Million Dollar Boat Parade Planned For 4th

PILOTING

Rockport is a great little city, and we believe has a still greater future. We came here this week to cast our lot with you, and to help in any way possible in keeping Rockport to the forefront as the best place to live or visit on the entire Texas coast.

We have found the people of Rockport friendly and hospitable. They have a way of making newcomers feel right at home. They are wide-awake and fully aware of the great opportunities that are here for the home-seeker, the investor, the industrialist, and of the pleasures that are enjoyed by thousands who came here every year to vacation, rest and play. That's the spirit that is necessary if the people are to keep their city moving forward, and the people of Rockport have that spirit. It is shown on every hand. New building, new industries, new investments, backed by unbounding enthusiasm. We are happy to be counted as one of you.

We are not as experienced as the Skipper before us, who has piloted this newspaper through some of the most turbulent waters during the past decade. We are speaking of our Dad, who last week in this column told of placing the "mantle of responsibility" upon our shoulders. He has been a great Dad. His high ideals have always been an inspiration. We feel that he has rendered a real service to Rockport as editor and publisher of the Pilot, and while we are happy for the privilege of being able to carry a measure of his responsibilities, we are glad that he will be here with us for counsel and guidance. It is an even happier privilege for us to be able to enjoy his companionship after being away for nearly a score of years.

Again, we say it is a privilege to become a citizen of Rockport and to be able to serve as the editor of your newspaper.

Baptists Buy Doub Home and Apartments

The Doub home and apartment house near the First Baptist church was purchased this week for that church by a committee appointed by the congregation for that purpose. The property consists of two buildings, one of which was used by the Rev. and Mrs. D. L. Doub for a home and will be used by the church as a pastor's home, while the other building has three apartments and will continue to be rented as such.

Rev. Daub passed away a few weeks ago and Mrs. Doub left yesterday for Oklahoma, where she will reside in the future. Rev. Jas. F. Stanley, pastor of the First Baptist church, is expected to arrive here with his family from Dallas the last of the week and will be at home in the newly acquired parsonage.

Memorial Day Services Held

Rockport honored its war dead on Memorial Day with an impressive service held at the cemetery at 4 o'clock in the afternoon. Mrs. S. F. Jackson was in charge of the program and Rev. A. Leonard Miller, pastor of the Methodist church, delivered the memorial address. The grave of soldiers were decorated with flowers as a tribute to the revered memory of each.

Memorial Day was inaugurated in Rockport three years ago by the late Miss Mary B. Shellman, aunt of the Rev. Paul Reese of Rockport. She also inaugurated the first Memorial Day service in Westminster, Md., in 1868, and Mr. Reese's father, the late Dr. James W. Reese, made the address.

Five-County Bar Meet Held Here Tuesday

Mrs. Jack Hagar Gives Lecture on Birds and Shells at Dinner For Lawyers

Members of the 36th Judicial District Bar Association came to Rockport for their June meeting Tuesday night and enjoyed a fish dinner and program arranged by Mr. and Mrs. Fancher Archer, members of the association. Mrs. Archer, secretary of the association, was in charge of the program and dinner was given at the Rockport Pavilion on the beach.

George P. Morrell, of Beeville, president of the association, presided over a brief business session, during which John Dawson of Sinton was elected vice-president to succeed John Miller, also of Sinton, who is now serving as a captain in the United States Army. The association voted to hold the next meeting on August 2 in Aransas Pass. Hamilton Lowe, of Corpus Christi, vice-president of the Texas Bar Association, gave a report on a recent institute held in Corpus Christi at which Chief Justice James P. Alexander, of the State Supreme Court, discussed new rules pertaining to procedure and appeals. A complete transcript was made of the proceedings of the institute and printed copies will be made available to lawyers.

Mrs. Jack Hagar gave a highly interesting and informative talk on birds and shells of the coastal area around Rockport, showing a number of mounted birds, and specimens of several types of shells.

"Shells are like people. There are left handed and right handed shells," Mrs. Hagar explained, showing a left-handed whelk, known as a lightning shell. She explained how little whelks are formed, stating that the whelk left long strings of capsules in the sand of beaches to be born. A number of perfectly formed, tiny whelks were shown.

Mrs. Hagar's specimens of shells included a pretty helmet shell from which cameos are made. The shell on display had been sent to New York by Mrs. Hagar, where a cameo had been carved and left intact as a part of the shell. She explained that in the helmet family of shells there were kings, queens and princesses. She also showed a queen conk, from which pink and white cameos are made, and a large commercial mother-of-pearl oyster shell from the Philippine Islands.

During the bird section of her talk, Mrs. Hagar exhibited a dozen or more mounted specimens, including a bullocks oriole. She said the oriole was the smartest and most resourceful of birds, citing an example of finding a nest made from hair that the birds had plucked from the tails of horses and cows. A beautiful 7-color painted bunting was shown, and one of the prizes of the exhibit was a humming bird mounted inside its tiny nest.

President Morrell thanked Mrs. Hagar for her interesting lecture and exhibit and expressed the appreciation of the association to Mr. and Mrs. Archer for arranging the enjoyable program.

Those present for the dinner and meeting included: Mrs. Jack Hagar, Rockport; Mr. and Mrs. George Morrell, Beeville; Mr. and Mrs. Fancher Archer, Rockport; Mr. and Mrs. James A. Steele, Rockport; Mr. and Mrs. Hamilton Lowe, Corpus Christi; John Dawson, Heler Dale and Mr. and Mrs. W. B. Moss of Sinton; Mr. and Mrs. L. D. Hillyer, Corpus Christi; Mr. and Mrs. Jack Blackwell, Rockport; Mr. and Mrs. John W. Turner, Mr. and Mrs. John C. Beasley, Mr. and Mrs. T. M. Cox, and Miss Alma Cox of Beeville.

Col. Dwight L. Horton of Austin visited in Rockport Monday afternoon, while on a tour of the coast section, contacting the Selective Service Boards.

British Captives of Nazis in Africa

This picture, taken somewhere in Africa, shows a group of British soldiers fresh from the fighting lines of the see-saw battle of the dark continent. They are shown in the prison camp to which they were removed after their capture by the successful Nazi and Italian forces.

New President Christian Scientists Views War as 'World House Cleaning'

JOHN RANDALL DUNN Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

Booth Elected C. of C. Vice-President

Fred Booth, active civic worker, who came here from San Antonio a year ago, was elected vice-president of the Rockport Chamber of Commerce at the regular luncheon meeting of the chamber this week. His election was to fill a vacancy created through the recent death of C. L. Harris.

Plans for the Fourth of July celebration were discussed at the meeting held in the Rockport Pavilion and committees were set to work on the program for the first anniversary celebration of completion of the new harbor and bathing beach.

Manager Fancher Archer reported that efforts were being made to secure an air show by navy planes, and that plans for the celebration were going along nicely.

Dr. Roger Knapp suggested that the chamber back a move to have nets or wire installed in the water off-shore from the bathing beach to keep the bathing waters free of jellyfish. A general discussion followed and it was decided to investigate the possibilities of providing jellyfish-free waters for bathers.

Herbie Caraway, president of the Chamber of Commerce, said Thursday that he had investigated ways and means of providing the jellyfish nets and believed that the nets can be installed as an experiment.

BOSTON, Mass., June 2—Some 6,000 Christian Scientists from many parts of the world gathered in annual meeting today in Boston were called upon by the Christian Science Board of Directors to consecrate themselves to the defense of the democratic system of government as the best human instrument for preserving the basic rights of manhood to "life, liberty and the pursuit of happiness."

"In thus definitely allying this world-wide religious movement with the defenders of democracy everywhere, the Directors stated that it was their conviction that if social and political freedom is to be preserved "democratic forms of government must be maintained."

Directors' Report

The occasion for the stirring message of the Directors was the annual meeting of The Mother Church The First Church of Christ, Scientist, in Boston, Massachusetts. The Directors stated: "We are moved not by a desire to voice our own views, but to let the world know that we share with our Leader, Mary Baker Eddy, her confidence in the immortality of the sentiment expressed in the Declaration of Independence that 'man is endowed with certain inalienable rights, among which are life, liberty and the pursuit of happiness.'"

Continuing the Directors said: "The preservation and incorporation of these fundamentals of true democracy in the basic law of every nation is a cause to which all Christians are morally committed, and which we as Christian Scientists are determined to defend."

Incoming President

The directors also announced the election of John Randall Dunn, long identified with the United States Immigration Service. He is a native of Massillon, Ohio, receiving his schooling there and in San Francisco and from private tutors. For a few years he was in the service of the government, but gave up his work for the healing ministry of Christian Science. He has served parts of the world.

The incoming president accentuated the theme of spiritual progress all does not portend the breaking up of civilization or the plunging of humanity into chaotic darkness."

He viewed the present conflict in the light of a world house cleaning, during which individual and national sin, tyranny, greed, selfishness and lust for power are being brought to the surface of world thinking, ripe for destruction. And these ills, rather than world civilization, are the things that will be destroyed.

Colorful Water Carnival Expected To Attract Thousands Here For July Fourth Celebration

Gala Affair Planned Featuring Parade of Yachts, and Reigning Queens, Sail Boat Races, Aqua Plane Stunting, Band Concerts to be Climaxed With Colorful Fireworks Display on Bay Front

Funeral Services Held Last Friday For A. J. Adolphus

Friends Gather From Far and Near to Pay Last Respects For Beloved Citizen

Friends came from far and near last Friday afternoon to pay their last respects to Amos J. Adolphus, as his funeral was held at the family home at 3 o'clock. Rev. J. H. Kelly, pastor of Sacred Heart Catholic church conducted the services at the home, paying high tribute to his friend and the friend of everybody who knew him.

After the religious rites were read, the body was taken in charge by the Masonic fraternity and given burial with Masonic honors, a guard of honor being furnished by the Corpus Christi commandery, Knights Templar. At the graveside Irving M. Dietz of Corpus Christi read the funeral rites, members of the local Masonic lodge participating.

The pallbearers were John C. Sorenson, Joe Farned, C. W. Armstrong, O. B. Knippa, F. C. Diederich and Paul C. Sorenson. Cagle Funeral Home had charge of arrangements.

Mr. Adolphus was born in Austin on January 9, 1880, his parents being Mr. and Mrs. John Adolphus. He came to Rockport about 35 years ago, later marrying Miss Mary Roberts, daughter of Mr. and Mrs. George Roberts, pioneer residents of this place. He worked with the U. S. Government Engineers for 11 years, supplying a boat for their work along the Texas coast.

He pioneered in the matter of supplying boats for hunters and fishermen coming to this place and for the past number of years maintained a wharf near the site of the causeway, where he took out hunting and fishing parties. Of recent years he has been assisted by his sons. They entertained many prominent men every year and he had friends throughout a wide territory.

He is survived by his widow, one daughter, Mrs. A. C. Shivers, three sons, Gerald, George and Joe Adolphus, all of this place. He served 15 years on the City Council and his knowledge and sound judgment was always felt in the conduct of the city's business.

Rockport Boy Promoted to R. O. T. C. Captain

The San Antonio Technical and Vocational R. O. T. C. Corps held their annual field day review and new officers were made for the coming year. Among the promotions was that of Cadet Sergeant Charles Frandolig to a captaincy.

Charles was one of twelve officers selected to go to camp with the College and University R. O. T. C. for seven weeks training at Camp Bullis beginning June 2. There will be 6,500 young men at camp from all colleges in Texas.

Charles is the son of Mr. and Mrs. Frank Frandolig and has many friends here in Rockport. He was employed here at the D. A. Bracht filling station last summer.

Mrs. D. L. Doub Leaves For Oklahoma

Mrs. D. L. Daub left Wednesday for Oklahoma City, where she will make her home in the future. She was accompanied by her daughter, Mrs. L. M. Cannon and her grandson, Harold Walls of that place, who had been here with her.

Thousands of Fourth of July celebrants will be entertained here with a thrilling and spectacular water carnival, according to plans announced this week by Fancher Archer, manager of the Rockport Chamber of Commerce.

A million dollar boat parade of majestic yachts—the second such event ever to be staged on the Texas Gulf Coast—will be the exciting high point of interest during the thrill-packed program planned for Independence Day. Lending even more wide-spread interest this year to Rockport's second annual parade of a million dollars worth of yachts will be invitations to a score of young ladies in surrounding towns and cities to come here and reign over the boat parade.

Manager Archer said work was now under way to complete the most outstanding program ever attempted for a two-day celebration here. It is planned to open the Fourth program with a band concert and spectators sail boat race inside the new small craft harbor. In rapid succession will follow aqua plane races and stunting, speedboating, swimming and diving exhibitions, the boat parade, sail boat races on the bay, judging of the visiting princesses who will ride the yachts in the parade to select a queen of the celebration, and other features.

The climaxing event of the Fourth will come at night when a brilliant and colorful fireworks show will be staged in the sky over the bay. Throughout the day there will be swimming, fishing, boating and other diversions for the great crowd that is expected to come here to celebrate July 4th.

Setting for the celebration and program events will be Rockport's small craft harbor and beautiful beach playground.

The first boat parade was held last year when the new harbor and beach were opened. Last year's event attracted such wide attention over the state that this year's crowd of spectators and participants is expected to be even greater than that of the first event.

The second day's program on July 5th will also hold great interest for visitors, including sail boat races, thrill events inside the harbor, baseball game and other features.

Corpus Christi Editor Joins Johnson Ranks

"Texas must not disappoint President Roosevelt," declared Frank B. Harrison, Corpus Christi publisher and "original" O'Daniel supporter, who was here this week with former Senator J. Menley Head in the interests of Lyndon B. Johnson for U. S. Senator.

Harrison, a consistent advocate of W. Lee O'Daniel for the governor, believes that the governor is "making the mistake of his career" in attempting the senatorial race. "Lyndon Johnson, having a wealth of actual experience in the congress at Washington plus the complete confidence of the President, is the outstanding candidate for Senator and is winning thousands of new supporters daily."

"The dictator nations have their eyes on the Texas senatorial race," Publisher Harrison declared. "If Texas fails to elect Lyndon Johnson, it means that Texas has failed the President and has placed a stamp of approval on the isolationist group in congress and has helped give a slap on the back to the Wheelers, the Nyes and the Lindberghs who are impeding the progress of the President's program for defense of our nation," Harrison said.

THE SMOKY YEARS

By ALAN LE MAY

W.N.U. Release

INSTALLMENT 13 THE STORY SO FAR:

Dusty King and Lew Gordon had built up a vast string of ranches. King was killed by his powerful and unscrupulous competitor, Ben Thorpe. Bill Roper, King's adopted son, was determined to avenge his death in spite of the opposi-

CHAPTER XVII—Continued
A shiver ran the length of Jody Gordon's body. Casually, as if they were talking about getting breakfast, these quiet-faced men were speaking of a proposed death—the death of a boy who had once been very close to her, and very dear. Suddenly she was able to glimpse the power and the depth of the animosity behind the mission of these men. No effort and no cost would seem to Ben Thorpe too great if in the end Bill Roper was struck out of existence.

"Jim," the younger rider said soberly, "if Roper's got his wild bunch with him—Jim, it's such a fight as none of us have ever gone into yet! When you stop to think that any time—any minute—a bunch of 'em may land in here—"

"Charley's on lookout," Jim Leathers shrugged. "We'll know in plenty time."
A silence fell, a long silence. Heavy upon Jody Gordon was the panic of an open-space creature held helpless within close walls. Her voice was low and bitter. "You're set on holding me here?"

"No call to put it that way," Jim Leathers said mildly, almost gently. But his eyes denied that mildness, so that behind him Jody sensed again the vast animosity built by the Texas Rustlers' War.

"I want a flat answer," Jody said bravely. "Are you going to give me a horse, or not?"

Once more Jim Leathers' canine teeth showed in his peculiarly unpleasant grin. "Hell, no," he said.

CHAPTER XVIII

Perhaps Lew Gordon should have known that if Bill Roper learned of Jody's disappearance at all, Roper would come directly to him.

And, knowing this, he should have prepared himself. But Lew Gordon had not met Roper face to face in nearly two years; and nothing was farther from his mind than the possibility that Roper would walk in upon him now.

Upon this night Lew Gordon was pacing the main room of his little Miles City house; forty-eight hours had passed since his daughter's disappearance and the old cattleman had lashed himself into a state of repressed fury comparable to that of a trap-baffled mountain lion, or a goaded bear. Everything that could be done to locate his daughter was being done.

He knew that Jody's disappearance was voluntary, and he knew its purpose. The brief but highly informative note that Jody had left him told him that much. It simply said: "One of you must be made to see reason. I am going to talk to Billy Roper myself."

What this did not tell him was where Roper was, or how Jody expected to find him. Impatient of mystery and delay, he could not understand why his many far-scattered cowboys could dig up no word. For all he knew, his daughter was by this time lost somewhere in the frozen wastes of snow, in immediate desperate need of help.

Lew Gordon sat alone for a little while. For the moment his helpless anger was burned down into a heavy weariness. His mind was full of his daughter, whom he persistently pictured as a little girl, much more of a child than she actually was any more.

Suddenly it struck him how curious it was that in this bare room in which he sat there was no sign of any kind that Jody had ever been here at all. This was partly because she had never lived here nor even been expected here; but it brought home to him sharply how much of his life had been given to cattle, how little to his daughter. It made him realize how little he knew his daughter, and how little he had ever given her of himself.

This was Lew Gordon's state of mind as the door thrust open, letting in a brief lash of wintry wind; and he wheeled in his chair to face the last man on earth he had expected to see.

Bill Roper shook a powdering of dry snow off the roll of his coat collar, then stood looking at Lew Gordon in a cool hard silence as he pulled off his gloves. Once this man had been almost a son to Lew Gordon—the adopted son, in actuality, of Lew Gordon's dead partner. But a definite enmity now replaced what a little while ago had been a friendship as deep and close as the variance in their ages could permit. All the meaning of their association, almost as long as Bill Roper's life, was gone, wiped out by those two smoky years since the death of Dusty King.

For a moment or two Lew Gordon stared at him in utter disbelief. Then he whipped to his feet.

"Where is she?" he demanded intensely, furiously. "What have you done with her?"

Bill Roper no longer looked like the youngest Dusty King had raised on the trail. His gray eyes looked hard and extremely competent, old

tion of his sweetheart, Jody Gordon, and her father. After wiping Thorpe out of Texas, Roper conducted a great raid upon Thorpe's vast herds in Montana. Roper left for Lew Gordon's home when told that Jody had disappeared. Unable

beyond his age, in a face so dark and lean-carved it was hard to recognize behind it the face of Dusty King's kid. He made no attempt to answer a question which was necessarily meaningless to him. He finished pulling off his gloves, unbuttoned his coat, and hooked his thumbs in his belt before he spoke.

"I heard yesterday that Jody has turned up missing," he said. "I came to Miles hell-for-leather to see if it's so. From what I could find out down in the town, no word has come in on where she is. If that's true, I don't aim to give my time to anything else until she's found."

"You mean to deny you know where she is?" Gordon shouted.

Roper's voice did not change. "You talk like a fool," he said.

Lew Gordon's eyes were savagely intent upon Roper's face; he was trying to discover if this man could be believed.

"You may be lying," he added at last, "and you may not, but I'll tell you this—you sure won't leave here

Lew Gordon's eyes were savagely intent on Roper's face.

till I find out where my girl is. You're wanted anyway, my laddie buck; there's a legal reward on your head, right now—and part of it was put up by me."

"I heard that," Bill Roper said. "When I get ready to leave, I'll leave, all right. My advice to you is to begin using your head. I may be in a kind of funny position. But it puts me where I know things about the Montana range that neither you nor your outfits have got any clue to. If you want your daughter back you better figure to use what I know about the Deep Grass."

Lew Gordon compelled himself to temporize. What he couldn't get around was his own belief that Roper knew something definite, specific, about where Jody had gone—or had started out to go. He must have known also, in spite of the bluff to which anger had prompted him, that he could not hold Roper here when Roper decided to leave, nor force any information from him in any way whatever.

"What is it you want to know?" he asked at last, helpless, and angry in his helplessness.

"In the first place, I want to know what made you think Jody was with me?"

"You swear," Lew Gordon demanded, "you don't know the answer to that?"

"I don't swear anything," Roper said. "I asked you a question, Lew."

Lew Gordon hesitated. It was a good many years since anyone had talked to him in the tone Bill Roper took; but for once the purpose in hand outpowered the violence of his natural reaction. He turned from his litter of papers, and handed Bill Roper the little scrap of Jody's handwriting which was all she had left to indicate where she was gone.

"One of you must be made to see reason. I am going to talk to Billy Roper myself."

When Bill Roper had read that, the eyes of the two men met in hostile question.

"This looks mighty like a false lead, to me," Bill Roper said at last. "Like as if she aimed to cover up where she really went. Don't hardly seem likely she'd start out to come to me."

"I know she went looking for you because she said she did. My girl don't lie."

Roper shrugged. "Why should she do that?"

reconcile her father with Roper, Jody had set out with Shoshone Wilce to find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilce escaped but Jody was captured. The men decided to hold her as bait.

"It was your own man talked her into it," Gordon said with menace. "My own man? What man?"

"A little sniveler called Shoshone Wilce. Everybody knows he was a scout coyote for you, before Texas ever run you out."

"Nobody run me out of any place," Roper said; but his mind whipped to something else. It was true that he talked to certain men in the town before he had come here. Now suddenly he knew that he had learned what he had come to find out. He buttoned his coat, pulled on his gloves.

Gordon confronted him stubbornly. "I mean you shan't leave here without telling me what you know."

A glint of hard amusement was plain in Bill Roper's eyes. "I know what you've told me. But I'll add this onto it. I think you'll soon have back your girl. I'm walking out of here now, Lew, because it's time for me to look into a couple of things. But I'll be seeing you—if Thorpe don't get you first."

The veins stood out sharply on Lew Gordon's forehead, high-lighted by a faint dampness. "In all fairness I'll tell you this," he said. "It's true I can't lift a gun on you, or on any man who stands with empty hands. But as soon as you're out of that door, all Miles City will be on the jump to see you don't get loose. Twenty thousand hangs over your head, my boy!"

"Quite a tidy little nest egg," Roper agreed. "I'd like to have it myself."

A trick of the wind sent a great whirl of papers across the room as he went out.

He had not come here without providing that the horse which waited under his saddle was fresh and good. He struck westward now out of Miles City, unhurrying. At the half mile he found a broad cross trail where some random band of cattle had trampled the snow into a trackless pavement. He turned north in this, followed it for a mile, then swung northwest over markless snow. Now that this horse was warmed a little he settled deep in his saddle and pushed the animal into a steady trot; at that gait, even in the snow, he could expect the tough rangebred pony to last most of the night.

CHAPTER XIX

A tired horse is not much inclined to shy, toward the end of a long day's travel; and when Bill Roper's horse snorted and jumped sideways out of its tracks the rider looked twice, curiously, at the carcass which had spooked his pony. A dead pony on the winter range being a fairly common thing, he was about to ride on, when he noticed something about this particular dead pony which caused him to pull up and dismount for a closer examination.

After leaving Lew Gordon he had ridden deep into the night. Half an hour would bring him within sight of the Fork Creek rendezvous, and he was eager to push on, so that his deduction as to Jody's whereabouts might have a quick answer, one way or the other; but when he had examined the dead pony he was glad that he had checked.

This was no winter-killed pony. The bright trace of frozen blood that had first caught Roper's eye was the result of two gunshot wounds in neck and quarters.

A dark foreboding possessed Roper as he studied the dead pony. Roper himself was short-cutting through the hills, following no trail. The coincidence that he had stumbled upon the carcass in all those snowy wastes could be accounted for only in one way: both Roper and the pony had followed a line of least resistance through the hills—a line that had the Fork Creek rendezvous at its far end. His discovery told him that there had been fighting at Fork Creek within the last forty-eight hours. If he was right in believing that Jody had come to Fork Creek—

He remounted and swung northward, mercilessly whipping up his weary pony, but approaching the Fork Creek camp roundabout, behind masking hills and through hidden ravines. An hour passed before he threw down his reins and crept on hands and knees to the crest of a ridge commanding the valley of the Fork.

He moved a half mile closer and resumed his watch; but for some time he could make out nothing.

Then just as the sun set, three men moved out of the cabin. For a moment or two they stood in the snow close together. One went back into the cabin. The two others disappeared for a moment, to reappear mounted. They separated, and Roper watched them ride in opposite directions up the nearest slopes of the hills. These passed beyond his sight, but in another minute or two their ways were retraced by two other riders.

"Outposts," Roper decided. "Somebody's keeping a hell of a careful watch."

(TO BE CONTINUED)

Hand-Crocheted Hat, Bag Sets, To Be Popular This Summer

By CHERIE NICHOLAS

NOW that dame fashion has given a high rating to hand-crocheted garments, it behooves every style-minded woman to stop, look and listen to what is being said and done in regard to this very smart trend. Via a simple crochet hook, a spool or so of crocheted cotton, or perhaps a skein or so of washable cotton yarn, lovely-to-look-at styles may be made.

You could search everywhere and it would be difficult to find anything more fetching in hat and bag sets than the masterpieces in crocheted artistry such as here pictured. Even if you have never crocheted before, with a little application and a willingness to "live and learn," you can crochet for yourself a whole collection of accessory items every bit as pretty and wearable as those here shown. A fascinating pastime you will find it, too, for the work is easy and the cost of crocheted cottons low.

Doesn't the very sight of the cunning fashions illustrated make your fingers fairly tingle to crochet and crochet until you have acquired a number of accessories to wear with your summer outfits?

Have you ever tried crocheting with heavy cotton rug yarn, boilfast and washable. The work just speeds along. In no time you can finish a new hat and bag. The attractive high-crowned turban-and-bag twosome shown to the left in the picture is crocheted of heavy white cotton rug yarn. It also comes in colors. You will be surprised and delighted at how quickly this set can be made. There's nothing intricate or tedious about it!

For the star-trimmed crochet pillbox and matching round bag to the

right, use mercerized cotton thread. The star detail is somewhat military in effect, as so many fashions are this summer. Mercerized cotton thread was used also for the beret in the inset below. Note the colorful crochet emblem which adorns the front of the crown.

Describing other attractive crocheted themes, a prim little Gibson sailor is worth noting. It is crocheted of mercerized cotton in a firm, even, single stitch and is so manipulated it keeps in perfect shape. A cluster of crochet berries in self color is its only trim. Be assured this sailor is very good looking.

As clever a headpiece as any modern school girl would want is the "pigtail calot." It is really very similar to the popular schoolgirl "beanie" and is worn on the back of the head in exactly the same manner. The novel and amusing part is a long braid of yarn that starts from the crown center of the calot and dangles to the waist in back, just like a Chinaman's pigtail. To add more interest, the braided yarn is tied with a hair ribbon in school-girl fashion.

If it is a lace-trimmed hat you want, it may be crocheted in a lacy open-work stitch and when finished, starched very stiff.

(Released by Western Newspaper Union.)

New Sports Fabric

This very good-looking frock is made of a new and unusual sports fabric, which, because of its outstanding attractiveness plus its dependable wearability, may be regarded as a real "find" for women who seek reliable materials. It is a rough crepe, one of a number of new creative fabrics done in Celanese rayon and silk. Woven with a special twist in the yarn, a pleasing unevenness is produced—best described as a splash effect. This charming frock will be well liked both because of the ripple-pleated crepe that fashions it and because of the promise it carries of satisfactory wearableness. Note how smartly it is styled, with the new accented neckline.

Open-Throat Necklines

Low-cut necklines are increasing in popularity. In blouses it is the open-throat turn-back collar type that leads. Dresses have very low V-shape lines. Whether necklines are square, round or heartshape, they are low cut this summer.

New Cottons Make Fashion Headlines

Cottons are not news, but the cotton materials manufactured today are not only news, but front page news!

One of the highspots on the summer program of cottons is the suit of crinkly seersucker. At the races fashion-wise women are wearing these suits. The perfected tailoring of these suits gives them a thoroughbred air that is recognized at a glance.

Chambray is also gaining in popularity. Emphasis on striped chambray leads to such intriguing styling as the dress of monotone chambray that is detailed with stripes. Matching hat and bag complete the costume.

A word about the new colorful denims and gabardines. The latest message is bright yellow denim for play clothes. And flowered chintz is seen in both formal and informal dresses.

In the evening cottons go forth in party frocks of gingham and flowered prints, and in peasant skirts with blouse or middy tops. This season's cotton sheers never were prettier.

Cotton Fabric-Type Lace Enters Fashion Picture

Lace is "all set" for a tremendous vogue this summer. Special emphasis is on a new all-over—patterned cotton lace that is so fabriclike that it is practical for dresses, redingotes and all types of summertime ensembles, including the suit tailored of starched cotton lace, either in white or colors.

Week-End Matchmates

Practically a complete wardrobe within itself is the five-piece matchmate cutouts now selling throughout stores the country over. Very practical and very attractive are these ensembles made up of five pieces—pajamas or slacks, shorts, bra-top, butcher-boy smock and knee-deep coat.

Piano an Accomplishment You Can Teach Yourself

Short-Cut Way to Learn Music

A HAPPY accomplishment to play the piano, to entertain with the latest hits. As for that special man, his favorite tune lures him like a magnet! Learning to play isn't hard. You read music quickly with the aid of a chart which shows life-size the main part of the keyboard.

Tempted to learn how? Do! Our 24-page instruction book, with life-size keyboard chart, explains elements of music, time, chord building. Has three favorite pieces for practice. Send for your copy to:

Enclose 10 cents in coin for your copy of QUICK COURSE IN PIANO PLAYING.

HOUSEHOLD HINTS

There is nothing so handy in a kitchen as a shelf above the sink for soaps, etc.

A wire screen, galvanized steel or copper, can be fitted over the tops of roof gutters to keep out leaves and trash.

Covering uncooked meats placed in the refrigerator favors bacterial growth.

Glassware takes on the highest polish if dried directly from hot, clean suds without being rinsed.

Add a little sweet cream to your cake icing and it will not get too hard.

If laundering water is too hot, it sets the soil. If too cool, it will not loosen the soil. If you can put your arm down into the water, but cannot leave it there because of the heat, it is of the right temperature.

Offensive odors coming from sinks and drains can be eliminated by pouring in a strong solution of borax and hot water.

MINOR BRUISES, BURNS, SCREEKER BITES, HUB CUTS. PENETRO

Dark Ignorance
Ignorance is the night of the mind, but a night without moon or star.—Confucius.

Self Patience
Be patient with everyone, but above all with yourself.—Francis de Sales.

Nervous Restless Girls!

Cranky? Restless? Can't sleep? Tire easily? Because of distress of monthly functional disturbances? Then try Lydia E. Pinkham's Vegetable Compound.

Pinkham's Compound is famous for relieving pain of irregular periods and cranky nervousness due to such disturbances. One of the most effective medicines you can buy today for this purpose—made especially for women. WORTH TRYING!

NEW IDEAS

ADVERTISEMENTS are your guide to modern living. They bring you today's NEWS about the food you eat and the clothes you wear, the stores you visit and the home you live in. Factories everywhere are turning out new and interesting products.

And the place to find out about these new things is right here in this newspaper. Its columns are filled with important messages which you should read.

Seven Men Needed For Every Plane In Air

VICTORIA, June 4—"For each plane in the air, at least seven skilled men are required on the ground." Thus Sergeant John L. Marx, of the U. S. Army Recruiting Station here, described one of the problems now being solved by the U. S. Army Air Corps as it

plunges into the greatest job in its history—rapid expansion destined to make it one of the strongest air forces in the world.

And skilled men don't grow on trees. The Air Corps knows this, answer. "Give us the material," Sergeant Marx said, but it has an Air Corps men say, in effect, "—good men, intelligent and ambitious, and we'll give them the skills." Which is why the sergeant told his story today. The Air Corps needs more men to fill its growing needs. If they are mechanics and machinists, welders and electricians, clerks and typists to start with, so much the better. But they need not be, for the Air Corps maintains an extensive system of schools for the express purpose of making craftsmen, artisans and skilled workers out of raw material.

To supply the thousands of men required for work of all types, the Air Corps system of technical schools is maintained with headquarters at Chanute Field, Illinois. Here regular courses are given for mechanics, machinists, metal workers, welders, link trainer instruct-

ors, parachute riggers, teletypists, and weather observers. In addition there are advanced courses in carburetor, electrical, instrument and propeller work and weather forecasting. When a young man completes one of these courses he is expected to be eligible for the rapid promotion which expansion of the corps makes possible.

Requirements are simple, the sergeant said. The prospective student must be between the ages of 18 and 35, unmarried, normal physically, and possessed of a high school education or its equivalent. Enlistment in the Air Corps is for three years. During this time the young soldier may decide to make the Air Corps his career, but in any event he is afforded an opportunity to learn trades which undoubtedly will be of use to him in later life.

Sergeant Marx urges young men who are ambitious and desiring to go ahead to query him about the opportunities of the Air Corps. The Recruiting office is located in the Post Office building in Victoria.

"I know it sounds trite," he said, "But it really is a case of 'getting in on the ground floor,' though it certainly isn't of 'first come first served.' They'll all have an equal opportunity. We need them."

Some years ago Robert Quillen, the noted paragrapher, in a whimsical mood erected a monument to Eve. Now his fellow South Carolinian, J. Foster Carter of Chester, has placed a stone inscribed "Adam, the First Man," in his Martin Van Buren was vice-system then in effect.

Dentist in Regent, N. D., report nerves in any of her teeth. The teeth are solid formations, with out nerve sanals, although they are in every other way similar to normal teeth.

Who went where?—tell us

Now America looks to ALL THREE ... for preparedness

Build! Build! Build!

Faster! Faster! Faster!

The call for defense roars over the land, and above all else it cries for power . . . electric power. Power to turn lathes. Power to drive rivets. Power to weld, to cut, to stamp, to form, to forge, to drive. Power to build guns, ships, tanks, planes. Power to prepare!

For today American defense wears three uniforms—military, naval, industrial. And the watchword of all three is SPEED.

When the call came the electric industry was ready. Over night the industry began to deliver quantities of power unheard of in peace time. We could do it because we have always built for the future.

We've been preparing for 61 years.

Ever since this industry was born in 1880 the men who manage it have planned ahead.

We have always been ready for emergencies. Today we are meeting the greatest emergency of all, and handling it without cramping or stinting our regular customers.

Intelligent planning made this possible. It took foresight, initiative, and hard work. Business operation of this industry made it possible. Business operation alone built this industry big enough to serve you and handle the defense emergency at the same time.

Business operation has improved your electric service and cut the cost so you now get about twice as much electricity as you got 10 to 15 years ago for the same money.

Business operation of the electric industry will keep on giving you better service and more electricity for your money, and we will be able to handle emergencies in the future just as we have in the past.

CENTRAL POWER AND LIGHT COMPANY
★ Electricity is Cheap ★

"I have seen the stamp, which is very valuable," Mrs. Ezell said. "I was offered \$700 for one stamp many years ago."

Dr. Clark was well-known to the old-time residents of Rockport. In addition to the practice of medicine he was once mayor of Rockport, president of the school board and worked on securing one of the first school houses for Rockport.

During his residence here Dr. Clarke did a great deal of scientific research work on the wild life and marine life of the Texas coast and its waters, particularly around Rockport. In 1860 he sent specimens of marine life, birds, nests and eggs to the Smithsonian Institute.

"I had a letter a few days ago from Dr. S. W. Geiser of the Southern Methodist University asking for biological research work that my father did in Southwestern Texas, especially on the coast near Rockport," Mrs. Ezell stated. "His works are recorded at the Smithsonian Institute as one of the early works on the scientific life of Texas."

WE THE PEOPLE OFFICE OF PRODUCTION MANAGEMENT

Office of Production Management today issued the first of a series of posters to be distributed primarily to all firms engaged in defense work. In addition, the poster will be displayed in all postoffices.

The poster reads, "We, the people" . . . ARM FOR DEFENSE" and carries the official emblem of the OPM. Additional copies are available on request through the Division of Information, Office for Emergency Management, Washington, D. C.

Frank Deschaine of Jackson, Mich., for 18 years was blind in his left eye. Recently he rubbed it vigorously, and the sight was restored.

Ind., placed this sign on his garage: "Nothing inside." Burglars ignored it, however, and got at \$35.

NOTICE OF SHERIFF'S SALE

By virtue of an order of sale issued on the 27th day of May, 1941, out of the District Court of Tarrant County, Texas, 17th Judicial District, in Cause No. 27518-A, styled The Fort Worth National Bank vs. R. G. Flowers et al, I did on the 2nd day of June, 1941, levy on the following described land as the property of the above defendants as of the 16th day of April, 1938, situated in Aransas County, Texas, to-wit:

Lot No. 1, Block No. 523, Town of Aransas Pass;
Lot No. 17, Block No. 223, Burton and Danford Subdivision;
Lot No. 15, Block No. 782, Town of Aransas Pass;
Lot No. 5, Block No. 769, Town of Aransas Pass;
and I will on the 1st day of July, 1941, same being the first Tuesday in July, 1941, between the hours of ten (10) o'clock A. M., and four (4) o'clock P. M., offer the said land for sale at public vendue for cash at and in front of the courthouse door of Aransas County, Texas, in the city of Rockport.

Alice Thomerson,
Sheriff of Aransas County

Stand By The President

ELECTION, JUNE 28

USE YOUR INFLUENCE FOR SOUTH TEXAS' OWN

LYNDON B. JOHNSON

FOR U. S. SENATE

Stand by the man who has stood by the President and enjoys his completest confidence—Lyndon B. Johnson, South Texas' own candidate for the U. S. Senate. Brought over \$100,000,000 in federal funds to this area. Did monumental work in bringing the Navy to Texas! Texas must not give such isolationists as Wheeler, Nye and Linbergh consolation by failure to elect the man the President trusts. Foreign capitals are watching the Texas senatorial race; let's disappoint the dictators and support the man best able to carry forward Texas' part in the national defense program.

NORA EDDA MICHNA MARRIES WILLY ROBBINS WEDNESDAY

The parish house of the Sacred Heart Catholic Church was the scene of a wedding last Wednesday night when Miss Nora Edda Michna, daughter of Mr. and Mrs. E. A. Michna of this place became the bride of Willy Robbins, of Corpus Christi, son of Mr. and Mrs. Clarence Robbins of Aransas Pass. The Rev. J. H. Kelly officiated at the ring ceremony. They were attended by Mr. and Mrs. Fred Perrenot of Corpus Christi, Miss Jane Michna and Orian Stewart.

The bride wore a dusty rose creep street dress with matching accessories. Mrs. Perrenot was attired in a yellow and white ensemble with British tan accessories and Miss Jane Michna wore white sharkskin with tan accessories. Following the ceremony an informal reception was held at the home of the bride's parents, after which Mr. and Mrs. Robbins left for their home in Corpus Christi.

Mr. and Mrs. Fred Johnson of Sinton and Mr. and Mrs. W. M. Gordon of Bay City were week-end guests in the home of Mr. and Mrs. Charles T. Picton.

Mr. and Mrs. Wm. Baumgartner of Refugio, accompanied by their daughter, Mrs. Iris Clarkson, and Miss Juanita Davis, were in Rockport Monday visiting friends and looking after their real estate interests here.

Return of College and University Students Enlivens Social Season Here

Back from colleges and universities this past week-end came most of Rockport's young men and women who have been pursuing the paths of higher education. Their return has enlivened the summer social season here.

Among those returning home for the summer vacation were: Miss Clara Louise Johnson and Carol and Arthur Perrenot, A. & I. College, at Kingsville; Miss Mary Beth Picton, Incarnate Word College, San Antonio; Allyn Roberts, St. Mary's University, San Antonio; Louis Stumberg, Corpus Christi Junior College; Miss Hazel Gilstrap, Rice Institute, Houston; Miss Mary Jo Bracht, Blessed Sacrament Academy, San Antonio; Miss Annie Ruth Jackson, Glenn Mills, Fred Bracht, Jr., Billy Ferris, George Brundrett and Edward Stumberg from Texas University. Stumberg was married last Friday to Miss Helen Morris of Luling and they will make their home at Terrell Wells in San Antonio.

Mrs. Pat Hooper Hostess to Auxiliary Circle No. 1 At Presbyterian Church Monday Afternoon

Members of the Auxiliary Circle No. 1 of the Presbyterian church met Monday afternoon at the home of Mrs. Pat Hooper. An interesting program was conducted by Mrs. J. L. Fenner, the subject up for discussion being "America on Wheels." Mrs. W. H. Morrison led the Bible study. Refreshments of lemon cream pie, candy and cold drinks were enjoyed. Those present included: Mrs. Henry Stumberg, Mrs. James Lathrop, Mrs. Manch Brundrett, Mrs. Floyd Smith, Mrs. Lucille Little, Mrs. Mabel Bryant, Mrs. W. H. Morrison, Mrs. J. L. Fenner, and the hostess, Mrs. Hooper.

Senior Class From Delhi Oklahoma Visits Here

Eighteen members of the senior class of the Delhi, Oklahoma, high school spent two days here enjoying the many attractions of Rockport. The group made the trip here in a school bus and were accompanied by Professor W. E. Askins, who was in charge of the tour. With the class on the trip was Bill Stringer, former Rockport resident, who left here about four years ago.

BAPTIST W. M. U. MEETS THURSDAY AFTERNOON

The Baptist W. M. U. will meet Thursday afternoon at 3:30 in the church.

Mr. and Mrs. Walter Henshaw and family of San Antonio have arrived here to spend the summer and are comfortable domiciled in their summer home, known as the Mathis place.

LAKANGE-IVES.

George Eleon Ives and Miss Louise Lankange of Aransas Pass were married here Saturday afternoon. The ceremony was performed by Justice of the Peace William B. Priddy in his office.

A New York beggar was found to be keeping two big automobiles. Perhaps that is why he had to beg.

Henry Stumberg Weds Miss Helen Morris At Luling Friday Noon; To Make Their Home in San Antonio

Miss Helen Bradford Morris, daughter of Mr. and Mrs. Ned B. Morris of Palestine and Henry Edward Stumberg, Jr., son of Mr. and Mrs. Henry E. Stumberg of Rockport, were married at high noon Friday in the Presbyterian church at Luling, with the Rev. Rodney Sunday performing the ring ceremony in the presence of the immediate families. Louis Stumberg, brother of the bridegroom was the only attendant.

Miss Morris wore a white street ensemble with matching accessories and a corsage of gardenias. After a short wedding trip Mr. and Mrs. Stumberg will be at home in San Antonio for the summer. Both are students at the University of Texas where the bride is a member of Zeta Tau Alpha and they expect to resume their courses there next fall. Stumberg has also attended St. Mary's University in San Antonio and his wife attended Mary Baldwin school for girls in Virginia.

Mr. Stumberg is a graduate of the Rockport high school, completing his studies here with the class of 1937.

SHOWER GIVEN FRIDAY FOR MRS. ROBBINS

Miss Jane Michna entertained with a miscellaneous shower Friday afternoon, honoring her sister, Mrs. Willy Robbins, the former Miss Nora Edda Michna. A color scheme of pink and white was carried out in the flower arrangements and also in the table appointments and refreshments.

Guests present included Mrs. H. D. Robbins, Mrs. Melvin Jones, Mrs. A. E. Michna, Mrs. Rob Johnson, Mrs. Jimmie Walton, Mrs. Ben Dupnik, Mrs. Dudley Lowe, Miss Thelma Stephens, Miss Wanda Crawford, Miss Vesta Nell Morgan, Miss Mary Gaskin, Mrs. Fred Perrenot of Corpus Christi and Mrs. Clarence Robbins of Aransas Pass.

Surprise Reunion Held Sunday at Home of Christensens

A pleasant family reunion was held Sunday at the home of Mr. and Mrs. William Christensen, when a number of relatives gathered there early in the morning to spend the day. The gathering came as a surprise to Mr. and Mrs. Christensen.

Those present to enjoy the day included: Mr. and Mrs. J. W. Pruitt and daughters from Edna, Mr. and Mrs. Felton Rice and Betty Jane Rice of Anahuac, Mr. and Mrs. H. L. Hunt of Ingleside, Mrs. Marlin Nickelson of Corpus Christi, Miss Laverne Pruitt of Corpus Christi, and Misses Dot and Lois Hall of Falfurrias.

Jim Jackson, instructor on the Schreiner Institute faculty at Kerrville for the past two years, is spending a few days at home here with his parents Mr. and Mrs. S. F. Jackson.

Rockport Girl On Graduation Trip To North Hollywood

Miss Ruth Linda Herring, graduate of the Rockport high school, is now sojourning in North Hollywood, Calif., the trip to California coming as a graduation gift from her brother, John Lee Herring, who is a resident of North Hollywood.

Miss Herring, accompanied by her brothers, Jimmy and David Herring, went to Cuero last Saturday to spend the night with her sister, Mrs. W. L. Patrick. Mrs. Patrick and her brothers accompanied Miss Herring to San Antonio where she boarded a train Sunday for California.

Mrs. Patrick returned to Rockport with her brothers and is spending the week here in the home of her parents, Mr. and Mrs. James C. Herring.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman
(© Roger B. Whitman—WNU Service.)

Space Around Pipes

QUESTION: What do you recommend to close up the space between pipes coming up into a room, and the floor? In our apartment there is a space between the floor and the hot and cold water pipes, also the radiator pipes, which I would like to seal up. The collars around the pipes are not sufficient.

Answer: Because of the varying temperatures and vibrations in the pipes it is not possible to fill these spaces with cement of any kind. A piece of canvas cut to fit around the pipe might help. Tack one edge of it down to the floor, and tie the other edge around the pipe. Coat the canvas with white lead paste.

Leaky Cellar

Question: In our new house water leaks into the basement from underneath the floor along the joint between floor and walls. Can this be stopped with waterproof cement? If so, will the water spoil the concrete in remaining permanently under the floor and around the foundation during the wet season? There is no sewer and no place for drainage.

Answer: If the level of your cellar floor is below the natural ground water level during the wet season, the only remedy is to apply membrane waterproofing inside the cellar. This consists of a layer or two of waterproof felt, stuck down with liquid asphalt, and held in place by four inches of reinforced concrete. The waterproofing should go up the walls to the outside ground level. Otherwise, lay drain tile under the floor around the edges, ending in a pit from which the water is automatically removed by a sump pump.

Paint After Whitewash

Question: A wooden wall in my cellar was whitewashed. I washed off the whitewash, and then, after the wood dried, put on two coats of inside oil paint. The paint softened and would not stay on. What was the reason, and what can I do about it?

Answer: Although you took off the whitewash on the surface, some of the lime of which it was made, soaked into the wood and remained. This lime affected the oils of the paint and destroyed them. After taking off the whitewash you should have rinsed the wall with a solution of zinc sulphate crystals in water; two pounds to the gallon. This would have neutralized the lime, and the paint would not have been harmed. To apply this solution you must first remove the paint that remains.

Removing Wallpaper

Question: I have been trying to remove wallpaper in my living-room by soaking it with water; but the water seems to have no effect. What else can I use that will loosen the paper and let me take it off?

Answer: Your wallpaper must have a varnished or other waterproof finish. To take it off, go over it with coarse sandpaper wrapped around a block of wood, so that this finish will be cut. Water will then be able to penetrate to the paste. Begin soaking the wallpaper at one end of a wall, using a whitewash brush or large sponge, and work on the other end. Then return to where you began, and repeat. Continue until the water has soaked and the paste has been softened. If the paper sticks, scrape with a broad putty knife.

Wallpapering

Question: My summer cottage is about 60 years old, but in good condition. The living room and lower bedroom need papering. The old paper is quite smooth and tight. Must I remove it, or can the new paper be stuck on over it?

Answer: Yes, you can apply new paper over the old, providing the old paper is in good condition and is on tightly. The old paper will have to be sized first, of course. There is always the slight chance that the paste for the new paper may strike through and loosen the paste of the old paper, in which case both old and new papers may fall off.

Questions on Painting

Question: A correspondent asks if any of the following jobs can be done when temperatures are below freezing: Cold water painting inside of a cabin. Whitewashing outside. Oil painting and puttying inside and out. Outside plastering.

Answer: Any material or paint containing water or mixed with water should not be used when temperatures are at or below the freezing point. Cold water paint or whitewash can be applied when the temperature is above freezing, but oil paint will not give satisfactory results if applied at temperatures below 50. The same applies to putty.

Heating Odor

Question: From the start of the heating season, my tenants complain of an odor coming from the steam radiators. Cleaning compound in the boiler does not stop it.

Answer: That odor comes from repeated heating of dust that has collected on the lower part of the radiator. In time, the dust may be converted into a hard crust. I have known of cases in which insects and even dead mice contributed to such an odor. The remedy is to clean the radiators, and especially the lower part.

My Week

by Eleanor Roosevelt

Sec. Hull's 'Restrain'

On my way back to Washington from New York the other morning, I read Secretary of State Hull's speech. I must say that I swelled with pride because of the great restraint of expression and firmness of humanitarian interest Secretary Hull so ably expressed. I thought some of the speeches which I have heard from Germany over the radio, and compared the sentiments expressed by Secretary Hull with those of Mr. Hitler and his subordinates. Our secretary of state offers freedom and co-operation in a joint program for world betterment, and I feel sure that our own people will heartily endorse everything he says.

I also read two speeches, one of them delivered by John Brophy before the Pennsylvania State Industrial Union Council convention at Harrisburg, Pa. The other was a speech delivered before the convention of the American Institute of Electrical Engineers, in Philadelphia, Pa., by Charles E. Wilson, president of the General Electric company.

Both speeches approach the same problem from different angles. But the spirit that lies back of the approach is so similar that one cannot believe that men of this caliber, if they could be multiplied, would not solve our difficulties in the general field of economic conditions, not only as they face us, but as they face the world. In traveling around the country, I felt more and more keenly the need for something which is presented in the Phillip Murray plan mentioned by Mr. Brophy and which is suggested by Mr. Wilson in his general survey of future co-operation.

FOREIGN ELEMENTS IN U. S.

There is one subject which is troubling me increasingly and which I feel I must talk over with you. It is perfectly natural that we should be extremely anxious now to keep foreign agents from retarding our defense industries, or from creating dissension among us through their activities. We must find aliens who are here illegally and, in so doing, we must question many people who are entirely innocent of any subversive activity. For that reason I feel that only the highest caliber men, employed the legally constituted government authorities, should have anything to do with these activities. For the rest, it seems to me if we know anything really suspicious, we have an obligation to report it to the proper government authorities. Our country, however, is made up of people, many of whom have come here recently, but who are either in process of becoming citizens, or who may be citizens already, though of foreign birth or parentage.

They are probably more devoted to the democratic form of government than many of our citizens who have taken their allegiance to democracy for granted. These people must be encouraged to trust and to love their new country and their neighbors. They must be given the same opportunity the rest of us have.

I am deeply troubled by certain things that have come to me. For instance, in industries, some people, because their names are Italian or German, or because they or their parents are known to have been born in those countries, are refused employment.

We, in this country, are opposing totalitarian government. We do not like Nazi or Fascist regimes. But we are not opposing the refugees who want to help us make our country safe, nor citizens who have come to us from other lands and who are loyal and good Americans. This demands from us a refusal to be hysterical and an ability to use our powers of observation, but to use them wisely.

PLEASANT GARDEN PARTY

One afternoon the cabinet ladies received with me at a small garden party for the wives of the members of the house of representatives, and the women members themselves. This is always a very pleasant party and I was delighted to have such a good day.

Then, for a few minutes, I went to the opening of the Soldiers and Sailors club, which the Women's National Democratic club is helping to finance as a defense project. It will serve, we hope, as a place of recreation and relaxation for the men in our services who come to this city.

We succeeded, somewhat breathlessly, in catching our plane for New York city, and still somewhat breathlessly, we caught the train for Portland, Maine. Here we had a leisurely breakfast and then started for Augusta, Maine, by motor, to have the pleasure of lunching with the governor and Mrs. Sewall.

It was beautiful driving through the Maine countryside. The lilacs were in bloom, the blossoms all out and there were sparkling blue water on one side and dark green pines on the hill. There is something about a beautiful Maine day which is hard to match. One forgets it for a while perhaps, but recognizes it immediately one returns to the state. There will always be a pull on my heartstrings with the first view of the dancing water and glimpses of miles of blue-green tree tops.

THINGS for You TO MAKE

Transfer No. Z9351

"BOY" and "GIRL" meet over a pan of milk, and swift romance results—for the purpose of this new tea towel set. While Miss Kitty plucks flower petals to decide whether it is really love, Mr. Tom serenades on his guitar. He proposes; she accepts; they are wed—such is the story told so delightfully in embroidery.

Transfer Z9351, 15 cents, brings 7 clever motifs for a week's tea towel supply and an extra motif for a matching panholder. Send your order to:

That Nagging Backache
May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Peter B. Peeve

FIRST-AID to the AILING HOUSE

by Roger B. Whitman
(© Roger B. Whitman—WNU Service.)

Space Around Pipes
Question: What do you recommend to close up the space between pipes coming up into a room, and the floor? In our apartment there is a space between the floor and the hot and cold water pipes, also the radiator pipes, which I would like to seal up. The collars around the pipes are not sufficient.

Answer: Because of the varying temperatures and vibrations in the pipes it is not possible to fill these spaces with cement of any kind. A piece of canvas cut to fit around the pipe might help. Tack one edge of it down to the floor, and tie the other edge around the pipe. Coat the canvas with white lead paste.

Leaky Cellar
Question: In our new house water leaks into the basement from underneath the floor along the joint between floor and walls. Can this be stopped with waterproof cement? If so, will the water spoil the concrete in remaining permanently under the floor and around the foundation during the wet season? There is no sewer and no place for drainage.

Answer: If the level of your cellar floor is below the natural ground water level during the wet season, the only remedy is to apply membrane waterproofing inside the cellar. This consists of a layer or two of waterproof felt, stuck down with liquid asphalt, and held in place by four inches of reinforced concrete. The waterproofing should go up the walls to the outside ground level. Otherwise, lay drain tile under the floor around the edges, ending in a pit from which the water is automatically removed by a sump pump.

Paint After Whitewash
Question: A wooden wall in my cellar was whitewashed. I washed off the whitewash, and then, after the wood dried, put on two coats of inside oil paint. The paint softened and would not stay on. What was the reason, and what can I do about it?

Answer: Although you took off the whitewash on the surface, some of the lime of which it was made, soaked into the wood and remained. This lime affected the oils of the paint and destroyed them. After taking off the whitewash you should have rinsed the wall with a solution of zinc sulphate crystals in water; two pounds to the gallon. This would have neutralized the lime, and the paint would not have been harmed. To apply this solution you must first remove the paint that remains.

Removing Wallpaper
Question: I have been trying to remove wallpaper in my living-room by soaking it with water; but the water seems to have no effect. What else can I use that will loosen the paper and let me take it off?

Answer: Your wallpaper must have a varnished or other waterproof finish. To take it off, go over it with coarse sandpaper wrapped around a block of wood, so that this finish will be cut. Water will then be able to penetrate to the paste. Begin soaking the wallpaper at one end of a wall, using a whitewash brush or large sponge, and work on the other end. Then return to where you began, and repeat. Continue until the water has soaked and the paste has been softened. If the paper sticks, scrape with a broad putty knife.

Wallpapering
Question: My summer cottage is about 60 years old, but in good condition. The living room and lower bedroom need papering. The old paper is quite smooth and tight. Must I remove it, or can the new paper be stuck on over it?

Answer: Yes, you can apply new paper over the old, providing the old paper is in good condition and is on tightly. The old paper will have to be sized first, of course. There is always the slight chance that the paste for the new paper may strike through and loosen the paste of the old paper, in which case both old and new papers may fall off.

Questions on Painting
Question: A correspondent asks if any of the following jobs can be done when temperatures are below freezing: Cold water painting inside of a cabin. Whitewashing outside. Oil painting and puttying inside and out. Outside plastering.

Answer: Any material or paint containing water or mixed with water should not be used when temperatures are at or below the freezing point. Cold water paint or whitewash can be applied when the temperature is above freezing, but oil paint will not give satisfactory results if applied at temperatures below 50. The same applies to putty.

Heating Odor
Question: From the start of the heating season, my tenants complain of an odor coming from the steam radiators. Cleaning compound in the boiler does not stop it.

Answer: That odor comes from repeated heating of dust that has collected on the lower part of the radiator. In time, the dust may be converted into a hard crust. I have known of cases in which insects and even dead mice contributed to such an odor. The remedy is to clean the radiators, and especially the lower part.

My Week
by Eleanor Roosevelt

Sec. Hull's 'Restrain'
On my way back to Washington from New York the other morning, I read Secretary of State Hull's speech. I must say that I swelled with pride because of the great restraint of expression and firmness of humanitarian interest Secretary Hull so ably expressed. I thought some of the speeches which I have heard from Germany over the radio, and compared the sentiments expressed by Secretary Hull with those of Mr. Hitler and his subordinates. Our secretary of state offers freedom and co-operation in a joint program for world betterment, and I feel sure that our own people will heartily endorse everything he says.

I also read two speeches, one of them delivered by John Brophy before the Pennsylvania State Industrial Union Council convention at Harrisburg, Pa. The other was a speech delivered before the convention of the American Institute of Electrical Engineers, in Philadelphia, Pa., by Charles E. Wilson, president of the General Electric company.

Both speeches approach the same problem from different angles. But the spirit that lies back of the approach is so similar that one cannot believe that men of this caliber, if they could be multiplied, would not solve our difficulties in the general field of economic conditions, not only as they face us, but as they face the world. In traveling around the country, I felt more and more keenly the need for something which is presented in the Philip Murray plan mentioned by Mr. Brophy and which is suggested by Mr. Wilson in his general survey of future co-operation.

FOREIGN ELEMENTS IN U. S.
There is one subject which is troubling me increasingly and which I feel I must talk over with you. It is perfectly natural that we should be extremely anxious now to keep foreign agents from retarding our defense industries, or from creating dissension among us through their activities. We must find aliens who are here illegally and, in so doing, we must question many people who are entirely innocent of any subversive activity. For that reason I feel that only the highest caliber men, employed the legally constituted government authorities, should have anything to do with these activities. For the rest, it seems to me if we know anything really suspicious, we have an obligation to report it to the proper government authorities. Our country, however, is made up of people, many of whom have come here recently, but who are either in process of becoming citizens, or who may be citizens already, though of foreign birth or parentage.

They are probably more devoted to the democratic form of government than many of our citizens who have taken their allegiance to democracy for granted. These people must be encouraged to trust and to love their new country and their neighbors. They must be given the same opportunity the rest of us have. I am deeply troubled by certain things that have come to me. For instance, in industries, some people, because their names are Italian or German, or because they or their parents are known to have been born in those countries, are refused employment.

We, in this country, are opposing totalitarian government. We do not like Nazi or Fascist regimes. But we are not opposing the refugees who want to help us make our country safe, nor citizens who have come to us from other lands and who are loyal and good Americans. This demands from us a refusal to be hysterical and an ability to use our powers of observation, but to use them wisely.

PLEASANT GARDEN PARTY
One afternoon the cabinet ladies received with me at a small garden party for the wives of the members of the house of representatives, and the women members themselves. This is always a very pleasant party and I was delighted to have such a good day.

Then, for a few minutes, I went to the opening of the Soldiers and Sailors club, which the Women's National Democratic club is helping to finance as a defense project. It will serve, we hope, as a place of recreation and relaxation for the men in our services who come to this city.

We succeeded, somewhat breathlessly, in catching our plane for New York city, and still somewhat breathlessly, we caught the train for Portland, Maine. Here we had a leisurely breakfast and then started for Augusta, Maine, by motor, to have the pleasure of lunching with the governor and Mrs. Sewall.

It was beautiful driving through the Maine countryside. The lilacs were in bloom, the blossoms all out and there were sparkling blue water on one side and dark green pines on the hill. There is something about a beautiful Maine day which is hard to match. One forgets it for a while perhaps, but recognizes it immediately one returns to the state. There will always be a pull on my heartstrings with the first view of the dancing water and glimpses of miles of blue-green tree tops.

Transfer No. Z9351
"BOY" and "GIRL" meet over a pan of milk, and swift romance results—for the purpose of this new tea towel set. While Miss Kitty plucks flower petals to decide whether it is really love, Mr. Tom serenades on his guitar. He proposes; she accepts; they are wed—such is the story told so delightfully in embroidery.

Transfer Z9351, 15 cents, brings 7 clever motifs for a week's tea towel supply and an extra motif for a matching panholder. Send your order to:

Household News

by Lynn Chambers

FILLED WITH SPICE 'N' EVERYTHING NICE . . .
(See Recipes Below)

REFRESHMENTS PLUS!

Summer nears. You think of lots of things—new, crisp, cool clothes . . . vacation trips . . . gardening . . . and yes, even parties, especially gay ones that call for a minimum of "home work."

I think I understand. You love to have people in your home. In spite of the warmth of June days, you want those of your friends who remain in town to drop by often for conversation, relaxation and refreshments. But, of course, you want what you serve to be easy to make, delicious, entirely different from anything that you've ever served before, and economical. In the last two of these points, I've found homemakers hold a unanimous opinion.

So today I'm going to give you what I think are ace-high ideas on easy entertaining. I'm sure you'll find the recipes worth trying.

Dessert bridge parties will do wonders to round up the "Mrs." crowd who feel free, after feeding hubby and the children, to don dress-up frocks and skip out for dessert and an afternoon of fun. If your friends don't play bridge, substitute another hobby, but the serving of dessert upon the arrival of guests can nevertheless be carried out.

Serving dessert when guests arrive gives the hostess lots of leeway. She doesn't have to keep in mind that her friends will be going home to dinner soon, as she does with later-on refreshments. And, she can provide a really filling dessert.

Pictured at the top of the column is a dessert which I'm sure will answer your desires. It's

Tropical Gingerbread.

- 2 eggs
- ¾ cup brown sugar
- ¾ cup pure molasses
- ¾ cup melted shortening
- 2½ cups flour
- 2 teaspoons baking powder
- 1 cup boiling water
- 2 teaspoons ginger
- 1½ teaspoons cinnamon
- ½ teaspoon cloves
- ½ teaspoon nutmeg
- ½ teaspoon baking soda
- ½ teaspoon salt

Add beaten eggs to the sugar, molasses, and melted shortening; then add the dry ingredients which have been mixed and sifted, and lastly the hot water. Bake in small individual pans, or in a greased pan, in a moderate oven (350 degrees F.) for 30 to 40 minutes. Top with whipped cream and sprinkle with shredded coconut.

With this dessert, you'll want to serve a beverage . . . coffee, tea or perhaps an iced drink of fresh fruit mixture.

Vanilla mousse is the basis for a number of appetizing desserts, and is a good party refreshment in itself. Among the many variations are peanut brittle and chocolate fudge mousses.

To make the vanilla mousse, fold one cup of confectioners' sugar and two teaspoons of vanilla into one quart of heavy cream that has been whipped. Fold in four egg whites which are stiffly beaten.

Spread the mousse into two large refrigerator ice trays and place in the freezing compartment of your refrigerator, or, freeze in your ice

LYNN SAYS:

In thinking of party foods, I remembered these few suggestions my mother passed on to me. Maybe you'll find them helpful.

To remove pecan meats whole, cover the shells with boiling water and let them stand until cold before cracking them.

Chocolate cakes usually call for unsweetened chocolate. This blends with the cake mixture much better if it is cut in small pieces and melted, rather than grated.

Rhubarb juice is a good substitute for iced tea as a basis for iced fruit drinks.

THIS WEEK'S MENU

- Dessert-Bridge Refreshments
- Devil's Food Pudding with Ice Cream Sauce or *Orange Chiffon Cake
- Mixed Nuts Mints
- Coffee or Tea
- *Recipe given.

cream freezer. Allow three hours for the freezing. This recipe will yield two quarts of mousse.

For a crunchy surprise frozen dessert for your guests, serve peanut brittle mousse. To make it, crush ½ pound of peanut brittle with a rolling pin and fold into the vanilla mousse before it becomes solid (about 1½ hours).

If it's an extra-special party you're planning, I've included a special dessert-bridge menu in today's column. You'll spend more hours in the kitchen preparing these particular foods, but they're so-o-o good that your guests' ohs and ahs will amply reward you for your efforts.

Cream Sponge Cake.

- 1 cup sifted cake flour
 - 1 teaspoon baking powder
 - ¼ teaspoon salt
 - ½ cup cold water
 - 1 teaspoon grated lemon rind
 - 2 egg yolks, unbeaten
 - ¾ cup granulated sugar
 - 2 egg whites, unbeaten
 - 1 teaspoon lemon juice
 - 2 tablespoons granulated sugar
- Sift flour, baking powder, and salt together three times. Add water and lemon rind to egg yolks, and beat with rotary egg beater until light colored and at least tripled in volume. Add ¼ cup of granulated sugar, 2 tablespoons at a time, beating well with rotary beater after each addition; then add sifted dry ingredients, a small amount at a time, beating slowly and gently with rotary beater only enough to blend. Beat egg whites until they form rounded mounds when beater is raised; then add lemon juice and 2 tablespoons sugar, and continue beating until stiff enough to hold up in moist peaks. Fold into flour mixture. Pour into two ungreased 8-inch layer cake pans, stirring lightly while pouring. Bake in moderate oven of 350 degrees F. for 30 minutes. Remove from oven, and invert on rack until cakes are cold. Fill with Orange Chiffon Cake Filling according to directions below.

*Orange Chiffon Cake.

- 2 8-inch Cream Sponge Cake Layers
 - 1 envelope plain, unflavored gelatin
 - ¼ cup cold water
 - 4 eggs separated
 - ¾ cup granulated sugar
 - ½ cup orange juice
 - 2 tablespoons lemon juice
 - ½ teaspoon salt
 - 1 tablespoon grated orange rind
- Make and bake the Cream Sponge Cake Layers, following the recipe.

Meanwhile, soak gelatin in cold water 5 minutes. Place beaten egg yolks, 6 tablespoons sugar, orange and lemon

juices, and salt in double boiler. Cook while stirring until like custard. Add gelatin, and stir until dissolved. Remove from heat, stir in orange rind, and chill. When mixture begins to thicken, fold in meringue made by beating egg whites until frothy, but not dry, and folding in 6 tablespoons sugar gradually, while continuing to beat until stiff. Prepare cake layers for the filling by placing one layer on a cake plate; make collar of double waxed paper about 3 inches high to fit tightly around edge of cake; secure with pins or paper clips. Pour orange filling over the top of this layer; top with second cake layer; then place in refrigerator to chill until set. Before serving, remove waxed-paper collar from cake. To add finishing touch to top of cake, place lace-paper dolly over top layer, sift confectioners' sugar over it, and remove dolly carefully to preserve design.

(Released by Western Newspaper Union.)

Star Dust

STAGE-SCREEN-RADIO

By VIRGINIA VALE
(Released by Western Newspaper Union.)

GRETA GARBO has not only acquired a new hair-do for her next appearance on the screen—she's to have a new tint as well. It's a special one concocted for her by Sydney Guilaroff, Metro hair-dresser, and he has named it "Moonlight Blonde."

As for the hair-do, it's Napoleonic—a fringe, with a soft point in the back, and "a studied shagginess characterizing the whole coiffure, complete even to forelock"; there's also the influence of the Botticelli paintings, shown in a cap of short curls.

Tim Holt, young star of RKO Westerns, and his father, Jack Holt, will be seen together with Victor McLaglen and Edmund Lowe in the RKO production, "The Marines Are Ready." They'll appear as father and son for the second time on the screen. The first time was 12 years ago, when Tim, a boy of 10, played the son in his father's starring vehicle, "Vanishing Pioneers." Tim is also a skilled polo player.

Between the scenes in the houseboat dining salon that you'll see in Paramount's "Nothing But the Truth," Bob Hope, Edward Arnold, Leif Erikson and Glenn Anders were amusing themselves by filling the crystal goblets to different levels with water, then playing chimes on them with silver spoons. The prop man nearly had a fit—seems the glasses were part of a dinner service worth more than \$2,000.

"Send over to my house for something less expensive," urged Hope. "Our goblets are cottage-cheese glasses!"

Years ago Ruby Keeler was famous on Broadway for her dancing. In the days before she married Al Jolson. On the screen she danced along with other people; now she'll dance alone for the first time in pictures in a musical, "Sweetheart of the Campus," in which she shares top honors with Harriet Hilliard, Gordon Oliver, and Ozzie Nelson and his orchestra. Miss Keeler was a star at the Texas Guinan night club when a lad named George Raft used to stop the show with a skating Charleston.

Charles Boyer finished his work in Paramount's "Hold Back the Dawn" and took a train for the East; after a week's vacation he planned to go to Montreal, where he will do a series of plays in French, proceeds going to British war relief funds.

Virginia Weidler's become soloist with a band; she's spending all her time between her scenes in "Barnacle Bill" practicing in her dressing room. The band belongs to her three brothers, and has made a name for itself playing at country club dances.

Larry Parks, young Group Theater actor, played the Robert Montgomery part in tests with other actors seeking the starring role in "Heaven Can Wait"; as a result he'll have a featured part in the forthcoming Paul Kelly-Lola Lane "Mystery Ship."

If you've seen "The Lady Eve" you'll remember those slapstick falls of Henry Fonda's long after you forgot the plot of the picture. Preston Sturges, who wrote and directed the picture, is also responsible for "Sullivan's Travels"—and he started right off by dropping Joel McCrea from a rope's end into a barrel of water. Furthermore, McCrea had to wear a tramp's rags and a five-day beard. Veronica Lake is McCrea's co-star in this newest of the Sturges comedies. They say it will be as funny as "The Lady Eve."

Marlene Dietrich has selected the five men who, she says, have the most "womanpower"—she doesn't say what she means by that, except that it's the opposite of "manpower." Anyway, here's the list—Clark Gable, Orson Welles, Ernest Hemingway, Erich Maria Remarque and Howard Hughes.

ODDS AND ENDS—Olivia de Havilland and George Raft are Warner Bros. star selections for "All Through the Night" . . . Olivia's sister, Joan Fontaine, has recovered from the flu and gone back to work as Cary Grant's co-star in RKO's "Before the Fact" . . . When he finishes "Bullets for O'Hara" Roger Pryor will tour the nation's draft camps with an orchestra . . . Joan Crawford gives what's probably the best dramatic performance of her career in "A Woman's Face" . . . Metro's operatic star, Risa (Roesah) Stevens, doesn't think her name unusual—her mother's is Sahah.

FARM TOPICS

SOW TESTING IMPROVES HERD

Permits Systematic Culling Of Low Producers.

By H. G. ZAVORAL
(Extension Animal Husbandman, University Farm, St. Paul)

Swine raisers are realizing that the perfect individual animal is only one of the foundation stones of a good hog business. Getting more pigs per sow and getting quick, cheap gains from these pigs is equally important. That is why sow testing is becoming as much a part of the successful swine business as butterfat testing has been in dairying.

Sow testing is not difficult. It can be carried out by the hog raiser himself if he will take the trouble. The procedure is this:

1. Mark all the sows before farrowing so that they can be identified in records.
2. Within a week after farrowing, mark the pigs with ear notches, so that each litter can be distinguished. At the same time a record should be set up for each litter, giving sire, dam, and number of pigs of each sex.
3. Each litter of pigs should be weighed separately at weaning time (56 days is the customary age for making this comparison). The weight of litters at 56 days is in itself a very accurate basis for judging the production of sows, although the hog man can carry his records further by getting separate weights on litters at market time.

Having compiled production records on all his sows for the season, the hog raiser is then in a position (1) to cull out the old sows that did not produce well, and (2) to select gilts from the best litters to keep over.

For the breeder of purebred stock, the records assume extra importance in determining the value of boars. Already in many communities, boars from tested herds are commanding premium prices.

Carefully Prepared Wool Receives Better Prices

Care in the preparation of wool for market is one of the best ways American sheepmen can increase their profits whether they run range bands or raise farm flocks in the opinion of C. R. Townsend of the University of Nevada agricultural extension service.

"Since wool is bought and sold on a clean basis, the shrink and manner in which the fleeces are sheared and packed remains an important factor in determining the value per grease pound the producer will receive," Townsend states.

Sheep, of course, should be shorn only when fleeces are dry he says, and should be protected from moisture at all times while awaiting shipment.

"A board floor, kept clean, is the best surface upon which to shear," Townsend added. "A dirty floor or littered ground will result in the wool's picking up foreign substances, thus decreasing its value. Straw, hay, and chaff are particularly objectionable.

"Wool should be cut close, and the fleece removed unbroken. "Sheep should be tagged before the shearing operation, and tags should be sacked separately.

"The each individual fleece with good paper twine, rolled with flesh side out; this will result in a much better and more attractive appearance of the fleece. "All burry, seedy, black, gray, dead, and cotted wool should be sacked separately from clean white wool. Yearling or lamb wool should also be sacked separately, since it is much lighter shrinkage than that of the main band, is generally sold separately as original bag wools, and commands higher prices."

Farm Notes

In a frozen food locker, if temperatures rise above zero, odors may transfer from one food to another.

Nearly one-half of the 21,000,000 American youths between 16 and 24 live on farms or in villages.

All eggs produced by any one hen tend to be of a similar size, shape, color, though they may vary somewhat.

A recent study shows that 10 cows producing 300 pounds of fat annually make as much profit as 18 200-pound producers.

When cows eat bitter weeds the milk has an objectionable odor and taste.

Norway is reported to be feeding woodpulp to cattle for fodder with herring and fish meal added to give the essentials of albumen, vitamins, and minerals.

When a cow or a calf lies down stubbornly and will not lead, try holding its nostrils tightly. This usually will bring the animal to its feet in short order.

PATTERNS SEWING CIRCLE

trait neckline is wickedly becoming. This fashion makes up very charmingly in silk print, taffeta, and afternoon cottons. Easy to do.

Pattern No. 8929 is designed in even sizes 12 to 20. Size 14, 4¾ yards 39-inch material; 3¾ yards ready-made ruffling. For this attractive pattern, send your order to:

Ask Me Another

A General Quiz

1. What is the southernmost capital city in the world?
2. In what year did the first ocean steamer go through the Panama canal?
3. What denomination constitutes the largest Protestant group in the world?
4. How does the coffee consumption in the United States compare to that of the remainder of the world?
5. In what story does Jean Valjean appear?

The Answers

1. Wellington, New Zealand.
2. In the year 1914.
3. The Lutherans (61,000,000).
4. The coffee consumption of the United States far exceeds the combined consumption of all other countries.
5. "Les Miserables" (by Victor Hugo).

Lack of Zeal
There is no greater sign of a general decay of virtue in a nation, than a want of zeal in its inhabitants for the good of their country.—Addison.

THE ARMY MAN'S FAVORITE

28% LESS NICOTINE

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself.

Today—and for more than 20 years—reports from Army Post Exchanges show that Camels are the favorite cigarette.

We have two cottages, well located near center of town for sale cheap for cash. Apply at this office.

MISS WOOD GETS DEGREE

SAN MARCOS, June 4—Southwest Texas State Teachers College conferred bachelor's degrees on 138 seniors and master's degrees on 18 graduate students at the annual spring commencement here Tuesday night, May 27.

Among those receiving degrees was Miss Erma Ann Wood of Rockport, who took a degree of bachelor of arts.

President C. E. Evans, head of Southwest Texas since 1911, conferred the degrees on the candidates, who come from 81 Texas towns and cities.

ELECTION NOTICE

Pursuant to an order passed by the city council in session on June 2, 1941, an election is hereby called to be held on the 28th day of June, 1941, for the purpose of electing an alderman for Ward No. 2 to fill out the term of Alderman A. J. Adolphus, deceased.

The election will be held at the City Hall and J. C. Herring is hereby appointed as presiding judge of said election. The polls shall open at 8:00 a.m. and close at 6:00 o'clock p.m., and the election shall be held in accordance with the law governing such elections.

J. E. MOORE, Mayor.

CARD OF THANKS

We take this means of expressing our sincere gratitude and thanks to our many friends who rendered such noble assistance and expressed such heartfelt sympathy to us in the loss of our dear husband and father, and for the beautiful floral offering. May God bless each and everyone of you.

MRS. A. J. ADOLPHUS
And Family.

Fred M. Percival, veteran civil engineer of this place, is back in his home here after having served the State Highway Department for a number of years. Much of this time has been spent at Laredo, where he was resident engineer for the department. Fred has never lost interest in Rockport and has been one of our most consistent boosters, even while residing elsewhere.

SPARKS COLONY NOTES

Mr. and Mrs. J. H. Ayers of Pascagola, Mississippi, visited friends and relatives here over the weekend. They left Tuesday for their home in Mississippi via McDade and Austin. They were accompanied as far as McDade by Miss Maisie Mundine who will visit in the home of Miss Winnie Beth Mundine for a while.

Mrs. Milton Mundine and two little girls are visiting her relatives in and around McDade.

W. R. Stephens is able to be up after a long period of time.

He visited his daughter, Mrs. McGuire, and family in Aransas Pass Tuesday.

Mr. and Mrs. Titus Mundine and three little daughters of Aransas Pass were visiting Mr. and Mrs. L. F. Clark Sunday.

Mr. and Mrs. W. E. Cole and children of Estes were up in this community last Sunday on business.

Melvin Jones of this place has returned home after a business trip to Galveston and other points on business.

Burney Tedford and family of Portland visited his mother, Mrs. E. Smallwood last Sunday evening.

the **ROAD AHEAD**

Old Man Texas is today looking ahead and planning.

Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here.

Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its

products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people.

But this is only a beginning. Texas has many other raw materials, unexcelled by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market.

Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

Million Dollar Boat Parade Planned For 4th

PILOTING

Rockport is a great little city, and we believe has a still greater future. We came here this week to cast our lot with you, and to help in any way possible in keeping Rockport to the forefront as the best place to live or visit on the entire Texas coast.

We have found the people of Rockport friendly and hospitable. They have a way of making newcomers feel right at home. They are wide-awake and fully aware of the great opportunities that are here for the home-seeker, the investor, the industrialist, and of the pleasures that are enjoyed by thousands who came here every year to vacation, rest and play. That's the spirit that is necessary if the people are to keep their city moving forward, and the people of Rockport have that spirit. It is shown on every hand. New building, new industries, new investments, backed by unbounding enthusiasm. We are happy to be counted as one of you.

We are not as experienced as the Skipper before us, who has piloted this newspaper though sometimes quite turbulent waters during the past decade. We are speaking of our Dad, who last week in this column told of placing the "mantle of responsibility" upon our shoulders. He has been a great Dad. His high ideals have always been an inspiration. We feel that he has rendered a real service to Rockport as editor and publisher of the Pilot, and while we are happy for the privilege of being able to carry a measure of his responsibilities, we are glad that he will be here with us for counsel and guidance. It is an even happier privilege for us to be able to enjoy his companionship after being away for nearly a score of years.

Again, we say it is a privilege to become a citizen of Rockport and to be able to serve as the editor of your newspaper.

Baptists Buy Doub Home and Apartments

The Doub home and apartment house near the First Baptist church was purchased this week for that church by a committee appointed by the congregation for that purpose. The property consists of two buildings, one of which was used by the Rev. and Mrs. D. L. Doub for a home and will be used by the church as a pastor's home, while the other building has three apartments and will continue to be rented as such.

Rev. Daub passed away a few weeks ago and Mrs. Doub left yesterday for Oklahoma, where she will reside in the future. Rev. Jas. F. Stanley, pastor of the First Baptist church, is expected to arrive here with his family from Dallas the last of the week and will be at home in the newly acquired parsonage.

Memorial Day Services Held

Rockport honored its war dead on Memorial Day with an impressive service held at the cemetery at 4 o'clock in the afternoon. Mrs. S. F. Jackson was in charge of the program and Rev. A. Leonard Miller, pastor of the Methodist church, delivered the memorial address. The grave of soldiers were decorated with flowers as a tribute to the revered memory of each.

Memorial Day was inaugurated in Rockport three years ago by the late Miss Mary B. Sheilman, aunt of the Rev. Paul Reese of Rockport. She also inaugurated the first Memorial Day service in Westminster, Md., in 1868, and Mr. Reese's father, the late Dr. James W. Reese, made the address.

Five-County Bar Meet Held Here Tuesday

Mrs. Jack Hagar Gives Lecture on Birds and Shells at Dinner For Lawyers

Members of the 36th Judicial District Bar Association came to Rockport for their June meeting Tuesday night and enjoyed a fish dinner and program arranged by Mr. and Mrs. Fancher Archer, members of the association. Mrs. Archer, secretary of the association, was in charge of the program and dinner was given at the Rockport Pavilion on the beach.

George P. Morrell, of Beeville, president of the association, presided over a brief business session, during which John Dawson of Sinton was elected vice-president to succeed John Miller, also of Sinton, who is now serving as a captain in the United States Army. The association voted to hold the next meeting on August 2 in Aransas Pass. Hamilton Lowe, of Corpus Christi, vice-president of the Texas Bar Association, gave a report on a recent institute held in Corpus Christi at which Chief Justice James P. Alexander, of the State Supreme Court, discussed new rules pertaining to procedure and appeals. A complete transcript was made of the proceedings of the institute and printed copies will be made available to lawyers.

Mrs. Jack Hagar gave a highly interesting and informative talk on birds and shells of the coastal area around Rockport, showing a number of mounted birds, and specimens of several types of shells.

"Shells are like people. There are left handed and right handed shells," Mrs. Hagar explained, showing a left-handed whelk, known as a lightning shell. She explained how little whelks are formed, stating that the whelk left long strings of capsules in the sand of beaches to be born. A number of perfectly formed, tiny whelks were shown.

Mrs. Hagar's specimens of shells included a pretty helmet shell from which cameos are made. The shell on display had been sent to New York by Mrs. Hagar, where a cameo had been carved and left intact as a part of the shell. She explained that in the helmet family of shells there were kings, queens and princesses. She also showed a queen conk, from which pink and white cameos are made, and a large commercial mother-of-pearl oyster shell from the Philippine Islands.

During the bird section of her talk, Mrs. Hagar exhibited a dozen or more mounted specimens, including a bullocks oriole. She said the oriole was the smartest and most resourceful of birds, citing an example of finding a nest made from hair that the birds had plucked from the tails of horses and cows. A beautiful 7-color painted bunting was shown, and one of the prizes of the exhibit was a hummingbird mounted inside its tiny nest.

President Morrill thanked Mrs. Hagar for her interesting lecture and exhibit and expressed the appreciation of the association to Mr. and Mrs. Archer for arranging the enjoyable program.

Those present for the dinner and meeting included: Mrs. Jack Hagar, Rockport; Mr. and Mrs. George Morrill, Beeville; Mr. and Mrs. Fancher Archer, Rockport; Mr. and Mrs. James A. Steele, Rockport; Mr. and Mrs. Hamilton Lowe, Corpus Christi; John Dawson, Helen Dake and Mr. and Mrs. W. B. Moss of Sinton; Mr. and Mrs. L. D. Hillyer, Corpus Christi; Mr. and Mrs. Jack Blackwell, Rockport; Mr. and Mrs. John W. Turner, Mr. and Mrs. John C. Beasley, Mr. and Mrs. T. M. Cox, and Miss Alma Cox of Beeville.

Col. Dwight L. Horton of Austin visited in Rockport Monday afternoon, while on a tour of the coast section, contacting the Selective Service Boards.

British Captives of Nazis in Africa

This picture, taken somewhere in Africa, shows a group of British soldiers fresh from the fighting lines of the see-saw battle of the dark continent. They are shown in the prison camp to which they were removed after their capture by the successful Nazi and Italian forces.

New President Christian Scientists Views War as 'World House Cleaning'

JOHN RANDALL DUNN Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

Booth Elected C. of C. Vice-President

Fred Booth, active civic worker, who came here from San Antonio a year ago, was elected vice-president of the Rockport Chamber of Commerce at the regular luncheon meeting of the chamber this week. His election was to fill a vacancy created through the recent death of C. L. Harris.

Plans for the Fourth of July celebration were discussed at the meeting held in the Rockport Pavilion and committees were set to work on the program for the first anniversary celebration of completion of the new harbor and bathing beach.

Manager Fancher Archer reported that efforts were being made to secure an air show by navy planes, and that plans for the celebration were going along nicely.

Dr. Roger Knapp suggested that the chamber back a move to have nets or wire installed in the water off-shore from the bathing beach to keep the bathing waters free of jellyfish. A general discussion followed and it was decided to investigate the possibilities of providing jellyfish-free waters for bathers.

Herbie Caraway, president of the Chamber of Commerce, said Thursday that he had investigated ways and means of providing the jellyfish nets and believed that the nets can be installed as an experiment.

BOSTON, Mass., June 2—Some 6,000 Christian Scientists from many parts of the world gathered in annual meeting today in Boston were called upon by the Christian Science Board of Directors to consecrate themselves to the defense of the democratic system of government as the best human instrument for preserving the basic rights of manhood to "life, liberty and the pursuit of happiness."

In thus definitely allying this world-wide religious movement with the defenders of democracy everywhere, the Directors stated that it was their conviction that if social and political freedom is to be preserved "democratic forms of government must be maintained."

Directors' Report

The occasion for the stirring message of the Directors was the annual meeting of The Mother Church The First Church of Christ, Scientist, in Boston, Massachusetts. The Directors stated: "We are moved not by a desire to voice our own views, but to let the world know that we share with our Leader, Mary Baker Eddy, her confidence in the immortality of the Declaration of Independence that 'man is endowed with certain inalienable rights, among which are life, liberty and the pursuit of happiness.'"

Continuing the Directors said: "The preservation and incorporation of these fundamentals of true democracy in the basic law of every nation is a cause to which all Christians are morally committed, and which we as Christian Scientists are determined to defend."

Incoming President

The directors also announced the election of John Randall Dunn, long identified with the United States Immigration Service. He is a native of Massillon, Ohio, receiving his schooling there and in San Francisco and from private tutors. For a few years he was in the service of the government, but gave up his work for the healing ministry of Christian Science. He has served parts of the world.

The incoming president accentuated the theme of spiritual progress as does not portend the breaking up of civilization or the plunging of humanity into chaotic darkness."

He viewed the present conflict in the light of a world house cleaning, during which individual and national sin, tyranny, greed, self-will and lust for power are being brought to the surface of world thinking, ripe for destruction. And these ills, rather than world civilization, are the things that will be destroyed.

Colorful Water Carnival Expected To Attract Thousands Here For July Fourth Celebration

Gala Affair Planned Featuring Parade of Yachts, and Reigning Queens, Sail Boat Races, Aqua Plane Stunting, Band Concerts to be Climaxed With Colorful Fireworks Display on Bay Front

Funeral Services Held Last Friday For A. J. Adolphus

Friends Gather From Far and Near to Pay Last Respects For Beloved Citizen

Friends came from far and near last Friday afternoon to pay their last respects to Amos J. Adolphus, as his funeral was held at the family home at 3 o'clock. Rev. J. H. Kelly, pastor of Sacred Heart Catholic church conducted the services at the home, paying high tribute to his friend and the friend of everybody who knew him.

After the religious rites were read, the body was taken in charge by the Masonic fraternity and given burial with Masonic honors, a guard of honor being furnished by the Corpus Christi commandery, Knights Templar. At the graveside Irving M. Dietz of Corpus Christi read the funeral rites, members of the local Masonic lodge participating.

The pallbearers were John C. Sorenson, Joe Farned, C. W. Armstrong, O. B. Knippa, F. C. Diederich and Paul C. Sorenson. Cage Funeral Home had charge of arrangements.

Mr. Adolphus was born in Austin on January 9, 1880, his parents being Mr. and Mrs. John Adolphus. He came to Rockport about 35 years ago, later marrying Miss Mary Roberts, daughter of Mr. and Mrs. George Roberts, pioneer residents of this place. He worked with the U. S. Government Engineers for 11 years, supplying a boat for their work along the Texas coast.

He pioneered in the matter of supplying boats for hunters and fishermen coming to this place and for the past number of years maintained a wharf near the site of the causeway, where he took out hunting and fishing parties. Of recent years he has been assisted by his sons. They entertained many prominent men every year and he had friends throughout a wide territory.

He is survived by his widow, one daughter, Mrs. A. C. Shivers, three sons, Gerald, George and Joe Adolphus, all of this place. He served 15 years on the City Council and his knowledge and sound judgment was always felt in the conduct of the city's business.

Rockport Boy Promoted to R. O. T. C. Captain

The San Antonio Technical and Vocational R. O. T. C. Corps held their annual field day review and new officers were made for the coming year. Among the promotions was that of Cadet Sergeant Charles Frandolig to a captaincy.

Charles was one of twelve officers selected to go to camp with the College and University R. O. T. C. for seven weeks training at Camp Bullis beginning June 2. There will be 6,500 young men at camp from all colleges in Texas.

Charles is the son of Mr. and Mrs. Frank Frandolig and has many friends here in Rockport. He was employed here at the D. A. Bracht filling station last summer.

Mrs. D. L. Doub Leaves For Oklahoma

Mrs. D. L. Daub left Wednesday for Oklahoma City, where she will make her home in the future. She was accompanied by her daughter, Mrs. L. M. Cannon and her grandson, Harold Walls of that place, who had been here with her.

Thousands of Fourth of July celebrants will be entertained here with a thrilling and spectacular water carnival, according to plans announced this week by Fancher Archer, manager of the Rockport Chamber of Commerce.

A million dollar boat parade of majestic yachts—the second such event ever to be staged on the Texas Gulf Coast—will be the exciting high point of interest during the thrill-packed program planned for Independence Day. Lending even more wide-spread interest this year to Rockport's second annual parade of a million dollars worth of yachts will be invitations to a score of young ladies in surrounding towns and cities to come here and reign over the boat parade.

Manager Archer said work was now under way to complete the most outstanding program ever attempted for a two-day celebration here. It is planned to open the Fourth program with a band concert and spectators sail boat race inside the new small craft harbor. In rapid succession will follow aqua plane races and stunting, speedboating, swimming and diving exhibitions, the boat parade, sail boat races on the bay, judging of the visiting princesses who will ride the yachts in the parade to select a queen of the celebration, and other features.

The climaxing event of the Fourth will come at night when a brilliant and colorful fireworks show will be staged in the sky over the bay. Throughout the day there will be swimming, fishing, boating and other diversions for the great crowd that is expected to come here to celebrate July 4th.

Setting for the celebration and program events will be Rockport's small craft harbor and beautiful beach playground.

The first boat parade was held last year when the new harbor and beach were opened. Last year's event attracted such wide attention over the state that this year's crowd of spectators and participants is expected to be even greater than that of the first event.

The second day's program on July 5th will also hold great interest for visitors, including sail boat races, thrill events inside the harbor, baseball game and other features.

Corpus Christi Editor Joins Johnson Ranks

"Texas must not disappoint President Roosevelt," declared Frank B. Harrison, Corpus Christi publisher and "original" O'Daniel supporter, who was here this week with former Senator J. Manley Head in the interests of Lyndon B. Johnson for U. S. Senator.

Harrison, a consistent advocate of W. Lee O'Daniel for the governor, believes that the governor is "making the mistake of his career" in attempting the senatorial race. "Lyndon Johnson, having a wealth of actual experience in the congress at Washington plus the complete confidence of the President, is the outstanding candidate for Senator and is winning thousands of new supporters daily."

"The dictator nations have their eyes on the Texas senatorial race," Publisher Harrison declared. "If Texas fails to elect Lyndon Johnson, it means that Texas has failed the President and has placed a stamp of approval on the isolationist group in congress and has helped give a slap on the back to the Wheelers, the Nyes and the Lindberghs who are impeding the progress of the President's program for defense of our nation," Harrison said.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—In his book, "Man the Unknown," published in 1935, Dr. Alexis Carrel revealed profound misgivings as to whether any existing political organization ever could meet the requirements of a stable and humane civilization. He urged collective and concentrated scientific inquiry into the nature of the "whole man," and possibly of the organic quality of human society. The particularized knowledge of physiology and medicine he found inadequate to supply this understanding.

When he went to France recently he found a clinic and laboratory for his continued studies with the "whole man" caught in totalitarian misery, and in a wide context of spiritual and emotional stress—a zone of social pathology no doubt revealing to Dr. Carrel's deeply searching and penetrating eye.

Just why the Nazi overlords of France should want to keep him there, as reported in dispatches, is a mystery. There is no evidence that the Nazis admire him. He has been no apologist for their flagrantly unscientific and inhumane doings, and if they expect to commandeer his profound knowledge of nutrition, medicine and surgery, it is difficult to understand how they may expect co-operation.

Dr. Carrel, a keen, compact, round-headed little Frenchman, will be 68 years old next month. The world knows his 34 years with the Rockefeller Institute for Medical Research, the marvels he has wrought, including his 29-year-old living chicken heart, his distinguished contributions to medical science during the World war, and his fashioning of the mechanical heart, with the co-operation of Charles A. Lindbergh.

In the last few years he has been preoccupied with the range of human behavior lying outside and beyond medical knowledge. He visions some kind of government by a scientific elite. On August 14, 1939, just before the guns blazed, he said that civilized men must "pool their brains," or come to ultimate failure and then added: "Our America, with its democratic ideal, is based on ideologies of the Eighteenth century. If we used scientific concepts instead of ideologies, we might discover a new way of life."

HARRY WINSTON started subdividing real estate, but now subdivides diamonds and finds it more profitable. He and his expert assistants nick a \$30,000 chip off the famous Vargias diamond of Brazil, and when they get rid of roughage like this they expect to shape up a \$2,000,000 central core in the stone.

It is one of the most jittery jobs of diamond manuring ever attempted, but so far is going nicely. It took them a month and seven days to make this small, but lucrative beginning, working on the third largest diamond in the world. It will take 15 months to finish the cutting, with a phosphorous-bronze blade .0035 of an inch in thickness.

Rearing in Los Angeles, Mr. Winston learned the jewelry business with his father. Returning to New York, after a stretch in the AEF in the World war, he decided the war and its aftermath would imperil all values except those of durable old Mother Earth herself.

Land—that was the thing, in days of threatened inflation and social maladjustment. So he went into the real estate business in New York. The more he worked at it, the more safe, sound and conservative seemed the glitter of a diamond—even if traditionally baleful. He opened a wholesale jewelry business in New York and soon was gathering in some of the biggest and showiest diamonds in the world. He paid \$900,000 for the Jonkers diamond of 425 carats and \$700,000 for the Vargias stone.

DR. TOYOHICO KAGAWA, Japan's frail little Mahatma Gandhi, evangelist of world brotherhood and leader of the Christians in Japan, is in New York, in furtherance of the newly organized Church of Japan, which he helped to establish. He expresses surprise at talk of war with Japan and sees ahead a world church union which will end all wars. A tubercular little man, Dr. Kagawa has suffered jail, persecution, poverty and illness. He preaches a merger of Christianity and capitalistic economics.

The Washington Merry-Go-Round

DREW PEARSON & ROBERT ALLEN

Washington, D. C. RAILROAD TEST

For National Defense chiefs, June holds a special significance. It will indicate whether government operation of railroads may be necessary.

In June the nation's railroads will meet their first crucial test of whether they are adequately equipped to handle the enormous increase in freight resulting from the defense program.

When the wheat harvest starts in the Texas Panhandle and continues north, the carriers will be on the spot to prove their determined contention that there is no shortage of freight cars, and that they can cope with the great demands of the defense program without the government taking them over as in the World War.

Railroad moguls are fully aware that they face a decisive showdown, and they are making tremendous efforts to meet it.

Twenty-five thousand cars have been mobilized to handle the Texas crop and a strict rule has been laid down that they must be kept rolling. Cars will not be allowed to be used for storage purposes. If a shipment can't be unloaded without delay, cars will not be released.

Cars will be peremptorily recalled if shippers don't load. Circuitous routing is being eliminated. And the railroads themselves are now distributing the materials and equipment they will need months hence, so that the maximum number of cars will be available in the peak season next autumn. This alone is expected to release 20,000 freight cars.

Mechanized Cavalry.

It took a war in Europe to do it, but the U. S. army is now doing a whirlwind job of replacing cavalry with tanks and armored cars. Even Secretary of War Stimson's aide, Col. Eugene Regnier, has gone in for mechanization.

Commenting whimsically on this the other day, Secretary Stimson said: "After riding horses all his life, Gene is now commanding the first reconnaissance battalion of the First Cavalry division. He rides in a bantam scout car and has armored cars and tanks under his command. I tell him this is strange for a man who has sworn that horses are the only thing in life. But he says it takes the brains of a good cavalryman to handle a mechanized unit."

Note—Colonel Regnier deserted his swivel-chair job in Washington for El Paso, Texas, where Gen. Innes P. Swift commands one of the most active army posts in the country.

Conscientious Objectors.

Announcements that 1,100 conscientious objectors will report to non-military training camps in the next few weeks are a lot of hokey. Real fact is that only 201 draft registrants have even been classed as genuine religious objectors.

Out of the 6,000,000 questionnaires received from draft eligibles, less than 2,500 sought exemption on the ground of religious scruples. Of this number, 201 have been OK'd so far. They will train in eight camps as follows:

Fifty at Camp Patapsco, Elkridge, Md.; 14 at Grottoes, Va.; 12 at Lagro, Ind.; 32 at San Dimes, Calif.; 10 at Richmond, Ind.; 40 at Marietta, Ohio; 32 at Colorado Springs, Colo.; 10 at Cooperstown, N. Y.

While operated by the government, the camps are financed by private funds, supplied chiefly by the Quakers, Mennonites, and United Brethren. In some instances the men pay their own costs, at the rate of \$35 a month.

Australian Opinion on War

Prime Minister Menzies of Australia held some very important conversations with high Washington officials during his recent visit. In these talks he expressed every confidence that Britain would win the war, but he was hard-boiled and realistic regarding the time necessary for a victory.

Coming from Australia, which has a detached and unbiased view of the situation, his opinion is important.

"During 1941," he said, "all of Britain's effort must be concentrated on defense."

"During 1942 we can really begin to concentrate our efforts on building up a real war machine."

"And in 1943—with America's help—we can take the offensive, and we will win the war."

MERRY-GO-ROUND

The appointment of ex-Senator Sherman Minton of Indiana to the U. S. court of appeals makes the third judicial reward for a member of the famous senate lobby investigating committee, whose sensational exposes of utility lobbying led to the holding company law. Hugo Black of Alabama, chairman, is a Supreme court justice, and Lewis Schwellenbach is a federal district judge in Washington.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

U. S. Plan for Hemisphere Defense Is Charted by President's Message Proclaiming Full National Emergency; Loss of Big Ships Highlights Sea Battle

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

PLEDGE: From FDR

The war course of the United States was more firmly charted by President Roosevelt's "fireside chat," yet the reactions abroad were considered as more important than that at home, enthusiastic though it was.

For the President went "all-out" on the diplomatic limb for a victory for Britain and China, pledging a continuance of United States' aid to the embattled democracies, and promising wider action when and if needed.

The speech was believed to have settled the convoy question, the strike issue, the use of the navy in furtherance of a British victory, many other questions which had kept the people of this country in a nightmarish condition of not knowing "what was coming next."

Virtually all of the American editorial comment was favorable, though many of the editorial writers took the stand that succeeding events would show how much of the President's talk was words—how much would be backed by action.

Night following Mr. Roosevelt's speech, Sen. Burton K. Wheeler of Montana took the radio to inform the nation regarding the stand of the opposition to the President's policies. He asked the President for a new "pledge of peace."

Rome newspapers cut the Gordian knot and stated that the U. S. "was virtually in the war." German press took a more literal view of the President's speech, referred only to his "freedom of the seas" dictum, called the United States a nation attempting to be dictator of the seas.

German government sources said: "Our ships have been ordered to continue the blockade of Britain, to sink all ships coming within the combat zones, and these orders have not been rescinded and will not be." Lease-lend ships had been sunk and there was no question about it,

SENATOR WHEELER Asked for a new "peace pledge."

whether they had been patrolled or convoyed by U. S. naval ships or not. But so far no American flag ships had been sent to the bottom, for they had been keeping out of combat zones.

But that they would be sunk in the future no one seemed to doubt, and America interestedly, rather than anxiously, looked for that day to see what action would be taken.

The first shots to be exchanged between American-flag naval vessels and German planes, surface raiders or submarine were still to be fired, but most observers expected that, following the President's talk that this firing was just a matter of time, and that it might not be long.

The British reaction to the presidential address was prompt and jubilant. They accepted the pledge of American aid of a more complete and vigorous type than heretofore with enthusiasm, though the British "man in the street," not conversant with America's problems and political battlings, was rather befuddled by it all.

OPM'S: Report

Following a year of OPM functioning, Knudsen gave the country, at about the time of the President's epochal address, information which was more encouraging than anything that had come before.

Mass production, said Knudsen, was really now beginning to roll, with planes in April 1,300, in May 1,800, and similar increases, some of them more spectacular, all along the line.

The use of Cataline planes in the Bismarck battle showed that there were few British encounters now in which American-made equipment was not functioning.

Then along came the President's speech, asking for doubling of this, tripling of that, and three billions for planes—and in spite of the pressure which his demands put on the industrial situation, it began to be possible for Americans to visualize 50,000 planes, 10,000 tanks, and some of the other goals this country had set itself.

VICHY: Active Again

That Vichy was implementing her German aid was seen in British dispatches which told of the sinking of two French flag vessels in the Mediterranean, one of them a 5,000-ton tanker loaded with oil and headed for Tripoli.

At the same time the British reported the sinking of an 18,000-ton Axis liner, presumably Italian, carrying 3,000 German troops to the same destination.

These dispatches pointed, disquietingly enough, to proof of one of two things, possibly of both. Either there was being planned a strong increase in the battle of North Africa, or the Germans were moving in force to Dakar to create a strong base there.

Either of these was disquieting enough, particularly the latter, from

AMBASSADOR WINANT His recall was "just part of it."

the American point of view, but the main thing was that it showed definitely that Vichy was becoming active again, this time plainly on the German side.

It was brought to the fore again questions about the mystery of Weygand, where he was, what he was doing, what manner of man he might be. Defections of French troops to the British standard in the Near East—and crossings of the Syrian boundary by various groups to the Free French forces of De Gaulle were in the reports, lending color to the British claim that the Gaillani government was about to fall.

The Italians were getting nowhere in their general retreat in Ethiopia, and division after division was surrendering. But in spite of all this news, it was evident that the Petain government, possibly now dominated by Laval and Darlan or one of them, was getting more and more involved in the whole African and Near East campaign.

This might have far-reaching effects, not only on the present situation, but on the future disposition of national power after the war should be ended. Particularly would it affect the diplomatic interchanges going on between Vichy and the United States.

The sudden recall of Ambassador Winant to Washington for a conference with the President and the cabinet was just part of it. Vichy was in the midst of all that was moving on the continent, like a volcano emitting smoke after a long quiescent period.

SHIP: For Ship

Down to the bottom of the Atlantic ocean went H. M. S. Hood, 42,100 tons, with about 1,300 men aboard, victim of an "unlucky hit" from the 15-inch guns of the Reich's great battleship Bismarck.

Three days later, down to the bottom of the same Atlantic went the Bismarck, victim of a "lucky hit" on her propellers from a British torpedo plane.

But the whole Bismarck story, observers generally felt, might change, if it had not already changed, the whole story of naval warfare. It brought the airplane into new prominence, and showed that this arm of present-day navies had not been given the notice it deserved.

Indeed, the plane-battleship controversy got a sharper answer during the past few weeks from the Hood-Bismarck battle and the Cretan encounter of the Mediterranean British fleet with the Stukas that had thus far in the war.

In both of these battles the planes gave a good account of themselves. The British admitted the loss of two cruisers and four destroyers, in the battle of Crete, and while the ships of war prevented any ship-crossing to the island, it was at terrific cost.

It is true that planes cost a good deal, but it takes around a million dollars to build a destroyer, and anywhere from 10 to 30 millions for a bigger cruiser, and those millions lost in the Crete battle would have bought even more than the "hundreds" of Stukas engaged, and only relatively few of which were lost.

Called to Duty

One of the Roosevelt administration's most outspoken critics, Rep. Hamilton Fish (R.) of New York, has been ordered to active duty in the army. He holds the rank of colonel in the specialists' reserve. Fish will go on duty "with his consent" on July 1, reporting to Fort Bragg, N. C., for training.

CRETE: Takes Turn

The turn of events in the Battle of Crete was against the British-Greek defenders, and while the news was not decisive, British reports showed that the defenders expected to lose the battle, and the Germans were definite in claiming victory.

The Reich, however, claimed that all would be over long before it was, and seemed inclined to minimize the cost of the fight.

The British attitude, while deploring still another disaster to her arms was that "the fight was gallant, and the troops stood up under constant bombing longer than anyone had expected."

Thus again the airplane was the turn of the battle, for in the fight for Crete the British had the best of it on the sea, sending a reported 5,000 Germans to the bottom, and preventing the landing of sea-borne troops while still landing some quantities of reinforcements themselves.

On land, also, the British at the outset had the superior force, and all forces opposed to them had come in by plane.

This, from the German standpoint, was the highly favorable result of the campaign, that an army, with no land approach, could still be landed and take an island away from occupying forces who had some time to prepare their positions.

The formula? Simply to gain first, mastery of the air; second, to be willing to land men with modern weapons, even light tanks and light fieldpieces, in such ever-flowing quantities, regardless of losses, so that the enemy will finally be outnumbered; third, to keep a relentless bombing of the enemy from the skies during the battle, and an endless supply of ammunition, also from the skies, for the air-borne army.

Data that Hitler's men were able to accumulate included the fact that artillery alone cannot make an airfield unusable, despite the hundreds of shell craters created. Evidently these can be repaired even under fire, and the field still used.

Germans wondered (and British did too) whether this formula for the battle of Crete might not be transferred to Britain, and result in the capture of the British Isles. But the British felt that while the technique had worked in Crete, might it not fail over England, where air-mastery could hardly be won by an enemy willing only to come over at night; where instead of a few thousands of air-borne soldiers, close to a million would have to be sent.

The general British feeling was—let them try it, we are ready—and indeed the enormous British army of defense might well be straining for action, with the Tommies in North Africa, Crete and the Balkans getting it all.

NEAR-EAST: And Africa

The Reich, apparently fearful that American aid to Britain might change the situation, particularly in the Near-East and in North Africa, was speeding up all effort, spear-headed by the Battle of Crete, to gain control of the Mediterranean before the aid began flowing full force.

It might have been for this reason that the British felt fairly good over the Battle of Greece and the Battle of Crete, no matter what the outcome, for they pointed out that Greece and Crete had taken the Germans longer than the entire campaign against Norway, France and the Low Countries.

It was the British feeling that the wider the land battle spread itself, the worse for Germany, and no worse for Britain, because she had to so dispose her forces that all battle fronts were guarded anyway.

There were thousands upon thousands of British troops, well armed and equipped, "sitting on their hands" in England, in Singapore and in India.

So the British were trying desperately to overcome the Nazi-controlled Gaillani government in Iraq so as to be able still more to delay the eventual fall of Suez.

Salty Seas

We know that the seas are strongly impregnated with salt, but it does not strike the average person that some seas may be saltier than others. One swimming in the Atlantic ocean would not notice much difference in the salinity of the water were he swimming again in the Pacific, but if he went into the Dead sea it would be another story, for there the water is 24½ per cent salt. There is only one sea saltier, and that is the Great Salt Lake, which is 28 per cent. Of all the seas, the Caspian is the least salt, being only six-tenths of 1 per cent. The great oceans are only 3½ per cent salt, and do not vary appreciably, but inland seas of lesser area are strongly affected by the beds over which they lie, and minerals brought down by streams.

INSTALLMENT 13 THE STORY SO FAR:

Dusty King and Lew Gordon had built up a vast string of ranches. King was killed by his powerful and unscrupulous competitor, Ben Thorpe. Bill Roper, King's adopted son, was determined to avenge his death in spite of the opposi-

CHAPTER XVII—Continued
A shiver ran the length of Jody Gordon's body. Casually, as if they were talking about getting breakfast, these quiet-faced men were speaking of a proposed death—the death of a boy who had once been very close to her, and very dear. Suddenly she was able to glimpse the power and the depth of the animosity behind the mission of these men. No effort and no cost would seem to Ben Thorpe too great if in the end Bill Roper was struck out of existence.

"Jim," the younger rider said soberly, "if Roper's got his wild bunch with him—Jim, it's such a fight as none of us have ever gone into yet! When you stop to think that any time—any minute—a bunch of 'em may land in here—"

"Charley's on lookout," Jim Leathers shrugged. "We'll know in plenty time."

A silence fell, a long silence. Heavy upon Jody Gordon was the panic of an open-space creature held helpless within close walls. Her voice was low and bitter. "You're set on holding me here?"

"No call to put it that way," Jim Leathers said mildly, almost gently. But his eyes denied that mildness, so that behind him Jody sensed again the vast animosity built by the Texas Rustlers' War.

"I want a flat answer," Jody said bravely. "Are you going to give me a horse, or not?"

Once more Jim Leathers' canine teeth showed in his peculiarly unpleasant grin. "Hell, no," he said.

CHAPTER XVIII

Perhaps Lew Gordon should have known that if Bill Roper learned of Jody's disappearance at all, Roper would come directly to him.

And, knowing this, he should have prepared himself. But Lew Gordon had not met Roper face to face in nearly two years; and nothing was farther from his mind than the possibility that Roper would walk in upon him now.

Upon this night Lew Gordon was pacing the main room of his little Miles City house; forty-eight hours had passed since his daughter's disappearance and the old cattleman had lashed himself into a state of repressed fury comparable to that of a trap-baffled mountain lion, or a goaded bear. Everything that could be done to locate his daughter was being done.

He knew that Jody's disappearance was voluntary, and he knew its purpose. The brief but highly informative note that Jody had left him told him that much. It simply said:

"One of you must be made to see reason. I am going to talk to Billy Roper myself."

What this did not tell him was where Roper was, or how Jody expected to find him. Impatient of mystery and delay, he could not understand why his many far-scattered cowboys could dig up no word. For all he knew, his daughter was by this time lost somewhere in the frozen wastes of snow, in immediate desperate need of help.

Lew Gordon sat alone for a little while. For the moment his helpless anger was burned down into a heavy weariness. His mind was full of his daughter, whom he persistently pictured as a little girl, much more of a child than she actually was any more.

Suddenly it struck him how curious it was that in this bare room in which he sat there was no sign of any kind that Jody had ever been here at all. This was partly because she had never lived here nor even been expected here; but it brought home to him sharply how much of his life had been given to cattle, how little to his daughter. It made him realize how little he knew his daughter, and how little he had ever given her of himself.

This was Lew Gordon's state of mind as the door thrust open, letting in a brief lash of wintry wind; and he wheeled in his chair to face the last man on earth he had expected to see.

Bill Roper shook a powdering of dry snow off the roll of his coat collar, then stood looking at Lew Gordon in a cool hard silence as he pulled off his gloves. Once this man had been almost a son to Lew Gordon—the adopted son, in actuality, of Lew Gordon's dead partner. But a definite enmity now replaced what a little while ago had been a friendship as deep and close as the variance in their ages could permit. All the meaning of their association, almost as long as Bill Roper's life, was gone, wiped out by those two smoky years since the death of Dusty King.

For a moment or two Lew Gordon stared at him in utter disbelief. Then he whipped to his feet.

"Where is she?" he demanded intensely, furiously. "What have you done with her?"

Bill Roper no longer looked like the youngster Dusty King had raised on the trail. His gray eyes looked hard and extremely competent, old

tion of his sweetheart, Jody Gordon, and her father. After wiping Thorpe out of Texas, Roper conducted a great raid upon Thorpe's vast herds in Montana. Roper left for Lew Gordon's home when told that Jody had disappeared. Unable

beyond his age, in a face so dark and lean-carved it was hard to recognize behind it the face of Dusty King's kid. He made no attempt to answer a question which was necessarily meaningless to him. He finished pulling off his gloves, unbuttoned his coat, and hooked his thumbs in his belt before he spoke.

"I heard yesterday that Jody has turned up missing," he said. "I came to Miles hell-for-leather to see if it's so. From what I could find out down in the town, no word has come in on where she is. If that's true, I don't aim to give my time to anything else until she's found."

"You mean to deny you know where she is?" Gordon shouted.

Roper's voice did not change. "You talk like a fool," he said.

Lew Gordon's eyes were savagely intent upon Roper's face; he was trying to discover if this man could be believed.

"You may be lying," he added at last, "and you may not, but I'll tell you this—you sure won't leave here

Lew Gordon's eyes were savagely intent on Roper's face.

until I find out where my girl is. You're wanted anyway, my laddie buck; there's a legal reward on your head, right now—and part of it was put up by me."

"I heard that," Bill Roper said. "When I get ready to leave, I'll leave, all right. My advice to you is to begin using your head. I may be in a kind of funny position. But it puts me where I know things about the Montana range that neither you nor your outfits have got any clue to. If you want your daughter back you better figure to use what I know about the Deep Grass."

Lew Gordon compelled himself to temporize. What he couldn't get around was his own belief that Roper knew something definite, specific, about where Jody had gone—or had started out to go. He must have known also, in spite of the bluff to which anger had prompted him, that he could not hold Roper here when Roper decided to leave, nor force any information from him in any way whatever.

"What is it you want to know?" he asked at last, helpless, and angry in his helplessness.

"In the first place, I want to know what made you think Jody was with me?"

"You swear," Lew Gordon demanded, "you don't know the answer to that?"

"I don't swear anything," Roper said. "I asked you a question, Lew."

Lew Gordon hesitated. It was a good many years since anyone had talked to him in the tone Bill Roper took; but for once the purpose in hand outpowered the violence of his natural reaction. He turned from his litter of papers, and handed Bill Roper the little scrap of Jody's handwriting which was all she had left to indicate where she was gone.

"One of you must be made to see reason. I am going to talk to Billy Roper myself."

When Bill Roper had read that, the eyes of the two men met in hostile question.

"This looks mighty like a false lead, to me," Bill Roper said at last. "Like as if she aimed to cover up where she really went. Don't hardly seem likely she'd start out to come to me."

"I know she went looking for you because she said she did. My girl don't lie."

Roper shrugged. "Why should she do that?"

to reconcile her father with Roper, Jody had set out with Shoshone Wilce to find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilce escaped but Jody was captured. The men decided to hold her as bait.

"It was your own man talked her into it," Gordon said with menace. "My own man? What man?"

"A little sniveler called Shoshone Wilce. Everybody knows he was a scout coyote for you, before Texas ever run you out."

"Nobody run me out of any place," Roper said; but his mind whipped to something else. It was true that he talked to certain men in the town before he had come here. Now suddenly he knew that he had learned what he had come to find out. He buttoned his coat, pulled on his gloves.

Gordon confronted him stubbornly. "I mean you shan't leave here without telling me what you know."

A glint of hard amusement was plain in Bill Roper's eyes. "I know what you've told me. But I'll add this onto it. I think you'll soon have back your girl. I'm walking out of here now, Lew, because it's time for me to look into a couple of things. But I'll be seeing you—if Thorpe don't get you first."

The veins stood out sharply on Lew Gordon's forehead, high-lighted by a faint dampness. "In all fairness I'll tell you this," he said. "It's true I can't lift a gun on you, or on any man who stands with empty hands. But as soon as you're out of that door, all Miles City will be on the jump to see you don't get loose. Twenty thousand hands over your head, my boy!"

"Quite a tidy little nest egg," Roper agreed. "I'd like to have it myself."

A trick of the wind sent a great whirl of papers across the room as he went out.

He had not come here without providing that the horse which waited under his saddle was fresh and good. He struck westward now out of Miles City, unhurrying. At the half mile he found a broad cross trail where some random band of cattle had trampled the snow into a trackless pavement. He turned north in this, followed it for a mile, then swung northwest over markless snow. Now that this horse was warmed a little he settled deep in his saddle and pushed the animal into a steady trot; at that gait, even in the snow, he could expect the tough range-bred pony to last most of the night.

CHAPTER XIX

A tired horse is not much inclined to shy, toward the end of a long day's travel; and when Bill Roper's horse snorted and jumped sideways out of its tracks the rider looked twice, curiously, at the carcass which had spooked his pony. A dead pony on the winter range being a fairly common thing, he was about to ride on, when he noticed something about this particular dead pony which caused him to pull up and dismount for a closer examination.

After leaving Lew Gordon he had ridden deep into the night. Half an hour would bring him within sight of the Fork Creek rendezvous, and he was eager to push on, so that his deduction as to Jody's whereabouts might have a quick answer, one way or the other; but when he had examined the dead pony he was glad that he had checked.

This was no winter-killed pony. The bright trace of frozen blood that had first caught Roper's eye was the result of two gunshot wounds in neck and quarters.

A dark foreboding possessed Roper as he studied the dead pony. Roper himself was short-cutting through the hills, following no trail. The coincidence that he had stumbled upon the carcass in all those snowy wastes could be accounted for only in one way: both Roper and the pony had followed a line of least resistance through the hills—a line that had the Fork Creek rendezvous at its far end. His discovery told him that there had been fighting at Fork Creek within the last forty-eight hours. If he was right in believing that Jody had come to Fork Creek—

He remounted and swung northward, mercilessly whipping up his weary pony, but approaching the Fork Creek camp roundabout, behind masking hills and through hidden ravines. An hour passed before he threw down his reins and crept on hands and knees to the crest of a ridge commanding the valley of the Fork.

He moved a half mile closer and resumed his watch; but for some time he could make out nothing. Then just as the sun set, three men moved out of the cabin. For a moment or two they stood in the snow close together. One went back into the cabin. The two others disappeared for a moment, to reappear mounted. They separated, and Roper watched them ride in opposite directions up the nearest slopes of the hills. These passed beyond his sight, but in another minute or two their ways were retraced by two other riders.

"Outposts," Roper decided. "Somebody's keeping a hell of a careful watch."

Hand-Crocheted Hat, Bag Sets, To Be Popular This Summer

By CHERIE NICHOLAS

NOW that dame fashion has given a high rating to hand-crocheted garments, it behooves every style-minded woman to stop, look and listen to what is being said and done in regard to this very smart trend. Via a simple crochet hook, a spool or so of crochet cotton, or perhaps a skein or so of washable cotton yarn, lovely-to-look-at styles may be made.

You could search everywhere and it would be difficult to find anything more fetching in hat and bag sets than the masterpieces in crochet artistry such as here pictured. Even if you have never crocheted before, with a little application and a willingness to "live and learn," you can crochet for yourself a whole collection of accessory items every bit as pretty and wearable as those here shown. A fascinating pastime you will find it, too, for the work is easy and the cost of crochet cottons low.

Doesn't the very sight of the cunning fashions illustrated make your fingers fairly tingle to crochet and crochet until you have acquired a number of accessories to wear with your summer outfits?

Have you ever tried crocheting with heavy cotton rug yarn, bolifast and washable. The work just speeds along. In no time you can finish a new hat and bag. The attractive high-crowned turban-and-bag twosome shown to the left in the picture is crocheted of heavy white cotton rug yarn. It also comes in colors. You will be surprised and delighted at how quickly this set can be made. There's nothing intricate or tedious about it!

For the star-trimmed crochet pillbox and matching round bag to the

right, use mercerized cotton thread. The star detail is somewhat military in effect, as so many fashions are this summer. Mercerized cotton thread was used also for the beret in the inset below. Note the colorful crochet emblem which adorns the front of the crown.

Describing other attractive crochet themes, a prim little Gibson sailor is worth noting. It is crocheted of mercerized cotton in a firm, even, single stitch and is so manipulated it keeps in perfect shape. A cluster of crochet berries in self color is its only trim. Be assured this sailor is very good looking.

As clever a headpiece as any modern school girl would want is the "pigtail calot." It is really very similar to the popular schoolgirl "beanie" and is worn on the back of the head in exactly the same manner. The novel and amusing part is a long braid of yarn that starts from the crown center of the calot and dangles to the waist in back, just like a Chinaman's pigtail. To add more interest, the braided yarn is tied with a hair ribbon in school-girl fashion.

If it is a lace-trimmed hat you want, it may be crocheted in a lacy open-work stitch and when finished, starched very stiff.

(Released by Western Newspaper Union.)

New Sports Fabric

This very good-looking frock is made of a new and unusual sports fabric, which, because of its outstanding attractiveness plus its dependable wearability, may be regarded as a real "find" for women who seek reliable materials. It is a rough crepe, one of a number of new creative fabrics done in Celanese rayon and silk. Woven with a special twist in the yarn, a pleasing unevenness is produced—best described as a splash effect. This charming frock will be well liked both because of the ripple-surfaced crepe that fashions it and because of the promise it carries of satisfactory wearableness. Note how smartly it is styled, with the new accented hipline.

Open-Throat Necklines

Low-cut necklines are increasing in popularity. In blouses it is the open-throat turn-back collar type that leads. Dresses have very low V-shape lines. Whether necklines are square, round or heartshape, they are low cut this summer.

New Cottons Make

Fashion Headlines

Cottons are not news, but the cotton materials manufactured today are not only news, but front page news!

One of the highspots on the summer program of cottons is the suit of crinkly seersucker. At the races fashion-wise women are wearing these suits. The perfected tailoring of these suits gives them a thoroughbred air that is recognized at a glance.

Chambray is also gaining in popularity. Emphasis on striped chambray leads to such intriguing styling as the dress of monotone chambray that is detailed with stripes. Matching hat and bag complete the costume.

A word about the new colorful denims and gabardines. The latest message is bright yellow denim for play clothes. And flowered chintz is seen in both formal and informal dresses.

In the evening cottons go forth in party frocks of gingham and flowered prints, and in peasant skirts with blouse or middy tops. This season's cotton sheers never were prettier.

Cotton Fabric-Type Lace

Enters Fashion Picture

Lace is "all set" for a tremendous vogue this summer. Special emphasis is on a new allover—patterned cotton lace that is so fabriclike that it is practical for dresses, redingotes and all types of summertime ensembles, including the suit tailored of starched cotton lace, either in white or colors.

Week-End Matchmates

Practically a complete wardrobe within itself is the five-piece matchmate cottons now selling throughout stores the country over. Very practical and very attractive are these ensembles made up of five pieces—pajamas or slacks, shorts, bra-top, butcher-boy smock and knee-deep coat.

Piano an Accomplishment You Can Teach Yourself

Short-Cut Way to Learn Music

A HAPPY accomplishment to play the piano, to entertain with the latest hits. As for that special man, his favorite tune lures him like a magnet! Learning to play isn't hard. You read music quickly with the aid of a chart which shows life-size the main part of the keyboard.

Tempted to learn how? Do! Our 24-page instruction book, with life-size keyboard chart, explains elements of music, time, chord building. Has three favorite pieces for practice. Send for your copy to:

READER-HOME SERVICE

HOUSEHOLD HINTS

There is nothing so handy in a kitchen as a shelf above the sink for soaps, etc.

A wire screen, galvanized steel or copper, can be fitted over the tops of roof gutters to keep out leaves and trash.

Covering uncooked meats placed in the refrigerator favors bacterial growth.

Glassware takes on the highest polish if dried directly from hot, clean suds without being rinsed.

Add a little sweet cream to your cake icing and it will not get too hard.

If laundering water is too hot, it sets the soil. If too cool, it will not loosen the soil. If you can put your arm down into the water, but cannot leave it there because of the heat, it is of the right temperature.

Offensive odors coming from sinks and drains can be eliminated by pouring in a strong solution of borax and hot water.

Seven Men Needed For Every Plane In Air

VICTORIA, June 4—"For each plane in the air, at least seven skilled men are required on the ground." Thus Sergeant John L. Marx, of the U. S. Army Recruiting Station here, described one of the problems now being solved by the U. S. Army Air Corps as it

plunges into the greatest job in its history—rapid expansion destined to make it one of the strongest air forces in the world.

And skilled men don't grow on trees. The Air Corps knows this, answer. "Give us the material," Sergeant Marx said, but it has an Air Corps men say, in effect, "—good men, intelligent and ambitious, and we'll give them the skills." Which is why the sergeant told his story today. The Air Corps needs more men to fill its growing needs. If they are mechanics and machinists, welders and electricians, clerks and typists to start with, so much the better. But they need not be, for the Air Corps maintains an extensive system of schools for the express purpose of making craftsmen, artisans and skilled workers out of raw material.

To supply the thousands of men required for work of all types, the Air Corps system of technical schools is maintained with headquarters at Chanute Field, Illinois. Here regular courses are given for mechanics, machinists, metal workers, welders, link trainer instruct-

ors, parachute riggers, teletypists, and weather observers. In addition there are advanced courses in carburetor, electrical, instrument and propeller work and weather forecasting. When a young man completes one of these courses he is expected to be eligible for the rapid promotion which expansion of the corps makes possible.

Requirements are simple, the sergeant said. The prospective student must be between the ages of 18 and 35, unmarried, normal physically, and possessed of a high school education or its equivalent. Enlistment in the Air Corps is for three years. During this time the young soldier may decide to make the Air Corps his career, but in any event he is afforded an opportunity to learn trades which undoubtedly will be of use to him in later life.

Sergeant Marx urges young men who are ambitious and desiring to go ahead to query him about the opportunities of the Air Corps. The Recruiting office is located in the Post Office building in Victoria.

"I know it sounds trite," he said, "But it really is a case of 'getting in on the ground floor,' though it certainly isn't of 'first come first served.' They'll all have an equal opportunity. We need them."

Some years ago Robert Quillen, the noted paragrapher, in a whimsical mood erected a monument to Eve. Now his fellow South Carolinian, J. Foster Carter of Chester, has placed a stone inscribed "Adam, the First Man," in his Martin Van Buren was vice-president then in effect.

Dentist in Regent, N. D., report nerves in any of her teeth. The teeth are solid formations, with out nerve canals, although they are in every other way similar to normal teeth.

Early Rockport Doctor Designed Stamp of Confederacy Under Call From President Jefferson Davis

The birthdate of Jefferson Davis, president of the Confederate States on June 3 brought to light an interesting story from Mrs. Kate C. Ezel. Mrs. Ezel is the daughter of the late Dr. John Andrew Clarke, who was a general practitioner of this section during the early 70's.

When the Southern States seceded from the Union and Jefferson Davis was inaugurated president on Feb. 18, 1861, the Confederacy was in need of a stamp. President Davis issued a call and Dr. Clarke, who was an artist, responded with a design that was officially adopted. The stamp bears the name of Dr. Clarke, in recognition of his service to the Confederacy.

"I have seen the stamp, which is very valuable," Mrs. Ezel said. "I was offered \$700 for one stamp many years ago."

Dr. Clarke was well-known to the old-time residents of Rockport. In addition to the practice of medicine he was once mayor of Rockport, president of the school board and worked on securing one of the first school houses for Rockport.

During his residence here Dr. Clarke did a great deal of scientific research work on the wild life and marine life of the Texas coast and its waters, particularly around Rockport. In 1860 he sent specimens of marine life, birds, nests and eggs to the Smithsonian Institute.

"I had a letter a few days ago from Dr. S. W. Geiser of the Southern Methodist University asking for biological research work that my father did in Southwestern Texas, especially on the coast near Rockport," Mrs. Ezel stated. "His works are recorded at the Smithsonian Institute as one of the early works on the scientific life of Texas."

WE THE PEOPLE OFFICE OF PRODUCTION MANAGEMENT

Office of Production Management today issued the first of a series of posters to be distributed primarily to all firms engaged in defense work. In addition, the poster will be displayed in all postoffices.

The poster reads, "We, the people"**ARM FOR DEFENSE**" and carries the official emblem of the OPM. Additional copies are available on request through the Division of Information, Office for Emergency Management, Washington, D. C.

Frank Deschaine of Jackson, Mich., for 18 years was blind in his left eye. Recently he rubbed it vigorously, and the sight was restored.

Ind., placed this sign on his garage: "Nothing inside." Burglars ignored it, however, and got at \$35.

NOTICE OF SHERIFF'S SALE

By virtue of an order of sale issued on the 27th day of May, 1941, out of the District Court of Tarrant County, Texas, 17th Judicial District, in Cause No. 27518-A, styled The Fort Worth National Bank vs. R. G. Flowers et al, I did on the 2nd day of June, 1941, levy on the following described land as the property of the above defendants as of the 16th day of April, 1938, situated in Aransas County, Texas, to-wit:

Lot No. 1, Block No. 523, Town of Aransas Pass;
Lot No. 17, Block No. 223, Burton and Danford Subdivision;
Lot No. 15, Block No. 782, Town of Aransas Pass;
Lot No. 5, Block No. 769, Town of Aransas Pass;
and I will on the 1st day of July, 1941, same being the first Tuesday in July, 1941, between the hours of ten (10) o'clock A. M., and four (4) o'clock P. M., offer the said land for sale at public vendue for cash at and in front of the courthouse door of Aransas County, Texas, in the city of Rockport.

Alice Thomerson,
Sheriff of Aransas County

NORA EDDA MICHNA MARRIES WILLY ROBBINS WEDNESDAY

The parish house of the Sacred Heart Catholic Church was the scene of a wedding last Wednesday night when Miss Nora Edda Michna, daughter of Mr. and Mrs. E. A. Michna of this place became the bride of Willy Robbins, of Corpus Christi, son of Mr. and Mrs. Clarence Robbins of Aransas Pass. The Rev. J. H. Kelly officiated at the ring ceremony. They were attended by Mr. and Mrs. Fred Perrenot of Corpus Christi, Miss Jane Michna and Orrian Stewart.

The bride wore a dusty rose creep street dress with matching accessories. Mrs. Perrenot was attired in a yellow and white ensemble with British tan accessories and Miss Jane Michna wore white sharkskin with tan accessories. Following the ceremony an informal reception was held at the home of the bride's parents, after which Mr. and Mrs. Robbins left for their home in Corpus Christi.

Mr. and Mrs. Fred Johnson of Sinton and Mr. and Mrs. W. M. Gordon of Bay City were week-end guests in the home of Mr. and Mrs. Charles T. Picton.

Mr. and Mrs. Wm. Baumgartner of Refugio, accompanied by their daughter, Mrs. Iris Clarkson, and Miss Juanita Davis, were in Rockport Monday visiting friends and looking after their real estate interests here.

Return of College and University Students Enlivens Social Season Here

Back from colleges and universities this past week-end came most of Rockport's young men and women who have been pursuing the paths of higher education. Their return has enlivened the summer social season here.

Among those returning home for the summer vacation were: Miss Clara Louise Johnson and Carol and Arthur Perrenot, A. & I. College, at Kingsville; Miss Mary Beth Picton, Incarnate Word College, San Antonio; Allyn Roberts, St. Mary's University, San Antonio; Louis Stumberg, Corpus Christi Junior College; Miss Hazel Gilstrap, Rice Institute, Houston; Miss Mary Jo Bracht, Blessed Sacrament Academy, San Antonio; Miss Annie Ruth Jackson, Glenn Mills, Fred Bracht, Jr., Billy Ferris, George Brundrett and Edward Stumberg from Texas University. Stumberg was married last Friday to Miss Helen Morris of Luling and they will make their home at Terrell Wells in San Antonio.

Mrs. Pat Hooper Hostess to Auxiliary Circle No. 1 At Presbyterian Church Monday Afternoon

Members of the Auxiliary Circle No. 1 of the Presbyterian church met Monday afternoon at the home of Mrs. Pat Hooper. An interesting program was conducted by Mrs. J. L. Fenner, the subject up for discussion being "America on Wheels." Mrs. W. H. Morrison led the Bible study. Refreshments of lemon cream pie, candy and cold drinks were enjoyed. Those present included: Mrs. Henry Stumberg, Mrs. James Lathrop, Mrs. Manch Brundrett, Mrs. Floyd Smith, Mrs. Lucille Little, Mrs. Mabel Bryant, Mrs. W. H. Morrison, Mrs. J. L. Fenner, and the hostess, Mrs. Hooper.

Senior Class From Delhi Oklahoma Visits Here

Eighteen members of the senior class of the Delhi, Oklahoma, high school spent two days here enjoying the many attractions of Rockport. The group made the trip here in a school bus and were accompanied by Professor W. E. Askins, who was in charge of the tour. With the class on the trip was Bill Stringer, former Rockport resident, who left here about four years ago.

BAPTIST W. M. U. MEETS THURSDAY AFTERNOON

The Baptist W. M. U. will meet Thursday afternoon at 3:30 in the church.

Mr. and Mrs. Walter Henshaw and family of San Antonio have arrived here to spend the summer and are comfortable domiciled in their summer home, known as the Mathis place.

LAKANGE-IVES.

George Eleon Ives and Miss Louise Lankange of Aransas Pass were married here Saturday afternoon. The ceremony was performed by Justice of the Peace William B. Priddy in his office.

A New York beggar was found to be keeping two big automobiles. Perhaps that is why he had to beg.

Henry Stumberg Weds Miss Helen Morris At Luling Friday Noon; To Make Their Home in San Antonio

Miss Helen Bradford Morris, daughter of Mr. and Mrs. Ned B. Morris of Palestine and Henry Edward Stumberg, Jr., son of Mr. and Mrs. Henry E. Stumberg of Rockport, were married at high noon Friday in the Presbyterian church at Luling, with the Rev. Rodney Sunday performing the ring ceremony in the presence of the immediate families. Louis Stumberg, brother of the bridegroom was the only attendant.

Miss Morris wore a white street ensemble with matching accessories and a corsage of gardenias. After a short wedding trip Mr. and Mrs. Stumberg will be at home in San Antonio for the summer. Both are students at the University of Texas where the bride is a member of Zeta Tau Alpha and they expect to resume their courses there next fall. Stumberg has also attended St. Mary's University in San Antonio and his wife attended Mary Baldwin school for girls in Virginia.

Mr. Stumberg is a graduate of the Rockport high school, completing his studies here with the class of 1937.

SHOWER GIVEN FRIDAY FOR MRS. ROBBINS

Miss Jane Michna entertained with a miscellaneous shower Friday afternoon, honoring her sister, Mrs. Willy Robbins, the former Miss Nora Edda Michna. A color scheme of pink and white was carried out in the flower arrangements and also in the table appointments and refreshments. Guests present included Mrs. H. D. Robbins, Mrs. Melvin Jones, Mrs. A. E. Michna, Mrs. Rob Johnson, Mrs. Jimmie Walton, Mrs. Ben Dupnik, Mrs. Dudley Lowe, Miss Thelma Stephens, Miss Wanda Crawford, Miss Vesta Nell Morgan, Miss Mary Gaskin, Mrs. Fred Perrenot of Corpus Christi and Mrs. Clarence Robbins of Aransas Pass.

Surprise Reunion Held Sunday at Home of Christensens

A pleasant family reunion was held Sunday at the home of Mr. and Mrs. William Christensen, when a number of relatives gathered there early in the morning to spend the day. The gathering came as a surprise to Mr. and Mrs. Christensen. Those present to enjoy the day included: Mr. and Mrs. J. W. Pruitt and daughters from Edna, Mr. and Mrs. Felton Rice and Betty Jane Rice of Anahuac, Mr. and Mrs. H. L. Hunt of Ingleside, Mrs. Marlin Nickelson of Corpus Christi, Miss Laverne Pruitt of Corpus Christi, and Misses Dot and Lois Hall of Falfurrias.

Jim Jackson, instructor on the Schreiner Institute faculty at Kerrville for the past two years, is spending a few days at home here with his parents Mr. and Mrs. S. F. Jackson.

Rockport Girl On Graduation Trip To North Hollywood

Miss Ruth Linda Herring, graduate of the Rockport high school, is now sojourning in North Hollywood, Calif., the trip to California coming as a graduation gift from her brother, John Lee Herring, who is a resident of North Hollywood.

Miss Herring, accompanied by her brothers, Jimmy and David Herring, went to Cuero last Saturday to spend the night with her sister, Mrs. W. L. Patrick. Mrs. Patrick and her brothers accompanied Miss Herring to San Antonio where she boarded a train Sunday for California.

Mrs. Patrick returned to Rockport with her brothers and is spending the week here in the home of her parents, Mr. and Mrs. James C. Herring.

Rockport High School Students Have Picnic

A group of high school students, chaperoned by Mrs. Travis Owens, had a swimming party and picnic on the beach, Wednesday night. Attending were Miss Natalie Smith, Miss Bonnie Jean Smith, Miss Dixie Townsend, Miss Margaret Schuster, Miss Alberta Court, Miss Edna Spencer, Miss Maisie Mundine, Gene Hunt, Willy Schuster, Garnett Saint, Leslie Sparks, Roy Mullinax, Mac Turner, Charles Roe, Jimmy Cruiser and H. G. Simpson.

Women to Organize Soft Ball Team Here Saturday

A meeting of all women interested in organizing a softball team here has been called for Saturday afternoon. The meeting place will be the ball park and the time 4 p. m. Those sponsoring the organization of the women's softball team urge that every woman interested in playing be at the meeting so that no time will be lost in getting the team formed.

Rockport had an outstanding women's softball team last season, winning a number of big games. Equipment for the team will be that used last year.

Mrs. A. Edmison has been visiting her daughter, Mrs. L. E. Meider of Robstown. Returning the visit Mrs. Meider and daughter are spending a few days here with her mother.

Eastern Star Officers Installed Monday Night

A profusion of flowers in the colors appropriate to the Order of the Eastern Star was used in decorating the Masonic Hall Monday night, the occasion being the installation of officers of that organization with Mrs. Maggie B. Moody of Corpus Christi, Past Grand Matron of Texas acting as Grand Installing officer, Mrs. Jas. G. Hooper, Grand Conductress and Mrs. Mabel K. Bryant, Grand Chaplain.

On behalf of the chapter, Mrs. S. F. Jackson presented flowers to Miss Ruth Maxwell of Corpus Christi, who was installed Worthy Matron, to Miss Iris Sorenson, Junior Past Matron of the local chapter and to Mrs. Stella Stimpson of Corpus Christi and a gift to Mrs. Moody.

During the social hour which followed the installation, Mrs. Jas. G. Hooper presided over the tea table. The lace covered board had for a centerpiece a miniature "Ruth" in a field of barley with crystal cornucopias of small yellow daisies and tall yellow tapers in holders of the five emblematic colors of the order on either side. Mrs. Fred Brundrett presided at the punch bowl and Miss Sorenson served the cake, a star-shaped confection embossed in the colors of the order.

Officers installed included Miss Ruth Maxwell, Worthy Matron; A. C. Glass, Worthy Patron; Mrs. Fred Brundrett, Associate Matron; Fred C. Diederich, Associate Patron; Mrs. I. E. Allemang, Secretary; Mrs. Diederich, Treasurer; Mrs. Beverly Sorenson, Conductress; Mrs. Eunice Piper, Associate Conductress; Mrs. E. H. Norvell, Chaplain; Mrs. Bertha Harper, Marshal; Mrs. John C. Sorenson, Organist; Mrs. Charlie Davis, Adah; Mrs. Mabel Bryant, Ruth; Mrs. S. F. Jackson, Ester; Mrs. Robert DeForest, Martha; Mrs. John Townsend, Electa, Miss Iris Sorenson, Warder; Mrs. James G. Hooper, Sentinel.

(© Roger B. Whitman—WNU Service.)

Space Around Pipes
QUESTION: What do you recommend to close up the space between pipes coming up into a room, and the floor? In our apartment there is a space between the floor and the hot and cold water pipes, also the radiator pipes, which I would like to seal up. The collars around the pipes are not sufficient.

ANSWER: Because of the varying temperatures and vibrations in the pipes it is not possible to fill these spaces with cement of any kind. A piece of canvas cut to fit around the pipe might help. Tack one edge of it down to the floor, and tie the other edge around the pipe. Coat the canvas with white lead paste.

Leaky Cellar
QUESTION: In our new house water leaks into the basement from underneath the floor along the joint between floor and walls. Can this be stopped with waterproof cement? If so, will the water spoil the concrete in remaining permanently under the floor and around the foundation during the wet season? There is no sewer and no place for drainage.

ANSWER: If the level of your cellar floor is below the natural ground water level during the wet season, the only remedy is to apply membrane waterproofing inside the cellar. This consists of a layer or two of waterproof felt, stuck down with liquid asphalt, and held in place by four inches of reinforced concrete. The waterproofing should go up the walls to the outside ground level. Otherwise, lay drain tile under the floor around the edges, ending in a pit from which the water is automatically removed by a sump pump.

Paint After Whitewash
QUESTION: A wooden wall in my cellar was whitewashed. I washed off the whitewash, and then, after the wood dried, put on two coats of inside oil paint. The paint softened and would not stay on. What was the reason, and what can I do about it?

ANSWER: Although you took off the whitewash on the surface, some of the lime of which it was made, soaked into the wood and remained. This lime affected the oils of the paint and destroyed them. After taking off the whitewash you should have rinsed the wall with a solution of zinc sulphate crystals in water; two pounds to the gallon. This would have neutralized the lime, and the paint would not have been harmed. To apply this solution you must first remove the paint that remains.

Removing Wallpaper
QUESTION: I have been trying to remove wallpaper in my living-room by soaking it with water; but the water seems to have no effect. What else can I use that will loosen the paper and let me take it off?

ANSWER: Your wallpaper must have a varnished or other waterproof finish. To take it off, go over it with coarse sandpaper wrapped around a block of wood, so that this finish will be cut. Water will then be able to penetrate to the paste. Begin soaking the wallpaper at one end of a wall, using a whitewash brush or large sponge, and work on the other end. Then return to where you began, and repeat. Continue until the water has soaked and the paste has been softened. If the paper sticks, scrape with a broad putty knife.

Wallpapering
QUESTION: My summer cottage is about 60 years old, but in good condition. The living room and lower bedroom need papering. The old paper is quite smooth and tight. Must I remove it, or can the new paper be stuck on over it?

ANSWER: Yes, you can apply new paper over the old, providing the old paper is in good condition and is on tightly. The old paper will have to be sized first, of course. There is always the slight chance that the paste for the new paper may strike through and loosen the paste of the old paper, in which case both old and new papers may fall off.

Questions on Painting
QUESTION: A correspondent asks if any of the following jobs can be done when temperatures are below freezing: Cold water painting inside of a cabin. Whitewashing outside. Oil painting and putting inside and out. Outside plastering.

ANSWER: Any material or paint containing water or mixed with water should not be used when temperatures are at or below the freezing point. Cold water paint or whitewash can be applied when the temperature is above freezing, but oil paint will not give satisfactory results if applied at temperatures below 50. The same applies to putty.

Heating Odor
QUESTION: From the start of the heating season, my tenants complain of an odor coming from the steam radiators. Cleaning compound in the boiler does not stop it.

ANSWER: That odor comes from repeated heating of dust that has collected on the lower part of the radiator. In time, the dust may be converted into a hard crust. I have known of cases in which insects and even dead mice contributed to such an odor. The remedy is to clean the radiators, and especially the lower part.

My Week
by Eleanor Roosevelt

Sec. Hull's 'Restrain'

On my way back to Washington from New York the other morning, I read Secretary of State Hull's speech. I must say that I swelled with pride because of the great restraint of expression and firmness of humanitarian interest Secretary Hull so ably expressed. I thought some of the speeches which I have heard from Germany over the radio, and compared the sentiments expressed by Secretary Hull with those of Mr. Hitler and his subordinates. Our secretary of state offers freedom and co-operation in a joint program for world betterment, and I feel sure that our own people will heartily endorse everything he says.

I also read two speeches, one of them delivered by John Brophy before the Pennsylvania State Industrial Union Council convention at Harrisburg, Pa. The other was a speech delivered before the convention of the American Institute of Electrical Engineers, in Philadelphia, Pa., by Charles E. Wilson, president of the General Electric company.

Both speeches approach the same problem from different angles. But the spirit that lies back of the approach is so similar that one cannot believe that men of this caliber, if they could be multiplied, would not solve our difficulties in the general field of economic conditions, not only as they face us, but as they face the world. In traveling around the country, I felt more and more keenly the need for something which is presented in the Philip Murray plan mentioned by Mr. Brophy and which is suggested by Mr. Wilson in his general survey of future co-operation.

FOREIGN ELEMENTS IN U. S.

There is one subject which is troubling me increasingly and which I feel I must talk over with you. It is perfectly natural that we should be extremely anxious now to keep foreign agents from retarding our defense industries, or from creating dissension among us through their activities. We must find aliens who are here illegally and, in so doing, we must question many people who are entirely innocent of any subversive activity. For that reason I feel that only the highest caliber men, employed the legally constituted government authorities, should have anything to do with these activities. For the rest, it seems to me if we know anything really suspicious, we have an obligation to report it to the proper government authorities. Our country, however, is made up of people, many of whom have come here recently, but who are either in process of becoming citizens, or who may be citizens already, though of foreign birth or parentage.

They are probably more devoted to the democratic form of government than many of our citizens who have taken their allegiance to democracy for granted. These people must be encouraged to trust and to love their new country and their neighbors. They must be given the same opportunity the rest of us have. I am deeply troubled by certain things that have come to me. For instance, in industries, some people, because their names are Italian or German, or because they or their parents are known to have been born in those countries, are refused employment.

We, in this country, are opposing totalitarian government. We do not like Nazi or Fascist regimes. But we are not opposing the refugees who want to help us make our country safe, nor citizens who have come to us from other lands and who are loyal and good Americans. This demands from us a refusal to be hysterical and an ability to use our powers of observation, but to use them wisely.

PLEASANT GARDEN PARTY

One afternoon the cabinet ladies received with me at a small garden party for the wives of the members of the house of representatives, and the women members themselves. This is always a very pleasant party and I was delighted to have such a good day.

Then, for a few minutes, I went to the opening of the Soldiers and Sailors club, which the Women's National Democratic club is helping to finance as a defense project. It will serve, we hope, as a place of recreation and relaxation for the men in our services who come to this city.

We succeeded, somewhat breathlessly, in catching our plane for New York city, and still somewhat breathlessly, we caught the train for Portland, Maine. Here we had a leisurely breakfast and then started for Augusta, Maine, by motor, to have the pleasure of lunching with the governor and Mrs. Sewall.

It was beautiful driving through the Maine countryside. The lilacs were in bloom, the blossoms all out and there were sparkling blue water on one side and dark green pines on the hill. There is something about a beautiful Maine day which is hard to match. One forgets it for a while perhaps, but recognizes it immediately one returns to the state. There will always be a pull on my heartstrings with the first view of the dancing water and glimpses of miles of blue-green tree tops.

THINGS for You TO MAKE

Transfer No. Z9351

"BOY" and "GIRL" meet over a pan of milk, and swift romance results—for the purpose of this new tea towel set. While Miss Kitty plucks flower petals to decide whether it is really love, Mr. Tom serenades on his guitar. He proposes; she accepts; they are wed—such is the story told so delightfully in embroidery.

Transfer Z9351, 15 cents, brings 7 clever motifs for a week's tea towel supply and an extra motif for a matching panholder. Send your order to:

Chained Tongues

Amyclae in ancient Greece had been harassed so often by false reports of an invasion by the Spartans that a stringent law was passed forbidding anyone to mention the enemy again. Shortly afterward, the Spartans did arrive and, as no one dared to give the alarm, Amyclae was captured and went down in history as "the city that perished through silence."

Words a Drug

Words are, of course, the most powerful drug used by mankind.—Kipling.

That Nagging Backache

My Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Money Lure
Everything about the British air headquarters was interesting to the visitor, and he asked a never-ending string of questions.
"Say," he exclaimed, "how is it that you have so many Scots among your pilots?"
The guide, a bit fed up, snatched at the opportunity.
"Well, sir," he said, "since the Scots have learned that every cloud has a silver lining, we can't keep 'em out."

ABSOLUTELY SURE
"Are you sure that your eggs have no chickens in them?"
"Yes, sir. They are duck eggs."

Answer Please
Teacher (lecturing on perseverance)—He drove straight to his goal. He looked neither to the right nor to the left, but pressed forward, moved by a definite purpose. Neither friend nor foe could delay him nor turn him from his course. All who crossed his path did so at their own peril. What would you call such a man?
Graduate (quickly) — A truck driver!

FILLED WITH SPICE 'N' EVERYTHING NICE . . .
(See Recipes Below)

REFRESHMENTS PLUS!

Summer nears. You think of lots of things—new, crisp, cool clothes . . . vacation trips . . . gardening . . . and yes, even parties, especially gay ones that call for a minimum of "home work."

I think I understand. You love to have people in your home. In spite of the warmth of June days, you want those of your friends who remain in town to drop by often for conversation, relaxation and refreshments. But, of course, you want what you serve to be easy to make, delicious, entirely different from anything that you've ever served before, and economical. In the last two of these points, I've found homemakers hold a unanimous opinion.

So today I'm going to give you what I think are ace-high ideas on easy entertaining. I'm sure you'll find the recipes worth trying.

Dessert bridge parties will do wonders to round up the "Mrs." crowd who feel free, after feeding hubby and the children, to don dress-up frocks and skip out for dessert and an afternoon of fun. If your friends don't play bridge, substitute another hobby, but the serving of dessert upon the arrival of guests can nevertheless be carried out.

Serving dessert when guests arrive gives the hostess lots of leeway. She doesn't have to keep in mind that her friends will be going home to dinner soon, as she does with later-on refreshments. And, she can provide a really filling dessert.

Picture at the top of the column is a dessert which I'm sure will answer your desires. It's

Tropical Gingerbread.

- 2 eggs
 - 3/4 cup brown sugar
 - 3/4 cup pure molasses
 - 3/4 cup melted shortening
 - 2 1/2 cups flour
 - 2 teaspoons baking powder
 - 1 cup boiling water
 - 2 teaspoons ginger
 - 1 1/2 teaspoons cinnamon
 - 1/2 teaspoon cloves
 - 1/2 teaspoon nutmeg
 - 1/2 teaspoon baking soda
 - 1/2 teaspoon salt
- Add beaten eggs to the sugar, molasses, and melted shortening; then add the dry ingredients which have been mixed and sifted, and lastly the hot water. Bake in small individual pans, or in a greased pan, in a moderate oven (350 degrees F.) for 30 to 40 minutes. Top with whipped cream and sprinkle with shredded coconut.

With this dessert, you'll want to serve a beverage . . . coffee, tea or perhaps an iced drink of fresh fruit mixture.

Vanilla mousse is the basis for a number of appetizing desserts, and is a good party refreshment in itself. Among the many variations are peanut brittle and chocolate fudge mousses.

To make the vanilla mousse, fold one cup of confectioners' sugar and two teaspoons of vanilla into one quart of heavy cream that has been whipped. Fold in four egg whites which are stiffly beaten.

Spread the mousse into two large refrigerator ice trays and place in the freezing compartment of your refrigerator, or, freeze in your ice

LYNN SAYS:

In thinking of party foods, I remembered these few suggestions my mother passed on to me. Maybe you'll find them helpful.

To remove pecan meats whole, cover the shells with boiling water and let them stand until cold before cracking them.

Chocolate cakes usually call for unsweetened chocolate. This blends with the cake mixture much better if it is cut in small pieces and melted, rather than grated.

Rhubarb juice is a good substitute for iced tea as a basis for iced fruit drinks.

THIS WEEK'S MENU

- Dessert-Bridge Refreshments
 - Devil's Food Pudding with Ice Cream Sauce or *Orange Chiffon Cake
 - Mixed Nuts Mints
 - Coffee or Tea
- *Recipe given.

cream freezer. Allow three hours for the freezing. This recipe will yield two quarts of mousse.

For a crunchy surprise frozen dessert for your guests, serve peanut brittle mousse. To make it, crush 1/2 pound of peanut brittle with a rolling pin and fold into the vanilla mousse before it becomes solid (about 1 1/2 hours).

If it's an extra-special party you're planning, I've included a special dessert-bridge menu in today's column. You'll spend more hours in the kitchen preparing these particular foods, but they're so-o-o good that your guests' ohs and ahs will amply reward you for your efforts.

Cream Sponge Cake.

- 1 cup sifted cake flour
 - 1 teaspoon baking powder
 - 1/4 teaspoon salt
 - 1/2 cup cold water
 - 1 teaspoon grated lemon rind
 - 2 egg yolks, unbeaten
 - 3/4 cup granulated sugar
 - 2 egg whites, unbeaten
 - 1 teaspoon lemon juice
 - 2 tablespoons granulated sugar
- Sift flour, baking powder, and salt together three times. Add water and lemon rind to egg yolks, and beat with rotary egg beater until light colored and at least tripled in volume. Add 1/4 cup of granulated sugar, 2 tablespoons at a time, beating well with rotary beater after each addition; then add sifted dry ingredients, a small amount at a time, beating slowly and gently with rotary beater only enough to blend. Beat egg whites until they form rounded mounds when beater is raised; then add lemon juice and 2 tablespoons sugar, and continue beating until stiff enough to hold up in moist peaks. Fold into flour mixture. Pour into two ungreased 8-inch layer cake pans, stirring lightly while pouring. Bake in moderate oven of 350 degrees F. for 30 minutes. Remove from oven, and invert on rack until cakes are cold. Fill with Orange Chiffon Cake Filling according to directions below.

*Orange Chiffon Cake.

- 2 8-inch Cream Sponge Cake Layers
 - 1 envelope plain, unflavored gelatin
 - 1/4 cup cold water
 - 4 eggs separated
 - 3/4 cup granulated sugar
 - 1/2 cup orange juice
 - 2 tablespoons lemon juice
 - 1/2 teaspoon salt
 - 1 tablespoon grated orange rind
- Make and bake the Cream Sponge Cake Layers, following the recipe.

Meanwhile, soak gelatin in cold water 5 minutes. Place beaten egg yolks, 6 tablespoons sugar, orange and lemon juices, and salt in double boiler. Cook while stirring until like custard. Add gelatin, and stir until dissolved. Remove from heat, stir in orange rind, and chill. When mixture begins to thicken, fold in meringue made by beating egg whites until frothy, but not dry, and folding in 6 tablespoons sugar gradually, while continuing to beat until stiff. Prepare cake layers for the filling by placing one layer on a cake plate; make collar of double waxed paper about 3 inches high to fit tightly around edge of cake; secure with pins or paper clips. Pour orange filling over the top of this layer; top with second cake layer; then place in refrigerator to chill until set. Before serving, remove waxed-paper collar from cake. To add finishing touch to top of cake, place lace-paper doily over top layer, sift confectioners' sugar over it, and remove doily carefully to preserve design.

Star Dust

STAGE-SCREEN-RADIO

By VIRGINIA VALE
(Released by Western Newspaper Union.)

GRETA GARBO has not only acquired a new hair-do for her next appearance on the screen—she's to have a new tint as well. It's a special one concocted for her by Sydney Guilaroff, Metro hair-dresser, and he has named it "Moonlight Blonde."

As for the hair-do, it's Napoleonic—a fringe, with a soft point in the back, and "a studied shagginess characterizing the whole coiffure, complete even to forelock"; there's also the influence of the Botticelli paintings, shown in a cap of short curls.

Tim Holt, young star of RKO Westerns, and his father, Jack Holt, will be seen together with Victor McLaglen and Edmund Lowe in the RKO production, "The Marines Are Ready." They'll appear as father and son for the second time on the screen. The first time was 12 years ago, when Tim, a boy of 10, played the son in his father's starring vehicle, "Vanishing Pioneers."

Tim Holt

Tim is also a skilled polo player.

Between the scenes in the houseboat dining salon that you'll see in Paramount's "Nothing But the Truth," Bob Hope, Edward Arnold, Leif Erikson and Glenn Anders were amusing themselves by filling the crystal goblets to different levels with water, then playing chimes on them with silver spoons. The prop man nearly had a fit—seems the glasses were part of a dinner service worth more than \$2,000.

"Send over to my house for something less expensive," urged Hope. "Our goblets are cottage-cheese glasses!"

Years ago Ruby Keeler was famous on Broadway for her dancing. In the days before she married Al Jolson. On the screen she danced along with other people; now she'll dance alone for the first time in pictures in a musical, "Sweetheart of the Campus," in which she shares top honors with Harriet Hilliard, Gordon Oliver, and Ozzie Nelson and his orchestra. Miss Keeler was a star at the Texas Guinan night club when a lad named George Raft used to stop the show with a skating Charleston.

Ruby Keeler

Charles Boyer finished his work in Paramount's "Hold Back the Dawn" and took a train for the East; after a week's vacation he planned to go to Montreal, where he will do a series of plays in French, proceeds going to British war relief funds.

Virginia Weidler's become soloist with a band; she's spending all her time between her scenes in "Barnacle Bill" practicing in her dressing room. The band belongs to her three brothers, and has made a name for itself playing at country club dances.

Larry Parks, young Group Theater actor, played the Robert Montgomery part in tests with other actors seeking the starring role in "Heaven Can Wait"; as a result he'll have a featured part in the forthcoming Paul Kelly-Lola Lane "Mystery Ship."

If you've seen "The Lady Eve" you'll remember those slapstick falls of Henry Fonda's long after you forgot the plot of the picture. Preston Sturges, who wrote and directed the picture, is also responsible for "Sullivan's Travels"—and he started right off by dropping Joel McCrea from a rope's end into a barrel of water. Furthermore, McCrea had to wear a tramp's rags and a five-day beard. Veronica Lake is McCrea's co-star in this newest of the Sturges comedies. They say it will be as funny as "The Lady Eve."

Marlene Dietrich has selected the five men who, she says, have the most "womanpower"—she doesn't say what she means by that, except that it's the opposite of "manpower." Anyway, here's the list—Clark Gable, Orson Welles, Ernest Hemingway, Erich Maria Remarque and Howard Hughes.

ODDS AND ENDS—Olivia de Havilland and George Raft are Warner Bros. star selections for "All Through the Night" . . . Olivia's sister, Joan Fontaine, has recovered from the flu and gone back to work as Cary Grant's co-star in RKO's "Before the Fact" . . . When he finishes "Bull-its for O'Hara" Roger Pryor will tour the nation's draft camps with an orchestra . . . Joan Crawford gives what's probably the best dramatic performance of her career in "A Woman's Face" . . . Metro's operatic star, Rise (Rezsah) Stevens, doesn't think her name unusual—her mother's is Sahak.

FARM TOPICS

SOW TESTING IMPROVES HERD

Permits Systematic Culling Of Low Producers.

By H. G. ZAVORAL

(Extension Animal Husbandman, University Farm, St. Paul)

Swine raisers are realizing that the perfect individual animal is only one of the foundation stones of a good hog business. Getting more pigs per sow and getting quick, cheap gains from these pigs is equally important. That is why sow testing is becoming as much a part of the successful swine business as butterfat testing has been in dairying.

Sow testing is not difficult. It can be carried out by the hog raiser himself if he will take the trouble. The procedure is this:

1. Mark all the sows before farrowing so that they can be identified in records.
2. Within a week after farrowing, mark the pigs with ear notches, so that each litter can be distinguished. At the same time a record should be set up for each litter, giving sire, dam, and number of pigs of each sex.
3. Each litter of pigs should be weighed separately at weaning time (56 days is the customary age for making this comparison). The weight of litters at 56 days is in itself a very accurate basis for judging the production of sows, although the hog man can carry his records further by getting separate weights on litters at market time.

Having compiled production records on all his sows for the season, the hog raiser is then in a position (1) to cull out the old sows that did not produce well, and (2) to select gilts from the best litters to keep over.

For the breeder of purebred stock, the records assume extra importance in determining the value of boars. Already in many communities, boars from tested herds are commanding premium prices.

Carefully Prepared Wool Receives Better Prices

Care in the preparation of wool for market is one of the best ways American sheepmen can increase their profits whether they run range bands or raise farm flocks in the opinion of C. R. Townsend of the University of Nevada agricultural extension service.

"Since wool is bought and sold on a clean basis, the shrink and manner in which the fleeces are sheared and packed remains an important factor in determining the value per grease pound the producer will receive," Townsend states.

Sheep, of course, should be shorn only when fleeces are dry he says, and should be protected from moisture at all times while awaiting shipment.

"A board floor, kept clean, is the best surface upon which to shear," Townsend added. "A dirty floor or littered ground will result in the wool's picking up foreign substances, thus decreasing its value. Straw, hay, and chaff are particularly objectionable.

"Wool should be cut close, and the fleece removed unbroken.

"Sheep should be tagged before the shearing operation, and tags should be sacked separately.

"Tie each individual fleece with good paper twine, rolled with flesh side out; this will result in a much better and more attractive appearance of the fleece.

"All burry, seedy, black, gray, dead, and cotted wool should be sacked separately from clean white wool. Yearling or lamb wool should also be sacked separately, since it is much lighter shrinkage than that of the main band, is generally sold separately as original bag wools, and commands higher prices."

Farm Notes

In a frozen food locker, if temperatures rise above zero, odors may transfer from one food to another.

Nearly one-half of the 21,000,000 American youths between 16 and 24 live on farms or in villages.

All eggs produced by any one hen tend to be of a similar size, shape, color, though they may vary somewhat.

A recent study shows that 10 cows producing 300 pounds of fat annually make as much profit as 18 200-pound producers.

When cows eat bitter weeds the milk has an objectionable odor and taste.

Norway is reported to be feeding woodpulp to cattle for fodder with herring and fish meal added to give the essentials of albumen, vitamins, and minerals.

When a cow or a calf lies down stubbornly and will not lead, try holding its nostrils tightly. This usually will bring the animal to its feet in short order.

PATTERNS SEWING CIRCLE

8929

FRANKLY, the purpose of this frock is to make you look sweet and pretty! A high point of charm is the open-sleeved effect, accentuated by flattering frills. The por-

trait neckline is wickedly becoming. This fashion makes up very charmingly in silk print, taffeta, and afternoon cottons. Easy to do.

Pattern No. 8929 is designed in even sizes 12 to 20. Size 14, 4 1/4 yards 39-inch material; 3 3/4 yards ready-made ruffling. For this attractive pattern, send your order to:

Delmar Taylor who has been accepted for the Army spent Saturday night here with Rev. and Mrs. Paul Reese and left Sunday noon for San Antonio.

the **ROAD AHEAD**

Old Man Texas is today looking ahead and planning.

Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here.

Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its

products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people.

But this is only a beginning.

Texas has many other raw materials, unexceeded by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market.

Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

STAGE-SCREEN-RADIO

By VIRGINIA VALE
(Released by Western Newspaper Union.)

THANKS to the war, Errol Flynn lost his chance to be Prince Charming at a huge debutante party in New York. Picture the scene as it was planned. According to announcements, he was to be seated in a silver coach, which at midnight would rise from the orchestra pit. But the debutante cancelled the party, feeling that it was not fitting to go through with it in war time.

Hollywood's station wagon battalion, formed a few weeks ago to meet emergencies in time of war, is now being put through its paces, according to the King's Men, the quartet of the Fibber McGee and Molly program. They are listed among the 200 members of the battalion.

Ginger Rogers will star in "The Major and the Minor," a romantic comedy, as her first picture under her recently signed agreement with Paramount. It ought to be a swell

GINGER ROGERS

picture; its authors wrote "Hold Back the Dawn," "Ninotchka" and "Ball of Fire."

Incidentally, Ginger has spent six years attempting to gain six pounds, and has finally achieved that goal.

With practically all the other girls in Hollywood going in for very short hair, Claudette Colbert, who has worn hers fairly short, will have the longest bob she's ever worn in "The Palm Beach Story." Her hair will fall to her shoulders, but she'll keep her famous bangs. It's a Preston Sturges picture, this new one, and Joel McCrea plays opposite her.

Once again Director Norman Taurog is looking for a baby. He's the man who, eight years ago, conducted the search for an infant who could mimic Maurice Chevalier's out-thrust lower lip—a search that brought Baby Le Roy to the screen. Later he was responsible for the casting of Jackie Cooper in "Skippy." Now he seeks a year-old child who resembles Ray Milland, for "Mr. and Mrs. Cugat."

As soon as the first word of Japan's attack on Hawaii reached the United States the March of Time began preparing as its next release a comprehensive film story of how this country, in the last war, came through to final victory. Titled "Our America at War," it ends by showing that, as America won the last war through co-ordinated effort, so she will win this one.

One night not so long ago Mickey Rooney was called to the telephone. It was Carmen Miranda — she'd heard that he was going to do an impersonation of her in "Babes on Broadway." To make sure that it would be a good one, she arranged to coach him, and the result is the very funny burlesque of her that he does in the picture.

Cary Grant's main idea, when he finished working in "Suspicion," with Joan Fontaine, was to catch up on sleep. Said he hadn't had a day or evening to himself since he started work in "My Favorite Wife," more than a year ago; "Suspicion" was his fifth picture in a row without a good long vacation. Maybe all those extra-curricular activities that we heard about were just rumors.

Joan Blaise, who soon starts doubling between two air serials for a total of three broadcasts a day, vastly prefers radio to any other branch of show business. "Stage and film stars are so visibly beautiful," says she. "Their waists are thin, their eyelashes sweep alarmingly. Their slips never show. But—the radio actress is just folks to her audience."

ODDS AND ENDS—Paula Winslow was brought in to do Shirley Temple's screams in the little star's first radio series; the first time she yelled Shirley herself jumped in alarm. . . . Two young players, Anne Rutherford and Robert Sterling, get breaks in Metro's "Just Between Us"—they have leading roles. . . . Kate Smith now does her mid-day broadcasts from the CBS auditorium. . . . Robert Montgomery got home from England, for a vacation, but in time to be called into service here. . . . John Ford Director is making the most of his hair for good luck. He's preparing a book which he will dedicate to Bob Cray.

Adaman Club Gr New Year on S Of Lofty Pike's Peak

While most people will be celebrating New Year's in comfortably warm homes, theaters and other amusement places, a small group of men will be battling bitter cold and high snow drifts as they climb to the top of Pike's peak.

Every year at the stroke of midnight on New Year's eve members of the Adaman club set off a huge display of fireworks from the summit of Pike's peak. The mercury has fallen as low as 40 degrees below zero during the nine-mile climb and the wind blows relentlessly atop the 14,110-foot peak.

Early in the afternoon of December 31 the hardy group will leave Colorado Springs. They will ride in automobiles as far as Manitou Springs which is located at the base of the peak. Their ride ends here, and they begin their long climb.

At first the climb is easy, but after the Half Way House is passed the climbing becomes extremely difficult. Snow drifts are more than 20 feet deep in places, and the incessant north wind whips the snow particles with great force.

In addition to a food supply, each man carries his share of the fireworks. The trip is a gruelling test of endurance and strength. But the men really enjoy it.

U. S. Had Quiet Year During '42

No one knows what the year 1942 will bring, but '42 exactly 100 years ago was a relatively quiet one for the United States.

In that year the national debt reached the high level of more than \$13,594,000. La grippe (influenza) was prevalent throughout the country. This year also saw Charles Dickens visit the United States, and the Horatio Greenough statue of General George Washington was placed in the federal Capitol.

Other events of national importance which occurred exactly one century ago follow:

March 31—Henry Clay of Kentucky resigns from the U. S. senate.

May 2—Col. John C. Fremont commenced an exploring expedition to the Rocky mountains.

June 29—President Tyler vetoes the tariff bill.

August 9—Maine boundary established by the Webster-Ashburn treaty between the United States and England.

August 30—President Tyler signs the tariff bill.

September 29—Order of the Sons of Temperance organized in New York.

Columbus Achieved 'Greatest Discovery' Just 450 Years Ago

The year 1942 would ordinarily be one marked by a great observance of some sort for the achievement of Christopher Columbus in 1492. For 1942 rounds out 450 years since the discovery of America.

In 1892, on the occasion of the four hundredth anniversary, the Chicago fair, one of the most renowned in the world, took place. But for World War II, 1942 would have brought about another significant celebration.

Even as it is, there is some talk of paying due honor to the great navigator who, in 1492 like the world we know in the dawn of 1942, also had his "darkest hour" before the light burst on a new world.

Joaquin Miller wrote of this hour in Columbus' life—and it could be symbolic of the arrival and hopes of the year 1942. The poetry follows:

Then, pale and wan he kept the deck And peered through darkness. Ah, that night, official dark nights And then a light—a light.

It grew, a starlet flag unfurled It grew time's burst of dawn— He gained—a world. He gave that world its grandest lesson. On—and on!

U. S. Only Sixth Rate In Father Time's Eyes

Although the United States leads the world in many ways, it is about sixth rate in the eyes of Father Time. He brings the new year first to Australia, Asia, Africa, Europe and most of South America before he finally gets around to this country. Then for three more hours the people of California must be satisfied with 1941 before they receive the fresh new year of 1942.

When the new year is born it will be 7 a. m., December 31, in our eastern cities; 6 a. m. in the central time zone; 5 a. m. in the mountain zone; and 4 a. m. in the Pacific coast states.

Early Scots Used Bible For Glimpse Into Future

A glimpse into the future was believed possible by the early Scots who turned to their Bibles on New Year's day. The sacred book was laid upon the table, opened at random and a finger was placed on the printed page. The entire chapter was then read, and the message it held was then believed to describe in some way the happiness or misery in store for the person adhering to the practice.

Invite the Club—Serve Banana-Apple Rings (See Recipes Below)

Dessert Parties

"Come over for dessert" has become one of the most popular ways of entertaining at luncheon or afternoon meetings of bridge or sewing clubs. Your guests will take a light snack at home and come over to your home for dessert only. Easy? Yes, and a very successful way of starting out your afternoon. So, take out your best recipes for dessert and let's go!

Whatever you have must be attractive, so bring out your nicest dessert plates and doilies. First idea of our list today are these broiled banana-apple rings which will perk-up your table in dessert perfection.

*Broiled Banana-Apple Rings. (Serves 6)

- 1 cup sugar
- 1/2 cup water
- 2 apples, unpeeled
- 3 firm bananas
- Melted butter
- Salt
- Cinnamon

Bring sugar and water to a boil and cook until sugar is dissolved. Core apples and cut crosswise into three thick slices. Add to syrup and cook until tender, but firm. Remove from syrup and place on a broiler rack or pan. Cover apple slices with overlapping slices of bananas which have been peeled and sliced thin. Brush with butter and sprinkle with salt and cinnamon. Broil about 10 minutes or until bananas are brown and tender, easily pierced with a fork. Serve hot with sweetened whipped cream.

Make your dessert party a double success, serve:

Banana Oatmeal Cookies. (Makes 3 1/2 dozen)

- 2 cups sifted flour
- 1/2 teaspoon soda
- 1/2 teaspoon nutmeg
- 1/2 teaspoon cinnamon
- 1/2 cup shortening
- 1 cup sugar
- 1 egg
- 1 cup mashed bananas (2 or 3 bananas)
- 1 1/2 cup rolled oats
- 1/2 cup chopped nuts

Sift together flour, soda, salt and spices. Add sugar gradually to shortening and cream well. Add egg and beat well. Add bananas, rolled oats and nuts and mix thoroughly. Add flour mixture and blend. Drop by spoonfuls onto an ungreased cookie sheet about 1 1/2 inches apart. Bake in a moderately hot oven about 15 minutes. Remove from pans at once.

Simply elegant will be your guests' or family's verdict when you serve

LYNN SAYS:

When planning your luncheon or dessert parties, be sure to use this season's rich color schemes on your tables and favors and place cards. White with silver, gold, blue, red are tops right now.

If you like three color combination there's green, white and gold, blue, white and gold, or white, red and green.

For an elaborate color scheme use the rich tones of violet, emerald, gold, blue and red. This is especially good in a centerpiece.

Bridge placecards may be made out of paper chrysanthemums in your favorite color with the card sticking out of the flower. The white cards may also be decorated with painted flowers, or candy shaped flowers pasted in the center. Evergreen, holly, mistle, bright berries, pine cones, used alone or with a silver or gold ornament such as a bell on the place card are sure to bring delighted murmurs from your bridge guests.

an ambrosial concoction so easy to make, it's no trick at all. Here's a dessert that proves you don't have to spend hours of cooking and baking to get a first-rate dessert:

Krispie Cream Roll. (Serves 10)

- 1 1/2 cups whipping cream
- 8 marshmallows
- 1/4 cup honey
- 1/2 cup chopped dates
- 1/4 cup chopped nuts
- 3 1/2 cups oven-popped rice cereal

Whip cream until stiff, reserving 1/4 cup. Cut marshmallows into small pieces, adding them to cream. Add honey, dates and nuts. Roll rice cereal into fine crumbs and add 1 cup of crumbs to cream mixture. Blend well. Spread remaining crumbs evenly on a piece of waxed paper and place cream mixture on top. Mold into a roll and chill for several hours. Slice and serve garnished with remaining whipped cream, chopped nuts or fruit slices or berries.

No list of dessert tempters for parties is complete without super-smooth, delectable ice-box cake. Made with orange flavoring the ice-box cake can be truly provocative in both flavor and appearance and still be easy on the waistlines of your diet-conscious friends:

Orange Ice-Box Cake. (Serves 8)

- 1 tablespoon gelatin
- 3 tablespoons cold water
- 2 cups milk or 1 cup evaporated milk diluted with 1 cup water
- 2 tablespoons cornstarch
- 1 cup sugar
- 2 eggs
- 1/4 cup orange juice
- 1 teaspoon grated orange rind
- 2 dozen lady fingers

Soak gelatin in cold water. Scald the milk in a double boiler, mix cornstarch and sugar, and add to hot milk. Add the eggs slightly beaten, combined with cold milk. Cook several minutes, stirring constantly. Remove from fire and add gelatin. Add orange rind and juice. Line a mold with lady fingers, then fill with alternate layers of the cooked mixture and lady fingers. Have a layer of lady fingers on top. Chill in refrigerator overnight. Serve with whipped cream, garnished with orange sections.

Piquant peppermint adds a never-to-be-forgotten flavor to chocolate, and served in quaint tarts, here's a dessert that will mark you as a leader in your crowd:

Chocolate Mint Tarts. (Serves 6)

- 2 squares unsweetened chocolate
- 1 cup evaporated milk diluted with 1 cup water
- 1/4 cup sugar
- 5 tablespoons flour
- 1/4 teaspoon salt
- 2 egg yolks
- 2 tablespoons butter
- 1 teaspoon vanilla
- 1/2 cup chopped nuts
- 6 baked tart shells
- Sweetened whipped cream
- 1/2 cup crushed peppermint candy

Add chocolate to diluted milk in double boiler and heat until chocolate melts. Beat with rotary beater until chocolate is blended with milk. Combine sugar, flour and salt and add gradually to chocolate mixture. Cook until thick and smooth, about 15 minutes. Beat yolks and add to cooked mixture gradually. Cook two minutes longer. Remove from fire, add butter, vanilla and nuts. When cool, pour into tart shells. Top with whipped cream, mixed lightly with the crushed candy. (Released by Western Newspaper Union.)

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago (Released by Western Newspaper Union.)

Lesson for January 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE SYNOPTIC GOSPELS: MATTHEW, MARK, LUKE

LESSON TEXT — Matthew 1:1, 17; Mark 1:1, 14, 15; Luke 1:1-5. GOLDEN TEXT—Christ Jesus came into the world to save sinners.—1 Timothy 1:15.

A new year of God-given opportunity with the assurance of His grace and strength for our daily need. Such is the precious gift we hold in our hands as we enter on A. D. 1942.

With the new year, we enter upon a new course of study—carefully planned ahead through 1947, if the Lord tarries. We begin very appropriately with a study of the life of Christ as presented in the first three Gospels, known as the Synoptic Gospels.

"Synoptic" is a combination of two words, meaning "a view together," and refers to the fact that Matthew, Mark, and Luke give us the same general view of Christ, although differing somewhat in their emphasis.

Matthew, writing his Gospel especially to the Jews, presents Christ as King, Mark, for the Romans, presents the Servant. Luke presents to the Greeks the Son of Man—the perfect Man, and John, for the Christian church, reveals the Son of God. But note that all the Gospels are for us, and in them we find the fourfold picture which presents the many-sided glory and beauty of our Lord. Turning to our scriptures we see—

I. The King (Matt. 1:1, 17).

These verses come at the beginning and end of the kingly genealogy of Jesus. It is important that the descent of a king be carefully recorded and studied, for it alone can prove his right to the throne. We know that Israel rejected Jesus as King, but we also know what prophecy reveals that He will one day take the throne of David and reign. Does He have that right?

In Matthew 1:1-17, we have His national and royal descent. Being son of both David and Abraham, He is heir to both the promise and the throne. As King of Israel, there was no need to trace His lineage back further than Abraham through David, but we find that in Luke (2:23-28) the Son of Man is traced back to Adam. Mark has no genealogy for reasons noted below, and John also has none, for the Son of God is eternal, infinite, without need of genealogy.

Turning now to Mark, we find Him presented as

II. The Servant (Mark 1:1, 14, 15).

A servant needs no genealogy, he needs only to be able and ready to work, and that is just what we find in Mark. The account plunges at once into the story of "the gospel of Jesus Christ, the Son of God," who is ready to serve—by life or by death—yes, even by the death of the cross.

The forerunner, John the Baptist, bears his witness. Jesus is baptized. John is imprisoned, and immediately Jesus begins to preach, "Repent ye, and believe the gospel." The key verse of Mark is 10:45: "For even the Son of man came not to be ministered unto, but to minister." The characteristic words are "straightway," "forthwith," and "immediately." The Greek word thus translated appears about 40 times in the book. The Servant of God went quickly about the Father's business. Christians, can we say the same for ourselves?

III. The Son of Man (Luke 1:1-4).

Luke undertakes to write, under the control of the Holy Spirit, a careful account of the saving work of Christ, but he makes it doubly clear that he writes from firsthand knowledge. "Eyewitnesses" means those who made a personal investigation, hence, those who knew Christ as the Son of Man, the One who became flesh and dwelt among us. "Ministers" means literally those who served under Jesus, His personal assistants; again emphasizing His personal ministry as "the Son of man who is come to seek and to save that which was lost" (as Luke 19:10, the key verse of this Gospel, expresses it).

IV. The Risen and Ascended Lord (Acts 1:1-5).

Christ who was crucified arose a Victor over death and the grave, and ascended to the Father, where He now appears as our Advocate. That does not mean that His work on earth terminated, for we have in Acts what Dr. Morgan fittingly calls "the book of the continued doing and teaching of the living Christ by the Holy Spirit through His body, which is the church."

The Gospels (Acts 1:1) told only that "Jesus began to do and to teach." Acts continues, but does not complete the story. Christ is working today in and through surrendered believers. Will He have liberty to work through you and through me this year of 1942? If so, it is sure to be a happy—yes, a blessed—New Year.

Star Dust

STAGE-SCREEN-RADIO
By VIRGINIA VALE
(Released by Western Newspaper Union.)

THANKS to the war, Errol Flynn lost his chance to be Prince Charming at a huge debutante party in New York. Picture the scene as it was planned. According to announcements, he was to be seated in a silver coach, which at midnight would rise from the orchestra pit. But the debutante cancelled the party, feeling that it was not fitting to go through with it in war time.

Hollywood's station wagon battalion, formed a few weeks ago to meet emergencies in time of war, is now being put through its paces, according to the King's men, the quartet of the Fibber McGee and Molly program. They are listed among the 200 members of the battalion.

Ginger Rogers will star in "The Major and the Minor," a romantic comedy, as her first picture under her recently signed agreement with Paramount. It ought to be a swell

GINGER ROGERS

picture; its authors wrote "Hold Back the Dawn," "Ninotchka" and "Ball of Fire."

Incidentally, Ginger has spent six years attempting to gain six pounds, and has finally achieved that goal.

With practically all the other girls in Hollywood going in for very short hair, Claudette Colbert, who has worn hers fairly short, will have the longest bob she's ever worn in "The Palm Beach Story." Her hair will fall to her shoulders, but she'll keep her famous bangs. It's a Preston Sturges picture, this new one, and Joel McCrea plays opposite her.

Once again Director Norman Taurog is looking for a baby. He's the man who, eight years ago, conducted the search for an infant who could mimic Maurice Chevalier's out-thrust lower lip—a search that brought Baby Le Roy to the screen. Later he was responsible for the casting of Jackie Cooper in "Skippy." Now he seeks a year-old child who resembles Ray Milland, for "Mr. and Mrs. Cugat."

As soon as the first word of Japan's attack on Hawaii reached the United States the March of Time began preparing as its next release a comprehensive film story of how this country, in the last war, came through to final victory. Titled "Our America at War," it ends by showing that, as America won the last war through co-ordinated effort, so she will win this one.

One night not so long ago Mickey Rooney was called to the telephone. It was Carmen Miranda—she'd heard that he was going to do an impersonation of her in "Babes on Broadway." To make sure that it would be a good one, she arranged to coach him, and the result is the very funny burlesque of her that he does in the picture.

Cary Grant's main idea, when he finished working in "Suspicion," with Joan Fontaine, was to catch up on sleep. Said he hadn't had a day or evening to himself since he started work in "My Favorite Wife," more than a year ago; "Suspicion" was his fifth picture in a row without a good long vacation. Maybe all those extra-curricular activities that we heard about were just rumors.

Jean Blaine, who soon starts doubling between two air serials for a total of three broadcasts a day, vastly prefers radio to any other branch of show business. "Stage and film stars are so visibly beautiful," says she. "Their waists are thin, their eyelashes sweep alarmingly. Their slips never show. But—the radio actress is just folks to her audience."

ODDS AND ENDS—Paula Winslow was brought in to do Shirley Temple's screams in the little star's first radio series; the first time she yelled Shirley herself jumped in alarm. . . . Two young players, Anne Rutherford and Robert Sterling, get breaks in Metro's "Jus Between Us"—they have leading roles. . . . Kate Smith now does her mid-day broadcasts from the CBS newsroom. . . . Robert Montgomery got home from England, for a vacation, just in time to be called into service here. . . . John Scott Trotter is making the most of his flair for good food, he's preparing a cook book, which he ought to dedicate to Bing Crosby.

Adaman Club Gr New Year on S Of Lofty Pike's Peak

While most people will be celebrating New Year's in comfortably warm homes, theaters and other amusement places, a small group of men will be battling bitter cold and high snow drifts as they climb to the top of Pike's peak.

September 29—Order of the Sons of Temperance organized in New York.

Columbus Achieved 'Greatest Discovery' Just 450 Years Ago

The year 1942 would ordinarily be one marked by a great observance of some sort for the achievement of Christopher Columbus in 1492. For 1942 rounds out 450 years since the discovery of America.

In 1892, on the occasion of the four hundredth anniversary, the Chicago fair, one of the most renowned in the world, took place. But for World War II, 1942 would have brought about another significant celebration.

Even as it is, there is some talk of paying due honor to the great navigator who, in 1492 like the world we know in the dawn of 1942, also had his "darkest hour" before the light burst on a new world.

Joaquin Miller wrote of this hour in Columbus' life—and it could be symbolic of the arrival and hopes of the year 1942. The poetry follows:

They pale and wan he kept the deck
And peered through darkness
As, that night, off all dark nights
And then a light—a light.

It grew, a starlet flag unfurled
It grew time's burst of dawn—
He gained—a world.
He gave that world its grandest lesson.
On—and on!

U. S. Only Sixth Rate In Father Time's Eyes

Although the United States leads the world in many ways, it is about sixth rate in the eyes of Father Time. He brings the new year first to Australia, Asia, Africa, Europe and most of South America before he finally gets around to this country.

Then for three more hours the people of California must be satisfied with 1941 before they receive the fresh new year of 1942.

When the new year is born it will be 7 a. m., December 31, in our eastern cities; 6 a. m. in the central time zone; 5 a. m. in the mountain zone; and 4 a. m. in the Pacific coast states.

Early Scots Used Bible
For Glimpse Into Future
A glimpse into the future was believed possible by the early Scots who turned to their Bibles on New Year's day.
The sacred book was laid upon the table, opened at random and a finger was placed on the printed page. The entire chapter was then read, and the message it held was then believed to describe in some way the happiness or misery in store for the person adhering to the practice.

Household Hints

by Lynn Chambers

Invite the Club—Serve Banana-Apple Rings
(See Recipes Below)

Dessert Parties

"Come over for dessert" has become one of the most popular ways of entertaining at luncheon or afternoon meetings of bridge or sewing clubs. Your guests will take a light snack at home and come over to your home for dessert only.

Easy? Yes, and a very successful way of starting out your afternoon. So, take out your best recipes for dessert and let's go: Whatever you have must be attractive, so bring out your nicest dessert plates and dollies. First idea on our list today are these broiled Banana-Apple Rings which will polka-dot your table in dessert perfection:

*Broiled Banana-Apple Rings. (Serves 6)

- 1 cup sugar
- ¼ cup water
- 2 apples, unpeeled
- 3 firm bananas
- Melted butter
- Salt
- Cinnamon

Bring sugar and water to a boil and cook until sugar is dissolved. Core apples and cut crosswise into three thick slices. Add to syrup and cook until tender, but firm. Remove from syrup and place on a broiler rack or pan. Cover apple slices with overlapping slices of bananas which have been peeled and sliced thin. Brush with butter and sprinkle with salt and cinnamon. Broil about 10 minutes or until bananas are brown and tender, easily pierced with a fork. Serve hot with sweetened, whipped cream.

Banana Oatmeal Cookies. (Makes 3½ dozen)

- 1½ cups sifted flour
- ¼ teaspoon soda
- ¼ teaspoon nutmeg
- ¼ teaspoon cinnamon
- ¼ cup shortening
- 1 cup sugar
- 1 egg
- 1 cup mashed bananas (2 or 3 bananas)
- 1½ cup rolled oats
- ½ cup chopped nuts

Sift together flour, soda, salt and spices. Add sugar gradually to shortening and cream well. Add egg and beat well. Add bananas, rolled oats and nuts and mix thoroughly. Add flour mixture and blend. Drop by

teaspoonfuls onto an ungreased cookie sheet about 1½ inches apart. Bake in a moderately hot oven about 15 minutes. Remove from pans at once.

Simply elegant will be your guests' or family's verdict when you serve

LYNN SAYS:

When planning your luncheon dessert parties, be sure to use this season's rich color schemes on your tables and favors and placecards. White with silver, gold, blue, red are tops right now. If you like three color combinations, there's green, white and gold, blue, white and gold, or white, red and green.

For an elaborate color scheme use the rich tones of violet, emerald, gold, blue and red. This is especially good in a centerpiece.

Bridge placecards may be made out of paper chrysanthemums in your favorite color with the card tucking out of the flower. The white cards may also be decorated with painted flowers, or candy-shaped flowers pasted in the corner. Evergreen, holly, mistletoe, bright berries, pine cones, used alone or with a silver ornament such as a bell, on the place card are sure to bring delighted murmurs from your bridge guests.

an ambrosial concoction so easy to make, it's no trick at all. Here's a dessert that proves you don't have to spend hours of cooking and baking to get a first-rate dessert:

Krispie Cream Roll. (Serves 10)

- 1½ cups whipping cream
- 8 marshmallows
- ¼ cup honey
- ½ cup chopped dates
- ½ cup chopped nuts
- ¾ cups oven-popped rice cereal

Whip cream until stiff, reserving ¾ cup. Cut marshmallows into small pieces, adding them to cream. Add honey, dates and nuts. Roll rice cereal into fine crumbs and add 1 cup of crumbs to cream mixture. Blend well. Spread remaining crumbs evenly on a piece of waxed paper and place cream mixture on top. Mold into a roll and chill for several hours. Slice and serve garnished with remaining whipped cream, chopped nuts or fruit slices or berries.

No list of dessert tempters for parties is complete without super-smooth, delectable ice-box cake. Made with orange flavoring the ice-box cake can be truly provocative in both flavor and appearance and still be easy on the waistlines of your diet-conscious friends:

Orange Ice-Box Cake. (Serves 8)

- 1 tablespoon gelatine
- 3 tablespoons cold water
- 2 cups milk or 1 cup evaporated milk diluted with 1 cup water
- 2 tablespoons cornstarch
- 1 cup sugar
- 2 eggs
- ¼ cup orange juice
- 1 teaspoon grated orange rind
- 2 dozen lady fingers

Soak gelatine in cold water. Scald the milk in a double boiler, mix cornstarch and sugar, and add to hot milk. Add the eggs slightly beaten, combined with cold milk. Cook several minutes, stirring constantly. Remove from fire and add gelatine. Add orange rind and juice. Line a mold with lady fingers, then fill with alternate layers of the cooked mixture and lady fingers. Have a layer of lady fingers on top. Chill in refrigerator overnight. Serve with whipped cream, garnished with orange sections.

Piquant peppermint adds a never-to-be-forgotten flavor to chocolate, and served in quaint tarts, here's a dessert that will mark you as a leader in your crowd:

Chocolate Mint Tart. (Serves 6)

- 2 squares unsweetened chocolate
- 1 cup evaporated milk diluted with 1 cup water
- ¼ cup sugar
- 5 tablespoons flour
- ¼ teaspoon salt
- 2 egg yolks
- 2 tablespoons butter
- 1 teaspoon vanilla
- ½ cup chopped nuts
- 6 baked tart shells
- Sweetened whipped cream
- ½ cup crushed peppermint candy

Add chocolate to diluted milk in double boiler and heat until chocolate melts. Beat with rotary beater until chocolate is blended with milk. Combine sugar, flour and salt and add gradually to chocolate mixture. Cook until thick and smooth, about 15 minutes. Beat yolks and add to cooked mixture gradually. Cook two minutes longer. Remove from fire, add butter, vanilla and nuts. When cool, pour into tart shells. Top with whipped cream, mixed lightly with the crushed candy.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago
(Released by Western Newspaper Union.)

Lesson for January 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE SYNOPSIS GOSPELS: MATTHEW, MARK, LUKE

LESSON TEXT—Matthew 1:1, 17; Mark 1:1, 14, 15; Luke 1:1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

A new year of God-given opportunity with the assurance of His grace and strength for our daily need. Such is the precious gift we hold in our hands as we enter on A. D. 1942.

With the new year, we enter upon a new course of study—carefully planned ahead through 1947, if the Lord tarries. We begin very appropriately with a study of the life of Christ as presented in the first three Gospels, known as the Synoptic Gospels.

"Synoptic" is a combination of two words, meaning "a view together," and refers to the fact that Matthew, Mark, and Luke give us the same general view of Christ, although differing somewhat in their emphasis.

Matthew, writing his Gospel especially to the Jews, presents Christ as King, Mark, for the Romans, presents the Servant, Luke presents to the Greeks the Son of Man—the perfect Man, and John, for the Christian church, reveals the Son of God. But note that all the Gospels are for us, and in them we find the fourfold picture which presents the many-sided glory and beauty of our Lord. Turning to our scriptures we see—

I. The King (Matt. 1:1, 17).

These verses come at the beginning and end of the kingly genealogy of Jesus. It is important that the descent of a king be carefully recorded and studied, for it alone can prove his right to the throne. We know that Israel rejected Jesus as King, but we also know what prophecy reveals that He will one day take the throne of David and reign. Does He have that right?

In Matthew 1:1-17, we have His national and royal descent. Being son of both David and Abraham, He is heir to both the promise and the throne. As King of Israel, there was no need to trace His lineage back further than Abraham through David, but we find that in Luke 2:23-28) the Son of Man is traced back to Adam. Mark has no genealogy for reasons noted below, and John also has none, for the Son of God is eternal, infinite, without need of genealogy.

II. The Servant (Mark 1:1, 14, 15).

A servant needs no genealogy, he needs only to be able and ready to work, and that is just what we find in Mark. The account plunges at once into the story of "the gospel of Jesus Christ, the Son of God," who is ready to serve—by life or by death—yes, even by the death of the cross.

The forerunner, John the Baptist, bears his witness. Jesus is baptized. John is imprisoned, and immediately Jesus begins to preach, "Repent ye, and believe the gospel." The key verse of Mark is 10:35: "For even the Son of man came not to be ministered unto, but to minister." The characteristic words are "straightway," "forthwith," and "immediately." The Greek word thus translated appears about 40 times in the book. The Servant of God went quickly about the Father's business. Christians, can we say the same for ourselves?

III. The Son of Man (Luke 1:1-4).

Luke undertakes to write, under the control of the Holy Spirit, a careful account of the saving work of Christ, but he makes it doubly clear that he writes from firsthand knowledge. "Eyewitnesses" means those who made a personal investigation, hence, those who knew Christ as the Son of Man, the One who became flesh and dwelt among us. "Ministers" means literally those who served under Jesus, His personal assistants; again emphasizing His personal ministry as "the Son of man who is come to seek and to save that which was lost" (as Luke 19:10, the key verse of this Gospel, expresses it).

IV. The Risen and Ascended Lord (Acts 1:1-5).

Christ who was crucified arose a Victor over death and the grave, and ascended to the Father, where He now appears as our Advocate. That does not mean that His work on earth terminated, for we have in Acts what Dr. Morgan fittingly calls "the book of the continued doing and teaching of the living Christ by the Holy Spirit through His body, which is the church."

The Gospels (Acts 1:1) told only that "Jesus began to do and to teach." Acts continues, but does not complete the story. Christ is working today in and through surrendered believers. Will He have liberty to work through you and through me this year of 1942? If so, it is sure to be a happy—yes, a blessed—New Year.

PATTERNS SEWING CIRCLE

piecing—and weight-minimizing smoothness at the sides and in back. The dress may be finished with short sleeves or sleeves of the new "below-the-elbow" drape. The style is suitable for silk, rayon or wool crepes, for satin, faille or romaine.

Barbara Bell Pattern No. 1482-B is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, ¾ sleeves requires 4½ yards of fabric—100%—send your order to:

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Cowardly Slaves
There are slaves who dare not be in the right with two or three.—James Russell Lowell.

Purpose of Faith

Faith is the subtle chain which binds us to the infinite.—Elizabeth Oakes Smith.

PERFECT RESULTS with Amazing ECONOMY

Turning now to Mark, we find Him presented as
H. The Servant (Mark 1:1, 14, 15).
A servant needs no genealogy, he needs only to be able and ready to work, and that is just what we find in Mark. The account plunges at once into the story of "the gospel of Jesus Christ, the Son of God," who is ready to serve—by life or by death—yes, even by the death of the cross.

If doors and drawers swell so much that they won't close, sandpaper or plane the edges, and then varnish the surface to prevent further swelling or shrinking.

If your vacuum cleaner has several attachments, make the best use of them. They come in handy for cleaning behind radiators, book cases and the refrigerator.

Here's a fine way to use leftover biscuits, muffins or rolls: Scoop out the insides, butter the case well and fill in with a thick cream vegetable, meat or chicken. For a creole version, spread the insides with chili sauce blended with butter. Quickly fill with piquant creamed shrimps or salmon. Bake 10 minutes in a moderately hot oven.

Try dipping the knife in boiling water before cutting cake or pie.

The white part of orange and lemon rinds is usually bitter. So when grating use only the outside yellow part.

Early Action Due on Lindy's Plea To Serve in Air Force

Lone Eagle May Be Assigned to Active Aviation Position

WASHINGTON, Dec. 30.—Early and favorable action on former Col. Charles A. Lindbergh's offer to serve in the Army Air Corps was forecast tonight although the War Department withheld official comment. Lindbergh, idolized in 1927 by a nation which 14 years later criticized him as a defeatist, appeaser and copperhead because of his outspoken isolationist views, volunteered his services in what was described as a "deep desire to help the country along the lines in which he trained himself for years."

to Lieut. Gen. Henry H. Arnold, chief of the Army Air Forces. It came less than eight months after he relinquished his colonel's commission in the Reserve Forces after President Roosevelt assailed his isolationist views and labeled him a "copperhead." The presidential rebuke climaxed a series of verbal duels between the White House and the former "Lone Eagle" over the issue of administration foreign policy.

No Comment From FDR
Mr. Roosevelt, asked at his press conference today whether the Army planned to accept Lindbergh's offer, replied that he knew nothing about the offer.

"JUNGLE GIRL" No. 4

Mr. and Mrs. Harry Ingersoll and baby of San Antonio and Miss Margaret Ingersoll of Lockhart spent the Christmas holidays in Rockport with Mr. and Mrs. H. Ingersoll.

Mrs. C. R. Gibson and son of Corpus Christi were guests for Christmas in the home of her parents, Mr. and Mrs. A. L. Bruhl. In the afternoon Mr. and Mrs. Fred Booth of Rockport and Mrs. E. B. Carruth, Mr. and Mrs. E. B. Carruth Jr. and daughter, and Mr. and Mrs. Louis Schreiner, all of Kerrville, gathered together for egg nog with Mr. and Mrs. Bruhl and Mrs. Gibson.

The home of Mrs. Manch Brundrett was the gathering place for several families in another family reunion over the Christmas holidays. Those included: Mrs. Brundrett, Mr. and Mrs. Elmo Brundrett and family, Mr. and Mrs. Bill Kell and family, and Mr. and Mrs. Ingle Turner and family, all of Aransas Pass; Mr. and Mrs. Fred Mires and family of Taft; Mr. and Mrs. George Sorenson and daughter of Palacios; Mr. and Mrs. D. H. Knight of San Angelo; Mr. and Mrs. Lloyd Smith and family and Mr. and Mrs. Penerson Raymond and baby, all of Rockport.

Mr. and Mrs. Tom Rooke entertained Mr. and Mrs. Harry Briscoe and Mr. and Mrs. Pat Fletcher, and two sons of Aransas Pass on Christmas day in their home here. Mr. Fletcher, a nephew of Mr. and Mrs. Rooke, has been transferred from Longview to Aransas Pass, where he is connected with the Atlantic Oil Company. Both he and his wife have been deeply impressed with Rockport on their initial visit here, it is learned.

Christmas guests in the home of Mr. and Mrs. S. T. Probst were Mr. and Mrs. Sam Crescilius and Mrs. H. B. Baldwin of Corpus Christi.

Red Objector

This Tuscaraora Indian, shown with his lawyer, Wilfred Hoffman, is one of the members of the six Indian tribes who appeared before federal court judges in New York to argue that the U. S. has no right to draft members of the Boisquis confederacy. To do so, declared their counsel, would be in violation of the treaty signed in 1784.

How About Your Medicine Cabinet—Is It Ready for An Emergency?

With practice blackouts and air raid drills in the offing for coastal areas it is time for the woman of the house to turn a critical eye upon the contents of her home medicine cabinet. First of all, she must realize that war-time casualties in the home are very different from the sort of home accidents she has seen all her life. Ordinarily a scratch is only a scratch, but a minor skin abrasion from an air raid may cover a serious injury.

And so, let's look at the things that ought to be on hand in case of a home accident from an air raid. It is best to begin with a list—one that will tell you what you should have in your medicine cabinet. The exact items that should be there will be determined somewhat by conditions within your own family—the number and ages of its members, tendencies to particular ailments and injuries, and how much money you have to spend.

However, if you are to be adequately prepared for emergencies, there are certain basic items that should be there. These include tannic acid jelly for burns, something to relieve pain, a remedy for faintness, plenty of baking soda to be used as an emetic or relief for indigestion, a mild laxative, bandages, sterile gauze in sealed packages, adhesive tape, a thermometer, a pair of scissors and a pair of tweezers.

At first glance this may seem like an imposing list, but if you want to convince yourself that it isn't, take a moment to count the number of articles you now harbor on your cabinet shelves. Another moment spent in consideration of what you could do in an emergency with those articles will be enough to persuade you that your new list is not only simple, but useful as well.

Knowing in a general way what your new stock should be is not the whole job, however. You must decide what kind of remedy you want for faintness, the safest and most effective pain relief, and so on. The Consumer Division of the Office of Price Administration in Washington has a few pointers on the purchase of some of these items.

For burns, tannic acid jelly is recommended and nothing else. The jelly comes prepared for use and should be kept on hand. Under no circumstances should greasy or oily ointments be used, because a physician will have to remove the oil to treat the burn and that is a dangerous and painful process.

Aspirin (five grain tablets) is a good drug for the relief of pain, but it should be used in small doses and not too often. Aromatic spirits of ammonia is recommended for faintness. It should be bought in small quantities and kept well stoppered because it evaporates rapidly.

Bandages, gauze and adhesive tape should be purchased in small quantities and not allowed to lie around so that they will get dirty. Gauze should be in sterile sealed packages and opened only when it is to be used. You should have it, as well as other dressings, in a sufficient variety of sizes to take care of all needs from covering a cut finger to the unit—the doctor-comes treatment of a more serious injury requiring a full and wide bandage.

Baking soda is useful for indigestion and, taken freely, is good as an emetic to produce vomiting. Mineral oil or milk of magnesia are the safest laxatives. And now that the question of what should be in your medicine cabinet is settled, all that remains is to remove everything you have there now, clean and polish the interior to your heart's content, and put back only the things you will have some use for. What you will do with the leftovers depends on your own good judgment. Before you throw them out, however, remember that tragic things have happened to youngsters who played doctor with drugs that they found in the neighbor's rubbish box. Find a good, safe place—well out of reach of children—to dispose of them.

Now go back and take a good look at your up-to-date, streamlined medicine cabinet and resolve to keep it that way. Then, so that you can make the best use

of your supplies, take the first aid course offered by the American Red Cross, or, if one is not now offered in your community, take whatever steps are necessary to start such a course. Then you and your family will be ready, come what may.

Open House for Rev. T. H. Pollard

The home of Mrs. S. F. Jackson will be thrown open on Wednesday evening, January 7th, for all to welcome Rev. T. H. Pollard and his family to Rockport. The "open house," sponsored by the Presbyterian Women's Auxiliary, will last between the hours of 7:30 and 10:00.

Mr. Pollard, new pastor of the Presbyterian Church, along with Mrs. Pollard and their two younger sons, Marvin and Harris, have been a welcome addition to this community, and this "open house" is to give Rockport an opportunity to express this sentiment.

Government In Need of Trained Stenographers

The Government needs stenographers for National defense. One is prone to think of National defense in terms of soldiers, sailors and marines. But there are many types of defense work behind the lines. A large army of civilian personnel is now on duty as stenographers in the Government service to take the dictation of the thousands of executives and administrative officers, and transcribe it into typewritten documents. Some of this material is of lasting importance. Some of it will set into motion Government events of historical consequence.

It is estimated that the Government has approximately 85,000 stenographers, typists and secretaries on the payroll. Many young men and women are responding to the call. Thousands more are needed.

Aside from the present emergency, the opportunities for stenographers in the Government service are favorable. Good stenographers are always in demand. The positions pay \$1,440 a year to start, with a good chance of advancement to positions of greater responsibility, such as secretarial positions, in the case of those who have the ability.

The examination announced by the Civil Service Commission for stenographers is open until further notice. The examination consists solely of a dictation test at 96 words a minute and transcription of notes. All persons who can qualify are urged to apply now.

The stenographer examinations are held at several hundred cities throughout the United States. In order to arrange for greater convenience to applicants, the Commission is planning to increase the number of places where the examinations will be held.

The proper application form may be obtained from the Secretary of the Board of U. S. Civil Service Examiners at any first- or second-class post office or from the U. S. Civil Service Commission at Washington, D. C.

To provide more living quarters for Government employees, especially for those in the lower-income groups, there has been begun, under Government sponsorship, a building program for constructing thousands of apartments, dormitories, and home in Washington, D. C.

Rev. and Mrs. A. D. Jameson Jr. and A. D. Jameson III returned to their home in Vernon this week after a family reunion with Mr. Jameson's parents, the Rev. and Mrs. A. D. Jameson Sr. and his sister Mary Martha of Rockport, during the Christmas holidays. The Rev. Jameson is pastor of the Texas Street Methodist church in Vernon, where he has been stationed for the past three years.

Sam Chestnut, who is employed with the Dow Chemical Company in Freeport, spent several days this week with Wayne Smith.

Many of the articles we have been accustomed to buy won't be available any more. Industry will have to cut down on many products to speed the output of weapons. Instead of blaming our industrial system for these shortages, we can accept them cheerfully, keep up our morale and realize that metals and materials that in peace-time we would use, are now building up the best Army, Navy and Air Force in the world.

Selectees to Get Book To Acquaint Them With Army

Every Texas registrant selected for induction in the Army now is receiving a booklet telling him exactly what the Army expects of him and what it offers to him, General J. Watt Page, State Selective Service Director, announced today.

Supplies of this booklet, which is entitled "The Army and You," and was prepared by the War Department in cooperation with National Selective Service Headquarters, have been received at State Headquarters, General Page said, and allocated to local boards for distribution to their selectees.

The booklet contains only 14 pages, 6 by 9 inches in dimensions, and is a convenient size for the selectee to carry with him. The valuable information provided for the "rookie" soldier is indicated by the following subtitles:

"In the American Spirit"; "What the Army Expects of You and What the Army Offers You"; "Teamwork is Essential"; "Military Courtesy"; "Your Health and Your Equipment Must Be Well Cared For"; "Good Food—And Plenty of It"; "The Chaplain Is the Friend of Every Soldier"; "Promotion Rewards Duty Well Done"; "The Induction Station"; "The Reception Center"; "Classification and Assignment"; "Your Family is Kept Informed of Your Progress"; "The Replacement Training Center."

The cover page shows American soldiers on the march and the contents include inspiring messages from President Franklin D. Roosevelt, Secretary of War Stimson, Gen. George C. Marshall, Chief of Staff of the United States Army, and John J. Pershing, General of the Armies of the United States, together with a quotation from Theodore Roosevelt.

FOR RENT—completely furnished house; all utilities furnished; gas, electric refrigerator. Inquire of Mrs. Owen at Moore's Service Station. 1-1-tf.

PRESBYTERIAN CHURCH
Sunday School—10:00 a. m.
Fancher Archer, Superintendent.
Morning Worship—11:00 a. m.
Sermon Subject—"It Is Finished," followed by the Lord's Supper.

Young People's Vesper Service—6:30 p. m.
Evening Worship—7:30 p. m.
Sermon Subject—"Strangers and Sojourners."

"Do this in remembrance of Me," said Jesus regarding the Lord's Supper. Surely no one who loves Jesus will fail to be present Sunday morning unless providentially prevented from coming.

An opportunity will be given to unite with the church just before the Communion service. Thus a person may partake of the Lord's Supper as his first act as a member of this church.
T. H. Pollard, Pastor.

Cat Watches Benevolently as Rat Nibbles Food

HALIFAX, N. S.—One of the worst cases of appeasement in a war-torn world drew the attention of office-bound pedestrians in a Halifax street. A crowd assembled in front of a shop window, attracting still more passers-by, until sidewalk traffic was halted.

In the window a large brown rat was contentedly sampling piles of oranges, apples and bananas, and beside it, looking on with benevolent eye and every appearance of friendly interest, was the store cat.

Mr. and Mrs. DeWilton Jeffries left Wednesday to spend New Year's Day with Mr. and Mrs. Jess Hines in Houston. Mrs. Hines will be remembered as Miss Martha Ann Picton.

FOR RENT—five - room unfurnished House—Modern—butane gas, hot & cold water. Garage. Paved street. See E. M. SPENCER.
