand to help with your problem will be Dr. Norman L. McCoy, Plant Pathologist from Denton; Dr. Dale Lovelace, Agronomist; and Emory Boring, Entomologist, Vernon. Pick out the place most convenient for you and plan to come in.

Most of the public is well aware that herbicides are used in agriculture and particularly in brush control. They are also aware of the damage that can be done through careless handling and application of these materials. Consequently most aerial spraying operations for weed and brush control are observed quite closely. It can be stated as a matter of fact that the public will not tolerate misuse of herbicides. As the old saying goes, "a word to the wise is sufficient."

## Prevention Best Curb For Poisonings

Proper procedures on the ground prior to spraying are a must. Read the label on the herbicide container. It contains instructions as to proper mixing, appropriate carriers, the need for emulsifiers and a list of approved uses. Many problems arise from using herbicides for purposes which they were not intended nor cleared.

Make sure that the equipment used is suitable for the job and is properly calibrated. Above all see that there are no leaks and that you are in positive control of the herbicides at all times.

Best results are obtained with aerially applied herbicides when there is very little wind; about one to three M.P.H. As wind speed increases, swath displacement and drift increases. The distance from susceptible crops must also increase as wind speed increases. Herbicides should not be applied with aerial or ground equipment when wind exceeds 10 miles per hour.

The meeting was opened at 1:30 p.m. by invocation by the pastor of the First United Methodist Church of Seymour. The welcome address was given by the Mayor of Seymour, Lindley Carter, and the response by the President of the Association. Guests were introduced by the President. Some of the guests were Richard Odum of Fire Appliance Co., Wichita Falls; Ben Ruarts, Electron Co., Ft. Worth; Ellsworth Greer and Tom Roberts of Texas A&M; Sidney Smith, Civil Defense coordinator of Wichita County; and Mike Carter, Safety Engineer of Lone Star Gas Co. in Abilene, who gave a good demonstration, using a beautiful training aid named Ann, (a mannikin) on resuscitation and other life saving techniques. Other guests were Hershel Johnson, Chief of Wichita Falls Fire Department and Chiefs Teakall and Broyles, also of Wichita Falls Fire Department and Deputy Fire Chief Matthew F. Norton of Sheppard AFB.

The Seymour Fire Department gave away a host of prizes from names drawn from registration slips. Those from Burk winning prizes were Mr. and Mrs. Jess Whitley, H.L. and Delta McDonald, Karry and Sue Elliott, Martin Holder, Jerry Green, Pearl Draper, Jim Wright, Billy Mize and Donna Wright. Jess Whitley won an additional prize for being the oldest active fireman present.

Tom Roberts of Texas A&M spoke on the possibility of getting area training schools for volunteer firemen who never get to attend the Texas A&M school held annually in July. He said there was a good chance of bringing the school to the people if the firemen would get behind it from all of the towns in each area or district and request such a school. Chief

Hershel Johnson of Wichita Falls offered their facilities and any help needed for such a school. The idea was tabled until further study and research can be done, and will be discussed again at the fall meeting held in Burkburnett.

The minutes were read by Gene Brown of Mundy, who is the Association's secretary-treasurer. Roll call was won by Mundy with 58% of their department present, Holiday won second with 45% and Archer City won third with 43% present. Archer City was selected for the spring meeting of 1973.

In the 6 man pumper hook up, Mundy won first place with a time of 18.5 seconds; Burkburnett won second place with 18.6 seconds; Olney won third with 19 seconds. In the 6 woman pumper hook up, Archer City Flames won first place with 21.1 seconds; Holliday won second place with 23.7 seconds; Olney won third in 25.9 seconds; and Burk was 4th with 27.6 seconds. In the 2-man hose race, Muenster won first place with 13 seconds, Mundy won second place with 13.1 seconds, and Olney won third with 13.2 seconds. In the 2 woman hose race, Burkburnett Sparks won first place and a nice trophy with a time of 15.7 seconds, Holliday won second with 16.1 seconds, and Olney won third place with 18.1 seconds. The last event was water polo. Vernon beat Jacksboro, Electra beat Archer City, Holliday beat Mundy. In the play offs, Electra beat Vernon, Burk beat Holliday, and then, Electra beat Burk in the last play off final.

There were only 2 women water polo teams entered this year. They were Burkburnett and Holliday and the Burkburnett Sparks won that event in two straight games. They were awarded another nice trophy.

Burkburnett did well in overall averages, receiving three trophies and prize money and gifts. The Burkburnett Department and the citizens of Burkburnett should remember that Burkburnett is the host for the West Texas Firemen's and Fire Marshal's Association meeting in September, and make plans for the event.

**8 ways to save money on air conditioning.**

- 1 Set thermostat between 76 and 78 degrees—the lower the setting the more electricity the unit uses.
- 2 Replace disposable or clean permanent type filters as required—clogged filters make the unit work harder and use more electricity.
- 3 Provide adequate attic ventilation—helps reduce heat buildup.
- 4 Install proper duct ceiling and wall insulation and weatherstrip windows and doors—keep hot air out, cool air in. (Helps reduce winter heating costs too!)
- 5 Shade the outdoor unit from the sun.
- 6 Keep windows and fireplace dampers closed—prevents excessive loss of cool air and infiltration of hot air.
- 7 Shade windows from direct sunlight with awnings, blinds or draperies—reduces the load on the unit.
- 8 Have the unit checked by a qualified air conditioning serviceman. Do this in the spring, prior to your need for cooling.

SCHOLARSHIP WINNERS--Phillip Butcher, Laura Allison and Gary Metz (left to right).

**DECCA Students Get \$700 In Scholarships**

"We feel this \$700 used for Employer Appreciation Scholarships would be a better compliment to you (employers) and we hope to make it a yearly practice," said Laura Allison, president of the Distributive Education Club.

At a reception held last week in the First National Room, Laura explained the club's decision to give scholarships instead of using the funds for a banquet.

Laura Allison received the \$300 DECA scholarship while Gary Metz and Phillip Butcher both received \$200 scholarships.

An impartial board interviewed eight applicants for the scholarships at a Wichita Falls meeting where these three were selected on the basis of their abilities and the interview.

The DECA awards reception provided an opportunity to announce Pam Hensley as the new

president and Robert Gill as vice-president. Laura Allison explained the new practice of electing a president and vice-president for the following year by stating, "Who knows the students better than the ones who have worked with them? By electing the new officers now, they will have the entire summer to work out next year's activities and programs."

Leon Pace and Jill Hensley received Special Leadership DECA plaques because of their special efforts to enrich the DECA program.

Famed certificates were presented to employers who have hired DECA students throughout the '71 - '72 year. These employers were cited for "providing the DECA student with a job -- a training station to learn a certain trade," and thereby laying the entire basis and foundation of the DECA organization.

Receiving the Chapter Project Sales Award was Laura Allison for her outstanding work on the drawing for an 8-Track Stereo. The drawing was an important money making project for the DECA program. Upon concluding the awards program, Lloyd Bloodworth, who has sponsored DECA for ten years, was presented a pen set "as a small token of all the hard and outstanding work" he has contributed to make the DECA organization successful.

SHEPPARD AFB, TEXAS--Thirty year length of service awards were presented to eight civilian employees at Sheppard Air Force Base during ceremonies conducted Friday morning in the Sheppard Technical Training Center conference room.

Maj. Gen. Robert L. Pettit, commander of Sheppard Technical Training Center, made the presentations. They went to James E. Elliott, Earl D. Martin, Tommie N. Taylor, Joe R. Little and Raphael J. Martin, Taylor, and Little are all assigned to the Department of Aircraft Maintenance. Martin is a supervisory training instructor. He has been at Sheppard since Oct. 19, 1949, and in his present position as an instructor supervisor since

July 1951. Prior to coming to Sheppard, he was a civilian instructor at Keesler AFB, and Amarillo Army Air Field. During three years of Army service, Mr. Martin was a crew chief on P-39 and P-51 aircraft.

Both Taylor and Little are training instructors. ## SMSgt. Robert Hill Gets \$1,000 For Suggestion Promoted Airman First Class

SHEPPARD AFB, TEXAS--SMSgt. Robert F. Hill, training plans officer in 3750th Technical School at Sheppard Air Force Base, received \$1,000 for his suggestion to turn in missile training equipment and use Field Training Detachment and host base equipment facilities.

Presentation of that amount was made to the sergeant by Maj. Gen. Robert L. Pettit, commander of Sheppard Technical Training Center during ceremonies in his office Friday morning.

The award, an initial cash one, was approved by the Base Incentive Awards Committee in the Air Force Suggestion Program. The Sheppard Awards Committee has also recom-

mended that the suggestion be referred to Air Training Command for an additional award of \$515.

The suggestion provides for using Field Training Detachment classroom for theory presentation and host base equipment facilities for practical training.

The award was based on a release of equipment by Field Training valued at \$1,677,000 and a resulting tangible savings of \$40,724 which has been certified by Warner Robins Air Materiel Area, Ga., and approved by the Resources Conservation Program.

This suggestion permitted missile training support equipment to be turned in without

jeopardizing the quality of the training program. The total U.S. Air Force missile equipment used for missile maintenance training is identical to that used for tactical shop operation.

Sergeant Hill has been actively participating in the Suggestion Program for about 10 years and has received top awards at Pacific Air Forces Headquarters and Fifth Air Force Headquarters. All of his adopted suggestions have pertained to the air launch program.

The sergeant came to Sheppard in April 1968 from the 311th Field Training Detachment at MacDill AFB, Fla.

## Annuities May Increase For Retired Men

SHEPPARD AFB, TEXAS--Annuities for retired federal employees may increase by at least 4.5 per cent, effective July 1, 1972, according to the Civilian Personnel Office at Sheppard AFB.

The annuity adjustment is due to a 3.5 percent increase in the Consumer Price Index during February and March 1972 over the base month of March 1972. In addition, the Daniels Act of 1969 provides that any such cost of living adjustment will be increased by one percentage point, bringing the total possible annuity up to 4.5 per cent.

Only those employees who have retired on or before Friday, June 30, 1972, will be eligible to receive this increase. Employees who do not retire by the end of June will have to work as much as five months longer in order to earn an annuity equal to the one they would have received had they retired in June.

All employees who are eligible for regular or early retirement are invited to contact the Civilian Personnel Office, telephone 851-6677 or 851-2720 for more information regarding the adjustment.

Richard A. Mallory, son of Mr. and Mrs. Frank A. Mallory of 207 E. First St., Burk Burnett, Texas, has been promoted to airman first class in the U.S. Air Force.

## Guidelines of Life

By Ed Morris, Church of Christ

Recently a Navy Chaplain was found innocent of the charge of adultery. The Navy jury agreed with the defense, who said the chaplain was victimized by "two sick, conspiring women". We do not condone sin had he been guilty, but we wonder why the Navy should take a hard stand on a Naval chaplain's conduct, without taking an equally firm stand toward enlisted men, many of whom are notorious for "having a girl in every port" Yes, I was an officer in the service of my country, and the theory was that Chaplains are a different class of men than the "regular class", and that this was to justify a harder line toward their behavior.

Perhaps this explains our behavior religiously. A minister does serve in a special way, but all Christians are ministers when it comes to service in the Kingdom. When it comes to morals, the same rationale as given above is given, I suppose, for expecting so much more of the preacher than of the pewster-- a preacher is a different "class" of Christian. Ah, this is where it rubs me the wrong way! Most Bible scholars are realizing more and more (correctly, I think) that there is no clergy/laity distinction in the church and many of us deplore calling our preachers "Reverend" (belongs to God, Ps. 113:9) or any other title that distinguishes them from other Christians. Yet, we make a distinction in a moral sense also. So called "good" members drink, curse, gamble, give the Lord about 1/2 miss Sunday night and mid-week service; yet, if the preacher did this they would be incensed! Certainly, I am not asking for lower moral standards to be required of a preacher; I am simply asking for you to require more of yourself. THINK ON THESE THINGS.
