# **Commissioners Set Budget** And Tax Rate for the Year

**County Auditor Finds Funds In Excellent** Condition, "The Best In Ten Years"

The Commissioners Court held a hearing on the budget for the year when they met at the court house Monday. Auditor James F. Houlihan reported to the court on the finances of the county and remarked that the funds are in the best shape that they have ever been since he has been connected with the county. Mr. Houlihan has been special auditor for Aransas County for more than 10 years.

The county tax rate was set at \$1.45 on each \$100 of taxable property. \$1 of the \$1.45 goes to the county and the 45 cents goes to the Aransas County Navigation District, which is levied for the retirement and interest of The Rockport Pirates will go to Navigation District bond issues. \$1.00

The Rockport Independent School District tax levy will be \$1.50 on each \$100 of taxable property. The levy in Common School District No. 1 is 88 cents. Seventyfive cents will be levied in Common School District No. 6.

The state tax levy is 42 cents per \$100 valuation. Of this amount, 35 cents goes to the available school fund, 2 cents for the Confederate veteran pension fund and 5 cents for the college building bonds.

The tax levy for those in the Rockport Independent School District will be \$3.37 per \$100 valuation, \$2.70 in School District No. 1 and \$2.62 in School District No. 6.

### **Coach Roe Addresses** Rotarians at Meet Wed.

Chas. Roe Jr., high school coach was the speaker at Rotary Club at their weekly meeting held here Wednesday. Roe covered the high points of the games played by the football team this year and discussed the teams in the area which they have played and are scheduled to play. Weldon Cabaniss was in charge of the program.

Two football players were guests of the club. They were Glenn Owens and Frederick Close.

Two visitors were present at the meeting, John Martin and Chas. Wilson of San Antonio.

Mrs. M. O. Flower, Mrs. E. B. Cookwood and Mrs. W. B. Swearingen of Lockhart, spent Saturday at the home of Mr. and Mrs. Weldon Cabaniss.

# **Insure Safe Crossing**

Civic, City and County organigations are making plans for safety improvements to better insure a safe crossing on Highway 35 where students cross when going to and from the school.

Plans are underway to increase the safety of the crossing. The best method by which this can be accomplished is being discussed. At present the only markings are the school zones, which are not deemed to be adequate considering the fact that this is a heavily traveled state highway. Small youngsters flock across the acres. road four times a day. While there has not been an accident, the

towns people believe that precautions should be taken so that there will not be one.

### Marine Laboratory Adds Biologist

Llano Monday,

Dewey Miles, biologist, joined the marine laboratory staff this week. Mr. Miles will work on the fish food analysis survey. He is August 30 were classified and a graduate of the University of about 500 were classified 1A in Houston.

tory. Dr. Gunter and Mr. Baughman will serve on a sub-committee to explore the oyster laws in view of envision. Other members of the Hike, Pack Meet committee will work out a correlated program on the research now taking place along the coast. Marine biologists, fisheries experts, pollution authorities and members of the Texas Game, Fish and Oyster Commission comprised the group which met in Houston to discuss the oyster mortality toll. Dr. Gunter told the group that if something isn't done, the Texas Game, Fish and Oyster Commis-

sion will ultimately have to remove the word 'oyster' from its name. Pollution, Texas laws, excessive salinity and lack of salinity and generally, lack of sufficient knowlege about the oyster, were all cited as reasons for the death. of many Texas oyster reefs. Texas oysters have declined from 153,000 barrels in the state's peak year

of 1908 to 30,000 barrels this year, Gunter said. Mr. Baughman pointed out that the legal restrictions placed on

oyster cultivation in Texas have kept big and responsible oyster companies from developing the

supply, as there is no provision in the laws for placing dug-up oyster shells back in the water so as to propagate the oysters. He also criticized the laws banning transfer of oyster leases and restricting leases to a maximum of 100

Frank J. Metyko, Harris county pollution expert, cited six ways

Horne, Corpus Christi.

An article on the marine laboratory will appear in the magazine section of the San Antonio Express this Sunday. The article features pictures of the laboratary and tells about the comprehensive research Masses at the Catholic church into the nature of the Western will be held at 7 and 10 o'clock on Gulf area began this year with the Sundays and at 7 and 9 o'clock on opening of the new marine labora-Oyster Commission.

## **Attend Dist. Meet**

A chapter of the Future Homemakers of America was organized at the high school this year when 31 girls met last Thursday to elect treasurer, Alice Bell, reporter,

Nancy Juergens, parliamentarian, and Janice Ingersoll, historian. The chapter advisor is Mrs. Rav-

mond Morris and the chapter mother is Mrs. Tom Shults.

The members plan to attend a district meeting in Corpus Christi Saturday.

The Rockport chapter is affiliated with the state and national organizations.

The purposes of the organization are

1. To promote a growing appreciation of the joys and satisfaction of homemaking.

2. To emphasize the importance of worthy home membership.

3. To encourage democracy in home and community life.

4. To work for good home and family life for all.

5. To promote international good will.

6. To foster the development of creative leadership in home and community life.

7. To provide wholesome individual and group recreation.

8. To further interest in home economics.

### Price Daniel Comments On Texas Election Laws

The Texas election laws need restudy and overhauling from stem to stern, Attorney General Price Daniel said in Austin today after concluding that the present statutes give him no authority to make investigations or prosecutions of alleged election irregularities.

During the past ten days Daniel and his assistants have been digging into the laws and court decisions to see if the State's chief legal officer has the power to investigate charges and counter-charges made by friends of both Senatorial candidates Lyndon Johnson and Coke Stevenson after the August 28 run-off primary.

"Our conclusion is that the Legislature has vested authority in the county and district attorneys to investigate and prosecute alleged election law frauds the same as other criminal offenses. The present laws leave the Attorney General without authority to act," Daniel said.

"This has been the consistent conclusion of previous attorneys general," Daniel added, "but on account of the serious state-wide importance of the recent complaints from and 490 new fishing vessels enter- for the evening of Oct. 10, when both sides we made a complete restudy of the question to be sure that we were doing everything in our power to help the people of Texas know if the various charges and suspicions are true or false and to prosecute any who may be guilty."

"In my opinion, future legislation should leave such prosecution for offenses committed in a single county or Gulf States compared with 351 of a three hour concert which will district as a primary duty of the local county or district at- for which papers were issued in be sponsored by the Optimists 1946. torney, but add a provision that the Attorney General shall step in if the local officials fail or refuse to do their duty. For offenses alleged on a state-wide scale, it seems to me the as follows: Attorney General should be given authority to investigate and prosecute," the Attorney General said.

"But this is only one of many changes which have been pounds. needed for a long time in our Texas election laws," Daniel said. "The majority of the present laws were great improvements over their predecessors when enacted in 1905-1919, but they now need restudy and overhauling from stem sea trout, redfish, grouper and black drum, 29 per cent. to stern."

(1946, 11,993,500 pounds). The Attorney General says he believes two of the most Soft crabs: 15,689 dozen (1946, needed changes are to rewrite and put some teeth into the 10,955 dozen). Oysters: 1,781,091 bushel campaign expenditures law, and to withhold announcement 1946, 1,303,710 bushels). of election returns by precincts and counties until all the Shrimp: 302,453 barrels (1946, votes have been officially counted, duly sworn to and filed 318,091 barrels). with the proper local officials. (1946, 87,460 pounds).

The agency said changes in Daniel's last proposal would eliminate all unofficial refishing regulations in Louisiana, turns and reports. Election officials would be required to Mississippi and Texas, limiting opcount, swear to, seal their returns and deliver their boxes to erations of out-of-state boats, accounted in part for the decline in the county clerk within 48 hours (by Monday night after a shrimp landings. Saturday election) and not divulge the count on any race Eight canning plants in Mississippi, 10 in Louisiana and one in until after the official returns are opened and canvassed Alabama consumed 9,615,894 in public the following morning. pounds of green shrimp in packing

144,254 standard cases. Under this plan no one would know how-any candidate stood until after the returns from every box had been certified and delivered. It would be too late then for a precinct to "find" or be suspected of "finding" additional votes needed by any candidate.

"This proposal infers no particular suspicion against either candidate nor any particular occurrence growing out of the recent contest. It is to prevent what both candidates suspected and charged as unfair and unlawful. Both Senate candidates at various times alleged unlawful vote "finding" and being "counted out" after the unofficial returns came in. There is no way now to distinguish readily between honest corrections and dishonest changes, if any," Daniel said. "The unwarranted suspicion and doubts cannot easily be separated from the justified complaints. In my opinion the only way to restore faith and respect to this particular phase of our election procedure is to eliminate completely the announcement of returns until all have been officially filed and publicly opened in each county."

## Look how little Good wiring costs!

HOSE three black dollars show that a good electrical wiring system is only a very small part of all your building expenses. Actually, it's less than three percent. That's a small investment for lots of electrical living.

Since electrical living depends on good wiring, plan a wiring system for your new home to take care of your needs now and in the future. The little you spend, you'll get back with interest. There'll be no expensive wiring additions after your home is built. You'll have protection for your investment. Your house will have greater resale value.

With good wiring you'll get the best and most economical use of your electric service. Remember, adequate wiring costs so little ... means so much.

For helpful suggestions on all wiri problems, consult your architect

#### **Continental Bus NAS Proposes To** Systems Expand **Set Up Restricted** It's a great day for Continental and Texas, said T. S. Reece, general manager of Continental Trail-**Area for Bombing**

The Naval Air Station at Corpus Christi has applied for a permit to set up a restricted area to be used for bombing, air to air and air to ground machine gunnery and rocket firing in the Gulf of Mexico near Port Aransas. The area for the proposed danger zone would be approximately 45 statute miles long and 11 statute miles wide, located east of Baffin Bay central to a point approximately 40 statute miles southeast from Port Aransas.

The bounds of the area would be as follows:

North boundary-Latitude 27° 20' N.

boundary-Longitude 96° East 30' W.

boundary-Latitude 27° South 10' N.

West boundary-Longitude 97. 14' W.

The above area would be in addition to the restricted area outlined in danger zone regulations 204.93c which is approximately 25 statute miles long and five statute miles wide bounded as follows:

North boundary-Latitude 27. 45' N.

East boundary-Longitude 96 50' W.

South boundary-Latitude 27 23' N.

West boundary-Longitude 96 55' W.

Both areas are located seaward from the 10 fathom contour line and south of the buoyed entrance

RUPTURED? DON'T WORRYI

ways Bus System, at his headquarters in Dallas. Today, the name of Continental becomes the trade name for all the routes of the Transcontinental

Bus System, of which Continental is a division, Reece announced. Transcontinental was formed last February by merger of Continental, Dixie and Santa Fe Trailways and their associated companies following approval of the Interstate Commerce Commission. Immediately afterwards, it bought West Coast Trailways; and pending now before the ICC are applications of Continental to buy Rio Grande and Denver-Colorado Springs-Pueblo Trailways bus sys-

tems. Continental Trailways operates 4.000 miles of routes between Dallas, Fort Worth, San Antonio, Corpus Christi, Houston, Beaumont, Wichita Falls, Amarillo, Lamar, Colo., Shreveport, La., and Tucum cari, N. Mexico.

Now the distance over which the Continental name will be carried mushrooms suddenly to 25,000 miles, Reece said.

The name of the Texas bus company becomes a household word in traveling in Chicago, Seattle, San Francisco, Los Angeles, Kansas City, St. Louis, Hot Springs, and Phoenix, among others.

just completed. They are (left to right) Tom Goad, Birmingham, Mich., Headquarters of Continental are \$4,000; Howard Eichen, San Francisco, \$3,000; Harold Simon, San Antonio, the new \$800,000 general office Texas, \$2,000; Harvey Whitman, Jackson, Mich., \$4,000; and Ronald Johnand maintenance plant it completson, Portland, Ore., \$4,000.
