Fire Destroys Farm House Near Weinert

A four-room farm house, two miles north of Weinert, was completely destroyed by fire around 6:00 a. m., Sunday.

The house was owned by T. E. Reeves of Weinert, who had recently moved his family into a new house built near by.

Reeves said the frame house destroyed by fire had some furniture stored in it. He estimated the loss around \$1,000.

Firemen from Haskell, Monday and Weinert answered the call.

Fire Damage Is Heavy At Double A Drive-In

Fire gutted the kitchen area and did heavy damage to equipment at Beth's Double-A Drive-In, 1103 North First Street around 3:00 a. m. Sunday. The business is owned and operated by Bob Edwards.

Edwards said he had closed the Drive-In at 1:15 a. m., Sunday, less than two hours prior to the outbreak of the fire. He estimated damage between four and five thousand dollars. The dining area received only smoke damage.

Quick work of the Haskell Volunteer Fire Department, brought the fire under control and saved the building.

Fire Chief, Tom Watson, said the blaze originated from a deep-fat electric fryer in the kitchen.

Leon Ivey turned in the alarm on the Double-A Drive-In fire.

A two-car collision around 9:30 a. m. Sunday near the Catholic Church about one mile Northwest of the Courthouse square, hospitalized Mrs. Henry Harris, 36, of Haskell, and her daughter, Peggy, 8, for treatment of painful but not serious injuries.

Jirek said the Harris car was totaled and the Gonzalez vehicle was heavily damaged.

Mrs. Harris received bruises about the body, and Peggy, a deep cut across the nose.

The Harris family was enroute to church at the time of the accident.

A Holden-McCauley ambulance carried the injured persons to the hospital.

Longtime Employee Of The Haskell National Bank Will Retire Dec. 31st

NETTIE MCCOLLUM

Miss Nettie McCollum, an employee of the Haskell National Bank for 46 years, tendered her resignation, effective as of December 31, 1968, at a meeting of the board of directors of the bank, November 14.

Haskell National Bank president, Roy Johnson, said: "The board accepted Miss McCollum's resignation with regret, as she has been a faithful employee of the organization."

Twenty-five years of that span of 46 years, Miss McCollum has held a position as an officer, and at present is serving as assistant cashier. She

joined the bank's staff in 1923 in the bookkeeping department, later advanced to Teller and then Assistant Cashier.

"I have been engaged in banking most all of my life and I have enjoyed every minute of it," Miss McCollum said.

Miss McCollum is the daughter of Mrs. N. I. McCollum and the late Mr. McCollum, pioneer Haskell County family, who came here in 1906.

Miss McCollum is a graduate of Haskell High School; attended Hardin-Simmons University, North Texas State Teachers College, and worked in a Breckenridge bank prior to joining the staff at the Haskell National Bank.

Upon resignation from her banking duties at the end of this year, by no means will she take life easy, as she will continue with her many, many community civic activities.

She is a charter member of the Haskell Business and Professional Women's Club, and is serving for the second time as president of that organization. She is a life member of the Magazine Club, member of the First Baptist Church; member of the National Association of Bank Women, and at present is serving as treasurer of the Haskell County Heart Association.

"Miss Nettie" will be definitely missed at the bank, but will continue with her civic duties for the betterment of the community.

Santa Claus And World's Largest Sleigh Coming To Haskell Dec. 7

Santa Claus is coming to town! The old gentleman from the North Pole will bring his giant 30-foot sleigh, "The World's Largest Sleigh," to Haskell, Saturday, December 7th, to take all the children for a ride.

The big sleigh is bright red, trimmed in silver, and can accommodate 60 children on each ride, according to Rex Felker, Chamber of Commerce Manager. Six Shetland ponies, dressed in chrome-plated harness, bright red plumes and sleigh bells will pull the world's largest sleigh.

A personal interview by Santa with each child has been arranged. Concealed speakers on the sleigh will broadcast each interview throughout the business district. Beautiful Christmas music will also be heard continuously in the background, as Santa, with his sleigh loaded with happy children, rides through the streets. It will follow a designated route, selected by the local committee.

Miss Merry Christmas and a complete crew, all in costume, will accompany Santa on his visit here. Merry will be Santa's official hostess on the sleigh.

Large crowds are expected to be in Haskell, December 7th, to see the spectacle and bring their children to participate.

Goodfellows are dependent upon the generous hearts of Haskell people in helping fill the Christmas baskets to be distributed to the less fortunate families in our community.

Because of circumstances beyond their control, a number of families in Haskell will be denied any semblance of holiday happiness unless the Goodfellows can provide it for them.

Wholesome food, candy, fruits and a few toys, where there are children in the families, will be the principal items to go into the holiday baskets that Goodfellows will distribute at Christmastime.

You can be a "Goodfellow" by sending in a contribution today to help fill the Christmas baskets.

Donations may be left at the Haskell Free Press, and as has been the custom in the past, the list of contributors and the amount given will be published in this newspaper each week.

Goodfellows are asking for contributions earlier this year, so that they may know in plenty of time if enough money will be on hand to purchase items to fill the baskets.

Last year many persons waited until the last minute to contribute and Goodfellows were in doubt only a few days before Christmas as to whether enough funds would be available to carry out the project.

Mr. and Mrs. W. D. Larned, John and Joe Larned and Mrs. Maevie Larned attended the funeral services of Mrs. A. A. Sanders last Thursday in Franklin, Texas.

COMMUNITY ACTION CENTER IS ASSURED FOR HASKELL

Felipe Arredondo, Chairman of the Community Action Program Board of Directors, opened the fourth public meeting on Monday night with the announcement that a building has been secured to house a neighborhood center. Formerly the E. B. Evans Elementary school, the facility is located in the northeast part of Haskell. City and County officials have generously agreed to provide material for needed repairs. Volunteers will have the opportunity to do the work. With this development the Community Action Program in Haskell County under the auspices of the Office of Economic Opportunity, is on the way to become a reality in the lives of people who shall benefit from it.

The Monday night meeting in the District Court Room was well attended by interested citizens as well as a quorum of the CAP Board of Directors. John Stripling, Director of Community Development from Abilene, explained that the program is a better concept of dealing with the problems of the disadvantaged because it seeks not to "hand-out," but to help out. Among the possibilities for action is a day-care center for small children of poor working mothers. To prevent high school drop-outs, help may be developed through some financial aid via part-time jobs or the channeling of youths in-

to learning programs available under CAP in Abilene or Sweetwater. Citizenship, illiterate classes and elementary home-making skills such as cooking and sewing may be taught.

Arredondo stated that support for the intentions of this program in all areas of the county is very good. The public meeting was then adjourned.

The CAP Board of Directors remained in session to screen 25 applications for the position of coordinator and two aids. As stated earlier, applicants should ideally come from the ranks of the people the program is to benefit. Presently come of applicant households should not exceed \$3,500 per year in a family of six. Once hired, the coordinator and the aids will be trained by an experienced CAP director out of the Abilene OEO.

Six applicants present at the meeting were interviewed by the Board of Directors. Other eligible applicants will be notified by letter to come before the board in their next meeting, Nov. 25, at 7:00 p. m.

It is the desire of the members of the CAP Board of Directors to give these three jobs to persons whose service will be marked by dedication and integrity, and as Arredondo eloquently expressed, "persons who are willing to earn the respect of the whole community."

Haskell Well Represented At FTA Convention

Mrs. Luther Burkett, Advisor; Mrs. H. V. Woodard, Pam Harris, Rhonda Woodard, Janis Wall and Joan Williams, of Haskell, were in Sweetwater last Saturday attending the District Future Teachers Convention.

Rhonda Woodard was elected recording secretary and was also first runner-up in the Miss FTA District Speech Contest.

Pam Harris was named as a delegate to the State Convention to be held in Austin in February.

Mrs. Burkett said that approximately 280 members attended the convention.

Bruce Reed, Cooper High School sophomore, of Abilene, was elected president by acclamation of the newly created Oilbelt District 14 FTA for the 1968-69 term and Cathy Clay, Cooper High School senior, was chosen by the judges as district "Miss FTA" and will compete in the state contest in February. Bill Perdue of Sweetwater was named "Mr. FTA."

Keynote speaker for the opening assembly was state FTA advisor, Bob Keck.

One of the wildest and woolliest games of the season was reeled-off here Friday night when the "never say die" scrappy Indians and the Pied Pipers of Hamlin town battled it out to a 34-34 tie in District 7-AA.

The final game for both teams saw two 80-yard scoring kick-off returns by the Mighty Indians and the outcome of the contest was not prevalent until the final whistle.

Hamlin crossed over into the promised land first in the opening quarter on a two-yard run by half-back Spencer Ford. Quarterback James Asher, who scored three touchdowns during the night, kicked the extra point.

Haskell then answered with the first 80-yard scoring kick-off return, if one by Gary Felker.

In the second period, Hamlin hit pay dirt for its second TD on a one-yard run by Asher. He also kicked the extra point.

Then the fireworks broke loose as "fleet-footed" Charles Franklin ran a kick-off back 80 yards for the second Haskell tally. Lanny Ivy's kick was 0-6.

Still in the second period, fullback Wayne Reeves bulldozed his way four yards for the Indians' third score, and Ivy's kick was good.

In the final period, Asher scored twice for Hamlin, both times on two-yard runs, then kicked both extra points.

The rampaging Indians came roaring back to tie it on two TD passes by Ivy, one for eight yards to Donald Love and the other for 10 yards to Felker. Franklin ran the two extra points, following the final tally. The final two scores for Haskell came 1:45 apart.

The Indians completed the season with a 3-2-2, and Hamlin 2-4-1.

It would be difficult to pick-out the outstanding players for the Indians but on defense Jack Smith, Glen Pogue, Clifford Campbell and Tommy Patterson stood out, and on offense Charles Franklin and Gary Felker.

Homemakers Hear Tips On Wigs And Wiglets

The Haskell Young Homemakers met last week with an informative program given on wigs and wiglets by Mrs. Geraldine Hise. Mrs. Hise, who has just recently retired from her career in hairdressing, is now employed by the County Clerk's office here in Haskell. Many of the ladies were given the opportunity to try on the different styles and hair colors. Various hints on the cleaning and care of a wiglet were revealed. Mrs. Hise emphasized that if the purchase of a hairpiece is desired, that it should definitely be a 100 percent human hair. The ladies had many questions for Mrs. Hise and the program was greatly enjoyed.

The business session brought much to be discussed. A blue ribbon was shown to the club members for having won first place in the organizational exhibit section of the Haskell County Fair. Although the Young Homemakers float did not win a place in the parade, many thanks were given to those who had helped so diligently. The bake sale, which was held on election day, was very successful. The sale was immediately followed by the selling of ads for the new Young Homemakers Cookbook which will soon be on sale. The past months have been busy and most rewarding for the industrious Young Homemakers of Haskell.

Present for the meeting were Mesdames C. B. Rhea, Ed Frauts, Adell Thomas, Ira Davis, S. P. Kuensler, Kenneth Thornton, P. C. Spenny, B. F. Cobb, R. L. Lemmon, W. B. Guess, E. L. Wyche, Mabel Overton, R. C. Couch and P. C. Spenny.

Mrs. Fareed Hassen Guest Speaker At Magazine Club Session Nov. 15

International Festivals program for The Magazine Club was highlighted by having Mrs. Fareed Hassen of Stamford as guest speaker Friday, November 15th. Mrs. Hassen has been in the States for about six weeks, being the young bride of Fareed Hassen, a well-known Stamford business man.

Before presenting the guest speaker Mrs. Sahir Hassen, director for the program, gave an interesting background for International Festivals held in the United States. To North Americans the customs of other lands from which their antecedents came, serve as an inspiration for folk festivals. A Festival of Nations has been staged regularly in St. Paul, Minnesota since 1932. The costumes of many nationalities are in evidence at these festivals.

Mrs. Hassen gave interesting points about the following celebrations: International Folk Festival, Duluth, Minnesota; International Institute of Milwaukee, Wisconsin; Annual Folk Festival in Cleveland, Ohio; and The Festival of Nations staged in Red Lodge, Montana, Detroit, Michigan and Windsor, Canada have been staging an International Freedom Festival since 1959.

Mrs. Hassen presented her niece who told of the Festivals of her native country. She said the Lebanese have much pride in providing outstanding entertainment for many thousands and because of the fine institutions of learning, there is a vast amount of talent available for casting various productions throughout the year. She gave a detailed picture of three of the most famous festivals: The International Festival of Baalbeck; The Festival of Cedars; and the Festival of Beit Edine.

The International Festival of Baalbeck is highlighted with many programs brought in from different cultures throughout the world. An unusual one being the Traverse Theater Company, the smallest theater in Britain, which has the reputation as being the most original in the world.

The Cedars of Lebanon, located high in the mountains, holds its annual festival in July. This one gives traditional programs with a legendary story acted out and sung in the native tongue. The third celebration Mrs. Hassen told about is Beit Edine. This is a castle about 200 years old and it is the home of the president in the summer. It is famous for its artistic gold decor in the architectural style of the Arab world. Mrs. Hassen also gave the names of other local area festivals: The Cherry Festival, The Flower Festival, The Apple Festival, and the Orange Festival.

Mrs. T. R. Foster told about the Canadian American Days at Myrtle Beach, South Carolina. This celebration coincides with Canadian holidays and at this time thousands of Canadians travel to Myrtle Beach. Also the Sun Festival is held at this time, too. Estimates have been that about 30,000 Canadians take advantage of the celebrations.

Mrs. Foster also gave a review of the Latin American Festival held in Tampa, Florida. This was the 42nd anniversary of the Fiesta. Color and gaiety permeates the week-long celebration. This is a real show case for Latin entertainers and musicians. The Fiesta court has made many radio and television appearances at home and abroad. Each year the Latin American Fiesta coronation ceremonies gain added color by the visits of royalty from other pageants and festivals.

Mrs. L. R. Burkett gave "Florida's Salute to the Scottish Heritage." The town, once known as Jonesboro, was changed to Dunedin which has made much of its Scottish heritage. In the years that followed many Scots joined their fellow clansmen to these shores. The games and gay affairs of 1967 encouraged many more Scottish families to take up residence in Dunedin. Today the Scottish Bagpipes reign supreme in Dunedin, Florida. The city boasts of five pipe units, and there has been an increasing demand for public appearances. The alert businessmen and other citizens realized the opportunity that lay at their doors and true to Scottish thriftiness they have capitalized on it. Dunedin is apparently a Mecca for Scots. The high school band director is from Glasgow, Scotland. His aim is to make Scottish music prevalent. March 4th, 1967, Gov. Claude Kirk declared "All Scots Day." From the opening night concert until "Auld Lang Syne" was sung, it had really been a "Ball" in Dunedin. The splendor of the spectators outruined the performers. More kills were worn than mini-skirts.

Some of Mrs. Burkett's listeners are aware of long-ago ancestors coming from Scotland and sort of made them wish they might have been a part of the 1967 gala — or at least have witnessed the fun.

The club is indebted to Mrs. Sahir Hassen for providing the charming guest speaker.

Mrs. M. R. Hemphill and Mrs. Thomas L. Ballard were hostesses for the meeting. They served a coffee plate before the program.

Stitching And Stewing

By Ruth Ann Fansler
County H. D. Agent

Your late model, but out-of-warranty, washing machine stops running. Or your high-priced and not-paid-for-yet stereo develops a high-pitched squeal. What do you do when you are sold defective merchandise?

Don't assume the seller is out to gyp you! Most manufacturers will go out of their way to make good on merchandise that does not stand up — even after the guarantee has expired.

Learn these methods on how to register a complaint properly, and you'll get results.

1. Get a written and dated guarantee on everything you buy that may develop trouble. File these guarantees in a safe, but easily accessible place.

2. Check the product closely during the guarantee period. Report in writing any trouble with it, no matter how slight.

3. Allow only authorized servicemen to examine the defective appliance or equipment. The guarantee can be voided if unauthorized repairmen tinker with the product.

4. If further trouble develops, ask for an exchange of merchandise. Don't ask for a refund at first. Try to exchange the item for a better one.

5. When returning merchandise, be specific about its faults. If possible, point out how and under what circumstances it failed.

6. Be fair. Don't try to get money back on goods that have been misused.

7. If the dealer will not make good, write a brief and courteous letter to the manufacturer, with copies of your letter to Consumers Affairs, The White House, Washington, D. C. 20580; Mr. Gale P. Gotschall, Consumer Liaison Officer, Federal Trade Commission, Washington, D. C. 20580; and the local or nearest Better Business Bureau.

Major companies do not want bad publicity, as there is a growing national concern for the fair treatment of consumers and in recent years the courts have begun to interpret in customers' favor, the legal principle known as the manufacturer's implied warranty.

An implied warranty is when the merchandise can be expected to fulfill the particular function the buyer has in mind for it.

For example, if you tell a salesman that you want to buy a food freezer especially for storing meat for long periods of time, there is an implied warranty that the freezer he sells you will do that specific task properly.

The following recipe is an excellent source of vitamin C. Maybe just the recipe you want for the Thanksgiving Holiday.

Pumpkin Cake
1/2 c. shortening
1 c. sugar
1 c. brown sugar, firmly packed
2 eggs, beaten
1 c. cooked, mashed pumpkin or winter squash
3 c. sifted cake flour
4 tsp. baking powder
1/4 tsp. baking soda
1/2 c. milk

National Farm Bureau President, Chas. B. Shuman, gave his annual address on Tuesday preceding the address by Hon. Preston Smith, Lt. Gov. State of Texas.

Purpose of Hospital Auxiliary Is To Provide Better Patient Care

The Haskell Memorial Hospital Auxiliary was organized May 1, 1963. The Volunteer Workers are known as Pink Ladies, working with the nurses and hospital staff to help make the patients more comfortable.

The volunteer floor service is the broadest area of service the Pink Ladies maintain. This area covers mail, newspaper and flower deliveries, television, telephone and library cart. Also various other tasks which may alleviate the numerous duties of the nurses. A Pink Lady will help patients in writing letters if they are unable to do so for themselves, in addition to performing numerous small gestures for a bed patient who is in that position so dependent. Their pleasure is to be of service to you.

The Haskell Memorial Hospital Auxiliary is affiliated with the Texas Association of Hospital Auxiliaries.

The purpose of this organization is to provide better patient care. This purpose shall be accomplished by interpreting the hospital services to the community through a good public relations program and by service to the hospital and its patients.

Projects: The Auxiliary is composed of ladies from Paint Creek, Rule, Weinert, Throckmorton, Rochester, Haskell. They have done much to improve the hospital by recovering furniture in the waiting room, adding new drapes and pictures. With the help of nurses and administrator, the doctors' lounge was refurbished, making it more attractive and comfortable.

The Auxiliary has helped to organize a Junior Auxiliary of sixteen members who have been a great asset to the hospital and the rest homes in the city.

The Auxiliary and Junior Auxiliary, the Candy Strippers, have sold candy to help finance the purchase of a much-needed resuscitator. This benefits the hospital greatly by allowing it to offer better service for the patient.

A park adjoining the hospital was planned by the auxiliary, picnic tables built, to accommodate visitors. Trees provide shade for moments of fresh air as well as for the beauty they are in the eyes of the beholder. Much credit here must go to the excellent maintenance department of the Haskell Memorial Hospital.

This Haskell County Memorial Hospital is owned by the taxpayers of the county. The 16-bed capacity hospital was built in 1939. In 1952 it was enlarged to a 30-bed capacity unit. An emergency power unit is now being installed which will greatly insure the safety for patients.

The patients in the Haskell County Memorial Hospital are served by three physicians, Drs. Frank Cadenhead, Jr., Joe E. Thigpen and R. E. Colbert. They provide excellent professional service, something our community is grateful for, especially in view of the shortage of medical men in so many other communities.

Haskell Memorial Hospital facilities include fluorescent overhead lighting throughout, an installation of recent years. A Telecar Cardiac Monitor also has been installed for better emergency treatment of heart patients.

The hospital must operate 24 hours a day, 7 days a week, 52 weeks a year. The quality of hospital care in a community is the joint responsibility of every member in that community. The hospital and the people it serves must be a working partnership—in order to realize a good health heritage for posterity.

CHRISTMAS IS NEAR: Strangers begin to smile and speak to you on the street. Someone offers to help Mom with the dishes. Children never fail to say "Sir" and "Ma'am."

The bus driver sees you running—and waits an extra minute. You find yourself feeling fine and looking at the world through rose colored glasses.

On Champion Bowling Team: Vic Lane Milliman, age 13, son of Mr. and Mrs. Cotton Milliman of Lafayette, La., and grandson of Mr. and Mrs. R. W. Turnbow, of Haskell, took the spotlight with a 157 game and a 280 two-game set week-before-last in the Aleman school bowling league contest at Lafayette Lanes, along with a fine 222 game.

Vic's team was in competition with ten other teams which won the tournament for the Aleman school at Lafayette.

Texas Producers Protest Cotton Advisory Action

Texas Association of Cotton Producers Organizations disagreed with recommendations of the USDA's Cotton Advisory Committee, according to Charles G. Bragg, executive vice-president of Rolling Plains Cotton Growers, Inc., at Stamford. At a meeting of the statewide association in Dallas on November 11 and 12, representatives from the six chartered cotton promotion groups in Texas voted to telegraph Secretary Freeman to ask for a continuation of the mandatory program for cotton in 1969.

C. A. THOMAS PRESENTED PLAQUE BY FAIR ASSOCIATION

Officers, directors and division superintendents of the Haskell County Fair Association, Inc., met at 7:00 p. m. Monday, November 18th, at Felker's Restaurant for a steak supper and business session with C. A. Thomas Jr., president, in charge.

A financial report was presented to the 25 members and guests present for the meeting, showing gross receipts from all sources of the fair to have been \$4,971.44 and a total expenditure of \$4,294.17, leaving a balance of \$677.27 in the Haskell National Bank.

All who attended the meeting were unanimous in their praise in regards to the overall success of the annual production and a discussion was held in regards to planning the 1969 County Fair. These included new and added attractions which might be used and perhaps a slight change in some which were featured this year.

Rex Felker, fair association secretary, and manager of the Haskell Chamber of Commerce, presented to C. A. Thomas a bronze plaque from the Fair

Association honoring him for his outstanding leadership in staging the first fair of such proportions in Haskell County for many years. He received a sound hand of applause for his efforts and leadership from all present.

President Thomas appointed the following committee to serve in the selection of a new slate of officers to head the organization for 1969: Tom Horton, Paint Creek, chairman; A. C. Pierson, Haskell; Max Stapleton, Haskell County agent; Mrs. Luther Burkett; Mrs. Herman Williams, Rochester; Preston Ballard, Rochester, and Cecil Lewis of Rule. This committee will meet in the Haskell Chamber of Commerce office at 7:00 p. m., December 2nd.

The general consensus of opinion of those in attendance was that this year's county fair had truly set the stage for even a bigger and better production in 1969 and with unlimited possibilities to its growth in future years.

TEXAS 79521, THURSDAY, NOVEMBER 21, 1968

NUMBER FORTY-SEVEN

NOV. 22-28 IS DESIGNATED NATIONAL FARM-CITY WEEK

President Johnson has designated the week of November 22-28 as 1968 National Farm-City Week, according to J. C. Yearly, Jr., Work Unit Conservationist for the Soil Conservation Service, Haskell.

Many communities throughout America will be having special observance programs. The week is sponsored nationally by

Kiwanis International in cooperation with soil and water conservation districts.

"Farm-City Week this year focuses attention on the quality of our resources, our environment," Yearly said. "While resources are of special concern to conservation districts, these elements of our natural environment are of critical importance to all people whether they live in the city or the country."

Yearly said the event is an example of the recognition given by civic clubs and other town and city groups to the interdependence of farm and city people.

Special events have been planned by many Kiwanis Clubs and districts throughout Texas.

Farm and city people alike benefit when they protect and wisely use our soil, water and other natural resources. It is time to think about soil, water and other resources "about people, rural and urban."

Yearly noted that President Johnson, in his proclamation of National Farm-City Week, said the quality and quantity of our resources in the next century depends on planning for uses of the countryside and developing town and country economies.

"Individual lives will be shaped, too, by whether our core cities are restored—and whether suburban growth is translated into durable and desirable forms of community development," the President said.

"Our major tools for achieving these goals are: an agricultural capacity for abundance never before attained by any nation; and a vigorous economy with a gross national product this year of around \$850 billion dollars, the largest in the world," the President said.

Yearly suggested that Farm-City Week is a time for joint efforts by farm organizations, civic and business groups, youth and women's clubs. Orderly development of Texas' urban open spaces, pollution control, flood prevention, rural

Cotton Classing Report

Harvesting was stopped late last week by a general rain according to A. D. Peebles in charge of the U.S.D.A. Classing Office.

The Consumer and Marketing Office classed 12,299 samples last week bringing the season's total to 55,655. The number of samples carried over at close of business Friday was 6,100.

Light Spotted grades increased over the previous week. Thirty-five percent of the cotton was Light Spotted. Strict Middling Light Spotted made up 2 percent; Middling Light Spotted, 29 percent; and Strict Low Middling Light Spotted, 4 percent. White grades made up 64 percent of the cotton classed with Middling being 49 percent and Strict Low Middling 12 percent.

Staple lengths showed a slight increase. The predominant staple continues to be 15/16 of an inch with 40 percent, 29/32 was 6 percent; 31/32, 19 percent; 1 inch, 12 percent; 1 1/32, 6 percent; 1 1/16, 12 percent; and 1 1/32 and longer was 6 percent.

Micronaire readings were almost unchanged with 69 percent falling in the 3.5/4.9 range. Twenty-five percent was 5.0/5.2 and 6 percent was 5.3 and higher. Pressley readings were unchanged. The week's average strength reading was 84,000 pounds per square inch.

Market activity picked up slightly but prices dropped.

recreation and nature areas, highway beautification and wildlife protection are many of the projects that can be undertaken by all people. Community resource projects need local action, he said.

"Such projects involve town folks as well as country residents. Soil Conservation Service technical staffs, located in nearly every county in Texas, are available to help the planners. Other Federal and state organizations are also geared to offer specialized aid," Yearly said.

White grades ranged from 115 to 225 points above CCC Loan, and light spotted cotton was bringing 225 to 250 points above loan prices.

NOBODY'S BUSINESS!

According to the Constitution, a census is supposed to be taken every 10 years. The original idea was to find out how many people lived in the United States. There was no intention to probe into private affairs. Now the Census Bureau is going far beyond the answers to such questions as: whether you have ever been married before, how many people live in your household or kitchen and many other things that are nobody's business.
