## Mass Meeting At High School To Organize Held Nov. 20th

James R. D. Eddy, field worker of the state vocational education bureau, announced on his visit here last week that a vocational industrial school for oil field workers would be establish in Burkburnett. All the oil field workers have been invited to attend the school in order that they may increase their technical knowledge of the work that they are doing in the field, and prepare for more advanced work.

The oil field workers that have been contacted by Mr. Butler Westerfield who will supervise the school have been enthusiastic about the prospects of the training. A mass meeting will be held for the workers at the high school auditorium 7:30 Wednesday, November 20. This meeting will be for the purpose of organizing the class and signing up for the various courses that will

### NATIONAL EDUCATION WEEK

The schools of Burkburnett are joining the schools all over the nation this week in the celebration of "National Education Week." This generation has taken many things for granted that would have been miracles in any other period. The efficiency of essary to provide the money. the schols is one of the things that they have accepted as a matter of mere routine. Such weeks as this one serves to remind the citizenship of the fact that a good school results from progressive and zealous policies.

The fact that there is an excellent system here means that some has done a lot of hard work and more hard study. No other holding company law virtually science in the world is advancing as rapidly as the science of would have eliminated the large education. More experiments are being tried in this field than electrical concerns in seven years. in any other. The difficulty is in choosing that which is good

and discarding that which is unworthy. A school dare not disregard progressive steps or experimental ideas. A system that does not examine each new thought will find itself hopelessly lost in the rapid forward movement. Those who attended school last Tuesday night saw many things that they did not recognize as school routine, because of the differ- supreme court. That is inevitable allowed the Ethiopians to secure ence of the present status of educational science and the status and the present administration will in the days that those now mature citizens attended school. To meet another test of its power to if a few bombs had been dropped many of them it was like stepping out on the new planet.

In a few years there will be even more radical changes. The whole community has had an opportunity this week to catch a hastily revised. Now the adminisglimpse of the system and how it functions. The school administration would appreciate an active and intelligent interest in the test. system throughout the year.

### "SUDDEN DEATH"

The City Council of Burkburnett ought to pass a law requiring that every person that drives a car read the article recently published in the Readers Digest "Sudden Death." No magazine or news story has ever been so widely read or caused important stories of the year. When so widespread comment. It is the most horrible thing that we the United States pushed the dollar have ever read. Every person that reads it cuts down their down to 59 cents, that left the British speed of driving about 10 to 20 percent, and actually is more investors holding the bag. A test careful and considerate in driving.

Since the magazine was published the accident rate of the and now the American companies country has dropped several percent. In some cities every man that has an accident is required by the judge to copy the article word for word. The gruesome pictures of head chopped off, post and steering wheels sticking through bodies, glass windshields completely decaptating people, have a strange effect on the speed and careless driving laws.

We feel that it is the duty of every person that can to read the artcile. It may make you a little sick, but it will make you more careful about your driving in the future. Nothing seems so essential now as the reduction of the accidents in this area. It must be done. How? Well let's try making everyone read this article when they have a wreck.

## VALUABLE PICTURES

We have realized that there is real value in the old pictures of the city and its progress as the result of all the ballyhoo about the centennial.

There are in the possession of people in Burkburnett many very valuable pictures of the growth, development and history of the city. At the present these pictures serve no valuable purpose other than satisfying the vanity of the people of the community who own them. These pictures could become a real voluable civic and educational asset

If some organization, such as the Chamber of Commerce, Lions club, Rotary club or any other group were to establish a museum for the pictures, promising that they would be given portection and care, we are sure that many people would be glad to turn the private collections, or copies of the collections over to such an agency.

## POLL TAXES

The most important contests that have been presented to the people of this section in many years will be presented in every field of politics this year. The balance of power in the city the school, and the county boards will be in the contests locally, The new deal of national politics will receive its first major test The state races will include a senatorial and governor's race of

For this reason it is well that every person in Burkburnett should pay the poll taxes as soon as possible. We have a unique arrangement here that provides both city and state poll tax must be paid for local election. Therefore, do not neglect paying the city poll tax if you expect to vote in the city elections for the coming year.

The poll tax scheme is unjust. Its original purpose has been outgrown, and we have retained it as a relic from a disturbed social and political situation of the Civil War period and reconstruction days. Even if it is unjust, it still must be paid if any resemblance of orderly and efficient government is attained in Texas. Large groups of people are organizing in Texas to defeat orderly government. There are 75 members of such an organization in Burkburnett. These people will pay their taxes and may hold the balance of votes here. They will hold the balance unless the civic minded persons register.

The poll tax law has come under fire, and it will never be repealed until some means of adding that much to the school fund is discovered. At the present the law provides a big part of the state school allowance. Until a better system is established every citizen should pay the registeration fee and be ready to watch the campaigns that develop next year.

Places were arranged for Judge \$460,364.77 and Mrs. Vance, Mr. and Mrs. E. E. McNeill, Mrs. Rita Pettijohn, Mrs. N. G. Goodlett of Burkburnett, Mr. \$319,660.41 and Mrs. Carlton Perkins, Miss Wanda Pettijohn and Mr. and Mrs. 61,245.90 Jeff Kennedy.

12,870.85 Tuckers Attend The Centennial Meeting Of Arkansas Lodge

Mr. and Mrs. M. C. Tucker were among the out of town representatives of the group that attended the centennial lodge meeting of the Washington Masonic Lodge No. 1 at Fayetville, Arkansas, recently, The meeting was one of the most beautiful and impressive that the organization has ever staged. The 53,223.05 program included impressive rites, banquet, and other reunion features. The lodge is considered by the historians as the oldest west of the Mississippi river. The Tuckers were I. F. T. Felty, cashier of the above-named bank, do solemnly honored as the members of the swear that the above statement is true to the best of my knowgroup who came from the greatest distance to attend the meeting. More than 300 out of town delegates registered for the meeting. The lodge took charge of the city during the reunion.

> Advice given to farmers around Burk since the depression includes everything under the sun except having their tonsils taken out.

"Diamond Jim" A Portrait Of The Gay Nineties

Characters of the gay 'nineties' the most colorful and romantic period in the history of the United States, come to life on the screen of the Palace theatre on Sunday when Universal's special production "Diamond Jim" starring Edward Arnold, opens for a two day engagement. The story deals with the life of James Buchanan Brady, the man who made the gay nineties gay and is in reality the portrait of an era.

Arnold who leads the cast, actually resembles the super salesman-the man who wore \$2,000,00 worth of jewels-who asked Lillian Russell to marry him and offered her a milufacturing railroad equipment.

mportant job, in putting over mil- 24 points. lion dollar deals, and his prodigality

## Chiropractic and Dis-ease

Disease can be reduced to a small minimum, for all life all living functions - is opposed to it. Life should be a smooth, painless, continuous process when naturally expressed. If given a natural chance the human body can resist disease and be continuously well.

The brain, as the medium or link between God and the body of organized matter that it controls, is perfectly capable of taking care of, and balancing the various functions of, the many units which make up this organized body of matter. Only when the energy generated by the brain is reduced below the normal quantity needed in some part of the body will the body become diseased. For an organ cannot function normally without this guidance of its function, and abnormal function is disease. Try as one might, by reasoning or by laborator, or by clinic, one can not disprove these statements. They are simply facts which exist, facts which we prove over and over again every day in the science of Chiropractic We are always glad to council with you relative to your health problems.

## The Trend In Commercial Education

(T. J. Blackwell)

The present trend in commercial education is decidedly that of social or informational rather than technical training. In other words, emphasis is placed more and more upon the student's appreciation of business in its different phases. Thus, we have not only the old idea of educating the consumer. The former aspect is readily discernible by all. The latter is found even in subjects formerly thought to be wholly technical in nature, or solely for the producer.

Typewriting, shorthand, book-

keeping and the related subject commercial arithmetic, though predominantly technical in their nature stenographers and bookkeepers, are ing business at Washington he finds himself enmeshed in many complimanual arts may be summed up value to the individual. ## Bill Powell Scores Hit In New Spy Drama

Spies will be with us so long as nations hold any jealousies toward each other. Therefore, spy dramas always timely-and Metro-Goldwin-Mayer brings to the screen one of the most gripping stories based on this subject in William Powell's new starring film, "Rendezvous," which opens Friday at the Palace Theatre.

A Gripping Plot "Rendezvous" is the story of America's famous spy-catching bureau during the World War, with the science of the cryp-together playing the principle role.

Powell comes to us this time as an entirely different detective from and treatment, and originally justi- his role in the past, and the best fied in the curriculum because they he has portrayed so far. As a puzprepared boys and girls to become zle editor drafted into the spy-catchous enemy agents as well as with Secretary of War.

### Federated Missionary Society Holds Quilt Show Here Sat. 16th

The Federated Missionary Society will hold a quilt show in Burkburnett Saturday, November 16, at the Collier building from 10 a. m. until bookkeepers or accountants. Often 9 p. m. There will be a display of quilts, hooked rugs, antiques and ledge of shorthand merely as a step- flowers of this section. Any person of the objectives are as follows: A ping stone to a better position. In having anything to display has been no other position can a person be- requested to call 112 or 212 and list

The articles will be shown in the repairs and upkeep of woodwork private secretary. The employer is building and should be brought there about the home and office, and a more likely to give the promotion by 9 a. m. Saturday morning. An adto the employee who is best known mission will be charged of 10c, and to him, other things being equal. The the proceeds will be used in Burk-It is through the above experiences number of business men today who burnett for charity during this

## Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

## Orphink Septpuplets

Some cruel, vicious creatures that had no pity at all, left the Pastor of the Clara Lutheran church a real surprise last Friday night at his home at Clara. There had been a lot of excitement about quintuplets, quadruplets and similar instances of multiple birth, but the pastor of the church found seven small puppies at his mail box, not dogs, just plain "dawgs." Orphink septpuplets a shivering in the cold rain without a home or fond parents, cast on the fates of a cold north wind. Sad, sad, story my kind hearted friend.

A great period of time elapsed before communities decided municipal ownership of power and light plants was the best method for supplying electricity.

With the trend being now for municipal ownership rather than private ownership of utilities, much investigating, comparing, and experimenting was necessary Because of the knowledge gained through such methods, the picture changed to the populace owning its own at home.

But there are changes which time will never bring about. Your municipal power and light plant has the citizen's interest at heart. That will never change. It is so operated that low costs of running are passed on to the consumer. Its principles are for benefiting the public first and last. Patronize your municipal light plant.
