Bands, booths, barbecue, and brilliant fireworks will highlight Burkburnett's July 4th Celebration Thursday as residents honor America on Independence Day, the 198th anniversary of the United States.

Community clubs will initiate the festivities with booths scattered around the Hardin-Burk Royalty Park area beginning at 1 p.m. Booths and sponsors will include the following: 7-Up and Pepsi stand, Theta Epsilon; snow cone and candy stand, Little League Baseball; pink lemonade, American Legion Auxiliary; dunking machine, Burkburnett Riding Club;

The Burkburnett Chamber of Commerce will start serving barbecue beef, potato salad, beans, relish, bread, and iced tea at 6 p.m. The barbecue will be cooked around 12 noon on four large grills built by instructors James Easter and Jake Fite of the high school. The department and Chamber Manager Jim

Following the flag-burning, there will be an hour-long spectacular fireworks display (around 9:15 p.m.) in a nearby marked-off safety area.

Williams Drive, the road located between Hardin and Burk Royalty Parks, will be blocked off to prevent traffic congestion in the area during the event. There will be plenty of parking space for persons to leave their cars in the area also.

Chamber Manager Lemley said that

persons should bring lawn chairs and other items usually taken on picnics, since this would be a type of picnic outing. He urged citizens to buy barbecue tickets early if possible from the Chamber Office or other places in town where they are sold also.

The Chamber Manager stated Friday that there will be several politicians there and possibly an antique auto showing, depending on schedules.

The Burkburnett Volunteer Fire Department and Police Department will be on hand at the celebration to assure maximum safety to persons attending.

Residents Asked To Conserve Water

Water remains scarce in Burkburnett. It hasn't rained for weeks and the water level is very low.

According to City Manager Gary Bean, the water system from Wichita Falls will hopefully be in operation by the 10th of July, possibly earlier.

Tuesday, men were to spray

the million-gallon water tank located near Kramer Road and begin to fill it with water. Bean stated that filling the tank is a two-day process. Afterward, a test of the water will be made; and if the test proves unsuccessful, the tank will have to be drained (a three-day process), resprayed, and

refilled.

The City Manager urges residents to restrain from soaking their yards with water even after the new water system is in operation. He reported that the rate the city will have to pay for the water will be determined by a one-day sample of water used. He further stated that if a

large amount of water is used the first few days of the operation, water bills will soar in cost the remainder of the year. He added that the rate will be retroactive back to January also.

The City urges residents to use as little water as possible for the next week or two, until the critical period has passed.

Post Office To Close July 4

Burkburnett Postmaster W.T. Zimmerman announced last week that the Burkburnett Post Office will be closed Thursday, July 4, 1974, Independence Day.

Col. Brunson Describes Training Changes At SAFB

Col. Carl Brunson, commander of Sheppard AFB School of Applied Aerospace Sciences, presented the program for the noon luncheon of the Burkburnett Chamber of Commerce in the Civic Center Monday.

Brunson told Chamber members that sophisticated, air-conditioned classrooms and modern training devices and techniques are now used in the contemporary U.S. Air Force. He said, "It's a great opportunity for them (young servicemen)."

He described Sheppard AFB as the largest technical training center in the world, with 200,000 trainees each year.

By means of narrative and film projection, Brunson's aids, Capt. Michael Sartori and Lt. Robb Kreechlow, reported that Sheppard has a population of around 20,000 with 40 buildings and 1,000 classrooms. Their motto is "Prepare the Man", and help develop skills for people to use. Their purpose is service to the nation.

Brunson's aides further stated that Sheppard's School of Applied Aerospace Sciences conducts 1,600 classes daily, including many more women now than in the past.

The six major training departments were described, including services taught and training used in each. The

departments are Aircraft Maintenance, Comptroller Training, Communication and Missile Training, Civil Engineer Training, Transportation Training, and Field Training.

Sartori and Kreechlow then showed a film depicting actual constructive training in area projects. They said that each division adapts training requirements to fit the community's needs. They are working on Riverside Park near Burkburnett, presently.

In other action, Chamber Manager Jim Lemley reminded members that a few workers are still needed for the July 4 Celebration Thursday and that a golf tournament has been scheduled for July 13 and 14. Capital Gains Big Factor In Investment

Chairman James J. Needham of the New York Stock Exchange told a Senate subcommittee recently that an independent study conducted for the Exchange showed that capital gains taxation was a major factor in individual investment activity.

A reduction in capital gains tax rates, the Big Board Chairman said, could increase investor activity—and might at the same time increase federal revenues from capital gains taxes.

The following have authorized an announcement of their candidacy subject to the November General Election:

For State Senator, 30th District: RAY FARABEE

We don't intend to leave the next generation with a generation gap.

In the years ahead, these youngsters will need enough electricity for their homes, jobs, schools and hospitals — and to take care of the environment.

At the same time, the availability of the basic fuels used to run our generating plants — natural gas and oil — will continue to decline.

That's why at Texas Electric we're starting to use other fuels, to decrease our dependence on natural gas and oil.

We're already adding lignite coal plants to our system. And we're planning a nuclear plant near Glen Rose for the 1980's.

These new plants will cost a lot more than gas-fired plants. But the advantage of using lignite and nuclear fuels is that neither is being used exten-

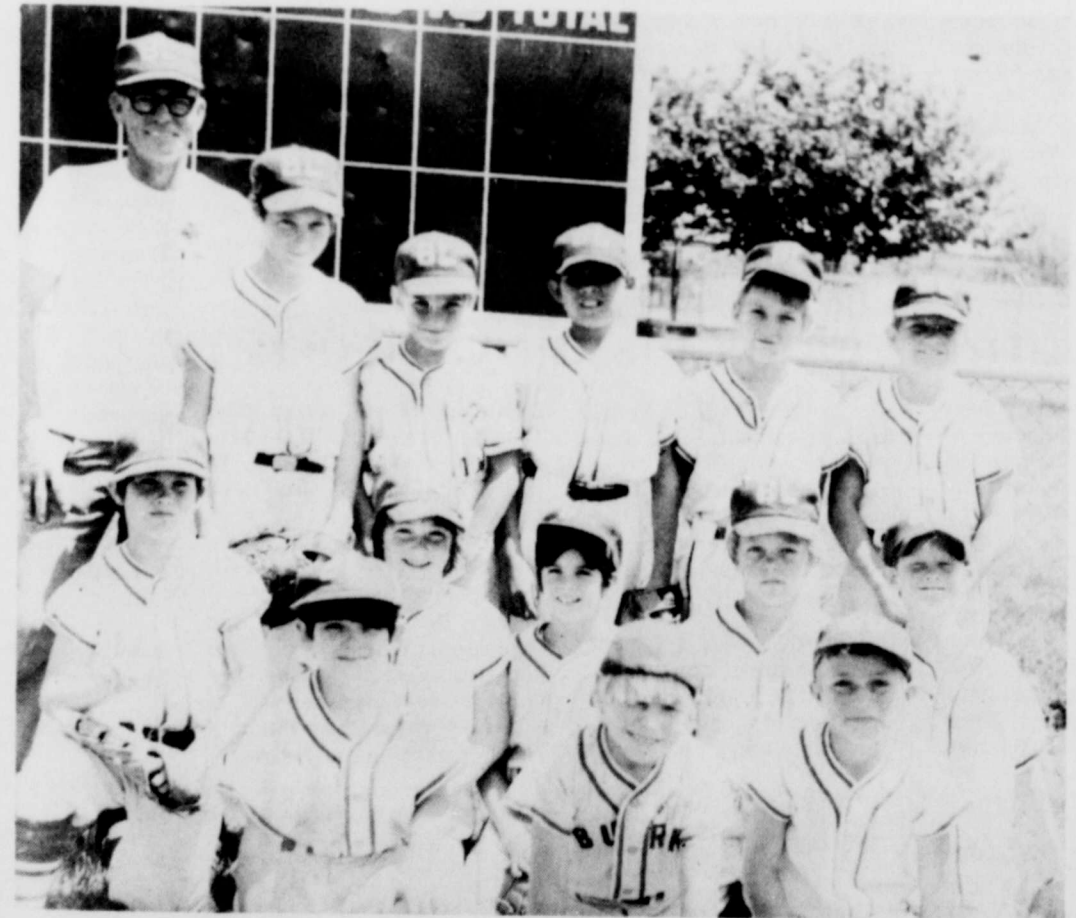

sively for any purpose other than the generation of electricity.

And even though it will cost more to provide electricity in the future, the cost will be less with lignite and nuclear fuels than with natural gas and oil — even if we could get the new supplies we would need.

We're continuing the orderly development of our power system, because we don't intend to leave the next generation with a generation gap.

Watermelon Weather Hits Texas

AUSTIN--Thump, Thump, Thump. It's watermelon pickin' and eatin' time in Texas, and, as any old-timer will tell you, a good thump is one way to find the best melon in the lot. According to Agriculture Commissioner John C. White, however, there are other -- and possibly better -- ways to judge a ripe, juicy melon. "The best one is to cut a plug so the meat can be seen and tasted," White said.

WEEKLY MARKET REPORT

Retail beef prices probably will not go any lower, although beef continues in relatively large supply, one expert says. Mrs. Gwendolyn Clyatt, consumer marketing information specialist, with the Texas Agricultural Extension Service, The Texas A&M University System, made the predictions this week. "There are frequent advertised specials on many cuts, so this is a good time to do

a little extra buying for the freezer--look for best values on round steaks and roasts, beef liver, ground beef, chuck roasts and steaks," she said. "Pork values include hams, picnics, end-cut loin roasts and chops, Boston butts, shoulder roasts and steaks. Fryer chickens and turkeys take the bargain spotlight in many markets, and grade A, large-size eggs offer economy and quality." Turning to fresh fruits and vegetables, Mrs. Clyatt said items in good supply at most reasonable prices are sweet corn, squash, snap beans, okra, carrots, dry yellow onions, cushaw, blackeye peas, radishes, green onions and cabbage. Also, Valencia oranges, bananas, cantaloupes, honeydew melons, watermelons and Santa Rosa plums. "Apricots are in peak supply this month, although quantities are small--and prices are generally high," she added. "Consumer Watchwords: Quality and prices vary on cherries, plums, pineapples, peaches, white grapes, nectarines and strawberries. Make these fruit selections carefully."

First Cattleboat Maybe? Those famous Texas longhorn cattle can trace their ancestry back further than the Mayflower. Columbus, on his second voyage to America, brought longhorned cattle from Spain to the West Indies. Descendants of these cattle later were taken into Mexico and eventually to Texas.

Wheat Yield To Plummet

AUSTIN--Texas wheat production is expected to decrease from a record 98.6 million bushel yield in 1973 to 63 million bushels, a drop of 35.6 million bushels, Agriculture Commissioner John C. White has announced. White's projection was based on field studies of wheat conditions by Texas Department of Agriculture inspectors and U.S.D.A. statistical data. Most of the decrease is due to the failure of the dryland wheat crop on the Texas High Plains. Growth of dryland wheat has been slow because of drought conditions throughout most of the area. Nationally, winter wheat production is estimated 1.5 billion bushels, a five percent drop from May figures.

Certificates and checks will be presented at this dinner. Communities in Wichita County are Friberg-Cooper, Clara-Fairview, Pankin Center, Valley Farms, and Kamay. *****

Tours to the pecan industry developing in the lower El Paso Valley and to the Stahmann Farms in the Mesilla Valley near Las Cruces will be among highlights of the 53rd Annual Conference of the Texas Pecan Growers Association at El Paso, July 9-11. Conference theme will be "Co-op Marketing Means More Grower Profit." Among speakers will be Sergio Martinez of Chihuahua City, who heads the Federal Pecan marketing Program in Mexico. A report will be presented by a representative of a 9-member coordinating board working toward a cooperative marketing association.

Texas dairymen are feeding few dairy cows and enjoying it more. But high feed costs continue to put a strain on their operations. Texas dairymen have reduced their herds by

roadside. Sevin and malathion WILL NOT give good control of adult grasshoppers. *****

The continuous decline in alfalfa seed production for the past three years combined with diminishing carryover stocks has had its effects on the seed market. The seed market has more than doubled in the past year. The alfalfa seed producing states will be looking to Oklahoma in the future for a

larger portion of their planting seed requirements. New varieties that show tolerance or resistance to the alfalfa weevil will especially be in demand. Those interested in producing alfalfa seed are encouraged to contact the county office. *****

The red spider mite continues to heavily infest gardens and ornamentals. Kelthane seems to be doing a good job of control. A repeat application should be made after 7 days.

Mrs. E.F. Gibbs is in the Wichita General Hospital receiving tests and treatment.

Friends and acquaintances will be saddened to learn of the death of Bob Tevis last Tuesday morning. Funeral services were at 2:00 p.m. Friday in the First Christian Church in Burk. Though Bob had retired a few years ago from Managership of the Shamburger Lumber Company here, he was a familiar figure in our city. He was a long time Rotarian (49 years), a member of the Christian Church and the American Legion. He is survived by two daughters, Miss Laura Louise Tevis and Mrs. Marvin Taliaferro.

Miss Joy Currington of Austin visited her aunt and uncle, Mr. and Mrs. S.E. Askins here last week.

Mrs. Viola Reynolds accompanied Mr. and Mrs. Lewis Russell and nephew and wife, Mike and Carol Russell on an enjoyable weeks trip in the Ozarks. They visited Eureka Springs, Arkansas, attended the Passion Play and the Pageant "Shepherd of the Hills". They then drove to Bronson and to Beuna Vista, Mo. and visited the Exotic Animal Kingdom which was very interesting. Mrs. Reynolds reports it was one of the most delightful trips she has made.

Mr. and Mrs. Jim Morris left Thursday to meet his brother and wife from Colorado in Oklahoma City. They all drove to Drumright and attended the funeral services of their sister-in-law, Mrs. Gussie Morris, on Friday. She was seriously injured when a tornado destroyed the rest home in which she resided in Drumright. Several were killed and many injured when the tornado hit Drumright. Jim's sister-in-law had visited in Burk several times in the last few years.

to see him several times in the last few days. His daughter, Mrs. Polly Carithers of Detroit, Michigan is expected Sunday. Her son, Andy Carithers arrived the first of this week to be here several days.

Peanut Butter Was Early Health Food

Peanut butter was developed back in 1890 as a so-called "health food." It was invented by a St. Louis physician who was seeking a nutritious, easily digested, high-protein food for his patients.
 Today, more than half of the nation's peanut crop is used each year to make peanut butter.

Energy Kit Given Employees

R. J. Reynolds Industries, Inc., Winston-Salem, N.C., is making a comprehensive effort to encourage employees to save energy.

Last fall the company mailed an "Energy Conservation Kit" to all employees at their home. In included information of energy-saving measures designed for use around the house.

Also distributed in the kits were bumper stickers urging employees to "pool it," and tags reminding office workers to "cut off when not needed" electrical equipment such as typewriters.

THOUGHTS

From The Living Bible
 Suddenly, as they were drinking from these cups, they saw the fingers of a man's hand writing on the plaster of the wall opposite the lampstand. The king himself saw the fingers as they wrote. His face blanched with fear, and such terror gripped him that his knees knocked together and his legs gave way beneath him. "Bring the magicians and the astrologers!" he screamed. "Bring the Chaldeans! Whoever reads that writing on the wall, will become the third ruler in the kingdom!"

Library Corner

The Texas State Library Reading Club now has 54 members. There are two weeks left to complete the list of twelve books. So, try these new junior books: THE STRONGHOLD, by Mollie Hunter; THE CASE OF THE SILVER SKULL, by Scott Corbett; THE OTHER GIRL, by Marjorie Hall; or GO PHILLIPS, GO, by Amelia Walden. For the younger readers, there are two new Dr. Seuss books and a series of Walt Disney movie stories.

Fiction for adults is plentiful: mystery readers - THE QUICK RED FOX, by John D. McDonald; THE SLEEPWALKER, by Helen McCloy; SOME LIE AND SOME DIE, by Ruth Rendell, and several reprints of old Agatha Christie books. ORBIT 13 - anthology of SciFi, edited by Damon Knight, and ASTOUNDING, edited by Harry Harrison are sure to please science fiction lovers.

On the best seller lists are I HEARD THE OWN CALL MY NAME, by Margaret Craven, and TINKER, TAILOR, SOLDIER, SPY, by John LeCarre. For Susan Howatch fans, we have her new, big CASHELMARA.

BRIGHT EYES is the story of Susette LaFlesche, an Omaha Indian, by Dorothy Clarke Wilson. Her exposure of injustices to the Ponca Indians resulted in changing government policy in the United States and England.

Art Linkletter's new book WOMEN ARE MY FAVORITE PEOPLE recounts late after tale of "feminine fortitude, humor, courage, and absolute unpredictability".

The third book of Anne Morrow Lindbergh's dairies, is LOCKED ROOMS AND OPEN DOORS. This volume begins in 1933 soon after the kidnapping of her first child. It shows her struggle with fear and the determined exploits of her husband. But, there are the high rewards of early flying beauty and adventures, and of equal partnership in a demanding task.

John Fetterman writes about LIFE IN RURAL AMERICA in the new National Geographic Society book. It is full of lovely photographs and interesting text.

Area Instructors Attend IDI Workshop In Burk

Forty area school teachers attended the Instructional Development Institute (IDI) teacher workshop held at Burk Burnett Junior High School June 24-28.

The program, sponsored by Region IX Education Service Center of Wichita Falls, was headed by Dr. Keith Requa, Bud Montgomery, Paul Greene, and Don Brewer of the center. Twelve counties are included in Region IX.

The five-day workshop (40 clock hours) was attended by volunteer teachers, principals, and counselors of all grade levels who wished to stay abreast of new teaching methods. The in-service training consisted chiefly of the identification of specific

instructional problems, with the development of feasible plans which will work most effectively to combat these problems.

Participants were provided resource materials, booklets, and manuals by IDI to aid them in further instructional development.

Cost of the materials, financed by Region IX, is around \$1,000 per session.

Burkburnett is the fourth school system to host the program in the past two years. It has been held in Nocona, Vernon, and Vernon South in the past.

Dr. Requa of Region IX reported that at this time there are no other IDI programs planned, but details can be worked out at the request of

other districts should they be interested. He said that he wished to thank Superintendent Pearson and the Burk Burnett Independent School District for use of local facilities and the help they rendered.

Those attending the workshop include Pauline Evans, Betty Garland, Margaret Ann Hooper, Mary Jackson, Mary Jo Koller, Dorothy Lewis, Estella Martin, Jerry Sue Netherly, Kenneth Pace, Ola Quattlebaum, Louise Ratliff, Nancy J. Richter, Zell Schmidt, Mildred Travis, Hazel Willis, Dorris Youngblood, and Karen Youngblood, all of the Burk Burnett ISD.

Eight attended from Electra ISD, six from Iowa Park ISD, two from Seymour ISD, two from Wichita Falls ISD, and one from Henrietta ISD.

Burkburnett Study Club Discusses Projects

Members of the Burk Burnett Study Club met at the Community Room of the Burk Burnett Bank to discuss plans and projects for the coming club year.

Lt. Col. Jane Sewell (Ret.), president, opened the meeting with prayer. Club members gave Allegiance to the Flag and Col. Sewell gave a detailed account of the activities at the State Federation Convention in San Antonio.

Mary Hicks, Yearbook chairman announced that the course of study for the 1974-75 club year would be 'Unity for

Strength in Our World'. Projects were discussed and approved by club members and it was announced that Heritage Week will be observed and a store window decorated to portray Burk Burnett's history.

Mrs. A. R. Hill was granted an Honorary Membership.

Members present were Col. Sewell, Marie Raines, Ann Gillespie, Helen Reasoner, Virginia Carpenter, Eileen Bear, Kathryn Potter, Mary Hicks, Gloria Skelton, Beulah Morris, Jean McBeath, and Evelyn Felty.

VRJC Cosmetology Screening To Begin

Applicants for the Vernon Regional Junior College cosmetology class to start September 3, 1974 will be screened the week of July 22 through July 26, according to Ailene Rushing, instructor for the course.

The screening process is necessary to limit the number of students in the class to the

maximum enrollment allowed by state regulations.

Prospective students should submit their application to the VRJC Registrar's Office.

The cosmetology program will be beginning its second year at VRJC in the fall. The class meets from 11:00 a.m. to 5:00 p.m. Monday through Friday for one year.

Theta Epsilon To Host District Meet

District VI of the Epsilon Sigma Alpha International Sorority will have its quarterly meeting in the Burk Burnett Civic Center Sunday, July 7. The meeting will be hosted by the local ESA chapter, Theta Epsilon, led by President Ramona Vaughan.

Morning registration will be followed by the district business meeting and a luncheon. The theme of the meeting, "Come To Our Boomtown Ball" will be carried out in the barbecue luncheon and the decorations which will typify Burk Burnett's boomtown heritage.

District awards will be presented to individual chapters from all over North Central Texas. The meeting will be conducted by District VI President Bernice Ball.

Prizes donated by local merchants will be raffled off and door prizes furnished by members of the local chapter will be presented to those attending.

Since Epsilon Sigma Alpha is an international service organization, emphasis will be placed on plans for projects for the coming year.

CHAMBER GUESTS--The Burk Burnett Chamber of Commerce had its monthly luncheon Monday, with Col. Carl Brunson of the Sheppard AFB School of Applied Aerospace Sciences (center) as guest speaker. Brunson and his aids, Capt. Michael Sartori (left) and Lt. Robb Krechow (right) presented a program describing the changes in training techniques at Sheppard. Also pictured is C.J. Lippard, Chamber President (2nd from left) and T.M. Cornelius, program chairman (2nd from right). See related story on page one. [Informer/Star Photo]

PANELING UP--Progress on the Westside United Recreation Hall has been continuing. Work on the paneling was completed last week as shown in photo, and other areas are now being completed. According to James Ayres, president of the club, there will be a July 4 barbecue on the grounds of the new hall Thursday afternoon. Donations are still being accepted for improvement of the center. VRJC Drama Students Travel To New Mexico

Miss Kay Murdick, drama instructor at Vernon Regional Junior College, and two of her students, Kim Ray of Electra and Monty Smith of Thalia, will be traveling in a New Mexico based summer-stock theatre company during July and August.

The Kaleidoscope Players were founded by Bill Fegan of Raton, New Mexico, and he currently serves as the managing director. The company, billed as New Mexico's State Theatre, will be producing six shows during the summer season including: "Once Upon a Mattress", "Plaza Suite", "The Wonderful Ice Cream Suit", "Ladies in Retirement", "Taming of the Shrew", and "Story Theatre".

Miss Murdick, Mr. Ray and Mr. Smith will be appearing in three shows each during the tour. Having had previous

experience in this particular type of theatre, Miss Murdick forewarned her students of the grueling schedule that awaits them. The company will be performing one show at night and rehearsing another in the mornings which she assured them would make a very full day, but also provide excellent training.

During the meeting, Mrs. Ben Fulton of Quanah outlined changes in yearbook make-up and reporting. She is the district

president. It was announced that each club is to have a program on the meaning of Federation, on Americanism, and on the Bicentennial, and that a Texas Heritage Department has been added to be an extension of other departments. Other details concerning schedules, goals, and requirements were

also discussed. Santa Rosa District officers attending the seminar included Mrs. Fulton; Mmes. Robert Norris of Burkburnett and Joe Powell of Olney, vice presidents; Lorene Howard of Quanah, secretary-treasurer; and Gary Owen of Burkburnett, district junior club director.

Multiple choice is the name of the vacation game in West Texas when it comes to riding the Texas Travel Trails. Four trails fall entirely within the western half of the state, while another three overlap its eastern rim.

Entirely West Texan in flavor are the Mountain Trail, Pecos Trail, Plains Trail and Forts Trail.

Sharing part of West Texas' geography are the Lakes,

Brazos and Hill Country Trails. The listed attractions for all seven trails total 354. The four primary West Texas trails count up to 202 among themselves, in a region larger than most of the 49 other states.

Other states, in fact have begun to emulate Texas' geographic approach to travel—Montana and Missouri, for example—while Montana, Wyoming, the Dakotas and Nebraska have formed a region known as the Old West Trail.

Information on the seven West Texas trails is available from the West Texas Chamber of Commerce in its new Wonderful West Texas Fun and Adventure Map.

Abilene is the home of the Texas Forts Trail Association and the West Texas Chamber. This spring the Forts Trail Association, recognizing new travel needs because of fuel, painlessly "drew and quartered" the trail into four

quadrants. The rangeland trail was presented as four "mini-trails". Each contained two of the old frontier forts: Richardson and Belknap in the northeast, Phantom Hill and Griffin in the northwest, Chadbourne and Concho in the southwest, and McKavett and Mason in the southeast.

The idea was a closer-to-home approach for the 691-mile Forts Trail.

The starting point for each trail and the number of its attractions are: Mountain, El Paso, 59; Pecos, Odessa, 42; Plains, Amarillo, 42; Forts, Abilene, 49; Lakes, Dallas, 62; Brazos, Waco, 43; and Hill Country, San Antonio, 48.

Brochures of the travel trails, and of the Fun and Adventure Map, may be obtained from the West Texas Chamber of Commerce, Box 1561, Abilene 79604.

Weekly Health Tip
from JOE GILLESPIE

Each year, many people suffer from grease fires in pans. To put out a grease fire in the kitchen - smother it with a cover or inverted pan. Dump baking soda (not baking powder) on the flame. Baking soda creates carbon dioxide to smother the flames. Don't pour on water, it will cause the flame to flare up and may spatter the burning grease on you and around the room. In the absence of a fire extinguisher, a pound of baking soda is a good fire control to have handy in the kitchen.

INDEPENDENCE DAY JULY 4, 1974

From The Living Bible

Blessed is the nation whose God is the Lord, whose people he has chosen as his own. The Lord gazes down upon mankind from heaven where he lives. He has made their hearts and closely watches everything they do. The best-equipped army cannot save a king—for great strength is not enough to save anyone. A war horse is a poor risk for winning victories—it is strong but it cannot save. But the eyes of the Lord are watching over those who fear him, who rely upon his steady love. He will keep them from death even in times of famine! We depend upon the Lord alone to save us. Only he can help us; he protects us like a shield. No wonder we are happy in the Lord! For we are trusting him. We trust his holy name. Yes, Lord, let your constant love surround us, for our hopes are in you alone. (Psalms 33:12-22)

AMERICA'S BIRTHDAY

Summer is a little kid being Superman with a cup towel pinned to his shoulders by an understanding mother. Summer is being an astronaut with a cardboard box for a space ship. Summer is summed up in the happiest holiday of them all—the 4th of July! Why? Because this day starts off with a bang, a bugle and a drum!

America's birthday is a houseful of memories for every mother's son and daughter who has ever known what it is to be a kid—a Yankee-Doodle-Andy!

But this day is more than picnics and hot dogs. Lemonade lives didn't produce this great nation. Before the celebration there had to be dedication—"Our lives, our fortunes, our sacred honor." And that's what it cost everyone of our founding fathers.

Summer is—remembering and being thankful.

Summer is rededicating ourselves to see that not pass from this earth. Let us see that

government of, by and for the people does this nation, under God, endures forever!

ROWS OF NESTS—Birds seem to have found an ideal place to build their nests—on the underside of overpasses. There are rows of nests designed similar to dirt-dobber nests, but much larger, along the bottom of the overpass located on the east end of Glendale

Street. The type of bird usually builds nests on cliffs, but the new location seems to have become popular with them. Pictured is one row of the nests built by swallows. [Staff Photo by Ricky Stevens]

THANK YOU, DAN & PEGGY

The entire little league organization of Burk Burnett, including all the players, coaches, umpires, and parents wish to take this opportunity to say **THANK YOU** to Dan and Peggy Mills for the tireless effort put forth by them in maintaining the ball parks

during the 1974 season. Thanks to the efforts of these two fine people, the ball parks are in the finest condition we have ever seen them.

We know that it was a work of love, Dan and Peggy; but if it is any satisfaction, we appreciate you and the job you have done more than can be expressed.

Had it not been for your work, the 1974 little league season would still have gone on, but it certainly would not have been as much fun for the boys who played, nor as enjoyable for the spectators in the bleachers. **FROM US TO YOU: THANK YOU!**
