COUNTY GOES OVER TOP ON BOND SALES

Rice Bros. & Co. Begin Work On Army Cargo Boats

Every Aransas County citizen can take pride in the fact that this county has gone over the top in buying war bonds. The county had buying war bonds. The county had a stiff quota—based on bank deposits at a time when payrolls here were much higher than at present were much higher than at present but through patriotic response For Army Boats of buyers and good work on the part of volunteer workers the quota has been exceeded.

One Run-Way Of Landing Field **Nears Completion**

Entire Field May Be Completed In Nov.

Navy planes will soon be able to use a portion of Aransas Couny's new air field.

One of the run-ways is scheduled to be completed within the next fifteen days and will be made available for Navy use, according to C. L. Willis, Civil Aeronautics Administration engineer, who visited the site Wednesday. He was accompanied by another C.A.A. ngineer, H. J. Skipwith.

Willis said he believed the entire field would be completed by Thanksgiving.

During the past few months Heldenfels Bros., contractors, have changed nearly a thousand acres of sand dunes and lakes into level land for the airfield. Most of the leveling and drainage work is nearing completion and one of the runways will be completed soon.

The location of the airfield, three miles north of Rockport, was one of the roughest sections of terrain in this section, but indications are now that it will be discuss enlistments in the Women's one of the most beautiful airports Army Corps with interested women in the country when completed. The field is also located so that the quiet waters of a back bay may he used as a seaplane base needed in the Navy training pro-

Costing more than a million dollars to build under a CAA appropriation, the landing field belongs to Aransas County and is to be operated as a civilian air field after the war.

County Exceeds \$118,000 Quoto As Bond Buying Increases In Last Days

Aransas County has gone over he top in war bond buying, Fred racht, 3rd war loan chairman, anounced late Wednesday.

This county was assigned a quota of \$118,000.. Many believed that the quota, large for this county, could not be met, but Chairman Bracht and Mrs. Fred Booth, chairman of the woman's volunteer vorker group, and all workers put n a month of planning and long hours of work to bring every citi-

en the opportunity to buy bonds. The quota was reached because heavy purchases of bonds the ast two days.

"Now we want to see how much ve can extend the quota," Bracht aid. "We would like to sell a few housand dollars more in series E bonds and we want everybody to have a part in this great home front victory in Aransas county."

He pointed out that buying bonds s not only a patriotic duty, but also a financial privilege. Purchase of a war bond is a loan to the government-and one that brings n good interest on the money invested.

He urged people not to stop buyng bonds at the close of the drive Saturday, because every dollar is needed by the government to keep the invasion fronts moving for-

'At Jeb Crowell's the other day, we were havin' a glass of beer or two and talkin' about the kind of world there'd be when Peace came.

"Hear they'll have trans-Atlantic airplanes flyin' regular as taxi service," says Ed Carey.

"Yep," says Will Frost, "and television and plastic cars and air-conditioned homes and super-duper highways."

Finally, Doc Mitchell chimes in. "You know," he says, "we're talkin' about the future in terms

of luxuries-like air-conditioned houses and television.

"But what really will shape tomorrow's world is what goes on in men's own hearts . . . like tolerance and understanding."

And from where I sit, Doc's right. Whether it's tolerance of another's politics or respect for a neighbor's right to enjoy a glass of beer occasionally, tolerance is a mighty good foundation for a peacetime world.

CAIRO.-Capt. F. J. W. Bartlett of Pontopool, South Wales, helped to keep the 8th Army rolling across the desert by inventing ference schedules in handy pocket and manufacturing a plastic to form are still available at all replace bakelite for rotor arms,

When these small but indispensable spare parts ran short Bartlett started experimenting with resin from palm trees and produced an acceptable substitute for the usual bakelite. Ten thousand rotor arms alone were made out of palm resin, although Bartlett has since developed a better plastic from other trees common to the Middle East.
