

## Prattle

By AL HINDS

Haskell recorded the first snow of the season, as the temperature dropped to a cool 35 degrees Monday morning, according to Sam Herren, "The Weatherman." On Thanksgiving Day, the thermometer climbed to a sultry 90 degrees...so from Turkey Day" to Monday a. m. The skellies saw and felt a 60-degree drop in the temperature.

To officially greet "old man winter," Prattle gives you this original poem. Of course, after you read it you perhaps will guess the originality of it, as it contains no poetic feet; varying length of line, complexity of stanza nor sustained nobility of sentiment or appropriateness of style...

The frost is on the punkin'.  
The grain is in the shock.  
My summer clothes are all worn out;  
My winter ones are in hock!

Prattle was over at Bob Herren's house Tuesday night to get some information for a story. The main purpose, however, for the visit was to drop some juicy deer steaks and roasts. I was privileged to see his very fine gun collection. He also found out that Bob not only collects guns as a hobby, but that he is also a very fine leather craftsman.

W. P. McCollum, Haskell High School principal, is in receipt of a letter from Mrs. Mae Cross, of Fort Campbell, Ark., asking that students write letters and send personal items to the servicemen in Viet Nam. At press time Mr. McCollum said the matter was being presented to the classes, and he said that a number of students would respond.

Mrs. Cross is the daughter of Mr. and Mrs. Sam Herren of Haskell.

The trouble with bucket seats is that not everyone has the same size bucket.

With this issue "ole Prattle" is turning the crystal ball, but to dig it out come the big old games. For the "Turkey" tilt between A&M and University of Texas and last weekend games... Baylor vs. SMU vs. TCU, I bat another .666 per cent.

Anyone seeing any "green" blowing around should notify Roger Weatherford, Free Press printer. Last Friday during the dust storm, \$35.00 in bills was whipped out of Mrs. Weatherford's hand after she made a deposit at the Haskell National Bank. \$20.00 of the amount was found several days away, but \$15.00 in bills still missing.

The Prattles were keeping grandchildren, Scott and Allen, of Hurst, recent while their mother and father were in Lubbock attending Texas Tech-Baylor football game, and Scott, age 3 1/2, told his grandmother he would trade a dime for some of the "green stuff" she had in her pocket.

The "little man" still counts this great country of ours. More than half of the corporations in this country are small businesses with assets of less than \$100,000 each.

Do you often think of only big companies as the employers of our country, where actually the main business is made up of millions of employees, who are the people who take their money and start a business enterprise. People who operate on a margin of profit, reinvesting this small profit in the business so that it can grow and provide a source of income for the owner and his employees if there be any.

extent to which these small risk-takers are new ventures and create jobs depends on their estimates of the chances of making and keeping a profit commensurate with the risk of losing the whole capital. It is important that the politicians in this country keep this fact in mind, that the little man is still the backbone of this great country.

## Goodfellows Fund In Race With Calendar

Gifts to the Goodfellows Fund are coming in slow. They are not keeping pace with the calendar, which shows that Christmas is only a very short few days away.

But the Goodfellows are confident gifts will start coming more rapidly, and that sufficient money will be raised to carry Christmas into the homes of many needy families.

Despite the fact Haskell has been blessed with at least fair crops and appears to have an atmosphere of prosperity, a number of families here will be dependent on the Goodfellows for any Christmas happiness which may be brought into their homes during the holidays.

Because of circumstances, beyond their control, these families will be denied the happiness that comes with Christmas goodies and toys for the small children, unless Goodfellows can provide these things for them. In turn the Goodfellows will be dependent on generous-hearted Haskell people in helping fill the Christmas baskets to be distributed to the less fortunate families in the community.

Royce Adkins, chairman of the Goodfellows project, states that principal items which will go into the baskets include wholesome food, candy, fruits, and a few toys where there are children in the family. It doesn't take much to provide Christmas cheer in a destitute home...but it means a great deal to worried parents and little children wondering if Santa Claus will visit them.

You can be a Goodfellow by sending in a contribution today to help fill one or more Christmas baskets.

Simply bring, or mail your gift in the form of a check or cash to "Goodfellows" in care of the Haskell Free Press. The list of contributions will be published as gifts are received.

Contributions to the Goodfellows Fund to press time were:

## Joe Harper Lions Speaker Tuesday Noon

"In my opinion the health and well-being of this community lies in the health of its agriculture," Joe Harper, manager of the Federal Land Bank Association of Haskell, told the members of Lions Club at the Tuesday noon-day luncheon meeting at Felker's Restaurant dining room.

Raja Hassen was in charge of the program and introduced the guest speaker.

The Federal Land Bank is not a branch of the Federal Government, Harper pointed out.

"Long term, low interest loans to farmers to assist a man and his family to acquire property and a home is the business of the Federal Land Bank," the guest speaker said.

"Sometimes business men overlook our agriculture customers...but agriculture is the backbone of this community," Harper said.

"At present we have some 949 loans amounting to around \$6,000,000.00," Harper pointed out.

"We of the Federal Land Bank want to make a loan a man can pay back," the guest speaker concluded.

Guests noted at Tuesday's meeting, other than the speaker, were Ronnie Leach and Richard Ferguson, of M&F Pharmacy.

## Term Upheld For Mullins Murder Case

A 15-year murder sentence for J. W. Mullins of Haskell was upheld Wednesday, Nov. 24, by the Texas Court of Criminal Appeals, Austin.

Mullins was convicted by a Haskell County jury of stabbing C. F. White Dec. 12, 1964. White died 10 days later and the autopsy report said death was due to a clot which formed as a result of a stab wound in the abdomen.

Trial testimony said the fight started when Mullins and Herman Lacy went to a woman's house. She slammed the back door on them. White, a neighbor, came from his house and told the men the woman was not at home. Owens and Lacy argued with him, and White picked up three bricks and threw them, one hitting Mullins in the head. Mullins claimed self-defense.

The knife was never found, but White's trousers were shown to the jury, with a tear in the front.

The appeals court reviewed the evidence as to its proper presentation and concluded that Mullins had had a fair trial, and affirmed the sentence.

## Arrival Of Santa And Gala Parade Saturday Opens Christmas Season

### Barn, 70 Hogs, Seed And Hay Lost In Fire

Pat O'Keefe, who resides about three miles east of Kirby, suffered heavy fire loss around 10:30 a. m. Wednesday of last week, when a blaze of undetermined origin destroyed a large barn, 70 head of hogs, cotton seed and practically all of his hay.

The County truck of the Haskell Volunteer Fire Department answered the call, and the city truck was getting ready to go to the scene, when it was radioed back that the barn and contents was a total loss, according to "Satch" Lusk.

O'Keefe had only a small amount of insurance.

## Poverty Program To Be Outlined To Public Here, December 9th

Bob Allen of the Texas Office of Economic Opportunity will be at the Haskell Trinity Lutheran Church, Thursday, Dec. 9, at 8:00 p. m., to discuss the poverty program as outlined by his office.

Gov. John Connally has said: "Federal and State Assistance is available to help local communities in developing and supporting... anti-poverty programs. However, such assistance will depend on local initiative and the community's determination to mobilize its own public and private resources for this attack."

The poverty program is in our midst here in Haskell and in the surrounding areas. Mr. Allen will inform the public on the various programs available and how we are able to set-up community action to attack this problem locally.

Invitations have been issued by letter to the leaders of this area and surrounding areas. However, it is always impossible to include everyone who is interested, thus an invitation is extended anyone interested to attend.

## Application Made By Water Board For Federal Aid

A called meeting of the board of directors of the North Central Texas Municipal Water Authority was held in Munday, on Tuesday night of last week, to outline necessary plans to make an application for a federal grant, as provided in the recently enacted Public Law 89117 of the 89th Congress.

The act provides for grants to assist in construction of water facilities where there is a need of financial assistance in development of needed projects.

The board voted unanimously to make formal application for the grant to assist in construction of the Millers Creek Reservoir, which has been held up for a number of years by opposition, claiming the cost was prohibitive in its original form.

Preliminary application was made at the FHA Office in Seymour, Monday morning, November 29, and it was forwarded to the State Office at Temple, Texas by Mr. L. B. Patterson.

The board is of the opinion that, if a grant can be secured to assist in the project's cost, the stalemate which the authority has experienced can be eliminated.

The old gentleman from the North Pole will bring his giant 30-foot sleigh, "The World's Largest Sleigh," to Haskell on Saturday, Dec. 4, to take all the children for a ride, from 10:00 a. m. to 6:00 p. m.

The big sleigh is bright red, trimmed in silver, and can accommodate 60 children on each ride. Six Shetland ponies, dressed in chrome-plated harness, bright red plumes and sleigh bells will pull the world's largest sleigh.

Haskell merchants, through a special arrangement with Santa Claus, will give away coupons, which will enable the children to fulfill the dream of every child...to ride on the sleigh with Santa.

A personal interview by Santa with each child has also been arranged. Concealed speakers on the sleigh will broadcast each interview throughout the business district. Beautiful Christmas music will also be heard continuously in the background, as Santa, with his big sleigh loaded with happy children, rides through the streets. It will follow a designated route around the square.

Miss Merry Christmas and a complete crew, all in costume, will accompany Santa on his visit here. Merry will be Santa's official hostess on the sleigh.

Large crowds are expected to be in Haskell in the morning and to view the big colorful parade at 3:00 p. m.

Free ride coupons can be obtained from local merchants and no rides will be given without the coupons. Coupons will be turned-in to Santa's ticket-man for a numbered ride ticket. Groups will board the sleigh as their number is called. As many as 4,200 children have ridden with Santa on the sleigh in a single day.

## 5-AA All District Teams Are Named

Ballinger and Winters "hogged" most of the spots on the Defensive and Offensive 5-AA All-District football teams.

On the Defensive Team, Bobby Watson, of Haskell, senior, capped top spot halfback honors; Frankie White, Haskell, senior, was in a 4-way tie for tackles (ends), and George Sherman, Haskell, received honorable mention as linebacker.

On the Offensive Team, David Perry, Haskell, senior, was in a 3-way tie for tackles; Jack Melton, Haskell, honorable mention for end; Glenn Smart, Haskell, honorable mention, guard; Bobby Watson, honorable mention, quarterback; Kenneth Folger, Haskell, honorable mention, fullback; Thornton Gilmore, Haskell, honorable mention, halfback.

## Only .07 Of Inch Rain Here In Nov.

The month of November was a "dry one" for Haskell, with only .07 of an inch of moisture registered on November 9th, by Sam Herren, official government weatherman.

Despite a dry November, Haskell is still well above the normal rainfall for the year. Up to December 1, a total of 25.43 inches had been gauged, with normal to date, 21.87. A look at those figures reveals that Haskell is still 3.56 inches above normal for this time of the year.

Lowest temperature reading for November was a cool 20 degrees on November 29. The thermometer climbed to a sultry 90 degrees on Thanksgiving Day.

## Haskell Couple Receive Report On NY Blackout

A first-hand report on the recent power blackout in the East has been received by Mr. and Mrs. A. E. Ivey of Haskell, whose daughter, Lynda, is in dramatics school in New York City.

Lynda, who works part-time for Pan American Medical Association, Inc., in a 5th Avenue skyscraper, told of leading two doctors, two nurses and two patients down 26 flights of stairs "in the pitch black."

"When the lights were plunged off and emergency elevator warnings started ringing my gamut of emotions ran from calm to panic," she confessed.

"I concluded that the building was on fire, but after 15 minutes of guessing and sniffing for smoke, a quick glance out the window told us the entire city was without lights."

In all the confusion, Lynda said she saw only one fight: "It was between two drunks who were accusing each other of being blind," she said.

## "Plucky" Danny Isbell Surprising Doctors And Physical Therapists

On October 15, 1964, Danny Isbell was surprising defensive players on the Ira football team as he quarterbacked the Paint Creek squad.

Most of the time since then, he has spent in surprising doctors and physical therapists with his trip back from what for many youths could have meant total and permanent disability.

"Guts is the only word for it," Shelley V. Smith, director of the West Texas Rehabilitation Center, says. "Danny has gotten excellent therapy from the time he was injured, but most of his progress is due to the fact that he's convinced he will walk again and he has the determination to carry through with what we can do for him."

Danny was playing defensive halfback when he was injured. As he tells it, "I dived for the ball carrier. I guess that's where I made my mistake. I should have kept my feet on the ground. His knee hit me in the side of the head and that was it." The blow crushed the 4th vertebra in his neck, leaving him paralyzed from the neck down.

Danny was taken to Baylor Hospital in Dallas immediately after the accident and spent three months either flat on his back or flat on his stomach with 15 pounds of traction on his neck. But even while lying flat on his back, the physical therapy was started.

During those early days in the hospital, therapists started what is described as "range of motion" moving the major muscles in as normal a way as possible in order to keep them from becoming useless. Muscle re-education began a short time later.

Last April, Danny was released from the hospital but for him the fight back was just beginning. Twice each week he is brought to the West Texas Rehabilitation Center where he works with weights to strengthen his arms, undergoes occupational therapy to help him

learn to use available muscles to do the normal tasks which were automatic before the injury, and to have other forms of physical therapy.

Between trips to the West Texas Rehabilitation Center, he goes to school, attends all practice sessions and games of the Paint Creek football and basketball teams and spends hours each day in exercises to help his muscles regain their strength.

Coach J. R. Mickler provides a helping hand for therapists by helping Danny with some of his exercises. Danny serves as manager of the football team from his wheelchair, but in the halls of the school, he sometimes lets other students ride in the wheelchair while he pushes them down the hall.

Walking is still a slow and painful process for Danny, but his therapists report he is making considerable progress. He can now walk with a walker or by holding onto the handles of his wheelchair and pushing it in front of him.

Classwork presents something of a problem. "I can't write very fast or very well," Danny says. "So I've had to learn to keep up with what is going on without taking many notes."

He's a junior in Paint Creek High School. He was a junior at the time of the injury and after being in the hospital for almost the full school year, he decided to start back as a junior for this year. "I only attended eight weeks and with subjects like chemistry and second year algebra, I didn't think I could do them on my own," he says.

Even today, the doctors and therapists are hesitant to predict how far Danny can progress, but Danny himself shows less hesitancy. "I'm going to make it," he says. "I've come this far and I know that I'm going to walk normally again."

At the West Texas Rehabilitation Center most of the folks are ready to agree with him—not so much because it is medical therapy to help him

## O'Brien Gin Employee Killed

James Edgar Hawkins, 74, was killed about 3:30 p. m. Tuesday while working at the O'Brien Co-op Gin.

Hawkins was crushed by a tractor while hauling cotton to the gin suction. Taken to a Knox City hospital, he died soon after being admitted.

Funeral was held at 2:30 p. m. Wednesday from the O'Brien Baptist Church with Rev. Cecil Foster, pastor, officiating. Burial was in O'Brien Cemetery under direction of Smith Funeral Home.

He was born May 11, 1891, in Tennessee and moved to Knox County in 1914.

## WINDOW UNVEILING, LIGHTING SWITCH-ON TRADITIONAL HERE

Traditional Christmas lighting of the courthouse square at 5:45 p. m., tomorrow, Friday, Dec. 3, in conjunction with the unveiling of gaily decorated windows by local merchants, will officially "kick-off" the Christmas season, signalled by a Santa Claus parade at 3:00 p. m., Saturday.

With the mass unveiling of draped store windows containing sparkling displays for the Yuletide, a symmetrically arranged array of some 450 lights ranging from more than 2,000 feet of lighting cord will be turned-on Friday evening. The two events in keeping with tradition, are a simultaneous "in-stitution" on the eve of the opening of the Yuletide season here.

Santa Claus in his 30-foot long, pony-powered sleigh, arrives in Haskell at 10:00 a. m., Saturday, and will spend some eight hours giving sleigh rides to kiddies around the square.

Parade

The red-suited "Jolly Old Man" will precede the gala parade which will begin winding its way through downtown Haskell at 3:00 p. m., Saturday.

Parade chairman C. O. Holt, said the big annual Christmas parade will feature beautiful floats, bands, the Pershing crack rifle team of Abilene, plus a pet parade, which will include children from all schools in Haskell County.

### What Would The People Say?

For a good many years, the nation has been moving in the direction of a welfare state. Of late, the pace has been greatly increased. And we've probably gone a long way farther along this dangerous road than most of us realize.

The people have had no chance to vote on the specifics that are involved in this. The laws are imposed from on high. The people, of course, vote for their elected officials. But, all manner of considerations, other than welfare state programs, can determine their choice. And candidates, come election time, have little or nothing to say about the cost...in money and in lost liberties...that welfare statism involves.

This aside, the evidence does indicate that the American public is definitely not...repeat, not...in favor of total dependence on the government. For example, a late Gallup Poll dealt with a proposal that has been in the news in recent times. It is that the government should guarantee all a minimum annual income, instead of doling out welfare and relief payments. The Poll's result: 19 per cent favored the idea; 67 per cent (well over three times as many) opposed it; 14 per cent had no opinion. The percentages, naturally, varied among different groups, depending on such factors as income, education and race. But in no group, Dr. Gallup reported, was there majority support in favor of the scheme.

We might witness some surprises if the people were able to vote on the seemingly endless stream of welfare state measures as they appear in Congress.

### Appreciation Day Banquet To Honor Graham Purcell

Secretary of Agriculture Orville Freeman will be the featured speaker at an "Appreciation Day" banquet scheduled in Wichita Falls, December 8, for Democratic Congressman Graham B. Purcell, Jr., of Wichita Falls.

The banquet and an earlier reception are being sponsored by the Texas Association of Wheat Growers.

### Christmas Dinner Is Held At The Christian Church

The fellowship hall was beautifully decorated with a manger scene with a bright shining star dominating the east wall of the hall. Beautiful red and gold ornaments hung from the ceiling. The same color scheme was used on the tables accented with candles and greenery.

The blessing was expressed before those attending enjoyed a delicious ham and turkey dinner. Following the dinner, Royce E. Wood, minister of the Church, read the familiar and loved record of Christ's birth according to Luke 2nd Chapter. The "Singing Six" vocalists presented several seasonal selections under the direction of Mrs. Frank Martin.

The meeting was dismissed with prayer. Approximately 50 people were present for the occasion.

### Goodsell-Anderson Wedding Vows Recited Saturday Night At Anahuac

Miss Karen Malinda Goodsell and Carl Thomas Anderson pledged double-ring wedding vows in a candlelight ceremony at 7:30 Saturday night, November 27, at the First Baptist Church, Anahuac. Rev. Bob Mitchell officiated.

The bride is the daughter of Mr. and Mrs. Theodore Goodsell of Anahuac. Parents of the bridegroom are Mr. and Mrs. Carl J. Anderson of Haskell.

Traditional wedding music was presented by Mrs. Joe Lagow, organist, and Mrs. O. E. Wilcox, Jr., pianist. They accompanied Miss Georgia Stan-

ley in the vocal selections, "Because," "Oh Promise Me," and "The Wedding Prayer."

Given in marriage by her father, the bride wore an original formal gown of white satin peau de soie fashioned with a sculptured bodice. The bell sleeves and portrait neckline edge were filigreed with medallions of French lace re-embroidered with seed pearls and crystal beads. The skirt, which swept into a chapel-length train, fell softly from a natural waistline and was enhanced by the repeated applied lace motif at the hemline of the modified bell-shaped skirt. Her bouffant veil of silk illusion fell in tiers from a pillbox crown trimmed with lace and seed pearls. Her cascade bouquet was of stephanotis with a white orchid in the center. The bride's only jewelry was a single strand of pearls, a gift from the groom.

Miss Betty Lou McKinney of Del Rio attended the bride as maid of honor. She wore a formal gown of emerald green taffeta which was fashioned with a molded bodice enhanced by the scooped neckline and bell skirt. Her pillbox head-

dress was of emerald green taffeta with a circular veil of net in matching hue. In keeping with the tradition at Texas Woman's University, she carried a single-stemmed red rose.

The bridesmaids were Mrs. Donald Shankles, Baytown; and Mrs. Gilbert Baker of Austin. Miss Gayle Goodsell, sister of the bride, was her junior bridesmaid. They were all gowned identically with the maid of honor and each carried the single long-stemmed red rose.

Ben Anderson, brother of the groom, of Denton, served as best man. The groomsmen were Gene Brown, brother-in-law of the groom, of Eagle Lake, and Darel Anderson, brother of the groom of Haskell. Candlelighters and ushers were Joel Goodsell, brother of the bride, of Rome, Georgia, and James Morris of Anahuac.

For her daughter's wedding, Mrs. Goodsell chose a sapphire blue dress with black accessories. Her corsage was of butterfly orchids. The bridegroom's mother wore a light open blue silk shantung suit with navy blue accessories and her corsage was also of butterfly orchids.

Immediately following the ceremony, a reception for the wedding party was held in the Fellowship Hall at the church where the bride's table was centered with a bridal wreath entwined with white asters and greenery. The three-tiered wedding cake and the crystal punch service balanced the table arrangement.

Members of the house party were Mrs. Steele, Miss Joan Morris, Miss Frances Goodsell, the bride's sister, Mrs. Gene Brown, the bridegroom's sister, of Eagle Lake; Mrs. Ben Anderson, the groom's sister-in-law, of Denton; Miss Luann Brown, the groom's niece, of Eagle Lake; and Mrs. Joel Goodsell, the bride's sister-in-law, of Rome, Georgia.

For travel to Denton where the young couple will make their home at 1915 Bell Avenue, the bride chose a fashionable black and white wool suit with red accessories. She lifted the orchid from her bridal bouquet as her travel corsage.

Mrs. Anderson is a graduate of Anahuac high school and is a senior at Texas Woman's University, where she is majoring in Elementary and Special Education.

Mr. Anderson is a graduate of Haskell high school and of North Texas State University. He is presently employed with the Fort Worth public schools.

COMMUNITY NEWS

BY MRS. GENE OVERTON

Our killing frost came early
this morning. Someone said for
a frost to kill the temperature
had to stay below freezing for
an hour or more. It did, and
this morning tomato plants are
blackened, and cotton is too.
Now, in about a week farmers
can begin ending the cotton
harvest. This has been such a
long, pleasant, beautiful fall.
Gene said one year a long
time ago, the fall and winter
were so mild that the cotton
never died. He plowed up
green cotton after the bolls
were hand pulled. It began to
look as if this would be an-
other such year. But the frost
came.

Haskell Jaycees
Roll Over Hamlin
JC's 24 to 18

The Haskell Jaycees rolled
over the Hamlin JC's to the
tune of 24 to 18 last Friday
night in a somewhat unusual
football game played at Ham-
lin. The game was a fund-rais-
ing project of the Hamlin JC's.

The game turned out more
rugged than had been antici-
pated. Many knocks, bruises,
and sore spots were the souve-
nirs of the game, especially
when the time came to return
to the regular routine of work
Saturday morning.

The Haskell Jaycees will
meet the Hamlin JC's in a
return match here next Tues-
day night, December 7, 8:00
o'clock at Indian Stadium.

Groom Tigers
Outlaw Steers
Of Rochester

The Rochester Steers, Dis-
trict 6B champion, fought off
the Groom Tigers and com-
pletely dominated the first half
in a hard-fought game played
at Childress last Friday night.

...but the Panther team's
size began to tell on the Steers
in the last half, as Groom went
on to topple the fighting Steers
22-5 in class B playoffs.

The Steers made the only
penetration of the first half, go-
ing to Groom's 14 yard line as
time ran out. A 30 yard touch-
down scamper by Olson Le-
Fevre was erased early in the
2nd quarter on a penalty.

Groom recovered two Steer
fumbles to set up its first two
TD's and the Tigers scored the
third one following a recovered
on-side kick by Rochester on
the 50.

Rochester's only scoring took
place in the 3rd quarter fol-
lowing a 69-yard, 13-play drive
with Holmes passing to Steve
LeFevre for 5 yards. The big
yardage in the drive was a 32-
yard scamper by QB Holmes.

Groom's Johnny Littlefield
recovered a Holmes fumble on
the Steer's 8 yard line to set
up the Tiger's first touchdown
from the 3 on a 4th down try.
Groom had a 6-0 lead with 4:05
left in the third quarter.

A minute later Littlefield
jumped on the Steer's second
fumble at Rochester's 28 from
where the ball was carried to
the 10 and Cornett passed the
final yards to end J. D. Parker.

Groom ran the extra points
and led 14-0 with 56 seconds in
the period.

Groom scored its 3rd TD on
a 50 yard drive following the
Steer's lone score. Lamberson
scored from the five and then
added the extra points on an-
other off-tackle play.

The Steers used a spread
formation following the Groom
kickoff and marched to the Tig-
er 11 on passes from Holmes.
But there Rochester saw three
passes fall incomplete and
Groom ran out the clock.

More Than 300 Persons Present For Dinner Honoring State Rep. Arledge

More than 300 persons, including state senators, representatives, other high elected state officials, a U. S. Congressman and other friends paid tribute to State Representative Roy Arledge, Wednesday night of last week at a testimonial dinner held in the National Guard Armory, Stamford.

Speaker of the House Ben Barnes of De Leon, principal speaker, pointed to the problems of education, water, electrical redistricting and other issues which faced the legislature in 1965 and called the session the most productive ever.

"Roy Arledge played no small part in this productivity," said Barnes.

Other dignitaries paid tribute to the Stamford legislator who in two terms has never missed either a session of the legislature or a meeting of a committee of which he was a member. Lt. Gov. Preston Smith declared that the number of state senators and representatives present was "indicative of his success."

Accessory General Waggoner Carr noted that "the seat of Texas government is in Stamford tonight" to honor Roy Arledge. Carr also said that within a lifetime, West Texas had changed from a "political orphan" to a power in Texas politics and that "Texas government has been made better by his (Arledge's) being there."

U. S. Rep. Omar Burleson, stating that he had nothing to do with state government and that he was speaking objectively, said "We have never had a

more stable government than we have today. Roy, you have a prominent part in it." In addition to the prominent speakers' plaudits, telegrams and letters from Gov. John Connally, many Texas representatives and senators and prominent men gave praise to Arledge.

# NOTICE TO FARMERS USING COTTON BURS ON FIELDS

Don't tie up the nitrogen in your land! To help  
 rot your cotton burs and turn them back to organic  
 matter for plant food—Use 16 gallons of Aqua Am-  
 onia Fertilizer per acre.

16 gallons of Aqua Amonia will give you 25 lbs.  
 of pure nitrogen per acre at a cost of only \$2.16 per  
 acre.

We will apply the above application for you at a  
 total cost of \$2.80 per acre or we will furnish you ap-  
 plicators free that will cover 30 ft. strip.

Burs should be turned under within 24 hours af-  
 ter application of nitrogen—the same day, if possible  
 will give better results!

Spreading of burs on fields is a good practice!  
 The use of nitrogen to rot them will give you the full  
 benefit of them much quicker.

Be good to your land—and it will be good to you!  
 Give this a try! See what we mean!

# Dist. Conference In Seymour Is Well Attended

Members of the First Methodist Church, Haskell, and Paint Creek Methodist Church and pastor, attended the District Conference held at the First Methodist Church in Seymour, Sunday evening, Nov. 28th.

Rev. Patterson said: "Some 40 persons from our communities shared in the conference."

Approximately 500 persons from over the Childress District heard Dr. Vernon Henderson direct the conference in the absence of the District Superintendent, Rev. Duane Bruce, who was confined to the hospital in Childress.

Following the business session, it was decided to hold the District Conference in Childress next year.

Dr. Alsie H. Carlton of Perkins' School of Theology in Dallas was the minister for the evening service and delivered a very inspiring message on "What The Church Means To Me."

### HOLIDAY VISITORS

Mr. and Mrs. Jack Guynes, of El Paso, visited his mother, Mrs. F. L. Peavy over the Thanksgiving holidays. They also visited friends in Haskell, Rochester and Abilene.

Advertising doesn't cost... it Pays.

**LONG ROAD BACK**—Danny Isbell, seriously injured in a football game over a year ago, is gradually overcoming what could have been permanent total disability with the help of Therapist Jerry Pilling and others of the West Texas Rehabilitation Center, Abilene.

### Danny Isbell---

(Continued from Page 1)

ically possible but because Danny is the kind of lad that accomplished the impossible.

Jerry Pilling, the physical therapist who works closely with Danny during his two-hour sessions each week, says progress can be seen every week.

During an interview, Danny sat in his wheelchair and built up the muscles of his arm with a 12-lb. "dumbbell" weight. When it came time for photos, he suggested that he get on with the walker, obviously because he doesn't want to be shown as

dependent on the wheelchair.

Danny has some high praise for the work done at the West Texas Rehabilitation Center, but the respect is mutual. He is a favorite with the entire WTRC staff because of his determination to recover—which may be one of the major factors in his progress to date.

"There is a lot that physical therapy can do," Smith explains, "but in the final analysis, the determination of a boy like Danny makes it possible for therapy to work wonders that even the therapists don't expect. He has all of us around convinced now that he'll walk again."

# The Good Earth

by MRS. B. F. COBB

Be sure to prepare the soil well before planting trees and shrubs. Remember, organic matter cuts down on nematodes.

The Ewin Linton's redbud tree put on a show again this fall. Seems it doesn't know a redbud is only supposed to bloom once a year.

Nettie McCollum's starfish plant had five huge blossoms this year. Nettie had in her yard this year I've ever seen. It really has made a lovely picture this fall.

Mrs. Ed Fouts, who is a Haskell Garden Club member, has dried lots of beautiful celosia (coxcomb) for dried arrangements. She and her daughter, Mrs. LeRoy O'Neal, are quite good at arranging. Their many blue ribbons will prove that.

The first dormant spray can now be used on peach, pear, plum and apricot trees. I usually spray my roses about three times during the winter with lime sulphur and dust the ground with wettable sulphur. I haven't had a blackspot hit the bed since it was established two years ago. Do not spray if there is danger of temperatures dropping below freezing. Consult your agricultural agent for different sprays. We use lime sulphur on fruit trees, too.

Cut out all dead wood from trees and shrubs. Do not prune spring flowering shrubs now for next spring's blossoms will be lost. Fruit trees and all deciduous (leaf losing) trees may be pruned as soon as they are dormant. Be sure to paint scars with a good tree paint to prevent the invasion of diseases and insects. Grape vines may also be pruned now.

Cuttings of deciduous trees and shrubs may be taken this month.

Calla lilies may be planted now. Put amaryllis bulbs into the soil as quickly as they come on the market.

Mulch all semi-hardy perennials. Be sure to mulch chrysanthemums that have never

### We go to all the trouble of redesigning our interiors, improving our handling, and refining our Wide-Track ride, and some people buy us just for our looks.

Just once we'd like to have people fall in love with the inside of our cars before they flip for the outside. Why, this year alone we've made available brand-new wraparound buckets. Profile bench seats. More rich, genuine walnut paneling. And nicer instrument clusters you've never seen. We even had our engineers take our test cars apart piece by piece to come up with improvements that, incredibly enough, make our Pontiac smoother, quieter, more enjoyable to drive.

Really, though—we don't care which gets you inside a new Pontiac, as long as it gets you there. And it will. At least judging by the number of Pontiacs you see on the road.
