Union Church Services; Schools Have Long Holiday; Businesses Closed For Day; Hunting Picks Up With Norther

Texas vs. A & M Big Attraction Of The State

Rockport celebrated its second peace-time Thanksgiving today with church services, school holidays, business places closed, and the traditional turkey dinners.

Union church services were held this morning at the Presbyterian Church with Rev. W. B. Wheeler, pastor of the Methodist church, delivering the sermon; Rev. C. N. Jones, pastor of the First Baptist church, presiding over the program. Rev. T. H. Pollard leading the service of songs of praise; and other ministers of Rockport and Fulton participating in the program.

Special mass was held at the Sacred Heart Church at 7:30 this morning for the war dead of Aransas County with Rev. J. H. Kelly celebrating the mass which was sponsored by the Rockport Post of the American Legion.

School children started their first long holiday of the year this morning. They were dismissed for the week-end at 2:30 yesterday afternoon.

Before dismissal, most of the classes of elementary school held parties in their rooms. All students attended a Thanksgiving assembly.

The program was under the direction of Miss Wilburn Hamblin and Bill McGrath. Miss Jean Smith recited "Thanksgiving" and Kane Lassiter gave a reading entitled, "A Good Thanksgiving". The Choral Club sang several numbers and the Theodore sisters sang two numbers. Mrs. A. H. Bolser was the accompanist for a mixed chorus and then sang a solo. Miss Belva Jean Verban also played two piano solos for the assembly.

The big attraction of the state every year—the Texas - A & M game, this year at Austin, is being attended by a number of fans from Rockport.

City offices, the shipyards, county and state offices, and a number of retail businesses were scheduled to be closed today.

Orders for Thanksgiving turkeys were large but the supply was sufficient to meet the demand. Food purchased, especially of the items traditional at this season, have been heavy, indicating dinner tables will be well filled today.

Tourist courts were crowded with hunters and fishermen here for the holiday sports. The norther which arrived here Monday night brought many duck hunters and fishermen who were expecting the hunting and fishing to become very good. Many homes were filled with guests and out of town members of the family.

Individual Sugar Rations Will Be Issued From The Dallas Office

Announcement that sugar rations for individuals will be issued direct to consumers from Dallas regional Office of Price Administration's sugar rationing headquarters was made today by Cal C. Straughan, district sugar rationing officer.

Straughan said that, effective November 25, issuance and processing of individual sugar rations was transferred to the Dallas office. This includes applications for replacements of stolen or lost sugar ration stamps; new rations for babies, and individual sugar ration stamps for veterans.

Formerly, application for sugar rations of this type was made at the district sugar rationing office on the fifth floor of the Transit Tower, San Antonio.

Straughan explained that applications may obtain forms at the Transit Tower office, and information. However, all applications must be mailed to the Regional Sugar Issuance Office, 3221 Commerce Street, Dallas 1, Texas.

Applications will be processed in that office, on the basis of information furnished in application forms, and all sugar ration stamps issued to individuals will be mailed from Dallas direct to the consumer.

Home canning sugar stamps, Spare Stamps Nos. 9 and 10, will be valid through December 31. They were to have expired November 30, but due to sugar shortages, many people have not been able to use these stamps, hence the validity period was extended, Straughan explained.

Fathers of the boys on the team will be invited to attend and so will members of the Athletic Council. They had originally planned to hold a barbecue for the public honoring the team; however since the necessary facilities were not available the plans were changed to a banquet with the guest list restricted to the team and their fathers.

Sparks From Flue Sets Herring Home On Fire; Very Little Damage

The Herring home caught fire last night about 8:30 when sparks from the flue ignited the roof, but was extinguished before it did much damage.

David Herring says he called all the fire phones listed and found no one at home. Therefore, he had to come down to the Fire Station and get the truck himself. Ed Barnard and David took the truck out and hooked up to the fire plug. Arley Shivers, Joe Johnson, Jr., and Paul C. Sorenson reported for duty.

Several boys in the neighborhood helped to put the fire out. James Bracht, Glenn DeForest and Lloyd Mills assisted. Herring reported that the roof was so steep and wet from the rain that they had a hard time getting to the top of the house, and that Glenn DeForest actually fell off to the ground but was not injured.

The fire was extinguished with little damage, but there was a good deal of delay in getting water to the roof since most of the boys helping out did not know how to run the pumper on the truck.

Refugio won the championship of this district by virtue of having only a tie game on its record compared to one loss for both Ingleside and Rockport. Interscholaric league rules also gave the tie game to Refugio on penetrations. They had three penetrations to one for Ingleside in the game.

This year, an additional game will be played by the winner of the Bi-District game—the Regional game. The winner of the Refugio—Floresville tilt will represent this Bi-District in a game for the Regional championship early in December.

State Headquarters here at the Driskill Hotel announced that the tentative schedule for Sister Ken-cember 4; Houston, December 5; ny in Texas would be Dallas, De-San Antonio, December 6, and Fort Worth, December 7.

Plans of the Texas Committee are to use funds in sending graduate nurses to Minneapolis for training as Kenny Technicians and to make the Kenny treatment of polio available to every victim in Texas.

Public Hearing Will Be Held On Causeway Plans In Corpus Christi Dec. 17

The District Engineer will hold a public hearing at the County Court House at Corpus Christi at 10:00 a.m. on December 17th, on the proposed bridge and causeway across Laguna Madre and the Gulf Intracoastal Waterway between Encinal Peninsula and Padre Island at a location approximately 12 miles southeast of Corpus Christi.

All interested parties are invited to be present or to be represented at this hearing. They will be given an opportunity to express their views upon the suitability of the location and the adequacy of the plans in reference to navigation, flood control or other water uses, and to suggest changes considered desirable.

According to the plans submitted, the proposed bridge and causeway will extend in a straight line from Encinal Peninsula for a distance of about 2000 feet from the shoreline and will extend in a straight line from Padre Island along the old Don Patricio Causeway for a distance of about 6000 feet.

The plans propose a combination trestle and hydraulic fill causeway with about 1435 feet of trestle openings at three locations, and about 18,000 feet of hydraulic fill. The three openings to be located 3000 feet, 15000 feet and 183000 feet respectively from the Encinal Peninsula Shoreline.

These plans may be seen at the U. S. Engineer Office, Santa Fe Building, 25th Street and Avenue B, Galveston, Texas.

Salaries; Rent Will Mean Large Percent To Be Spent Here

J. L. Baughman, Marine Biologist with the Game, Fish and Oyster Commission, reported this week that the Commission expects to spend approximately \$70,000.00 in the Rockport area this fiscal year.

The greatest single item to be spent here will be the construction of the marine laboratory on the waterfront by the turning basin and will be erected at a total cost of approximately \$50,000.00. According to Baughman, about sixty percent of the cost of the marine laboratory will be for labor and he believes that most of this will be spent in Rockport by the men who will put up the building.

Salaries for the regular employees of the Commission will be approximately \$17,000.00 for the year. Rent for office space, dock space and other incidentals will be about \$1,200.00.

Baughman thinks that about \$1,000.00 will be spent in Rockport for repairs on their boats and will quite possibly be a good deal more than that.

The Commission now has eight boats and three barges docked in the turning basin. In the near future, they will also put in an underground gasoline tank to replace the drums now placed on the barges. They are now constructing their own wharves on the east side of the basin.

In addition to these direct sources of income for the town, he says that the Commission has had about forty visitors this summer who have spent from one day to four or five days in Rockport and that they had spent a great deal of money here.

"After the laboratory is completed, it will be a source of attraction to many visitors," Baughman commented, "who might not otherwise come to Rockport and will be another indirect source of income for the merchants of the town."

Roadside Improvement District 16 Met At Sinton November 26

District Number 16 of the Roadside Improvement Council met at Sinton Tuesday, November 26th, for a round table discussion of the progress on organization of each of the county committees and the work they have done.

Mrs. Jack Hagar who is chairman of the county committee here, represented Aransas County at this meeting. She reports that Aransas County is the only one of the six counties that compose this district to be completely organized and has done any work to report at this meeting.

The meeting was under the direction of Rudolph Riefkegel, Senior Landscape Engineer for the State Highway Department. He was assisted by R. L. Faltinson, Assistant District Engineer from Corpus Christi, and Mr. Valentine, Maintenance Foreman for San Patricio County.

Representatives from Nueces and Kleberg counties adopted the oleander and palm tree motif that Aransas County has used, thus making a longer stretch of the coast with that theme. Goliad County adopted the Crepe Myrtle as its motif. Neither of the other two counties, San Patricio and Karnes have decided what flowers and trees they will use.

A TIME FOR THANKSGIVING

It is fitting that a special season of the year should be set aside for thanksgiving. Autumn is the proper time. The harvest is being gathered in. The year is approaching its end. The colors of nature are beautiful. Everything conspires to remind us of a Benevolent Creator. Our hearts do long to sing praises to the Lord; for He is good and His mercy does endure forever.

This is a time for true gratefulness and thanksgiving on the part of every American for the many finer things of life we are enjoying. It is not enough that Americans should give thanks to the Giver of All Good Gifts, but each psalm of praise should also include a supplication that we as individuals and as a nation be given moral strength and courage and Divine direction in preserving this land of freedom.

We should not be boastful and selfish when we think of our nation. We have a wonderful history and glorious traditions. We must remember that other nations have too. We have food, wealth, power. We must remember that we are not to squander these blessings; but that we are to use them as good stewards. Others are starving, multitudes have no warm, comfortable homes such as we have. We must remember them and be humble before God. Our nation has been spared often and has received manifold blessings. Let us be thankful, but not boastful.

Let us, at this Thanksgiving season, thank God and take courage.

Social Security Cards Are Not For Use In Cashing Checks

Merchants are cautioned not to use Social Security account number cards for any purpose not directly connected with the records and reports required by the Social Security Act.

Some wholesale and retail establishments, banks, hotels, and others have accepted or required Social Security cards as personal identification, and because of their willingness to accept the cards as proof of identity, some firms have suffered financial loss in cashing payroll checks, money orders, Government checks, war bonds, personal checks, or in establishing credit.

Under no condition should anyone accept a Social Security card as a means of identification. It is possible for a dishonest person, through misrepresentation to secure a card in a name other than his own, and thus an obliging merchant who accepts the card as identification, may be defrauded. This warning was issued by the Social Security Administration in order that businesses might protect themselves against such losses by establishing identity through some other means than a Social Security Card.

From where I sit... by Joe Marsh

A Lesson In Conservation

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer—when the talk turns to forest preservation, soil erosion, and other things that affect a farming community.

Judge Cunningham speaks up: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation—and that's preserving our democratic way of life, our sense of personal freedom, our respect for one another's rights."

From where I sit, the Judge is right. All America's great resources, our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rights—whether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed, law-abiding places... watch out!

HE-MAN CAREER

It takes rugged strength, quickness, intelligence and courage to make a soldier in America's peacetime Regular Army.

and be my Love

THE STORY THUS FAR: "Mentally ill," Tom Fallon had described his wife, Meg shivered as she went home.

or how to apologize for Martha," he said awkwardly. "Please don't say any more," Megan begged him quickly.

himself into a fury, and Megan eyed him for a moment, with a look beneath which his self-righteous bluster faded a little.

Megan rose and lit the oil cook-stove. She was just putting water on to heat when suddenly a cry rang out that was like icy fingers tapping up and down her spine.

Megan let herself quietly into the house, grateful for its warmth and darkness. But as she moved across the kitchen towards the hall, there was a sudden sound and the light flashed up and she faced her father.

Megan's eyes were wide and incredulous. "In love with Tom Fallon?" she repeated as though she could not believe the absurd charge.

Megan poured the boiling water into the teapot, and said, her tone deliberately quiet and natural, "Perhaps Mrs. Fallon would like a cup of hot milk? Would it soothe her, do you think?"

"But of course, only on condition that you see no more of the man, and that you sell out and we both get as far from this place as possible," he went on sternly.

Megan nodded and poured some milk into a saucerpan. When it was hot, she filled a glass and went to the door with it.

"I'm not selling the farm, Dad—that's final," she told him, and managed to get up the stairs and to her own room before she gave way to tears.

She came back to the stove, and tested the tea. Martha said it was "just right" and Megan poured her a cup of it.

"It's not far and the dogs are waiting for me outside. You stay here."

She admitted now, forlornly, in the first moment of her emotional reaction, that she had never liked her father. But now she hated him!

He walked with him out to the car. When he came back, he said to Megan, "I don't know how to thank you—"

with my own eyes! How long has this—this disgraceful business been going on?" he added, his voice thick with righteous anger.

"I feel like a lazy loafer, Annie," she admitted. "Well, it ain't no matteh. An' he'd as yo' wu'ks, Miss Meggie, I like to see you git yo' sleep out!"

As he turned towards the door, Tom came out of that room that was in such sharp contrast to the drab, cheerless house, and shook hands with the doctor, thanking him for his trip.

"I don't know what you're talking about—" she began. "Don't try to lie out of it," he snapped at her furiously.

"I 'spected him," Annie assured her cheerfully. "I done got me two fine chickens all dressed and waitin' fo' de frying pan."

"Tom can help me. I don't need you to help me," said Martha with such unexpected savagery that Megan felt the color pour into her face.

"I don't propose to have my intelligence insulted by some weak-kneed silly lie!" he blazed at her.

They walked hand in hand back down the road to the house, and then Laurence said, "I've been shut up in what passes for a city, in these parts, for quite a bit—couldn't we walk down through the meadow and over to the Ridge before lunch?"

England Gets Back to Normal

Things are returning to normal in England faster than we thought. Jewel robberies now are considered important enough to be mentioned among life's major annoyances.

Scotland Yard, cat burglars, palace jobs, international rings and super jewel criminals are back in the British headlines.

It shows that England really is recovering faster than some of her allies. No jewelry ring has been announced in France yet.

With Scotland Yard intact and "Mister Inspector" on the job once more, the routine of happier years returns.

But one thing disturbs Americans. We have supposed the British were having as much trouble eating as we are.

"Bourbon whiskey will cost \$10 a fifth by Christmas," News item. "We stand at Armageddon and we 'bottle' for inflation."

So You Never Saw Al Jolson

Al Jolson's life story has been put on the screen. Al doesn't appear in it. A young movie actor, Larry Parks, plays the hole while Al's voice is synchronized into the picture.

He wasn't just a comedian; he was a battery with a voice, an electric charger with a human personality, a bolt of lightning in black-face.

You hummed the Jolson tunes as you filed out of the theater. You told his stories for weeks.

Come on up!

Come on down!

THIS is the story of a blighted romance. These Swiss sweethearts have come to the parting of the ways. He keeps on climbing UP. She keeps on climbing DOWN. Only a while ago they started out together, hand-in-hand. Now they are growing farther and farther apart.

This is also the story of your cost of living. As everyone knows, it has been climbing steadily since before the war.

But wait a minute... here's something you may not know—there's one item in your family budget that's LOWER in price now than before or during the war... ELECTRICITY. In spite of war and shortages, rising prices and higher taxes the cost of electricity continued to go down. With CPL's recent rate reduction, electricity is now selling at its lowest price in history.

Actually, here in South Texas, the average family is getting about twice as much electricity for its money as it did 15 years ago. Never has electricity done so much for so little.

Your friends and neighbors in business-managed CPL made this possible. Your own increased use of electricity helped.

BUDGET HELPERS FOR THE HOUSEWIFE

Although more meat is available today, Mrs. Housewife can continue to make good use of the meats she relied on during the period of scarcity. There are a number of these which offer many opportunities for variety and at the same time are easy on the budget.

The meats pictured above are excellent examples. Most housewives include them in their family meals, but more often than not the ways in which they are served are very limited.

As a matter of fact there are almost endless possibilities for using these meats in preparing dishes that are different. A few suggestions are given here.

Meat Cups — Creamed Potatoes
Combine 1 pound ground beef, 1/2 cup dry bread crumbs, 1/2 cup milk, 1 teaspoon salt and 1/2 teaspoon pepper. Line ungreased muffin pans with meat mixture to a thickness of 1/2 inch. Fill with creamed potatoes and bake in a slow oven 45 minutes.

Meat and Potato Roll
Combine 1 1/2 pounds ground meat, 1/2 cup cracker crumbs, 1 egg, 1/2 cup milk and 1/2 teaspoon pepper. Spread on waxed paper to 1/2-inch thickness, making a rectangle about 6 x 10 inches. Spread with 2 cups mashed potatoes (use sweet potatoes if meat is pork). Roll like a jelly roll. Place in roasting pan and bake 1 1/2 hours in a moderate oven.

Meat-Potatoburgers
Combine 1 pound hamburger, 2 cups coarsely grated unpeeled potato, 1/2 cup grated onion, 1 1/2 teaspoons salt and 1/2 teaspoon pepper. Mix well. Shape into 8 patties and broil or panbroil slowly until done.

Liver Chop Suey
Cut 1 pound liver in 1" x 1/4" strips. Cook in 4 tablespoons lard or drippings 5 minutes. Add 1 cup sliced celery, 1 cup sliced onions. Cook 5 minutes. Add 1 can Chinese vegetables and liquid and 4 teaspoons soy sauce. Simmer until meat is thoroughly cooked, about 1/2 hour. Season, thicken. Serve over hot rice.

Liver Spoon Cakes
Cook 1 pound sliced liver in 1 tablespoon drippings in frying-pan about 5 minutes. Grind liver; add 1 teaspoon salt, 1/2 teaspoon pepper, and 2 eggs, well beaten. Mix well. Drop by tablespoonfuls into hot shallow lard or drippings. Brown well on both sides.

Liver Loaf
Cook 1 1/2 pounds sliced liver in 2 tablespoons drippings 5 minutes. Grind liver. Combine with 1 cup bread crumbs, 1/2 cup milk, juice of 1/2 lemon, 2 tablespoons tomato catsup, 1/2 cup pork sausage, 1/2 teaspoon paprika, 1 small onion, finely chopped, 1 egg, beaten, 1 teaspoon salt, and 1/2 teaspoon pepper. Mix well. Turn into a loaf pan lined with bacon. Place bacon strips on top. Bake in moderate oven, 1 hour.

Frankfurter Spaghetti
Slice 1 pound frankfurters in 1/2-inch pieces. Brown frankfurters and 1/2 cup diced onion in 1 tablespoon lard or drippings. Add 1 teaspoon salt, 1/2 teaspoon allspice, 1/2 teaspoon cloves, 1/2 teaspoon pepper, 1 1/2 cups tomato juice and 3 cups cooked spaghetti. Simmer until thickened. Brown 1/2 pound whole frankfurters. Serve around spaghetti.

Frankfurter — Green Bean Casserole
Slice 1 pound frankfurters, 1/2-inch thick. Brown in 3 tablespoons drippings. Stir 5 tablespoons flour into drippings, add 2 cups milk and 1 teaspoon salt. Cook until thickened. Add 1 tablespoon Worcestershire sauce, 1/2 cup grated cheese and 2 cups green beans. Combine with frankfurters. Bake in moderate oven 40 minutes.

Barbecued Frankfurters
Arrange 1 1/2 pounds frankfurters in shallow pan. Pour Barbecue Sauce over them. Bake uncovered for 30 minutes in a moderate oven. To make Barbecue Sauce: Brown 1 medium onion, chopped, in 2 tablespoons margarine or butter. Add 2 tablespoons vinegar, 2 tablespoons brown sugar, 4 tablespoons lemon juice, 1 cup catsup, 3 tablespoons Worcestershire sauce, 1/2 tablespoon prepared mustard, 1/2 cup water, 1/2 cup chopped celery, salt and red pepper. Simmer 30 minutes.

While editor of the Eastland county seat daily, I narrowly escaped being killed while helping in the pursuit of the Santa Claus bank robbers.

Not long after that, I wrote of the emergence of Old Rip from the Eastland courthouse cornerstone.

Now for the first time, the full accounts of the most spectacular crime in the history of the Southwest and of the horned frog, who will be a legend centuries from now have been written. They are in a new book, "Cowtown Columnist" of which the author is one Boyce House.

The volume contains the cream of eight years' "columning" for this and many other papers and five years' broadcasting about Texas history, adventure romance and legend.

There are first-hand stories which were obtained from J. E. Cooper long-time editor of the Williamson County Sun, who knew the famous gun-fighters, John Wesley Hardin and Ben Thompson, personally. In the book, Tom Bendy of Eastland tells about the time he cussed Hardin, who was credited with killing 40 men; and Sterling Price Buster tells about his friend, Bob Ollinger, the last man Billy the Kid killed.

I was lucky enough to discover an unpublished poem by O. Henry, too, and it is included.

Did you know that the first man in the history of the world to fly was a Texan?

And that the last battle of the Civil War was fought in Texas, weeks after Lee's surrender?

That Old Spanish Fort actually was an Indian fort and the scene of a big battle when Spain ruled Texas?

And that Texas used to have camels?

The only monument erected by Southerners to the memory of Union soldiers is in Texas?

Besides all these stories, "Cowtown Columnist" tells about Harley Sadler, famous tent-showman; Bigfoot Wallace; the "White Indian" Capt. Bill McDonald of the Texas Rangers; Sam Bass; Cynthia Ann Parker; the trial of the Indian Chiefs at Jacksboro; wolf-hunting and famous wolves; of how J. R. Couts, single-handed, shot it out with four "bad men"—and many other colorful Texas

events, many of which never before have been published in any book.

Employment for all, high wages, low prices, no shortages, lower taxes and no strikes—these are what the Republicans promised. Let us hope that these promises won't be like "two cars in every garage" and "a chicken in every pot."

Now is the time of year that I strive desperately to use up my supply of shaving soap as Christmas draws near when there will be another deluge of shaving sets.

1946 will be remembered as the year of hardships—when people paid \$300.00 for a \$4.80 ticket to the Notre Dame-Army game and Texas sportsmen chartered planes to fly to North Dakota to hunt pheasants.

The Austin dynasty may talk about "Washington wastefulness" but Austin itself reached an all-time low in stupidity and incompetence when it ordered a special election on one constitutional amendment for two days after the national election. The voters were so disgusted that only about 80,000 out of 1,500,000 took the trouble to vote in the unnecessary election, which cost the taxpayers a mere \$220,000.

When Mark Twain got mad, he was a mighty good, free-handed cuss. His wife tried repeatedly to break him of the habit and at last one day she broke out in a string of cuss words herself, thinking he would be so disgusted that he would "swear off" swearing. But, instead, he broke out laughing and then said, "Darling, you have the words but you don't have the tune."

A little boy asked his father, "How much is a million dollars?" The father, busy reading the paper said, "It's a h--- of a lotta money." Next afternoon, the boy came home from school crying, and said, "Pa, that wasn't the right answer!"

Only one justice of the United States Supreme Court has ever been impeached—and that one was acquitted and resumed his seat on the bench, according to Encyclopaedia Britannica. Articles of impeachment were brought before the Senate against Justice Samuel Chase in 1804 because of his activities in behalf of the Federalist Party.

WEEKLY NEWS ANALYSIS

Corn Belt Fills Feed Lots; British Push Nationalization; Hike Prices to Offset Costs

Released by Western Newspaper Union. EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

With heavy snow drifts preventing feed wagons from reaching marooned cattle on Colorado ranges, airplanes dropped hay to animals. Picture shows feed being loaded in aircraft for mercy flight.

CORN BELT: Fatten Cattle

With corn belt cattle feeders filling their feedlots at a record rate, consumers can look forward to plentiful supplies of prime beef by next spring and summer, the department of agriculture declared. Purchases of heaves from western grass lands for fattening in October were the highest for that month and topped the 1945 figure by 14 per cent. Large feed supplies resulting from the banner 1946 harvests have spurred the heavy feeding operations, department specialists said. If present corn and livestock price differentials persist, feeders could double the value of their grain by fattening cattle.

The re-establishment of a free market also has contributed to an increase in feeding activities, it was said. With ceilings off, finished beef will command a price commensurate with its quality and assure feeders of a profitable return on costly feed-lot operations.

HIGH JUMP: Important Operation

Amid rumors that other nations were preparing expeditions to search for reported uranium deposits around the south pole, the U. S. announced that Rear Adm. Richard E. Byrd would lead a navy contingent to Antarctica in December on a scientific study.

While Byrd's force will make exhaustive geological surveys in the polar wasteland to uncover any uranium, the famed explorer declared that his band also would undertake intensive studies of ge-

graphical, meteorological and electro-magnetic conditions. Weather developing in Antarctica affects all parts of the world. Four thousand men, 12 ships and at least a score of aircraft will compose Byrd's operation High Jump, as the expedition will be known. No part of the task force will be kept in the region during the Antarctic winter but Byrd will establish a small base capable of supporting a small party for 18 months in the event of national need.

BRITAIN: Labor Program

Great Britain's Labor government served notice that it will press ahead with its socialistic program as parliament assembled amid a colorful medieval setting in London. Indicative of their cautious approach to socialization, the Laborites announced that nationalization of only the inland transport and

STATES: Teen-Agers at Work

Forty-three states currently are returning to their municipalities nearly 400 million dollars a year in state-collected tax revenues according to American Municipal association. This sum does not include other multi-millions in state tax aid to local schools. City officials in many states, meanwhile, are backing new proposals aimed at getting for localities still greater shares of state-collected taxes.

U. N.: Trustees' Terms

Proposals for United Nations trusteeships over strategic territories or dependent peoples ran into rough sailing at U. N. deliberations at Lake Success, N. Y., with holding powers reluctant to relinquish their control.

The take-it-or-leave-it basis of the proposals was pointed up by the Union of South Africa's determination to annex or retain control of Southwest Africa in defiance of Soviet Russia's demand that the territory be placed under the U. N. Citing article 77 of the U. N. charter, Union representatives said that trusteeships were to be instituted only through agreement with affected parties.

With no territories of her own to surrender to U. N. control despite extensive land grabs in Europe in World War II, Russia has hollered the loudest for an effective trusteeship system. Compromising differences between the services and state department, President Truman submitted a proposal for nominal U. N. supervision over strategic Pacific islands, with the U. S. maintaining absolute military control.

PANAMA CANAL: Study Alteration

Working under a special congressional grant, top meteorologists and hydrodynamic, dredge and excavation engineers are busily engaged in studying the alteration of the existing Panama canal or construction of a new waterway to accommodate heavier modern traffic and decrease vulnerability to atomic warfare.

Erected at the turn of the century, the canal's narrow channel and locks are too small for the latest warships and merchant vessels. Water storage capacity of Gatun lake reservoir will be insufficient to handle prospective traffic by 1960 or a diversion of traffic from Suez canal in event that vital artery is closed by war.

DECONTROL: Prices Rising

Price rises all along the line accompanied decontrol of the nation's economy, with producers hiking items for full coverage of higher wages and material costs and promising lower prices when output reached volume proportions.

Biggest manufacturer in the industry, International Harvester boosted prices of farm implements and tractors 9 per cent to offset wage increases amounting to 60 per cent since 1941 and higher material costs. Declaring its intention of keeping prices at a minimum, the company stated that it based its increases on present costs and did not anticipate future higher operating expenses.

Zenith Radio corporation announced an increase of from 2 to 20 per cent on radios and radio-phonograph combinations. Leading shoe manufacturers expected a 10 per cent rise in all standard lines as a result of the increase in the cost of hides from 15 1/2 cents a pound to 30 cents.

Previously, General Motors and Crosley had boosted the price of passenger cars by \$100 and industry spokesmen predicted increases in some steel items, building materials, clothing, batteries and lumber.

Long held within rigid ceilings despite mounting janitorial and maintenance expenses, landlords petitioned for a 15 per cent boost in rentals. An estimated 16 million housing units have been under rental control in addition to hotels, rooming houses and tourist camps.

WEST: Snow-Bound

Approximately 15 people died and cattle losses were counted in the hundreds as Colorado was hit by the worst snowstorm in 33 years. At the same time, deep snow piled up in southern California's mountain ranges and rain and wind lashed the sea coast.

C-47 twin-engine army cargo planes, ski-equipped ships, weapon carriers, bulldozers and tractors were put into use in Colorado to reach snow-bound ranches and feed thousands of shivering and hungry cattle hemmed in by tall drifts. On one ranch alone, bales of hay were dropped from the air to 10,000 head of cattle standing stiff-legged in three feet of snow.

As rescue planes winged over the area, marooned ranchers were advised to make one cross visible from the air if they needed food, two if they required medical help. Supplies intended for overseas ships were diverted from the Pueblo, Colo., ordnance depot to meet the emergency needs.

CONSUMER DEBT:

American consumers are going into debt twice as fast as at any other period in history in buying goods and services on credit at an all-time record rate, according to a study by Northwestern National Life Insurance company. The increase of \$2,693,000,000 in consumer credit obligations which occurred in the 12 months ended October 1 is almost exactly double the previous record 12-month increase of \$1,352,000,000, which took place in the year 1936, the study points out.

At Carlisle, the conductor finding the seedy-looking individual without ticket or money, grabbed him by the arm and put him off the train with the help of a well-placed kick.

At the next station he found the same fellow and again threw him off, accentuating the force and gesture.

At the third station the guard was astonished to again find the chap, who attempted to jump off quickly enough to escape the violence of the attack.

"How far do you think you are going to get like this?" demanded the conductor.

"As far as Chicago," replied the persistent one, "if my constitution can stand it."

AROUND THE HOUSE

If you are making a stuffed toy for your youngster, put a few pebbles in a pill box in with the stuffing, to produce a rattling noise.

When making a new dress for your little daughter, make a matching hanky. She'll remember to take one then, for she'll always be looking for one to match.

If you need a kitchen stool to get at those high shelves, use an old baby highchair. Remove arms and tray and paint the stool to match your kitchen set.

The corners and crevices of your furniture sometimes need extra attention. Use a small new paint brush. Dip it in furniture polish, then give the corners and crevices a real going-over. Makes a really thorough dusting job.

If you keep your dustpan waxed, it will always look clean and the dust will slip from it more easily.

ROCKPORT Five Years Ago
Fishermen get plenty of thrills as trout swarm into the basin. Trout—big speckled ones, hungry and full of fight—swarmed by thousands into the quiet warm waters of Rockport's municipal small craft harbor this week. News of the arrival of the big trout schools spread far and wide quickly. Monday, Tuesday and Wednesday found a fisherman every few feet round the basin and along the rocks. They caught fish almost as fast as they could supply an enticing baited hook, and late Wednesday afternoon the trout were still biting as weary anglers pulled themselves away from the "best fishing in their lives."

Mrs. B. W. Hamblin honored her little daughter, Rosa Faye, with a party on her eighth birthday, on Thursday, November 20th from 3:30 to 5:30 at their home at Oleander Court.

Mrs. Rufus Casterline was given a surprise birthday party on Thursday, November 20th by her daughters, Mrs. Elva Mullinax and Miss Mildred Casterline.

Mr. and Mrs. C. F. McKinley returned to Rockport this week after spending several days on a big ranch in Webb county hunting. Two big bucks were tied on the front of the McKinley car, one an 8-pointer and the other a 12-pointer, killed by Mr. McKinley.

Freshman Class Given Treasure Hunt By Mrs. Somer Smith Last Sat.
Mrs. Butler's Freshman Class and their guests met at the High School Saturday night at 7:30 for a treasure hunt sponsored by Mrs. Somer Smith, who is their room mother.
There were about fifty-five in the party and they were divided into groups of four and six for the hunt. They were a very lively crowd when they started out but by the time they returned to the school where the treasure was found, they weren't saying anything about another treasure hunt any time soon.
The treasure was found by the group composed of Vaunda Smith, Dave Davis, Dixie Mundine and Sam Jones.
Refreshments consisting of cookies, sandwiches, and bottle drinks were served.
Those assisting Mrs. Butler and Mrs. Smith were Dr. and Mrs. Charles F. Cron, Mrs. Bill Patrick, and Somer Smith.

Rheumatic Heart Disease Now First Cause Of Childrens Deaths
Austin, Texas—Rheumatic heart disease is now the first cause of death among children aged 10 to 14, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox, and whooping cough has yet been developed for its prevention or control. We do know, however, some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.
Exposure to frequent chilling, damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.
Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows, or wrists. The pain usually is felt in one of these centers and spreads it to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.
According to Dr. Cox the best safeguards against this disease are to have each child examined at least once a year by a physician, to have the right kind of food and plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once, and if he prescribes complete bed rest, his advice should be implicitly followed.

SUNDAY SPEAKER
Dr. James Sprunt, pastor of the Lookout Mountain Presbyterian Church, Chattanooga, Tennessee, will be the speaker on the Presbyterian Hour next Sunday morning, December 1, 7:30 a.m.
A South Carolinian by birth, Dr. Sprunt received his education at Davidson College, and took his theological training at Union Theological Seminary in Richmond. His first pastorate was in Chase City, Virginia, and from there he went to the Knox Presbyterian Church in Norfolk. He was called in 1933 to the Westminster Presbyterian Church in Lynchburg, Virginia, and after a pastorate there of twelve years, he went last year to his pastorate in Tennessee.
Dr. Sprunt has contributed to many religious magazines, including the "Presbyterian Outlook" and the "Union Seminary Review".
The subject of his address next Sunday morning will be "Ties that Bind a Christian Home."
This radio broadcast can be heard in Rockport over radio stations KWBW Corpus Christi; WOAI, San Antonio; KPRC, Houston; and WFAA, Dallas.

VETERANS NEWS
More than 13,000 veterans training in Texas, Louisiana and Mississippi are currently suspended from Veterans Administration subsistence rolls for failure to report their earnings.
Subsistence checks ordinarily mailed to these veterans the first of every month will be held up until the required report is submitted to the proper VA regional office, VA officials said.
Both veterans in training and educational status must report their earnings from productive labor for the months of August, September and October.
Forms have been mailed to all veterans on the suspended list, but if these have been misplaced, the report on earnings can be made in a letter over the veteran's signature.
Under legislation passed last summer, veterans' payments and earnings are limited to a total of \$175 monthly for those without dependents and to \$200 monthly for those with dependents. In the event those figures are exceeded, the subsistence allowances must be reduced accordingly.
VA officials believe most of the reductions will be made in allowances to veterans taking on-the-job training. It is believed that only a few veterans in educational status will be affected.

There may be a great deal of talk nowadays of how wonderful it would be to have steaks and beef steaks in plenty, but, according to the Encyclopaedia Britannica, pork is the most popular meat in the American diet.

The phosphorescence in water at night, seen from shipboard, is really millions of luminous protozoa, microscopic animals, according to the Encyclopaedia Britannica.

Home For Thanksgiving—Maybe

Three-year-old Sammy Graves has been counting the days until Thanksgiving. If his improvement continues he may be able to join his widowed mother and his two brothers and five sisters around the Thanksgiving table at their home in Caddo Mills. Sammy will soon be discharged from Texas Scottish Rite Hospital for Crippled Children in Dallas where he has undergone treatment for polio for the past four months. Each year at this time generous persons in all parts of Texas are planning their gifts to the Nathan Adams campaign for funds with which to continue the operation of the hospital for another year. The hospital treated 90 cases of polio during the 1946 epidemic in addition to some 500 various other cases throughout the year.

Hunter Returns
Empty-handed, But
Wife Has Pheasant

BELVIDERE, ILL.—Raymond Backley returned from an all-day hunting trip and informed his wife that he had no pheasants—the birds kept out of gun range.

Mrs. Beckley grinned, told him to sit down to the table, and served up a plump roast pheasant.

The ringneck had scooted in front of her automobile while she was returning home after driving her husband to the shooting grounds.
