CONKLI
LUME XXVII
tocol News Letter
—by—
D. McFARLANE, H. C.
R. 1 or H. R. 3896?
February 21st Congressman
Patman placed his petition
before the House to discharge the
Means Committee to force
discharge of his bill, H. R. 1, for
the balance due on the
Service Certificates be-
neficially consumed that balance.
This bill, since the repeal
of the discharge rule on Jan-
uary 1st, this petition had 149
signatures to be
leaves 69 signatures to be
for the required 218 sig-
atures for a majority of Congress,
to be referred to a committee or force
to the floor when a hos-
tility desires to smother
the bill. On March 2nd, the
Means Committee de-
clined to begin hearings in the above
Monday, March 4th. All of
the American Legion Posts in my
reporting so far, except the
Post, favor the Patman Bill.
The Legislature last week
passed a resolution favoring im-
provement of the Bonus and
other state legislatures have
passed. No doubt this legis-
lation will be brought before the
House for consideration next week.
It is: should we pay the
bonus of \$2,227,500,000 as
provided in the necessary bonds,
to be repaid by due govern-
ment (the Vinson Bill),
or do we save the taxpayers
\$2,227,500,000 and pay the same
the issuance of new cur-
rency without additional expense to
the government (the Patman Bill).
The bill issued under H. R. 1 is
with currency now in cir-
culation through the banks. The
difference is that we are paying
in bank currency and we
have no interest on money
lent under the Patman Bill.
Farm Credit System
The Farm Credit Administration
has a complete credit system
in operation. The needs of the
farm are different from
other businesses.
The first time in any coun-
try a complete credit struc-
ture has been set up for the farm
separate from the com-
mercial structure.
The greatly reduced the interest
within sixteen months
and saved more than
million farm homes. However,
the completely parallel the
credit structure.
The Honorable Marvin
Texas, has introduced a
H. R. 6151, giving the In-
debt Credit Banks, which are
not banks for the farm
the same reserve note is-
sues which the Federal
Banks now have.
This will be done on a perfectly
equal basis.
The 75 percent reserve will be
and the sixty percent
the ranch paper will be used
the commercial paper is
for Federal Reserve notes.
It will do away with the neces-
sary tax-exempt bonds, in-
stead of my proposed amend-
ment to the Constitution, H. J. Res.
will substitute another
just as sound as the Fed-
eral notes—in fact, the
character of notes.
This will still further reduce
rates on all types of
loans.
It will also encourage
the owners by providing
not to exceed \$5,000 at a
interest not to exceed two
This provision would ap-
ply to existing indebtedness
and new money. Any time the
transfers to other than an
former owner, the interest
will be increased automati-
cally to the regular rate. This would
speculation. It would en-
courage renters and share-crop-
pers and pay for a home.
It would be good when you
anything sane and decent
constitutional amendment.
The opportunity is one
that disgraces the family by
supper instead of dinner.

NUMBER 29.

Two Men Rob Filling Station

The Gilbow Service Station was robbed Saturday evening about 5:30 by two young men, who took \$13.00 from the cash register.
According to reports the two men stopped at the station and asked to borrow some tools to fix a water pump. While Mr. Gilbow was helping one of the men fix the pump in front of the station, the other one went inside and looted the cash register. Mr. Gilbow suspected something was wrong and when the men left the station in a run, Mr. Gilbow gave chase but was soon left behind. He later gave chase in a car but according to Mr. Gilbow, the culprits have not been apprehended.

J. F. Vogel Receives Painful Burns As Home And Contents Destroyed By Fire Early Friday Morning

J. F. Vogel, Burkburnett chicken rancher, was reported resting as well as possible Wednesday. He received serious burns during a fire which destroyed his home at 2 o'clock Friday morning.
Defective wiring was blamed for the fire, Mrs. Vogel said Friday night. The residence was located in the Northwest field near Newton. The Vogel family has lost four homes by fire in recent years. Mrs. Vogel was visiting in Iowa Park with relatives at the time of the fire.
Mr. Vogel, a brother of Judge Irvin J. Vogel of Wichita Falls, was enveloped in flames as he opened a kitchen door in an effort to escape the blaze which had filled the house with smoke, when he was awakened by a daughter, Hazel Ruth, 16. He received burns on his hands, face, arms and two-thirds of his chest.
Hazel Ruth rushed from the house when she was awakened by the smoke, but returned at once to arouse her father. Mr. Vogel started out through the kitchen but when he reached a recently constructed sleeping porch he was unable to locate the door in the kitchen, but the blaze blocked escape through the other rooms and he again sought the back door on his hands and knees, escaping after further delay.
The house and contents were uninsured. Mr. Vogel and his daughter were able to save only their night clothing. Mr. Vogel grabbed a purse as he left his bedroom. The fire spread to the garage but the barn and poultry houses were undamaged. Ralph Weidner, a neighbor, rushed Mr. Vogel to the hospital.

Burkburnett Deputy Added by County Protection for Oil Field Area Provided

For the better protection of private property in the oil fields northwest of Burkburnett, employment of an additional deputy sheriff for duty in precinct 2 was authorized by the county commissioners court Monday after Sheriff Pat Allen had agreed to appoint such an officer and pay his salary out of fees of that office.
Petition Presented
Citizens of that community asked the commissioners court two weeks ago to provide a special deputy sheriff for that area, but the sheriff declined to add another deputy to the present staff, according to County Judge H. W. Fillmore. Residents in precinct 2 then asked the court to appoint an additional deputy sheriff for duty there, with the understanding that his salary would be paid by citizens of the area patrolled. The county judge ruled that the court could not legally make such an agreement. Sheriff Allen Monday agreed to add a deputy to serve Burkburnett area, and to be paid out of the regular fees. By state law, the minimum salary for such an officer is \$40 monthly.

Reagan Donates Tract Of Land for City Relief Garden

City Manager Ross Reagan has turned over to H. D. Smith, relief administrator, a small tract of land south of the city for a relief garden. The plot of land will be worked by people on the relief rolls and will be planted in all kinds of vegetables, the plants and seeds to be furnished by the government.
This is the second tract of land that has been secured by Mr. Smith for the purpose of using as a relief garden. He recently leased a tract of land from J. L. Williams.

Saves Pair Of Trousers And Purse; Fourth Home To Have Caught Fire

Hazel Ruth rushed from the house when she was awakened by the smoke, but returned at once to arouse her father. Mr. Vogel started out through the kitchen but when he reached a recently constructed sleeping porch he was unable to locate the door in the kitchen, but the blaze blocked escape through the other rooms and he again sought the back door on his hands and knees, escaping after further delay.
The house and contents were uninsured. Mr. Vogel and his daughter were able to save only their night clothing. Mr. Vogel grabbed a purse as he left his bedroom. The fire spread to the garage but the barn and poultry houses were undamaged. Ralph Weidner, a neighbor, rushed Mr. Vogel to the hospital.

Poultry Meeting At High School Friday Night

Be prepared to take care of your baby chicks before they arrive from the hatchery is one of the most important steps in raising baby chicks according to a group of poultrymen that met at the high school last Friday night, March 1st. A warm, dry, well ventilated place that is large enough to avoid crowding of the chicks is essential for fast growth and a healthy flock.
Other problems on baby chick production that were discussed were the feeding of baby chicks, diseases caused by lack of care, diseases caused by an unbalanced ration and other interesting information about baby chicks was presented by the group.
At the close of the meeting the group voted to meet again next Friday night at 8 o'clock for a further discussion of the Local Community Problems on Poultry. Those attending were Roy Blansett, George Ferguson, J. C. Martin, W. G. Simpson, George Creamer. The meeting was held under the direction of Frank Kelley and J. D. Everheart, teacher of Vocational Agriculture in the Burkburnett schools. Men and women who are interested in poultry are invited to attend the next meeting on Friday night, March 8th.

Cotton Reduction Contracts To Be Signed This Week

Beginning Monday, all Wichita county farmers who signed 1934 cotton acreage reduction contracts and those producers who are interested in signing 1935 contracts will be given the opportunity to reduce their acreage this year. G. C. McGowan, county agricultural agent, said Wednesday.
The week of March 11 to 16 will be devoted to signing the acreage contracts, and only one week will be allowed, due to limited funds.
Farmers who participated in 1934 will be required to sign supplementary agreements for the 1935 contracts. Farmers interested in signing this year will be required to have production and acreage figures for 1928-34 inclusive. It also will be necessary to know the acreage, number of bales and weight of bales produced in 1934 before the contracts will be completed.
All farmers who made application for Bankhead allotments last summer have been mailed copies of their applications and are requested to bring those copies when they are ready to sign contracts.
Contracts may be signed as follows: In Burkburnett at the Farmers' gin with W. T. Holman in charge; at Electra at the Walker Lumber yard with H. J. Flusche in charge; Iowa Park at chamber of commerce offices with Loy's Barbour in charge; Valley View at the school with W. L. Hodges in charge; Allendale at the school with N. G. Entekin in charge; and Wichita Falls at the county agent's office in the federal building with O. F. Washam, assistant, in charge.

Lions Club

The Burkburnett Lions Club met in regular session Tuesday evening in the basement dining room of the First Methodist Church with Chester Duncan, vice-president, presiding during the business meeting, in the absence of Henry Grace, president.
Lee Clifton announced the numbers on the program which were rendered: Jack Grant, piano solo, S. B. Creighton gave two clever readings, after which a round table discussion was had by members present. K. C. Spell and Ray Ragland were guest of the club.

Burkburnett Library Receives Eleven Of The Latest Books

The Burkburnett Public Library just received eleven new books for the rental shelf. Some are of the very late books; among them being "The Casino Case" by Van Dine; "The Green Light", by Loyd C. Douglas; and "A House Divided," by Pearl S. Buck.

Special Series At Lutheran Church

Clara Lutheran church will observe the Lenten season with a special series of sermons centering upon the Christ and His atoning work. The Sunday evening services will take cognizance especially of the last hours of Christ on earth. His suffering and death. The following series of six sermons has been prepared by the pastor:
Evening services March 10, "Jesus Taken Prisoner"; March 17, "Jesus' Trial Before Caiaphas"; March 24, "The Civil Trial"; March 31, "Christ Before Herod"; April 7, "Jesus Before Pilate"; April 14, "Jesus On the Way to Calvary".
A special series is also being arranged for the morning services. The public is cordially invited to attend all of these services. The sermons promise to be instructive, inspiring and edifying.

NOTICE

Members of the Board of Directors of the Burkburnett Chamber of Commerce are requested to keep in mind the regular monthly business meeting to be held Monday night at the City Hall. Directors are all requested to be on time. The meeting is called for 7:30 p. m.

Lubbock-Wichita Bus Line Sold

The Lubbock-Wichita Falls Bus Co. recently sold their permit and buses to R. C. Bowden and associates for a consideration of \$2200. The owners include R. C. Bowden, Clifton Abbott, Bob Grazier and Gus Fowler, a former resident of Burkburnett.

Last Rites Saturday for Mrs. E. McMurdy

Funeral services for Mrs. Elizabeth McMurdy, 65, mother of Frank Sopher, were held at the First Presbyterian church of Burkburnett Saturday afternoon at 2:30 o'clock with Rev. J. C. Cook, pastor, in charge. Mrs. McMurdy has been a member of the Presbyterian church for over 50 years. She joined the Amnity Presbyterian church in Mercersburg, Penn. in 1885, when she was a girl.
She came to Burkburnett in 1927 and since that time has lived with her son five miles west of the city. Mrs. McMurdy joined the local church, where she has been an active member, soon after her arrival here. Survivors are one son, Frank Sopher of Burkburnett and a brother and sister in Pennsylvania.
Pall bearers were Joe Simpson, L. A. Wilkins, Wilburn Roberts, L. M. Price, Tex Willis and Fred Brookman.
The services were under the direction of the Owens-Brumley Funeral home and interment in the Burkburnett cemetery.

Millions Have Read 'David Copperfield' Dickens' Great Novel

A conservative estimate of the sales of Charles Dickens' novels places the total at well over half a billion copies. The greatest and most widely read of them all is "David Copperfield," now made into a motion picture by the Metro-Goldwyn-Mayer studios, and opening Sunday and Monday at the Palace Theatre with an unprecedented cast of sixty-five stars and featured players.
Dickens' novels are exhibited for sale in book stores with the best sellers of today.

D. M. Needham Dies Age of 49 Saturday

D. M. Needham, 49, died at his home, 1208 North Sixth street, at 2:30 o'clock Saturday afternoon after an illness of two months. He had been a resident of Wichita Falls for eight years, coming from Austin, and had been engaged in the carpenter trade in Wichita Falls since his arrival. He was well known in this section.
Funeral services were held from the residence at 2 o'clock Sunday afternoon, with the Very Rev. Father Patrick J. F. O'Beirne, pastor of the Sacred Heart church, officiating. Burial was in the Sacred Heart cemetery, under direction of the Owens-Brumley Funeral home of this place.
Pallbearers were J. Paul Massey, Andrew Dittoe, C. D. Gerdes, M. A. Rogers, A. M. Tipps and J. O. Brown.
Survivors are the widow; a son, Charlie Needham of Houston; a daughter, Mrs. Gracie Halliburton of Houston; two step-children, Mrs. J. H. Gill and Joe Smith of Wichita Falls; two sisters, Mrs. Millie Yager and Mrs. Mellissie Guess of Austin; and a brother, Will Needham of Austin.

J. W. Gentry Dies at Son's Home Here

J. W. Gentry, 51, resident of Burkburnett for more than 30 years died at 3:30 o'clock Sunday afternoon at the home of his son, J. E. Gentry, west of Burkburnett. Mr. Gentry had been ill for some time and had been removed to his son's home from his residence in this city during his illness.
Funeral services were held at 3 o'clock Tuesday afternoon from the First Baptist church. Rev. Miles B. Hays, pastor, officiated. Burial was in the Burkburnett cemetery under the direction of the Owens & Brumley funeral home.
Mr. Gentry was born in Missouri Dec. 2, 1873. In 1903 he moved to Oklahoma and a short time later came to Burkburnett. Survivors include the widow; the son, J. E. Gentry; two daughters, Mrs. G. J. Boydston, and Miss Maxine Gentry, both of this city, and two grandchildren.

Michigan Youth Continues Revival Campaign Here

Evangelist Archie McWilliams of Port Huron, Mich., is still preaching every night at the Church of God, located at the corner of Ave. E and 1st st. The meeting began Feb. 25, and will continue until March 10. Also Saturday, March 9th, the boy, with some of the Christian workers will conduct an open air service at the corner of Ave. C and Third St. at 3 o'clock P. M. The meeting at the church begins at 7:30 each night, precedes one hour by a special Bible class for the children and young people. Great interest has been shown and we are looking for much good to be accomplished the coming week.
Saturday, March 9th, Mr. McWilliams is expected to tell the story of his life and early ministry. How that through much trouble and opposition, he was led on by the hand and voice of God. He will tell, too, of his battle against wrong in the public school and seemingly he was defeated, but he expects some day to make another attack on public and social enemies. May God give victory in this battle. There are many other experiences of his life, some almost unbelievable, but true. Come and hear for yourself.
Don't forget to send the children to the Bible Class at 6:30 each evening. You are welcome.
Now and then you run across a Burkburnett husband who thinks he really didn't lose anything because the money belonged to his wife, anyway.

People Hold Same Number For Bed Room Suite; Each Receive Same Award

duplicate numbers was due to the fact that in ordering the tickets, the company sent two rolls with the same numbers. He said that in order to avoid any criticism he decided to give both parties a bed room suite.
The suites were awarded to Tex Allen and Mary Sue Clements.

Fairview P.-T. A. Sponsors 42 Party

Tuesday evening, March 5, the Fairview Parent-Teachers Association gave a 42 party in the Home Economics cottage.
There were about thirteen tables of 42 and two tables of bridge. The tables were white with green shampoos at the top. They were made by the Fourth grade.
The games and visiting were enjoyed by the patrons of the Fairview community and many visitors from Burkburnett.
After fourteen games of 42 were played, coffee was served with various kinds of cake.

Notice To Legion Auxiliary Members

The American Legion Auxiliary will meet at the Hall at 2 o'clock P. M. Friday. All members are urged to be present.
Vanity is funny. Burkburnett people who are idle think a busy man stuck up if he doesn't quit making a living and talk to them.

P.-T. A. Study Group Meets Tues., April 2

The study group meeting of the P.-T.A. which was to have been held the first of the week was postponed on account of the illness of several of the members.
The next and last meeting will be held Tuesday, April 2nd, when the members will entertain the P.-T.A. body with a party. The place of meeting will be announced later.

New Church of Christ Building Purchased

The Church of Christ congregation worshipping in the Elks Hall wish to announce they have closed the deal for the property located at East 2nd and Ave. E, and as soon as it can be possessed and repaired properly it will be the permanent meeting place for this people. Our meeting will begin April 9th, Evangelist Will W. Slater, of Ft. Smith, Ark., doing the preaching, in the Elks Hall, where they are worshipping at the present.
—Ben. M. Taylor.

P.-T. A. Study Group Meets Tues., April 2

The study group meeting of the P.-T.A. which was to have been held the first of the week was postponed on account of the illness of several of the members.
The next and last meeting will be held Tuesday, April 2nd, when the members will entertain the P.-T.A. body with a party. The place of meeting will be announced later.

MAYTAG COMPANY SHIPS TRAINLOAD OF WASHERS TO PACIFIC COAST

According to Tom Boyd, local dealer for Maytag Washing Machines, officials of the Maytag Company today announced the shipment of a trainload of washing machines to dealers in the Pacific coast states. The train consisted of fortyfour cars containing more than 4,000 Maytag washers, valued at nearly one-half of a billion dollars. This is the largest single shipment from the Maytag factory since 1928.
In commenting on this trainload shipment, F. L. Maytag, chairman of the board of The Maytag Company stated that the order for the trainload was placed by T. A. Moler, President of the Maytag Pacific-Intermountain Company, distributors, with headquarters at Portland, Oregon. Mr. Maytag further stated that improved business conditions and the desires of both dealers and consumers to take advantage of present prices had increased demand to the point where a trainload shipment was needed to take care of dealers' immediate needs.
Included in the train were approximately 1,000 washers for California dealers. The train will proceed as a unit to Salt Lake City from which point distribution of the cars will be made to dealers.

THURSDAY, MARCH 7, 1935

A YEAR OF ECLIPSES

When the present year ends it will pass into history as one marked by an unusual number of eclipses. Altogether, counting those already passed and the ones to come, 1935 will witness seven eclipses. Five of them are of the sun, two of the moon. It is something which has not happened since the year 1805, and it will not occur again until the year 2435.

The first eclipse this year was that of the moon on January 19, but it was not visible in this part of the world. On February 3 there was an eclipse of the sun, which would have been visible in practically every part of the United States had it been for the fact that the skies were heavily hung with clouds throughout the entire day. The next one, which will also be an eclipse of the sun, is scheduled for June 30, but it will not be visible in this country. On July 16 there will be a second eclipse of the moon, which should be seen in all parts of the U. S. There will be still another eclipse of the sun on July 30, and then Christmas will be celebrated by another one.

We mention these facts for the benefit of readers who may be sufficiently interested to mark down the dates and keep track of them, and we might also add that seven eclipses can also be used by weather sharks in the event they need an alibi to explain why their guesses on the weather went wrong.

LET 'EM ALONE

Senator Wheeler, of Montana, say he is planning to introduce a bill in congress authorizing the taking over of the railroads of this country by the federal government. As far as the people around are concerned, their memories are not as short as Mr. Wheeler's seems to be. Most of them still recall the mess the government made when it attempted to operate the railroads during the war, and the billion dollar bill we had to settle after their return to private ownership. Railroads are a business enterprise, one of the largest and most important business enterprises in this country. Trained men, not politicians, are needed to operate them. And even if the trained men haven't been making out so well during the last few years, their record still is far superior to that established by the government during its costly experiment.

KEEPING BUSY

One man has publicly expressed something of interest in this sentence: "A very busy man has no time to grow old." This may not appeal to Burkburnett people who make a sentiment of growing old by the calendar. It might neither fit into a townsend old-age pension plan, nor be acceptable to the young who feel that the old codgers should be shouldered aside. After all, there is something to commend the philosophy of keeping busy. Any man, at any age, who still is physically and mentally fit, and has something to keep him busy, should forget birthdays and be content to hayfoot—strawfoot happily with the marching years. It's the spirit within that makes the drum major that way.

Another mystery to me is why it is that when a man begins to prosper the chiselers are always the first to find it out.

You should work hard and deny yourself and save, so you can pay taxes to care for those who didn't.

Every town has at least one prominent citizen who got his reputation for good sense by keeping his mouth shut.

The difference between opportunity and a pessimist is that opportunity knocks only once and then quits.

The U. S. has fewer postoffices now than 30 years ago, but it has just as many bum postoffice pens.

What's the use? You spend 20 years learning how to make money and by that time you've forgotten how to spend it.

Farm News From Over The Country

THEY ADD VALUE AND HAVE PLEASURE BEAUTIFYING COUNTRY HOMES

COLLEGE STATION—Texas girls and women, engaged in yard improvement work under Extension guidance in 1934, carried through the drouth alive 169,918 new shrubs in screen, border and foundation plantings placed according to landscaping plans. They also carried 25,666 trees through the "dry spell" and as part of improving the premises had 6,230 sanitary toilets built. To carry on their landscaping they made 7,072 cutting beds in which 100,219 cuttings were living at the time the report was made. In addition to all this 6,681 old lawns were improved and 2,522 new lawns were sodded. The reported cost of the women's yard work was \$7,993.50. No estimate on what the girls spent was available. The estimated

added value to the improved farmsteads because of this landscaping was, according to Miss Onah Jacks, Extension landscaping specialist, at least \$196,542.14 on the basis of the score card used in Extension yard improvement work. Typical of the attitude of these women and girls toward their work in beautifying farm homes is the story of Mrs. J. M. Mixon from San Augustine county. "I am going to have a spring bouquet in my own back yard," said Mrs. Mixon. "I can go to the woods and get as many as I want. Right now I am planting a screen that will be a perfect bouquet in the spring, besides serving the useful purpose of hiding my wash place and potato hill. This screen is made against a background of winter myrtle and youpon. On the other side of my house I have planted a screen of privet against a background of sumac to give a note of color in the fall. The screen when grown, will hide my smoke house."

dividual calf fed on a nurse cow, Merrill Briggance, Lamb county 4-H club boy, made a profit of \$370.20 last year, according to the report of D. A. Adam, county agricultural agent. The nurse-fed calf won two first places and grand championship in stock shows in the county and sold for 9 3-4 cents a pound. The car-load of calves won second place in the 4-H club division of a stock show at Fort Worth and third place in the open class, which brought \$75 in prize money. The car-load of calves had an initial weight of 5985 pounds, with a gain of 9495 pounds reported during the feeding period. The purchase price was \$509.65 and the feeding cost was \$509.46. The calves were sold for \$1,213.25, and counting the \$75 prize money this left a profit of \$370.20.

FORT STOCKTON—An average of five tons of hezari per acre was harvested in 1934 by A. Niemann of Pecos county from 45 acres planted to hezari in July on land where cotton had been plowed under following a hail storm which destroyed the crop, according to L. E. Bailey, county agricultural agent. The cost of production was \$11 per acre and the price received per ton was \$17, which left Mr. Niemann a net profit of \$74 per acre. For the entire profit amounted to \$3,330.

FORT WORTH—From a one-acre demonstration plot planted to cantaloupes, G. B. Howard, Tarrant county 4-H club boy, made a net profit of \$70.95 in 1934, according to M. C. Counts, county agricultural agent. Young Howard broke the land deep in February and then disked and bedded it in five foot rows.

In March he applied three loads of barnyard fertilizer in the furrows in addition to commercial fertilizer and then covered with a turning plow. Later he ran over the beds with a small disk which left the ground nearly level. He planted his hills about three feet apart so that the young melons would be shaded by the vines and so that the moisture would not evaporate from the soil. Hosing and plowing to keep down the weeds was the only cultivation given. His expenses were small because he did the work himself. He began to harvest his crop on June 15. His wets the first cantaloupes in the county to ripen due to his use of fertilizer.

CANYON—From a garden 96 by 100 feet, Mrs. Gordon Cummings, farm food supply demonstrator for the West Side Home Demonstration Club in Randall county, produced more than enough vegetables and fruits to fill a food budget for her family of two in 1934, according to Miss Sadie Kate Bass, home demonstration agent. In a new concrete cellar costing \$15 and containing

125 feet of shelves, a gas light and a water faucet, she has stored 886 containers valued at \$184.65. In addition to 150 quarts of canned meats she has 200 pounds of cured meats. The total cost of the pantry including the money spent on the cellar, was \$30.

BROWNSVILLE—Progress from a bare yard to an almost complete planting in a year and a half has been made by Mrs. J. H. Roach, yard improvement demonstrator of the La Feria Home Demonstration Club in Cameron county, according to Miss Dorothy Potter, home demonstration agent. In 1933 Mrs. Roach began her work, but in September that year a hurricane practically destroyed the work done before that date. She set to work at once to repair the damage, however, and now her planting includes a well sodded lawn, trees arranged to frame her house and provide a background, a foundation planting of permanent plants entirely around the house, and three screen plantings to hide unsightly views. She maintains a cutting bed in which she has successfully rooted many of her plants.

LOCKHART—A total of \$44.75 has been received by Mrs. Jim Galloway of Caldwell county during the past year from the sale of 29 hooked mats, according to Miss Leta Bennett, home demonstration agent. Mrs. Galloway makes her mats from old hose and underwear, and consequently her only expense is for dye. Her mats have been standardized by the home industries specialist of the Extension Service. She also sold one hooked rug and two hooked purses during the year for \$10, making her total income \$54.75 from this source.

4-H club boys and girls—94 of them—of Wharton county went to the woods in January and brought back 147 native shrubs which they used with 32 other shrubs to beautify the Wharton county fair grounds. A landscape plan was used to guide the planting.

Home grown grain, plenty of skim milk and green feed helped Orville Laabs, 15, Cameron county 4-H club poultry demonstrator, to keep his feed cost down to 53 cents per hen for 10 1-2 months.

An average gain of 542 pounds for the 27 4-H club calves being fed out in Menard county sets a record for the 209 day feeding period reports Frank Newsum, agricultural agent, who thinks his boys are

smart to have defied the drouth so successfully. The ration, changed from time to time, was largely corn, barley, oats, sweet feed and cotton seed cake.

In Goliad county nine boys are cooperating in a demonstration in which 23 pigs have been put on feed in a splendid location with access to plenty of green pasture. They will have self-feeders, constructed the A and M way, and shelled corn combined with protein supplement will be the ration. Local bankers have set up a revolving fund to help the boys finance the venture and the Goliad rotary club has underwritten it for them.

4-H club girls in Gregg county have taken up yard improvement work with enthusiasm. Each club has a demonstrator who will beautify her whole yard while all other girls are cooperators and have as their goals cleaning their yards of all rubbish, starting a cutting bed to grow shrubs for later planting around the house, and making a flower bed of annuals.

A WORKSHOP THAT WILL SOMEDAY BE A SHRINE.

In a backyard workshop somewhere in America a named young inventor is at work. Under his tireless hands a strange machine is taking form—a machine whose name or use we do not even know.

But someday your grandchild will say: "How hard life must have been in 1935 without it!" And you will think of the thousands of people to whom the manufacture and sale of the machine have given employment . . . of the millions to whom it has given new ease and convenience . . . of the untold sums of new wealth and purchasing power that this little invention has created. And you will agree.

It is her Edisons, her Wrights and Fords that a troubled world always turns. As long as the seed of invention flourishes in American soil the nation's future will be bright.

"Serving Burkburnett Since 1907" Burkburnett, Texas

Why Southwestern Life Registers Every Policy It Issues

INSURANCE laws of the State of Texas provide how a life insurance company of Texas may register its policies. A registering company must deposit approved securities in an amount adequate for the protection of policyholders.

The Registration Law requires the segregation of policyholders' funds, thus preventing substitution of assets without the knowledge and consent of the State Insurance Department. Experience of the last five years has demonstrated the effect and value of registration laws.

The Registration Law makes mandatory the valuation of the required securities at the current market. A company which elects to operate under a market valuation law evidences the intention to invest policyholders' funds with added caution.

Many good companies do not elect to register their policies, and we urge policyholders of such companies to maintain their insurance in force.

TO PURCHASERS OF NEW INSURANCE WE OFFER ADDED SECURITY AT NO ADDITIONAL COST

Vacancies Announced In Marine

Capt. George R. Rowan, in Charge of Replacement at Marine Corps District B, New Orleans, La., has vacancies for a few young men 18 years of age, from 68 to 72 in height, of good moral character and in sound physical condition.

Applicants to fill vacancies receive their preliminary examinations in their localities and those selected receive final examinations at U. S. Corps Headquarters, 535 St. Charles Street, New Orleans. Complete information and application will be mailed on request.

The Marine Corps offers a wide range of assignments and sea duty. Many young men are selected for aviation, radio, clerical, mechanics and other specialties for specialist training aboard some battle-ship, or to some foreign station. The United States is interested in serving afloat or on foreign duty. Travel thousands of miles in many strange places.

On Pruning Planting Roses

Lebo, Professor of Horticulture, N. T. A. C., Arlington

When should roses be pruned? are the questions frequently asked at this time. These questions may be answered in the following general

... should be purchased from a reliable nurseryman to insure the proper handling of the plants before reaching the time from the digging of the nursery to the time they are set out should they be exposed to the sun and air long enough to dry the roots to the extent that they cannot grow.

Roses prefer a well-drained soil that is high in organic matter. The holes should be dug deep and the top soil placed around and around the spread of the plant will be set deep as it was while growing in the nursery. The tops should be cut back about six inches long to induce the growth of new stems, it is necessary to remove the old stems during the growth begins. However, where only one stem is involved, it is better to delay pruning until the last freeze even if growth has begun. Some years the roses break unusually early. The main branches are cut back, there are usually one or more stubs left on each stem or stalk, each stub should be cut back three or four good inches or spindly branches should be removed entirely. The stub on each stub should be cut back to induce the bush to grow.

At the time of the year to dig rose bushes is when they show the least growth.

Washington Digest

National Topics Interpreted
by William Bruckart

National Press Building Washington, D. C.

Washington.—Although it has been several weeks since the Supreme court of the United States rendered its history-making decision in the gold cases, there is no slackening in the disturbance from the effects of the administration's gold policies, even in the light of the court ruling. While the court held that congress had no power to enact legislation invalidating the gold clause in government bonds, it said in the same breath that collection from the government by a bond holder was another story. Since the govern-ment has taken gold out of circulation, collection appears virtually impossible but the appearance is not going to stop bond holders from seeking what they regard as justice.

It is now apparent that the govern-ment's action is going to be regarded both here and abroad as repudiation. That is a nasty word when applied to governments and its repercussions likely will be heard for a good many years. While the repudiation of the gold payments will affect comparatively few people directly, the significance of the action in a political way is becoming more and more apparent. The repudiation in its effect on the bond holders may be only temporary, but its effect politically will be far-flung.

I think it is generally considered now that the gold question will become a paramount issue in the next political campaign and it is not impossible that it will continue to be an issue over a period of years. This is so because, admittedly, actual damage has been done to American prestige in foreign lands. It is made to appear, therefore, that there will be a combination of international and domestic influences at work henceforth with respect to this government's gold policies.

Domestically, the issue was born in the presentation in congress of two bills designed to restore, partially at least, the status of this government as regards the gold policies to that obtaining before the devaluation of the dollar. Simultaneously, former President Herbert Hoover, in one of the few expressions made since retiring from office, declared his belief that the return of gold payments was necessary and vital to stabilizing conditions and re-establishing the United States in world favor.

Of course, with the abundant Demo-cratic majority in congress, the gold bills will get nowhere very fast. Like-wise, Mr. Hoover's expression can and will result only in providing ammunition for New Deal supporters, whose answer to criticism usually is a ques-tion whether it is desired to return to the conditions that caused the depres-sion.

Nevertheless, I hear considerable dis-cussion to the effect that these ripples must be considered as only the begin-ning. They will have the effect of caus-ing many people to think about the problem. Discussions will take place in the homes and in the shops. There will be those who contend for sound money of the old style. Equally vehe-ment defenders of the New Deal will arise. Thus, the issue becomes joined and it is not outside the realm of pos-sibility that monetary questions will become as important in 1936 as they were in the Bryan free silver days.

Now as to the practical operation of the gold rulings:

There can be no doubt that the Con-stitution gives con-gress power to coin money and regulate its value. The Supreme court always has sustained this power. So, when congress, by resolution, allowed President Roose-velt to seize all of the gold in this country and hold it in the treasury, it accomplished indirectly that which it could not do directly. In this way it forced the invalidation of thousands of private contracts wherein one party promised to make payments in gold. Congress made such payments impos-sible and those who were to be paid have nothing left but disillusionment. As to the gold payment clause in the government bonds the Supreme court said that congress had no right to enact legislation the effect of which was to void that payment. It would seem, therefore, that some way should be found to force the government to make good. That way lies only through the Court of Claims of the United States, and when that court is denied jurisdiction in suits to recover, the bond holder is left with a right, but that right is unenforceable since the government can be sued only with its permission.

On top of these circumstances, and as a long range proposition, consid-erable attention has been directed to the relationship between the gold clause decisions and inflation. There is a di-rect link. This link, without doubt, should be watched by all of those who think of the future of this nation.

Inflation of the credit has been go-ing on continuously since Mr. Roose-velt took office. The federal govern-ment has set no limit to the borrowing which it will undertake in its pro-gram for recovery. The Supreme court has said directly that govern-ment securities are worth whatever the administration and congress de-termines them to be worth because

dollar can be valued up or down as cir-cumstances warrant.

But the value which the President and congress place upon the dollar may differ materially from the value which the public places upon the cur-rency. The public will view the dol-lar in terms of its purchasing power. Public confidence in the currency, therefore, becomes an absolute neces-sity and once it is shaken, if history means anything, it takes a long hard pull to get it back. So, if congress shows a willingness to repudiate obligations as it has shown already, the public sooner or later begins to wonder what the end will be.

Throughout history, wherever and whenever such a condition has arisen, the public seeks to convert this doubt-ful currency into material things, those of a utilitarian value, which it may use. Money, being inedible, is sought to be exchanged for things to eat, to wear, to sustain life and comfort. This is what is meant in expressions "the flight from the dollars," or "the flight" from any other currency about which we have heard so much since the World war.

The situation in congress in the last few weeks has provided a test for President Roosevelt's political acumen. It has been far more a test of his skill than otherwise would have been the case because for almost two years he has had a congress so obedient to his command as to merit the description of a rubber stamp legislative body. Now, however, the President is faced with the necessity for political manue-vers of the highest order and upon the results of his tactics much will de-pend. He can cement the links of the Democratic party or he can cause them to disintegrate by the courses he fol-lows.

Some curiosity has been aroused by the fact that for the first time since he became President, Mr. Roosevelt omit-ted in several instances lately to send administration drafts of bills for con-gressional consideration. His practice hitherto had been to have the bills drafted in executive departments and submitted with a recommendation that they be enacted in that form. Until some of the factions in congress began to feel their oats this plan worked very well. A change has come over some of them, however, and they are now in-sisting upon preparation of the legis-lation themselves.

Another significant development—and this links to circumstances of sev-eral months ago—was the presentation by Senator Wagner of New York of a bill to settle labor disputes. This bill does not have administration approval. Indeed, it is quite contrary in some of its phases to the policies which Mr. Roosevelt has sponsored in his deal-ings with organized labor. It seems important, therefore, that Senator Wagner, who for so long was regard-ed as Mr. Roosevelt's alter ego in the senate, should deliberately offer legis-lation to which the administration had not agreed. With further reference to Senator Wagner, who comes from the President's home state of New York, it is interesting, even if unimportant, that Senator Wagner did not support the President in the latter's efforts to force the \$5,000,000,000 work relief bill through the senate. Since Senator Wagner has been consistently a New Dealer many observers are asking with some logic whether the New Deal supporters have begun to crack up.

It will be recalled that in asking for an extension of the national industrial recovery act for a period of two years, President Roosevelt merely outlined in his message the fundamentals of the plan he was recommending. He carefully avoided reference to any draft of such a bill. It occasioned some surprise that this was so but closer analysis of the situation should have developed reasons therefor. Most of these reasons are traceable directly to the cir-cumstances I mentioned above, name-ly, the necessity for tactical skill in maneuvering the political strength available to the President.

Observers here generally are agreed that Mr. Roosevelt can turn on full steam and hold a powerful majority in both house and senate. But, the ques-tion is whether this is the wiser course from a political standpoint. In this connection the expression has been heard several times lately among Dem-ocrats who have been regarded as among the leaders that it might not be well to prod stubborn mules too far. The best information I can gather is that while Mr. Roosevelt did not offer a draft of NRA extension legislation, a bill will be forthcoming in a couple of weeks from the senate finance com-mittee that will have had prior ap-proval from the White House. Some thing of the same course is sched-uled for the house side. Thus, the pic-ture becomes complete. The fine Italian hand of the administration comes into view.

The story we get around Washington is that this course of action will be used more and more as a means of avoiding open disputes and stubborn-ness on the floors of the house and sen-ate.

You'll get two-fold satisfaction in serving Mity-Nice. You know your family, your guest will hail it with delight. You also know that serving Mity-Nice is smart and sensible economy. That the best nationally advertised materials that go into it make it a double rich energy-giving food. When ordering your next loaf

Don't Say Bread Say MITY-NICE

Don't forget the new thrilling recipe in Saturday's loaf.

Isn't it nice that our principles always fit and approve the thing that helps our pocketbooks?

The boss of a Burkburnett family is the one who can make the others most miserable till they give in.

BETTY ANNE HUMOR

A Burkburnett teacher asked her pupils to write compositions on the life of Abraham Lincoln; one of the essays was as follows: "Abraham Lincoln was a great man. He was born in a log cabin which he helped his father build." P. S.—Don't forget that we have been building with Burkburnett for twelve years. . . . Our machinery and methods are as modern as can be obtained. Keep on saying "Betty-Anne".

Mrs. G. A. Reaves Is Hostess To Jr. Culture Club

The Junior Culture Club met February 26, 1935 at the home of Mrs. G. A. Reaves, with Jaqueline Kirsh as co-hostess.

The following officers were appointed by the president: Historian, Margaret Mathews; Parliamentarian, Edna Cropper; Social Committee, Lucille Campbell; Martha Kate Alexander and Joy Reaves; Program committee, Billyjane Chatham, Loretta Stacy and Jerry Wiggins.

Loretta Stacy was selected to represent the Junior Culture Club at the Regional Meet at Dallas this month.

The program was as follows: Carnegie, Lucille Campbell; Dwight W. Morrow, Willie Etta Alexander; Franklin D. Roosevelt, Malene Baber.

Refreshments were served to Katie Mae Taylor, Loretta Stacy, Martha Kate Alexander, Margaret Boden, Marion Boden, Jaqueline Kirsh, Billyjane Chatham, Margaret Mathews, Olena Cash, Jerry Wiggins, Joy Reaves, Gayle Preston, Frances Clark, Lucille Campbell, Nedra Campbell, Willie Etta Alexander, Malene Baber, Edna Cropper, a guest, Valletta Smith and our sponsor, Mrs. L. D. Ryan.

Study Club Meets at Mrs. Sessums Home In Wichita Falls

With Mrs. Joy Sessums as hostess, members of the Current Literature Club met Thursday afternoon at her home in Wichita Falls.

Mrs. N. R. Vaught presided during the business session, Mrs. T. H. Boling was program leader for the afternoon.

Mrs. B. F. Gilchrist reviewed T. S. Stribling's book, "The Stone". Mrs. Rex Kolter favored the club with a very clever reading.

A delicious refreshment plate was served to Mesdames T. H. Boling, J. L. Caffee, Fred Flanagan, B. F. Gilchrist, J. N. Hicks, F. A. Jamieson, Gordon Thomas, Geo. T. Kimbell, Rex Kolter, A. H. Lohoefer, Roy Magers, W. M. Majors, J. R. Prince, James Thomas, N. R. Vaught, Jack Land and the hostess, Joy Sessums.

Business Girls Club Entertained At Home Of Mrs. Meador

A meeting of the Swastika business girls' club was held Monday night at the Band Box. Miss Manilla Milford presided at the meeting. The By-Laws of the club were read by Natalie McClure, after which they were discussed.

An hour of various entertainment at the home of Mrs. Meador, Wichita Pavement, followed the business meeting.

Members present were Misses Manilla Milford, Natalie McClure, Juanita Ford, Ruth Willis, Grace Enderrill, Francis Cropper, Bertie Jacobs, Nelda VanLoh, Connie Mae Mullins, Doris Webb and Mesdames Sibyl Dickerson and Hudson Meador.

W. M. S. Study Course

Baptist W. M. S. women met at the church Thursday for an all day study course, studying the book, "Things We Should Know". They had as their guest and teacher, Mrs. J. M. Tanner and Mrs. N. A. Lee of Wichita Falls. A cafeteria style lunch was served to the following: Mesdames A. C. Houser, Brooks Robertson, J. G. Cheney, H. S. Vanleave, C. B. Beldon, John Brookman, O'Neal, Strickland, Dean, Russell, Nickols, Salter, Davis, McMurtry, Hattie Buckalew, Johnson, Leona Hunt, and guests, Mrs. J. M. Tanner and Mrs. N. A. Lee.

Mrs. J. M. Thomas

P-T. A. President

MRS. THOMAS & CO-WORKERS PLAN P-TA MEMBERSHIP CAMPAIGN HERE

The P-T. A. organization of Burkburnett laid the plans for an intensive membership drive Tuesday afternoon. The members of the executive council planned to contact all the eligible persons in the city, and the attempt will be made to bring the membership as near 100 per cent as possible. The organization plans to add at least 50 members to achieve a standard rating. The work will be directed by Mrs. Hugh Preston, chairman of the membership committee and Mrs. J. M. Thomas, president of the organization.

Wed. Fun Club

Mrs. J. A. Collier, Jr., entertained the Wednesday Fun Club with a bridge part last Wednesday afternoon. The decorations were carried out in the pastel shades of pink and green. The plate was one of the most interesting points in the decoration. The sandwiches were pink and green, decorated with a miniature Japanese parasol. The salad was molded in the shape of hearts, spades, etc., two green olives, angel food cake with pink icing and coffee.

Mrs. Cecil Wheeler won 1st prize and Mrs. Joe Coffey won 2nd prize. The guest were: Mesdames V. Hill, Grant Jarrell, Jingle Hays and Miss Bernice Rose. The next meeting will be in the home of Mrs. Wayne Goodlett.

Local Baptist W. M. S.

Baptist Women's Missionary Society opened their all day mission study program Monday at the Baptist church, with the Lockett circle giving the program.

Mrs. Edd Lewallen gave the devotional on "Prayer". This was followed by a prayer which was led by Mrs. John Brookman. A hymn was then sung, "Fling Out The Banner". The first topic to be discussed was "Christian Education in American Life", Mrs. Woods; "Baptist Schools in America," Mrs. Keith; "College Y. W. A.," Mrs. John Brookman. This was followed by song, "More About Jesus". Mrs. Sam Davis spoke on the subject of "Mexican Baptist Schools". Topic on "B. S. U." by Mrs. Billy Walker. "Foreign Mission School" by Miss Edna Eyles. This being the closing for the mission study program, Mrs. Hattie Buchanan then took charge to bring forward a program on Week of Prayer, the subject being, "Revival Fires". Devotional by Mrs. Billie Walker, seasoning of prayers, with Mrs. H. S. Vanleave opening the prayer and Rev. Miles B. Hays closing the prayer. The first topic was, "Meeting God's Condition", by Mrs. Salter. "Between the Americas", Mrs. Russell. Mrs. Billie Walker then dismissed with prayer for the lunch hour. The Sallee Circle served a very delicious lunch.

The Garden Club

The Garden Club met with Mrs. Dr. C. J. Morrison Wednesday afternoon, Feb. 27th. The president, Mrs. Tevis, presided. Five new members were welcomed into the club.

Plans for the future activity of the club were outlined. Mrs. Tevis appointed for the year book committee: Morrison, chairman; Lohoefer and Adams. The committee for the constitution and by-laws, Mesdames M. W. Majors, chairman, Everheart and Westerfield. The yearbook chairman, Mrs. Morrison, was chosen, by mutual consent of the club, to be the treasurer for the club. Mrs. Majors was elected historian.

The meeting was turned over to Mrs. Morrison, who had a delightful program planned. Mrs. Westerfield gave a very interesting article on "Novelty Flowers of 1935". She stated that the winning flowers for the year chosen by appointed judges are: 1. Rust proof snap-dragon. 2. Clondyke Gossoms. 3. New Golden Gleam Nasturtium. 4. Shaggy Calendula. 5. Yellow Supreme Marigold. 6. Pure Rose Larkspur. 7. Fancy Zenia. 8. Martha Washington Petunia. 9. New Annual Phlox. A round table discussion directed by Mrs. Morrison, proved quite interesting and helpful. Slips of paper were given each member on which they wrote a question. These were collected and read by Mrs. Tevis. Each question was answered and discussed by the members. A refreshment plate was served to Mesdames Kemp, Flanagan, Ray Hill, Browning, Tevis, Utts, Westerfield and the new members, Adams, Bostic, Everheart, Lohoefer and M. W. Majors. Mrs. Westerfield invited the club to meet with her on Wednesday, March 27th.

Chickens-Turkeys

Give them Star-Sulphurous Compound in drinking water regular. Use as directed and it will keep them free of germs and worms that cause diseases. Also free of blood-sucking lice, mites, fleas and blue-bugs that sap their vitality and we will guarantee you to have healthy, good egg-producing fowls and strong, healthy baby chicks at a very small cost or your money refunded.

Young Matrons Class Holds Social Meeting

The Young Matrons Sunday School Class of the Baptist church held regular monthly meeting Tuesday evening, March 5, in the T. E. L. room with Mrs. B. F. Gilchrist, president, presiding. The meeting was opened by singing "He Lives On High" and Mrs. A. H. Lohoefer bringing the devotional.

Mrs. H. B. Buckalew presented an interesting program of music and readings.

A very special announcement was made in the form of "We Want Twenty Young Matrons." If you are one of these, please be in your class Sunday morning, March 10. We need you.

Jr. University Study Club

Texas Independence Day served by the Junior University Study Club Monday evening, 4th., with a program on the home of Mrs. Roy Wood.

Facts about our Texas were given us by Miss Pansy and Miss Alice Morgan told Playgrounds of Texas.

During the business session presided over by the president Pansy Mills, the resignation Kathryn Exley, was accepted. Margetta Purcell was elected gate to the district conference. Federated Clubs to be held at Wells in the near future.

After an enjoyable social refreshments were served by following members: Misses Beulah Gates, Gertrude Heisterman, Hightower, Sara Majors, Kirby, Pansy Mills, Alice Margetta Purcell, Erma Schaefer, Alice and Gladys Westbrook, James John Foster, Frances Jack Everheart, and Carl White.

P-TA Board to Meet Tuesday Afternoon

The Executive Board of the Burkburnett P-TA will meet at the school building at 3:30 P. M. Tuesday. This is to be a very important meeting and reports will be made on the membership drive which is now in progress.

Death doesn't scare some Burkburnett husbands. It's their first chance to get away from home by themselves.

Two legs are better than a load of crutches.

Public Approval

We devote all of our time to the faithful performance of our duties professionally. Our record has placed us on a high plane of efficiency and has won the approval of the community.

Hints for the Household

By BETTY WEBSTER

Days of radios, talking and mechanical pianos, are easy affairs to arrange. Formal dance takes care of the participants all other but when a group of people, most of whom have been each other before, are in awkward situations are the hostess is wise who are that the party gets off start by avoiding such

brittle, friable, short or to enrich the mixture?
 2. The fat counteracts the adhesive properties of the gluten and starch in the flour?
 3. Pastry flour requires less shortening than bread flour because it contains less gluten than bread flour?

RECIPES

Celery Relish

1 quart of celery, cut in small pieces
 1 green pepper, chopped
 1 quart of vinegar
 1/2 teaspoon of cloves
 1/2 teaspoon of allspice
 1 stick of cinnamon
 3-4 cup of sugar
 Cook the celery and pepper together until tender; drain. Boil the vinegar, cloves, allspice, cinnamon and sugar for three minutes; add celery and pepper and cook slowly for five minutes. Place in hot jars and seal. This is a delicious relish served with any meat and is particularly good with beef.

Deep Fat Fried Onions

3 large onions
 1 to 2 cups of milk
 Fritter batter
 Cut the onions into 1-3 inch slices; separates the rings; cover with milk and let stand for one hour. Dry thoroughly with a cloth; dip each in fritter batter and fry in deep hot fat (375 degrees) until browned—about two or three minutes.

Eat sauerkraut and you can live to be a hundred, says a health authority. Who would have thought that the lowly cabbage would some day become a century plant.

Big Rabbit Creek

Well, at last Mr. and Mrs. John Ashton got moved into their new home and mansion one day of last week. As yet, Mrs. Ashton hardly has all of her fine furniture in her new home arranged. Mr. and Mrs. Ashton are sure proud to get into their new home. This week Bro. John is having A. K. Wynn build his fine brick hen house. They intend to stock up their new home with the pure-bred White Leghorn chickens, as Bro. John believes in raising thoroughbred cattle, hogs, sheep and chickens. Bro. John says it doesn't cost as much to raise thorough bred animals as it does to raise scrub stuff.

Sunday, Feb. 24th, Mr. and Mrs. John Ashton gave two celebrations at their new home. One was in honor of their new home. The other in honor of three birthdays; Mr. John Ashton and Mr. Joe McCluskey, which came on the same day and Mr. Charlie Griffith, which came the following day. The dinner consisted of a big, fine 22 pound turkey, besides other lines of meats such as home cured ham and home made sausages and fried chicken. Mrs. Ashton's dining room was beautifully decorated for the occasion. Her dining room was long enough to seat fifty-three persons and at 12 o'clock sharp the great feast was announced, with the Hon. A. K. Wynn as toastmaster. The three parties, whose birthdays were being celebrated, were seated side by side and in front of each was a beautiful cake all decorated and lighted up with different colors of little candles. Each cake and the number of candles to indicate the years of the one for which it was representing. That dining table was a beautiful decorated table. The toastmaster seated the 53 around the table and after each and every one ate all they could possibly eat, there were enough fine eatables left to feed that many more. When it comes to getting up a real birthday dinner, Mrs. John Ashton can't be beat, as she is sure a fine cook. There were pies, cakes, fruits and candies galore. It was a birthday party that will be well remembered for years to come to the honorees as well as to each and every one who participated at this great feast. After dinner different games were arranged, both for the ladies and gents, also for the children and everyone enjoyed the afternoon immensely and remained at a late hour in the evening. When the time came for the departure, each and every one of the guest left wishing the ones for which the dinner was prepared, many many more such birthdays, also the couple who made it possible to have such a fine birthday dinner. We hope they may live to receive their full benefit of their beautiful home and it is the prayer from the writers heart that wealth and health will abound them for years to come.

The following are the relatives and friends who attended the occasion: Mr. and Mrs. Charlie Griffith and family, Mr. Mansfield Griffith, son, grandfather and grandmother, Mrs. Lilly Barrow, Mr. and Mrs. Fletcher Babers and family, Mrs. Magore McNeal, Mr. and Mrs. Joe McCluskey and family, Mr. and Mrs. A. K. Wynn.

Out of state and county guests were Mr. and Mrs. Jess Ashton and family, Burkburnett, Texas; Mrs. Ashton's married sister from Olney, Texas; Mr. and Mrs. Cates Madell, Okla.; Mrs. J. T. Milligan (Grandma) Burkburnett, Texas; Mr. Tobby Ables and family, Madell, Okla.

The writer is still hanging on and that is all the 11th day. He is still in bed with the flu and a complication of a bronchial trouble, but is improving very slowly.

The following are the neighbors who have called on Hawkeye while sick: Mr. and Mrs. A. K. Wynn, John Ashton, Mr. Cruse and Mr. D. L. Alexander, Mrs. Fred LaBarre and her son, Clarence, Mr. Robert Williams and daughter, Pauline, Johnny Mouser, Jack Clay and mother, Mr. Tobe Hardin, Mrs. Martha Nails and her son, Charlie.

The sad news arrived in this community Friday of the passing of a Mr. Williams, Sr., 76 years old over in Burkburnett last Saturday morning. As Grandpa, as he was better known over on this side, was found in his bed. His son, Tom Williams, owns the old C. A. Slayton farm. The Rabbit Creek community joins the writer in deepest of heart-felt sympathy of the losing of the father to all of the family.

Will Linksey had the misfortune of losing one of his finest animals Friday forenoon. The mare was valued at \$125.00.

John Ashton was transacting business in our county seat Tuesday in Walters.

For the past week the state of Texas and Oklahoma have been in the real-estate business with the following states, Minn., Neb., Wis., Colo., Ariz., Mo., Kansas, in exchanging soil. Half the time Texas

and Oklahoma have sent all they could possibly send to the north and all soils that the above mentioned states didn't like, they sent it right back to us; really more than we sent them.

Everybody will be sowing their oats next weeks. It's very late to sow oats, unless it rains often, and if it's another drouth, they wouldn't make anything.

—HAWKEYE

Young American Is Glorified In "The Band Plays On"

A worthy picture that throbs with the spirit of youth and moves along as a fast pace is found in "The Band Plays On," at the Palace Theatre Saturday Midnight.

Although it is a story of football heroes, it is not, in the sense of the word, a football picture. It is a picture of college days, of the trials and tribulations, the romantic interludes and the lighter moods of the effervescent students of college.

It is the story of four boys of the slums who grow up together, play football together through high school and college and who triumph over the obstacles of "pro" offers and schemes.

A Charming Romance

Too, there is a delightful boy-and-girl romance played to perfection by Betty Furness and Robert Young.

The cast, as a whole, though not a star contingent, is made up of a group of young players always dependable for excellent performances and who are constantly in demand by every studio in the industry.... a well-balanced, well-known and well-liked cast.

At the head stands Robert Young, remembered for his work in "The House of Rothschild" and others of finer pictures.

CONSTIPATION Can be Helped!

(Use what Doctors do)

Why do the bowels usually move regularly and thoroughly, long after a physician has given you treatment for constipation?

Because the doctor gives a liquid laxative that can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Ask your doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit—even in children. Your druggist has it; ask for—

'The Night Is Young' Opens Next Week

Lilting romance of Vienna, borne on the wings of music, lends charm to "The Night Is Young," M-G-M's glamorous new love story with songs coming Tuesday and Wednesday to the Palace Theatre.

Ramon Navarro, of "The Pagan," "The Barbarian," "The Cat and the Fiddle" and other hits, is teamed with Evelyn Laye, singing star from London who won outstanding success in "One Heavenly Night".

Dramatic highlights include the gay night at the Prater, the love sequence in the Ferris wheel, the romantic interludes in the wine-garden, the dramatic quarrel between the archduke and the emperor, the gala night at the Imperial Ballet, the comical rehearsals backstage, the episode in the Gypsy dive, and the never-to-be-forgotten musical farewell, in which haunting music and poignant drama are remarkably blended.

Agriculturist On State Farm Speaks at School Banquet

Over eighty Future Farmers, and fathers of Future Farmers, and friends of vocational agriculture attended the first annual father and son banquet to be held in Burkburnett by the Burkburnett Chapter of Future Farmers on Friday night, February 22nd. The principal address was made by Roy Quimby, superintendent of the State Experiment Station at Chillicothe, Texas.

The meeting was called to order by the president of the chapter, Howard Bentley, and after the meeting was opened officially by members of the chapter the program was given. The welcome address to dads and other visitors was given by Lloyd Guinn. A response to this address was given by Walter Duvall. Invocation by Principal Chester Duncan. Hubert Gragg was master of ceremonies.

Several jokes were told by Future Farmers on their dads and friends. G. L. Shaffer read the following list of objectives that have been set aside to accomplish by the Chapter at the beginning of the year:

Objectives of the Chapter

- Cull 3000 hens for egg production.
- Prune 500 trees.
- Send judging team to State contest.
- Hold Father and Son banquet.
- Hold athletic contest with other F. F. A. chapters.
- Attend the Fort Worth Fat Stock show.
- Organize a Junior Cow Testing Association.
- Sponsor a community poultry show.
- Set out 400 trees.
- Complete all projects started.

Accomplishments of the following objectives were given by Clark Jacobs:

- Sponsored community Poultry Show.
- Set out 176 trees.
- Pruned 296 trees.
- Set out 1,264 grape vines.
- Set out 400 berry vines.
- Culled 5400 hens.
- Tested milk from 36 cows and have 160 signed up toward forming a cow testing association.
- Ran terrace lines on 32 acres of land.

Entertained a basketball tournament at Harrold.

"Varieties of corn and grain sorghums are being developed at the Chillicothe Experiment Station that will stand a greater drought and will insure a good crop in this part of the state most any year," was an interesting statement made by Roy Quimby. This experiment station is working more or grain sorghums than any other experiment station in the world and the information being compiled should be used by the farmers in this region. In his address Mr. Quimby explained that the experiment stations were to work out and develop different kinds of varieties of crops that would be adopted to this region and furnish information on these subjects that will be of great value to the farmers if they will take advantage of it.

Talks were made concerning the importance of vocational agriculture in the Burkburnett community by Ross Reagan, Jingle Hayes, Herman Brown and Wid Philips. These men expressed their opinion that vocational agriculture had a place in this community that could not be filled by any other program, and urged the Future Farmers present to take advantage of the work and put it into practice as far as possible.

J. D. Everheart, speaking in behalf of the Future Farmers, expressed appreciation for the cooperation extended them by the American Legion, Ladies Auxiliary, mothers of the Future Farmers and the Home Economics department in helping to make the banquet a success.

The menu consisted of baked chicken and dressing, creamed Irish potatoes, green beans, fruit salad and cake. The Future Farmers' mothers prepared the cakes and chickens while the Home Economics department under the supervision of Miss Mickey and Miss McClure prepared and served the remainder of the meal.

Future farmer, fathers and visitors attending the banquet were as follows: Howard Bentley and father, Norman Brittain and father, Brack Preston, Melvin Mills, Mr. Simpson, Carl Cook and father, Vinson Duvall and father, Murray Evans and guest, Mr. Wilson, Avis Finch and guest, Henry Vaughn, Willie B. Grace, Hubert Gragg, John Garner and father, Wade Goodlett, Lloyd Guinn and father, Odie Hatcher and brother, L. D. Hollman and father, Clark Jacobs and father, Ray Lawler, Edward Marting and father, Travis Milligan and guest, Jess Ashton, Quannah Nichols and father, Wayne

Rose, G. L. Shaffer and father, Tom Spray and father, Pete South, Bob Trask and guest, Jew Bent, Weldon Thompson and father, Bert Walden and guest, A. N. Patton, G. L. Whigham, Flino Woods, Lowell Woods and father, Eddie Young and father, Luther McGee and guest, Wid Philips, Owen Hatcher, Herman Brown, Bob Tevis, Ross Reagan, Mr. Exley, Paul Browning, Mr. Barton, Chester Duncan, Roy Quimby, Dodson, president of Chillicothe Chapter, and Bill Emerson, District President from Chillicothe, Gingle Hays, Maurice Coley, L. L. Baumhardt, Curtis Cook.

Central School Reading Room

The importance of the library as a working unit in the elementary school has been growing steadily during the past few years. This increasing importance of the library in education is the result of the improved methods of teaching which are characteristic of the American elementary school of today. History, geography, literature, and nature study are no longer subjects to be by means of a single textbook. The efficient teacher presents problems which call for consultation with many authorities. Children are taught to think and to form their opinions on the basis of the information and opinions which they receive from different sources. They are taught to read extensively and then to weigh and evaluate the statements made by different authors. This kind of teaching is the very foundation of efficient thinking, and efficient thinking is the chief purpose of education.

High School Library

"The Home Book of Verse", compiled by Burton Egbert Stevenson, is the very useful reference work which has just been added to the book collection in the High School Library. This book contains in its 4000 pages the most popular American and English poems written between the years 1580 and 1920, including many modern poems which are not to be found in most anthologies. In the appendix are a few well-known poems in other languages; "La Marseillaise" is an example. The poems are arranged according to subject matter, followed by complete indexes by authors, first lines, and titles. This valuable book has been purchased with fine money collected during the first semester.

In addition to classes regularly scheduled in the Central School library, provision is made for the pupils who come from the home rooms and the special subject classes. The tables for these extra workers are placed near and handy to the reference books, and a little apart from the tables of the regular class; then the children can come in unobtrusively and feel welcome to work without disturbing others or being disturbed. Since we are limited in materials, books do not leave the reading room during the day unless there is a special request for certain materials in some classroom. Books may be checked out over night but it is necessary that they be returned before the first class period the next morning.

The library should start early to satisfy the love of good literature. There must be an abundance of easy reading materials which contains attractive worthwhile illustrations. These books and materials should not be those which the teacher uses in the formal reading period. Each child should be permitted to choose his own books and thus use initiative in his choice of reading material. Pupils should be allowed to leave their home rooms and special classes to use the library after have satisfactorily finished their assigned work.

Free reading is practiced in the library or reading room. We realize that the effort to establish taste by force is a failure. Taste is born of freedom and joy. We must associate pleasure with the things that we desire to like. We must follow the gleam. We must allow for subtle differences in likes, dislikes. Each pupil must begin with what he understands and feel his way toward the better values. Wise school officials understand this and try to surround children with tempting things to read.

It is clear that the library-reading room should provide both the opportunity and the materials needed

Junior Track

Due to the fact that most of the junior boys are participating in baseball or spring football, very little has been done in track. It is hoped, however, that by the time of the county meet sufficient boys will be available to make a creditable showing. A number of boys are participating in both spring football drills and track. These boys, in addition to some who are working out for track only, should make a very favorable showing at the county meet, March 23.

Our Seniors

VALETTA MAE SMITH
Valetta Mae was born November 3, 1918 at Bowden, Okla. She began her school career at the ripe old age of 7. The favorites are: hobby, dancing; Subject, Typing, sport, swimming, drink, Coca Cola, actor, Lew Ayers; Actress Ginger Rogers; teacher, Miss McClure and Miss Morgan.

Her best friends are Jacqueline Kirsh and Margarette Griffin. She thinks the most popular boy is—well, she is not particular, and as for the girl—one that's the least talked about will do. Her ambition is to get out of high school. And when she does she plans to take a beauty course. Valetta names Avis Finch and Doris Ruth Barnes as the "best lookers."

Valetta is 16 years old, weighs 117 lbs., and is 5 ft., 5 inches tall. She has gray eyes, blonde hair, and her complexion is light. All in all she is "O. K."

She thinks the Senior class is the best Senior class in the State of Texas.

Home Economics Girls Entertain Faculty

The girls who are taking Home Economics III entertained the faculty of the high school building with a buffet supper in the home economics department, Thursday, Feb. 28, at 7 p. m. The menu was:

- Creamed Beef on Toast
- Spanich Rice
- Spiced Apples
- Toasted Crackers
- Congeeled Fruit Salad
- Date Roll
- Coffee

The program, which was announced by Jerry Wiggins, was: vocal solo by Otha Wheeler, accompanied by Miss Blanche Butler; Tap dance

by Polly Wiggins; piano solo by Imogene Snoddy; reading by Barbara Crissey.

This entertainment was a class project and all the plans, including program place cards and menu, were made by the students. The class is composed of Katie Mae Taylor, Maurine Browning, Mildred Simmons, Imogene Snoddy, Ruby Louise Bishop, Jerry Wiggins, Grace Russell, Sadie Steiner, Virgie Lee Skipwith, Margaret Coats, Olena Cash, Irrilia Barton, Benny Myers, Kathryn Day, Ermoine Waits, Beatrice Baumhardt, Marie Rainey.

High School Play Ground Ball

The boys going out for play ball have been showing interest. They have been working hard and expect to make a real hustle to beat them out of tournament. Although the team made up of new men, with the exception of third baseman, Roy Simmons, and left fielder, Howard Bentley, a strong force is to be assembled by the time the season meets. The addition of La Vern Peterson to the infield has strengthened the team to the degree of a field and improve the batting average. The problem is now to form a team to meet the challenge of the other fields and improve the batting average.

The boys now going out are: sell Cope, Neil Peters, Dan Huck, Buck Willett, Kenneth Smith, La Vern Patton, Tommy Rike, Peevey, Luther Lee, Billy Ashlock, Harvey Bentley, Golden, Bill Amy, Morris. With this group we are guaranteed to have a hustling team.

The girls baseball team Thursday afternoon. They have decided to have as their uniform white slacks and shirts and a ball cap.

Those reporting for practice first day are: George Park, Patricia Polston, Della Ashmore, Rita Shuffler, Marcelle Foster, Pauls, Helen Faye Bennett, Jacobs, Mary Lou Hathaway, Mary Houser.

Debate

A group of students of the Burkburnett High School has been practicing on debating. That does mean they are going out for a meet, but they are in the debate club. Mr. G. A. Reeves has been the debating, therefore, a while ago he organized a club that purpose. The purpose of the club is to give the students a chance to go out for county meet the tie which they will need to compete against other schools.

The question for discussion the students will debate upon. Resolved: The Government is own and operate the electric and power utilities.

Some of the students in the debating club, which is known as "Sigma Alpha Delta," have been working faithfully on the question.

The decision has not yet been made just who will go out for debating. It is not too late to join the club yet, if you think you can good debator. If you are interested in debate, we will be glad to you. So far, there is not enough debators to go out for county meet and we need some more.

Football Queen for

Of the eighteen girls put up candidates, ten will be selected Thursday, five will be selected Friday, then the three favored will then The Football Queen will be selected from this number.

The eighteen candidates are: Mary Wiggins, Margaret Turner, Jane Chatham, Marvilyn Hart, Imogene Snoddy, Margaret Crissey, Pauline Browning, Grace Lee, Christine Milliken, Mary La Alexander, Lucille Kemp, Barbara Crissey, Doris Ruth Barnes, Fred Kemp, Marjetta Owens, Lancaster, Pauline Allen, and Polly Wiggins.

Who's Who

Charles Volney Hill
At present the athletic director in Burkburnett High School. He attended high school in Milford, Mo. He holds his B. A. Degree in major in history. He received his degree from Texas Technological College. He has six years of experience as a coach. Mr. Hill is ambitious for himself and his team of '35 with the district championship as his goal. In accordance with his ambition, he plans to spend the summer thinking football in Burkburnett.

Mr. Blackwell: Are you laughing at me?
Bookkeeping Class (chorus): Mr. Blackwell: Then what are you doing there in the room to laugh at?

BATTERIES--SINCLAIR OIL AND GAS

The Production Of Milk And Cream

BYRON A BASSEL
State Dept. Of Agriculture
J. E. McDonald, Com.

The first factor to be considered in the production of high quality milk and cream, is the physical condition of the cow itself. The cow should be examined periodically and if any physical defects such as swelling or inflammation of the udder is noted, a veterinarian should be consulted at once, because these signs may be forerunners or indications of serious diseases in the cow, which might be spread to the others in the herd.

The next important step to be considered is the condition of the cow, as far as cleanliness is concerned. All long hairs which might hold dirt should be kept well trimmed, and, before milking, the cows should be brushed with a stiff brush, especially the belly, flanks and thighs. Then the udder should be well cleaned with a damp rag and dried thoroughly. With the cow in this condition with the milker should then wash and dry his hands thoroughly. The milk should be drawn from the cow into a small stop milk pail, because the use of this pail which is 75 per cent covered means that there is 75 per cent less chance for contamination of the milk from falling dust, dirt, hair, etc.

Of course the barn in which the milking is done should be kept just as clean as possible, trash and dirt should not be allowed to collect on the floor, because this affords just that much more chance of contaminating and ruining your milk. The walls and ceiling should be kept brushed off and clean so that there will be no chance of falling dirt getting into the milk. The barn should be well lighted and ventilated. Roughage should not be fed before milking, because the air will become filled with dust which will settle in the milk or in the milk pail. Also, feed should not be stored in the loft above where milking is done, because of the danger of feed dropping into milk.

While on the subject of feed it would be well to mention the consideration which should be given feeding, in order to avoid off flavor in the milk and consequently in the cream. If highly flavored feeds such as turnips, silage, wild onions, bitter weed, etc., should be avoided entirely if possible, because their particular flavors will be carried over into the milk. If these highly flavored feeds must be used, they should be fed immediately after milking and never before, because by doing this the possibility of their flavor being given to the milk is avoided.

Some explanation is due as to why all of these precautions in producing milk should be taken. The importance of keeping this dirt, etc., carries with it many germs, or bacteria, which cause the milk and cream to decompose in one way or another. This decomposition may be evidenced by souring, which is a natural process, ropiness, off flavors and odors, and many other conditions. When any of these occur you have a low quality product which will bring you a low price; therefore, to insure the highest possible price, it is necessary that attention be paid to the items about which we have been talking, namely: the physical condition of the cow itself, the way in which the cow is prepared for milking, the cleanliness of the milker, the type of pail used, the sanitary conditions of the barn, and the feed which is given the cow.

The next article of this series will discuss cleanliness in handling milk and cream, and the proper cleaning and sterilization of the equipment, and will be issued in the near future.

Americans come by this "something for nothing" naturally. That's the way their forefathers traded with the Indians.

The Montana man who has worn the same trousers for 56 years probably hasn't done a great deal of sitting during that time.

The crawfish is said to have an eye in its tail. What an advantage if it ever gets caught in heavy auto traffic.

Big Rabbit Creek

(Too Late For Last Week)

Old Hawkeye will try to send out a few words from his neighborhood while he is being propped up in bed as he was taken down with a bad case of the Flu last Tuesday night and Saturday morning at 3:15 a. m. Their family doctor, Dr. Dice of Randlett was called. Hawkeye was sure glad to see him as he was suffering from other complications that had set up from the Flu. He is some better, but yet isn't out of all

danger. Any time that he don't get a few words in the paper every week it will be because he has lost his vision. It will be some time before the writer will be able to be up and around again.

Our neighbors have been very nice to come to see about Hawkeye when they heard of him being so bad. Mr. and Mrs. Archie Wynn drove over Saturday evening to see me, but as I was asleep, they were not allowed to come in. Dr. Dice had given Hawkeye's wife instructions not to wake him if he went to sleep; not even to give him his medicine.

Their call was appreciated very much just the same.

Charlie Nails called to see how Hawkeye was Saturday morning.

Mr. Cruse and Mrs. D. L. Alexander called late Saturday night.

Jack Clay and his mother called to see how he was getting along Sunday afternoon.

Mr. and Mrs. John Ashton was to call but by some cause they didn't arrive. Hawkeye was very much disappointed as Mr. and Mrs. Ashton are the Owens family's best best of friends.

Mrs. D. L. Alexander is bedfast with the flu. Mrs. J. A. Alexander also has the flu.

Well, folks, you remember I called your attention some time past about our Mr. Groundhog's six weeks of bad weather. Sunday night's storm is coming true for the six weeks of bad weather.

All early sown oats that have come up are mighty likely to be frozen out again, as all of the ponds were frozen over Monday morning.

Well, I have gone my limit, as I am getting very weak. I can't write any more. I hope I may have more news for next week and will be able to write it out.

—HAWKEYE

Summary of Womens Home Dem. Work

By Miss Bessie Lee Sikes, County Home Demonstration Agent
According to a report given to the Home Demonstration Agent this week, thirty-one new members have been added to the Home Demonstration rolls during the months of January and 54 non-club members have received benefit of Home Demonstration work through the clubs and individual members.

As a result of a special program on foundation patterns given to wardrobe demonstrators approximately 100 individual fitting waist and sleeve patterns were made in February. The advantage to making a foundation pattern is that commercial patterns are more easily adjusted to individual differences if used when cutting and other garments such as slips, gowns and pajamas may easily be cut from the foundation pattern.

Meat reported canned during the month of January amounts to 2,627 quarts. Promptness in beginning is to be the key note for success of Home Demonstration clubs for this year. All except two clubs are off on the right foot towards this goal.

The Farm Home Makers Market was operated 4 half-days this month of January and the total sales were \$109.97. Half of this amount was sold by Mrs. R. F. Pruitt of the Weeth Club who drives 16 miles to market each Market Day.

Five products were standardized

during month of January by Mrs. H. W. Hobrecht, representative of the Triple Hill Club.

It is important to play as well as work because we know that "all work and no play makes Jill a dull girl". So a new slogan for 1935 is a Recreation every month for each club, where each community or club entertains their friends and husbands for an evening of fun. This type of wholesome fun "takes the sting out of the depression". Pleasant Valley, Beaver Creek, Valley View and City View held this type of recreation program in January.

'Pecks Bad Boy' Rich In Heart Tugs

Suggested by, rather than adapted from, the famous "Peck's Bad Boy" stories that delighted readers a generation ago, the Fox Film screen production of that name, coming Friday and Saturday to the Palace Theatre, has Jackie Cooper as its star and Thomas Meighan in a story role. "Peck's Bad Boy" is in no sense a "kids" story. It is a rich human document.

Jackie, as Bill Peck, believes himself to be the son of Henry Peck, widower, but is actually the latter's adopted son. He is happy with his foster father until the arrival of Aunt Lily and her small son, Horace. These two set out to alienate father and son so that Horace may usurp Bill's place in the Peck household. They nearly succeed.

BRONCHIAL TROUBLES

National Monetary Con. Organized

"With the incorporation of the National Monetary Conference as a permanent body, the national organizations for monetary reform will speak and act on a common platform," former Senator Robert L. Owen, author of the Federal Reserve Act, announced yesterday. "The Conference calls for purchase by the Government of the twelve Federal Reserve Banks, restoration of the money needed to do business, restoration of property values, and a dollar yardstick no longer stretchable to four, five or six feet long for the destruction of debtors and the unjust benefits of creditors."

As President of the National Monetary Conference, Mr. Owen announced incorporation of the Conference under the laws of the District of Columbia. The charter specifies:

"It is a non-profit, non-partisan organization, to promote legislation by the Congress of the United States for the purpose of having the Government of the United States control the issue of monetary credit and currency, in order to give them uniform debt-paying, purchasing power, regulating the value of money as authorized and directed by the Constitution of the United States (Article 1, Section 8, Clause 5) which provides that 'Congress shall have power to coin money, regulate the value thereof, and of foreign coin'; to favor the establishment of an agency for such purpose, particularly, by taking over the ownership and/or control of the twelve Federal Reserve Banks operating the system as one central bank under a legislative mandate and under a reconstituted Federal Reserve Board owing its allegiance exclusively to the United States; and for other allied or collateral purposes, including investigation and research for the proper basing of legislation to effect such purpose, and publicity of the facts as determined."

The organization affiliated with the National Monetary Conference include the Sound Money League, of which former Senator Owen is also President; the National Union for Social Justice, headed by Rev. Charles E. Coughlin, of the Radio Church of the Little Flower, Royal Oak, Mich., numbering six and one half million members; the National Depositors Committee, whose chairman, Charles P. Bloome, speaking for ten million depositors; the Western Governor's Group, the Farmers' Educational and Cooperative Union of America, the World Monetary Reform League, the American Monetary Reform Association, National Social Credit Association, Organization for the Abolition of Poverty, Western Silver States Conference, Public Ownership League of America, American Society of Martians and National Veterans' Organizations.

STATE OF TEXAS
COUNTY OF WICHITA
CITY OF BURKBURNETT
TO WHOM IT MAY CONCERN:

Notice is hereby given that the City Council of the City of Burkburnett will at a meeting to be held on the 22 day of March, A. D. 1935 at 8 o'clock P. M. will receive bids for the purchase and installation of two 520 H. P. Deisel Engines, installed and equipped at Burkburnett, Texas.

Any bidder shall give bond for the full amount of his contract bid, guaranteeing performance thereof and the City Council reserves the right to reject any and all bids.

Payment of said bid shall be in the form of warrants not to exceed the total of \$32,000.00, payable in installments of not to exceed twenty years, bearing interest at the rate of not exceeding 6 per cent per annum, payable semi-annually.

Herein fail not but have you such bid before such Council at the date and place aforesaid.

Burk Teachers To Speak Before Art Division of T. S. T. C.

Denton, Feb. 27.—Bryant Creighton, Burkburnett teacher, will speak before the speech arts division of the fifth annual teacher training conference to be held at his Alma Mater, the North Texas State Teacher's College March 15 and 16, according to a statement recently made by Dr. L. A. Sharp, conference chairman.

Only ex-students who are outstanding in their respective fields are invited to address the conference it was stated. Creighton is one of eighteen graduates of the college who will appear on the two-day program. In addition to these, fourteen students of the college will speak. Dr. Hollis L. Caswell of Geo. Peabody College for Teachers, an expert in curriculum revision; Dr. Carleton Wolsey Washburne of Winnetka, Illinois; and Dr. Edwin Mims of Vanderbilt University are the principal lecturers.

Cancer Statistics

By DR WILLIAM J. SCHOLLES
Periodically some one bursts into print with the announcement that cancer is on increase, a statement that is in no sense true. The increase is only apparent and not real, and for several reasons.

First, vital statistics are now more accurately recorded with the result that cancer cases are reported some years ago.

Second, advances in medical science during recent years make for more exact diagnostic methods, as a result of which cancer is today discovered where formerly it was overlooked.

Third, with the increase in the span of life during recent years more persons now attain the age in which cancer develops in the human organism.

The Lesson In the Above Figures
Every one is agreed that if the cause of cancer could be found a remedy would not belong in developing, which is the experience of the past with all diseases.

Discouraging and pessimistic as that may appear on its face, I contend that we'll still be looking for a cause of cancer ten thousand years hence, if that is to be the sole object of our search. Why do I say that? Because there is no cause of cancer, in the sense that we think of a cause of a disease process.

But there is a reason for cancer. And if we will stop looking for the cause of cancer and concentrate on finding the reason for it, we will get somewhere in the study of this problem.

Let me illustrate the difference between the two terms: The cause of a railroad accident may be the failure of the air brakes to work; the reason for the accident, carelessness in inspecting the brakes.

The cause of cancer? The cause of a blade of grass? The cause of a stone? The cause of one and another kind of living cell? The cause of these things never had a beginning—it always existed, else it would itself be an effect and not a cause. To fathom the cause of cancer we must plumb the depths of infinity and their unending reaches can ever be attained.

New Pressure Stream Oil System For Chevrolet Engines

A unique method of flooding connecting rod bearings with a surplus of lubricating oil at high engine speeds is one of the new mechanical features of the Chevrolet engines in all 1935 models. The new oiling system assures an extra supply of oil to the bearings when most needed, that is, when the car is being driven above 70 m. p. h. for long periods.

At lower engine speeds, lubrication of the crankcase is provided by oil picked up from troughs by dipper on the connecting rods. The oil pan troughs are kept filled by the oil pump, which feeds fresh oil through nozzles opening below the surface level.

At high engine speeds, as the pump pressure increases, oil is forced from these nozzles with sufficient force to cause high pressure streams of oil to be thrown across the crankcase, directly in the paths of the connecting rod dippers. Because of the high speed of the dippers as the engine turns over 3000 or more r. p. m., they hit the solid stream of oil with so much force that tremendous pressure is created. The oil flows through the outlet in the top of the dipper and is forced through the deep grooves in the connecting rod bearing. The force of the impact of the oil stream pro-

vides positive lubrication to the entire surface of the bearing, and clears away any obstruction in the oil grooves, much as a high pressure stream of water from a fire engine rips roofing from a building.

FARM HINTS

From N. T. A. C.
This Week: The Lesser Peach Borer
By M. B. Lebo, Prof. of Horticulture

The lesser peach tree borer attacks the trunk and larger branches and may be found beneath the surface bark feeding upon the cambium and living tissues. In case of young trees and the branch of larger trees they may be entirely girdled and killed.

Trees that have been neglected and therefore lacking vigor are most susceptible to insect attack. Trunks and branches that have been exposed to the direct rays of the sun may sun-scald. Here the tissues are injured and it is in these areas that the borers enter and are found in greatest numbers.

The borer is "round-headed", larva-body, soiled cream color, about 4-5 inch long, with a yellowish

brown head. The larva are in the tree under the bark during the winter and emerges in the early spring.

Fall treatment recommended is as follows:

Cottonseed oil 2 quarts
Paradichlorobenzene ¼ to ½ lb.
Add the crystals of P. B. D. to the oil and stir until dissolved. This may take a little time. By means of a paint brush, apply the mixture liberally to the areas infested. The material is ordinarily too thick to be applied with a sprayer. Treatment should extend a few inches beyond the area of borer infestation. Only infestible areas should be treated. This necessitates a careful examination of the tree for borer infested areas. It is not essential that gum, frass, loose bark, etc. be removed before treatment.

CARD OF THANKS

We take this method and opportunity to thank our many friends for their kind deeds and held and the beautiful floral offering during the illness and death of our dear mother, Mrs. Elizabeth McMurdy. May God bless each of you.
Signed: F. R. Sopher and family
29-1tp.

Burkburnett girls may have been harder to kiss in the old days but the performance wasn't nearly so dangerous. The old parlor sofa never made a bee-line for a tree just when you were all puckered and set.

There's no post-graduate course in the School of Hard Knocks—unless you count signing a note for a friend.

A woman is a person who finds the right hat and then returns for it three days after it's sold.

New Kidneys

If you could trade your neglected, tired and lazy Kidneys for new ones, you would automatically get rid of Night Rising, Nervousness, Dizziness, Rheumatism, Burning, Itching and Acidity. To correct functional kidney disorders, try the guaranteed Doctor's special prescription called CYSTEX (Ginseng). Must fix you up in 3 days or money back. At all Druggists.

Constipation 6 Years Trouble Now Gone

John J. Davis had chronic constipation for six years. By using Adlerika he soon got rid of it, and felt like a new person. Adlerika is acting—safe. — Corner Drug Store

Save A Year's Taxes . .

By Saving Accrued Penalties And Interest

Many Taxpayers can save enough by paying taxes before March 15th to pay an added year's taxes . . .

- Do you want to save your property?
- Do you want a flawless title?
- Do you want to do your part?
- Do you appreciate saving?
- Do your best to PAY NOW!

The Legislature has made it possible for every delinquent taxpayer to catch up . . . to wipe the slate clean . . . without having to pay an added cent for penalty and interest . . . if you pay now . . .

THIS LENIENCY EXTENDS TO YOU! March 15th Last Day

**and Objectives
Our Athletic Program
in Burk Hi S.**

to provide a varied pro-athletics that will appeal to the students, now and in games and sports that are worth while; to encourage the athletic activities of each season—fall, winter, and spring.

Our athletic program is to provide a varied pro-athletics that will appeal to the students, now and in games and sports that are worth while; to encourage the athletic activities of each season—fall, winter, and spring.

lose like a gentleman, and at the same time say to yourself that the next time you meet, you intend to give them a good walloping. Fair play and sportsmanship, if practiced, will go a long way towards developing a finer type of citizenship throughout the country. Athletics should develop in the boys initiative, resourcefulness, and the ability to think for themselves.

I believe the training in educational life of the maturing boy. It was Theodore Roosevelt who said "Don't flinch—don't foul; hit the line hard." The successful man in the bigger game beyond the gridiron is the one who can fight hardships, who can take punishment, come up smiling and still play fair, who's never beaten until the final whistle blows. Football grammatizes this sort of courage in terms that boys can understand.

The success of our athletic program greatly depends on our local boards of strategy. We wish to acknowledge with gratitude the great support that has come to us from faithful fans. Were it possible we should like to give credit personally to all who have helped us, but the list would be too long. We can merely say "Thank you" to all our friends who have contributed to our athletic program. —Volney Hill

**Hollywood Is Coming
To Burkburnett**

Although that may sound like a broad statement, it is, save for perhaps slight exaggeration, the truth, for on Friday, March 15, the famous M-G-M Traveling Motion Picture Studio will pay the Palace Theatre a brief visit.

This traveling studio, which was designed and constructed to special specifications at a cost of \$150,000, is literally a miniature Hollywood on wheels; what with its elaborate motion picture sound equipment, its

cameras, and its expert crew of camera and sound men from the famous M-G-M studios in California.

Facilities for both the taking and the projection of talking motion pictures are included aboard the studio, and realizing that the general public would be greatly interested in having an opportunity to inspect this equipment, it is announced that during the studio's visit here this will be permitted.

The studio, which is hauled by a gigantic trackless locomotive, truly and amazing sight in itself, is regarded as one of the most remarkable and noteworthy achievements in engineering yet attempted successfully by the resourceful mind of man. Everywhere the studio travels it is referred to as "The Eighth Wonder of the World."

Perhaps the feature of this traveling studio which has captured the most interesting, if it is possible to designate one feature of this astounding phenomenon as being more outstanding than the others, is the ultra-modern projection booth, with its regulation Western Electric sound equipment, projection machines, and the six and one-half by five and one-half foot screen, one of the few rear projection screens in the country today.

The studio is designed so the public may pass through it to view the projection equipment at one end, and the sound recording studio at the other.

ELECTION ORDER

It is hereby ordered by the Board of Commissioners of the City of Burkburnett, Texas, that the regular election provided for by Statute and by the City Charter of the City of Burkburnett, Texas, be held in and for the City of Burkburnett, Texas, on the first Tuesday in April, the same being the 2nd day of April A. D. 1935, for the purpose of electing the following officers: Two Commissioners to be elected for the

City at large to serve for a period of two years.

The said election shall be held in the City Hall in the said City, and A. Lohofener hereby made presiding judge of said election, and said election shall be held in accordance with the General Election laws of the State of Texas.

It is further ordered that a copy of this order shall be published in the Burkburnett Star full thirty days prior to the date of election and same shall be sufficient notice and a copy of same issued to the presiding officer above named is hereby made and shall be sufficient writ of election.

Passed and approved this 20th day of February A. D. 1935.

Attest: R. P. Reagan, City Sec'y
Oscar Kemp, Mayor 28-4tc.

With the Hauptman trial at an end, Burkburnett citizens haven't much to fall back on for their crime stuff but the radio.

No wonder marriage fails. People who are congenital for 30 minutes can be an awful pain after six days.

**"I HAVEN'T HAD
A COLD IN
FIVE YEARS"**

"In the old days I used to dread the coming of Winter. I was always fighting colds—feeling about half alive—trying to work with my body aching and every nerve on edge.

"Then a friend told me about McCoy's Cod Liver Oil Tablets with their marvelous vitamins A and D. I started to take them five years ago and I haven't had a cold since that time.

"McCoy's tablets put new life in folks; build up resistance so anyone can laugh at cold germs. They make weak, skanky people strong, steady-nerved and vigorous. They're wonderful!"

Get the genuine McCoy's Cod Liver Oil Tablets from your druggist today. Don't waste money on imitations. Ask for McCoy's.

Chewing gum may be a substitute for smoking, but it's harder on the nerves. A cigarette doesn't make the upper plate pop like that.

Most Burkburnett citizens would be more interested in the ground hog if it could only tell us how much longer a depression can last.

And so, when you decide to buy your new car, may we suggest that you see and drive the 1935 Chevrolets. Then this will become your conviction, too. You will discover that Chevrolet has gone well beyond its highest standards of the past to make these the most desirable cars in Chevrolet history. Fine craftsmanship and precision engineering are evident in every line and in every part. With the result that these new Chevrolets give you much more quality than you are accustomed to getting at Chevrolet prices. Much more beauty—much more ability to serve long and dependably—and much more performance. Their getaway, acceleration, and all-round spirited action are the most thrilling ever engineered into a Chevrolet product. Yet the New Standard Chevrolet is the lowest-priced Six in the world. And the Master De Luxe Chevrolet also is offered at exceptionally low prices for such a luxurious car. Moreover, these are the most economical Chevrolets ever built, which is highly important in these days when economy means so much. Come in today. See and drive these new cars—and choose Chevrolet for quality at low cost.

ARE YOU MONEY-MINDED?

Naturally you want to get the best values for your money, and you spend a lot of thought on your buying problems whether they be every-day purchases or life-time investments.

ARE YOU MUNICIPAL-MINDED?

But do you consider as seriously your municipal problems? They are just as important, for they too may be estimated in terms of dollars and cents. Your municipal light plant is one of your outstanding problems. You will support it if—

1. You want to keep your dollars at home
2. You want to secure your own investment in your community
3. You want to keep the lowest rates
4. You want to assist in additional civic improvements

Birthday Party For Dotty Kent Monday

Mrs. R. W. Kent was hostess at her home on Fourth street Monday afternoon honoring her little daughter Dotty on her fifth birthday. Mrs. Kent was assisted by Mesdames John Brookman, Tex Willis and St. Claire of Wichita Falls.

After several enjoyable games were played the remainder of the afternoon was spent by telling interesting stories, which the children enjoyed very much.

Dotty was the recipient of many lovely gifts which were admired by all.

Lovely refreshments were served to Joan Sandler, Joan Duncan, Peggie Ruth Robertson, Jessie Ruth Preston, W. C. Keisling, Jr., Donald and Jerry Brookman, Jo Ann Pennington, Barbara Ruth Adams, Mamie Browning, Janette Bell Riley, Pete Jeffers, Shirley Buchalew, Bettie Sue Haire, Jimmie St. Claire, Ramona Milford, Virginia Cope, Virginia Mae Willois, Marguerite Chambers, Mary Francis Kelley, H. T. Staggs, Mary Francis Kent, Francis Lee Jordan, Roy Jackson, Jr.

Fairview P-TA Executive Com. Meets

Tuesday morning at 9 o'clock the Executive Committee of the Fairview Parent-Teachers Association met. It was decided that the Association will sponsor a basket ball and volley ball banquet for the Fairview Bears next Wednesday.

The program will be on basket ball and volley ball. The girls and boys will, at that time, receive their sweaters. Everyone is invited and a charge of fifty cents will be made for each plate.

Enjoy a
Comfort Zone Ride-

WITH V-8 POWER

FORD ECONOMY

IN THE new Ford V-8, you get the proved V-8 engine—and, in addition, new features that give you a car that meets every 1935 driving need.

A single ride will show you how completely the new Ford V-8 does this.

Wherever you sit in this new car—at the wheel or in the rear—you will enjoy "front seat riding comfort."

It required a major engineering development—the Full-floating Springbase with Comfort Zone Seating—to accomplish this. But the new Ford V-8—all the way through—is a car of major developments.

The new clutch enables you to start and shift gears with hardly noticeable foot pressure. The mechanical brakes, likewise, are new in design—easier to apply, yet stronger, longer-lived, surer-holding.

The car is longer, wider, with more room for passengers and baggage. It is distinguished inside and out—with luxuri-

ous upholstery and instrument panel—beautiful streamlining. Everything needed for safety is included—welded all-steel body, low center of gravity, strong axle construction. In addition, Ford provides large, sure-traction tires and safety glass all around at no extra cost.

Whatever you want in a car—comfort, safety, speed, power, size, style, dependability, economy—the Ford V-8 for 1935 gives it to you in full measure. Be sure to see it at your nearest Ford dealer's.
