## GRIDIRON KICKS OFF IN DESOTO FRIDAY

SCRIMMAGES PREPARE BULLDOGS FOR 1973 GRIDIRON SEASON

The Burk Burnett Bulldogs really get into the swing of things this Friday night with their first game of the 1973 Gridiron season. The "Dogs" travel to DeSoto to flail the Eagles. Kick-off time is 8:00 p.m. in the Eagle Stadium.

Under the excellent and power provoking leadership of head coach, Pat Smiley, the only way for the Bulldogs is to win. Smiley will only have three starters back from last year's 10-3 Class AAA semifinalists. Working with these players to keep the spirit of winning alive from last year, will be basis for the winning habit picked up from last season.

Last year's winning will hopefully have created some tradition the players will work even harder to maintain. One of the three returning starters this year is halfback, Zac Henderson. He will be carrying quite a load, as the breakaway man for Burk's land attack. Smiley plans much heavy duty for this 180 pound speedster this year.

This year's guiding of the attacks will fall heavily on the shoulders of quarterback, Benny Wilkerson. Last year he started as defensive safety. His ability seems to lie as a running quarterback. Charlie Slayden at fullback and Tommy Rushing at wingback, round out the Bulldog backfield. Both saw spotted action during last season.

## Father Fisher Receives Burk Burnett Appointment

Clergy changes for several parishes in the Roman Catholic Diocese of Fort Worth were announced recently by Bishop John J. Cassata.

The assignments include the appointment of Father Harry Fisher as pastor of Saint Jude Thaddeus in Burk Burnett. Father Richard Beaumont, former administrator of the Burk parish, was named assistant pastor of Sacred Heart Church, Wichita Falls.

Father Fisher is a native of Munster, Texas and attended Sacred Heart Elementary and High School there. He entered Saint Mary's College, St. Mary, Kentucky after serving in the armed forces in World War II.

He continued his studies at St. Bernard's in Cullman, Alabama and St. Maur's Priory in South Union, Kentucky.

Father Fisher was ordained to the priesthood at Sacred Heart Cathedral, Dallas, on May 30, 1964 by Bishop Thomas K. Gorman. He served as assistant at St. Mary's, Gainesville; Sacred Heart, Wichita Falls; Holy Family, St. George's and St. Rita's, Fort Worth, Texas.

Appointments of Father Fisher and Father Beaumont became effective August 27 and Father Fisher is now in residence at the rectory of St. Jude Church, 600 Davey Drive, Burk Burnett.

is one of those players you can stick in anywhere and expect the job done right. Todd adds some authority to the team as a strong linebacker.

Size isn't where Burk is hurting, it's in the amount of experience on the field. This should be remedied before the team starts the 4-AAA warfare. Tackle, Rusty Barrett (230) is the lone Bulldog of the forward unit who will be returning. Another experienced player, Robert Chaney will be joining Barrett. Chaney saw quite a bit of action last year and had made the starting lineup late in the district playing when he was injured.

Phillip January and Jimmy Davis from the junior varsity, will be shooting for spots on the starting lineup.

Football fans have much to look forward to this season. Let's get out and give these boys the support they deserve. Remember game time is 8:00 p.m. in DeSoto.

## FARMERS PLAGUED AGAIN

The farmer seems to be under the influence of some curse that seemingly just won't let go. It began with a drought, but where will it end, they are asking.

Most recent plague, the shortage of baling wire, would

have been enough. No such luck. There is now a marked shortage of fertilizer, both dry and liquid.

The industry is claiming shortages in vital ingredients for the mixtures. There seems to be no relief in sight either.

Local retailers state flatly, "We don't have any and don't see much prospect of getting any."

Some of the liquid anhydrous ammonia is being brought in. One dealer informed us that last year at this time he was

getting a load of the fertilizer a day, but he is now receiving only one load a week.

The dry fertilizer situation is critical. Any that comes in locally can be assured of being sold. Dealers have been promised deliveries, and then had them canceled. The fertilizer status isn't the dealers' fault. They are constantly working to provide needed materials for the farmer, but their hands are tied.

Black market sales of the fertilizer hasn't been started yet. These dealers can't even get hold of the material.

In the past couple of years, the many hazards faced daily by the farmers have come to the surface for the populace to take note of. Maybe it will create a greater understanding and make us all not be so quick to take things for granted.

The Galley has moved! Owner, Carl Sjolín, held open house last Thursday at 224 East 3rd, new location for The Galley. Chamber of Commerce members were on hand to give congratulations and to admire the new equipment in the print shop.

## Chamber Slates Luncheon For Monday Noon

The Burk Burnett Chamber of Commerce will hold their monthly luncheon Monday at the Burk Civic Center. All Chamber members are urged to attend and lend their support at these meetings.

The program for this month is brought by the Special Affairs Committee. Jim Frye is committee chairman.

Mr. James Pearson, Superintendent of the Burk Burnett Schools will be bringing the program on the Burk Burnett School System for this year. He will introduce each of the school principals in the system. They in turn will talk on their respective school. The enrollment, number of classes, teachers and programs for the year will be the basis for their talks. Those to speak are: Bill Darland, high school; Carl Dixon, junior high school; Overton Ray, Hardin Elementary; Bill Weathered, Southside Elementary; and Stan Owen, Sheppard-Burk Elementary.

Again it is urged that Chamber members take part in these monthly luncheons.

## Fabrific Announces, New Manager Hired

The Burk Burnett Business District is happy to welcome Mrs. Jerry Shirley as the new manager of the FABRIFIC.

The Shirley's reside at 1008 Rosebud and have lived in Burk Burnett since 1963. They have two daughters, Sheila, 14 and Jeanne, 12, both students in the Burk Burnett School District.

Mrs. Shirley had worked before in the FABRIFIC Store last year, so many will already be acquainted with her. She takes this opportunity to invite all friends to stop by and browse and shop with them.

FABRIFIC is a part of a

chain of such stores, with main offices located in Dallas. It is a part of Cot International.

"We have an excellent selection of Knits, and more are arriving here daily," Mrs. Shirley stated. "FABRIFIC also handles a complete line of notions and trims. You can be sure you can find the pattern just right for your particular needs from their patterns by Simplicity and Butterick."

Aside from Mrs. Shirley, those there to aid you in making that fabric choice are Mrs. Louise Looney and Mrs. Mildred Mahaffey.

Joe Jeneke, president of the Burk Burnett Rotary Club presented Rocky Griffin with a \$150 Scholarship this past week. The scholarship will be for the first semester of his studies at Vernon Regional Junior College. The Club gives \$300 in scholarships each year for deserving students entering college.

JAMES PEARSON AND GARY BEAN

**Bean Presents Program For Evening Lions**

At last week's Tuesday evening meeting of the Burkburnett Lions Club, thirty-five members and visitors were in attendance.

Superintendent of Public Schools, Lion James Pearson, introduced City Manager Gary Bean as speaker for the occasion. Gary chose to deal with the subject, "Our dealings with Wichita Falls in securing water through negotiations." It is agreed that many long discussions of give and take finally did result in a most satisfactory and profitable agreement for both communities.

Bean also told of the obtaining of an expert City Engineer, which the City of Burkburnett has hired; namely, Col. Drake. Burkburnett has had the need for such an engineer for some time now.

In the rapid and sound growth of Burkburnett, Bean has proved himself a most capable and dedicated City Manager and is doing a really good job to make the most profitable and responsible decisions for Burkburnett.

Much appreciation was shown for Gary and a big thanks given for his fine leadership in the community.

**SIT DOWN, BUCKLE UP, START**

That's the message the American Automobile Association says every prospective buyer of new 1974 automobiles will get. For translated, it reads that no 1974 model car can be started unless front seat occupants are belted in after they are seated.

The Department of Transportation is requiring the new system called the "safety belt starter interlock," because it feels that current belt buzzer and warning light devices have not convinced enough Americans to wear seat belts. The auto industry estimates that the interlock system will add \$50 to the cost of each vehicle.

The center front seat, if there is one, will not be part of the interlock system in some 1974 models.

While some car owners may not be happy with the new requirement, AAA says they're at least apt to be pleased with the improved design of the 1974 belts themselves.

Lap and shoulder belts have been brought together in one unit, so they can be secured in a single "buckle up" motion. Anchorage placement has also been improved to make shoulder belts more comfortable and easy to use. And in most systems, the belt is stored so that it is readily available in a convenient location and won't become snarled.

But AAA says by far the most advanced feature of the 1974 shoulder belts is the use of "retractor reels" that allow freedom of movement by the wearer, except in a panic stop or crash situation.

Most of the retractor systems are "vehicle sensitive," or activated by the sudden deceleration of the vehicle. Other systems employ "belt sensitive" retractors, which allow freedom of movement until a rapid or sudden pull on the belt occurs.

AAA points out, however, that the buzzer warning light system won't be dispensed with the 1974 cars. If belts are unbuckled once the car is started, and the driver or passenger remains seated, the engine power assist system (brakes, steering, etc.) won't be affected, but the warning light and buzzer will operate until belts are buckled.

If a driver starts his car on a cold morning, and then gets out to clean ice from the windshield, the ignition will not shut off, but the buzzer and light system will remind him to buckle up again.

Another practical consideration involves parking garages. In most instances, the attendants won't have to buckle up in order to start the car after the owner has shut off the engine--if he doesn't wait too long before getting into the car. In all but a few models, carmakers have built a "delay" (up to three minutes) into the interlock system that allows the vehicles to be re-started without the driver having to re-fasten the belts after the ignition has been turned off.

AAA says motorists should also bear in mind that if packages placed on the front seat are heavy enough to "convince" the interlock system that a passenger is seated there, the car won't start. This means groceries and similar packages should be placed on the floor, or in the back seat or car trunk.

Trying to circumvent the ignition-interlock system will only cause headaches, according to AAA.

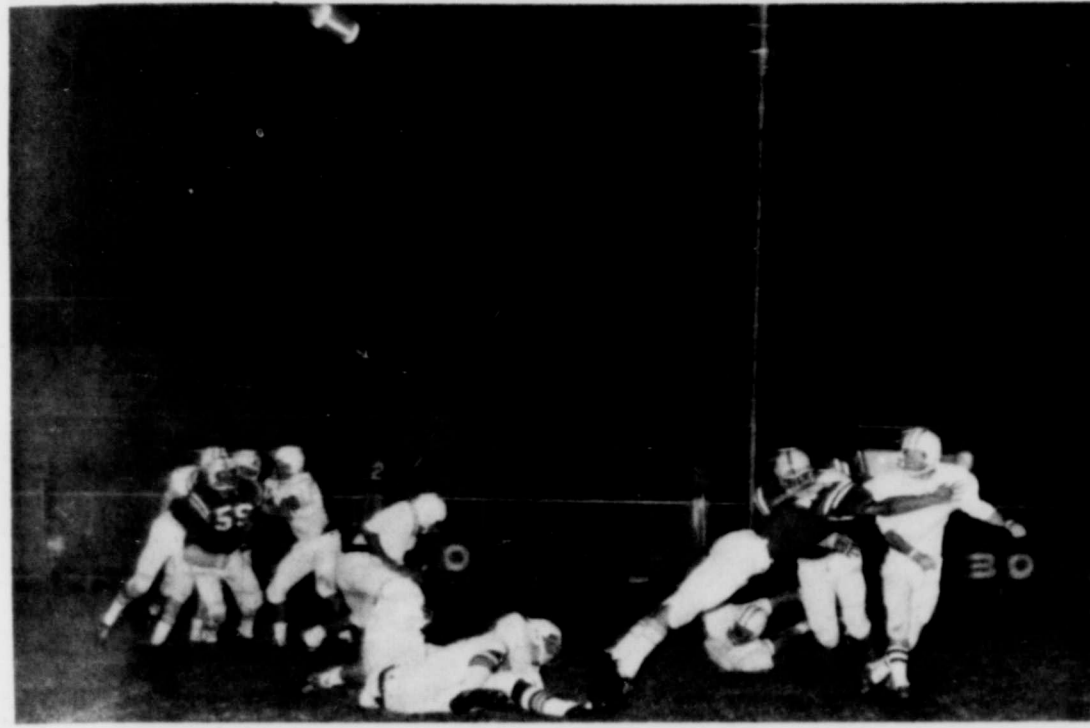

Automakers advise that any tampering with the interlock system could damage other parts of the car's electrical system, to which they are linked. Moreover, AAA points out that any evidence of tampering could affect warranty service if the system should need repair.

Federal law prohibits any manufacturer or his dealer from disconnecting any safety system before selling a new vehicle, and there is growing support for a similar ban applicable to used cars.

How is the prospective car buyer protected against any problems with the interlock system? AAA says it will be subject to warranty provisions specified by the automakers and also the same Federal scrutiny--and defect determinations if safety-related defects are found--to which all vehicles and their components are subject.

If a motorist cannot start his car after following the correct "sit down-buckle up-turn the key" sequence, or if he suspects the interlock is causing difficulty in starting his engine, he should be able to receive prompt servicing of the system because in all cases, manufacturers have issued service and repair instructions to their dealers.

AAA reports that some manufacturers expect a three per cent malfunction rate in the interlock systems; that is, a start-up failure may occur during a car's lifetime in three out of 100 interlocks.

JIMMY KOULOVATOS RELEASES BOMB AGAINST COYOTES

**JANLEE CELEBRATES 11TH ANNIVERSARY**

On Sunday, September 9th, Janlee will celebrate its eleventh anniversary. Buses will leave the church at three o'clock to take members (and any others wishing to join the fun) to Chaparral Baptist Assembly. Volleyball, football, putt-putt golf, and canoeing will be enjoyed by all with a picnic following. The guest speaker for this occasion will be Jim Hill, associated with the Rio Grande River Ministry, followed by a time of singing.

In 1960, Mr. and Mrs. Gene Robertson gave three acres of land for the purpose of building a church in the Janlee Addition of Burkburnett. The first services of Janlee, Extension of First Baptist Church, were held on August 6, 1961, with about 250 people attending. The name Janlee was derived from the names of the Robertsons' two daughters, Jan and Lee.

On September 9, 1962, Janlee organized itself into a self-supporting church. A deacon expressed each member's feelings when he said: "Tonight, for the best interests of the Kingdom of God, I believe we should permit Janlee Mission to become a self-supporting church. Then let all be bonded together with the love of Christ and let our chief concern be the salvation of lost souls."

Today, the chief concern of Janlee is still the salvation of lost souls. Two buses run each Sunday bringing children to Sunday School. A Morning Worship is held each Tuesday and Thursday mornings for high school students. Sunday School, Church Training, W.M.U., Church Choir, Wednesday night visitation, and worship services provide opportunities for Christian growth and outreach. And, under the guidance of the Lord, Janlee will continue to grow.

**Beef Still In Stock At Sheppard Thanks To An Exempt Supplier**

SHEPPARD AFB, TEXAS--Beef returned to the shelves of the Sheppard commissary Friday after a supplier was found who was exempt from the price freeze.

Approximately a week's supply of beef is at Sheppard, ending a three-week absence of the hard-to-find commodity. It was purchased from the Laredo Packing Company of Laredo, Texas; a firm exempt from the beef price freeze because Laredo has been deemed an economically depressed area.

There are, however, two facts which will temper this good news for Sheppard shoppers.

The first is that the beef will be rationed; families will be restricted to nine packages of beef, four of which may be steaks or roasts.

The other is that prices are high. The prices of six months ago are still far away.

However, it appears that Sheppard will now be able to stock beef until the end of the freeze. At that time, beef will probably be purchased from local firms, and because of the shorter shipping distance, their prices may be slightly lower.

Regarding the quality of the new beef, though, Major Alfonso King, chief of Sheppard's Services Division, said that it is among the best he has ever seen.

**Prison Rodeo Set In Oct.**

Huntsville-- Chute-doggin' - an event where convict cowboys will be required to take a young steer, using only one hand and a rope, to a designated spot in front of the chute gate to throw and tie the head of the stock--has been added to an already action-packed 42nd annual Texas Prison Rodeo scheduled for each Sunday in October.

"It promises to be one of our most exciting events," forecasts E.H. (Hoot) Crawford, rodeo arena director.

And for the second year, the Gorie Cowgirls will perform at the annual rodeo. The Gorie Cowgirls stole the hearts of rodeo fans last year in their initial prison rodeo appearance while participating in the calf tussle, pig-sacking contest, and the donkey barrel race.

The 1973 rodeo--getting underway at 2 p.m. each October Sunday with the grand entry parade--will feature 40 convict cowboys contesting for the coveted all-around top hand title. Thirty-nine of these cowboys will be trying to wrestle the title away from the current champ, Harry Southerland of Ft. Worth.

Southerland owns back-to-back titles and will be shooting for three in a row--a feat accomplished only once before in the history of the prison rodeo.

The cowboys participate in saddle bronc riding, bull riding, bareback riding, a mad scramble 60 riders on 10 bulls coming out of the chute gates at the same time, and a wild horse race that has 10 three-man teams attempting to catch, saddle, mount and ride to a designated finish line for top money.

The redshirts, a group of 40 inmates divided into two-man teams, will vie in the wild-cow milking contest event, and will participate individually in the Hard Money event. Hard Money involves the contestants trying to grab a Bull Durham-size sack from between a bull's horns. Hard Money is held twice each Sunday with the sacks being worth \$50 and \$25.

Country western music will add to the rodeo when inmate recording stars and bands swing out for the midway show beginning at 9 a.m., and the pre-rodeo arena show at 12:30.

Ticket information may be received by writing to the Rodeo Ticket Office, Box 99, Huntsville, Texas, 77340, Foley's in Houston or Sears stores throughout Texas and Louisiana.

## Chapter of Barber Shop Singers Moves To Burk

The TOP-O-Texas Chapter of The Society For The Preservation and Encouragement of Barber Shop Quartet Singing of America (S.P.E.B.S.Q.S.A.) is moving to Burkburnett.

The first meeting of the singing hobby group is on Thursday, September 13, at 8:00 p.m. at the Community Room of the Burkburnett Bank.

This group of singing enthusiasts has been meeting in Wichita Falls since their charter was presented in 1949. There are several Burk residents who are members at the present time. The decision to move to Burkburnett was a unanimous one by the board of directors.

S.P.E.B.S.Q.S.A. is chartered by the U.S. Government as a charitable non-profit organization comprised of members from all walks of life including a number of professionals from the world of entertainment, as well as military and government, including some U.S. Senators and Representatives.

The organization was founded in a hotel in Tulsa, Oklahoma in 1934, by two men who began discussing the demise of harmony in song. From that first meeting of about 35 men who attended, the Society now consists of 35,000 members with chapters in all states; Alaska,

Hawaii and Canada and five chapters in England.

The music sung by this group is usually old songs familiar to all ages; is sung A-cappella and consists of a melody line with 3 parts harmony.

The Society adopted as its charitable recipient, in 1963 the Institute of Logopedics in Wichita, Kansas, a treatment center for children with brain injury and other forms of speech and hearing problems.

Since adopting the Institute, the membership of the Society has donated over \$1,000,000 to its support. From this charitable endeavor arrives the S.P.E.B.S.Q.S.A. slogan, "We Sing That They Shall Speak".

Any male, high school age and up is invited to the meeting at 8:00 p.m. on Sept. 13 in the Community Room, and is welcome at any regular meeting. The group is presently seeking a permanent meeting place in Burkburnett.

**BENT HOOKS, MISSED SHOTS and OTHER TALES**  
by Jim Alexander

Dove season opened with a bang this past weekend, and as predicted, the hunting was spotty, but some real good reports came in. We had reports of hunters being shot, being shot at, of hunters doing the shooting, sunburned faces, chiggers by the gillion, hunters passing out from the heat, scratched backs from crawling under fences, black and blue shoulders, broken noses from shotgun recoils and other reasons. One man even reported a lost mother-in-law.

The best story concerning revenge comes from Ed Oglesby. Bill Naylor, a fair weather friend of Ed's and mine, knows what it's like to have the tables turned on him. Every year for the past 25, Bill has always had Ed load his shotgun shells for him. Ed normally ends up paying for hulls, shots, wads, primers and powder. Bill never takes the time to blow the feathers from the empty's. This only takes a few minutes, but Bill says that anyone that takes care of him has to do it all the way.

Three weeks ago Bill backed his pickup truck up to Ed's garage and unloaded about 5,000 empty hulls, feathers and all. Ed pleaded with him to blow the feathers from them, but no, Bill would not do it. In fact, Bill got very angry about the suggestion, and drove off in a huff shouting "That he would take his business elsewhere." As Ed stood in his driveway watching Bill's pickup disappear, he decided that this was the year to break Bill from sucking eggs. Ed very reluctantly stored all components in the shell room, and calmly went about his business.

This past Saturday at 12:00 noon, the Texas Mourning Dove season opened, and Bill Naylor was on hand dressed fit to kill. Bill really did look like he had just walked out of a fashion show with his trim, narrow brimmed hat pulled low over his eyes. He had the brightest red and white polka-dot shirt with a yellow scarf around the neck that you've ever seen. Tan hunting pants and a pair of black and white hunting boots rounded out the wardrobe. Bill was parading in front of all of the other hunters that had gathered at the Cleatus Wolf Farm near Wadsworth for the day's hunt. Bill had criticized everyone present for the way they were dressed. He laughed at everyone's favorite hunting hats, and rundown boots. In fact, he was the life of the party.

Bill soon tired of this game, and left for his pickup to get his gear for the afternoon hunt. Once completely dressed, com-

plete with shooting vest and his trusty over and under 12 gauge shotgun, Bill left for the feed field for what he called, "A few minutes of pleasure". No sooner had Bill set down, when from the north came the first fast flying dove of the 1973-74 season. Bill saw the bird first and informed everyone that he would open the hunt with the first clean kill. Bill fired at 20 yards, and never in my life have I heard such a loud shot, nor have I ever seen so many feathers. The recoil from the gun had knocked Bill to the ground. "I got him," he screamed as he rose from the ground and began running to where he thought the bird fell. After searching for several minutes, Bill gave him up as a "lost bird", and returned to hunting.

Throughout the afternoon Bill would shoot, feathers would fly, Bill would be knocked to the ground. After a while, Naylor realized that everyone was watching him, so he moved to the far end of the field. I could hear Bill shoot, then cuss,

shoot, then cuss. Bill knew that he was killing the birds, because he could see the feathers fly, but could not find them. He would shoot, look for the bird, then cuss. Late in the afternoon Bill had just stood about all that he could stand, so he slipped off into the trees and set up some beer cans to pattern his gun, and the shooting continued.

It was after 9:30 p.m. when Bill slipped into camp with the most disgusted look on his face that you ever saw. Bill had shot 2 1/2 cases of shells at doves, beer cans, fence posts, tank dams, oil batteries and he even admitted that he had taken a shot at Oglesby, but to no avail. He had not killed a bird nor did any of the targets have a pellet mark on it. Ed Oglesby had loaded all of Bill's shells with feathers. Not a single shell had a B-B in it. As Bill set on the running board of his pickup crying, I heard Oglesby say, "How sweet revenge is, Bill Naylor will never bother me again!"

Tips for using electricity efficiently:

## Use oven heat for all its worth.

There's many a time when you can make your oven do double duty. When you plan to use it to cook meat or a dessert, you can make more efficient use of the heat by cooking an entire meal in the oven.

Simply choose foods that cook at the same temperature. One good example would be a meatloaf, baked potatoes, frozen peas or broccoli in a covered casserole, and a fruit cobbler. There! You'll have cooked a well-balanced meal without once having used a surface unit. And our home economists can suggest others.

Here are some other efficiency tips you may find helpful. Reduce the cooking time for frozen meats by thawing them properly. For best baking results, pre-heat your oven just long enough to obtain the necessary cooking temperature. For broiling or roasting, do not pre-heat, but start with a cold oven. If there's a delay in serving the meal after it's cooked, a temperature setting of 150 degrees will keep food warm without cooking it further.

It's our job at Texas Electric to help you get the most value from your electric service. Call us when you have questions about cooking or any other use of electricity.

Home Demonstration Council will meet September 11 at 1:30 p.m. in the commissioner's court room in the county court house.

There will be a men's sportcoat shortcourse in Electra on September 13, 14 and 17 from 9 to 12 noon in the Community Center.

Lint is a natural by-product of all laundering, but whether or not it clings to clothes may depend on the homemaker.

Normally, lint flows down the drain or collects on lint filters built into most of today's washers and dryers.

When it persistently clings to freshly laundered clothes, the homemaker should check laundering procedures. Five major factors cause clinging lint - improper sorting of laundry, too little detergent, insufficient water, overloading washer and dryer, and over-drying.

Concentrate on these areas to overcome lint problems:  
--Check lint filters. For peak efficiency, clean filters after each wash and dry load.  
--Examine sorting procedures. Separate lint "givers", towels and flannel pajamas--from lint "attractors", such as linens, corduroys, dark cottons, man-made fabrics and durable press garments. Also, launder heavy linters such as chenille bedspreads, alone. Turning lint holders inside out may help too.

--Use proper amount of detergent. Detergents increase the wetting of fabric surfaces. If too little is used, wetting action is reduced and lint adheres more readily. Proportion detergent to type of machine, water hardness, load size and degree of soil.  
--Don't overload. Loading too many clothes into a washer

inhibits free movement of clothes--which normally flushes lint from fabric. Check instruction booklet to determine recommended load size and water level.

--Avoid overdrying. When overdried, man-made fabrics magnetically draw lint due to static buildup. Correct timing and use of fabric softener help eliminate this problem.

In addition, certain durable press and synthetic fibers--such as polyesters and acrylics--tend to "pull".

Billing--formation of small balls on fabric surfaces--stems from abrasion in normal wear. Lint adheres to pilled surfaces and is extremely difficult to remove.

To remove lint, brush fabric carefully with a stiff bristled brush for best results.

There will be a men's sportcoat shortcourse held in Electra September 13, 14, and 17, at the Community Center from 9 to 12 noon.

The course will cover construction of an entire jacket. The course is open to everyone and there will be no charge as it is a part of the education program of the Texas Agricultural Extension Service.

The students don't need to bring anything to sew on for the course as the instructions and demonstrations will be given by the agent. Whether the student makes a coat now or later will be up to her.

# SCOUTS END SUMMER PROGRAM

Scout Troop 158 culminated a full summer training program Monday night at Janlee Baptist Church with a Court of Honor. Mr. Art Markowitz, Scoutmaster, briefed those in attendance on the summer training program for the scouts.

Twelve of Troop 158's fifteen scouts attended the Scout Camp at Perkins Scout Reservation during the month of June. Numerous merit badges were completed by each scout and many completed requirements for their next step in rank. The Troop placed overall First Place in Scout Camp Craft Skills. They also set an all time camp record for Cross Saw Relay and Tent Pitching.

A conservation project was completed prior to departing for camp. The scouts constructed check dams along the road and above the camp sites to prevent water run-off damage. A follow-up project during the camp week consisted of the scouts cleaning up Gilbert Creek leading into Perkins Reservation.

During the month of July the troop drove to the Wilderness Camp Site at Bowie for a Fun Campout where they enjoyed canoeing and fishing.

The month of August saw all scouts of First Class or higher on a combination canoe trip and back pack hike. Scouts below First Class met and completed the back pack hike with

the older scouts. Then Monday night the scouts received various awards, badges and investiture to offices in reward for their outstanding work.

The Court of Honor was opened by Mr. Rufus Tugman with a welcome and prayer. The Scout Investiture Service was impressive as nine new scouts were welcomed into the troop. Scoutmaster Art Markowitz explained the Scout Law to the new scouts as he lit twelve candles placed in a log. Mark Davis, Ron Davis, Terry Jamison, Steve Latour, Mike New, Pat New, Duane Robinson, Paul Wein and Rick Wein raised their hands in salute and repeated the Scout Oath.

Following was presentation of Tenderfoot Awards to Ron Davis, Steve Latour, Pat New and Paul Wein.

Next Gary Hilton, Matt Milam and Terry Robinson were presented their First Class Scout Awards and in turn pinned an award on their mothers.

Completing the awards was the presentation of LIFE Scouting Award to Steve Robinson and he also pinned his mother.

The following Merit Badges were presented to each scout for completing training in each listed area: Ron Davis: Personal Fitness and Archery; Carl Hilton: Citizenship in Community; Gary Hilton: Personal Fit-

ness and Archery; Steve Latour: Photography; Mark Milam: General Science and Environmental Science.

Matt Milam: General Science and Personal Fitness; Pat New: Swimming, Citizenship in Community and Personal Fitness; Dennis Rivard: Personal Fitness, Archery, General Science, Model Design and Art; Steve Robinson: Personal Fitness and General Science.

Scoutmaster Art Markowitz presented an Honor Patrol Award Plaque to both the Elk and Pirates Patrol for their accomplishments during the past year.

Throughout the past year at each troop meeting the scouts

voted on who, in their opinion, had lived the best example of scouting in the past week. All votes were tallied and the Honor Scout Plaque was presented to Mike Milam.

Special thanks were given to Mrs. Applin, Mrs. Latour, Mr. Creekmore and Mr. Tugman for their assistance in scouting projects during the past year.

The following committee members assisted throughout the services: Committee Chairman: Rufus Tugman; Treasurer: Don Rickels; Institutional Representative: Roland

Creekmore; Assistant Scoutmaster: George Lindsay and Rev. Wayne Glazener, Pastor, Janlee Baptist Church.

Benediction was pronounced by Rev. Glazener and refreshments were served to all attending following the services.

MAD AS AN OLD WET HEN!  
This may sound rather "country," but have you ever been flogged by an old wet hen? Don't! When I was a boy visiting Grandma one of the most awesome sights a boy could lay his eyes on was the bold strutting rooster... But the old rooster would seem slightly subdued compared to the anger that can be generated by an old wet hen...  
I am sorry to say, there are some folk who rival the proverbial hen when it comes to anger. One fitful explosion follows another until you are convinced that it must be the war in Viet Nam all back in force again.  
ANYTHING WILL TRIGGER THEIR RAGE:  
... he's got to have his way,  
... success of others,  
... criticism,  
... tied up traffic  
... baby's cry, etc.  
The man who is mad as an old wet hen is a fool. Solomon said: "Be not hasty in thy spirit to be angry; for anger resteth in the bosom of fools." (Ecclesiastes 7:9)

by JIM HILL

Hello, hello . . . this is Oie Hill again, taking another "ride" through Hill Country! Hey, buddy Darrell, I noticed a couple of buttons popped off your vest, thanks to daughter Susan Nickols! For those who might not know, thirteen-year-old Susan won the Texas Teen Olympics medal in vocal competition and took second place honors in the novelty act competition. Good goin' Sue!

If you ever take in some of the western-time events such as the Santa Rosa Rodeo or any of the "pony express" races in Vernon and find yourself really having a good time say "Thanks" to the American Association of Sheriffs' Posse and Riding Club.

The Association presented championship POLO September first thru the third plus an open rodeo September sixth thru the eighth. National Playday Finals later this month, the 22nd and 23rd. Something everyone should see, the Pony Express Finals are set for the fifteenth thru the 21st! If you have never seen pony express racing, well, it's hard to describe in words all the action, thrills and chills! Those guys and gals, yes I said gals, are out there riding hard, fast and furious to win! It's fun and it's not too far away to travel to Vernon for some of these "cowboy capers".

I'm listening to the phone hoping that it'll ring and YOU will be on the other end wanting to tell me about some of the goings on that your club, church or group is involved in. Something that you want other folks to know about and participate in and be entertained. 322-3127 is that telephone number for you to call and fill me in on what's happening. OK?

You know, I was thinking about the people and work that is involved in putting together the Clay County celebration. These good folks in Henrietta, Byers, Vashti, Bluegrove, all have worked hard and long to put together a show and a half for everyone to enjoy. During the celebration of their one hundredth birthday there will be lots of parades, rodeo excitement and the big production of "Rawhide and Ruffles", a musical history of Clay County. All the fun starts on September 8th and then again on the 12th through the 15th in Henrietta. You all come down and have a good time!

Here's something that I got in the mail recently that seems rather interesting, the first annual Cowboy Campfire Cook-Off! It'll be held in Abilene on October 13th and 14th and competition will be in two categories: professionals, those who cook for a living; and amateur, those who cook for pleasure and derive no major in-

come from it. Ace Reid, creator of the Cowpokes cartoons will be one of the judges and if you know Ace on his dad, Ace Sr., you know that either one of these guys will recognize good "Cowboy Cooking". Tropes, money prizes and the fame of being classified a real Chuckwagon king ota make the air around Abilene wet the appetite of even those no longer amongst the living!

HEY, you Burk Burnett cowboy cooks, and with all the true cowboys around Burk there should be a lot of "Cookies", entry blanks may be obtained by writing Cowboy Campfire Cook-Off, P.O. Box 2231, Abilene, Texas 79604. Hmmm, I cook up a mean steak on the outdoor grill, maybe I should enter!

BITS AND PIECES: Country Music stars are working all over the country now and in many, many small towns and communities. It's a shame that we can't get more of them into our area! I know that people would like to be getting "gussied" up and going out somewhere; somewhere they could take the whole family, see good shows, bet they country or otherwise, just don't get booked into this area. Thank goodness for Burk Burnett's Boom Country Jamboree!

Say, when was the last time you, or you and your family spent an afternoon or evening in the park? Yesterday? Last month? A year ago? . . . Don't pass up a form of "entertainment" that is always available to you and free! Here in Burk Burnett there is a park that our family dubbed, "Our Park" -- Burk Royalty Park located at Tidal and Sunday.

Many a Sunday afternoon was spent there, playing on the swings, the tank, the first real honest-to-goodness military tank my son, Jimmy, had ever seen! We would get there in the late afternoon and while the boy would play, dad would play too! I can't help it, I like to swing and climb just like any kid! Take a tip from a young-at-heart ole cowboy, get yourself and family to a park and enjoy some free entertainment compliments of your city!

PIECES: As the fall season gets closer and closer, I feel that we will have more things to report on in the way of entertainment for everyone, and all types from country to plays. Speaking of plays, wouldn't someone like to organize a small theatre group here in

Burk Burnett? It would be fun and give all us bitten by the acting bug, a chance to "emote".

Also would like to mention the Oil Park Museum on the Oklahoma Outoff in Burk Burnett. I have to admit that it has been a while since we have been out there but we have it on our "things to do soon" list and you should have it there too! You'll see many artifacts related to this area on display there including the old time railroad depot that was recently moved there. With things being "improved" and "modernized" so much these days, it might be the only place left soon that you can take the kiddos to see what the "good old days" were like!

ONE QUICK HIT: If you like movies the way I do, then you'll want to check the listings for the Palace Theatre in Burk Burnett. Ray Townsend, the owner, always has a good lineup of movies, whether your "bag" is western, love stories, adventure, the whole spectrum. This week they're showing "Song of the South" plus the "Aristocats" from Walt Disney. Movies are truly an American art form. If you think about it, you realize that films have played a very important part in the development of many of our ideas, cultures and way of life. . . . Think about it. . . . not only do the "flicks" mirror the way we live but at times show how we would want to live. It's something to think about. . . . We want to get with Mr. Townsend soon and find out about some of the films lined up for future showing. Maybe I'll get to do another stunt to promote a film like we did for the "Judge Roy Bean" that recently played in Wichita Falls. At that time, I grew my beard, donned scruffy old clothes (like I wear all the time!) and mounted my trusty horse, who shall remain nameless, and rode through downtown Wichita Falls giving away movie passes! It was fun and I sure startled a lot of folks as I rode up to them on the sidewalk and gave them a pass. Some people refused to take them, wondering what kind of a nut was I!!!

Well, that's all the time I have now, or should I say space? Give me a call 322-3127 at KLUR and give me the scoop on some of the entertainment activities going and we'll get the word out. . . . So long everybody!!!

as that goes? How many businesses or local industries do you know of who have an annual budget of \$2,244,000 and whose annual payroll amounts to \$1,842,000?  
True, nothing is more important than the quality "product" produced by our schools. Economically speaking, however, it is by far the largest single industry in Burkburnett. Make plans to be at our luncheon Monday and hear the men who direct the various parts of this industry. You'll be glad you came.

**Weekly Health Tip**  
Persons who are overweight have to expend more effort to walk, stand, breathe, or even to sleep than slimmer persons. This 'cost of living' for the obese shows up in higher blood pressure, faster heart rates and rapid breathing patterns, says a team of U. of Wisconsin medical researchers. Their tests with normal men weighing 165 lbs. and fat men of 300 lbs. riding a stationary bicycle showed that fat men had to work much harder to perform the same task. Excess weight not only threatens ones health and life span, but many of the pleasures of an active life are missed because the exertion is just too much to abide.

Our monthly Chamber luncheon coming next Monday is the main thing on the Chamber's agenda at present. Program for the meeting will be from the Special Affairs Committee, Jim Frye, chairman.  
Local school principals Bill Darland, Carl Dixon, Overton Ray, Bill Weatherred and Stan Owen and Superintendent of Schools James Pearson will be the speakers.  
This will be an excellent time to get back in the groove of being active in the Chamber since summer is now over. Too, this will be a very informative program about the largest single industry in Burkburnett, our public school system.  
Many times our school system is overlooked as an industry. Of course its products are educated young people, the leaders of tomorrow. This, I think, we all realize. But, how many realize the true economic impact a school system the size of ours has on a community? How many industries are located in Burkburnett with a total full time employment of 276, or in this entire area as far

The United States Chamber of Commerce office displays a huge clock that so vividly points out the magnitude of federal spending.  
As the 1974 fiscal year began July 1, the U.S. Chamber announced that its Federal Spending Clock was reset to run at an accelerated pace as federal spending this year is estimated to increase by approximately \$19 billion, up to \$269 billion. Registering expenditures of approximately \$736 million every 24 hours, the clock also graphically displays other spending rates: \$10,000 nearly the average income of a typical American family, every 1.17 seconds; \$100,000 every 11.7 seconds; \$1,000,000 every minute and 57 seconds.  
What really brings this to home is when you realize that it is our money the federal government is spending.

Second Farmer: "Well, let's don't do any complainin' about it. Just think how bad it would be if the government started regulatin' the weather instead of predictin' it!"

EVERY CHILD NEEDS YOU is the theme for the administration of newly elected National PTA President, Mrs. Lillie E. Herndon. She invites you to share an adventure of greatest purpose and deepest commitment, that of becoming an achiever for children by joining the PTA.

GREG ROBERTS can be seen at BOOM COUNTRY JAMBOREE every Saturday night at 8 p.m. at the Burk Civic Center. He will be singing his new record, "CANDY", and "THE WRONG MAN" to be released on the COPRE label. (PHOTO COURTESY OF THOMAS COLLEY)

Ask Reardon and DARTER about this question: "Most everyone has auto liability insurance, but think of the equal risk of injuring someone in sports, on trips, or of visitors being injured around the home or on the premises. Even if it doesn't result in a \$100,000 liability award, it's nice to have personal liability insurance to pay the medical costs of injuries to others. Does the Lippard Insurance Agency have liability policies for individuals, homeowners or landlords?"
