### **"SCOUTS OF THE WORLD BUILDING TOGETHER"**

Nearly 2,000,000 Cub Scouts, Boy Scouts, and Senior Scouts will mark the 36th anniversary of the Boy Scouts of America during Boy Scout Week, Feb. 8th to 14th. The theme of the celebration is "Scouts of the World—Building Together." Members of the Move-ment are helping brother Scouts throughout the world to reorganize. Their "World Friendship Fund" of voluntary contributions and their "Shirts-Off-Our-Backs" project of donating Scout Uniform parts and equipment, will assist Scouting overseas and help develop understanding among the boys of the world. Above is the official poster marking the event.

The end of hostilities was supposed to bring peace to the world. ### KEEP AT IT

Men overseas in occupational forces are still in need of that old morale-builder known as letters from home. And so well do we know this that these Burkburnett families who have a boy over there need not be reminded. But there has been a hitch along the line and there are many complaints from overseas that mail is very slow, in fact the patient wait is pathetically longer than is understandable. During the war the government kept the mail moving as quickly as possible since they considered this a major duty. It is still necessary. Those of us who faithfully correspond with these homesick lads want them to get their mail. There should be no let-down in the delivery service of the soldier's news from home.

### War Bond Sales To Continue As U. S. Savings Bonds

War and Victory Bonds will now be known as United States Savings Bonds, Nathan Adams, Chairman of the Texas Advisory Committee, Savings Bond Division, U. S. Treasury Department, said today in announcing that the program for selling government bonds and stamps will continue.

He added, "We can be sure that these bonds are still the best and safest investment in the world, and if we consider only one benefit derived from the war financing program, this being the habit of saving, it would merit the continuation of the program.

The Chairman added, "The benefits of the war financing program are many, and in addition to creating the habit of systematic saving, it taught many of our citizens the value of personal security, and has helped combat the rising inflation.

## Kathleen Norris Says:

You Have to Take Something

Bell Syndicate.-WNU Features.

"Be happy. Accept the dark with the bright, and rejaice if you can lift your problems up and out of the great national sum of trouble."

### By KATHLEEN NORRIS

THERE is not a woman in the length and breadth of America, at this moment, who is not putting up with some circumstance that

up pretty well when the fever NTED-MEN, WOMEN was high and the symptoms so dangerous that it seemed as if we mightn't recover; now we're in for the trying, exacting, pettish, quarrelsome, bored, tedious time of convalescence, and it's going to take whatever we can muster of courage and character.

Young wives with small babies are absolute slaves these days, either tackling the herculean jobs of dishes and didies, playtime and mealtime, marketing and cooking, beds and dust, telephone and nose colds-all by themselves, or paying a good round dollar an hour for not too ef-

Mothers and fathers of boys just back from service are learning. with heartache, how deep the worldpoisoning penetrated into the young hearts, how hard it is for the boys to take up civilian jobs, to fit themselves quietly into civilized living

Everyone is Worried.

Doctors are overworked to the dropping point. Business managers are harassed by the irreconcilable margins between ceiling prices and rising wages. Strikes are darkening thousands of households. Hospitals are full of physically wounded boys struggling back to life and to usefulness, and of boys more seriously wounded - wounded in soul and mind, who in puzzlement and darkness must somehow work their way toward the light.

So for goodness sake pick up your own share and carry it, and make light of it, and help us all get through! Don't complain that your husband never praises you, or that he doesn't tell you about his business, or keeps you short of money, or takes an interest in other women, or talks rudely to you when he's had a drop too much, or does-or doesn't do-a thousand other things that nag at you like midges all day and keep you from being happy.

Be happy. Accept the dark with the bright, and rejoice if you can lift your problems up and out of the great national sum total of trouble, and establish a household financially sound, affectionate, capable, harmonious. We need a million of them-we need 10 million-we could use 40 million.

If 10 million women suddenly waked up to their blessings, decided to ignore their trials or disadvantages or privations or unsatisfied de res, decided to shoulder the load and go straight ahead uncomplaining toward the goal of prosperity and happiness that is right ahead of us-how much faster we'd reach

### Gloomy Grandma.

Betty Van, for example. Betty is all hot and bothered because Van's mother lives with them. Betty has babies, aged five and three, and eight months.

"She is wonderful with the children," writes Betty, "and of sourse does a lot in the kitchen, and honestly I think I could be fond of her

### LAUGH OFF TROUBLES

Practically every woman in the country has to endure some difficulty. Sometimes it is a little thing, like a small, crowded apartment, or lack of help. Or it may be a crushing burden, like a mentally or physically sick husband, who has been ruined by war. There is a tension everywhere, a sense of bitterness among large groups, of frustration and disillusionment. Women who have only minor troubles should count themselves among the blessed.

Betty Van, for example, has almost everything; a good home, loving husband, three children. Her husband's mother lives with them, and helps a lot in the kitchen and with the children. This is all splendid, except that the old lady has a sad outlook on life. She wants to tell dreary tales of sickness and death, hardships and accidents. Betty is afraid she will depress the children, and make them morbid and

neurotic. Miss Norris assures Betty that there is little danger that youngsters three to five years old will be affected by gloomy stories. The little ones cannot understand, and wouldn't care if they could. At that age they are interested only in themselves. On the other hand, they will benefit greatly by their grandmother's care and instruction. Betty is fortunate to have such a willing and able helper, adds Miss Norris.

if she wasn't so gloomy. I'm afraid it will affect the children. She wants to talk of sick-beds and sorrows and what happened to her friends in the way of sudden death and dreadful accident, and every the names in the list of deaths. Do this dismal outlook: I am naturally cheerful and optimistic, and so is Van. but sometimes I'm afraid (Exod. 12:12, 13). she will pull us all down to her level. And yet it would be frightfully hard to tell Granny that we wanted her to live elsewhere."

No. Betty, it won't affect the children, and it's for you rather to cheer the old girl up with attentive interest in her sad tales, and hopeful comment wherever you can put it in. You have in her a devoted cook and nurse, one to whom the children's safety is dearer even than to you, and any young mother you know would envy you.

We had a nurse years ago who used to take us to the nearby graveyard and let us play there, month out and in, while she worked on a special shroud that 'she was eventually to wear, and that was supposed to have some mystic merit. We took deep interest in the shroud and loved the gravestones where we played house, ship pirates, circus and everything else that suggested life and youth. It's a lucky man who has his mother under his roof, living in harmony with his wife, and keeping a loving watch on his children, Hold on to your luck!

### Cautions About Bluing

Bluing is sometimes used in an attempt to cover or camouflage vellowness or dinginess caused by poor washing methods. Careful washing it must be handled with care to tion while they are in it. It is safest to dip the garments in the bluing water a few at a time; never let them stand and soak

### FEAST DAYS OF A PEOPLE

LESSON TEXT — Leviticus 20:7, 8; 23:4-6, 15, 16, 24, 27, 28, 34, 39-44.

GOLDEN TEXT—The Lord hath done great things for us; whereof we are glad.—Psalm 126:3.

God wants His people to enjoy their religious life. Being in fellowship with Him is not something to dampen one's spirits, but rather to give joy and enthusiasm full liberty. Even with Israel in those early days when Christ had not come and they had only the promises and types of His coming. He arranged for regular religious feasts or festivals which brought the people together to worship Him.

One can well imagine the delightful fellowship as friends, acquaintances and especially relatives from various places went up to the feast together. Personal joy was heightened by the great spiritual joy which they shared.

The obvious lesson for us is that we who know Christ and have peace and liberty in Him should enjoy our Christian anniversaries to the full in a manner well-pleasing to Him. We need such occasions to renew our faith, to quicken our joy, and to cause us to remember God's grace and His blessings.

The first of the assigned Scripture passages does not directly relate to the feasts of God's people but rather speaks of:

I. The Holiness of the Lord (Lev. 20:7, 8). God is holy and His people in their earthly walk are to show that they have been sanctified by Him. This involves a separation from worldly practics and an eagerness to do

the will of God. Keeping the statutes of God should be the delight of His people. not a burden or a trial. There is real liberty in conformity to law. Holiness makes for freedom and fruitfulness.

Now we turn to the consideration of the feasts of the Lord. In selecting the verses two of the feasts were omitted, so we shall include Leviticus 23:3, 9-12 with the others assigned.

II. The Feasts of the Lord (Lev. 23:3-6, 9-12, 15, 16, 24, 27, 28, 34, 39-44).

This is one of the great chapters serts. of the book of Leviticus presenting both practical and prophetic teaching. The holy "feasts" and the "set times" of Israel (which we shall consider under the one heading of "feasts") were for their spiritual also reveal God's prophetic purpose for both Israel and the Church.

1. The Sabbath (v. 3). This is not strictly considered one of the feasts but a set time-a holy convocation to be held after six days of labor. It is the type of the rest that God has in mind for His people. (See Heb. 4:1-11.)

A word of admonition is in order regarding America's awful disrespect for and misuse of our day of rest-the Lord's day. Is it not time we did something about the desecration of Sunday?

2. The Passover and the Unleavened Bread (vv. 4-6). These could be considered separately but they morning she sighs and reads Van are closely related. The Passover spoke of the Lamb of God who was you suppose my children will catch to shed His blood on the cross, even as it pointed back to redemption by blood on that dark night in Egypt

The unleavened bread speaks of holiness. This is not the result of "servile work" (v. 8), but a showing forth of faith in the offering oy fire.

3. The Firstfruits (vv. 9-12). Just as the one sheaf was waved before the Lord as the earnest of the harvest, so Christ in His resurrection is the firstfruits of them that sleep in the grave. (See I Cor. 15:20-23.) Note that it was waved "on the morrow after the Sabbath" (v. 11), which is the resurrection morningour Sunday. What a blessed thought!

4. Pentecost (vv. 15. 16). Fifty days after the feast of firstfruits came a new meal offering; two wave loaves are presented before the Lord. This new meal offering speaks of the believing people of Christ, and so it came to pass that it was on Pentecost that the Holy Spirit was poured out on the Church (Acts 2:1-4), just fifty days after the resurrection of Christ.

5. Trumpets (v. 24). This looks forward to the day when God shall call His people Israel in the latter days. This will bring them together for the great day of 6. Atonement (vv. 27, 28). On that

day Christ shall take away the sin of His people (Zech. 13:1), and they shall be prepared for the crowning and layous feast of 7. Tabernacles (vv. 34, 39-44), This

was the great feast of ingathering and rinsing to insure a white wash of the products of the year. Israel are effective. When bluing is used, then dwelt in booths to recall their days in the wilderness. It was avoid streaks and blue spots. Mix a time of full rejoicing, when sore the bluing in the water just before row and crying were put away. It using, and keep the clothes in mo- is the type of Israel's ultimate restoration and full blessing.

### "I WAS A VICTIM OF CONSTIPATION!"

"Found Relief In Famous Breakfast Food," User Writes

Suffer from constipation? Then read this unsolicited letter!

"I was a victim of constipation for many years, trying all sorts of medicinal remedies, but to no avail. Then I tried KELLOGG'S ALL-BRAN, and after the first trial experienced relief. I now eat KELLOGG'S ALL-BRAN every day as part of my regular diet. The sufferings from constipation have vanished and I amount of the suffering from constipation have vanished and I amount the age of 26. I am passing this news along so that others who are suffering may find relief." Mrs. Beatrice Meyer, 261 Hawthorne Ave., Newark, N. J.

You, too, may never need another harsh laxative, if your constipation is due to lack of bulk in the diet. Just eat a dish of delicious KELLOGG'S ALL-BRAN every day, and drink plenty of water. If not satisfied after a 10day trial, send empty carton to Kellogg's of Battle Creek-and get double your money back! ALL-BRAN is not a purgative. It's a wholesome food made from the vital outer layers of wheat. It provides gentle-acting bulk, which helps promote normal laxation.

### Settlement of Steel Strike Basic to Industry; Plan to Revive Essential German Output

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

#### LABOR: Basic Dispute

A settlement of the steel case portended early solution to a whole string of major strikes affecting basic industries and promised speedy resumption of large-scale production since reconversion has been reported as already 90 per cent com-

pleted. In stepping into the steel dispute to prevent a shutdown of the nation's mills supplying vital material to American industry, President Truman proposed a settlement on the basis of a wage increase approximating 16 per cent and a price boost to operators in the neighborhood of \$4 a ton. Though representing a compromise between the two parties, the offer fell below the CIO-United Steel Workers' minimum demands and also ignored their position that price raises were

unnecessary. Because solution of the steel controversy would enable industry to accurately estimate costs partly based | ters in Hawaii. on steel prices, an early settlement of the automobile and electrical appliance walkouts was expected to

Though the government gave in to the packers' demands for higher ceilings in an effort to avert a walkout threatening the nation's meat supply, its original offer of raising the price on semi-processed meat sold to the U.S. was rejected on the grounds that there was no assurance of a large volume of purchases.

Following his exposition of the new demobilization program, Eisenhower announced that he had banned further overseas demonstrations by troops on the question, though protests from G.I.s were to be passed on to the top. ### **Buck Outsiders**

Carrying banners proclaiming that "We Can't Live on Promises," "We Fought for the U.S. A. and Now We're Discarded," and "Welcome Home for What?" World War II vets picketed every mine about Lansford, Pa., in a drive for jobs held by outsiders who accepted employment in the pits during the war years.

While thousands of United Mine Workers in the area refused to cross the ex-G.I.'s picket lines, officials of the Edison Anthracite Coal company refused to discharge outsiders just because they were not born in the district, claiming that it would be liable to lawsuit. Many of the demonstrators had never been previously employed, Edison having rehired all old employees discharged from service.

Despite UMW admonitions against acting against union members, various locals in the area passed resolutions that all outsiders who accepted employment in the mines since January, 1940, or opened businesses in the district were to leave. In formulating their demands, miners declared that since the pits were the principal source of employment about Lansford, hiring of outsiders seriously crimped job opportunities for town residents.

### Frozen Hopes

Saying what a man earns, expressing it in cents per hour or dollars per year, does not tell much many things that change from time place. Prosperity depends, in very large part, on what people must pay for the things they need and

Putting the conveniences and luxuries of life in reach of a large number of people helps to build a nation's prosperity. Franklin's discovery of electricity became a great discovery when electric lights began costing less than oil lamps. The automobile became a great invention when cars were priced down where only rich people could afford to own carriage horses.

Paying for Service Plain people pay richly for favors; plain people are so many. Names like

did a real service for a lot of plain people. It is because they hoisted E. College. a wholesome standard of living in a have done the same thing on a smaller scale and profited hand-

Actually, the thing that inspires mechanical inventors to invent, the to explore, is the chance to earn from a free people the rich reward for a valuable service. Once upon a time in the United States of America men who had ideas could afford to develop them. They can't do it now. How I hope those days soon

#### Big Ideas on Sale

Edison, McCormick and Ford didn't need to hawk their ideas, neither did Bissell, Denton, Parker and O'Sullivan, but Foster Gunnison had to sell his. Gunnison's inventions came later. Do you ask, "Who is this Gunnison man?" Well, he is a great inventor, not yet famous. But, unless I miss my guess, he is America's post-war Henry Ford.

Gunnison invented a prefabricated house and worked out a plan to build it in mass production. His units were scientifically constructed, insulation built in, thoroughly modern in every detail. Individually, his Road house models are so different that a tourist might drive past 100 of them in a row and never guess that they were drawn by the same architect.

Alike and Different I could talk for hours about Gunnison houses. They come in eight sizes with great variety in looks. They are far better than any house Hamilton, 3rd house East, botpossible to build of old-line materi- tom Bridgetown hill. als in any community for the same money. They have everything from bathtub to garbage grinder, economy and convenience; a poor man's palace, amortized to \$1 a day. But the inventor sold to the U.S. Steel Corporation.-Why?
