With the Coming of Middle Age

There is a letting down in the physical forces often shown in annoying and painful kidney and bladder ailments and urinary irregularities. Foley Kidney Pills are a splendid regulating and strengthening medicine at such a time. Try them. Robertson's Drug Store.

Regular Habits.

It is a good plan to have a regular time for reading. One accomplishes so much more in this way, and besides establishes a kind of intellectual habit that is a good thing in itself. In an hour, or even half an hour given regularly each day to reading, a great deal may be accomplished. Do not confine your self to serious books. Alternate light with heavy reading and do not attempt heavy reading when you are tired. Do not read merely to be amused. Treat your books as friends. Do not follow blindly the teachings of any book.

An Alarm at Night

That strikes terror to the entire household is the loud, hoarse and metallic cough of croup. No mistaking it, and fortunate then the lucky parents who keep Foley's Honey and Tar Compound on hand. H. W. Casselman, Canton, N. Y. says: "It is worth its weight in gold. Our little children are troubled with croup and hoarseness, and all we give them is Foley's Honey and Tar Compound. I always have a bottle of it in the house." Robertson's Drug Store.

Take Notice.

The time has come that every body should save money. Then phone 239 for feed, wood and coal. Your money back if not satisfied. M. A. Clifton.

Laugh Earned Reward.

"I can't for the life of me see what a brilliant fellow like Skribbs saw to admire in that woman he married." "It wasn't what he saw so much as what he heard." "What do you mean?" "I guess you never heard that merry laugh of hers." "Do you mean to say that a brainy man would marry a woman just because she had a merry laugh?" "Well—yes. Didn't you know that Skribbs was a joke writer?"—Cleveland Plain Dealer.

Foley Kidney Pills

Tonic in action, quick in results. Will cure any case of kidney or bladder disorder not beyond the reach of medicine. No need to say more. Robertson's Drug Store.

CLOCKS AFFECTED BY COLD

Change in Weather Causes Oil in Bearings to Get Gummy and Hard.

Two or three times in the course of a month this man's clock had stopped with no apparent reason, for when he swung the pendulum it would start off again and run all right. But it also now began to display another eccentricity; occasionally it would strike once about 15 minutes before the hour and then strike the rest of the strokes for that hour at the regular time. So he thought he had better take it to the clock-maker.

There on a shelf behind the counter he saw ranged along a dozen or more clocks of almost as many styles.

"All patients," said the clockmaker, "and most of them with slight ailments like yours. We always have many clocks brought in with colds. They run along all right, but when nasty weather comes the oil on the bearings gets hard and gummy and then the clock is liable to stop. It needs cleaning and reoiling.

"It is always so; we have more clocks brought in to us when the weather is bad than at any other season."

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists.
Take Hall's Family Pills for constipation.

Apple Trees for Old Age.

Easterners are prone to view with surprise the large-sized fruit which comes from western states, and even to wonder why similar orchard products cannot be raised in New England. Their wonderment should cease. Our farms can produce delicious fruit in abundance with proper care. Says the Boston Globe: "A group of the New England fruit exhibitors in Horticultural hall has said that there is no better insurance against old age than a good orchard. After a certain number of years ten acres of an apple orchard will be a steady source of income. The same authority believes that the shortsightedness of New England farmers is almost criminal for allowing this source of wealth to go undeveloped. We have the soil, market and climate, and should take advantage of these great assets."

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. This remedy contains no opium or other narcotics and may be given as confidently to a baby as to an adult. Sold by all dealers.

HASKELL, TEXAS, Dec. 30, 1911.

Announcement.

The Free Press is giving this week's issue early in order for the printer boys to have a few days rest, recreation and pleasure. It is the usual custom of weekly newspapers, especially where there are five issues in December like this month, to miss the Christmas week edition, but we really believe it is due our subscribers to give some kind of an issue, and we have some advertisements and legal notices which would be made incomplete were we to miss an issue. So we are sending out a paper in a curtailed form. There is not much local news, but we are giving some good miscellaneous matter, and feel that our readers will excuse any shortcomings of the paper under the circumstances, for the editors desire and are due a few days rest as well as the printer boys.

We will not extend Christmas greeting because that holy and joyous occasion will be over before this paper reaches you, but we will extend New Year's greetings, because that notable change of time will have been passed before we issue another paper. We most cordially thank each and every patron of the paper for their loyalty and patronage to the paper, and hope that the New Year will bring to them all the joys of a well spent year and the prosperity that every honest, upright and loyal citizen deserves. We enter the New Year with renewed hopes for a change for the better. The recent rains lend strength to this optimistic view. Let each of us do our part, serving and praising our Lord in the manner that we should and treating our fellowman as we would that he should treat us, and we are confident in the belief that the year nineteen and twelve will have many things in store for us that we may not at this time anticipate.

Keep your hearts singing, for better times are coming.

Make a New Year resolution to build sidewalks, and be sure to keep it.

There is no disgrace in being poor but it is very inconvenient and uncomfortable sometimes.

Put a sticking plaster on those New Year resolutions that will not come off as easily as that smile you use to wear.

In the joyous times of the Christmas festivities don't forget the fact that Haskell still needs those sidewalks and street crossings.

Did you make glad the hearts of your loved ones with that Christmas remembrance? If not, it is not too late to make them glad on New Year.

Yes, this valley is mud; roads are almost impassable and the finest winter season we have had in eight years.

The wheat that was sown has come up nicely and the plant is vigorous and growing rapidly and I predict a good yield in the harvest.

We have some cotton to pick yet.

We are pleased to note the fact that this community is well supplied with fat hogs, in fact, most all the farmer's have a fine supply of ribs and backbones, oh my and sausage too. Come down Editor Martin and we will ram and jam you so full of the above commodities that you will feel that it is a compliment to be a citizen of dear old Haskell County.

Mrs. John Earls is very sick at this writing.

Misses Pauline and Katharine Stark have gone to Stamford to spend the Xmas with relatives and friends.

Mrs. H. Hisey is shopping in Stamford today.

In our rounds we always make mental note of every improvement of any kind we notice and in this connection cannot refrain from mentioning the improvement in Mr. Frank Simmons and Dave Terrel—I thought two of the laziest citizens we had. They have cut and hauled wood all this bad weather; butchered their hogs; rendered the lard and ground their sausage and etc. Actually they have develop-

New Year's Greeting:

The past year has been a trial to us all, but when we view it in the retrospect, we feel proud of the record we have made, which we owe to the splendid co-operation of our customers. We tried hard to meet their demands and help those who needed help. Most of our customers have shown their appreciation of our confidence and have loyally stood by us, and now that the new year is dawning upon us, we will strive harder to serve our friends and customers. We make it a rule to treat those who deal square with us as they should be treated and stand by them when they need a friend. Our prosperity means ability to help. Before concluding, we wish to thank our customers for their honesty and square dealing and wish them a prosperous and Happy New Year.

ed into two of the most industrious, children loving, wife pleasing citizens in our community.

Bunyon Howard went to Stamford today.

H. Hisey and C. G. Stark went to Haskell today with cotton.

John Nanny of Howard is in our community today on business.

D. G. Hisey and son, Kim, have purchased the Adams farm and are complementing improving the same extensively.

W. T. Bray is butchering his nice fat hogs today.

Several of our farmers are going to sow more wheat as soon as the ground will do to work.

There seems to be quite a demand for fall cotton judging from the number of buyers in our community.

Our rural telephone people had a meeting yesterday and decided to overhaul and repair the Paint Creek line putting it in first class condition.

WAS HISTORIC OLD BUILDING

Mint at Philadelphia Was the First Building Erected by Authority of Congress

In removing the foundations of the coinage building of the old mint, a Nos. 27 and 39 North Seventh street some quaint specimens of oldtime building construction, including several curious vaults, were uncovered. The cellar in which the vaults were located was reached by heavy stone steps, supported by brick or stone arches, a method handed down from medieval times. One of the vaults in which bullion was stored consisted of a vault within a vault, and was designed, it is said, at the time of the war of 1812 to conceal materials which could not be readily transported to other hiding places. Several small windows in the cellar were protected by heavy hand-wrought iron bars. These have been preserved, and will be added, along with other relics such as locks and hinges, to the collection in Independence hall. In digging out an old well in the yard a number of copper coins, bearing the dates 1816 and 1818, were found, as well as a quantity of scrap copper from which the coins had been cut. From old papers relating to a lawsuit found by Frank H. Stewart, president of the company which owns the property, it was ascertained that five buildings were originally included in the old mint, all of them grouped around the coinage building. It is a historic fact that this old structure which was the last of the buildings to be razed, was the first building of any description erected by authority of the United States congress.—Philadelphia Record.

Lightning Kills Few.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two a in million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at Jas. R. Walton's.

WHY SHE CHANGED HER MIND

Where Wifely Ignorance is Husbandly Bites 'Twere Folly to Put Her Wise.

Mrs. Blithers had not always found herself in an approving mood in respect to the so-called sports of the sterner sex, and her opinions concerning golfers who spend Sunday on the links, or sportsmen who shoot pigeons, were so very decided that Blithers invariably looked around for cotton to stuff in his ears when she began to deliver them. One can imagine his surprise, the other night, when the good lady suggested the idea of his taking her to a horse race some time. The notion that she could bring herself to approve of such a diversion had never occurred to Blithers, and he gazed at her in simple amazement.

"You don't mean to say that you approve of horse-racing?" he demanded. "Well, I didn't use to," Mrs. Blithers replied, "but now that I am coming to know more about it I think I do. I've been taking the trouble to read about the races that are allowed to be run latterly, and I have made up my mind that there's more good in those race-track men than we've given them credit for."

"Well, well, well!" laughed Blithers. "Wonder of wonders! What has brought about this remarkable change?"

"Well, I've discovered how kind those men are to their horses," said Mrs. Blithers. "I noticed last week that every time a horse wasn't feeling well enough to run, his owner, instead of going out and beating him with a whip, has in every case gone out and scratched the poor animal!" —Lippincott's Magazine.

A Texas Wonder.

'The Texas Wonder cures kidney and bladder trouble, removes gravel, cures diabetes, weak and lame back, rheumatism, and all irregularity of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Texas testimonials. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by all druggists.

Bucking Horses.

A touch of the spur or a flick of the quirt signals the start, says the American Magazine, in an article on our western horses. His knowledge of what to do must be a heritage from his ancestors, for all horses do it, and all American wild horses are sprung from horses that once carried men. He pops down his head and levitates straight heavenward. While he and you are high in the air he arches his back and stiffens his body to iron rigidity. Thus he comes back to earth. Sensation to the rider is as if his spinal column had been struck by a hammer. The impression is not analyzed at the time, for the horse goes into the air again immediately. He swings to right or left, or he "changes ends" completely while in the air, and you come down facing southward, whereas you were facing northward when you ascended.

The quicker a cold is gotten rid of the less danger from pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all dealers.

"Best on Earth."

That is the verdict of R. J. Howell, Tracy, O., who bought Foley's Honey and Tar Compound for his wife. "Her case was the worst I have ever seen, and looked like a sure case of consumption. Her lungs were sore and she coughed almost incessantly and her voice was hoarse and weak, Foley's Honey and Tar Compound brought relief at once and less than three bottles effected a complete cure." HASKELL HIGH SCHOOL ITEMS

Haskell Public school was represented at the State Teachers Association at Waco by Messrs. McGee, Bell, and Turrentine. They left for Waco Tuesday night of last week in company with Supt. L. T. Cunningham of Jones county and Supt. T. C. Williams of Haskell county.

Most of the teachers of the public schools spent the Christmas vacation at their respective homes. A rest of a week will enable them to resume their duties with renewed energy and enthusiasm.

The following High School pupils deserve to have their names mentioned on the High School Honor Roll: Second month; 11th grade: Ruth Haley, Myrtle Foster, Zelma Ferguson and Winnie Langford. 10th Grade, Paul Loven and Alden Lamm. 9th Grade: Fred Mauldin and Lucile Wyche. Third month: 11th grade; Ruth Haley, Winnie Langford, Zelma Ferguson, Myrtle Foster and Jimmie Kinnard. 10th Grade; Paul Loven and Mary Hughes. 9th grade; Joe Thomas, Vergil Davis, and Lucile Wyche. 8th grade; Eunice Huckabee, Effie Nola Long, and Laura Lee Langford.

The work of the second term began on Tuesday of this week. The public school pupils, for the most part, have done most excellent work thus far this session. An effort is being made on the part of the teachers to secure a closer grading of the pupils. This is necessary in order that best results may be obtained. A special request is made of all patrons and parents in this connection. Children should do more studying at home. The children in the fifth, sixth, seventh, eighth, ninth, tenth and eleventh grades should do much work at home. High School pupils should study from two to four hours at home each school day; Grammar School pupils should study from one to two hours at home each day. It is a mistake to think that education can be had at school house or in the colleges. It takes weeks, and months, and years of study at home.

Parents are requested to make a special effort to provide a suitable place to study at home and to do all in their power to cure home study of the pupils. Some may say, "We study tonight." Parents are asked to work at school and at home, allowing such students to spend the evenings in idleness.

A number of pupils can not be promoted at the close of the school year unless much more work is done by them in the home. Teachers in the grades above named ask that parents help them to secure more hours of hard work.

The next number on the Lyceum Course will be Tuesday evening, Jan. 9th. It will be a musical by the DeKoven Male Quartet. All are looking forward to a rare treat. The entertainment will likely be given in the High School Auditorium. The need for a piano and for a stage will make this change necessary.

More than one hundred eighty pupils have been enrolled in the High School (seventh grade included) this year. This is the largest High School enrollment to be found in any town between Wichita Falls and Abilene. A number of non-resident pupils are attending. The people of Haskell are to be congratulated for the active interest they are taking in building up the work of the public schools.

The teachers are thankful for the sympathy and help given them by the patrons. Many of the teachers say they have never worked in a town where the parents gave them as much assistance and showed such an active interest

in the work which children are doing in school.

The work of next term must be better than the work of last term. Teachers will enter upon the work of the new year with this thought in mind: "An effort which is less than the very best, is unsatisfactory; work for better work."

Magazine readers of the town can give the pupils of the High School much assistance if they will donate to the school library their magazines when they have read them.

Haskell has applied to the authorities of the University of Texas to have the credits given the Haskell Public Schools increased from eight and one-half units to seventeen units. If successful, this will double the amount of work which is given recognition by the authorities at the University. It will admit Haskell graduates to the University and to all standard colleges.

New Year's Greeting:

The past year has been a trial to us all, but when we view it in the retrospect, we feel proud of the record we have made, which we owe to the splendid co-operation of our customers. We tried hard to meet their demands and help those who needed help. Most of our customers have shown their appreciation of our confidence and have loyally stood by us, and now that the new year is dawning upon us, we will strive harder to serve our friends and customers. We make it a rule to treat those who deal square with us as they should be treated and stand by them when they need a friend. Our prosperity means ability to help. Before concluding, we wish to thank our customers for their honesty and square dealing and wish them a prosperous and Happy New Year.

WHEN HER BACK ACHES
A Woman Finds All Her Energy and Ambition Slipping Away.

Haskell women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of gravel, dropsy and Bright's disease. Doan's Kidney Pills should be used. Here's proof of their merit in a Haskell woman's words:

Mrs. John Hallmark, of Haskell, Texas, says: "About two months ago I obtained a box of Doan's Kidney Pills from Collier's Drug-Store and began their use as I was then suffering from kidney trouble. There was a feeling of distress in the top of my head and I had a dull pain across my loins that kept me from sleeping well. My backached and my loins were very lame. Since I used Doan's Kidney Pills, these troubles have not bothered me. No other kidney remedy has ever given greater satisfaction in my case than this one."

HASKELL HIGH SCHOOL ITEMS

Haskell Public school was represented at the State Teachers Association at Waco by Messrs. McGee, Bell, and Turrentine. They left for Waco Tuesday night of last week in company with Supt. L. T. Cunningham of Jones county and Supt. T. C. Williams of Haskell county.

Most of the teachers of the public schools spent the Christmas vacation at their respective homes. A rest of a week will enable them to resume their duties with renewed energy and enthusiasm.

The following High School pupils deserve to have their names mentioned on the High School Honor Roll: Second month; 11th grade: Ruth Haley, Myrtle Foster, Zelma Ferguson and Winnie Langford. 10th Grade, Paul Loven and Alden Lamm. 9th Grade: Fred Mauldin and Lucile Wyche. Third month: 11th grade; Ruth Haley, Winnie Langford, Zelma Ferguson, Myrtle Foster and Jimmie Kinnard. 10th Grade; Paul Loven and Mary Hughes. 9th grade; Joe Thomas, Vergil Davis, and Lucile Wyche. 8th grade; Eunice Huckabee, Effie Nola Long, and Laura Lee Langford.

The work of the second term began on Tuesday of this week. The public school pupils, for the most part, have done most excellent work thus far this session. An effort is being made on the part of the teachers to secure a closer grading of the pupils. This is necessary in order that best results may be obtained. A special request is made of all patrons and parents in this connection. Children should do more studying at home. The children in the fifth, sixth, seventh, eighth, ninth, tenth and eleventh grades should do much work at home. High School pupils should study from two to four hours at home each school day; Grammar School pupils should study from one to two hours at home each school day. It is a mistake to think that an education can be secured at the school house or inside the walls of the colleges. It takes hours, days, weeks, and months of work in the study at home.

Parents are requested to make a special effort to give children a suitable place to work in the home and to do all in their power to secure home study on the part of the pupils. Some of your children may say, "We do not need to study tonight. We can do the work at school tomorrow." Parents are asked to guard against allowing such statements to influence them in allowing pupils to spend the evenings in idleness. A number of pupils can not be promoted at the close of the school year unless much more work is done by them in the home. Teachers in the grades above named ask that parents help them to secure more hours of hard work.

The next number on the Lyceum Course will be Tuesday evening, Jan. 9th. It will be a musical by the DeKoven Male Quartett. All are looking forward to a rare treat. The entertainment will likely be given in the High School Auditorium. The need for a piano and for a stage will make this change necessary.

More than one hundred eighty pupils have been enrolled in the High School (seventh grade included) this year. This is the largest High School enrollment to be found in any town between Wichita Falls and Abilene. A number of non-resident pupils are attending. The people of Haskell are to be congratulated for the active interest they are taking in building up the work of the public schools.

The teachers are thankful for the sympathy and help given them by the patrons. Many of the teachers say they have never worked in a town where the parents gave them as much assistance and showed such an active interest

in the work which children are doing in school.

The work of next term must be better than the work of last term. Teachers will enter upon the work of the new year with this thought in mind: "An effort which is less than the very best, is unsatisfactory; work for better work."
