New Beauty Boosters

From Europe has come a new idea in cosmetics for American women—makeup packaged in a metal tube! Ranging from cleansing cream to false eyelash adhesive, the new look for the look-boosters spells nothing but beauty—and easy does it!

The advantages of metal tube packaging quickly become apparent to the new American consumer. Instead of cluttering her dresser with containers which break if dropped, instead of trying to get the last bit of cream from the jar with her finger, instead of trying to screw the lid back on without smearing it . . . all she has to do now is twist off the tube cap, squeeze just the amount she needs into her palm, and with ten fingers still clean, twist the cap back on. What could be simpler?

Cosmetics in metal tubes don't dry out. You always know exactly how much you have left. You never have to leave any hiding in the bottom. And you don't pay extra for the packaging.

Breakage? No more of that, either. Any woman who has just put on hand lotion and then tried to pick up the bottle and put it away is familiar with that uncomfortable, perilously slippery feeling the bottle has on its way back to the shelf. Never again, says the Metal Tube Packaging Council.

And what's the best news of all? You can clean out that handbag! Out go the bottles, clanking treacherously against one another. No more risk of spilled makeup base in your change purse. No more lugging along your weight in beauty aids. Tubes are light, tuck neatly into the smallest crannies, and just don't break!

Europe's latest contribution to the beauty and ease of American women may be long overdue, but it looks as if its time has come . . . and is here to stay!

To Our Many Loyal Customers and Friends

Wishing you a **A Happy Easter**

May your Easter be glorious in all ways. And may eternal joy and peace be yours this lovely Easter. Our sincerest wish that the sacred remembrance of the Resurrection will bring peace to you and your family.

NEWS OF INTEREST TO WOMEN

WSG Members Hear Mrs. Tom Paul Barnett

The Wesleyan Service Guild, of the First Methodist Church, met in its regular session Monday night, March 13th, in the home of Mrs. Novela Rastetter. Following the call to order, a brief business session was presided over by Mrs. Lola Scott, the president.

Mrs. Tom Paul Barnett was in charge of the program and presented a very interesting and informative talk on her recent trip to her homeland in Germany. She gave many interesting and thought-provoking observations on her impressions of their Christian growth and beliefs, as well as historical, cultural and traditional background material. Through the use of pictures, much of her visit was visually portrayed.

Hostesses for the occasion served lemon ice-box pie, nuts and coffee to the following members: Mmes. Lola Scott, Nina Gibson, Dora Montgomery, Alma Terrell, Bebe Middleton, Jane McAdoo, Arnelia Faste, Pauline Couch, Bonnie Bunton, Grace Bisbee, Allie Belle Smith, Odell Bynum, Pearl Holmestly, Novela Rastetter, Flossie Walker, Lee Barnett and one guest, Mrs. Carrie Josselet.

HONORED: Miss Maye Bell Taylor, at right, and Mrs. Mildred Cox Mein, standing beside plaque, designating dormitory as Cox-Taylor building.

Former Haskell Resident, Miss Maye Bell Taylor Is Honored In Brazil

Miss Maye Bell Taylor, former resident of Haskell, was

honored recently in Recife, Brazil, when the dormitory of the Seminary for Christian Educators was named for her and another missionary, Mrs. Mildred Cox Mein.

The plaque for the Cox-Taylor Building was unveiled during a reception honoring the four former directors of the Seminary for Christian Educators, all of which were present for a week-end of activities in which the school began celebrating its fiftieth anniversary. Approximately 1,000 people attended the unveiling ceremonies.

Now director of a Baptist goodwill center in Aracaju, Sergipe, Brazil, Miss Taylor was director of the Seminary for Christian Educators, a Baptist girls school, from 1947 until 1953. She also served as vice-director from 1939 until 1947, during which time the dormitory building was inaugurated. Miss Taylor, a graduate of Harding-Simmons University, Abilene, and the WMU Training School, Louisville, Ky., was appointed a missionary to Brazil in 1938 by the Foreign Mission Board of the Southern Baptist Convention.

Easter Program Presented At Mary Circle

An Easter program on the death and resurrection of Jesus Christ, and the times He was seen after His death and resurrection by the apostles, Mary Magdalene and others, was presented by Mrs. Velma Jettan at the meeting of the Mary Circle of the W.C.S.S. held in the Fellowship Hall of the First Methodist Church.

"Christ is not risen," the Apostle Paul said, "then is your faith in vain." What is the evidence of the resurrection? Many Christians probably would answer that question by citing the Biblical stories about the finding of the open tomb. These stories dramatize the fact of the resurrection as nothing else can do, and their devotional value has earned them the central place at most Easter worship services, Mrs. Jettan pointed out.

The meeting was opened with prayer by Mrs. Paul Josselet and closed with prayer by Mrs. Robbie Pitman.

Refreshments of cake and coffee were served by Mrs. Bunton to the following members: Mmes. Bunton, Crow, Josselet, Jettan, Mayes, Patterson, Pitman, Stone, Tooley, Thomas and one visitor, Mrs. Alma Collins.

Weinert Matrons Hold Program On Health

The Weinert Matron's Club met in the home of Mrs. Henry Vojkufka, March 16, for a program on health. Mrs. H. W. Liles, director, gave an interesting discussion on Growing Old Gracefully. One point she brought out that is worth thinking about is that death from disease should not be considered natural, only death from old age is natural.

Mrs. Harlan Weinert gave a talk on the Silent War in Vietnam, malaria, and the disastrous effects malaria has on our American fighting forces. Mrs. Fred Monke gave an informative talk on medical quacks that drain the pocketbooks of thousands of Americans each year. Her discussion, To Know Is To Avoid Medical Quacks, and gave pointers on how to avoid the quacks.

Mrs. Preston Weinert, delegate to the District Convention in Abilene, gave a detailed report of the activities.

She told how the state president, Mrs. Seay, had expressed her desire that club women shake-off their anathy and "get involved" in various Federated club projects. After her report, the club voted unanimously to "get involved." The president appointed a three-man committee to meet with the mayor and the city council, with the idea in mind to find ways in which the club can assist in a program of community improvement. Members of the committee are Mrs. Buck Turnbow, Mrs. M. W. Phemister and Mrs. R. W. Raynes.

The next meeting of the club will be on March 30th, at the high school, when Mrs. W. B. Guess and Mrs. H. Smith will be hostesses.

Mrs. Vojkufka, hostess, served a refreshment plate of ice cream, cake and coffee or tea to the following: Mmes. Raymond Liles, Buck Turnbow, Mrs. Colen Hammer, Mrs. Marvin Phemister, Mrs. Preston Weinert, Fred Monke, H. W. Liles, R. J. Rainey, Henry Smith, Harlan Weinert, W. C. Winchester, R. W. Raynes.

At The Club Convention

When the count was made at the Mesquite District Convention held in Abilene March 13-14, the Weinert Matron's Club tied for first place with number of guests present. Those attending were Mrs. Raymond Liles, immediate past president of Mesquite District, her mother, Mrs. Fred Monke, Mrs. Harlan Weinert, Mrs. Buck Turnbow, Mrs. M. W. Phemister, Mrs. R. W. Raynes, local club president, and Mrs. Preston Weinert, club delegate to the convention.

The club received an award for being 100% per cent subscribers to the Clubwoman; 1st place award in education; 2nd place in Crime Prevention program. They received a "Good" rating on the club press book.

6TH ANNUAL FATHER-DAUGHTER BANQUET GIRL SCOUT HOBO FLING

The Brownies, Junior Girl Scouts and Cadettes all rounded up their "partners", namely Dads, and converged on the Elementary School Cafeteria for the annual Father-Daughter Banquet Friday evening, March 17th. Jeans, bandanas and boots were donned by all for a "Western Hobo Fling." Surrounding the camp-site depicted by a fire, bedrolls, etc., were the tables gaily decorated with red and white checkered tablecloths. The centerpieces were old containers such as coffee-pots and tea-kettles with a variety of flowers. Barbecued beef with all the trimmings was enjoyed by all.

The Cadette Troop No. 462, with Mrs. Jack Pippin as their leader, had worked for weeks on the theme, invitations and programs for the banquet.

The invocation was given by Beth Lowry, Troop 462 and Carolyn Pippin, Troop 462, welcomed the guests and fathers. Guests from Abilene were Mr. and Mrs. George Hughes, Jr., Mrs. Hughes being Neighborhood Chairman for District 1, and Mrs. Sue Meeks, District Advisor.

All present joined the troop in singing, "Deep In The Heart of Texas." Bonnie Adkins gave a brief summary of the badge work their troop had been engaged in this year. They had made their bandana blouses to earn the Sewing Badge.

Junior troop 464 presented a skit "Clementella - A Western Cinderella." Cast of characters was introduced by Penny Medley. Clementella Fish played by Karen Folker, constantly harassed by her step-sisters, Henrietta and Susietta Grim, played by Linda Hartsfield and Lugene

Her Fairy Godgranny, Karen Kroft, and Bowlegged Bailey, Lana Bailey, the buckboard driver, made certain she arrived at the hoedown in style to meet Buck Shot, Michelle McGowan. He was the handsome rodeo champ and hero. Sheriff Cookie Jar, Rita Sanchez, called for the square dance. At the stroke of 12:00, Clementella ran, losing her boot but Buck Shot found her the next day and oh, what a wedding!

To close the program, all the scouts sang "Girl Scouts Together. They were joined by fathers and guests in singing "America" and "Evening Taps."

Troop leaders present were: Mmes. Bailey Toliver and Royce Adkins of Troop 465; Mmes. Bud Lane and Jim Medley of Troop 464; Mmes. Royce Wood and Harry Boyd of Troop 468; Mrs. Jack Pippin of Troop 462 and Mrs. Jean Elliott, the Neighborhood Chairman.

"A New National Interest In The Arts" Is Theme of Magazine Club Program

Baby Talk

NEW YORK - Crybabies may be smarter than quiet babies! A hospital in New York taped the cries of new-born babies, then studied the same group three years later. The loud crybabies had higher I.Q.'s.

Learn The Language

Babies have different cries that indicate their problems. Studies show that a cry of pain is usually a shrill, high-pitched shriek that comes in intervals, while a cry of hunger or discomfort is a steady and persistent signal for attention. Since wet diapers are a major cause of fussing, Desitin baby care experts say change diapers before bedtime and apply an antibacterial oil or lotion to the diaper area.

Medical Aid

One miserable cause of pain is diaper rash. To help clear up this unpleasant, itchy condition, the baby care consultants suggest using medicated ointment or powder on the affected area. New antibacterial, Desitin baby aids fight germ-causing bacteria while they help heal and soothe irritated skin.

To learn more about modern baby care, write for a free Baby Care booklet from Desitin, 235 E. 42nd Street, N.Y.C. 10017.

Shamrocks presented to each guest upon arriving at the Magazine Club on Friday, March 17, set the theme and echoed the St. Patrick's Day decorations in the clubroom.

Following the business meeting, presided over by Mrs. C. O. Holt, Mrs. Mart Clifton led the members in singing a medley of Irish tunes. Mrs. Wallace Cox, Sr., accompanied at the piano.

Miss Nettie McCollum was director of the program for the afternoon, which had the theme "A New National Interest in the Arts." Mrs. A. W. Weaver spoke about Jacqueline Bouvier Kennedy and art in the White House during her time as First Lady. Mrs. L. R. Burkett presented excerpts from a book prepared by Mrs. Lyndon B. Johnson, titled "Thoughts of the Living White House."

During the business meeting, Mrs. L. R. Gamble reported on the recent Mesquite District Convention in Abilene.

And it was announced that Mrs. M. R. Hemphill had presented a 36-cup coffee maker to the Magazine Club. Mrs. Hemphill is an Associate Member of the club.

The St. Patrick's Day hospitality enjoyed by the membership was prepared by the hostesses, Mrs. E. M. Frierson and Mrs. L. R. Gamble.

Teacher Association Elects Officers For The 1967-1968 Term

Mrs. Robert Speer, fifth grade teacher, presented the film, "The Need for Modern Mathematics." She stated that at a recent teachers' meeting in Wichita Falls, they were told that education will change more in the next five years than it has in the past one hundred.

The film, which was a presentation of the Greater Cleveland Mathematics Program, stressed that we are living in a complex, scientific, technological society which puts a premium on the ability to solve problems well. Educators are taking a fresh new look at better education which has shown a need for new rather than traditional methods of teaching.

There has been great progress in mathematics and the new math is designed to help children make logical, creative and wise decisions and to better prepare them to study advanced mathematics.

Room count was won by Mrs. Tommy Davis' sixth grade.

Fourth grade mothers served a shoptesses during the social hour.

Why Weather Changes Skin

Bad, blustery weather and dry indoor heat are a destructive combination. Together, they cause even normal skin to dehydrate and lose natural moisture. Is there a solution?

When bad weather causes normal skin to become extra dry, Dermatologists suggest daily use of a lotion for extra dry skin. Creamy, emollient and protective, it helps put moisture back where it belongs and will provide immediate benefits of smoothing and softening. In three household sizes, it is priced from about 39¢ at local stores.

All Rolling Plains cotton farmers and others interested in the future of the cotton industry in the Rolling Plains are urged to attend the annual meeting of the Rolling Plains Cotton Growers which will be held in Stamford at the High School Auditorium tonight, Thursday, March 23, beginning at 2:00 p. m.

According to Charles Stenholm, executive vice president of RPCG, this should be one of the most important meetings ever held in the Rolling Plains. Among subjects to be covered by experts in their fields are what mills are looking for in our type of cotton, what we as cotton farmers can do to meet mill requirements and what the future holds for the cotton industry. Also, the possibility of mechanical classing of cotton in the near future will be discussed and this is most important to the Rolling Plains.

The primary concern of many in the textile industry, as well as some other cotton producing areas, is the pending shortage of cotton stapling 1 1/2 inch and having the desired strength, micronaire and other qualities. However, it is also obvious to most people that there are markets, and good markets, for cotton in the shorter staples, assuming it is grown and handled in the proper manner. "The successful cotton farmer of the past has been the one who has raised the most pounds of cotton per acre," said Mr. Stenholm, "but the successful cotton farmer in the future will be the one who grows the most pounds of quality cotton."

The Rolling Plains area of Texas can produce longer staple quality cotton that the mills will buy at a premium price. To do this, however, we must change some of our time-worn methods of production.

You Can Believe It!

OVER 100 YEARS AGO A SCIENTIST NAMED CHARLES WHEATSTONE INVENTED A DEVICE FOR MEASURING DIFFERENCES IN RESISTANCE TO THE FLOW OF ELECTRICAL CURRENT. HIS DEVICE IS CALLED A "WHEATSTONE" BRIDGE.

THE NEWEST USE OF WHEATSTONE'S BRIDGE IS IN A WATER SOFTENING APPLIANCE. ELECTRONIC SENSORS IN THE SOFTENER TANK DETECT THE NEED FOR SOFT WATER JUST AS A THERMOSTAT DETECTS THE NEED FOR HEAT.

THIS NEW SENSING DEVICE KEEPS FAMILIES FROM RUNNING OUT OF SOFT WATER—REGARDLESS OF THE FAMILY OR THE AMOUNT OF WATER USED.

THE SOFTENER RECHARGES ONLY WHEN NEEDED WHICH, ACCORDING TO THE COLLIGAN WATER INSTITUTE, SAVES AS MUCH AS 41% ON SALT. WHEN THE FAMILY TAKES A VACATION, THE SOFTENER TAKES ONE TOO.

Four Million Receive Assistance Through Unemployment Insurance

More than four million individuals benefited from the Federal-State unemployment insurance program during 1965, U. S. Department of Labor Secretary W. Willard Wirtz, announced.

The Secretary said that \$1.8 billion was paid to these workers whose unemployment averaged 5.2 weeks.

Average weekly benefit check in 1966 was \$39.72, the highest for any year in the history of unemployment insurance.

The generally high rate of unemployment throughout the nation last year is reflected in these unemployment insurance statistics in 1966:

Average weekly insured unemployment, at 1.1 million was down 300,000 from 1965, and was the lowest since 1953.

The rate of insured unemployment for the lowest since 1945.

The number of claims filed was 5.4 million, a high level of employment benefits during the same amount paid to ex-servicemen. Both are the lowest programs were ex-

LETTERS TO THE EDITOR

Carlsbad, Texas March 20, 1967

Al Hinds, Editor, Haskell Free Press, Haskell, Texas. Dear Mr. Hinds, Thank you for your story of liquor and the cat. I feel young people need people in important positions speaking out against drinking to help them be strong in their own decisions. As I feel drinking is the "curse" of America, I appreciate your story. Sincerely, Mrs. L. Chambers.

FOR THE HOSTESS

by Joan Crawford

The Unexpected Guest

Most people delight in invited friends—but panic when a guest "drops in" unexpectedly. A call from your husband that he is "bringing a friend" needn't faze you, because if the lamb chops won't go a long way, a little ingenuity will! A well-perfected slice-and-stretch technique can do wonders. For example, take the lamb (or chicken or beef), dice it up and pile into a casserole adding "fillers" like cooked rice and mushrooms, potatoes and frozen vegetables, or wide noodles and grated cheese. If it still looks like a lean meal, fatten it up with a quickie appetizer (egg salad stuffs a tomato deliciously), a soup, salad, and a rich-y dessert (instant-type pudding served with cookies).

Another way to cope with the unexpected—is expecting it! I always keep on hand a dozen bottles of chilled Pepsi-Cola, and assorted packages of french fries, chips, and nuts. I anticipate emergencies by stocking my larder with salad and vegetables and my freezer is always host to a one-pound Carolina pork sausage that's easily defrosted. So when I whip up quickies it's usually sausages and scrambled eggs. Whatever you do, never "fragment" a meal; serving your guest the choice cut while you sit there with fried egg on your plate. No one likes to feel they "robbed" your dinner. Always share what you have and if it's a little skimpy, make up for it with rich conversation!

To The Citizens of Haskell

Dear Friends, For the past nine months I have served as your Mayor. During this time I have strived diligently to carry on the affairs of the city to the best of my ability.

Certainly at times, it seemed that very little was accomplished. I assure you, however, the entire Council has been working faithfully for the best interests of the city . . . Numerous projects have been finished, while others are still in the working stage. One aim is to make Haskell, Texas a city we can be even more proud of as the years go by.

An election is forthcoming, and I most certainly solicit your vote. I am not a politician in any sense, but I do know how to work and get a job done properly.

Therefore, I request that you vote for me as the incoming Mayor of Haskell, Texas.

Respectfully yours,
H.V. WOODARD - MAYOR

Social Security Numbers Must Be Reported

Texas taxpayers are reminded today that the law requires them to list their correct social security number on their Federal income tax return.

If husband and wife each have income and file a joint return, they should list both numbers in the spaces provided on page 1 of the 1966 Federal income tax return. If the wife has no income, however, the husband's number will suffice.

Ellis Campbell, Jr., District Director of Internal Revenue for northern Texas, said that omission of the number, or entering an incorrect number delays the processing of the return.

If you do not have a social security number, application Form SS-5 may be obtained from your local Internal Revenue Service office, Social Security Administration office, or post offices. Applications should be filed as soon as possible.

Child Welfare Service Attempts To Strengthen The Child's Home Life

On October 1, 1966, 11,366 children were receiving primary service from the Child Welfare Division of the Texas State Welfare Department. Of these 85% were initially referred to the Department for protective service. Of the other 15%, initial problems were, child in conflict with the law, 5%; service requested by the court, 3%; mental handicaps 3%; child with emotional problem 1%; physical handicap, 1%; unmarried parenthood 1%; and child accepted for adoptive placement 1%.

Child Welfare services attempt to strengthen the child's home and keep the child with his own family when feasible. Two-thirds (67%) of the children served were in their own home and an additional 10% were receiving service in the home of relatives. The remaining 23% or 2,655 were away from the parents either on a temporary basis or permanent arrangement.

It is not surprising that only 14% of the children receiving service were legally available for adoption. Of those separated permanently from their own home, it had been determined that an adoptive home was the best plan for 684 (6% of all children served), that an adoptive home was not the best plan for 555 (5%), and for 358 (3%) a decision had not been reached.

Over three-fourths (78%) of the children receiving Child Welfare service were in families receiving no DPW financial assistance; 12% were in families receiving AFDC; and 0.4% were in families receiving no AFDC but receiving other DPW financial assistance. For 10% it was not reported whether DPW financial assistance was received.

Of the 11,366 children being served, 40% (4,561) were Anglo, 30% (3,429) Negro, 27% (3,075) Latin-American, 2% (173) other or mixed races and for 1% (128) the race was not reported. Children receiving primary service were divided evenly be-

A CHILDREN'S DAY

Easter and the official entry of Spring this year fall within a few days of each other. Although Spring arrives each year about the 21st of March, the date of Easter varies over a wider range. This year it is the 26th of March.

In case you need reminding, Easter comes on the first Sunday after the date of the first full moon that occurs on, or after March 21... according to Webster's New World Dictionary. Since it celebrates the resurrection of Jesus Christ, it is observed in a pleasant and rather gentle manner... The Easter egg hunt and the Easter bonnet.

Countless millions of children will pursue the annual treasure hunt for the gifts of the Easter bunny in brightly colored, easy-to-see baskets—tinted eggs, chocolate rabbits and gumdrops. The excited cries of childish discovery ringing on the spring air are one of the more pleasant aspects of Easter.

Board's Proper Role

"Why are so many of our local elected government boards in such a continuous tangle?"

This question was raised by Noel Greenwood, executive editor of the Goleta Gazette-Citizen.

Greenwood's observation are based upon several years of watching public boards and commissions in action.

Anyone who has observed elected boards in action can understand Greenwood's concern. All too often, elected boards do spend an excessive amount of time on trivia.

The key to the problem, as Greenwood states, "is that the elected boards and commissions don't recognize their role... or consciously refuse to stay within their role."

The truth... and most school board members know it... is that elected boards are not placed in office to administer the day-to-day operation of the organization, be it school district or city commission, is the job of the paid administrator and not the board member!

The official Beliefs and Policies of the National School Boards Association state regarding the responsibilities of the Local School Board... "They should recognize that while school boards are policy-making bodies, they properly delegate the execution of policy to employed professional administrators."

This is the only way for an elected board to function without causing undue disruption and confusion.

It's unwise and most awkward for all or several board members to try to fill the shoes of the chief executive officer of the school district.

Gentlemen Of The Press

Joseph Pulitzer, who emigrated from Hungary when he was 17, became one of the most influential figures in American journalism. Starting as a reporter for the WESTLICHE POST, he soon became publisher of his own newspapers—the ST. LOUIS POST-DISPATCH and the NEW YORK WORLD.

Joseph Pulitzer

Today's men in the world of communications have inherited Pulitzer's role as an innovator. You can see one of these new ideas in the type you're now reading. It's been set by a new IBM machine—about the size of a typewriter. It can prepare straight right- and left-hand margins. Fifty different type styles and foreign languages can also be typed on the new machine.

Pulitzer innovated many of the features found in today's newspapers—such as photographs and a comic strip section. He is most well-known for his establishment of the Pulitzer Prizes for journalism.

Is the sign in the restaurant correct which read, "If you can keep calm in all this confusion it's because you don't know what it's all about?"

Peace of mind for some is the result of ignorance. If you don't know your house is on fire you would not become alarmed.

Still others determine not to look beyond their own little world. Why become shook up over the needs and hurts of others? Live and let everybody else alone. Withdrawing to the shelter of one's own little world, peace of mind is assured.

To live in ignorance, how narrow life must be. To live withdrawn, how cowardly one must be.

Such should not be the life of the Christian. "Thou wilt keep him in perfect peace, whose mind is stayed on thee." (Isa. 26:3). Our confidence is in Al-

mighty God who is able to infuse inner strength to those who pray, imparting for decisions which are made; a God of love, permitted, dispels prejudices with understanding, and love; and a God of truth through faith removes and sin of our hearts would plague and lives and implants inner and peace with God.

We can keep calm and confidence in God purpose and meaning which could be chaotic.

DID YOU KNOW?

NIGHT DRIVING

Good vision and good lighting are the keys to safe night driving. Since it takes 45 minutes to adapt to seeing in the dark, don sunglasses when stopping for coffee or fuel to maintain your eye's "night-conditioning."

For safety—yourself and fellow motorists—courtesy pays. Turn on your low beams at dusk so oncoming drivers can see you, and use them when following to spare the eyes of the driver in front.

If your eyes tire, or you feel drowsy, pull off the road promptly and rest. Practice these simple rules and more life-saving pointers are outlined in a special feature in the March issue of Popular Science Magazine, and you may save your life.

7:00 each evening. Bro. Reynolds of Rule is the speaker. The Zion Lutheran Church will hold services on Good Friday evening at 7:00 p. m. and the Easter morning services will be at the regular time. This community received about one-half inch of moisture Sunday and Sunday evening. Needless to say, everyone will welcome some more.

WE NOW have in stock a four-page map, 28"x36", showing the United States, its neighbors, Asia, the world and the Presidents and when they served. The perfect thing for home, school and office use, at \$1.75 each. Haskell Free Press, 391fp

VA Q's & A's
 Q: My husband died this past month. I have received his pension check. Must I return it, and if so, will it be issued to me?
 A: You must return the check. If you are eligible for widows pension, your first check will be issued at your husband's rate of payment, if his rate was greater than yours. Thereafter, check will be at widows' pension rates.
 Q: I understand Congress passed a law allowing veterans to apply for special insurance known as "J" insurance. Is this true?
 A: Yes, but the date for application for this type insurance expired May 2, 1966.
