HENRY WITHERS

BOB BEAUCHAMP

Withers Retires; Beauchamp New WTU Manager

A career with West Texas Utilities Company that began more than three decades ago, comes to a close on May 1 when Henry Withers, manager for the company in Haskell, retires from active service. R. H. Beauchamp of Stamford, who has served as a salesman for the company in the Haskell area for many years, has succeeded Withers as manager in Haskell. Withers will be enjoying his vacation for the next three weeks.

The announcement of the changes in the Haskell office were made today by District Manager Russell Crowner in Stamford.

Withers joined WTU in 1923. A resident of Haskell for the past eight years, Withers began his long career with West Texas Utilities Company in 1923. He resigned his job with the Katy Railroad in Hamlin and was employed as station agent for WTU's Roby & Northern Railroad in Roby. This four and one half mile line connecting Roby to the MK&T at North Roby was the town's only rail outlet.

Two years later he was made local manager in Roby and promoted to general passenger and freight agent of the R&N. He served in this capacity until 1941 when the railroad was discontinued and Withers was transferred to Rotan as local manager.

Jaycees Collect 37 Pints Blood For Viet Nam

Under the sponsorship of the local Jaycees, a Bloodmobile from the Red Cross Center, Wichita Falls, was in Haskell Wednesday of last week from 12:00 noon to 6:30 p. m. and set-up shop at the community room, Haskell National Bank.

In their support and strong stand for Viet Nam, Haskell Jaycees through the assistance of the Bloodmobile, collected a total of 37 pints of blood. All blood donations went directly to servicemen in Viet Nam.

Abe Turner, cashier of the Haskell National Bank, member of the Jaycees and vice-president of the Chamber of Commerce, was one of the donors. This makes a total of 15 pints altogether that Turner has given the past few years.

Turner was named a member of the "Gallon Club," during the Red Cross Bloodmobile's visit to Haskell. He has given blood at the Haskell County Hospital and at other places and his next donation of blood will qualify him as a "two-gallon" member.

Dr. T. C. Lynch, medical director of the bloodmobile, said the people of Haskell represent the first community in Texas to give urgently needed blood for American servicemen.

Jaycees expressed thanks to the Women's Auxiliary; the two registered nurses, Mrs. Jim Medley and Mrs. Jack McAdoo, on duty during the day and to everyone who donated blood to the worthy cause.

Gospel Meeting April 11-17 At Church of Christ

JACK COX Evangelist

Minister T. J. Finley announced today that a gospel meeting will be held at the Church of Christ, Haskell, beginning Monday, April 11, and continuing through Sunday, April 17.

Jack Cox, of Cordell, Okla., will be the evangelist and will be delivering messages from the Bible during the week-long services. Congregational singing will be under the direction of Philip Madeley.

Mr. Cox formerly served as minister of the local congregation. Since leaving Haskell he has been instrumental in the establishment and operation of a home for the aged at Cordell.

Week day services will be held at 7:00 a. m. and 7:30 p. m. and on Sunday at 10:30 a. m. and 6:30 p. m.

A cordial invitation is extended everyone to attend.

Haskellites started trekking to the polls early Tuesday morning and continued their march down city hall way, all through the day, to voice their opinions at the polls.

When the polls shut down at 7:00 p. m., some 1,453 Haskellites had their say.

The heated contest began simmering several weeks ago and had reached fever pitch by election day, with both sides working long and hard.

Incumbents, Mayor Walling and three councilmen were seeking their fourth consecutive two-year terms. They were first elected in 1962 by a comfortable margin. In 1964 the margin was cut by about 100 votes. In past years their campaign has consisted largely of opposition to the Millers Creek dam project, a water source supply battle.

This is how the voting stacked up:

For Mayor, Douglas B. Finch, 766 votes, to incumbent J. E. Walling, Jr.'s, 687.

For Alderman: Incumbents Raymond Davis, 674; Otto Nanny, 659; R. L. Stephenson, 659.

Buster Gholson, 761; Carl Anderson, 777, and J. I. Sampson, 759.

Carl Anderson led the field with his 777 votes.

Speaking for the newly-elected aldermen and for himself as Haskell's new mayor, Mr. Finch in a statement to the press just prior to press time, said: "We deeply appreciate the confidence shown us at the polls, and we will serve the people of this fine city of Haskell to the best of our ability."

Mayor Finch said he would issue a more complete statement to the citizens of Haskell in next week's issue of the Free Press.

Holdover councilmen are John Thomas and Virgil H. Wall. Jessie L. Collier served as election judge and T. A. Rhoades, assistant.

DOUGLAS B. FINCH the new mayor

THE BASIC REASON

Any community anywhere has some marketable assets. I say marketable because one basic point can never be over-emphasized. Industry, in its broadest sense, emphatically does NOT come to town because of a profusion of parks, schools and churches. Quite the reverse is true. There is only ONE BASIC REASON why any industry locates anywhere, or relocates. Because it can make more of a PROFIT there than elsewhere. This fact should be literally burned into the desk top of every Industrial Development person. Obviously, there are many facets to the management of an enterprise for generating profits. Some of the major ones are:

- Markets that are accessible
- Labor that is available and affordable
- Utilities that are adequate and constant
- Taxes that are equitable and that return value
- Raw materials that are accessible
- Land that is well located and reasonable
- Community attitudes that are compatible

How many of these assets does our community now have, or could have or should have? Investigate, evaluate, co-operate, develop and present the most truthful and best possible image to your prospects.

TOGETHER

Getting things done. When a job is big and urgent there's a made-in-America formula for getting it done. It's based on combined action by the citizen as a volunteer and by the government—together.

Nowhere is this partnership between the volunteer and the government more vital than in the fight against the nation's second biggest killer—cancer.

With Cancer Control Month at hand, we focus again on a voluntary health agency that has helped change the nation's attitude and practice in fighting this disease—the American Cancer Society.

Even the huge sums being spent by the government on research became available in part because of the pioneer prodding and initiative of the volunteers who make up the American Cancer Society. A president of the United States put it best once on the eve of the Cancer Crusade when he said: "Partnerships like this between the people and the national government are indeed the heartbeat of this effort."

In respect to research, the American Cancer Society maintains a flexibility of approach which is imperative for creative and productive research into the cause and cure of cancer.

This is also true for the two other parts of the three-part ACS program—service and education. Public education about cancer is directly related to the saving of lives because early detection is indispensable for the one-half of all cancer patients who can be saved with present knowledge and methods of treatment. The present director of the government's National Cancer Institute mined no words when he said: "It is my conviction that education of the public is carried out better by voluntary agencies than the government."

So, too, with much of the service program to ease the burdens on cancer patients and their families. The partnership between the volunteer and government—on local, state and national levels—is the key to better execution of this humanitarian endeavor.

The scientific community is convinced that the ultimate conquest of cancer is inevitable. So, when a Cancer Society volunteer comes to your home, help make the inevitable come sooner.

Texans Warned Vehicle Inspection Date Draws Near

Approximately three quarters of a million Texas vehicles have only until Friday, April 15, to be inspected as required by law, according to Captain Alan Johnson, Commander of the Motor Vehicle Inspection Service of the Texas Department of Public Safety.

"In the remaining days of the inspection period, it is possible for the State's 3,350 license inspection stations to handle the last-minute inspections only if motorists take their vehicles in immediately so there will be no delayed periods between inspection one vehicle and the next," he said. The first of the last week is usually not too crowded as the lines begin forming on the last two days due to motorists waiting to the very last minute.

"From now until the deadline, every minute of the inspection station's time will be at a premium and waiting lines will become general throughout the State as it approaches."

Johnson urged all Texans to avoid the inconvenience of waiting in line to get the safety inspection sticker for 1966 by taking immediate action now. He said that beginning Saturday, April 16th, officers will be obliged to start handing out tickets for non-compliance with the Motor Vehicle Inspection law which requires an annual safety inspection of vehicles.

NEWS OF INTEREST TO WOMEN

Haskell Chapter Future Homemakers Undertakes Number of Civic Projects

The Haskell Chapter of the Future Homemakers of America has recently undertaken some civic projects. March 31st the group sponsored a member of Alcoholics Anonymous to present a talk at a Junior and Senior High School assembly.

Saturday, members of FHA had tables set up on the four sides of the public square. They collected donations for Easter Seals. Seventy-seven per cent of the \$24.32 collected will help to maintain the West Texas Rehabilitation center in Abilene.

At their meeting Monday night the officers for next year were introduced. They are: Joyce Cook, president; Phyllis Sampson, vice president; Catherine Josselot, secretary; Donna Finley, parliamentary; Susie Helweg, treasurer; Debby Pharris, reporter-historian; Lucy Kennedy, pianist; Brenda Hill, songleader.

On April 28, Mrs. W. P. McCollum, Joyce Cook and Phyllis Sampson will attend the state meeting in San Antonio.

Miss Janice Richards, physical education teacher, presented the program. Miss Richards said that to be physically fit one must eat the proper food, have sufficient rest and sleep, use leisure time for relaxation and pleasure and partake in physical activity. There are over 600 muscles in the body that make movement possible. If a muscle is used less than half of its capacity, it will weaken and will not grow. Statistics show that 95 per cent of a

child's waking hours are spent sitting. A teenager spends from 15 to 30 hours a week watching TV. He spends about two hours a week in organized play.

Miss Richards concluded her speech with a quotation from Ralph Waldo Emerson: "What we are born is God's gift to us. What we become is our gift to God."

Magazine Club Gives Most To Penny Art Fund

The Magazine Club received first place honors for giving the most to the Penny Art Fund, of any club, in the Mesquite District, at the March 17th Convention in Snyder, reported Mrs. C. O. Holt at a meeting of the club April 1.

Mrs. Scott Greene directed the program on "Money and Foreign Aid," using charts and figures to compare the wealth of the people of the United States with other races of the world.

"America's Wealth and Her World Image" was discussed by Mrs. Rike.

Mrs. Virgil Bailey, president, presided over the meeting and Mrs. C. T. Jones led the collect.

Mrs. John Payne was hostess for the afternoon, serving refreshments to 16 members.

Mrs. Bailey reminded club members that the final meeting for this year will be April 15. All members are urged to be present and all officers and committee chairmen were asked to have their reports for the business meeting. The social committee will serve as hostesses at the April 15th session.

NOTEBOOK-PATTERNS FOR PROGRESS

The Area Development Department - a WTU community service

WHY WTU HAS AN AREA DEVELOPMENT DEPARTMENT

- As a service organization, we have a basic responsibility to assist the communities we serve to grow and develop to their full potentials and capabilities.
- We have one basic product to sell — electricity — the area we operate in must grow if we are to grow.
- We have an investment in each community we serve, we are anchored in that community — unlike other companies which can move their plants and equipment elsewhere.

WHAT THIS DEPARTMENT IS ORGANIZED TO DO

- Assist in the planning of community development and improvement programs and in making community audits, surveys and analyses.
- Assist in forming industrial foundations and districts, in selecting plant sites, and advising on planning.
- Assist in preparing statistical data, advertising material, and in organizing and training industrial teams.
- In industrial development, we prepare market analyses for prospects, make detailed studies on factors affecting plant site location, and make personal calls on prospects for the communities.
- Conduct an active program of direct mail and personal calls on industries that might locate in our service area.

THE LOCAL WTU MANAGER — HIS VALUE TO YOU

- As a local businessman, along with others in the community, he is interested in its growth and development.
- He devotes his time and services on community programs and projects.
- He is YOUR contact with WTU.

Ask your WTU local manager for additional information and services available.

drove to the Hubbard Creek Lake near the dam. Catelaw, with buds swollen almost to bursting, dotted the cliffs. Yellow daisies and pink wild onion blossoms peeped out of the rocks. Fishermen lined the shores. One boat was anchored to some brush and two fishermen were casting their flies into the water that was still as glass.

We had been telling our youngsters about the longhorn steers at Fort Griffin. They asked us to take them to see these animals from out of the past. When we neared the Fort, several longhorn bulls grazed on the hill side. They gave a pioneer look to the scene.

We drove up on the mountain so the children could get a picture of the whole fort and park. Rye grass five or six inches high turned the valley into an emerald green carpet. A large herd of longhorn cows grazed on the rye near the river.

Leaving the mountain we drove down to the park where we got a very close up of the cows. One large red cow had a pair of crumpled horns, one reached down to just below her eye and all the way across her face and protruded out on the opposite side. The other horn lay flat and stuck out in the opposite direction.

Some of the horns were so long and heavy I marveled the cow could carry such a heavy load. Some of the animals were white with red specks making one think of the measles. Some were red. Some red and white.

Suddenly it began to rain and we headed back to Haskell, tired but happy. Do not forget the Haskell Garden Club Show, April 29th.

Three-Ring Circus Coming To Haskell

Under the sponsorship of the American Legion, the Birnam Bros. big 3-ring circus will come to Haskell for one day only, Tuesday, April 19, and will give two full and complete performances, rain or shine at 6:00 and 8:00 p. m. at the rodeo grounds.

Admission will be only 75-cents for anyone, any age, child or adult.

This show, long known as "The World's Finest Family Circus," believes that many communities that are not normally on the route of a major circus, are also interested in a circus of outstanding size and quality, and Mr. Duke, Birnam Bros. press representative emphasizes not to confuse this major tented circus with small shows of recent years.

A complete modernization program was carried out in the big shows' winter quarters during the past winter while the circus was off the road, in an attempt to combine the modern methods of today with the cherished traditions of the past. The product of all this modernization is the world's first all-modern circus in methods and equipment, which is the only way it is possible to continue to operate such a vast amusement enterprise, but the traditional elements that have made the tented circus great, have been retained.

This year the Birnam Bros. Great 3-Ring Circus is bigger, better and grander than ever before, brimming over with innovations and wondrous surprises and a myriad of unprecedented amazing features. A flood of talent such as never seen will thrill and amaze for a full 90 minutes in all three rings.

Headlining the featured performers is the renowned Lorlinee troupe on the high wire; Miss Sheri, the queen of the air; Laura, Linda and Leah, the daring young girls on the flying trapeze, and Birnam Bros.' own "Aerialettes."

The Johnsons bring feats of juggling beyond compare while the Burdett troupe of equilibrists, the Silverlakes on the Roman rings, Dick and Mavis on the rollabolla, Dot and Sonny atop the rolling globe, and Franklins acrobats perform amazing antics.

Animal acts aplenty feature trained and performing animals from every land and clime; Miss Janice's pets, the Birnam Bros. canine revue, educated chimpanzees, liberty and dressage horses, and the famous Birnam Bros.' elephant herd. All these plus a host of others and a cavalcade of clowns make this a show long remembered.

10,000 Birds Released In "Shoot" Here

Despite the high winds, 10,000 birds were released from two electric traps at the Haskell Gun Club's second annual "500 bird marathon" held here Saturday and Sunday, April 2 and 3.

The marathon which drew top-shooters from far and wide consisted of two 500-bird events total 1,000 16-yard targets, with John Guitar III, Abilene, winning with a 961 in 25 mph winds both days.

The handicap event was taken by Marvin Sprain of Abilene, with a 91x100, from the 20-yard line.

Larry Gravestock of Wichita Falls took the doubles, 91x100.

Even though inclement weather prevailed, rootin'-tootin'-shootin' Wooten reported a good turn-out and a very fine shoot.

GOLDEN ACRES brand

HAYGRAZER

largest selling sorghum-grass hybrid in the U. S.

Golden Acres brand TE Haygrazer takes the needs of more livestock at lower cost than any ordinary grazing crop you may have used before. It's because Haygrazer is fast, can be grazed early and then cut fast to provide a lot more grazing pasture all summer long.

When weather turns dry, you can expect good stands of Haygrazer long after other grazing crops have faded away.

Golden Acres brand TE Haygrazer will get the best grazing—and in a big way your Haygrazer seed now. We have only one original Haygrazer, and that's from Golden Acres. If the name TE is not on the bag, it's not Haygrazer.

PAINT CREEK . . . COMMUNITY NEWS

BY MRS. GENE OVERTON

March was in like a lion and out like a lamb just as the old saying goes. Now it seems April is trying to be in like a lion, too. Farmers are getting the land ready and the wheat is growing. The grain could use some more rain, because it will start heading in a week or two. One farmer I know planted some maize last week and many are planting gardens. If the mesquites were about to leaf out, we might think Spring had "sprung," but these old mesquites are the smartest trees we have, and spring is really here when they leaf out.

There are six weeks more of school and the school and community are having some of the banquets and senior entertainments. Last week was Future Homemakers of America Week, and the Paint Creek chapter, sponsored by Mrs. Bass Powell, entertained their mothers and "secret" pals with a banquet. The tables were decorated in an Easter motive with bunnies and baskets of colored eggs along the tables. The "secret" pals had small paper rabbits with a nursery rhyme question on them and their FHA pal had a paper rabbit with the answer. Janay Morrison, president of the local chapter, was Mistress of Ceremonies and each girl introduced her mother and secret pal. Mrs. Allen Isbell and Mrs. Ray Perry were introduced as Chapter Mothers.

The meal had been prepared by the girls and was served by the 8th grade girls who will be in Homemaking next year. The program for the banquet was a book review "Oh Ye Jibes and Julips," by Mrs. Jack Pippin. It was delightfully given in the first person and was one of the most humorous and enjoyable programs the girls have had.

Pals revealed were: Mrs. Frank Underwood, whose pal was Janice Isbell; Mrs. Otto Baumbach, Doyle New; Mrs. Lilla Heflin, Mary Lee Alexander; Mrs. Buddy Brazell, Janay Morrison; Mrs. Dale Middlebrook, Nelda Morrison; Mrs. Hoyt Perry, Nancy Jones; Mrs. Van Morrison, Estalee Jones; Mrs. John Sparkman Jr., Beverly Gibbs; Mrs. Kenneth Gibbs, Joan Sparkman; Mrs. Morris Haynes, Melanie Livengood; Mrs. Jim Dean, Brenda Griffith; Mrs. Harvey Terrel, Linda Griffith.

Larry John Edwards left last weekend for Fort Gordon, Georgia for advanced army training. He completed his basic at Fort Polk, Louisiana and had a two-week's leave to visit his parents, Mr. and Mrs. Lawrence Green.

Mr. and Mrs. Pat Morrison and family took Larry to Dallas to the airport where he caught a plane.

Joan Griffith, who teaches at Carmel, Calif., is home for Easter holidays with her family. Mr. and Mrs. Sammy Griffith, Wandu and Marilyn, and Mr. and Mrs. Dan Griffith and children.

Mrs. Bill Goff of Fort Worth is also here visiting her parents, the Griffiths, and Dan's family.

Mr. and Mrs. Jess Mickler were in Plainview last week where Jess had his stomach frozen. They are at home and he is feeling some better.

The Pirate, Paint Creek high school annual, came last week and it was dedicated to Mr. Bill Gibbs, high school math teacher. Several weeks ago at a school assembly program, the annual favorites were introduced. The highest honor that can come to a student is to be chosen "Mr. or Miss" Pirate by the student body. Nelda Morrison, daughter of Mr. and Mrs. Van Morrison, and Ronnie Medford, son of Mr. and Mrs. Leon Medford, received this honor.

Most attractive students were Steve Livengood and Doyle New. Most popular students were Milla Perry and Ricky Hambleton. Most Athletic students were Nancy Jones and Phil Coleman; Homecoming Queen was Milla Perry and her escort was Ronnie Medford.

Class Favorites were seniors Beverly Gibbs and Allen Schmidt; juniors, Joan Sparkman and Larry Walton; sophomores were Elaine Marr and Ricky Perry; freshmen were Phyllis Middlebrook and Jimmy Ballard, 8th grade were Linda Bruuggeman and Dwight Overton; 7th grade were Mary Lee Warner and Larry Cockrell;

6th grade, Terry Walton and Steve LeFevre; 5th grade, Charlene Lowe and David Green; 4th grade, Quala Buerger and Donald Jones; 3rd grade, Jo Morrison and Danny Bruuggeman; 2nd grade, Marsie Mickler and Jamie Mickler; 1st grade, Kala Pannell and Kenny Buerger.

The Methodist Church entertained the seniors with a show on Monday night. Every family brought a basket supper and the meal was served buffet style. Tables for the seniors were decorated in orchid and white and small umbrellas hung above the tables. Mrs.

Allen Overton and Mrs. Ray Perry were in charge of the decorating and the recreation room at the church looked most festive. After supper Pat Morrison introduced the members of the senior class and the faculty. Wallar Overton and Bernice Young of Abilene entertained with a Hootenanny.

At the school board election last Saturday, 91 votes were cast with Walter Buerger receiving 87 and Gene Overton receiving 54. Bill Cockrell received 38 write-in votes and Mrs. Bill Griffith received one write-in vote. Ira Hester, County School Board member at large received 76 votes.

Mr. and Mrs. Carlos Montgomery and children of Midland have visited their parents. Mr. and Mrs. J. Howard Montgomery and Mr. and Mrs. Woodrow Smith for two different weekends this month.

(Since my typewriter has been in the shop most of the month of March, this news is for all the month.)

Mrs. Beulah Stodghill and Mr. Herbert Henry of Rising Star spent Sunday with her cousin, Mr. and Mrs. Howard Montgomery.

Mr. and Mrs. Tom Cole and two little boys of Dallas spent the weekend with her parents, Mr. and Mrs. W. S. Cox.

Mr. and Mrs. John Kuenstler attended the senior play in Rule Friday. Their granddaughter, Brenda Hise, was in the cast.

Mahon For Cong. Headquarters Are Formally Opened

The District campaign headquarters of Mahon-for-Congress in Abilene were officially opened Saturday morning at 10:30 a. m., with a ribbon-cutting ceremony.

Cutting the ribbon was Abilene mayor W. Lee Byrd, who said, "I have cut a lot of ribbons for a lot of enterprises, and they have nearly all been successful. I feel like the same will be said for this one."

After the ribbon-cutting, a capacity audience heard a number of folk songs by the "West Four" a popular folk-singing group from Abilene.

A brief address was made by Jack Calloway, area campaign chairman, and the candidate Eldon Mahon, was introduced by Bill Leach, Taylor County co-chairman.

In his address to the crowd, Mahon stated that he would have to have their help to win, since "a man can go only as far as his friends help him go."

What's the best 5-letter word for fertilizer?

And for cotton — NIPAK Mixed Fertilizer

To get cotton off to a good fast start, form a sturdy root system and keep plants hardy throughout the growing season, put down NIPAK at pre-plant or at planting time. In one application you supply the necessary nitrogen for quick, healthy establishment and enough phosphorus for the entire growing season. Sidedress later with NIPAK 45 (45% nitrogen fertilizer from Urea that gives one-third more nitrogen per pound than any other form of solid nitrogen fertilizer) and you feed that cotton its most necessary plant nutrient. NIPAK mixed fer-

tilizer in the moisture-proof bags or in bulk can save you time, money and labor. Helps you produce \$6 in cotton for every \$1 invested in NIPAK (Based on Southwest experiment station tests, this is an average return. You may produce higher yields.) NIPAK mixed fertilizer is formulated to contain the amounts of key plant nutrients required by your soil

after testing. So for more grow power, ask your local NIPAK dealer about NIPAK fertilizer. He can help you plan a complete fertilizer program because he can provide a complete fertilizer service.

Gov. Proclaims April Cancer Control Month

Gov. Connally proclaimed April as Cancer Control Month in Texas, saying, "In a state as young and strong as our own, it is no false dream to expect a lifetime free from fear for each of our citizens."

Explaining the size of the cancer problem in Texas, Gov. Connally stated that cancer not only eventually strikes one in every four persons, but each year kills more school-age children than does any other disease.

"The great hope for a future that will see the cure, or even the prevention, of cancer, lies within the realms of bio-medical research," the Governor said.

The American Cancer Society spends 33 per cent of its funds raised on research; \$761,257 went to Texas medical schools and hospitals in 1965 alone.

Giving firm backing to each of the 70,000 volunteers of the Society, the Governor concluded, "The American Cancer Society, pledged to continue a vigorous and selective research program within the borders of our state and across the nation, deserves our complete support."

Instructor And Leadership Training To Be Given By American Red Cross

Instructor and leadership training in water safety, first aid and small craft will be offered this summer at American National Red Cross Aquatic and

Small Craft Schools in nine mid-western states.

As more and more American families explore water recreation possibilities each year, the Red Cross Water Safety program—now in its 52nd year—sees an ever-increasing need for trained instructors in swimming and boating.

The aquatic schools, to be held in Illinois, Iowa, Michigan, Missouri, Oklahoma, Texas, Indiana and Minnesota, are designed to train Red Cross Water Safety instructors. The curriculum includes swimming, lifesaving, basic small craft safety and first aid. Leadership training in the organization of camp, community and swimming pool aquatic programs is also provided.

Four of the aquatic schools will offer elective courses in handicapped swimming; two, optional courses in canoeing for instructor training; two, electives in competitive swimming; and two, optional courses in boating for instructor training. Outstanding volunteer aquatic

and safety experts make up the faculty. There is no charge for instruction; the students pay only for room, meals and individual supplies.

Enrollment is open to both experienced instructors and prospective instructor candidates, age 18 or older. Application may be made through local Red Cross chapters or through American National Red Cross, Midwestern Area, 4050 Lindell Boulevard, St. Louis, Mo. 63108.

Locations and dates for 1966 schools are: Lake Murray State Park, Camp No. 2, Ardmore, Okla., June 1-11; Lone Star MV Camp, Athens, Texas, June 5-15; Southern Illinois U., Little Grassy Lake Campus, Carbonate, Ill., June 12-22; Camp Lamberlost, Purdue U., LaGrange, Ind., June 12-22; Lutheran Lakeside Camp, Spirit Lake, Iowa, June 12-22; Camp Oniyesa, Holly, Mich., June 15-25; Camp Courage, Maple Lake, Minn., Aug. 21-31; Camp Wah-Kon-Dah, Rocky Mount, Mo., Aug. 22-Sept. 1.

We realize the laudable part Churches play in community life their contribution in both a spiritual and material sense toward community welfare and common good. The Churches, their teachings and their membership exert a tremendous influence that touches every home and every business. This function they have in common with our schools, civic bodies and other organizations. All of whom through various methods perform services for the good benefit of all . . . In recognition of these splendid ideals and achievements of the Haskell churches, we urge everyone to attend Church services.

Burleson Makes Statement Election to Congress

ed by the Congress, except in the field of National Defense," Burleson said.

"When it comes to the defense of this Country, I have always voted for those things calculated to make and to keep our Nation stronger than any other in the world," he said.

Burleson said he feels there are those other things for which the Government was designed, and, of course, it costs money. "Such things as the conservation of our natural resources—caring for God's gifts to people that they may be preserved for future generations," he said.

Burleson also said that the individual, groups of individuals or local governmental entities are unable to cope with matters of flood control and, in many cases, an adequate water supply. "We have got to look to the future if our area progresses. For one thing, this means water is a priority concern."

"The Federal Government has assisted our area in numerous respects in coping with some of these problems. We have our share of flood control projects and our share of attention to those now in the planning stage. An example is the effort to find an answer to the flood threat in Abilene and several other places.

"An example of other Federal activity in our area is, of course, our military installations, new Post Office buildings and other Federal interests which are proper and needed."

Further, Burleson said that he "certainly subscribes to the idea that the Government should help the elderly and those people who are unable to help themselves."

Burleson has been an implacable foe of the constant encroachment of the Federal Government into the area of State and local affairs.

"As the Federal Government has grown to its colossal proportions, the threat of centralized power in Washington has increased," Burleson pointed out. "To this, I am opposed, as my actions have proved."

"Big Government and high taxes are the result of many activities of the Federal Government which should be reserved to the States. Big Government with its far-flung operations has created needless waste and extravagance."

Burleson stated he was proud of the "trust and the confidence placed in me by the people who send me to Congress—and to violate that trust in any respect would be unthinkable."

He urged residents of the 17th District not familiar with his background of service to investigate the record he has made — "And if you believe I have been faithful to duty and worthy of your continued support, then your active participation in my campaign will be greatly appreciated."

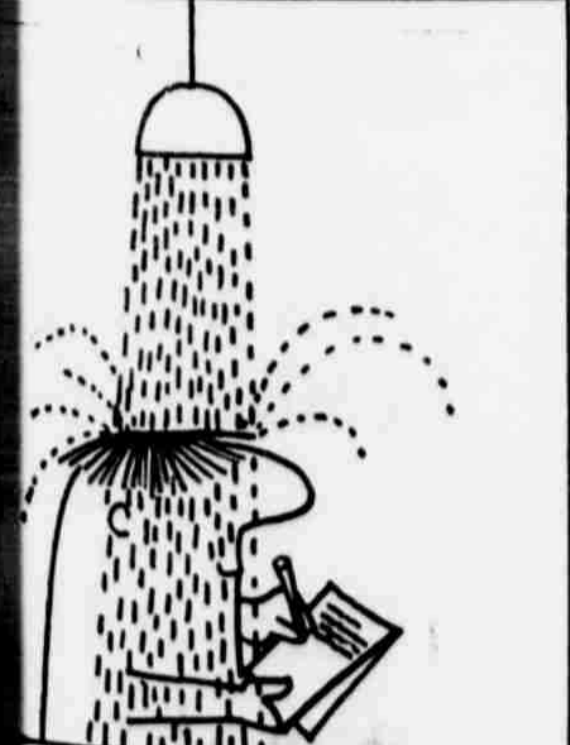

Well-known throughout Texas Burleson is a native of the 17th District. He was born and raised on a farm between Anson and Stamford in Jones County. He attended rural school, and graduated from Anson High School. Following graduation, Burleson attended Abilene Christian College, Hardin-Simmons University, and graduated from Cumberland Law School. Later, he studied post-graduate law at the University of Texas.

Burleson married Ruth DeWeese, daughter of Rev. R. D. DeWeese, who pastored Baptist Churches in West and South Texas.
