THE METHODIST CHURCH
 —ALMUS D. JAMESON, Pastor—
 Church School 10:00 A. M.
 Preaching 11:00 A. M.
 Leagues 7:45 P. M.
 Preaching 8:30 P. M.
 Special attention is respectfully called to the evening service which for the ensuing summer will consist of informal congregational singing, special vocal numbers and instrumental selections. The sermon which will follow upon each occasion will never be more than of 15 minutes duration—a brief discussion of some vital theme of current interest, and will be timely and pointed.
 The neat auditorium decorated with flowers, the many windows opened to catch the ocean breeze from the southeast, unintercepted by any building or other obstruction, renders the structure cool and inviting in the extreme.
 To this delightful setting, and to all the inspiring and helpful services, you and everyone are cordially invited.
 —Come Without your coat or necktie if you wish.

State Urges All Citizens To Obtain Birth Certificates

AUSTIN, TEXAS—Are you a citizen of the United States? Can you prove it?
 The easiest and sometimes the only way you can definitely prove native-born citizenship is by a birth certificate showing that your birth is on record at the State Department of Health.
 Dr. George W. Cox, State Health Officer, this week reemphasized the importance of every American citizen being in possession of his birth certificate and outlined the simple procedure for obtaining this vital record.
 "Requests for certified copies should be made direct to the State Health Department, Bureau of Vital Statistics," Dr. Cox said. "There is no charge except the fifty cents necessary to pay for making a search of the records and a photostatic copy if the record is on file."
 Important in the national emergency, serving as proof of citizenship which is necessary for entrance to our armed forces or for employment in any national defense industry. A record of birth is also useful in establishing the time and place of birth as well as parentage and can be of great assistance in the settlement of estates and other legal matters.
 "American people are beginning to realize the importance of birth records since our entry into the war," Dr. Cox declared. "In the month of March alone, the bureau of Vital Statistics received 19,810 requests for copies of birth records; and in April and May, the requests have continued to increase steadily."

Cap Davis' Place Opened Saturday

Mr. and Mrs. C. A. Davis opened a new eating place Saturday, to be known as "Cap Davis' Place". It is located on Main Street, opposite the Bracht Bros. Grocery.
 While they are only serving short orders now, when the entire equipment is installed, the Davis expect to be able to serve about 35 persons, and will specialize in plate lunches and seafoods.
 The restaurant has been remodeled and modernized. It is painted white both outside and inside, with bright red trim on the interior.
 Mr. and Mrs. Davis know this business well, having operated cafes in Rockport several times in the past.

SAN ANTONIO PARTY IN SHOOK COTTAGE THIS WEEK

Mr. and Mrs. John Shook with their daughter Loisita, and son, John, Jr., and W. B. Halbig with his daughter, Lorraine, and son, W. B., Jr., and Miss Lucy Chapman, all of San Antonio, are vacationing at the Shook cottage on Fulton beach.
 Shook is district attorney of Bexar County and Halbig is assistant district attorney. The party will remain a week.

Mr. and Mrs. Lyle Diedrich returned to Rockport last week. They have been living in Brownsville.

mediately after sermon. We respect the feelings of all denominations and invite all to attend.

Humble Stations Buy Scrap Rubber; Profits Go To War Funds

HOUSTON, TEXAS—More than 1,000 Humble service stations and dealers outlets in Texas opened their doors Monday morning to receive scrap rubber in cooperation with the nation-wide rubber salvage campaign announced by President Roosevelt on Friday, June 12, and undertaken by the nation's petroleum industry.
 One cent a pound is being paid for any and all scrap rubber brought to the stations.
 Reclaimable rubber which is accepted includes all kinds of rubber except battery boxes and parts thereof and tire beads. All metal, wood, and leather should be removed from such articles as leather shoes and baby buggy tires.
 The scrap rubber will be sold to the government for \$25.00 a ton and the profit of \$5.00 a ton as well as the entire proceeds from scrap rubber donated, will be equal divided between USCA Red Cross, and Army and Navy Relief Humble last Friday organized a receiving center and to urge that scrap rubber be brought in for sale. A special portion of the Company's regular advertising in daily and weekly newspapers will also carry the message under the heading: "Your scrap rubber will bounce a Jap."
 Cooperation with civic clubs and other organizations in every community is being sought during the two week drive to gather every available pound of rubber in an effort to "recover the miles in scrap rubber piles."

How much is it worth, Mister? No matter how large or small the amount of scrap rubber you can gather, operators of more than 1,000 Humble service stations and dealer outlets in Texas will weigh it and pay one cent a pound cash for it. This is being done in cooperation with the scrap rubber reclamation campaign now being carried on by the petroleum industry all over the nation.

Mr. and Mrs. Willard Burman and Robert C. Burnett of San Antonio, spent the week end at "Casa de Juan", guests of Mrs. John Fries and her father, Dr. John Durlson.

SOUTHWESTERN BELL TELEPHONE COMPANY

From where I sit...
 by Joe Marsh

MAYBE I shouldn't admit it, but there are a few things about this writing job I really like.

For instance, I like the part where... after all the writin' and the routine is done... I just set back and think about things in general. (Oh, yes, that's part of the job, too.)

Doesn't matter much what I think about. Sometimes I concentrate on one thing. Sometimes I think of lots of things, one right after the other.

Usually, when I get to thinkin', I send down for some beer. Seems a glass of beer not only touches the spot but it also sort of helps the thinkin' mood along.

It's such a peaceful, friendly beverage. Sort of honest and human. And it tastes good.

I like to hold my glass of beer up to the light and look through it. That beautiful, golden-amber color kind of fascinates me. Reminds me of the sunny-barley fields where beer gets its start.

After all... when you stop to think about it... beer is a simple, natural thing. I read somewhere that all it's made of is good, wholesome farm grains and water and a little yeast... with hops for flavor. Nature's process of fermentation and the age-old art of the brewer does the rest.

I guess that's why beer is so wholesome. It really is the beverage of moderation. You just can't imagine anybody getting into trouble drinking a few glasses of beer.

Well, here I am... going on and on thinking and talking about beer. Probably could go on for hours. That's the way I am when I set back and get to thinking about things.

And by the way, taking it easy and "just thinkin'" is fun. Try it sometime... quiet and comfortable like.

Millions and Millions of Travel Miles

These great stacks of old tires make rubber mountain ranges over more than 20 acres of ground near the reclamation plant of a large rubber concern in Akron. WEEKLY NEWS ANALYSIS

U. S.-Russ Pact Means 'Second Front' And Co-Operation for Lasting Peace; Yank Warships Join British Blockade; New Pipeline to Supply Oil for East

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) Released by Western Newspaper Union.

How the United States can help Greece, now starving and prostrate under Nazi rule was among things discussed when King George VI of Greece conferred with President Roosevelt during the Greek monarch's flying visit to Washington. Above, the President is shown with King George on the White House lawn.

U. S.-RUSS PACT: 'Second Front'

In triphammer succession came three moves by the United States, Russia and Great Britain that promised momentous consequences for the prosecution of the war and the safeguarding of the peace afterwards.

First, President Roosevelt announced that the United States and Russia had reached a "full understanding with regard to the urgent task of creating a second front in Europe in 1942." Second, British Foreign Minister Anthony Eden announced that Britain and Russia had signed a 20-year military and political alliance pledging peace and renouncing territorial greed. Third, the United States and Russia signed a mutual assistance agreement for prosecution of the war against the Axis, pledging increased lend-lease aid and post-war economic cooperation.

Central figure in negotiating the three-way understanding was Soviet Foreign Commissar V. M. Molotov. The Russian statesman flew first to London and then hopped the Atlantic to Washington, where under the incognito of "Mr. Brown" he was a White House guest for a week. Not until Molotov was safely back in Moscow was the curtain of secrecy about his visit lifted.

Significance of this latest diplomatic coup for the United Nations is that war activities will be greatly speeded and the framework for a durable peace based on economic fair play provided.

OIL FOR EAST: New Pipeline

Acting to avert a threatened fuel oil famine in the East, the War Production board authorized immediate construction of a 24-inch pipe line from Longview, Texas, to the Salem, Ill., area.

The new pipeline will cut in half the distance Texas oil has to travel at present by rail and inland waterway to reach the Atlantic seaboard.

While it will have a capacity of 250,000 barrels a day, the pipeline will not supply enough oil to lift gasoline rationing restrictions in the East, WPB officials declared. They pointed out that shipments of oil and oil products to the East have not been meeting essential demands, despite rigid rationing and that stocks have fallen dangerously below safety levels.

RUSSIAN WAR: Nazis Speed Drive

Stepping up the tempo of their Russian offensive, Nazi armies and air forces pressed attacks on three major fronts. These included a push from Kharkov in the Ukraine, a drive against besieged Sevastopol in the Crimea and an air attack on Murmansk north of the Finnish sector.

With completion expected by December 1, the 550-mile pipeline will require 125,000 tons of finished steel.

The size of the force directed at Sevastopol suggested that the Nazis were at last getting their summer campaign under way. More than ten German divisions numbering 150,000 men were reported striking at the strategic Black Sea city. The importance of this city is that it opens a gateway to the rich Caucasus oil fields.

From Moscow came a cheering communique announcing that "despite the intensity and stubbornness of the attacks, the enemy failed to break the resistance of the Sevastopol defenders."

YANK WARSHIPS: Join British Fleet

As land and air warfare in Europe and Africa approached a critical stage, the Atlantic ocean battle theater crowded into the forefront with the announcement that a powerful task force of U. S. warships had joined the British home fleet.

Commanded by Rear Admiral Robert C. Giffen, the American naval force will help the British blockade German-controlled Europe, guard Allied convoys and hunt Axis submarines.

News that the Yank sea reinforcement had joined the British became public in connection with a three-day visit to an English port by King George VI, who boarded a U. S. battleship and saw other warships of the task force.

With British seapower scattered in the Atlantic, the Mediterranean and Pacific oceans, the arrival of substantial help from the American navy in the Atlantic area had significant implications. Important among these was that the stronger United Nations naval squadron now would be able to keep closer watch on the powerful Nazi warships lurking in Norwegian waters.

NAZI TERROR: In Czechoslovakia

In a reign of terror following the death of Reinhard ("The Hangman") Heydrich at the hands of Czech patriots, Nazi Gestapo executioners slaughtered the entire male population of the Czech village of Liditz, banished its women and children to concentration camps and burned it to the ground.

The Axis-controlled Prague radio charged that the village had harbored Heydrich's killers. The town's population was estimated at 483, indicating that upward of 150 men were shot. Liditz was located a few miles west of Prague and not far from where "The Hangman" was fatally wounded by patriots while driving along a winding road.

ALEUTIAN ISLANDS: Jap Footholds?

While the navy department denied Axis claims that Japanese navy and army units had established footholds on the inhabited areas of the Aleutian island chain stretching 1,500 miles across the north Pacific from Alaska, further reports of the extent of the American air and naval victory at Midway island came from Admiral Chester W. Nimitz, commander in chief of the Pacific fleet.

Admiral Nimitz intimated that of a Jap invasion fleet of more than 30 vessels engaged in the battle, probably half were casualties. Besides heavy loss in warships and transports, the enemy's toll of manpower ran into thousands.

That the Tokyo government was preparing the Nipponese public for news of the sea reverse was indicated by reports that an official spokesman had warned a radio audience not to expect that "all battle news could always be favorable."

MISCELLANY:

Omaha: Rich, high quality beef steaks will probably disappear from American tables this fall because of present price ceiling regulations, according to Guy Scudder, secretary of the National Live Stock Advisory council. Because feed prices are not regulated, cannot feed animals up to a good market quality and must throw them on the market after short feeding, Scudder said.

FOOD VS. ARMS: Anglo-U. S. Pool

The announcement by President Roosevelt and Prime Minister Winston Churchill of the establishment of two combined boards to integrate Anglo-American arms production and plan the most effective use of food resources of the United Nations had a two-fold significance:

1. It meant that the United Nations' war effort would be speeded up tremendously by quicker production of essential materials and a more efficient use of shipping facilities.

2. It meant that careful plans for the post-war world were being laid, for the organization of the vast resources of the United States carried into peace-time operations could help solve international problems of distribution, eliminate cut-throat competition and raise living standards.

That both the arms production board and the food board would have the benefit of the best Anglo-American planning brains was evident from their personnel. Donald M. Nelson, war production chief, and Oliver Lyttleton, British minister of production, comprised the production board. Claude R. Wickard, secretary of agriculture, was named American representative on the food board, working with the Hon. R. H. Brand, head of the British Food mission.

Reduction of American food surpluses might become necessary, President Roosevelt warned, as a means of alleviating hardships abroad. One of the objectives of the food board, he said, is to distribute foodstuffs on a fair basis among all United Nations.

BUMPER CROPS: For U. S. Farms

Progress in the battle for all-out food production was reported by the department of agriculture which predicted that all previous records of United States farm production may be "considerably exceeded" if weather conditions remain favorable.

The department said most crops were in better condition than at the corresponding time last year when the nation had one of the most bountiful harvests in its history.

A winter wheat production of 646,931,000 bushels was forecast. The department, likewise, predicted a spring wheat crop of 221,128,000 bushels. If harvested, a crop of this size once more would far exceed domestic requirements of about 700,000,000 bushels of wheat a year and add substantially to the nation's food stockpile for war purposes and peace-time planning.

WAR PRODUCTION: Ahead of Schedule

Donald M. Nelson told the world that America is "doing the impossible" with war production exceeding all estimates.

The chairman of the War Production board in an address before the graduating class of the University of Missouri confidently declared:

"This year we shall make 60,000 airplanes and by the end of the year

DONALD M. NELSON
"... Impossible is accomplished."

we shall be picking up speed for an even greater production. We have found our total production of war goods is higher than we had any reason to suppose it could be when blue prints were first prepared for war plants."

But it was of the post-war period of opportunity as well as the conflict itself that the round-faced production boss spoke.

"If this war is costing us a fearful price," he said, "it is also developing for us new technique and new abilities. It is placing at our disposal an industrial plant—a set of developed resources—that will be beyond price.

"Poverty is not inevitable any more. The sum total of the world's greatest possible output of goods, divided by the sum total of the world's inhabitants, no longer means a little less than enough for everybody."

VICHY FRANCE: Keep Ties

To most Americans the Vichy government of France is anathema. But to Ambassador William D. Leahy, in the United States since the return to power of pro-Axis Pierre Laval, the Petain regime has merit enough to warrant Uncle Sam in maintaining diplomatic relations.

In the eyes of most Americans, Petain is far less a Nazi tool than Laval, who is looked upon as a traitorous puppet.

Somehow Tramp Knew He Wasn't Addressing George

A tramp, coming down a country road in England, stopped a moment in meditation before a sign on which was written: "George and the Dragon." He then entered the tavern to which the sign was affixed and asked for the landlady.

"Noble lady," he began, "have you a meal and some old clothes to spare for a poor, tired and hungry man?"

"Not for the likes of you. Now go!" she said sternly. Then, seeing he desired to get another word with her, "Well?"

"Then please, ma'am, could I speak to George?"

If you're concerned about what sort of gift to send a friend or relative in one of Uncle Sam's branches of the services, your worries are over. If he smokes a pipe or rolls-his-own, the answer is a pound of tobacco. Numerous surveys made among soldiers, sailors, marines, and Coast Guardsmen show that tobacco ranks first on his gift list. Local tobacco dealers are featuring Prince Albert in the pound can for service men. Prince Albert, the world's largest-selling smoking tobacco, is a big favorite among many men in the service. —Adv.
