## National Trial Of Ralph Foster Death Case To Start At Wichita Falls September

AL VENIRE WILL BE CALLED FOR TRIAL SEPTEMBER 16

Reduced \$5000

The tenet interest that is apparent in Burkburnett for the past few years, the Foster death case, is to be tried at the Wichita Falls court house on Sept 16 in the district court. The Burkburnett carrier will be placed on his life to answer charges of manslaughter by the jury for the death of his wife. The feeling in this city is higher in the case and revelations than any similar case in this territory.

On the morning of the death, the man of the police led to the justice of peace of the subsequent investigation. Temporary chief of police, Harris, caused the warrant to be filed. A crime took place the celebration at a Wichita. The accused stated and his wife had quarreled, he had no knowledge of the time of her death. Since the prisoner has volunteered no further information, the grand jury passed an opinion that he should be held for the death.

**Lower Bond**  
McDonald was engaged as attorney, and at his request was reduced from \$7,500.00 to \$2,500.00. This bond will probably be in the near future according to information given by the attorney. At the judge announced that the venire of 100 would be called for the county as soon as the trial had been made up on arrangement Monday. Foster pleaded not guilty. It is the same stoic silence that characterized his attitude from the case after the initial trial that he greeted the grand jury. The names of witnesses that will be called have been determined at the trial. It is expected that the defense will present most of witnesses at the trial. The case has not announced for the prisoner will take general opinion is that he will stand in his own case. The chief witnesses that will be called will be his children and the relatives of his police N. H. Harris, Pat and his assistants will feature testimony.

**Under Station Special July Sale**  
Alexander Service Station, for Sinclair products and tires will hold a special sale to last during the month of July. The Goodyear tire is considered as one of the best on the market and during this sale the agents in the local market are a great pride in demonstrating all of the features of the excellent tire. The high speed of the sale is the G3 proved its efficiency by thousands of miles of service on the roads. The guarantee is that of the guarantee every road hazard.

**Office Champion**  
The rest of the world is fighting its battle of the century with the various insects, the office has had an interesting series of battles of its own. The tarantula was brought in last week, and since the staff of the Star has been busy foraging for him, the tarantula was one of those dreaded black widows. The tarantula made very work of the widow, and only left a group of orphans somewhere. The tarantula is still in good condition as backers promise that he meet all comers.

## Oklahoma Officers Explain Trucking Laws For Citizens

All Farm To Market Trucking By Owners Is Exempt From Special Tax

LAW PASSED IN 1929

Mr. C. Bennet, port officer at the Red river entry to Texas and Oklahoma explained the laws in connection with commercial hauling for the benefit of the Texas and Oklahoma truckers Wednesday, and issued the statement that "Law was being enforced impartially against Texas, all states and Oklahoma haulers. There has been no discrimination, as has been charged by parties interested in transportation."

According to Mr. Bennet, the law became effective in 1929 and that it had not been enforced until the last session of the state legislature because the original law did not include and enforcing provision. The state could not carry out the law without a special law being passed to set up the machinery of enforcement.

**Farm Products**  
The first provision is that all farm products are exempt on condition that they are carried from the trade territory to the first incorporated town. This allows the trade territory of the city of Burkburnett to bring all of their products to the local market on their own trucks and cars. This includes all live stock, vegetables, wheat, cotton, and marketable products actually grown in this area, and which do not have to be hauled past an incorporated town in order to reach Burkburnett.

However, any load hauled from one incorporated town to another must secure CC permit before it can pass the port of entry. The farmers however can haul material used in their own homes back from Burkburnett to their homes, in case they do not pass through or by an incorporated town. Salesman who are using a small pick-up to demonstrate typewriters, adding machines and similar products.

(Continued on page 5)

## H. L. White Former Burk Officer Dies In Wichita Falls

Officer Here During Boom Days As Local Constable Of Precinct

Hugh L. White formerly resident of Burkburnett and Stringtown and officer here died in Wichita Falls shortly before noon Wednesday, at his home. He had been seriously ill for several months. He is remembered by many Burk citizens for his services as constable in Burkburnett. Mr. White served as deputy sheriff through several administrations prior to that of Pat Allen, the present sheriff. He was a candidate for the sheriff's position in the 1934 election.

He was 70 years of age and had been a member of the Baptist church for 40 years. Funeral services were held Thursday morning at 10 o'clock at the home, with the Rev. T. J. Jordan church officiating. Interment at Matador, Texas under the direction of the Owens and Brunley Funeral home.

## Vassar Oil Well Afire Second Time

The Vassar oil well caught fire about mid-night Wednesday night and the Burk department was called to fight the small blaze that developed. The fire started from the short in the electrical pumping system and caused considerable excitement in the city before the firemen were able to extinguish the blaze. This is the second time in the last few months that the fire department has been called to the same well. A few months ago the department was called to a blaze that originated in an old pump house. The electrical system was installed after the pump was destroyed. The friction and short caused the last fire.

J. C. STAGNER  
District Manager, Dallas Zone  
Chevrolet Motor Co.

## Burk Amateur Enter Finals Chevrolet Contest Wichita

Five Burkburnett boys and girls entered the finals of the Chevrolet amateur contest at Wichita Falls under the sponsorship of the local Barrow-Grace company. The entries from Burkburnett were Marion Boden, tap dance; Justine Nichols, acrobatics; Jack Grant, piano solo; Jo Ella Morgan, song; and Roy Jackson Jr., song. These youngsters qualified for the finals by elimination contests held last week at the Palace Theatre by the Barrow-Grace company.

The district finals were held at the Majestic in Wichita with the program starting at 8:30, and five of the entries that won at the meeting will go to Dallas. J. C. Stagner, district manager of the Chevrolet company has been in charge of the contest. Earl Hayes, of the sales promotion department of the Dallas zone and Alec Reese program director of WFAA were judges during the contest. The audition winners will be announced Thursday night according to these officials.

As an added feature to the Dallas program, Mr. Keese said that two or three contestants will be chosen from the Sunday evening broadcast to appear on the Majestic Theatre stage at Dallas next Monday with the major Bowes show which opens at the theatre.

The final winner of the zone contest will receive a trip, all expenses paid to Los Angeles, with audition at KFI, Hollywood, here they will tour all the major motion picture studios; an excursion trip to the San Diego exposition, and a paid engagement at WFAA with a new Chevrolet coach and chauffeur at their command. The Barrow-Grace unit sends its compliments to the entries of the local contest.

## Special Services At Pres. Church Sun.

The First Presbyterian church will have a special home coming program at the church next Sunday morning, and all the members and former members of the church have been invited to be guests of the organization at that time. The sermon and the services will be the high point of the occasion, and after the regular services the Busy Bee class of the Sunday school will entertain the members of the church and the Sunday school in a picnic lunch in the church annex. The pastor and the church are sending out invitations this week for the special occasion. The music and the services as a whole will be the most interesting that the church has presented this spring.

## Burk Girls Defeated By Wichita Falls Team

The Burkburnett Pals were smothered by a score of 25 to 8 by the Wichita Falls Rookies before the largest crowd that has gathered at the softball field this season Wednesday night. The game started with the Rookies scoring in the first inning, and Hill, Wichita pitcher had the local Pals eating out of her hand until the fourth inning. The game staged as a PTA benefit presented the wildest play that the crowd has seen in any game. The Rookie team made a much better showing at the game than the other Wichita team that played here recently. Another game will be scheduled in the near future.

Adding Machine Ribbons, Star office

## Wheat Takes Sudden Leap To 84c On Local Mart Wednesday

### City Digs Four New Wells Here

The water department of the city is adding four new wells at the water works plant, according to the announcement made this week. The wells are scheduled to be completed some time the last of this week. They will be located on the Hugh Preston farm about one fourth of a mile from the present location, and will be on the same water strata as the present wells. The wells will be about ten feet to the shallow strand of water sand and about ten feet in the strata of water producing area. The wells will be equipped with a special pump that according to specifications will force three thousand gallons per hour into the system for each well. This type of pump has been in use for some time at the other wells and has proven a success in the practical demonstration. The new wells guarantee a more adequate supply of water. Although there has not been a precaution these wells will be used for a future supply.

The city of Burkburnett has been fortunate that even during the extreme drouth of last year that the water was available for a sufficient supply. The addition of the new wells guard against the possibility of a shortage.

### Trades Day Will Be Presented At 4:30 Next Sat.

To Be Held On Ave. C. Near The Cooper-McCreary Motor Co. and Post Office

After the preparation of this week for the special trades event of the week, the merchants and citizens of Burkburnett will have as their guests in a special program the persons of this territory that have visited our city during the past week. The climax of the program will be in the feature event at 4:30 on Ave. C between the Cooper-McCreary Motor Company and the Motors Service company.

Last Saturday found one of the largest crowds that has yet gathered for the event. It was expected by the sponsors that the new surprise would bring out a large crowd, but not even the most enthusiastic expected so huge a gathering. The indications this week are that there will be even a larger group to gather next week for the program.

The affair will be staged for the benefit of the merchants of the city and the people of the trade territory. The Cowboy Band will play with its usual pep, to start the program. The feature event will be presented with the crowds tenet interest in the unusual features of entertainment.

This is one of the many progressive movements that the local merchants have undertaken in order to promote a better business in the city and to increase the civic pride of the citizens. A courteous invitation has been extended to all people in and near Burk to be here at 4:30 Saturday on Ave. C.

### Skeleton Found West Of Burkburnett Wed.

The evidence of some forgotten tragedy were found near the Tucker lease 86, Wednesday afternoon when one of the pumpers located a complete human skeleton near the road of the lease. The skeleton was found when a workman walking nearby noticed the bones of the skull. Closer examination led to the finding of the entire bones of a human. The report was brought to the Burkburnett precinct authorities, and the initial investigations Wednesday failed to bring to light any knowledge of the tragedy that may have caused the death.

The markings on the old skull gave evidence of a violent death. The speculation among the observers was that it was the result of a feud in some boom time fight or even a more ancient incident than that. It will be impossible to trace the tragedy.

We wonder if the scientists will ever be able to lengthen the span of life until all the installments on the auto are paid.

### Farmers Of Section Warned To Sell Through Legitimate Representatives

### State Fight Started

### Burk Will Vote On Local Option Laws State and County

Commissioners Court Calls The Election For Same Dates August 24

DOUBLE BALLOTS HERE

When the county commissioners court pronounced as sufficient the petition presented by the citizens of Wichita County at the court recently, the citizens of this city were given the opportunity to register approval and disapproval on the county option and the state prohibition law at the same time. The petition was recently circulated in this city and at the time that it was last seen, it held the names of seventeen Burkburnett qualified voters.

This was a portion of the 250 voters required for the demand for the county election. The petition was granted Monday at the regular session of the county court. County Judge Filmore explained that by holding the local option law at this time with the state election the county would save about \$2,000.00. The petition that was presented the court contained 417 signatures, while only 250 were required.

Wichita county went dry in 1918 just after the completion of the aviation field at Call Field. The state law followed soon after. The state law is called the Dean law and with the exception of the amendment that permitted the sale of 3.2, it is considered one of the strictest liquor control laws in the United States. The petition was presented by Everett Hughes.

If the state law passes taht day, the passage of the county law would release this portion of the state from any type of control under the present amendment. The state has arranged for an additional vote the following year—in case the present law passes about state owned stores.

### Lions To Attend Mexico Convention

There will be nine persons from Burkburnett to attend the International convention of the Lions clubs that will be held in Mexico City. The delegations that were leaving here pulled out of the city early Tuesday morning, and planned to motor across the state of Texas, and take other means of transportation at Monterey, Mexico. The group plans to spend the time touring and attending the sessions of the convention.

Those attending are Mr. and Mrs. Y. C. Paschall, Mr. and Mrs. Randal Watkins, Mr. and Mrs. Clyde Bohner, Wylie Browning, Johnnie Anderson, and Luther Caffee. The plans that have been announced for the convention indicate that it will be well planned and unique in Lions history.

### Plant Foundations Ready For Cement

The forms of the initial pit foundation were ready for the cement pouring Wednesday, and the excavation for the general foundation of the building was well underway. The plant is using a large number of relief laborers, and the skeleton crew of the city under the direction of A. H. Howard are being used in the construction. The major excavation for the engine foundation will not be made until a roof is fixed to protect the project from rainy weather. The building itself will begin taking form within the next few days.

Now they have invented a new "lie detector". But we don't suppose fishermen will take much stock in it.

Most Burkburnett young men realize that the girls are flattering them, but they love it just the same.

Bringing the total of the week's jump to 14c the wheat on the local market in Burkburnett was up to 84 cents this week. The fight started in Fort Worth early this week, and buyers were on the local market before the farmers of this area were able to learn the news of the fight, and the result is that some of the men of this area have been selling their wheat at a price several cents below the market spread.

The farmers are urged to cooperate with the local buyers where they will receive the highest market on the grain.

The total jump of 14 cents over the past two weeks arises from two causes. The initial cause was the intense rain that set in near the large midwest fields. This rain caused the spread of a large amount of smut and red rust among all the area. Then after the rainy season had passed the effect of the smut became apparent. That condition pushed the markets all over the United States up to 7c, and in the local market the high was maintained.

### Fight Starts

Following this high jump, some of the Texas mills started a fight in an effort to control the large part of the Texas grain market. The effect was felt immediately in the local market, but the trucks and buyers invaded this district before the news became known. What the results will be is not definitely known, but the general opinion among the authorities in this territory is that wheat will be pushed out of sight.

The jump will be a blessing to the local farmers and merchants. It will increase the income of the farmers in this area by 17 to 20 percent on their grain. This money probably will be poured directly into the local commercial markets, and the merchants and business men of the area will feel the response immediately.

The local farmers had great difficulty in making the present crop. The drouth came near killing the crop last fall and winter, and when the rain started this spring, it arined so heavily that the harvest was delayed until a loss of about 10 percent was found in the quality of the grain. The jump in price will offset that loss.

### Other Markets Steady

Other markets held steady in the local buyers mart. Hens keep about even with 13 cents for heavy hens; cream was up here to 23 cents or about two or three cents higher than the surrounding territory; eggs were steady at 18 cents, and oats and barley remained unchanged over last weeks prices. The whole market here indicates a soundness that is optimistic. The wheat has been coming in slowly the last few days, and the farmers of the area seem to be holding for higher prices on that part which is threshed.

### Magnolia Station Wins District Prize

The local Magnolia station, under the management of Clyde Elder won the 60 day summerize campaign prize of the Ft. Worth district. The summerize campaign was carried on during the last 60 days and included washing, greasing and lubrication and change of oil. During the drive the local station washed 118 cars. The competition was against such cities as Ft. Worth, Wichita Falls, and Abilene and all other towns in the Ft. Worth district. The prize announcement was received this week.

### Huge Cucumber

Mrs. A. T. Postlewait brought into the Star office the largest cucumber that any of the staff has seen this year, last Saturday afternoon. The mammoth vegetable weighed 5 3-4 pounds and measured 44 inches in length. The cucumber was grown at Randlett, Okla., on Mrs. Postlewait's own truck garden, and it is on exhibition at the office here. It wouldn't take many pickle makers this size to create a surplus on the market.

THURSDAY, JULY 18, 1935

**A REASONABLE REQUEST**

There are very few people that could consider the request that the local Legion and Chamber of Commerce made as unreasonable, when they asked the highway department and the state Legion organization to designate this highway as a part of the Legion memorial system. There are several reasons for that request.

The local Legion is one of the most active in the state of Texas. It has lined up with every community project, and given much of its time and money to civic affairs. It has boosted the welfare of the veteran and of the community. There is no Legion post at Byers. It seems to us that an active post should welcome the visitors on a memorial highway.

Furthermore the local bridge is a free bridge. It is going to leave a bad taste in the mouths of the visitors next year when they enter the state as our guests and have to pay a toll at the first bridge. The approach is not paved. The local highway is paved and provides a direct route north, over all-weather roads.

The local city is on a direct route south of Ft. Sill. The road will be a military project, and to carry in so far out the route of a normal military highway is a shame. Furthermore Burk stands ready to give the park. The land has been provided for. It is at the disposal of the state, and for the highway to ignore this factor seems impossible to us. This will be one of the most important highways in America in the future. Burk is not trying to take a chance away from our neighbor to get a paved highway. We are merely suggesting what we think would be logical and sensible.

**PERSECUTIONS**

When Dreyfus died last Friday, the world was reminded of one of its greatest weaknesses. There is a tendency on the part of humans to try to harm people who disagree with them. Here is a case of a man being forced to serve the best part of his life in disgrace at Devil's Island prison, merely because his race and religion was not that of the regular army officer, or because of his political ideas.

To persecute a man because of his race or religion is just about as silly as persecuting him because of his big feet or, say blue eyes. They are things that he inherited and can't help. If a man is sincere in a religion or a political opinion, to discriminate against him for that cause is the epitome of human insanity. When a political group punishes or outlaws, ostracizes or differentiates in any manner against an opponent merely on that basis, they are indulging in tactics that even the universal, are no less disgraceful.

To admit that humanity has the weakness so deeply imbedded in its congenate personality, that it can never be gracious to a defeated foe, is to admit that we have more of the devil in us than we as Christian people would like to admit. Or maybe it is because we are so brutally ignorant that we can't see beyond the horizon of our own personal selfishness.

**THE HARVEST FESTIVAL**

We ought to start our enthusiasm for the Harvest Festival. There is no truer indication of the return of better times, than the tendency of the nation as a whole to hold fairs and celebrations. This little city has developed the custom of passing up the 4th of July and visiting with our neighbors on that day. We have been so courteous in this respect the last few years that we feel free to invite these neighbors to come back to see us.

Most of the publicity will be in the form of talk that we make in our visits around over the territory. So start talking. Tell everyone about what a whale of a good time we are going to have. We will get together and organize. The plans are developing rapidly. Its success now depends on how much you talk about it. TALK IT UP.

**GOOD WORK**

At a funeral that was held in Burkburnett last Friday, the fire department policed the side roads to the cemetery. That is one of the best ideas that we have heard of in a long time. It was the third time this year that the same organization has done the same thing. We know that every funeral can not have such diligent policing of highways, but we can't help wishing some sort of arrangement could be made. People ought to have good sense enough to not interfere with the procession. They don't, so it is a fine thing to establish a guard. We would like to see it done more often. Maybe a skeleton guard could be maintained for every important funeral, and the people forced to be courteous whether they like it or not. Really we believe most people approve of being stopped for a funeral. There are only rare exceptions.

**FOOTBALL SEASON**

On the 19th of next month the high school will take the boys who will be candidates for the football squad out for the pre-season training period. It is hard for us to realize that time has passed so quickly and that it is only about 30 days until the pig skin will start its traveling again. Last year there wasn't a more loyal town in Texas than our own for the support of the football team, and that team made an excellent record. The record was the result of the feeling that the player had that the city was behind him one hundred percent. This is the time to start thinking about the fall team. The team will need some real support in a concrete way the next few days. We feel that this city will keep the loyalty and generosity that characterized it in the past.

**Big Rabbit Creek**

July 14, 1935.

Last Friday evening and part of the night this part of Cotton county was visited with a nice slow rain about 1-4 of an inch, which was fine on cotton and water melons. Gardens were too near burnt up for the rain to do any good. Believe me the ground was so hard that in some fields that the cotton was being plowed or rather plowed at. You could see a little stream of fire running out behind the sweeps, you can believe it or not.

Mr. and Mrs. W. A. Wilson and family drove down to their daughters and son-in-law and family, Mr. and Mrs. Jack Williams and spent Sunday visiting with them.

Mrs. Edward Owens accompanied Mr. and Mrs. Luther Bridges to Burkburnett Saturday afternoon. They reported a larger crowd in town than there was a week ago last Saturday and all of the business men was as busy as cran berry merchants.

Well sir, folks, old Hawkeye accompanied his good help mate over to his old friend W. D. Day's peach orchard last Thursday where Mrs. Owens purchased 3 1-2 bushels of the June Alberta peach variety of which was the finest peaches that Hawkeye has ever seen both for quantity and quality. At that time brother Day had about 300 bushels still on the trees, but they didn't last long for as soon as Mrs. Owens arrived home she started in advertising them by phone at 50c per bushel for brother Day, and by night he didn't have a June Alberta left. He turned away over 200 who came for peaches, but they just came too late. He will have by this coming Wednesday just lots of real Albertas at \$1.00 per bushel, and say boy they are sure fine both for size and for flavor. Hawkeye and his wife will go back Thursday again and get several bushels of them. All of different varieties. It's a sure thing brother Day's old mother never did whip him for giving good measure of anything he sells you, for he sure does pile the half of bushel up when you buy peaches from him.

Mrs. Major O'Neil is a proud owner of a brand new Chevrolet \* car. Mrs. O'Neil bought it Saturday up at Walters, Okla. For some reason after they went to Burkburnett it went dead and would not run. So Sunday morning Mrs. O'Neil's son Charlie Griffith came over to the Owens family to phone to the company at Walters to send a man down to make the thing run. If Mrs. O'Neil had purchased her car from Barrow-Grace, in her home town she would have gotten a car that would not of got sick right off the reel.

The grass hoppers are doing quite a lot of damage to the creek bottom land as they are eating it up pretty bad in places.

The writer has been advised that the big thrashing job will be something of the past by the last of next week, as the big oat crop will be all thrashed. The wheat crop didn't amount to very much.

Mr. Tobe Hardin, Mrs. Martha Nails and son Charlie and their friend Edgar Harris motored over to the Owens family Sunday morning and visited a short while.

Say folks, it's getting some hot at this writing, 3:20 p. m. the heat reading in the house is 99 1-2 with two doors open and all of the windows open. The writer is just wondering if its this hot next week how he can operate the nigger pencil out in the cotton field and not a bit of shade to get under but a wire fence.

Hawkeye knows there is some fine piano players among the Burkburnett ladies in Burkburnett, so I am sending them a little (dito) for them to play. The air: "Coming Thru the Rye."

If a body trusts a body And fails to get prompt pay, May a body ask a body Please remit today.

Everybody trust somebody Then they stay away Collect the cash from everybody Then customers will stay.

HAWKEYE.

**News Summary**

Purvis has resigned from his position in the department of justice of the United States. This brings to a close one of the most brilliant careers of any of our enforcement officials, for the time being at least. The man who became famous for his relentless hunting of the mad dogs of crime. Yet in spite of all his speculations, he could have said anything to the kind that could have allowed him much bragging. When he hunted down Floyd, Dillinger and many others, he could have said anything about himself and the press would have printed it, and most of the public believed it. Now he retires. A young man, and most people think that he will start a private investigation agency. If he does, we bet it will be one of the best in the world.

**Dreyfus Dies**

The most tragic incident in French history was the persecution of Dreyfus on a framed political charge. He was a young man that achieved the status of a ranking French officer in spite of his being a Jew. The jealousy created caused a group to frame him and send him to prison of Devils Islands. After several years he was retried and resented. Then the fraud was discovered and he was released, pardoned and knighted for his suffering. A man of 40 came out of the prison, white haired and broken. But he lived a life of service-serving as a colonel in the last war. The irony is that his accusers died in disgrace. Dreyfus died last Friday and the whole world, remembered him—they have forgotten the names of his accusers.

**AAA Tax Suits**

The mills have won the first skirmish in the processing tax suits. The flour makers maintain that the tax is illegal, and they are demanding repayment and cessation of the levy. A temporary injunction was granted in a Federal court in Minneapolis to 16 large mills to stop payment. The question is what will the farmers think of this when the government is forced to stop paying their acreage rentals by the supreme court. That might be just enough to create a revolution.

**U. S. At It Again**

It seems that the United States never learns from experience. Last week the department warned Italy that we regarded the Ethiopian invasion unfavorably. In plain language that means we don't like it and think it's a dirty deal. Of course diplomats don't talk that way, but that's what they mean. U. S. didn't learn to keep out of Europe the last time. It is apparent that we will be mixed up in this before it is all over.

**Soldier of Fortune**

Every little war that starts all over the world a large number of soldiers of fortune volunteer their services. In the case of Italy and Ethiopia, there are 35,000 Englishmen already sent in applications for the job of fighting Italians. Further more, even in Dallas, the negroes have organized and offered their services. Thousands of Americans, especially aviators have been besieging the Ethiopian charge here for permission to fight for the nation.

**To Make A LONG TAIL SHORT**

The facts of the case are that a girl's best finishing school is matrimony. It's also true that when you're sick you call a doctor; when your tooth aches you go to a dentist. Likewise when your car gets "sick" take it to a real auto hospital where specialists will diagnose the disease and effect a speedy "cure."

**Barrow-Grace Chevrolet Company**  
Burkburnett, Texas

This is always true. When a big nation jumps on a small one, the sportsmanlike adventures all over the world line up for the little nation.

**The Eclipse**

Some of the strangest superstitions of the whole race are involved in the phenomena of the eclipse. This week, Burkburnett with the rest of the nation watched the moon hide behind the shadow of the earth. A lot of people wonder how they can tell so precisely when and how these events occur. The heavens, stars, planets, comets, satellites, and all other bodies work like a piece of a huge machinery. They never err in their paths. So it is a matter of simple arithmetic to figure out where a certain portion of the universe will be at a certain time. However, it is one of the most interesting of all sciences. When we see the marvelous working of the universe, we are a little more awed by the wonder of it all, and impressed by the fact that behind it there lies some reasoning intelligence.

**Current Literature Club Holds An Hour For Story Telling**

The Current Literature club alternated with the Federated Missionary societies last Wednesday and presented the story telling hour for the children of Burkburnett at the Hardin park. The program consisted of readings and stories that were presented by Mesdames M. W. Majors, Al Lohofener, and Fred Flanagan, and the children were entertained by the club sponsors. There were 147 children present, and in spite of the intense heat of the mid-day program enjoyed the presentation. The children were given ice cream cones after the program.

The story hour has been sponsored by the two clubs for several years and the sponsors alternate each week during the summer to treat the children and provide the story telling. It has been an attempt to acquaint the children with some of the classics of literature and folklore.

**The Telephone Goal of Europe IS JUST A GOOD JOB HERE**

The fast, clear, far-reaching telephone service of America has never been equaled by European nations. Differences in equipment, methods and policies have barred the way to such service among the many countries there.

In America, your telephone service has over-leaped state and regional lines. Here there are no telephone boundaries.

Your telephone is "first cousin" to each of 13 million other Bell telephones here. It is designed and manufactured to meet uniform operating standards.

Every Bell telephone line, local and long distance, is built to conform to uniform tests of clarity and volume in carrying your voice.

Every Bell telephone operator, whether in New York, in San Francisco, or in the thousands of towns and cities between, is trained to use the same methods... the

same team-work in operating the vast national communications network.

That these things are true is due largely to the Bell System form of organization.

American Telephone & Telegraph Company, the parent company, studies and standardizes better and more economical methods, apparatus and materials for the 24 operating companies of the System. Bell Laboratories carries on the research work. Western Electric manufactures, purchases and distributes.

Without this organization behind them, the Southwestern Bell men and women here who give you your telephone service could not do their job so well. For many years it has materially helped us, as one of the group of operating companies, in holding the cost of good telephone service low to the user.

**SOUTHWESTERN BELL TELEPHONE COMPANY**

**Owens-Brumley Repaints Signs**

Repainting the welcome sign of the city and across the Oklahoma, the Owens & Brumley firm has redecorated the store in the city. The firm has made a more attractive and is indicative of the progress of this firm.

#### Whole Town Pays Roberts Tribute

The whole city of Burkburnett closed Friday afternoon to pay a tribute to one of its pioneer citizens, J. L. Roberts, who died Wednesday afternoon in Norman, Okla. The late citizen was honored in the church that he started as an active layman over twenty seven years ago. The last services were held by the Rev. Brooks a life long friend of the deceased. The minister was assisted by Rev. McKown, a retired Methodist minister and the pastor of the church, Rev. L. G. Hagard.

The funeral was under the direction of the Owens-Brumley funeral home, and the active pallbearers were Jack Kelly, D. R. Peevey, Ray Hill, Jim Mentor, John Bostic, Joe Majors. The honorary pallbearers were: M. W. Majors, August Lohofener, N. G. Parsons, J. R. Sullivan, John Muller, Jim Snoddy, Dave G. Holtzen, Kelly Harmon, C. A. Purcell, R. M. Gilchrist, Wid Phillips, Guy Willis, J. G. Hardin, J. M. Hayworth, J. N. Vaughn, B. F. Cook, Chas. P. VanLoh, F. R. Knauth, T. E. Griffin and Johnny Jackson from Burkburnett, Dr. R. J. Dice, Randlett and J. F. Guillet of Stamford, Texas. All of these honorary pallbearers are old timers in this city and were friends of the late Mr. Roberts when he was a citizen of this city.

#### Man Arrested For Theft In West Field

A Burk officer arrested a man charged with an alleged theft of material on the Bohner Oil company tanks in West field last week. The arrested man approached the tanks and pilfered several small articles from the supplies. When he was arrested he said that he had been here only a short time and that he could not find a job. The funds that he obtained from the sale of the supplies were used to buy shoes. The man was transported to the county jail to wait examination by the grand jury. The theft was traced through numbers of a truck given by a neighbor that witnessed the crime.

A Scotchman seeing a dime in the street in New York stooped over to pick it up, and was run over by a passing motorist. The verdict of the coroner's jury was "Death from natural cause."

Out of His Line Diner: "There's something wrong with these hot dogs." Waiter: "Well don't tell it to me; I'm only a waiter, not a veterinarian."—Lorain (Ohio) Journal.

#### Church of Christ Meeting Successful

Under the brilliant leadership of Hubert Hooker, evangelist the Church of Christ completed its revival meeting this week with results that exceeded the expectations of the congregation. There were 20 baptisms and 11 new members by re-instatement. These members joined as the result of the preaching of the evangelist and the unified work of the congregation.

The meeting was characterized by song services led by local members and the pastor Willis Kreager organized and directed the meeting preliminaries. Every meeting of the special services was large, and the special loud speaking set was installed to make it possible for the large crowds to hear the speaker. The church expresses its appreciation to the speaker who just completed his third revival at the local church.

#### Rotary Club

The Rotary club was led in a series of songs by Marvin J. Edwards of Lewisville, Texas, and singer at the Methodist revival Tuesday at noon in the meeting at the First Methodist church. The singer demonstrated the possibilities of the group singing by many features of responsive leadership. The songs drew an excellent response from all of the members of the luncheon club present. The report of Neeley Vaught on the secretary and presidents breakfast held at Vernon last week was the speaking feature of the program. Mr. Vaught told of the laws and rules applying to the club and spoke on the different means of making Rotary a more progressive movement in the local club.

The visitors present were Len Albritton, Roy B. Jones, Luther Hoffman, J. C. Hunt, Jim Mytinger and Russel Morgan of Wichita Falls, Rev. T. L. Huffstutler of Commerce Rotary club, Rex D. Young of Grandfield, Okla., was the guest of B. F. Gilchrist.

#### Girls Softball Team To Enter Wichita League

The girls softball team of Burkburnett will enter the Wichita Valley league for the rest of the season according to the announcement made here this week. The Ramblers have been unable to take the position that they occupied the first half, and they were unable to keep the sponsor for the rest of the season. The local team has been organized for the PTA and they have played three games. In these games they have a fair record. They have played the strongest teams in district and more than held their own with this strong opposition. With a slight bit more practice they will be able to take on some of the regular conference foes with credit to their team and sponsor.

#### Family Keepsake

Teacher: "Joseph, what are you going to give your little sister for a birthday present?" Joseph: "I dunno; last year I gave her the chicken pox."—Rexall Magazine.

#### Card of Thanks

We desire to express our grateful appreciation for the many ways in which the sympathy of the Burkburnett community was manifested to us in the time of bereavement. The courtesy of the business men in closing their houses during the hours of the funeral, the assistance of the fire department in policing the procession and their attendance at the services, the floral tributes and the sympathy of our many friends so generously extended and so sincerely expressed in innumerable ways, all have contributed in immeasurable degree to lighten the heavy burden of sorrow that comes at such a time.

#### BEAUTY HAS STIFF RUN-IN WITH DANGER

Because of their unusual success in "Mystery Woman," Mona Barrie and Gilbert Ronald are again brought together in a Fox Film picture.

They are co-featured in "Ladies Love Danger," the mystery comedy dealing with multiple murders in a back stage and pent house background which will be shown at the Palace Theatre Thursday.

In "Ladies Love Danger," she portrays a beauty who mistakenly enters a rich bachelor's smart apartment, and is instantly suspected by him of a murder just committed in the adjoining apartment. Prisoner for a night, she slips out at dawn, her escape coinciding with three ensuing murders under mysterious circumstances.

Not until the last foot of the last reel is the mystery cleared, and the unconventional beauty is seen to be the victim of circumstances that pointed to her as the guilty one.

## SIXTY "AMERICAN VENUSES" SOUGHT TO MODEL FASHIONS AT RETAILERS' MEET

Left—Part of the crowd of 500 girls who applied for the sixty "American Venus" jobs. Upper right—Taking the "Tape Measure Test." Lower right—Edna Vettori, Metropolitan Opera star who will head the cast of entertainers who will appear on the fashion pageant program.

St. Louis.—A quest is under way in St. Louis for sixty girls—blondes, brunettes, auburns or redheads—who can measure up to the "American Venus standard." They are wanted to display feminine styles for the coming fall and winter at the fashion pageants to be presented on an elaborate scale during the semi-annual convention of the American Retailers' Association to be held in St. Louis from August 5 to 19.

Scores of girls have undergone the "tape-measure test" since the search began two months in advance of the style show, but the quota of sixty typically American girls proportioned along Venus' lines has not yet been completed, and the judges are better and better coming to understand the difficulties of the legendary Diogenes searching for an honest man and Ponce De Leon seeking the Fountain of Youth. Dozens of girls fulfill the ordinary requirements of facial beauty, grace and other feminine attributes—but fail to make the "Venus test" hurdle because of slightly large ankles, or a waist or neck only a fraction of an inch short of the perfect proportions.

These are the "American Venus" specifications laid down by Major

Levy, who has trained thousands of models, and other judges:  
Height, 5 feet 8 inches.  
Weight, 125 pounds.  
Bust, 35.  
Waist, 23.  
Hips, 35.  
Calf, 14.  
Ankles, 7 1/2.

When the sixty girls are finally selected, they will be put through a rigorous schedule of rehearsals for the style shows, which will be presented on the great stage of St. Louis' new \$7,000,000 Municipal Auditorium. Marking an innovation in fashion pageants, the newest styles will be shown to the accompaniment of the music and dramatic plot of a special stage production, "The Ship of Fashion," in which Edna Vettori, Metropolitan Opera singer, will head a talented cast of singers and dancers. The models, as members of the cast, will wear the gowns, suits, coats, hats, shoes, furs and other accessories of feminine apparel that are to be the modes this fall and winter.

It will be the first time that fashion, music and dramatic plot have ever been blended into a single production for the thousands of merchants from virtually all sections of the country who attend the conven-

tion of the American Retailers' Association. It also will be the first time that the huge Opera House in the new Municipal Auditorium, heretofore used for symphony concerts, grand opera, the National Folk Festival and other events of the kind, has ever been thrown open to Dame Fashion and her flurries. The stage on which the pageants will be presented is 150 feet in length, 50 feet deep, and the scenery grill overhead towers 101 feet from the stage floor.

In addition to the fashion pageants, the huge stage also will be used for the model window and interior displays which will be presented by the International Association of Display Men for the benefit of visiting merchants. The display men's organization will hold its 38th convention in St. Louis the week of August 5, and its sessions have been arranged so that they will not conflict with sessions of the American Retailers' Association.

Reduced railroad rates of fare and one-third for round trips will be in effect for merchants of thirty-

nine states and the District of Columbia who come to St. Louis for the convention. Special railroad rates will be in effect from other states also.

Features of the convention program for visiting retailers will include A. R. A. nights at the St. Louis Municipal Opera. The program will be "Desert Song," the week of August 5, and "Roberta," the week of August 12.

Officers of the American Retailers' Association for the coming year will be elected at the final session of the convention. L. K. Sharpe, of Checotah, Okla., has served as president the past year. Vice-presidents are: W. F. Beall, Jacksonville, Texas; M. H. Forester, Ottawa, Kan.; Mahlon Garber, Columbia, Tenn.; B. E. Hart, Harborsburg, Ill.; John F. Lottes, Perryville, Mo., and Louis Weisberg, Loveland, Colo. Scott R. DeKins, of St. Louis, is secretary and treasurer of the Association.

### Burk Unusual Garden Draws Praise Of The Relief Officials

The unusual yielded that the local relief gardens produced the spring season has drawn the attention of the officials of the county relief headquarters. The story of the excellent yield was run in last week's paper, and the result has been that the efficiency of the management and production drew the praise of the district headquarters. The work that has been done locally by the

administration has produced the useful end of feeding a large number of the clients on the roles in this territory.

In addition to the actual growing of the food materials, the same relief group has put a large amount of the garden or truck products into permanent storage at the canning plant. This plant was installed recently at the high school cafeteria with two large steam pressure cookers. The cookers have individual controlled burners with a capacity large enough to take care of the needs of the community.

The relief headquarters has an-

nounced that they are in a position at the present to can a large amount of all types of food for the community. The persons who are interested have been asked to get in touch with the officials at the relief headquarters.

The cannery will have the materials and labor furnished for the canning, and the producer is required to furnish only the product that will be preserved. This work is done by the plant for 1- of the finished material. The government furnishes labor, cans, and all incidental materials for the process.

Several thousand cans of material of all types of food have been saved this way. Much of this material is placed in the storage rooms of the headquarters, and will be used next winter during the peak of the relief situation.

At the present, the vegetables and other garden products are being released in the food quotas at the agency.

### LET'S TALK ABOUT CLOTHES by a "Young Modern"

DENTON, July 18.—Smartness is a quality that every young modern desires to attain. It does not present a difficult problem. On the contrary, a simple one, for detail accessories present the solution. We've discussed the principles of essentials of a well groomed individual, and now let us turn to the minute details.

Have you thought much about the use of flowers in connection with your summer wardrobe? They present a variety of uses and pleasing effects. A clever adaptation for a summer evening night include a head ornament of flowers. Weave a cluster of poppies or some frail blooms into a spray and let it outline the contour of your head just above a row of curls. It will give you a delightful fresh appearance.

You may wear flowers in your ears. And it's not a gag. Some of the newest earrings shown in the shops consist of small fabric flowers such as a single violet or a cluster of forget-me-nots mounted on a clip. Young moderns of Texas State College for Women (CIA) are wearing them to accentuate the color note of their costume.

Mother of pearl has some into its own in the line of accessories for summer. It is shown in handbag clasps, belt buckles, buttons and in tiny monogram clips for the dress or bag.

Petit point vanities are in the ascendancy just now, and especially for evening. Vanities are also being shown in metal with a lacquered portrait of yourself on the lid. The makers suggest a color caricature of

simple line drawing for the best results. There are linen covered vanities ornamented with tiny bouquets of flat ribbon flowers or embroidered with your monogram. Linen handbags made in the slip cover style so they can be washed, are featured in colors to match every costume.

Mr. and Mrs. Herman Brown will be in Dallas for next week. Brown will attend the C. of C. school.

### Barrow-Grace Celebrates Cut In Chevrolet Prices

Mr. Grace of Barrow-Grace Chevrolet Company and his entire organization are celebrating new low delivered prices on the Standard Chevrolet, and the Master DeLuxe Chevrolet.

Mr. Grace said that the dealers in this area known as the Dallas Zone are featuring new low delivered prices to the public.

The manner in which these prices are advertised are very simple. The prices at which you can buy Chevrolet's delivered at your door.

This, Mr. Grace states, ties in with the Chevrolet Motor Company's policy of giving its customers every advantage possible in the purchase of their merchandise.

These new delivered prices not only bring Chevrolet into the low price bracket, but makes the Standard Chevrolet the lowest priced car in the Low Price Field.

### Federated Society Holds Story Hour

The Federated Missionary Society held the story hour at the Hardin park Wednesday afternoon in spite of the threatening weather. The party is held each week and the children of the community invited to attend the program. The Current Literature and Federated societies alternate in presenting the program. The children have attended in large crowds so far this season, and the society served ice cream at each of the meetings. The stories are told by the members of each society. A large number of children were present Wednesday.

Professor Fred W. Householder, professor of math in University visited his sister Mrs. M. C. Tucker in Burk this week and will be here for several days.

Adding Machine Ribbons.—Star.

Lt. Kenneth Tucker returned from Ft. Sam Houston, two weeks of officers training.

### HIS ALIBI

He was relating at the breakfast table an incident that occurred at the lodge the previous evening. The president of the order, he said, offered a silk hat to the borthouse. He could truthfully say that during his married life he had never kissed a woman but his own wife.

"And would you believe it, one stood up."

"George," his wife said, "why didn't you stand up?"

"Well," he replied, "I was to but, you know dear, I look the devil in a silk hat."

"What attracted you to your minister after the money?"

"Well, sah," replied the faced groom, "de fust time I Dinah I tuk er fancy to her was so good looking Den who larned dat she was doin stey in' for sebben families right dar, sah, I surrendered."

"Where have you been for four years?"

"At college, taking medicine."

"And did you finally get well?"

Hotel clerk: "Is this \$100.00 the smallest you have?"

Departing guest: "I'm afraid, Clerk (to bell boy) "Here, this out and get some relief to change it."

**Standard Auto Engine Completes Test Use Aircraft**

Thousands of Letters Indicate Wide-spread Interest in Low-Priced Airplane

**PLYMOUTH PASSES TEST**

Moving the mass production, low-priced airplane a step closer to realization, the United States Bureau of Air Commerce has just completed official tests of the first standard automobile engine to be inspected for a government certificate permitting its use in aircraft.

The government's required 50 hr. aircraft engine test as well as the 100 hour manufacturer's test were successfully completed here on a standard 1935 Plymouth engine. Melvin J. Perring, inspector of the United States Department of Commerce, supervised the government test. The tests were conducted in the Chrysler Motors dynamometer laboratories under an arrangement with the Amplex Division of Chrysler Motors.

Official records of the grueling test are being forwarded to Washington where they will be reviewed by officials of Bureau of Air Commerce before the granting of an approved type certificate. Such certificates are required by government regulation before an airplane or engine can be offered for sale to the public.

The Plymouth engine completed the test without a single hitch during its 50 hours of continuous full load operation. The Bureau of Air Commerce has already placed an order with the Fahlin Aircraft Company of Marshall, Mo., for an airplane powered with one of the Plymouth engines to be delivered about Aug. 1.

A Plymouth engine, similar to the one used in the official test here, was successfully used to power the two-place, high-wing "Plymacoupe" monoplane manufactured by the Fahlin Aircraft company of Marshall, Mo. The Plymacoupe showed a maximum speed of 120 miles an hour and a cruising speed of 100 miles an hour during its flight tests. On a recent two and one half hour flight over 250 miles between two mid-western cities, the little plane used ten gallons of ordinary gasoline and less than a quart of oil, averaging 25 miles to the gallon of gasoline.

Use of the Plymouth engine in airplanes is expected not only to insure the economical operating costs already familiar to motorists who drive automobiles powered with the engine, but also to provide an unusually high degree of reliability at a price that is but a fraction of the lowest priced aircraft engines now on the market.

Plymouth builds 50,000 engines every month, employing engineering and production standards not yet introduced into the low-priced airplane field.

Features that dictate selection of the Plymouth engine for use in aircraft include its full length water jackets and full pressure lubrication, which insure perfect operating conditions at sustained high speed. These are standard features of the Plymouth engine used in automobiles.

A minimum of changes were necessary to convert the automobile engine for aircraft use. It was stripped of its flywheel, electrical equipment and radiator fan. An aircraft magneto, updraft carburetor, and sheet metal exhaust manifold were installed. An aluminum cylinder head was used to reduce weight and give a 7 to 1 compression ratio as contrasted with that 6.7 to 1 ratio of the standard Plymouth automobile engine. A 2-to-1 reduction gear, driven directly off the crankshaft and lubricated under pressure from the engine, was employed to

**County Junior College Plans Completed Mon.**

Mr. and Mrs. J. G. Hardin offered the county of Wichita an endowment fund including a \$400,000.00 fund for a county Junior College at Wichita Falls. The plans for the building were submitted to the Wichita school board Monday night, and that board deferred action on the plans until arrangements could be made to secure the cooperation of the remainder of the county. The plans for the present are to ask the government for a \$350,000.00 grant to construct the building.

This will be an unusual opportunity for the county, since it may be possible to secure a PWA grant at this time. Forty-five percent of the grant would be clear or direct gift from the relief treasury.

The building will be located on a 40-acre plot already acquired by the city of Wichita Falls, and it will ultimately provide for 750 pupils. This is a part of the general endowment granted by J. G. Hardin. The remainder is \$50,000.00 for the children aid society, and 150,000.00 for boys and girls work in the county. This brings the total of the gift and grants of the generous Burkburnett couple to \$2,500,000.00 during the last few years.

**Benefit Game Raises \$17.00 For PTA Wed.**

According to the announcements of the league secretary Thursday the PTA benefit game played Wednesday night gained a total of \$17.00 for the winter fund of the association. The games have been arranged for the club, and the coaching directed by Herman Brown.

A game will be arranged for next Wednesday night here, and the opponents will probably be the Iowa Park girls team. These games are expected to draw the largest crowds of the year in spite of the weakness of the local team. So far there have been 25 or 30 girls out for each practice. The squad will be divided into two teams and play an inter-squad game on the following week.

**City Starts Street Repair This Week**

Leasing the machine of the county, the city started the work on smoothing the mountainous streets in Burk this week. Due to the heavy spring rains the streets were in bad condition. The machine purchased recently by the county is one of the most efficient units of its type that has been manufactured. The machine is operated by one man, and all of the operations are automatic. A few days work by the apparatus will put the Burk streets in good condition.

The work started on Avenue E Thursday morning, and all of the streets will be smoothed before the project is completed by the city government.

**STEP BY STEP**

A youngster asked his father how wars began. "Well," said his father, "suppose America quarreled with England, and—" "But," interrupted the mother, "America must not quarrel with England." "I know," he answered, "but I am taking a hypothetical instance." "You are misleading the child," said mother. "No, I am not," he answered. "Yes you are." "I tell you I am not! It's outrageous—" "All right, Dad," said the boy. "Don't get excited. I think I know how wars begin."

turn the propeller at a maximum of 1,800 revolutions per minute.

Harry E. Heath, general sales manager of the Amplex Division of Chrysler motors, has received numerous inquiries about the Plymouth engine for aircraft use from manufacturers interested in entering the low-priced airplane field. More than 4,500 letters have been received by Chrysler Motors and the Fahlin Aircraft Company since news announcements of the first airplane powered with a Plymouth engine were published. The letters came from the general public interested in buying a low-priced airplane, from dealers interested in handling its sales, and from airplane manufacturers. A cable from South America asked for quotations on 100 of the two-place airplanes powered with the auto engine.

The Plymouth engine converted for aircraft use weighs 398 pounds, which is slightly less than those installed in Plymouth motor cars. Since it develops 80 horsepower in the airplane, it has weight-power ratio of about 5 to 1. The weight empty of the "Plymacoupe" is 1,078 pounds. It is equipped with a standard Plymouth instrument panel converted to aircraft use, and even the engine hood has been decorated with louvers resembling those on the Plymouth car. Furnishings throughout the ship follow standard automobile practice as far as possible.

**THESE FOOTPRINTS Prove THE VALUE LOOK!**

Every Goodyear Tire is a bargain today, including the sensational "G-3" All-Weather—the tire Detective Faurot's famous coast-to-coast investigation proved is the world's greatest mileage tire.

**SEE LOCAL EVIDENCE**

We've got the evidence to back it up — actual footprint records made by "G-3" tires used by your neighbors — on the same roads you drive! It's first-hand proof that this great tire gives better than

**"DODGE BLAZES ECONOMY TRAIL" says ROY CHAPMAN ANDREWS**

"Sturdy, rugged Dodge helped me blaze a way through trackless wastelands in the Far East," writes Roy Chapman Andrews, famous explorer. "And now Dodge blazes a new trail—the economy trail. I know my new Dodge costs less to run than a small car."

Dodge owners everywhere are getting gas and oil mileage heretofore considered beyond reach. Many figure it costs less to own a Dodge than a small, competitive make. They say

their gas and oil savings quickly make up the difference in price.

Drive a Dodge yourself. Make the FREE economy test. See how pleasant, comfortable it is to drive with its "Airslide Ride" and "Synchronous Control." Dodge gives you the protection of all-steel bodies and genuine hydraulic brakes, yet costs only a few dollars more than the lowest-priced cars. List price now only \$945 and up at factory, Detroit.

**Softball League Race Gets Tighter**

Thursday Night Will Present Two Leading Teams In Critical Battle

The race in the softball league grew more interesting last week, with the Magnolia and Mity Nice teams heading for the big game Thursday with good records. The week started with the loss by the Tucker Oil Team to the Barrow-Grace team. It was a battle from the very start of the game. Each team taking the lead several times. The Bell Oilers finally eked out a victory with a last inning defense that ended with the score 12 to 11 in their favor.

The Thaxton team has hit the dumps for the second half. Up to Monday night they had not won a single contest. During the past they lost a game to the Mity Nice. This game gave the first evidence of a return to form by the hardwaremen. The final score was 9 and 5. The Mity Nice played an excellent game and jumped ahead early. Their lead was never really threatened, and they walked off with the victory. The Thaxtons however, played the best game of several contests. The Mity Nice won the second game of the week when they took a game from the Skelly team.

The Magnolia continued their perfect record by defeating the Tucker team. This gave the team one of the best records in the league. They rank with the Mity Nice as the ranking teams of the association. The Magnolia has two of its hardest opponents out of the way and the clash Thursday with Mity-Nice will be the battle that will ruin one of the other perfect records.

The Barrow-Grace, Bell and Thaxton games were called. The first game was called due to rain and wind. The Texas and Thaxton developed an interesting struggle over a forfeit or postponed game. Neither team had a representative present for a whole team. The result was forced to declare that there had been no contest.

The Texas company upset the dope bucket and defeated the Skelly Tuesday by a score of 20 to 9. These games have all been characterized with lots of batting and slow fielding.

Mity Nice completed their drive Monday afternoon when they took the Tuckers for a lopsided score. The Tuckers are one of the most improved teams in the league, but they had no chance against the fine working machine of the Bakers.

Team	G	W	L	Pct
Mity Nice	5	5	0	1000
Magnolia	5	5	0	1000
Bell	4	2	2	500
Tucker	5	2	3	400
Barrow-Grace	3	1	2	333
Texas	3	1	2	333
Skelly	5	1	4	200
Thaxton	4	0	4	000

**Chevrolet Presents Cars In Parade Fri.**

In advertisement of the Chevrolet Amateur program presented Friday night, and to demonstrate the satisfaction of continued service given by Chevrolets to their owners, the Barrow-Grace Chevrolet company presented a huge parade of more than 75 cars Friday afternoon. The drivers gathered at the east side of the company, and they formed a driving line several blocks long, going east to the Ave. E and Main street and returning to the Railroad tracks and back to the same point.

Every variety of Chevrolet manufactured the last ten years was in the parade, and the prize for the oldest car was given to V. J. Nelson, whose 1925 model won the award. Running a close race was the car of Mrs. N. M. Adams of the same year. Both owners expressed a real satisfaction at Chevrolet service. Their letters are elsewhere in this issue of the Star.

**Mix This At Home With LEMON JUICE To Stop Agony of RHEUMATIC PAIN**

If pains from Rheumatism or Neuritis are driving you crazy you can get relief with a simple remedy that you mix yourself, at home, with Lemon Juice. Simply go to your druggist and ask for a package of the REV PRESCRIPTION and mix it as directed, adding the juice of four lemons. You will then have a FULL QUART of the finest medicine money can buy for your pain. It costs only a few cents a day, and will often bring relief from pain in 48 hours. Hundreds of sufferers right in your own locality acclaim the glorious and amazing way it stops the pain. The REV PRESCRIPTION is pleasant and harmless to take, and you mix it right in your own home. No fuss, no bother, no cooking. Just add boiling water. Money back guarantee. Your druggist carries REV in stock or can get it for you from his jobber on short notice. Before you suffer a day longer or take a chance with "dope" or drugs, why not give this lemon juice treatment a chance? See your druggist today!

**What Fans Ought To Know About Football**

By Coach Volney Hill

(Editors Note: This series of articles about the fundamentals of football are taken from the note book of the local coach. At the request of this paper he has allowed us to publish the series in order to acquaint the fans with the game.)

**End Play (Continued)**  
Covering Punts: There are five fundamentals that you must master in covering punts. They are: First sprint with the snap of the ball; two, after the ball is kicked, take one quick glance to the point to get its direction and height; three, always use your hands on a half back that is blocking you; four, fake the back in and out to miss his block, never faking out and in as you are an end and have to cover the outside; five, slow down as you approach the spot where the ball is coming down so that you can change your direction quickly and make tackle on the punt receiver.

All five of the fundamentals are important when covering kicks. The sprint will get you down the field under the kick where you should be and a quick glance will also put you in proper place. The use of your hands will keep the backs from blocking you, when he attempts to do as you are coming down the field. It is very important to slow down in front of the punt handler as you are very easily side-stepped when going at a high rate of speed. However, there is one exception to this rule. When the punt is high enough for you to get all the way under it, then you should go in all the way and make the tackle when the punt is caught. Keep in mind at all times that you should be on the outside of the ball as it might bounce toward the sideline and its your job to cover the outside.

Blocking secondary—In cutting down the secondary, it is important to get very close to your opponent before blocking him no matter what type of block that you use. In other words, you should almost touch him before letting yourself go. In using the shoulder block, you should take a dip just prior to contact and on a body block you should practically get contact then let yourself go at him. The important thing here is to always know where the ball is going, and keep yourself between your opponent and the ball carrier. This

will assure you of blocking your man in the proper direction.

**Defense**  
You defensive stance should be in a position at 45 degree angle to the line of scrimmage, and facing the ball so that you can start with the snap of the ball. Your eyes should follow the ball so that you can start, and the eyes should follow the ball into the backfield and continue as you can see them through the split vision. You must constantly watch the ball carrier in order to maneuver your position and make the tackle. The best defensive weapon that you have is your hands, use them at all times on the defense. Types of crossing the line of scrimmage depends on the particular defense that you

are using. However, if on the defense you are protecting wide you should cross the line of scrimmage and meet the blocker in a position to force the ball carrier to the sideline with the stop. Stay low at all times on the defense and make yourself elusive by maneuvering your feet and your hands.

There may be no real saturation in the automobile market, but it has seen it in some drivers.

It'd be a break for the "permanent" waves had the ability of "temporary" taxes.

Boyd Bros. Thrift, Texas

**"PEOPLE'S ENEMY" DRAWS STORY FROM HEADLINES**

That experience is the best source of narrative is an accepted fact to writers of the popular novel. The human interest incidents which occur in the hubbub of the metropolis are nuclei for many tomes on the book stalls. Many magazine tales are inspired by odd items in the press. Edward Dean Sullivan belongs to the category of writers who revert to topical occurrences and daily experience for their plots. As a police reporter, he has become acquainted with the "400" of the underworld. He has hobnobbed with police lieutenants and racketeers' bodyguards, and the result of his acquaintance are seen in his novels, which include "The Snatch Racket," "Chicago Surrenders," "Rattling the Cup on Chicago Crime" and others. His latest effort is "The People's Enemy," a story in screen form at the Palace Theatre. The yarn has been shaped from headlines in the day's news, the drive on the country's leading racketeers on charges of income tax evasion. The loopholes which afforded criminals their liberty were closed by the income tax law, which were enforced in a nationwide dragnet.

**Capitol News Letter**  
by W. D. McFarlane, M. C.

**Proposed New Tax Measure**  
On June 19th the President sent a special message to Congress proposing increased taxes on individual and corporate income and gifts.

The writer spoke on this subject May 17th and offered bills amending our laws on personal incomes, gifts and inheritances. Under these proposed tax changes the writer would limit personal incomes to not to exceed \$1,000 per week or \$50,000 per year and would increase gift taxes commensurate with the inheritance tax laws of those of Great Britain. The writer heartily agrees with the President that taxation should be based on ability to pay and fully set forth his views on this subject on May 17th. Hearings opened on the proposed changes in taxation Monday, July 8th, and will close July 13th. The writer has submitted his views on this subject to the Ways and Means Committee of the House for their consideration.

**TVA Amendments and the Power Trust**

The House has debated practically all the week the proposed amendments to the TVA. The battle has been a continuation between the administration forces and the friends of the power trust. The bill as reported from the House Military Affairs Committee emasculated the bill as passed by the Senate and was strongly favorable to the utilities. The house bill would not permit needed developments in the TVA advocated by the administration. The House bill would have practically destroyed the TVA project and would have made ineffective its use as a yard stick for determining what constitutes a fair rate for electric power for the people. The administration rallied its forces and completely amended the bill and as amended the bill was finally passed by a vote of 277 to 100 in satisfactory form to the administration forces. The Holding company and TVA bills are both now in conference where it is hoped satisfactory compromises may be worked out.

Fourteen members of the Naval Affairs and Appropriations Committees left Thursday for the West Coast for a two weeks inspection tour of Government property there. The writer, because of important duties, remained here and on Thursday and Friday was instrumental in opposing legislation, that saved the tax payers several million dollars as shown by the Congressional Record, through opposing bills on the Consent and Private Calendars.

**Calendar**

The House will work Monday, Tuesday and Wednesday of this week on the Consent and Private Calendars; on Thursday the House will take up the Gold Clause Legislation and on Friday amendments to the Federal Alcohol Control Act. We are having our hottest weather here but we understand it is not freezing in Texas.

**Football Team To Start Training In Camp Lake Kemp**

According to the announcement of Volney Hill, coach, the football team will start the preliminaries of the training season at Lake Kemp camp sometime during the month of August. Last year the squad went to Craterville for the pre-season toughening process, and the group were sent through a rigorous exercise in the outdoor camp. This year a similar program has been planned.

There will be swimming, calisthenics, road work, and study periods besides exercise at the dining table three times a day. The camp is expected to harden the muscles if possible of every boy on the squad for the regular training season that starts soon after the first of September.

Last year the expenses of the camp were paid by the athletic fund much of which was created through the generosity of local sportsmen, and this season is finding the same generous response of the group of people that are interested in the team.

The record of the team last year was an enviable one. With a squad that was granted no better than an even chance, the coach brought out some fine playing and created a team that met conference defeat only at the hands of Olney and Crowell (Dick Todd). The coach has been arranging the supplies, such as food, training equipment and etc. and he will be ready to give the squad a fine workout when the camp opens.

"What is modern transportation aiming at?" queries a head-line in a traffic bulletin. As to that we can't say exactly, but we suspect it's pedestrians.—Boston Herald.

—Staley Journal.

**Testimonials . . . . of the DURABILITY of the Chevrolet**

Burkburnett, Texas, July 13, 1935

Barrow-Grace Chevrolet Co., Burkburnett, Texas.

DEAR SIR:—

I bought my Chevrolet Coach from the Adams-Mansfield Chevrolet Company, in Burkburnett in December 1925. I have driven it for almost ten years and it has never had any work done on the motor. It has the same pistons, rods, pins, and bearings which were in it when I bought it. It still runs and looks like a new car. It has been very comfortable and still is a car in which it is easy to ride. I have driven it on several trips over Texas and Oklahoma, and it has always been ready to go any time I needed it. It still has a lot of miles left in it.

It was a pleasure for me to put in in the Chevrolet parade which you people conducted July 12.

I take good care of my car and keep it in a shed most of the time when I am not using it. It still operates with very little gasoline consumption and practically no oil.

Very truly yours,  
Mrs. N. M. Adams.

Barrow-Grace Chevrolet Co., Burkburnett, Texas.

DEAR SIR:—

I am glad I put my car in the Chevrolet parade which you had on July 12, 1935. My Chevrolet roadster, which I purchased on the 20th day of June, 1925—ten years and 17 days ago, has given me good service since the day I bought it. All of the work I have had done to it was to have the bearings tightened and rings installed at a cost of about four or five dollars.

I have driven this car 75,000 miles and it has been very dependable and I have enjoyed the comfort and ease of riding.

I have used this car for pulling trailers, herding cattle, and almost anything that had to be done. Up until just recently it has never been hot enough to boil water.

When I buy another car, which won't be soon, as there are still many miles left in this one, it will be a Chevrolet.

Very truly yours,  
V. J. Bellsen.

**Barrow-Grace Chevrolet Co.**  
Burkburnett, Texas

## OSIER SCHOOLMASTER STARTED SPELLING BEE

It occupies but one chapter in the famous Indiana book, "The Hoosier Schoolmaster," which describes in a veritable masterpiece this type of contest in Indiana, as well as every English country at the time of the publication in 1871. In the small towns of the New York and London, like the author, "The Hoosier Schoolmaster" offers refreshing departure from the usual entertainment channels.

### Council Meeting Has Routine Session Mon.

The city council of Burkburnett met in routine session Monday night at the city hall. The group considered the routine business of the city in a brief session meeting at six o'clock in the evening. There was no special projects or business for the consideration of the body.

When a man has a birthday he takes a day off. When a woman has one she takes a year off.

## Burk Women Place In Dress Contest

Several women of the Hardin Home Demonstration club of Burkburnett placed in the dress making contest held by the Burkburnett and Iowa Park precincts at Iowa Park last Wednesday, July 10. The club met at the First Baptist church at 2 o'clock and the clubs competing were Weeth, City View, Pleasant Valley, Valley View, Hardin. The wardrobe demonstrators were scored on dresses, slips, record books, narrative and picture of the storage space before and after the improvement. The first place in the precinct went to Mrs. W. D. Bent of the Burk club; second place to Mrs. W. R. Norwood and third place to Mrs. Fred Roop. There were several other places by the local club. The first place winners in each division are to report to the county agents office for the final judging. A fifty pound cotton mattress will be given the winner of county.

After the completion of the precinct contests the women met Saturday morning in the office of the county agent, Miss Ruby Mashburn was judge of the finals. The winners for this section included several Burk women. Mrs. Fred Minick, W. D. Bent of Burk were among these winners. The list includes:

**Stout sub-division:**  
Mrs. Fred Minick, Hardin Club of Burkburnett; Mrs. R. J. Burke, South Electra club.  
**Slim sub-division:**  
Mrs. H. C. Obenhaus, Barwise; Mrs. L. M. Biggers, Weeth.

**In the slip division, first place precinct winners were:**  
Mrs. H. M. Biggers, Weeth.  
Mrs. T. E. Preston, Beaver Creek.  
Mrs. D. D. Thomas, Hillcrest.

**Wardrobe Demonstrators winning first places in the three contests of last week were:**  
Mrs. L. D. Smith, Sunshine Hill.  
Mrs. W. D. Bent, Hardin.  
Mrs. T. C. Beall, Friberg.

**After considering all points carefully, Miss Washburn announced the county winners as follows:**

**Cooperators dresses in short division:**  
Mrs. Fred Minick, Hardin, first.  
Mrs. R. J. Burks, So. Electra, 2nd.  
**Cooperators in slim division:**  
Mrs. H. C. Obenhaus, Barwise, 1st.  
Mrs. H. M. Biggers, Weeth, 2nd.  
**Cooperators slips:**  
Mrs. D. D. Thames, Hillcrest, 1st.  
Mrs. H. M. Biggers, Weeth, 2nd.  
Mrs. T. E. Preston, Beaver Creek, 3rd.

**Demonstrators winning the county honors were:**  
Mrs. L. D. Smith, Sunshine Hill 1st.  
Mrs. W. D. Bent, Hardin, 2nd.  
Mrs. T. C. Beall, Friberg, 3rd.  
Mrs. L. D. Smith is the winner of the 50-lb. Cotton Mattress.

## No More Ladies Has Wit, Charm And Perfect Cast

A brilliant picturization of a famous stage play comes to the Palace Theatre Tuesday and Wednesday when "No More Ladies," Metro-Goldwyn-Mayer's new production co-starring Joan Crawford and Robt. Montgomery opened to an enthusiastic audience.

Produced by Irving Thalberg, the picture is brilliantly mounted and expensively framed. Under Edward H. Griffith's direction the A. E. Thomas stage play has developed

## Sandefer Speaks At Baptist Meet Tuesday Night

### Famous Educator Speaks On Election To Be Held In August

Dr. J. D. Sandefer, president of the Hardin-Simmons University of Abilene, was the feature speaker at the meeting of the Wichita-Archer counties laymans association meeting at the First Baptist church in Burkburnett Tuesday night. The meeting is the quarterly of the association, and over 100 men were present at the banquet held by the association.

Dr. Sandefer, one of the most able speakers in the South, spoke on the problems that are facing the temperance groups in the state in connection with the repeal amendment that is being presented to the people on August 24. The speaker urged the men of the church to organize a positive campaign to cope with the propaganda that was being circulated at this time for repeal. The speech gave an excellent analysis of the situation as it exists now, and the victories in the past of the organized efforts of Christian citizens.

The subject also developed the theme of the duty of Christian citizens to fight for what they considered the greatest advantage to society as a whole, and that they would meet the severest test of their loyalty at the election that will be held in this county and in the state at large.

Dr. Sandefer also spoke of the work that is being done in the various educational institutes at the Texas schools. He told of the work that Hardin and Simmons has been doing at Abilene. In connection with this work he expressed the appreciation of the support that Burkburnett has given to him and the school, especially the work of the Hardins in Burkburnett.

The meeting held various other regular business features, and Fred Cone of Wichita Falls, president of the association presided at the meeting. The banquet was served by the women of the church and the attendance in spite of conflict with many other community activities was one of the largest of the association. Many notable preachers of the district, including Dr. Powers, pastor of Wichita Falls appeared on the program.

With Joan Crawford cast as a beautiful young "modern," and Montgomery as a charming Lothario, the picture is set against lavish New York and Westchester County backgrounds. Closely following the play in theme, it is a penetrating study, told with irresistible humor, of the problems of a 1935 wife who suspects her husband of unfaithfulness.

Fast, spirited and very funny, the story builds rapidly to a climax of pure humor, to a party which will go down in screen history as one of the funniest parties ever filmed. Without revealing too much of the plot, it should be explained that Marcia (Joan Crawford,) suspecting her husband, Sherry (Robert Montgomery), decides to invite all his ex-sweethearts to their home for a week-end. The resultant party, and its denouncement will cause you to chuckle for a long while after you've left the theatre.

To become a great orator Demosthenes put a pebble in his mouth. Sometimes we wish our would-be orators would try a cobblestone.—Boston Herald.

## New Road Machine In Burk Precinct

F. R. Knauth announced Thursday the delivery of a new 52 horse power road machine in Burkburnett for use in this precinct on the care of the county roads. The machine is the very latest in design and construction, and cost delivered in Burkburnett \$4100.602 and is the most efficient units that is produced in this country today. The machine can be operated by one man. All of the operations are by air compressors. The levers that operate the blade in all directions can be changed with the slightest possible exertion.

The powerful driving apparatus is connected with an eight wheel drive system that distributes the power uniformly over all the rear wheels and makes traction more even. The front wheels are pointed so that they can be turned in any direction. The unit will be put to work in the surrounding territory as soon as possible.

### Church of Christ

In the absence of the pastor, Willis Kreager, the Church of Christ will have the regular service directed by the elders and officers of the church. Mr. Kreager is holding a meeting at Tom Bean, Texas, near Sherman. He will hold two other meetings and will be absent six weeks from the local pulpit.

The services Sunday are:  
10 a. m. Sunday School.  
11 a. m. Church.  
7 p. m. Young Peoples meeting.  
8:30 Church Services.

## Kenko Oilers Defeat Ramblers Team Tues.

In the first night game played by the boys of the Burkburnett team ended Tuesday night in a 8 to 7 victory for the Kenko Oilers over the Ramblers. The Oilers trailed most of the game after they had made a 3 run splurge in the first inning. But they came to the front to win in the last inning with a two run rally. The Ramblers made two runs in the first and 5 runs in the third for all of their scores. The batteries for Kenko were Majors, Katter and Saunders, and for Ramblers Gregory and Coats. The game was played between boys too young for the senior teams. They will meet for another special game in the near future.

"Doc, I've just been bit by a dawg."  
"Well, well. Was it a rabid dog?"  
"Nasah, Doc, he jest a plain old bird dog."—Flame.

## Harvest Festival Meeting At City Hall Next Friday

The members of the Merchants committee of the Chamber of Commerce, the firemen and representatives of the band will meet in a joint session at the city hall Friday night in order to complete the plans for the Harvest Festival to be held in Burkburnett in the near future. One of the most important points will be the setting of the date for the meeting. The plans have been made in brief outline. The details for the meeting will be left to various committees to be appointed Friday.

Every merchant and business man in the town that is interested are requested to send suggestions to the meeting for the various stunts and projects that can be undertaken in connection with the celebration. There will be an elaborate festival in the features of the fall party. The members of the merchant committee requested to be present are: J. W. Butz, chairman; R. D. Owens, J. C. Adams, W. S. Duvall, W. T. Holman, Joe Majors, J. C. Jenkins, R. C. Tevis, Francis Felty, Butler Westfield. The meeting has been called for 8 and will be in the Chamber of Commerce offices.

## Rainbow Girls Meet Tuesday

The Rainbow Girls of assembly 91 met at the hall Tuesday night to participate in a ceremony that led to the presentation of a special pen jewel by Mike Begun to Edna Cropper past worthy advisor, in recognition of her faithful service to the organization. The presentation was made as Mr. Begun made an impressive talk to the society as a whole, and praised the honor for the work with the club.

After the ceremony the club adjourned to Sandy Beach swimming pool for a picnic and swimming party, and all of the members present attended the picnic. The club was accompanied by Mr. and Mrs. B. F. Gilchrist, Mr. and Mrs. R. D. Barnes, Miss Jerry Enery of Oklahoma City. The members all enjoyed the swimming at the pool.

James Johnson had a minor operation at the Burk clinic Monday.

## UNUSUAL FACTS REVEALED

—by "Movie Spotlight"

Golden-haired Esther Ralston originated the street pajama fad by wearing the costume on New York's Fifth Avenue in 1926.

Ben Lyon, who has a Chamber of Commerce flying license and is a member of the U.S. Army Reserve Flying Corps, experienced his greatest thrills when he had to make two forced landings.

Wera Engels amused everyone at Columbia Studios between scenes of "Together We Live" by expertly playing tunes on a musical carpenter's saw with a violin bow.

## Doorway Lights Aid Visitors; Lighted House Number Helps, Too

The illuminated house number and entrance lights lend an air of hospitality to the home, and make it easy for callers to find the address.

By Jean Prentice

HAVE you ever started out of an evening for the home of friends, then upon arriving at their street, had difficulty in finding their house number?

I have, and it's such a nuisance. No reason for it, really, when attractive illuminated house numbers and doorway lights are so easy to install. The charm of a carefully planned home is first revealed in its entrance. And if it is cheery and inviting, and the number plainly visible, we instantly feel that we are welcome.

Porch-brackets and doorway lanterns, which are so much in favor in the better districts, should be selected with an eye to the architect-

tural design of the house. There are, on the market, styles for all the principal architectural designs, that harmonize with the house exteriors. To be practical, they must have open bottoms, so that the steps and porch will be lighted.

An illuminated house number is a convenience that should be part of every hospitable home. This feature may be incorporated into the porch lighting unit itself, or a separate illuminated number may be used, operated by a small bulb. Otherwise, the number should be so placed that it is illuminated by the entrance light. Side and rear porches each call for their individual lights. A single fixture on the door-opening side is suggested.

## DARING YOUNG MAN JOSHES NEWS STORIES

The disclosures that followed a surprise raid last year by civic officials and reporters on one of New York's biggest penal institutions, prove that nothing is too wild or too improbable to occur in an American jail. Racketeers in expensive clothing, waited upon and valeted by fellow inmates, were running the entire penitentiary and dominating the warden and his staff.

In writing the original story and screen play of "The Daring Young Man," the Fox Film coming Saturday night to the Palace Theatre authors Claude Binyon and Sidney Skolsky and the scenarist, William Hurbut, had no need of exaggerating these disclosures in order to write one of the funniest sequences in modern picture offerings.

When the new Fox picture reveals a jail with radios and curtains in every cell, poker games going full blast, and gangsters feeding pigeons as they give orders over their private telephones to have some annoying competitor "rubbed out" the spectators may rest assured they are seeing nothing imaginary whatever; every incident in the prison sequence is taken from real life.

### Lions Club

A brief and informal meeting was held by the Lions Club at the First Methodist church basement Tuesday night, and most of the members attended other meetings held afterwards in our city. In the absence of the officers, who are attending the Mexico convention, Henry Grace acted as chairman of the group. The program was directed by Ross Reagan and Frank Kelley.

M. D. Dean, director of vocational agriculture, spoke to the club asking the cooperation of the business men and citizens of the city. He also pledged that he would do anything that he possibly could to make the city and surrounding territory a better place to live in. He asked the men of the club to cooperate with him in the projects of the club of farmers. Howard Clements and Katherine Exley each played a series of piano selections. Ross Reagan spoke for a few minutes on planning programs in the future. The absent international delegates were listed by the club.

## Dr. Wrye Speaks At Church Christ Tues.

Dr. W. H. Wrye, noted lecturer and traveler, spoke at the Church of Christ Tuesday night before one of the largest crowds of the season on an illustrated lecture about the River Jordan. The speaker has received ovations all over the Southwest for his brilliant work in connection with research on the river. He told an interested audience that the river was the most wonderful in the world. It has many peculiar phenomena that no other stream has.

It is the river where Joshua, Elijah Elisha lived and crossed. It was the place of the Baptism of Jesus. The river falls to the Dead sea 1200 feet below the sea level, and is the only river in the world that rises and falls 400 feet. The river empties into the Dead sea that receives all the water and never gives up a drop. For that reason it is dead. The speaker was accompanied by Mrs. Wrye, and will speak in Nocona this week. The pastor, Ben Taylor introduced the speaker.

## Marilyn Harwell Wins Special Honor

(Special to Star)  
KERRVILLE, Tex., July 17, 1935.—Miss Marilyn Harwell, daughter of Mr. and Mrs. I. E. Harwell, 507 E. 4th street, passed the Junior Red Cross Life Saving examination this week at Camp Waldemar for Girls.

Miss Harwell has not only been excelling in swimming but in various other activities. She was presented in the leading role of the one-act play, "At the Milliner" on July 15. She passed both the bow and stern tests in canoeing and has taken part in exhibitions of trick roping. In trick roping she has been coached by Johnny Regan, champion trick roper and Australian whip cracker.

Miss Harwell was one of the 90 Waldemar girls making an all day sightseeing trip to San Antonio recently. While there they visited the Alamo, the Spanish Missions, the Spanish Governor's Palace and other points of interest.

She will return to her home in Burkburnett on July 20, after attending the final banquet of the first term the preceding night. All awards for the first term will be made at the banquet.

## Directors Meeting Of Local Library Thurs.

The directors of the local library will meet at the library Thursday afternoon at 3 o'clock. All the members of the board are urged to be present since there will be several important business items that must be disposed of, according to the president of the board Mrs. A. R. Hill. The directors have charge of the business and policy of the organization. The reports on the recent drive, the management of the future of the organization will constitute the portion of the affairs.

## Burk Team Drops Inter-City Play

The Burkburnett team that started the season with such a big victory of 16 to 0 has been unable to play a victorious game since that time, and the members and sponsors decided last week to drop out of the league. Due to the harvest season and many other complications it has been impossible for the managers to keep a team at the playing field at the time of the contest. The final date for the entries was June 15, and after that no player could be listed that could qualify for the Chicago team.

The original tryouts were accepted for the local team, and as fast as the games occurred, it was impossible to secure the number of players for both home and foreign games that would make the team function. There have been some attempts to secure the new team for the elimination group, but the attempts have been unsuccessful, and in the future all intercity games will be turned over to the girls club.

## Last Rites Held For Mrs. R. L. Freeman

The last rites for Mrs. R. L. Freeman, 42, of Wichita and formerly a citizen of Burkburnett were held at the Assembly of God Church in Wichita Falls last Sunday, with Rev. Walter Robertson, pastor in charge of the services. The funeral was directed by the Owens Brumley funeral home. The burial was at the Thornberry cemetery. Mrs. Freeman died Saturday night at 700 Calhoun street.

The survivors were: husband; children, J. T., Bobbie Lee, and R. L. Junior, Nansin Ellen; two sisters, Mrs. Nora Sullivan and Malzie Rirtley of Wichita Falls, and mother Mrs. Ellen Bolen of Wichita Falls.

## Community Night Postponed Until After Revivals

Due to the conflict with the various religious programs that are in progress at this time the community night will be postponed until after the revival season, according to the announcement of the secretary of the Chamber of Commerce. There were various conflicts with this series of meetings, and with other community projects that are under way during this week, and the organization thought it best to not stage any meetings of the type until after the last of this week.

The community night will be presented throughout the rest of the summer, and some of the talent will be used in the presentation of programs in nearby communities. These programs will be advanced advertising for the harvest festival that is to follow. The plans for the latter will be announced in the near future.

## Allred Promises To Return To Burk For Commencement

Governor Promises To Make The Graduating Address Here Next Year

HERE LAST THURSDAY

Governor James V. Allred promised that he would return to Burkburnett for the commencement next year in the informal speech that he made in Burk last week. The governor was here for a brief visit and spoke to a crowd that gathered at the Corner Drug store. The promise of the return was made when the governor said "and I'll come back to your graduation exercises next year. Mr. Kemp, your Mayor, has a daughter graduating then, I believe, and I met her only a few moments ago—a beautiful young lady."

The governor was greeted at the First National Bank by the Cow-Boy band that E. L. Nichols had assembled in a hurry. He visited a few moments at the bank and then stepped across the street to speak at the insistence of the crowd that was present. He shook hands with every one that was present, and posed for pictures, signed autographs, and was as congenial as possible to everyone.

In the speech the governor defended his recommendations for the constitutional amendments, and thanked Burkburnett as the only community in the county that carried for him. He praised this city for its loyalty to him in his campaign. His glowing tribute to Martin Allday, former city attorney, who recently died in Austin, won the sympathy of the crowd.

Visits Mr. J. G. Hardin

After the speaking, the governor accompanied by I. E. Harwell, Oscar Kemp and Dr. Ruel Slaughter went to the bridge and inspected the break in the Red river span that caused the recent tragedies. The bridge was washed out May 18 in a disaster that took the lives of four Burkburnett citizens.

Mr. Hardin also received the attention of the governor. After returning to town the governor visited the home of the Burk philanthropist. He praised Mr. Hardin for

Our Greatest Aim in life is faithfully performing the duties; we devote all our time to the performance of the duties that we assume. It has merited sincere praise.

his civic mindedness and generosity in aiding the city and the schools and churches of the state of Texas. The governor stayed for a chat of several minutes with the Burk citizen, and returned to Wichita Falls.

His entire visit was well received by the Burk people. Those who supported him and even those who opposed him admitted the excellence of his speech at the street corner.

## Library Lists New Volumes For Shelves

The Burkburnett library received six new volumes for the regular shelves and one new book for the rental shelf this week. The books will be placed on the borrowing list as soon as they can be catalogued and tagged. The leading books are: The Story of a Good Boy, Aldrich; The Little Colonel's Holidays, The Little Colonel's Stories and the Little Colonel's in Arizona, Nomads of the North, and Treasure Island by Robert Louis Stevenson. The book for the rental shelf is February Hill. It will be listed with the books that rent for a few cents each day. After it has been paid for it will be placed on the rental shelf.

### Methodist Church Meeting A Success

The excellent and inspirational singing of Rev. T. L. Huffstutler, the report of the meeting of the First Methodist church for the summer has become one of the most interesting and inspiring meetings of the year. The revivalist has been an unusual response from the crowds, and last Sunday spoke to an overflow crowd of church lawn. The morning sessions, and the meetings are constantly in interest and response. The churches of the city and services Sunday night and congregations to the Methodist. The morning meeting children under the direction of Edwards gives the children of training and worship. The very successful and the have been trained in various services. The young have met each evening at a special young peoples service to their needs. These are under the direction of the workers. The church express appreciation for the other religious organizations in the city.

### Recent Literature

There are a few persons who read papers that remember the proud Colonel Roosevelt "Proud to Fight" when he was in Woodrow Wilson's waiting policy. They will remember that the Bethlehem Steel declared a 200 percent dividend year, and Dr. Albert much heralded case that he had him so much after the service found it. They remember how we were surprised by a mass of conflicting. Don't remember these things Road to War, America. You will find it impossible that you ever thought you thought during the war if you are honest, you remember these things that hate the Germans so. We wonder if it happens if we would be so silly. We would fall for the same memories of hatreds that are short lived but very.

### Notes About Authors

Michael Arlen, he is the only Armenian that doesn't try to sell Arlen is a Jew, that is a satire at least. Whatever this people can be proud of an intellect. Napoleon is noted for his sense of criticism. He was once the home of the Duchess of Angoulême, and when criticism of his work on the left and never returned. Lewis, recent Noble winner, advertising on books that he forgot, but that he enjoyed in his early twenties. He had before writing \$60.00 a week. For the author in the world, that a mighty small amount of income has averaged more than a hundred thousand a year in a few years.

Recently published in "Primitive Communities" one of the sanest that we have read in a long time becomes a text book of economics. Most had an elementary course in economics remember the stages of man's "nomadic, pastoral, agricultural." The author Arthur carries the development of the state through these stages and shows the origin of the state. This persuades most people the status of society could be where the best of the state could be combined, that would be much happier. This is a clear statement of his- tories. Read it, above all stimulating.

### W. A. White of Electra Buried Last Saturday

W. A. White, 64, of Electra, died in a Wichita Falls hospital early Friday morning after an extended illness. Tentative arrangements were for burial in Electra Saturday, under the direction of Owens and Brumley Funeral home of Burkburnett. Mr. White had been a resident of Electra for the past five years and had been making his home with his daughter, Mrs. L. D. Smith, there. In addition to Mrs. Smith he is survived by one other daughter Miss June White of Wichita Falls and four sons, James and Alvin White of El Reno, Okla., William White of Wichita Falls, and Cyril White of Pampa.

### Dickey Accepted For Army Service

Ft. SILL, Okla., July 18.—Clem M. Dickey of Burkburnett, Texas, has just been enlisted here for three years service in the Field Artillery. This post which is commanded by Brigadier General Henry W. Butner is the home of the Field Artillery School and is one of the largest military posts in this section of the country. A soldier's life here is greatly diversified. There are good golf courses open to them without charge and each year at least one tournament is staged. Duck hunting is good and other small game is found. An outdoor swimming pool has been provided and all kinds of athletic contests are encouraged. Regularly organized teams playing schedules to determine post championships insure corking entertainment in baseball, football, and basketball.

### W. A. White of Electra Buried Last Saturday

W. A. White, 64, of Electra, died in a Wichita Falls hospital early Friday morning after an extended illness. Tentative arrangements were for burial in Electra Saturday, under the direction of Owens and Brumley Funeral home of Burkburnett. Mr. White had been a resident of Electra for the past five years and had been making his home with his daughter, Mrs. L. D. Smith, there. In addition to Mrs. Smith he is survived by one other daughter Miss June White of Wichita Falls and four sons, James and Alvin White of El Reno, Okla., William White of Wichita Falls, and Cyril White of Pampa.

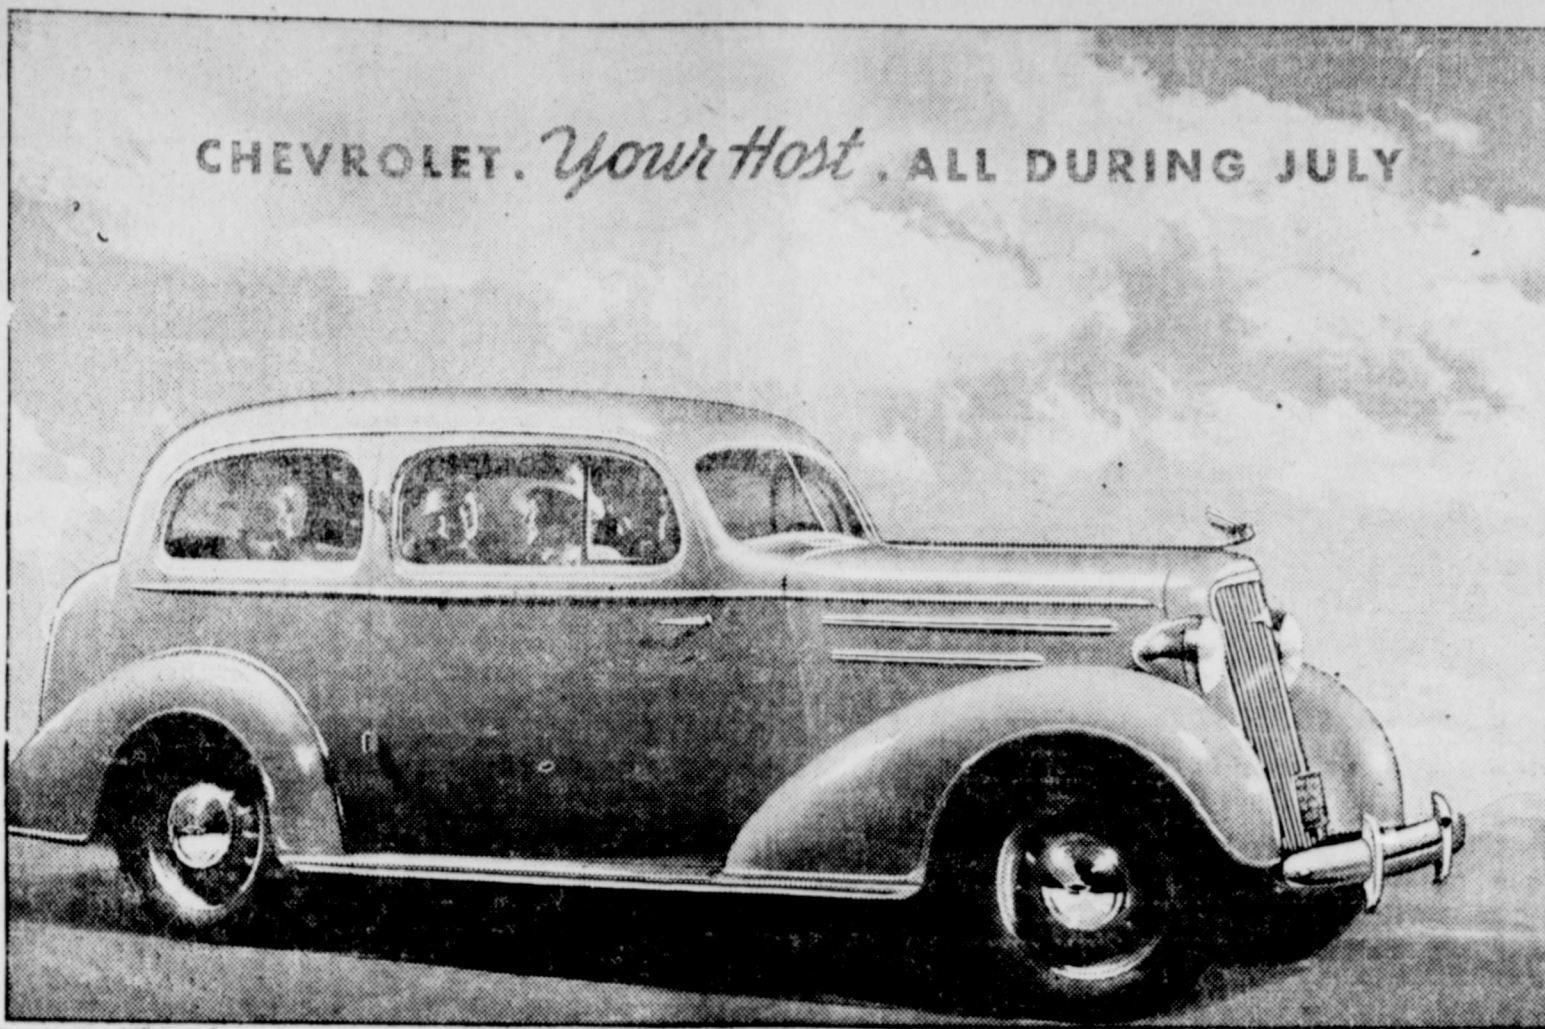

### Y. W. A. Girls Have Japanese Tea Party

The YWA girls met at the First Baptist church Monday night for the weekly program of the society in the form of a Japanese Tea Party. The meeting was opened by the song "The Magnetic Christ." The president took charge of the business session. Mrs. Reggie Kent led in the devotional prayer. The girls went out on the church lawn for the Japanese program, and each girl brought a floor pillow to sit on during the tea. To continue the Japanese motif the girls removed their shoes. Hot tea was served. Those present were: Edna Styles, Marie England, Mildred Simmons, Gladys Pinkston, Bernice Smith, Goldie McCaig, Ruby Louise Bishop, Modene Pinkston, Fern McCaig, Gladys Smith, Justine Nichols, Hazel Pinkston, Bonnie D. Smith, Mrs. M. B. Hays and Mrs. Reggie Kent.

### Last Services Held For Water Victim

Final rites for Virgil Medlin, 12, victim of a swimming pool accident Thursday night were held at 10 o'clock Saturday morning from the Lamar Avenue Baptist church with Rev. Sidney F. Martin, pastor officiating. Interment was in the Riverside cemetery under the direction of the Owens and Brumley Funeral home of Burkburnett. Pallbearers were: G. A. Eoff, W. J. Rogers, H. A. Morton and Mason Raney. The youth was drowned while swimming at Haven park. Apparently he was caught in the drain pipe when the pool was being emptied, as a life guard found his leg to be tightly held in the pipe. The body was recovered by John Davis, CCC worker, who was in Wichita Falls on a furlough. Firemen and life guards worked to revive the youth for more than an hour. Dr. W. L. Parker of the Wichita Falls Clinic hospital answered a call to the pool and injected adrenalin in the heart, but the body failed to respond. Survivors include the father, Otto Medlin; a sister, Katherine Medlin, 10, and six aunts.

What has become of the old-fashioned Burk man who once endured corns and bunions just to be in style wearing those toothpick pointed shoes?

## IT'S WEATHER AGAIN

Psychologists tell us we think too much about weather, but a survey of temperature readings point out a great truth.

From the time your light meter was read last month to the time it was read this month, the average temperature was 87.23 with an average high of 100 and an average low reaching only 74 degrees.

From these figures you may see how your electricity has played an important part in keeping cool during the hot weather furnishing you additional needed refrigeration and cooling systems.
