Weekly Health Tip

from JOE GILLESPIE

Light colored or reflective outer clothing should be worn at night by pedestrians and bicyclists. Visibility by an auto driver is more limited than most pedestrians realize. The headlight beam is aimed low - its range is short, especially in a fast moving car. At night an auto driver is often upon a dark-clothed pedestrian before he can swerve or stop. The auto lights may seem very bright to the pedestrian, yet he is unseen by the driver. Bicycles should have reflective tape and also be well lighted.

Cunningham-Willmon Vows Exchanged In Recent Candlelight Ceremony

The Calvary Baptist Church in Duncanville, Texas was the site chosen for the marriage between Miss Terri Cunningham of Duncanville, Texas and Larry Willmon of Sherman, Texas. Rev. Terry Samples of Duncanville officiated at the ceremony.

Parents of the couple are Mr. and Mrs. Bill Cunningham of Duncanville and Mr. and Mrs. Clifford Willmon of Burkburnett.

The church was decorated with a white archway covered with greenery and white flowers. Two large candle trees of 15 candles each stood at each side of the arch. Matching flower baskets stood at each side of the steps leading to the nuptial platform. A large white bowl and miniature candles and pastel flowers adorned the com-

munion table. The pews of the church were accented with the large white bows.

Walking down an aisle of white carpet, the bride was radiant in a gown of white satin and silk organza. The empire styled dress had a sheer yoke with matching sheer sleeves. The bodice, collar and cuffs were covered in rows of organza lace. An overskirt of silk organza highlighted the A-line skirt of white satin, with three rows of organza lace cascading down the front of the gown. Small lace flowers were scattered about the bodice, skirt, collar and cuffs. The circular train of satin and organza was attached at the base of the back yoke with a double satin bow. The four-tier veil of tulle net was held in place by a bridal cap of lace and small organza flowers. The

bridal bouquet was a cascade of small white rosebuds and baby's breath.

Miss Tonya Welborn of Dallas was Maid of Honor and Mrs. Susan Cox of Lewisville, Texas was Matron of Honor. Misses Diana Miller and Debbie Bryan, both of Burkburnett were bridesmaids. Dresses for the attendants were in pastel shades of pink, blue, yellow and green voile. The matching dresses had an empire bodice accented with matching ribbon. Puffed short sleeves and jewel necklines completed the gowns. Picture hats completed the ensemble and each carried matching bouquets of pink, yellow, green and white flowers.

Flower Girl, Kim Haney of Duncanville, wore a dress matching the bridesmaid's outfits, of white voile with yellow trim. Kevin Grisby of Moore, Oklahoma acted as ring bearer for the occasion. Candlelighters were Gary Cunningham, brother of the bride, and Robbie Norris, both of Duncanville.

Joe Hromas of Burkburnett was best man. Groomsmen were Larry Miller and Sammy Allenbaugh, both of Denison, Texas and Galen Burden of

Sherman, Texas. Doug Roberts and Billy Hromas, both of Burkburnett, served as ushers.

Soloists were Miss Pat Zimmerman of Burkburnett, and aunt of the bride, Mrs. Eulma Lee Montgomery.

A reception hosted by the bride's parents was held following the ceremony in the Fellowship Hall of the church. A four-tiered wedding cake with one riser separating the top layer with the traditional bride and groom under an archway of pastel colors accented the bride's table.

Pink roses and green leaves decorated the cake. Matching silver candleabras with white candles and a floral centerpiece of pastel flowers decorated the service table. Pink punch was served from a silver punchbowl service.

Miss Terri Taylor of Burkburnett attended the registration table. Wedding bells and candles decorated the area.

Miss Debbie Grisby of Moore, Oklahoma and niece of the groom distributed ricebags among the guests.

Activities ranged from the opening of the new high school track facility in June to the swim meet held at the Burk Swim Club on Aug. 6th. In this period of time a girl's track was organized to compete in various summer meets in the area including our own meet held on July 21st; a tennis clinic was held at the high school tennis courts where twenty-four youngsters began a week's session on basic tennis skills and fundamentals; a summer tennis tournament was held for those interested from Sheppard AFB, Iowa Park, Vernon, and Burkburnett on July 28th; a two-week golf clinic was offered to some forty-eight young golfers at the Boomtown Golf Center from July 16th to July 27th with a tournament sponsored by the Boomtown Lion's Club concluding the affair; a swim meet concluded activities sponsored by the Summer Recreation Program with a total of thirty-one youths participating in the special one-day event.

Boom Country Report

New surprises await us each week at BOOM COUNTRY JAMBOREE. Many are realizing that a good thing is going on at the Burkburnett Civic Center every Saturday night at 8:00 p.m. and the word is spreading.

Comedy, good ole country music, instrumentals, gospel singing, you name it and we have it. If we happen to be leaving out something you would like to see just speak up and we'll remedy it.

Bozo Darnell is funnier than ever. His mimic of Johnny Cash this past Saturday night was a real rib tickler. We again welcomed his son, Ruben, to the stage for a fine tune or two.

Miss Michele Nixon was on hand to perform her winning talent performance of "Proud

Mary". She also did a fine rendition of "Teddy Bear".

The Fabulous Finleys were in a really swinging mood with their rousing and stimulating fast talking songs, "I've Been Everywhere" and "The Auctioneer".

Darrell Nichols, Nocona Star and Carl Woods were on hand to provide the backbone music for each performer. So was "DARRELL JUNIOR". You'll have to come see this for yourself.

Talent competition got under way with Miss Kathy Nixon, Dave Buchanan and "Terry and Bill". With this start, there appears to be some TUFF CONTESTING ahead. We are looking forward to the results of the next few weeks of competition.

A real treat for the JAMBOREE this past week and for many performances ahead, were the Gospel Masters. They gave us some good hand-clapping renditions of old gospel favorites.

We are proud to announce that JAMBOREE regular Greg Roberts is doing a recording session this week. He'll be missed this Saturday night, but will be returning the following week. His "T for Texas" and Johnny Cash number were really professional and enjoyed by everyone.

We also had an instrumental performance of "Ghost Riders In The Sky" that could make your skin crawl with its eerie tones from the electric guitar. Jim Hill and Jim O'Keefe from KLUR-FM were on hand to aid Bozo as emcees. Their humor and love for country music really make them essentials at the JAMBOREE.

There is talent galore every Saturday night. Come on out and bring your family. The charge is very slight in comparison to the amount of fun and entertainment that is yours for the taking. Come on out, make your requests to the performers, get their pictures and autographs. It's great for every age, nothing rated X about this show. SEE YOU SATURDAY NIGHT. PD. ADV.

Tips for using electricity efficiently:

Think twice before you open this door.

The habit of opening refrigerator and freezer doors only when it's really necessary is a saving habit. The cold air that rushes out each time has to be replaced, which causes the unit to run more and use more electricity. Make a mental list of the items you need before you open the door, then take out as many of them as you can at one time.

Here are other suggestions for using minimum amounts of electricity to get maximum benefits from your refrigeration equipment.

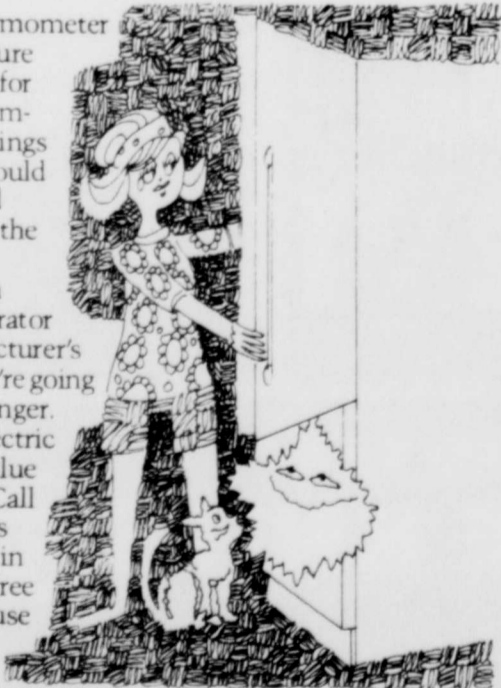

If your refrigerator has to be defrosted manually, do it before the ice deposit gets one-fourth of an inch thick. Ice (frost) acts as unwanted insulation and causes your refrigerator to work overtime.

Let hot foods cool to room temperature before you place them in your refrigerator or freezer.

Use a refrigerator thermometer to help you attain temperature settings of 35 to 40 degrees for your refrigerator and zero temperature for your freezer. Settings below these temperatures could be a waste of electricity and cause unnecessary wear on the appliances.

And turn the dial to a warmer setting in the refrigerator section (according to manufacturer's recommendation), when you're going to be away for a week or longer.

It's our job at Texas Electric to help you get the most value from your electric service. Call us when you have questions about any use of electricity in your home. Or ask for our free booklet, "Tips to help you use electricity more efficiently throughout your home."

NEWS RELEASE

FUEL SHORTAGE RELIEF SOUGHT

AUSTIN—Greater oil and gas production to pare down Texas energy shortages is the aim of companion bills introduced in the Texas Legislature this week.

The measures would liberalize unitization requirements for oil and gas fields so as to increase production of oil and gas reserves, according to sponsors of the legislation, Sen. Jack Hightower of Vernon and Rep. Dave Finney of Ft. Worth.

They said the legislation would help accomplish one of Gov. Dolph Briscoe's goals: To get the maximum recovery from reserves as one of the means to solve the energy shortage.

A major obstacle, aside from technological aspects, preventing the tapping of part of the 98 billion barrels of Texas oil reserves has been an obsolete oil-gas unitization law that requires 100 per cent agreement from operators and royalty owners in a field to unitize, the lawmakers said. The requirement has been so restrictive that only one of every 10 Texas fields now operates as a unit.

Under terms of the Hightower-Finney proposal, a consent majority of 75 per cent of all interests would be required.

It is believed that several billion more barrels of fuel can be recovered by removing restrictions, the legislators said.

Both legislators warned that their proposal was not a cure-all for energy shortages, but would be a step toward greater energy supplies.

DUNCAN BROWN

Brown Wins Second In Teen Talent Search

Duncan Brown recently won second place in the National Teen Talent Search contest held in Miami Beach, Florida. He won playing his cornet in the Instrumental Solo Division.

In order to be eligible to compete nationally, Duncan first had to win in Sectional, District and Regional competition.

Duncan was the only member

of the Burk Burnett High School Band to make the All-State Band in 1973.

He received a first division rating in the State Solo contest held in Austin in June. A medallion was given for the rating.

Brown is the son of Mr. and Mrs. Gene C. Brown of 41 Peach. He will be a junior at Burk Burnett High School.

Mark Bewley Graduates From Rio Hondo College

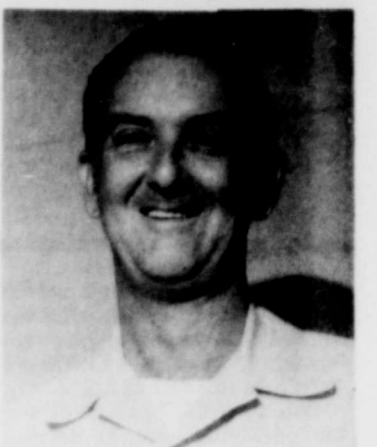

Mark Bewley, former student of Burk Burnett High School, and the grandson of Mr. and Mrs. M. L. Hillis, long-time residents of Burk Burnett, relaxes at home just prior to recent graduation exercises at Rio Hondo College of Whittier, California. During an accelerated schedule of fifteen months Mark's scholastic achievements in business administration with an accounting major have resulted in a 3.9 grade average for 72 college credit units at Rio Hondo. Mark also received the distinction of having been selected for participation in three scholarship awards programs, including the Annual Bank of America Community College Award, the Rotary International Scholarship Program and the Rio Hondo College Business Club scholarship. Mark placed first in the Bank of America scholarship awards and the Rio Hondo Business Club scholarship. Representing Rio Hondo College in the Rotary International scholarship, Mark placed second (first runner-up) out of a group of 800 finalists from southern California colleges.

Presently attending California State University in Los Angeles, Mark expects to graduate in June, 1974 with a B.S. in accounting at which time he will be eligible for CPA examination. Future plans include continuation of his education,

at least through the MBA degree, but at a more leisurely pace than the past and present undertaking.

Mark had worked for a large automobile leasing firm for 3 years as an accounting supervisor before deciding to continue his education, and readily admits that upon completion of high school his enthusiasm for school was at its lowest possible level. Like many high school students he felt that high school offered little challenge and mainly ignored the problem of boredom and the inability of students to prepare for a professional career without proper counseling. The real world of business is however an excellent place to quickly become aware of the need for professional training to permit a person with moderate ambition and capability to take full advantage of the virtually unlimited opportunities that exist in almost every field of endeavor. Mark's attitude about college is a far cry from the boredom he felt as a high school student, and is attributed he feels to the business-like environment of the schools he has had the good fortune to select.

Mark's grandparents say he often inquires about former friends and classmates at Burk Burnett High School and plans a vacation shortly after graduation, hoping to see some old friends.

SOMEWHERE
There is a man walking through a door that is marked "City Morgue." His son went "on a trip" and didn't come home last night.

There is a beautiful young woman whose marriage is "hanging by a thin thread" and is flirting with a man in a bar. She knows that this can destroy her fidelity.

A disturbed man is sitting in his bedroom holding a pistol in his hand, toying with the idea as to which is worse, hell on earth or an eternal hell.

A dedicated and tired doctor is shaking his head sadly and saying "terminal cancer."

A poor lost drunk is in a drunk tank sleeping it off with no hope for tomorrow.

AND a comfortable, self-satisfied contented "CHRISTIAN" (???) is lying in his king-size bed, yawning, and decides against going to Bible class and worship on this fine Lord's day morning because, after all, he really doesn't have too many things to be thankful for.

BENT HOOKS, MISSED SHOTS and OTHER TALES
by Jim Alexander

The Annual Wichita County Home Demonstration Council Day Camp was held at the Burkburnett Civic Center. There were more than 100 members and guests in attendance. The Recreation Committee, Mrs. Wesley Burton, Mrs. Lee Turner, Mrs. E.W. Roderick and Mrs. Bee Bryant not only planned the activities but they did much of the work preparing the center for the activities. Mrs. Johnny George, Council Chairman, was active in the planning and preparation for the Camp Day.

Mrs. W.E. Karstetter was recognized for being the member with the most years of club membership. Mrs. Karstetter has been a club member for 48 years. Mrs. Bee Bryant was recognized for her outstanding achievements and she was named the Outstanding Home Demonstration Club member. Mrs. Bryant has been a club member for 40 years in Wichita County.

It was a successful day and the activities were well planned and all the clubs participated in some way to make the day the success that it was.

Texas heat can't hurt sandwiches in a sack lunch if they are packed frozen. By noon they will be thawed, and the danger from holding several hours in the summer heat is lessened.

The best idea for sandwiches is to freeze them in individual bags. Since lettuce can't be frozen successfully, include it fresh in a separate bag, and let the luncheon assemble his own sandwich.

Another sack-lunch packing idea focuses on thermos equipment. A wide-mouth thermos keeps potato salad, jello or fruit salad cold. It also keeps soup, stew or a vegetable hot.

Fruits and vegetables usually posing no packing problem, but during hot August and September days they are more refreshing than corn and potato chips, especially if kept cold in a thermos.

Planning cool, crisp sack lunches for late-summer picnics and warm back-to-school days pays off in refreshment.

Ag Commissioner Gives Warning To Area Farmers

AUSTIN--Texas Agriculture Commissioner John C. White warns Northern Low Plains farmers to beware of unscrupulous buyers of grain sorghum this harvest season. Make sure you know your buyer," he cautioned.

"Unfortunately, every year we get reports of a few buyers making shady deals with farmers that can lead to a complete loss of profit for the farmer," Commissioner White said.

"Farmers who are going to sell their crop at the turn-row from unknown buyers should demand cash, or should make careful inquiry to see that the buyer's check will be honored," Commissioner White said.

With prices at good levels, it is imperative that farmers this year more than ever before, make certain they know the buyer of their grain sorghum, and take the time to make sure that what seems to be a legitimate deal is just that, White urges.

"It won't take but a few minutes to investigate the buyer, and that time can mean the difference between a good profit or no money at all from your grain sorghum crop this year," White said. "These men move with the harvest and reports are that they are moving throughout the state now."

Hot, dry weather can be a big pain in the eye for cattle. The reason is "pinkeye". Pinkeye is an infectious eye disease of cattle of all ages and breeds. However, younger animals under two years of age appear to be more susceptible than older ones.

The eye inflammation occurs most often in summer and fall and is greatly more prevalent in white-faced animals. Dry, dusty conditions, bright sunlight, feeding in tall grass and the presence of flies all tend to aggravate the condition.

The disease is caused primarily by a bacteria. The eyelids swell and a watery discharge increases and thickens. The white of the eye becomes inflamed and a white, gray spot appears near the center of the eye. This spot swells and later opens to form an ulcer.

Affected animals are sensitive to light and generally stand in shade. They lose weight quickly, suffer production decreases and may injure themselves because of temporary blindness.

Although the disease generally runs its course in two to four weeks without much damage, secondary bacteria often invades and can cause permanent blindness. Therefore, treatment is important as soon as a case of pinkeye is suspected. However, a veterinarian should be consulted to diagnose the condition before treatment is begun since some eye infections result from viral causes and will not respond to antibiotics.

Isolate affected animals as soon as possible and protect them from wind, dust and sunlight. Bathe the eye with a lukewarm, mild borax solution and dust with an antibiotic powder at least twice a day. This prevents a secondary infection and allows the eye to recover without complications. Eye patches also help shorten recovery time. Although no specific drug is available to treat pinkeye, injections of Vitamin A and a cortisone product have helped in some cases.

Cattlemen are advised to isolate for at least 60 days all new animals brought into the herd. Cattle that have recovered from pinkeye may still be capable of spreading it for some months.

The results of the 1973 small grain variety demonstrations have been determined.

These demonstrations were established on the Turner Farm, Punkin Center, and the Ralph Swinford Farm, Friberg-Cooper Community, Mr. Frank Morton farms the Swinford farm. These two demonstrations were planted on December 22 and December 29 which was late for planting small grain. The yields were low due to late planting, hail and strong wind. Many farmers in the county had higher yields.

Our high yielding wheats are: Tam W101, Caprock, Sturdy and Centurk. Our high yielding oats were: Nora, Coronado, Norwin and Arkwin. Our high yielding barleys are: Tamber 401, Rogers, Era and Kerr.

Horse owners who have not yet had their animals vaccinated against all three types of equine encephalomyelitis in 1973 should check with their local practicing veterinarians about a vaccination schedule.

An outbreak of a disease thought to be a form of equine encephalomyelitis has occurred recently in an area north of Beaumont near Slisbee and Lumberton. Seven horses have died thus far, and although a confirmed laboratory diagnosis is still not available, it is possible that the disease is a form of sleeping sickness.

Local veterinarians have sent samples of blood and tissue for diagnosis to the Texas Veterinary Medical Diagnostic Laboratory and to the National Animal Diagnostic Laboratory in Ames, Iowa.

Applications for a free elk in the Wichita Mountains Wildlife Refuge in Oklahoma will be accepted from September 1 to September 30. This hunt is open to all persons wishing to apply for the drawing to be held in October. The purpose of this regulated hunt is to reduce the size of the now 350 member herd. Texans are eligible for the hunt, and you may mail your application to: The Oklahoma Dept. of Wildlife Conservation, 1801 North Lincoln Blvd., Oklahoma City, Okla.

Include your name, address and intent to apply for a permit if your name is drawn. Fees for the licenses are as follows: \$10.00, and non-resident is \$25.00. I would like to encourage all big game hunter to consider this hunt. It would be a cheap hunt compared to having to travel to Colorado or other states, plus the fact the chances of the game spoiling would be practically none if properly taken care of. The cost of a hunt of this caliber would be in the \$50.00 range for everything.

Everyone seems to be ecology conscious, and I really admire everyone who does his part. While driving home on the freeway Monday afternoon I saw a young lady with a wheel barrow walking along the road picking up cans to be recycled. I stopped the car on the shoulder and watched for a while. Time dragged on, and soon it was dark, and a car stopped and loaded her wagon and cans. This really puzzled me, and made me rather proud of my generation. The next morning about 10 o'clock the young lady was back, only on the opposite side of the road. She was dressed in walking shorts, tennis shoes, and a big brimmed hat. I slowly drove past, and took a real close look. She had her head down toward the ground, but I thought I recognized her. When she lifted her head I saw that it was Sharon Greenroyd, the wife of my fishing buddy, Bill Greenroyd. I stopped and offered her a ride into town, which she declined. I then offered her a cold drink of water, or a red soda pop. She took the bottle of red pop and instead of drinking it, she put it in her lunch pail. I guess she saw my surprised face, because she explained that she was saving it for lunch. Sharon also explained that she had no time to rest and talk, because that was wasting time. I very reluctantly switched off my auto, and crawled out into the searing heat. As we walked along the freeway, Sharon began to tell me a story that was hard to believe.

"When Bill and I were married several years ago, his life long dream was to have a real fancy boat. Bill wanted a boat that was at least 18 feet long, it had to have 3 seats in it, complete with a 135 H.P. engine, depth finder, trolling motor, tarp, ice chest, tackle boxes, and a steering wheel. Bill Greenroyd had to have only the very finest," Sharon concluded.

"It seems every time our savings account would grow to almost \$4,000 something would happen and the money would have to be used for other emergencies. First the baby came along, and of course she had to be paid for. After the baby came we had to have a washer and a dryer, and then the hot water heater went out. Bill took the mumps and the hospital bills took his boat money. The radiator blew up on the car, and we had to buy a new set of tires. Back during the spring storms, the roof on the house had to be replaced, and

once again the purchase of a new boat was postponed," Sharon blurted out.

Bill decided that if he was ever going to get that new boat I would have to go to work. I wasn't really qualified for office work so Bill decided that picking up cans was better than nothing," Sharon explained to me.

"I want him to have that boat, and I love him very much. Bill is so good to me, and only last month he bought me a new pair of sandals," she said as she grinned with pride. "You are holding me up," Sharon quoted, "and there is a bass boat at the end of this freeway." I heard her say as she walked off.

I wonder how many fellows reading this have a wife as devoted as Bill Greenroyd. My wife would rebel at the thought of having to work and walk like that, and more than likely I would have to move my trusty roll-a-way out to the end of the driveway for even suggesting it. From this day on I want it to be known that Bill Greenroyd is a go-getter. He takes his wife to work, then he goes and gets her.

MARKET REPORT

Pork values are hard to find this week, says Mrs. Gwendolyn Clatt.

The consumer marketing information specialist, Texas Agricultural Extension Service, Texas A&M University System, attributed this situation to rising prices.

"Consumers also may find beef supplies more scarce--as a result of producers holding back livestock in anticipation of the Sept. 12 price freeze change.

"Nevertheless, most markets still offer some variety in cuts, with prices at ceiling levels. Chuck cuts, ground beef and beef liver generally provide the best values."

A good year for quail - This nest of quail eggs was found in an "odd area" on the James Hicks farm west of Burkburnett. A good cover of grasses and other plants is necessary for quail to nest. Such areas can be protected by fencing, if necessary, and should not be burned or mowed, especially during the nesting season.

Hunting Safety Courses Are Rising In Importance

Hunter Safety training for the state's youngsters is becoming of increasing importance and Parks and Wildlife Department Executive Director Clayton Garrison announces the adoption of a new commission policy on the hunter safety training program.

Hunter Safety Coordinator T.D. Carroll has released some of the major contents and guidelines of the policy.

"We are embarking on a program," said Carroll, "which utilizes the expertise of the department's Information-Education division, law enforcement personnel and the some 1,000 volunteer hunter safety instructors across the state."

The department's law enforcement administrators have actively sought a larger role in the program.

"After instructional materials are distributed to district Parks and Wildlife Department offices," said Carroll, "district law enforcement supervisors and game wardens will assume a more responsible and active role. Each warden will see that at least one hunter safety training class is held each month in his county."

Also, the supervisors will schedule training sessions for the wardens and local volunteers to keep the instructors up-to-date, standardize and upgrade the quality of instruction and stimulate inactive instructors to participate in the program.

"Of the 1,000 volunteer instructors in Texas," said Carroll, "only 22 percent of them have been responsible for the 3,552 students certified as safe hunters."

"We hope that our new program will prompt them all to join in the effort of getting as many youngsters as possible into hunter safety training," Carroll pointed out that the volunteer instructor is the backbone of the program and the key to its success.

The Texas Hunter Safety program is open to all youngsters 12 years of age or older. District law enforcement offices maintain lists of instructors in local areas.

A one-dollar registration fee is charged for each student enrolled.

This flathead catfish weighing 13 pounds, 8 ounces was caught by Mike Penn, 14-year-old son of Mr. and Mrs. Bill W. Penn, 600 Park Street. The catfish was caught drift fishing on Lake Arrowhead.

Clay County Queen Contest Entries Open

The Clay County Pioneers' Association rodeo queen contest entries are now being accepted at the Henrietta Chamber of Commerce, and the First National Banks at Byers and Henrietta.

This year's rodeo celebration is set for September 13-15 in conjunction with the Clay County Centennial observance. To be eligible to enter, a young lady must be unmarried and between the ages of 14 and 21. Each entry must be sponsored by a club, organization or individual. Judging for the contest will be accounted for on 50 per cent on horsemanship, 30 per cent on appearance and 20 per cent on personality.

The girls will make their first official appearance in the cowboy parade to be held at 4 p.m. September 13 in Henrietta. At 5:15 p.m. on September 13, a dinner honoring the rodeo queen contestants and former rodeo queens will be held at the Pioneers' Building at the Clay Pioneers' Grounds. At that night's performance, the queen candidates are to ride in the grand entry at the Tex Rickard Arena. The winner will be announced at the Friday night performance. Queen contestants will also ride in the September 14 and 15 float parades through downtown Henrietta.

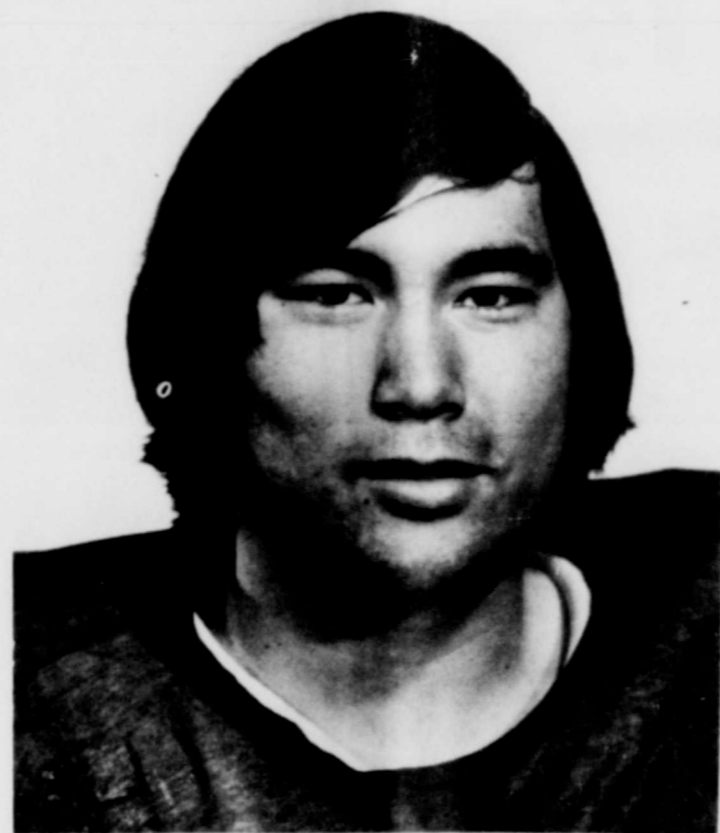

The 1972-73 rodeo queen, Mrs. Darwin Maddox of Stanfield, the former Miss Sue Crain is to lead the candidates in the first two parades. On the final day, the 1973-74 queen will be in the lead position.

Drake Andarakes

Drake On 'Sooner' Team

Burkburnett's Drake Andarakes was among 110 football players who reported to the University of Oklahoma's first fall practice August 21.

The Sooners open their season Sept. 15 at Baylor.

Andarakes, a junior, took part in photo day Monday, August 20. Players underwent physical examinations that day and began two-a-day practices Tuesday. Andarakes finished spring practice at second left tackle in the offensive line. His good size and speed make him a contender for a starting berth this fall. The 6-4, 240 pounder is one of the better pass protectors in Oklahoma's line. A 1970 graduate of Burkburnett High School, Andarakes lettered in football for three years and tack and baseball for two years. He was co-captain of his high school football team

Burkburnett Riding Club Wins At Area Rodeo Parade Contests

by Bobbie Klinkerman
I felt it was time I was filling you in on some of the activities that the Riding Club has been participating in the past two months.

We have attended several area rodeos and parades. We took second place in the Electra parade, second place in the Walters parade and third place in the Headton parade. Our club was highly represented at the Regional finals held August 11 and 12th in Frederick, Okla.

You have to ride in all district playdays and earn points to qualify. The first 5 people in the district with the highest points in their division get to go to regionals. At regional finals the first 5 people in each division get to go to National Finals. At regional Finals this year there were over 1000 people participating.

Those who qualified to go to Regional Finals from the Burkburnett Club are: KEYHOLE: Cindy Hoover, Starla Brown, Terry Holly, Patrick Perkins, Michel Perkins, Jan Klinkerman, Joy Klinkerman, Donna Klinkerman, Dennis Douglas, Janey Roberts, Phillis Klinkerman, Bobbie Klinkerman, Dee Cox, Elmer Klinkerman.

Members of the Boomtowners Chapter of National Campers and Hikers Association spent the weekend at Martin Landing in Lake Murray State Park near Ardmore, Okla. The group enjoyed various activities such as fishing, boating, hiking and just resting in the shade of the giant sized Oak trees.

Saturday night activities included the making of gallons of ice cream and playing games. A Sunday morning devotional service was led by A. J. Reynolds, who spoke about "Forgiving" and used the parable of the Prodigal son as illustration. Cold cuts and salads were the menu for lunch before members started the homeward trip.

Attending the camp out were: Bill and Ruth Halsey, Nelson and Estelline Boyle, S.T. Corder, Herman and Leona Miller, Bo and Patsy Montgomery, Jo Lynn and Johnny; Jack and Jo Ann Hall, Earl and Brian, A.J. and Gene Reynolds, Hubert and Davie Bromley, Reavis and Ruby Wooten, Russell and Ruby Nalls and Julie.

If you like the idea of putting your hobby to work, you'll like the Army Reserve.
