Million Dollar Bike Ride To Be May 4

"A bicycle built for two," theme of many years ago, is coming back with enthusiasm this year. We're talking about the E.S.A. Million Dollar Bike Ride, sponsored by Epsilon Sigma Alpha International for the benefit of St. Jude's Children research hospital where help is given to children afflicted with catastrophic diseases.

An E.S.A. member and her husband are going to peddle a bicycle-built-for-two from Memphis, Tennessee (home of St. Jude Children Research Hospital) to Beverly Hills, California, home of Danny Thomas (the hospital founder).

This 2,500 mile, two-month ride will dramatize local bike rides being held in communities all across America.

Burkburnett's bike ride will be held Saturday, May 4, starting at 8 a.m. from Burk Royalty Park near the youth center.

Sponsors of the local ride, Theta Epsilon Chapter, are seeking riders for the 20 mile bike ride which will begin and end at the Burk Royalty Park.

Burkburnett riders will ride toward Iowa Park where at the end of ten miles, they will be joined by the Iowa Park Chapter and riders, then return to Burk Burnett.

"Everyone can ride," stated Mrs. Clarence Bridges, general chairman of the event, "provided they are sponsored."

Mode of transportation can be a tandem, a ten-speed, or any type of bicycle. Families are

encouraged to participate as are clubs.

Committees for the bike ride are: general chairman, Mrs. Clarence Bridges; recruiting chairman, Mrs. Lyle Eaton; route master, Mrs. Doc Glover; publicity, Mrs. Henry Vaughan; and treasurer, Mrs. Tommy Hubbard and Mrs. Scott Newton.

To obtain a sponsor's list contact Mrs. Bridges at 569-3674, Mrs. Eaton at 569-3688, or go by James Spinks Texaco station or S.&L. Barber Shop, both on Ave. D.

Antique Auto Show Scheduled

An antique automobile show will be sponsored by the Wichita Falls Antique Auto Club May 18 and 19 at the Burk Burnett Junior High Football Stadium.

About 100 automobiles will be exhibited, including antiques, hot rods, street machines, later model collectables, and others.

Contact Sam Robertson, 305 N. Berry, phone 569-0146, in Burk Burnett for more information.

Scout Pancake Feed Slated

National Library Week Is April 20-27

"LIBRARIES LET IT BE." That's what libraries are saying this week when they take part in the observance of National Library Week. Libraries of all kinds are observing the week that calls special attention to libraries as sources of information and recreation.

The Burk Burnett Library is a member of the 10 system organization under the Texas

Library Systems Act. This enables users of this facility to take advantage of the Inter-Library Loan--ask about it at the library!

Last year the Burk Burnett Library circulated over 31,000 books and periodicals for the people in Burk Burnett and the surrounding areas. New books continue to arrive and users

exercise their right to read every day.

Recent additions to the local collection include: THE BOOK OF BOTTLE COLLECTING, by Doreen Beck; THERE'S A RHINO IN THE ROSEBED, MOTHER, by Betty and Jack Leslie-Melville; CLEMENTE!, by Kal Wagenheim; FROSTY, A RACCOON TO REMEMBER, by Harriet E. Weaver; THE AMERICAN HERITAGE HISTORY OF THE GREAT WEST; THE TURQUOISE MASK, by Phyllis Whitney; DECK WITH FLOWERS, by Elizabeth Cadell; and THE HEPHAESTUS PLAGUE, by Thomas Page.

New books for juniors, too, include THE WINGED COLT OF CASA MIA, by Betsy Byars; THE MOONCUSSERS DAUGHTER, by Joan Aiken; THE WIT AND WISDOM OF FAT ALBERT, by Bill Cosby; THE ROCKHOUND'S BOOK, by Seymour Simon; CIVIL WAR NURSE, MARY ANN CICKERDYKE, by Adele Deleuw; MORE STRANGE BUT TRUE FOOTBALL STORIES; and MOON EXPLORATION, by C.B. Colby.

The Burk Burnett Libray is open Tuesday, Wednesday, Thursday, and Friday from 12 noon til 6 p.m. and on Saturday from 10 a.m. til 2 p.m. It is closed on Sunday and Monday.

Poppy Day Is Set

The American Legion Auxiliary and Junior Auxiliary will sell poppies (the memorial flower for the American war dead) May 11.

The tradition began in the years following World War I, since wild poppies which lined the battlefields of France were remembered by veterans. Today the flower pays tribute to those who made the supreme sacrifice in World Wars I and II, the Korean War, and the Vietnam conflict.

The poppies are handmade by disabled veterans as part of their rehabilitation therapy. Funds received from Poppy Day are used exclusively to assist distressed veterans and their families.

The shell of the structure was made by Penny and Danny Lonney (sister and brother-in-law of Mrs. Wright) of Oklahoma City. The outer walls are made of plywood.

Buddy and Doris Frye, Mrs. Wright's parents, did the interior decorating and furniture making for the house (see lower right inset photo). The furniture was made of paneling scraps and the roof consisted of hand-made wooden shingles which were glued on individually in rows. Mrs. Wright plans to enter the doll house in the Oklahoma State Fair this fall. (Informer/Star Photo)

LETTERS to the EDITOR

San Antonio, Texas

Dear Sir:

I would like for you to send me the Informer/Star paper, I miss it so much.

I've been here in San Antonio for 12 years, but still call my home Burkburnett, for my loved ones lived there since 1912; my father and mother moved there.

So please send me the paper and how much the paper is; I'll send a check for it.

Give my regards to all my friends there. Thanks again.

Dear Sir,

On Saturday, May 4, voters in the primaries will be asked to vote concerning pari-mutuel gambling.

This reader believes this to be a very important issue which should be considered by every registered voter.

There has been some speculation that racetrack betting will bring revenue into Texas. For other states this has been reported to bring in a very small amount of their state budget.

I don't believe Texans are ready to say they must rely on racetrack betting or any other kind of gambling to raise money to operate their state.

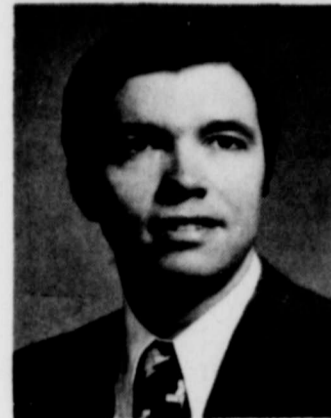

Further, I don't believe Texans are ready to receive any amount of revenue which should be used to buy groceries, pay rent, hospital, any other necessary bills. We are just not ready to throw away what has been built over a period of years.

Alcohol and drugs have done much to destroy lives, wreck families, and increase the need for strict law enforcement; why add racetrack betting to the list?

Let's consider all the by-products of this issue. Also I think we should find out how the different candidates feel about pari-mutuel gambling and let this be reflected at the polls.

This is not only an issue for every Christian to fight, but one that must be considered by each citizen if we really and truly wish to make this a better place to live.

AN EXTRAORDINARY SERVANT OF GOD

Suppose this to be a picture of Abraham. See anything unusual about him? The study of the life of Abraham is an unending, ever-unfolding engagement on the part of the Bible student. This ordinary looking man achieved a place in sacred and secular history second to none. He was the file leader of a great host and the father of a new spiritual race. The seed that God planted in his heart was watered by his own faith and has borne abundant fruit for these many centuries.

Yet Abraham did nothing which you and I can't do. All he did was obey God's call. "Get you up and go to a land which I shall show you" (Genesis 12:1). When Abraham got up and began to walk as God led him, he put his feet on the road which led him to become
Incorruptible (Genesis 14:23)
Mighty in prayer (Genesis 18:23f)
Wonderful in faith (Hebrews 11:17)
Just an ordinary man who became an extraordinary servant of God.

Prices of feeder and fat cattle should increase by April or May, believes a livestock marketing specialist for the Texas Agricultural Extension Service. Choice slaughter steer prices should move up to the \$48-\$50 range, and feeder prices should reach last year's levels. Present low prices are due to overfat cattle in feedlots, the trucking strike, fuel shortages, retailers lowering wholesale prices in order to widen margins, and past government controls. The increased demand for beef should help bring up prices to producers in the next few weeks.

Although beef prices at the retail level were about 15 per cent higher in February than in February of 1973, no one is admitting to making any more profit. Cattle feeders have been losing up to \$200 on every head turned out of the feedlot, and retailers' high prices have been defended as necessary to maintain the consumer's demand for beef. Some people blame the middleman. He is anyone who handles, sells, buys, slaughters, cuts or transports meat. He performs a necessary service to the industry and naturally, does this to make a living. In total his costs are only a fraction of the product's sale price. For example, while packer profits are up somewhat, they are still exceptionally low. Most of his profits come from by-products and high volume.

Statistics show that retail beef margins have improved substantially since last year. Even with the great fluctuation caused by the truck strike, wholesale beef prices in February were about four per cent above last year's level. Probably the biggest villain in the beef price situation is inflation. It has caused higher calf costs, higher feeding costs, greater slaughtering costs and larger retailing costs. The consumer has shown some reluctance to accept higher costs but is still buying almost as much beef as before and at higher prices.

Livestock producers will be treated to discussions on specific disease problems of beef and dairy cattle, swine and horses at the Sixth Annual Southwestern Animal Health Conference at the Green Oaks Motor Inn, College Station, Texas, April 27-28. The conference will feature authorities on animal health and nutrition who will discuss topics of both general and special interest to producers. Special sessions on cow-calf, dairy, equine (horse), feedlot and swine will be featured Saturday morning, April 27, and will be conducted all day on Sunday. A general session will be held Saturday afternoon. The cow-calf section will feature discussions on such topics as current infectious disease and parasite problems, toxicity, calf scours, herd management, herd health, estimation of calf crop, necropsy, pre-conditioning, calving problems and induced calving. In the dairy section discussions will include owner responsibility to his milking system, vaccination, reproduction, calf-raising, skin and limb problems, practical herd tips, failures in milk fever and ketosis, handling semen, programmed mastitis control, practical dairy management, drug withdrawals and limitations and management of retained placements.

Roadside fruit and vegetable markets may do a booming business if planned and managed properly. Such markets can add to the diversity of a farming operation. Consumers are constantly on the search for bargains on fresh produce, so the demand is certainly there. And, with the energy crunch likely to curtail long vacation trips, short weekend drives through the country may become more popular. This too, could be a boom to roadside marketing. Here are several questions a potential marketer will want to ask himself. If the proposed location is a good one? What is the amount, type, quality and length of season of products to be sold? How will a roadside market fit into the farm operation? Is there capital available for a suitable structure? Do you enjoy meeting the public? Can you find labor during peak sales periods?

Big Pasture FFA Has Slave Sale

The Big Pasture FFA Slave Sale and Fish Fry was held Thursday, April 18, at 7:30 p.m. in the high school cafeteria. A total of 34 boys were sold (averaging \$33.53 each) and \$1,150 was earned by the group. The menu consisted of catfish and fries, which was prepared by the queen, sweetheart, and officers. 95 persons were present. Proceeds will be used for the Parent-Son banquet May 11.

The FFA wished to thank the First National Bank, Modern Butane, Curtis Baber, Burk Burnett Bank, Corner Drug Store, and Burk Burnett Chamber of Commerce.

Texas ranks second in the nation in total peanut production, surpassed only by Georgia, Agriculture Commissioner John C. White reports.

Big Pasture Future Farmers Receive State Nomination

Two members of the Big Pasture Future Farmers of America chapter have been nominated to receive the coveted State Farmer degree at the annual State FFA Convention, April 24-26, in Stillwater, Oklahoma.

They are: Gary Doty, son of Mr. and Mrs. Harvey Doty, and Darrel Adams, son of Mr. and Mrs. Irvin Adams. Both will be among 352 Oklahoma FFA students who have met the qualifications for the degree this year.

The State Farmer degree is the highest awarded by the State FFA Association to its members who have done outstanding work in vocational agriculture. This degree is awarded to candidates only after exacting requirements are met by the young farmers. Each candidate must have earned or productively invested a sizable sum of money in his farming program, maintained a high scholastic standing, and must, in general, be a topnotch farmer.

All of the 1974 State Farmers will be guests at the 20th Annual Southwestern Bell Telephone Company Honor Dinner,

Thursday night, April 25. This banquet has become an annual fete for Oklahoma's outstanding Future Farmers who receive the State Farmer degree.

Spring and summer fashion fabrics will feature a kaleidoscope of patterns, dots, stripes, florals, geometrics and motifs. Designs range from objects found in nature to the abstract creations of a designer's imagination. Design sizes, on the other hand, run rampant from miniature to "slipcover" sizes. In general, patterned garments add excitement to a wardrobe--and often express the wearer's personality and temperament. On a more practical note, they make versatile wardrobe additions. Patterns also show less soil and fewer wrinkles than plainer fabrics.

Friberg-Cooper Group Have 'Improvement' Tour

The Friberg-Cooper Community organization participated recently in the Texas Community Improvement program. The tour stated at the community house with Judges Mrs. Betty Cooke, Extension Agent from Baylor County, and Mr. Hood Wills, Retired Extension Agent of Hardeman County.

District Agents present were Mr. James Simmons and Miss Thelma Wirges, and Wichita County Extension Agent B.T. Haws and his assistant Hershel McDonald.

For the first stop, Mr. Bill Jenne showed his rebuilt barn and Mrs. Jenne showed their remodeled bathroom. Later the Friberg-Cooper Methodist parsonage was shown with new siding and paint, done by volunteer workers of the community.

The new orchard, landscape, and home of Mr. and Mrs. Cecil Huddleston was viewed by the

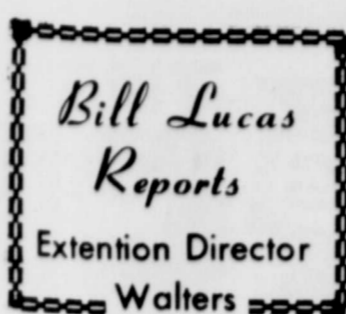

group; also shown was the rifle range by Mr. Jenne.

A stop was made to view the wheat of the community, and Mr. Willie Morton told the group what type of wheat and fertilizer was used. Next Mrs. Jimmy Rankins showed her home and later Mrs. Cecil Jarvis showed her home to the group.

Attention was called to the water system which furnishes 79 homes and has a potential of 300 for the community. Next Mr. and Mrs. William Morton showed their new iron fence and prized 4-H calves. New fences were also observed on the Mrs. Ralph Swinford and Mrs. Ethel Bryan farms.

At the completion of the tour reports were given by the committee. Mrs. Pete Rogers gave the report for the late Mr. Sam Spencer on Health and Ecology; Mrs. Ralph Swinford on Social and Recreation; Mrs. Cecil Jarvis on Home Improvements; and Miss Tracie Morton on 4-H Club Activities.

Refreshments were served to 16 members and seven guests.

You can recognize Dollar Spot by circular bleached spots the size of a silver dollar. Infection is usually more severe in Bermuda in the fall. Then spots tend to go together, forming large, irregular patches.

Many times, only the upper portions of leaves are killed. And the grass will recover quickly when treated with the proper fungicide. For control, increase the nitrogen level and use recommended fungicides such as Daconil, Dyrene, Fungo or Tersan 1991. Follow the manufacturer's directions.

Leptospirosis is widespread in cattle and swine and is a public health problem. People become infected by working with infected livestock or swimming in farm ponds contaminated by the urine of infected animals.

Leptospirosis may cause abortion or premature births, decreased and abnormal milk, poor growth, stunting and death. This disease is caused by a thread-like bacteria-leptospire. If drainage from contaminated areas gets into streams and ponds, the water must be considered contaminated for months afterward.

Leptospirosis is usually spread by the urine of sick and recovered animals. Young calves or pregnant

cows show the most effects of the disease. Some adult animals may be infected and never show any symptoms. In rapidly developing cases, animals are depressed, feverish, lose appetite and weight, become anemic and may be jaundiced. Both calves and adults may pass blood with urine.

Calves may die within 12 hours after the first symptoms occur. Older cattle may die in two to eight days but they usually recover. Diagnosis is based on history, observation, laboratory tests and after death examination. Lab tests include examining the blood serum, testing tissue for bacteria and inoculating the animal.

A veterinarian should prescribe the treatment. Treatment is beneficial in the early, acute stage of the disease and is

essential to prevent illness and death.

If one is to control Phylloxera (galls), with a dormant oil, they should be sprayed now. If malathion is to be used, it should be applied when leaves are one-third grown. One should also mix 4 pounds of zinc sulfate per 100 gallons of water at the same time Phylloxera is controlled.

Flower Show Scheduled

The Wichita Falls Florama Council of Garden Clubs Annual Flower Show will be held May 4 and 5 at the Barwise Junior High School Cafeteria, 3807 Grant. The show will be open from 3:00 to 8:00 P.M., Saturday and 1:00 to 5:00 P.M., Sunday.

garment, consider overall effect created by a particular pattern. Pattern type and size influence a person's apparent size. Extreme color contrasts--and very lightly or brightly colored patterns--tend to make a person appear larger. Large, widely spaced patterns also do this. To diminish apparent size, choose patterns with compact spacing and close color relationships. Also, darker or subtle colors and blurred or overall designs. Most people find medium-size designs--similar colors--becoming. Patterns also express moods. For example, some patterns are dainty and demure. Others may be bold and exotic--or dignified and conservative.

Homesewers have a new way to achieve classic tailored looks--by using knit trims. The major types include ribbed-knit trim and knit-band trim. Amazingly versatile, ribbed-knit trimming can be used at necklines--as turtle-necks or as banding on round, V-neck or scoop necks. It's very useful for sleeve cuffs, binding and for the waistline area of a cinched waist dress, sweater, or jacket.

Sold as tubular knit, homesewers can cut it along one fold and lay it out flat. And since it's sold by the inch--rather than by the yard--there's little or no waste.

Weekly Health Tip 

A mother told us about her teenage daughter who got a D in gym because, as her instructor said, "She can't do anything". Her mother pleaded, "She's not coordinated". That summer, she had her daughter do a series of daily exercises - the more she exercised her daughter did, the more she enjoyed them. "She became more outgoing and more confident", explained the mother. "She had been fat and she lost weight. She looked better, she came out of her shell and became more popular at school." This experience may suggest a means to better physical and mental health for other teenagers as well.

Bulldogs Wreck Hirschi 13-1

The Burk Burnett Bulldogs demolished Hirschi 13-1 Friday in Burk's second district battle of the season at Hoskins Field. This evens the Bulldogs' record to 1-1 in District 4-AAA North Zone. Boy Scouts To Prepare For 'Another Busy Year'

By Don Van Hyning

Burkburnett's Boy Scouting Program has had a very active year. With two Cub Scout Packs, three Scout Troops, and two Explorer Posts, boys ages 8-18 have opportunities to participate in a well-rounded Scouting Program throughout the city. The Scouting Program is presently serving over one-third of the available boys within the city.

Activities in which boys participated in during the past year were council-sponsored events including the annual Scout-O-Rama where units from the entire 13-county Northwest Texas Council take part in presenting activities and displays for the general public, and conservation projects involving paper drives and community beautification. Last summer Cub Scout Packs 155 and 156 took part in Cub Country Days at Perkins Scout Reservation on the Red River near Burk Burnett during which swimming, outdoor games, and entertainment was provided for the boys. Scout Troops participated in two District camporees and had a fun-filled week of summer camping at one of the two council camps. Many other weekends were spent in troop campouts and hikes in various area locations. Scout Troops also took part in training events and one unit put on a first aid presentation. The highlight of the year for Troop 158 (sponsored by Janlee Baptist Church) was a weekend trip to Austin for a "Report to the Governor" conference.

The Explorers were also active this past year. Post 155 (sponsored by First Methodist Church) had a canoe trip at Big Bend National Park.

The Burk Burnett 4-H Community Club held its monthly meeting April 11 in the Burk Burnett Bank. It was announced that the club will have a "Western Playday" May 11 at the Burk Burnett Riding Arena on Kelly Street. Ribbons and trophies will be given as awards, with registration at 1 p.m. and events beginning at 2 p.m.

An overnight campout is scheduled for June. In preparation for the event, Bob Laurick informed the group of snakes, mentioning how to recognize them and treatments which should be used.

According to Mr. Laurick, a snake grows about seven sets of fangs. When one set is somehow lost, another grows in its place within 24 hours. There are some 59 species of snakes in the area, with four kinds of poisonous snakes: the rattlesnake, water moccasin, copperhead, and coral snake.

Laurick warned that spring is a very dangerous time, because snakes are coming out of hibernation; since many will be blind due to shedding skin, they will attack anything that disturbs it.

The club then thanked Laurick for his demonstration and speech.

Scouting never has been and is not now just a recreational program for boys. Essentially, Scouting is an educational movement aimed at developing character, training for citizenship, and making boys stronger in body, mind, and spirit. Therefore, an important part of Scouting is the advancement program and Burk Burnett units earned many merit badges and other awards of recognition. There were two new Eagle Scouts in Burk Burnett last year. Burk Burnett Scouting Commissioner Everett Lutynens received the Silver Beaver Award which is the highest council award which may be earned by a volunteer Scouter.

The 1974 Northwest Texas Council is one council, has one program and one budget. This year the council's Executive Board approved an operating budget of \$148,868.61.

It is participating in and with United Fund organizations in Electra, Hardeman County, Munday, Wichita Falls and Wilbarger County and anticipate receipts amounting to \$66,251.00 from these organizations this year. The council's trust fund earning will provide an estimated \$2,000.00 to council income. \$80,617.81 is what must be raised through the Sustaining Membership Enrollment throughout the 13-county Northwest Texas Council in order to meet the council budget and to assure youngsters in this council a "going" and "growing" program in 1974.

During the last 20 years, the council has an excellent record of growth with a 53% increase in youth members and 58% increase in new Scout units. During this same time period, the council career staff has remained the same.

It cost the council an average of twenty-five dollars a boy to make the complete Scouting program available to a boy in

Burkburnett. These Scouts are just ask to pay one dollar a year for their national registration fee. The other money to sustain a boy in Scouting must come from the friends of Scouting within a community. Through their sustaining membership enrollment the community helps to serve the boys within their community.

The Sustaining Membership Enrollment in Burk Burnett is now in progress. The community can help the Scouting program of Burk Burnett be a success by being a contributor to the Sustaining Membership Enrollment in Burk Burnett.

Don Van Hyning, Sustaining Membership Drive Chairman--Burkburnett
