COST OF 'FREE LUNCHES'

How much do we really know about economics? John T. O'Connor, the Secretary of Commerce, recently offered the view that the sum of our knowledge can be started in just nine little words: "There is no such thing as a free lunch."

It would seem that a great many people should be learning the truth of that now. We have been given more and more alleged free lunches, in the form of all manner of welfare schemes and programs. But the bills are beginning to be presented to us, in various forms. For one thing, the Social Security tax on a worker earning \$6,600 a year or more has just been raised by Rule Tuesday. over \$100 a year, and the employer must contribute a similar sum. For another, the President has asked Congress to repeal certain reductions in federal excise taxes, on universally used commodities and services, that went into effect very recently. For still another, there is a growing feeling that the Administration may be forced to request increases in income and corporation taxes. And for still another, price inflation, which in large part is the result of the government's deficit spending, continues to eat away the dollar's value.

"Free lunches" turn out to be mighty expensive.

YOUR DOLLAR'S VALUE

How Real Is Inflation In The U. S.?

That is the title of an article in a recent issue of the U.S. News and World Report. It is accompanied by a full-page chart which makes informative and woeful reading.

Assume that the 1955 dollar was worth 100 cents. On that basis, your present food dollar has lost 15 cents in value; your rent 13 cents; your home-building dollar 20 cents; your college cost N. I. McCollum, Lynn Pace, dollar 24 cents; your auto repair dollar 20 cents. So it goes, down Oscar Oates, Jess Collier, J. W. the list of the things we use and buy.

All-in-all, the magazine says, your cost of living dollar has lost 15 cents in its buying power over a mere 10-year period. It doesn't take an expert in higher mathematics to figure out what will happen if that trend continues...or, worse, accelerates,

And accelerate it undoubtedly will if the creation of huge def- Friday morning east of town. icits continues. The big domestic question now is whether or not. Many Oldsters Are Choosing Medicare After 1st Refusal

Thousands of people across the country who previously said they did not want the medical benefits under social security, or were undecided, are now electing the coverage that will help pay doctor bills, according to R. R. Tuley, Jr., social se-curity district manager at Abi-

One reason for the change, Tuley stated, is a recent announcement by a number of insurance companies. They have urged all their policy holders over 65 to enroll for Medicare. They have also announced that they will provide a new policy for those over 65, at reduced replacing those now in effect. The new policies will supplement the coverage provided by Medicare.

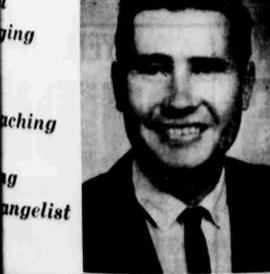

"Anyone over 65 who has previously said he did not want or was undecided about this coverage has until March 31st to enroll," Tuley has announced. "A simple card form for enrollment is available at the social security office, Room 2321, Federal Building."

ELDON MAHON

Eldon Mahon, Abilene attorney and businessman, has issued the following statement concerning his candidacy for the office of U. S. Congressman from the new 17th District:

"I feel that there is a definite need for a change in our district's representation in Washington. If I didn't feel this way Our goal there is to stop agand if I had not found a substantial amount of agreement among voters with whom I've talked - I wouldn't be making seek their own destiny.

"My reasons for feeling that Texas, son of a pioneer West we need a change are based on Texas family and a graduate of my belief that our district has McMurry College and the Uninot always been represented in versity of Texas, the past with the kind of initiative and enthusiasm I think is Judge and District Attorney. I believe that too much control of our government's affairs has passed out of the hands of Congress, and into the hands of the regulatory and administrative agencies. This authority, which has been lost by default, must be re-claimed by the Congress. The trend of surrendering authority to agencies and commissions - who are supposed to administer the laws instead of make them-should be halted. I think it is time that Congress recognize this usurpation of its power and authority for what it is: government by bureaucracy. When Congress loses its authority, then the people lose theirs, for Congress is the voice of the people

One of my most important objectives is to get something done about our district's water situation. There is no greater problem facing the new 17th district than the need for adequate water, now and in the future, I will work for and supany feasible legislation that promises to create greater water resources for our area. Such legislation is a must, because we don't have enough water as it is, and to neglect it further would be to compound a tragedy. The problem is of such magnitude that it is going to require great study, imagination and vision to solve it. I, for one, am ready to begin,

'Farming is another area in which something must be done that would be of direct benefit to our district. I believe that the present Omnibus Farm Bill places too much authority in the hands of the Agricultural Department and its Secretary, Initial activity of Texas Busi-ness and Professional Women's A glaring example of this is the arbitrary policy ruling by the Department which changes skiprow planting in such a way that it works a great hardship on most of our district's farm-If elected to Congress, I will start working at once to get skip-row planting rules amended so that our farmers can engage in the kind of farming that is most productive and profitable for them.

The oil and gas industry is, of course, vital to all of us in the district and as a Congressman-I would support legislation aimed toward putting it in a healthier condition. Oil and gas is a prime business an in-dispensable business and contributes heavily to the welfare of the district. I am in full ac-

Pesticide Use, Other Considerations Relating To Interplanting of Crops

By F. W. MARTIN, County Agent

Tas cotton program for 1966 as embodied in the Food and Agriculture Act of 1965 permits many skip-row patterns and the interplanting of certain crops. In determining what patterns to follow there are a number of factors to be considered. The net profit per acre is of prime importance; but, for inter-planting of different crops, the compatibility of production practices must also be consid-Pestitcide Precautions

Haskell Band Attends Festival At Sweetwater

On March 5th the Haskell High School Band, after long hours of hard work, attended the Sweetwater Band Festival. There they proceeded to play three concert pieces for the USL Contest to be held in April. These three pieces were "Themes from Symphony No. 6" by Tschaikowsky," "A Santa Cecilia" by Radaelli and "Norwegian Folk Song Suite" by Frank Erickson,

The purpose of this festival was to give criticism on pieces to be played for USL contest. The festival consisted of the playing of concert pieces, sight reading and a parade of all the bands afterward.

In the near future the band will attend a band clinic and a trip to Vernon, to participate in the USL contest.

across the state, having served as the supervisor from this district in the Department of Education. She worked unceasingly for free textbooks for Texas schools. Noted for Motto

For over half a century, Miss Murfee became known among teaching circles for her motto, "Every child may be saved to useful citizenship if the right person is there at the right time and nine times out of ten it is the parent or the teacher." She first taught in the Lubbock county schools in 1905 at the Block 20 School of Slide, was recently honored at second annual reunion of

that school. In 1914 she became the first woman principal of Lubbock Junior High School, after having taught several years in the junior high grades.

ISL Pioneer Later, as head of the history and government departments at Lubbock High School, she obtained the first state credits of affiliation for the school in those fields. She also was responsible for bringing the Interscholastic League to the Lubbock institutions. Using her own books, she started the first library in Lubbock high school and was outstanding in visual education here.

As the county official she was outstanding in bringing state recognition to Lubbock institutions and helped in organizing the Parent-Teachers Association

If the first part of your vehicle identification number is here, you might be a winner.

Here's how it works. Look at the first symbols (the prefix) on your vehicle identification slip. Then look at the symbols listed above. If you find yours on the list, you've taken the first step toward being a winner. Now go see your Buick dealer. He has a list of 72 winners posted in his showroom. If you see your entire vehicle identification number on the poster—the symbols plus the rest of the numbers—\$2332 cash is yours. (If your prefix isn't listed in this ed, don't give up. Your numbers may have been posted during the past few weeks. And every week there are 72 new winners posted on the showroom wall. So watch for next weeks list of new symbols in this newspaper.) Contest Rules. Residents of Kanas. Missouri and Nebraska may, if they prefer, send in a postcard to R. L. Polk and Co., P.O. Box 1347, Detroit. Michigan 48231 and receive the weekly list of winning numbers by mail for comparison with their own vehicle identification number. An official entry form will be included. Sweepstakes limited to persons over 21 living in the continental U.S. Not valid in Florida or states where prohibited by law.
