V. F. W. BENEFIT OYSTER FRY SET FRIDAY Rehabilitation **Program to Get Underway Soon**

\$25,000 Allotted to Project of Rehabilitating Oyster Reefs

The Game, Fish and Oyster Commission has announced that it will now receive bids on planting oysters in connection with an announced oyster rehabilitation program. The oysters are to be taken from Copano Bay and will be planted on designated reefs in Aransas Bay.

Bids are to be based on the cost per barrel of dredging, cleaning and planting the oysters. The basis is an oyster barrel, 8,100 cubic inches or the equivalent of a box 20 inches by 30 inches by 131/2inches inside.

Proper blank bid forms can be secured at the G.F.O.C. office at the Court House in Rockport, with full instructions. Bidding is open to all operators. The lowest bids will be accepted and contracts awarded.

The purpose of the program is to rehabilitate the best producing reefs, thus keeping a supply of good oysters available for comthe lower bays are more suitable to the growth and development of the back bay will be properly spaced in planting to allow for better development and growth.

Dr. Gordon Gunter, marine biologist, will act in an advisory capacity in planting the oysters.

Eleven Months Makes Big Difference to Baby and Dad

Father Sees 17-Month-Old Son First Time

Pictured at right is curly-haired 17-month old Billie Haywood Mc-Caleb, son of Mr. and Mrs. W. B. McCaleb, who made the acquaintance of his father for the first time recently when Chief McCaleb, C. B., U. S. Navy, returned after more than two years overseas duty. The picture at left was taken when Billie was six months old to send to his father, and you can imagine Dad's surprise when he was greeted by the curly-headed youngster at right. Both are Pilot photos.

Billie is a grandson of Mr. and Mrs. H. K. McCaleb of Rockport. Mrs. McCaleb and baby will join Mr. McCaleb when he is reassigned to duty in this country.
