VOLUME 65

BURKBURNETT, WICHITA COUNTY, TEXAS 76354

THURSDAY, Nov. 23

NUMBER 12

## Editor's Viewpoint

RAYMOND GREENWOOD

The whole town is still buzzing with football as it has for some seven weeks now. It started with the 'Dogs first win over Graham and has crescendoed to their big thrashing of the Brownwood Lions by 32-0.

How can a writer describe the game played at Brownwood? It's impossible all I can say you would just have to have been there to believe it. How many teams can take the football on their own five and nine yard lines and march it all the way down the field? How many can take it again on their own two and march it inside the opponents 30 yard line only to lose the ball on downs by less than two inches, but consuming seven minutes of playing time in the drive? How many teams have held the powerful Brownwood Lions to seven first downs and 89 yards rushing while racking up 29 first downs and well over 400 yards rushing for themselves. How many teams can control the ball twice as long as their opponents and run almost three times as many plays? Then how many teams can make a total of 15 of 18 third down conversions (missing two by short yardage and the third by less than two inches)?

The mighty Burk Burnett Bulldogs (the Orange Crush) did all these and much, much, more. As I said you would just have to have been there in order to realize just how awesome the big Orange really was.

Every last player (runner, pass receiver, passer, blocker and tackler) including the speciality teams played their hearts out and the score proved it.

Be at the Lamesa game and you will know what I mean and then you will understand why our Bulldogs have become known as the Orange Crushers.

As you can read from the chamber story, I will be soon leaving the INFORMER/STAR and will be assuming a new position. I do so with mixed emotions, I have greatly enjoyed publishing the newspaper here and am grateful for all those that have lent help at numerous times.

We have added some 700 new subscribers as well as four pages to each edition of the Informer in the past year. I am very proud of this accomplishment and there are still good things in the making that I feel will even further enhance the quality of this newspaper. Sedella Verble, our distributive education student and also the editor of the school newspaper, is currently writing a series of feature articles that I am sure you will enjoy. In addition to this several other good things that I know will be coming to this publication.

I'm sure the next editor of the INFORMER will carry on to far exceed what I and my staff have done thus far. Thanks again to our readers and to our advertisers for your support and for your many kindnesses. I will be looking forward to working with each of you as the need arises under the heading of chamber of commerce manager instead of newspaper publisher.

Signs are the thing these days. Some are humorous, some are clever, but almost all are at least eye catching. I think the following are worth recounting.

One of some year's vintage that took me a while to make out turned out to be worth the effort. It said simply: KWITCHERBELL YAKIN. Here are some more: There was a bumper sticker on the back of a young man's car. See EDITOR, Page Two

## To Face Lamesa After 32-0 Win Over B'wood Bulldogs Win First District 4-AAA Title

New records were set for Burk Burnett as Brownwood had numerous records, pride, and tradition fall as the Orange Crushers from Bulldog land completely over powered the Lions by the score of 32-0 at Brownwood Friday night.

This is the first time that Burk Burnett has won over

Brownwood. It is also the first district crown that Burk Burnett has won since being in AAA football over a decade. Both in 1970 and 1971 they played

Brownwood in the final game only to have the Lions come out on the top of the contest. "Nobody beats Brownwood at Brownwood (But Burk)" read

the Bulldog sign in the end zone at Lions stadium prior to kickoff time, and it came true. Rumors have it that this was the worse for Gordon Wood

and his Lions since losing to Rider 35-0 way back in the very early '60's. Only other time anyone can remember the Lions being shutout was a 12-0 defeat sometime in the mid-50's. Who knows how many years it's been since Brownwood lost a conference game at Brownwood. Iowa Park defeated them in Iowa Park earlier this year for the Lions first conference loss in six years and that came from Vernon at Vernon. All the records fell for the Lions due to the unmerciful machine of the Bulldogs.

It would probably take hours to dig back and validate the many records that were smashed by Burk's win. Who knows maybe Brownwood thought some of them would never be broken and have burned the file, anyway they must start a new now as a new powerhouse has taken the spotlight.

One Bulldog fan reported, "to win district is fantastic, to beat Brownwood at Brownwood and completely shut them out? You just couldn't ask for more from any one game."

Bulldogs hopes now turn to a Bi-District win. They will play powerhouse Lamesa and if they win they will take on the winner of the Dumas vs Pecos game that will be played this weekend.

The Burk Burnett Bulldogs will meet the Lamesa Golden Tornadoes in Bi-District play at Shotwell Stadium in Abilene Saturday night. Game time is 7:30. "We think this neutral site being almost mid-way is fair for both teams," stated Froman concerning the site. Tickets to the game will go on sale Monday in the School Tax Office at 408 Glendale. Prices are \$2.50 for adults and \$1.00 for students.

Lamesa will have a tough time in stopping the Orange Crushers as they continue to rack up enormous amounts of rushing yardage, yet keeping the passing yardage in high figures, too. In addition to this they must try to break the tough Orange defense that has completely shut out their last two highly ranked district opponents.

Lamesa sacked up the district 3-AAA crown some weeks ago as they defeated the real contenders on their list. They, however did drop Friday night's tilt to Sweetwater by the score of 29-7. It should be noted here that Sweetwater edged out the

Brownwood Lions in a hard fought battle the second game of the season.

Lamesa racked district opponent Colorado City by the score of 30-14 and then shut out traditionally tough Lubbock Estacado by 16-0. Earlier in the year they squeaked by district 2-AAA winner Pecos by the score of 27-26.

"They're a well represented ball club," stated Bill Froman, Bulldog head coach. Anytime a team reaches the playoffs they have a lot going for them, and they have faced some competition this year, according to Froman.

In their Friday night loss to Sweetwater they (Lamesa) were only trailing 13-7 in the second quarter when an injury sidelined their star quarterback and they had a good drive going at that time. Three fumbles also greatly hampered the Lamesa eleven. The loss to Sweetwater had no effect on Lamesa's district standings since they were way out in front of all other contenders.

One of the most outstanding ball players on their squad is all state candidate Wayne Hogg, a 150 lb senior back. He is described as having fantastic speed and unbelievable balance. He has averaged over 150 yards in rushing in each of their district clashes.

In addition to Hogg the Wash-bone offensive backfield includes Monty Bedwell, 170-pound senior halfback and a sophomore full back that also is one of the team's prime receivers.

Their linemen are described as large and are led by Trip Chastain one of the offensive tackles in the district. Bruce Law, 190 pound senior playing nose guard defense seems to pretty well eliminate opponents running up the middle.

As the coaches said, they have got to be good to win their district. It is expected that minor injuries suffered by Lamesa will be healed and that they will be present with a full house when they clash with Burk Burnett.

The prideful Burk Burnett Bulldogs will also be in full gear ready for the contest. Only minor bruises were received in the big Bulldog win Friday night and all boys are expected to be ready to go for the Big Bi-district game.

The Bulldogs have a lot going for them as they go into the playoffs. They have won seven straight district games in the district that in the past has been described as the "Little Southwest Conference." District 4-AAA in the last score of years has produced more state championship ball clubs than any other district in Texas. In addition to this, it's never a runaway for any team in District 4-AAA. As stated earlier this is the third time that Burk Burnett has gone into the final game against Brownwood for the district crown. In addition to this the strong teams of Hirsch, Vernon, and Iowa Park could probably have been a district champion any of these last three years in almost any other district in the state.

The Bulldogs have won the right to represent District 4-AAA by seven tough wins in as many games over top school-boy football teams that are rated with the best in the state. Lamesa also has won over tough competition.

It'll be an outstanding game when the two meet, and a game that will long be remembered in the minds and hearts of Burk Burnett fans.

STORY BOOK PLAY - This is the way that the plays are written; everyone getting a block, all backs carrying out their assignments and the ball carrier (Rick Bradley/number 44,

walking into the end zone untouched. This was the view of the second touchdown of the night from the Orange Crushers.

SCOREBOARD SYS BURK NO. ONE - Even the Brownwood scoreboard exclaims the fact the Bulldogs were indeed the No. 1 team in the district. Burk romped over the Lions by a score of 32-0.

## Pass 57 Or "Around The Oil Well" Play

"Let's run a down and out pattern, and hit him just as he passes the oil well," could be coaching instructions sent into the first home game next season if the Burk Burnett School Board fails in its attempt to keep a Wichita Falls oilman from drilling an oil well on a section of his lease.

Independent oil operator Samuel H. Walton of Wichita Falls owns the mineral rights on property that included the site of the high school and Bulldog Stadium. He wants to drill on his lease and has already received a permit from the Texas Railroad Commission. All is needed now is the approval of the school board and a city permit to begin operations.

The site of the proposed oil well is reportedly between the goal posts. Old timers in Burk Burnett can remember back in the 1918 boom when almost every lot had at least one oil well. Citizens of Burk Burnett with current hopes of having the next state AAA champions aren't

quite as certain they could get accustomed to the site of an oil well in the end zone.

The mineral rights date back some 27 years when the land was clear of improvements and housing. Walton purchased the mineral rights three years ago.

The school board will meet tonight (Monday) to discuss an offer Walton has submitted to the board to sell his mineral right to the area.

Coffee shop rumors set the

offered figure from a few to several thousands of dollars, while school officials only comment that no "reasonable formal offer" had been made.

The school board will also hear a report of the board's study to determine how much oil may be under the property. The two existing wells on the property now are reportedly pumping less than four barrels a month.

## Burk Bands Grab 1 Rating For 7th Time

The Bulldog Band did it again for the seventh consecutive year.

Judges against UIL standards, BHS Band scored a perfect score, three ones. Originality of show, body carriage, and uniformity of step are basic considerations in judg-

ing. All three judges were impressed with the selection of music, the overall sound, and the creation of circles.

The Bulldog Band has perfected the circle drill and included it in their performance. See BAND, Page Two

## Greenwood Takes Chamber Position

"The officers and directors of the Burk Burnett Chamber of Commerce are proud to announce the selection of Raymond Greenwood as chamber of commerce manager," stated chamber president F.R. (Reid) McCandless recently.

"We feel that as Editor and Publisher of the Informer/Star Raymond has proven himself as a friend of the merchants and a staunch booster of Burk Burnett. We look forward to the leadership that Raymond can give the Chamber and we urge the co-operation of the business community with his programs for a more progressive future," McCandless continued.

Greenwood's resignation from the INFORMER/STAR and as president of the Informer News Corporation will become effective the latter part of this month and he will assume duties as chamber manager on Monday, December 4.

At present a successor for his position on the newspaper has not been announced, but one is forth coming in the near future.

Greenwood came to Burk Burnett in March, 1970 and took

charge as Editor and vice-president of the INFORMER/STAR. In December he was promoted to publisher and president of the corporation. In his nine years of newspaper work he has served as editor, manager, and publisher of weekly and one of the largest semi-weekly newspapers in the state.

"It was an extremely tough decision for me to get out of the newspaper business," stated Greenwood. "However, I feel that chamber work is very closely related to the newspaper field and its the portion of the two that are the most related that I like the best. I'm looking forward to the new position and in a new field. I hope that I can continue the progress the chamber has made through the leadership of its other capable managers."

## Arthurs Buy Hickory Elm

Mr. and Mrs. John Arthur have announced the recent purchase of Hickory Elm Convalescent Center from Grady Stowe of Wichita Falls.

The Arthurs have long been associated with nursing homes as John has been the owner of one in Wichita Falls until very recently. He has also owned and administered homes in Amarillo and other Texas cities. Loy Galley, Jr. administrator of Hickory Elm, will remain in that capacity, but will have many more patients to care for than when the new center opened only four months ago.

Hickory Elm is now operating at about 95% occupancy and employs over 30 full time trained staff personnel.

"We are extremely glad to be associated with the nursing home institution in Burk Burnett. We want to be a service to this See HICKORY ELM, Pg. Two

## Think Steaks Too High??

So you think steak is too expensive? "If you complain to me about the price of steaks -- I suggest that you buy a cheaper cut of beef," said Dr. Ed Uvacek with the Texas Agricultural Extension Service.

"There are plenty of low-priced cuts of beef available to you, such as hamburger, stewing beef, short ribs and others."

"If consumers complain that beef is too high, then my advice would be simple -- don't buy it. I certainly wouldn't want you to buy something you couldn't afford," pointed out the associate professor at Texas A&M University.

He cited an example. "If a person can't afford a Cadillac -- he simply doesn't buy one. Yet, he doesn't go around complaining how expensive they are."

Uvacek listed three factors which account for the increased demand for beef -- higher per capita incomes, beef is a luxury food, and the change in tastes and preferences of Americans.

The Specialist has some significant observations concerning

beef prices. "Relative to other foods, beef is now actually cheaper than it was in the early 1950's or early 1960's. Relative to your income, beef is cheaper today than it has ever been in history."

The livestock industry has tried to produce more beef, but during 1971 and 1972 production has not been able to keep up with the rising demand. From 1950 to 1970 beef production increased 127 per cent in an effort to meet demands -- that's 6.4 percent per year.

In 1971, beef production increased only two percent above the 1970 level.

The result was a reduction in beef consumption during 1971. It was the largest drop in per capita beef consumption in 13 years. The ultimate reaction was obvious -- higher beef prices.

What will higher beef prices do, besides make some consumers unhappy?

"Most importantly, higher beef prices will stimulate production. More production means more beef at potentially lower prices in the future," said Uvacek.

# Hog Production Industry Can Control Market Profit

"It's partly up to hog producers whether the hog production industry must go through the profit wringer again or can maintain reasonably profitable market prices," says Dr. Gilbert R. Hollis, area swine specialist, Texas Agricultural Extension Service, Lubbock. The hog outlook is quite favorable through the first eight months of 1973; then prices will be determined largely by the size of the 1973 spring pig crop.

This year is shaping up as the all-time best price and profit year which, according to Hollis, could spell gloomier times ahead. "Historically, the hog industry has not been able to withstand prosperity," he says.

Following a year of good prices, sow farrowings are typically increased over the next 12 to 24 months until supplies become burdensome and prices drop to unprofitable levels.

The specialist urges pork producers during Pork Month (October) to evaluate their situations and desired market outlook 18 months from now. "I believe the market can withstand a 5 percent increase in December - through - May farrowings and another 5 percent increase in the June-to-November 1973 crop without a sharp drop in late 1973-early 1974 prices. If farrowings are much larger, profit margins

by late 1973 will be poor." In general, the hog outlook is quite favorable for the rest of 1972 and into the third quarter of 1973, the Extension specialist said. Pig crop estimates for the February-to-May period indicate that the volume for the rest of this year should run at least 6 to 7 percent below last year. A sizable gilt and sow holdback for 1973 farrowing could reduce slaughter a bit more.

Hollis adds that basic demand conditions should continue strong this fall, especially in view of further improvement in economic activity. Nevertheless, a seasonal pickup in marketings will cause prices to trend lower.

"Looking at 1973 market prospects, intended farrowings point to at least some reduction in slaughter supplies during most of the January-to-June 1973 period," Hollis continued. "I look for first quarter 1973 prices of barrows and gilts on the Midwest interior markets to start at a \$25 to \$26 per hundredweight range then work down to a \$23 to \$24 range. Prices are likely to weaken still more during April, then show seasonal strength and reach the \$25 to \$26 level at the Midwest markets by July the specialist predicted. After that, the outlook depends largely upon the size of the 1973 spring pig crop.

# Congress Appropriated Funds To 4-H Clubs

With the help of federal funds recently appropriated by Congress, the Texas 4-H program is expected to make new inroads for reaching more of the state's two and a half million eligible youth.

Texas will receive some \$276,000 for expanding its 4-H program. "Our goal is to boost 4-H enrollments in Texas during the 1970's to 10 percent of the eligible boys and girls, those between the ages of 9 and 19," points out Dr. Don Stormer, state 4-H and youth leader for the Texas Agricultural Extension Service. The Extension Service is the parents organization of 4-H.

"Such an increase would mean a doubling of our present enrollment of 125,000 members," notes Stormer.

Expansion efforts will initially concern the addition of new staff members to give added impetus and direction to 4-H activities. At present the state has three area 4-H and youth specialists located in various regions. This area staff will be increased so that a 4-H specialist will be located in each major area and serve either one or two Extension districts. There are 13 districts in the state.

To provide for additional leadership at the county level, 4-H program assistants will be added to the county extension staff in 46 counties, according to Stormer.

"We need to improve the viability of our program and expand our overall efforts to reach more of the state's youngsters. Our youth today must cope with many problems and pressures, and we have a responsibility to provide them with information and guidance so that they will be better able to make intelligent decisions."

"We must especially offer more programs dealing with the social and physical sciences and with the humanities," says Stormer. "4-H today has something to offer to every youngster who is inquisitive, who is interested in doing things, and who wants challenges. Whether living on the farm or in the city, boys and girls can join 4-H and can select projects and activities that are of particular interest to them."

"Learning to live a life, a chance to grow and develop, that's what 4-H is all about," contends Stormer.

Through this new expansion effort, 4-H should indeed continue to progress as one of the state's and nation's foremost youth organizations.

## New Semi-Winter Barley Called Tambar 401 Developed At Texas A&M

A new mildew and leaf rust-resistant, semi-winter barley called Tambar 401 has been developed by the Texas Agricultural Experiment Station Small Grains Section.

James H. Gardenhire of the Texas A&M University Research and Extension Center at Dallas said Tambar is a six-rowed, rough-awned barley with leaves that are wider and more upright and twisted than those of Cordova.

The agronomist said the new variety produced the highest average yield of all varieties grown in Central and North Texas tests from 1964 to 1971. It was particularly outstanding in the Rolling and High Plains areas.

Under irrigation near Bushland, Tambar averaged 103.9 bushels, compared to 88.2 bushels for Will, the bestyielding commercial variety. It was equal to Cordova in average test weight for all locations but had a lower average test weight than did Rogers.

A Weekly Report Of Agri-Business News

## Farmcast

Compiled From Sources  
Of The Texas Department of Agriculture  
John C. White, Commissioner

**Calf Prices Above Parity... Stalk Destruction Deadline Nears... SAD Help Is On The Way... Turkey Time Nears.**

Calf prices, the Texas Crop and Livestock Reporting Service notes, are above parity by almost \$3 per hundredweight. Effective parity for calves is \$44.90; average market price in Texas is \$47.70. But only calves are above effective parity levels. All other farm prices remain below parity.

The all-products index of prices received by farmers and ranchers is 15 percent above a year ago; the livestock index is 20 percent above last year while the all crops index is four percent above last year.

Cotton showed the biggest decline in price of all other crops. The average cotton price in the state is 21.6 cents per pound. This compared with 26 cents one year ago. Effective parity for cotton is 56.06 cents per pound.

In other crops, wheat showed a gain of 21 cents compared to a month ago with an average price now at \$1.96 per bushel. Corn was up five cents at \$1.42 per bushel compared to a month ago. Grain sorghum also showed a nickel increase at \$2.16 average per hundredweight.

Hog prices were down slightly in Texas compared to a month ago. Average now is \$26.80 per hundred pounds compared to \$27.70 a month ago. Effective parity for hogs is \$31.10 per hundred pounds. Beef cattle averaged \$33.40 per hundredweight, still well below the effective parity of \$37.40 per hundred pounds.

Egg producers continue to have pricing problems with a 36 cent per dozen average to 38 cents a month ago. Effective parity for eggs is 56.8 cents per dozen.

**COTTON** stalk destruction deadline is not far off for 44 north central and east counties. Stalk destruction deadline is Nov. 30. Officials urge farmers in those counties to destroy stalks as soon as possible. Recent rains throughout most of the area will keep farmers from getting into fields in the immediate future.

But when a break in the weather does occur and fields are dry enough to work in, farmers can through early stalk destruction reduce carryover of pink bollworms and other cotton insects. In other areas of the state, regrowth of cotton stalks is a problem, and such regrowth should be destroyed.

DING DONG!

**CAN FISHES HEAR?**

Apparently they can for they are trained in Aquariums to come to the side of the tank for food when a bell is rung.

# COUNTY AGENT NEWS

B.T. Haws  
Wichita County  
Agricultural  
Agent

Texas has been the nation's leading cotton producing state since 1880. Its 3-million-bale average since 1946 was 30 percent of total production in the United States. Also, cotton traditionally has been the most valuable crop in Texas. Only in recent years has grain sorghum challenged this supremacy.

Total value of lint cotton produced in Texas in 1971 was about 347 million dollars. Cottonseed value of \$59 million Added to the lint value gives cotton a total value of \$406 million and a clear lead over other crops. Total annual cotton cash receipts from farm

marketings are expected to increase to \$433 million by 1976.

The total value of Texas cattle, calves, sheep and goats on January 1, 1972, was \$2.5 billion, according to the Texas Crop and Livestock Reporting Service of the U.S. Department of Agriculture.

Texas continues to rank as the leading cattle and calf state in the nation. It also retains top position in beef cow numbers, sheep and lambs, and is second in cattle feeding.

We would like to encourage you to participate in the Tri-County Pecan and Food Show in Wichita Falls on November 29 and 30. The show will be held in the Lone Star Gas Auditorium. Fourty pecans make an entry. If you have questions, call the County Extension Agent's office, 304 Federal Building, Wichita Falls.

## Attention Farmers!!

We are now delinting seed daily, 8 a.m. -- 6 p.m. Monday through Friday.

Please call for appointment. Free Germination.

We invite you to visit and inspect our new modern delinting facilities.

## BJH Received One Ratings At Memorial Stadium

November 7, eighty-six members of the Burkburnett Junior High Band participated in the UIL Marching Contest held in the Memorial Stadium at Wichita Falls. The band used a series of drills including an entrance drill to the March of Gemini, a step two drill to Spanish Eyes, and the tra-

ditional drill to the B.J.H. fight song. The band received one-rating from all three judges. This band under the direction of Charles Gregory has received the superior rating for the past six years. Band officers pictured above include Sandra Hastings, drum major; Shannon Burdette president; Gretchen Froman, re-

porter; Lisa Harris, Assistant Librarian; Theresa Pruitt, major; Tanna Dowling, chaplain. Sherri Grass is assistant secretary; Stacey Allmon, librarian; Kathy Graves, assistant librarian; Gregory, director; Sherri Gorham, secretary; Billy Hromas, vice president; and Lauri Lewis, assistant librarian.

The Officers of Burkburnett Junior High School Band

## Cooper Home Demo Held At Rodgers Home

Cooper Home Demonstration Club members heard a program on Diet and Age at the meeting held last Monday in the home of Mrs. W.P. Rodgers in the Friberg Community.

Mrs. Joyce Smith, extension agent discussed the program topic.

The president, Mrs. Bee Bryant, opened the meeting with a prayer of Thanksgiving. Mrs. Sam Spencer, secretary, called the roll with members responding with "the accessory I like to wear". She also read the recent correspondence.

Mrs. J.W. Tole, treasurer, and Mrs. James Greger, game

chairman, gave their reports. Mrs. Rodgers gave safety hints for the kitchen.

Mrs. Ella Gill, vice president, introduced Mrs. Smith to the fourteen members and one guest who were present. Mrs. Hubert Miller directed the recreation and the group was reminded of the Christmas party date, December 14 and other important events to remember.

The next meeting will be held in the home of Miss Amelia Spencer November 27 with Mrs. Reb Huggins in charge of the program on novelties, decorative bake goods, and Christmas gifts.

## University Study Club Met At Baber Home Tuesday

The University Study Club met last Tuesday in the home of Mrs. Fletcher Baber. The president, Mrs. Blake Browning presided.

Reports were made by those who attended Santa Rosa District workshop in Wichita Falls.

A representative of the Wichita Falls State Hospital emphasized the need there for clothing, Christmas gifts, trees, and decorations, cosmetics, coffee and funds. The representative pointed out a special need for suitable gifts, clothing, and pictures for children's rooms. These articles are to be brought to the next meeting of the club. The group voted to send a

donation for gifts for the Hickory Elm Rest Home, also they will send candy to the county farm.

Mrs. John Rigby introduced the program on "Thanksgiving" by reading Psalm 106:1.

The program included a thanksgiving story and inspirational poem told by Mrs. J.D. Majors, and "A Thanksgiving Fact" given by Mrs. Sam Strum.

The federation counsel report was given by Mrs. Browning after which she read a poem. It was announced to the 14 members present that the club's Christmas party will be held December 13 in the home of Mrs. Joy Sessums.

## Grace Lutheran Missionary Society Meeting Held

Grace Lutheran Missionary Society met recently for a regular business meeting. A salad luncheon was planned for the Christmas program. Big plans were made for the Christmas Bazaar to be held December 2.

Election of officers were as follows: president, Mrs. Ira Schroeder, vice president, Mrs. Dwight Roark, secretary, Mrs. Kenneth Frieling, and treasurer, Mrs. Clarence Koelke.

The meeting closed with the Lord's Prayer and Mrs. Kinder served refreshments to the group.

## Ranette Hudson Selected For 'Who's Who'

Ranette Hudson, senior at Burkburnett High School, has been selected to appear in the recently completed "Who's Who Among American High School Students".

Her biography will appear in the 6th annual edition for 1971-72. This honorary award is presented to less than 2% of the nation's junior and senior class high school students annually.

Ranette is the daughter of Mr. and Mrs. Randall Hudson.

## Guidelines of Life

### BE YE THANKFUL

by Rev. Albert H. Lindemann, Grace Lutheran Church

Traditionally all Americans pause during this period of the year in order to give thanks to God. The custom began in the autumn of 1623 when Governor Bradford of the Plymouth Colony sent out a company of hunters in order that they might bring back food for a feast. They were in the midst of a great wilderness, surrounded on the one hand by hostile savages and on the other by the rigors of a cold, New England winter and the threat of famine; nevertheless, this handful of brave Pilgrims met and thanked God for the good things they had received. They were thankful.

We have come a long way since that day. We are a people of enormous privilege and blessing. We are a nation of enormous strength and power. We are a nation whose fields and factories and foundries lead the production figures of the world. We indulge luxuries absolutely prohibitive by their cost to people of other nations. One readily observes that life even amid rising costs of inflation is lived with abundance and delight.

Looking about in the world the sin most common is the sin of ingratitude. "If there be a crime of deeper dye than all the guilty train of human vices, it is ingratitude." Children forget the loving care of parents; friends forget the days of friendship; young people forget the guiding hand of pastor or teacher. Ingratitude is the world's most constant pain. But ingratitude toward God is far worse. No wonder Shakespeare exclaimed; "O Lord, who lends me life, lend me a heart replete with thankfulness." God's love has supplied all our needs and provided all our luxuries. When King David counted his blessings he could not but exclaim, "Bless the Lord, O my soul and all that is within me, bless His holy name." God, the giver of every good and perfect gift, is so amazed at the human stupidity of ingratitude that he once exclaims: "Even the ox knoweth his owner and the ass his master's stall." Many approach their thanksgiving negatively. A Chinese proverb reads: "I complained that I had no shoes till I met a man who had no feet." This approach contains more Oriental fatalism than Christian Providence. It springs more from a sense of being lucky, than of being blessed.

Others see only the blessings received and close their eyes to the afflictions endured or the troubles borne. Jesus didn't close His eyes to the misery around Him or try to avoid it. He reached out in sympathy to heal and to comfort. Christ preached neither Stoicism (Grim and bear it) nor Pollyanna sentimentalism (This is the best of all possible worlds). Trouble, like sin and born of sin, is a basic part of life - of the Christian life also - and must be taken into account even in an act of thanksgiving.

"Now, therefore, our God we thank Thee and praise Thy Glorious name."

# Top Stars To Perform In Houston

Sonny & Cher

(Houston) The Super Show of the Century with an array of stars to dazzle the imagination has been scheduled for the 1973 Houston Livestock Show and Rodeo, President Tommie Vaughn announced today.

The rodeo will begin February 23 and run through March 4, in the Astrodome adjacent to the Exposition Building, which will house the livestock show opening Wednesday, February 21. "Something for Everyone" is the slogan for the '73 show and the line-up of stars has "Someone for Everyone".

Returning to Houston for the third time and opening the '73 show with matinee and evening performances on Friday, February 23 will be Charley Pride, recently named Top Male Vocalist of the Year by the Country Music Association.

Sonny and Cher, the dynamically talented husband and wife singing-comedy duo, will appear at matinee and evening performances on Saturday and Sunday, February 24 and 25. Country and western fans will want to see the talented Merle Haggard on Monday, February 26. Merle, who was the Country Music Association's enter-

tainer of the year in 1970, captured the best album of the year award for 1972 for "Let me tell you about a Song".

Rick Nelson, popular TV and recording artist and recently of "Garden Party" fame, will appear on Tuesday, February 27.

The Wednesday, February 28 performance will feature two well-known stars -- Donna Fargo, who won the award for best single of the year for "Happiest Girl in the Whole USA", and the Sensational Southern Gentleman, Sonny James. Sonny has had twenty-seven Number one records in a row... an unheard of record in the world of country music.

Appearing on Thursday, March 1 will be the 5th Dimension, making their second appearance at the Houston Livestock Show. They are well-known to contemporary music fans for such hits as "Up, Up and Away" and "The Age of Aquarius/Let The Sun Shine In".

Young and old alike will enjoy the one and only, Engelbert Humperdinck, at the evening performance Friday, March 2 and matinee and evening performances Saturday, March 3.

Among his best selling albums are "Another Time, Another Place", "Release Me" and "In Time".

To wrap things up in a big way, The Jackson 5, sensational teenaged supergroup, will appear at the matinee and evening performances on Sunday, March 4.

The world's largest calf scramble and the ever-popular Chuckwagon Races will be exciting everyone at all performances.

Top professional cowboys will compete for the world's largest rodeo purse - over \$100,000. The Houston show will again feature a Rodeo Finals on Sunday evening, March 4, with the leading cowboys in each event competing for the big money.

Ticket prices range from \$1.50 to \$4.50. For ticket information, write Ticket Director, Houston Livestock Show and Rodeo, Box 30070, Houston, Texas 77025.

## Hunters' Wardrobe Includes Fluorescent Orange Clothing

The "in" color for the hunting season is hunter's fluorescent orange, according to Texas Parks and Wildlife Department officials.

A matching orange cap and vest is more than just fashionable. It will help hunters prevent what is considered a sartorial faux pas in the hunting game -- bullet holes.

Parks and Wildlife Department officials point out that fluorescent orange is probably one of the most unnatural colors one could bring into a forest and that's a big plus in its favor.

There is no mistaking an orange vest coming through the woods for anything but man, so there is less chance of getting shot by someone who is a little too anxious to bring home a trophy.

Here are a few more safety tips from the Texas Parks and Wildlife Department which should help hunters enjoy open seasons for years to come.

- \* Make sure of your target. Never shoot at something you can't see. Know where your bullet is going if you miss.

- \* Carry only unloaded firearms in a vehicle. Keep the actions open and the firearms in a carrying case.

- \* Take a little time when crossing fences. Lay your firearm flat on the ground on the other side of the fence and then crawl through.

- \* A firearm should never be used as a club. Wounded game should be finished off with another bullet or with a handy stick or rock.

- \* Use the right ammunition for your firearm. Using the wrong size shell is inviting disaster.

Charley Pride

MISS TEXAS - Mae Beth Cormany, is only one of the many visitors interested in antique automobiles.

## Antique Autos Shown At Ft. Worth Museum

Whenever you visit the Pate Museum of Transportation you will find many nice people browsing around and looking at the exciting and educational exhibits on display there. People come from all over the world to see the fine collection of classic, antique and special interest automobiles, the space-age exhibits, aircraft, the combat tank, the antique railroad car, and the 1500-volume library of books, magazines, pictures and other valuable objects of interest.

School children and young adults come here by the bus loads, families by the carloads, and it is not unusual to see visitors from Mexico, Canada, Europe and the Far East. Not long ago Miss Texas 1972, Mae Beth Cormany, paid a visit to

the Pate Museum. She said she had always been interested in antique automobiles but had never had the opportunity to visit the Museum before. She was surprised at the wide range of displays... all the way from the antique stuffed horse pulling an old time buggy to the Space Suit Alan Shepard wore when he walked on the surface of the Moon.

The next time you and your family and friends come to Fort Worth on business or for pleasure, visit the Pate Museum of Transportation. The Museum is located on Highway 377 between Fort Worth and Cresson, and is open everyday, except Monday, from 9 a.m. to 5 p.m. Admission is free and you'll find clean rest rooms and cold drinks.

# Postal Service Expands

Package transportation services for Texas shippers will be expanded westward Monday as United Parcel Service will begin service into the states of New Mexico, Colorado and Wyoming.

The new service has been authorized by the Interstate Commerce Commission (ICC), which granted temporary authority to the company to transport packages between any address in the three states and 37 other states that lie to the east, including Texas.

The expanded service will be of particular value to package shippers in Texas because normal patterns of commerce

require dependable transportation links westward, particularly into New Mexico. The new service offers Texas residents the first practical alternative to parcel post for the transportation of packages from and to the newly opened three states.

United Parcel Service handles packages that weigh up to 50 pounds each and have a maximum combined length and girth of 108 inches. Its rates are comparable to those for uninsured parcel post, but in addition, the firm provides \$100 of protection against loss or damage on every package without additional charge.

With the onset of the Christmas shipping season, the new

service will provide a welcome level of dependability for the movement of packages.

United Parcel Service currently delivers some 2.5 million packages a day. Under company standards a package moving up to at least 150 miles is delivered the next day. This is only the minimum, however, and packages frequently move more than 300 miles and still get next-day delivery.

Beyond this distance, the company makes delivery on the second day up to at least 400 miles, third day up to a minimum of 900 miles and fourth day up to at least 1,500 miles.

United Parcel Service has been in the package delivery business since 1907 and presently offers its service in 43 entire states and parts of three others. This area contains 98 percent of the population in the 48 contiguous states.

The firm has an application pending before the ICC that, if granted, would extend the company's operations into all 48 states.

United Parcel Service provides shippers and their receivers with a number of unique service features, including:

- \* A driver calls at a shipper's place of business each day to pick up packages. For a small weekly service charge he appears automatically without regard to the size of the shipper's business or the volume of packages that can be expected from the account.

- \* Deliveries are made directly to the premises of the consignee, even on the upper floor of an office building, and whether he is within a city or in a rural area away from any city or community.

- \* If for any reason a delivery cannot be completed on the first call, the driver will make a second, and if necessary, a third attempt at delivery without extra charge. If the package still cannot be delivered, or if it is refused by the consignee, it will be returned to the shipper, also without additional charge.

- \* All packages sent via United Parcel Service are protected automatically for up to \$300 against loss or damage without extra charge. Additional protection can be purchased at a nominal cost.

- \* Signatures are obtained for each package delivered and specially designated records permit prompt answering of inquiries about delivery of a package.

- \* United Parcel Service provides an address search service to minimize delivery delays for incorrectly addressed parcels and to correct the errors; it also offers a C.O.D. service.

- \* All drivers are neatly uniformed and delivery vehicles are maintained at high levels of appearance. It is company policy to wash or clean each vehicle daily and to repaint vehicles at regular intervals. United Parcel Service adheres to these standards so that its drivers will be welcome anywhere, including professional offices, retail stores and private homes.

## Lone Star Buys Thermal Assets

Lone Star Energy Company, a subsidiary of Lone Star Gas Company, has formally acquired all the thermal energy assets of Central Energy Corporation for some \$8.5 million.

Last June the two companies agreed to the purchase, subject to approval by both firms' boards of directors, the Board of Regents of the University of Texas system, the Veterans Administration, and the stockholders of Central Energy Corporation.

Involved in the acquisition are three plants located on the campuses at El Paso, San Antonio, and Galveston. The El Paso plant provides heating and cooling services to the University of Texas academic campus, and the Galveston plant provides these services for the University of Texas' Medical School.

The San Antonio plant serves the University of Texas' Medical School complex there and Bexar County Hospital. The plant is being expanded to provide service for the new Veterans Administration Hospital now under construction. Operating crews at each location will be retained.

Lone Star Energy Company constructs, owns, and operates central thermal facilities. An installation at Southwestern Medical School in Dallas was placed in operation earlier this year. Central Energy is a subsidiary of the Sam P. Wallace Company in Dallas.

The tendency of government at all levels to suppress, or to over-manage, the news is a serious threat to the whole American way of life. The press needs public support in this fight because it is the public's fight.

## Read any good clothes lately?

You'll find some very interesting reading on the labels in the new clothes you buy.

After July 3, 1972, all garments manufactured that require care and maintenance for their ordinary use must carry a permanent label giving instructions for care and maintenance.

Any questions you have about whether to wash and dry or to dry clean will be answered right on the label.

For home laundering,

you'll find electric dryers are designed for a wide range of modern materials - including polyesters and other permanent press fabrics.

This is just one of many reasons why the flameless electric dryer is America's favorite.

Here are a few tips on how to keep your new permanent press clothes looking their best without spending hours ironing:

1. Never dry more than one washer-load at a time.
2. For truly wrinkle-free

clothes, try drying half a load, so they'll have lots of tumbling room.

3. Try fabric conditioners. They not only make clothes softer, but they cut down on the static electricity that makes clothes cling together and wrinkle while drying.

4. Clean your dryer's lint trap after each load, to increase drying efficiency.

5. Read your instruction book carefully to get the most out of your dryer's unique features. File instructions for future reference.

SHEPPARD AFB, TEX.— FIRST WOMAN— First Lieutenant Barbara F. Anthony and Colonel Carl L. Brunson, commander of the School of Applied Aerospace Sciences (SAAS), center, chief of the Department of Transportation Training, talk over Lieutenant Anthony's new assignment as the first woman in the Air Force (WAF) to command the 3782nd Instructor Squadron. The squadron consists of instructors for the Department of Transportation Training and Instructor Training.

# SHEPPARD AIR FORCE BASE

## First Lieutenant Anthony, First Woman To Command SAAS Squadron

SHEPPARD AFB, TEXAS-- A woman now commands the 3782nd Instructor Squadron of the School of Applied Aerospace Sciences (SAAS).

First Lieutenant Barbara F. Anthony, assumed the duties of this job Monday to become the first woman to lead a traditionally all male squadron.

The squadron consists of approximately 160 persons -- all instructors of the Department of Transportation Training, as well as Instructor Training.

Lieutenant Anthony will not be completely alone in the squadron as Second Lieutenant Jeanne Sturm in instructor training will be the only other feminine member. Lieutenant Sturm's assignment had marked the first breakthrough into the men's world of the squadron.

Lieutenant Anthony was welcomed to her new job by Colonel Carl L. Brunson, commander of the SAAS, and Colonel Ward J. Catron, chief of the Department of Transportation Training.

ment of Transportation Training.

She came to this assignment from the 3782nd Student Squadron of the school, which is an all woman in the Air Force (WAF) Squadron. She was the administrative officer there.

The attractive young WAF officer came to Sheppard June 17, 1971 after entering the Air Force in January of that year. She completed both Officer Training School at Lackland AFB, Tex., and Administrative Management School at Keesler AFB, Miss. before coming to Sheppard. At Keesler she was an honor graduate.

A native of Olmstead Falls, Ohio, Lieutenant Anthony was graduated from Kent State University, Kent, Ohio with majors in speech pathology and audiology. She worked with speech and hearing problems in the Strongsville, Ohio school system before entering the Air Force.

"I am looking forward to working on the other side of the fence," stated Lieutenant Anthony of her new job. "Always before, I worked with students, and now it will be nice to see the instructors' viewpoint," she pointed out.

In addition to her duties with the WAF Students Squadron, Lieutenant Anthony was WAF liaison officer for the Air Force Reserve Officer Training Corps encampment at Sheppard last summer. "I came into the Air Force to be an officer, and I think I can perform this job as well as any other," the confident young WAF officer explained. "I think it will be very interesting and rewarding."

Colonel Catron said that he was liking forward to having her with the department.

The squadron headquarters are in Hangar 1090.

## 10 Departments At SAFB Received Certificates

SHEPPARD AFB, TEXAS-- "Hundred Per Center" certificates were awarded to the 10 departments and divisions within the School of Applied Aerospace Sciences, Sheppard (SAAS), which exceeded their projected share of the Combined Federal Campaign.

SAAS recorded contributions totaling \$49,300.77, 124 per cent of the \$39,686 goal.

Colonel Carl L. Brunson, school commander, presented the awards in a ceremony Thursday to the Department of Communications and Missile, Field and Transportation Training, Headquarters Squadron, Administration, Operations, Training Aids, Training Evaluation and 3750th Student Group also received the awards.

## Captain Munroe To Receive \$5000 For Suggestion

SHEPPARD AFB, TEXAS-- Captain Charles K. Munroe, a former member of the 3530th Flying Training Wing at Sheppard, will soon be receiving a total of \$5,000 for a suggestion he submitted while stationed here.

He will receive the first \$1,000 for acceptance of the suggestion at Sheppard, according to Rheta McLean, chief of the Air Force Suggestion Program here. The captain will receive an additional \$1,000 when approved by Air Training Command, and \$3,000 when approved by Headquarters U.S. Air Force.

The suggestion has already been adopted for use Air Force wide, and use of the revision called for is mandatory.

The suggestion calls for the redesigning of a battery-powered light on the clipboard used by pilots in the cockpit. With the old design, the light would often flicker, fade or even fail completely during night flight. This often proved detrimental to the safety of flights.

The flickering of lights could cause distractions in the cockpit at times when concentration is critical to the pilot.

Another hazard created by the faulty light was that parts sometimes became loose and fell in aircraft cockpits. Among those parts was the red shield covering the light bulb. An unshielded light in the cockpit caused distraction and also reduced visibility at night.

Captain Munroe's suggestion included close examination and redesigning of the light unit. He suggested further that the fault might be in the switch used to turn the light on and off.

The improved light provides illumination which covers the entire clipboard. The new light also has a rheostat switch which allows the pilot to adjust the brightness of the light as needed. It also has fewer pieces and is much more reliable than the old lighting system.

# Big Buck Contest

This year the INFORMER/STAR will award a Trophy to the best Texas White Tail Deer entered in our contest.

Deer will be scored on the basis of one point for each pound of weight, and five pounds for each antler point (points must be an inch in length to count.)

## Carbon Monoxide Killed Or Sickened Many People

Death and taxes may be inevitable, but many people are being killed or sickened by a preventable illness - carbon monoxide poisoning - says the State Health Department.

With a chill in the air, it is time for heaters and a time for caution because of the odorless, colorless and tasteless gas which is present in all combustible substances. This gas can kill a person into unconsciousness before the victim knows he's in trouble.

By now most Texans have fired up their heating systems - at least for short periods of time - with the arrival of the season's first northern winds. And if members of your household came down with unexplained headaches, dizziness or nausea after the heaters were lit, carbon monoxide could be the reason. All furnaces should undergo periodic checks to make certain they are safe.

Although carbon monoxide can occur anytime, it is thought of as a cold weather threat since homes, automobiles, mobile homes, hunting cabins and businesses are buttoned up tight to ward off the cold.

Every time a person burns gasoline, kerosene, wood, natural or manufactured gas, coal, coke or oil in a heater, car, appliance, bonfire or grill, he has started a potential carbon monoxide factory. Hibachi grills, used with charcoal, are dangerous in closed-up areas. A car engine, running in an average-sized garage approximately five minutes, can produce a lethal concentration of carbon monoxide. Leaky mufflers or tailpipes can allow the gas to accumulate in a car - particularly one that is stopped.

The poison slowly gets into a person's bloodstream, rendering him weak and groggy and finally resulting in death unless the exposed person is moved to fresh air before it is too late. Hospitalization often is necessary for victims lucky enough to live - but many receive brain damage from lack of oxygen. Early symptoms of carbon monoxide poisoning include yawning, headache, nausea, dizziness, ringing in the ears and even abdominal pains.

A little bit of carbon monoxide can go a long way. It's an insidious killer. Its physical properties - no odor, taste or smell - make it almost impossible to recognize unless you understand the symptoms of carbon monoxide poisoning. Then, once it is inhaled the gas invades the blood stream through the lungs and unites with the hemoglobin in the red blood corpuscles so they cannot carry oxygen to the cells of the body. Asphyxiation results.

It is so poisonous that it combines with red cells of blood 200 times more easily than oxygen. So when oxygen and sizable amounts of carbon monoxide are breathed in together, carbon monoxide muscles the oxygen aside, causing illness. If oxygen is depleted sufficiently, death follows. Many deaths occur from faulty appliances, even though a window may be slightly open.

At least 1,400 deaths are attributed in the United States each year to carbon monoxide poisoning. Some 10,000 persons suffer carbon monoxide poisoning. In Texas last year, at least 49 persons died from carbon monoxide poisoning, according to State Health Department statistics.

How do these deaths occur? You think of the home as the most logical place - and it is - with some 70 percent of reported fatalities. Many people go to bed at night and never wake up, victims of a faulty fuel or unvented heating device, water heater or even an old, unvented gas refrigerator.

But this summer in Texas carbon monoxide in a Lake Texoma pleasure cruiser claimed several victims. The fumes apparently brought into sleeping quarters by the air conditioner.

A young couple parked in a garage of a vacant house with the automobile motor running and heater on to ward off the cold were found dead - victims of carbon monoxide poisoning.

A newly-married couple - the husband a war veteran - checked into a motel on their marriage night. A faulty furnace, improperly vented, killed the young Marine veteran while he slept and sent his wife to a hospital.

Five persons driving in a car in Dallas - with air conditioning on and the windows rolled up - became so sick they were taken to a hospital.

At least sixteen persons died in one year from defective heaters in mobile campers. Deaths occurred in several states.

Yes, carbon monoxide is sinister. But it doesn't have to be fatal. With Texas in the midst of its fall and winter hunting season, hunters should check ventilation in their stoves and examine smokestacks and chimneys to be certain they aren't clogged with leaves or the nests of birds or squirrels.

In the home, make certain the damper is open before lighting the fireplace. Have your gas refrigerator service checked annually, even though newer models have improved control systems. All furnaces, regardless of fuel type, should be checked and properly vented to the outside. Combustion chamber leakage is a serious hazard, particularly if old. Individual room type gas heating equipment should be vented. And, don't use the gas cooking range for heat.

Automobiles and trucks, as well as other gasoline engines, shouldn't be run indoors for long periods - even with a garage door open. A charcoal grill or hibachi should be used only outdoors.

These are but a few life-saving tips. A person should always remember that anything which burns can give off death-dealing carbon monoxide and needs to be properly vented - or not used.

## Gas Company Increased Stock Dividends 1¢

Lone Star Gas Company today increased its regular quarterly dividend to thirty-five cents per share of common stock. The one cent quarterly increase is in line with dividend guidelines and the spirit of current economic controls.

W. C. McCord, President and Principal Executive Officer, said that this is the third consecutive year during which dividends have been increased. The higher dividend reflects the strong earnings trend begun by the company in 1968. Today's action by the company's Board of Directors follows reported record per share earnings of \$2.38 for the twelve months ended September 30, 1972.

"With normal weather for the balance of 1972, we are working to attain an improvement of ten per cent in earnings for this year over last," McCord said.

The increased dividend is payable December 4, 1972, to shareholders of record at the close of business November 17, 1972.

### NOTICES

Weekly Health Tip from Joe Gillespie

Poor posture was found responsible for backache in 80% of 9000 back patients surveyed recently. Poor body alignment, such as slouching with the head forward and chest low, throws a harmful strain on the spine, vertebrae and back muscles. Some of the pains called lumbago or sciatica are due to poor carriage. Proper posture and bodily exercise is the best remedy for most problems of backache.

# DOGS ARE 4-AAA DISTRICT CHAMPS DEFEATED BROWOOD 32-0

LONG AWAITED MOMENT - Coach Bill Froman, left, shakes hands with Brownwood's Gordon Woods, following Froman's team's crushing victory over the Lions.

Some call him Joe Kapp, some call him magnificent, and some just call him Sambo. But all call him great because he did what all Burkburnett went crazy Friday night yelling him on to do, he and the Bulldogs, defeated Brownwood 32-0 and clinched the 4-AAA District Championship. From the first kickoff there was no stopping the Bulldogs, they dominated the entire game and Brownwood had nary a chance.

Hancock busted open the lid to all the Brownwood nightmares as he made the first TD in the first quarter. Zac Henderson added 6 more in the second quarter to lead the "impossible" lions 12-0 at half-time.

The Bulldogs had thrown water on Brownwood's hopes to mark one up in the pre-half play. A beautiful defence manned by Allen Fournier, Ted Neible, David Stinks, Scott Smith and of course "the Bull-

dozer" Rick Bradley. Each time the Lions even thought about a TD the 'Dogs knocked it right out of their minds with a crushing tackle or two. The Hancock TD came during Burk's second possession of the ball as he tore away from Lion defenders for a 58-yard haul to the Brownwood 33. The rest was simpl. Hancock passed spiral to Henderson to set up the second TD. Bill Snowdon plucked the ball out of orbit on the 13-yard line to put the 'Dogs in scoring position. Lions as he went in for the third TD from the one. The score stood 18-0 and fans were chaotic, 'Dog fans anyway. Henderson couldn't let the score stay stationary very long though as he ran over another six and fasted the scoreboard at 24-0. Rusty Barrett added an extra point and all stood in awe as the powerful offense trucked on with an unbelievable 25-0. With the last quarter toiling doom for the Lions Tommy

Rushing added shame to defeat to crush the Lions 32-0. Sam Hancock sat out the last few minutes as Benny Wilerson took over and manned the helm for a while. The last whistle blew, the last tackle made and the stands delirious the 'Dogs were also, excited to put it mildly. They danced on the field running from coach to coach waving a single high index finger. We're number one, and every other way it could be said, rocked the stadium in Lion land.

The statistical game also proved Burk the victor as the victor as the mighty 'Dog offense ate up 429 rushing and 82 yards passing. The defense smothered the Lions with only 89 yards rushing and 138 yards passing. The game was almost perfect in that only 10 yards and 15 yards penalties were given. Burk intercepted one Brownwood pass and maneuvered for 29 first downs.

SOMEWHERE UNDER the mass of orange and white jerseys is a lone Brownwood Lion. Plays like this were quite evident throughout the game and the final score revealed the Bulldog defensive effort as Burk won 32-0.

GOOD YARDAGE-----Zac Henderson (23) picks up another first down in Friday night's action.

FIRST TD - All signal the TD sign as Burk makes its first of five for the night.

THIS IS THE ONE - This is the game the 'Dogs needed for the much cherished crown.

## Drake University To Play In W.F. On December 9th

Pioneer Bowl officials Thursday announced the signing of

Drake University for the December 9th classic to be played in Wichita Falls. Making the announcement for the Pioneer Bowl was Al Flack, Pioneer Bowl publicity chairman.

Drake, ranked 10th in the nation in both the UPI and AP polls, has a 7-2 record so far this season and has clinched at least a tie for the Missouri Valley Conference championship. Drake's only two losses came at the hands of South Dakota after the loss of their number one quarterback and to university division's Tampa.

Harold Stroy, Pioneer Bowl Chairman, stated that the committee was pleased to have Drake accept the invitation and added that they were certainly one of the top college division teams in the country. According to Stroy "the landing of a team which can successfully compete for the Missouri Valley Championship against major colleges is a big step ahead for the Pioneer Bowl. Fans will not be disappointed in the explosive brand of action football which they play."

Drake meets Idaho State this week in Pocatello, Idaho and then travels to Louisville for the Missouri Valley Championship showdown. A win against Louisville would give Drake the championship outright, whereas a loss would result in a co-championship.

A decision was expected Sunday on Drake's opponent for the bowl game. Officials will be considering the University of North Dakota, Tennessee State and Western Illinois. The second announcement should come early this week.

Tickets for the game are now available by mail at Box 2121, Wichita Falls, or at the Hamilton Building. Tickets are priced at \$4.00 and \$2.00.

KNEEL IN PRAYER - Players from both teams and their coaches kneel in prayer following Friday night's clash.

# Seven minutes of San Francisco: \$2.85

During eight-to-five business hours, Monday through Friday, that's the cost of a seven-minute call from here to San Francisco if you dial it yourself the One-Plus way. It's figured like this:  
First three minutes: \$1.25 Each extra minute: 40¢  
And if business can wait, One-Plus rates on out-of-state calls are even lower after five.

One-Plus...there's no cheaper way to call Long Distance.
