Voters Will Name State Board of Education Representative November 8

Ten Amendments to State Constitution Will Appear On Ballot to be Voted On

Aransas County voters will go to the polls Tuesday, Nov. 8, to vote on 10 amendments proposed to the State Constitution and for representative from the 14th Congressional District to the State Board of Education.

Details regarding the amendments were carried in a series of articles during the last two months for the purpose of analysis. The amendments propose to:

Some fine catches of fish have vailed part of the time. The first nice catches were taken from the basin during the last two days. The familiar sight of fishermen on the piers indicates that cooler weather is here.

Laughter caught a 5 pound trout Wednesday and four which weighed over 4 pounds each. He had several other trout which made an impressive string.

Mr. and Mrs. Earl Thomas, owners of Walton Court, believe in waiting until fishing is really good before they try their luck. The Thomases went out in their "Tommy" Tuesday and boat caught 54 trout while "just practicing." Wednesday they brought in 376 trout which they caught in the San Antonio Bay area.

Probably the award of the week should go to Henry Ballou and party for the huge catch which they brought in Sunday. Ballou took Frank Hastings and party of San Antonio out on the Lola Jean and they landed 386 trout. Also in the party were Mr. and (Continued on last page)

Cook Pork Thoroughly To Prevent Trichinosis

"Please pass the pork" is familiar sentence around many weather approaches. A juicy roast pork or pork chops are dishes that connoiseurs of meat. However, pork can be dangerous if it isn't cooked long enough. So, be sure that pork passes the test of thorough cooking before you put it on the table. Otherwise, trichinosis may result, says Dr. George W. Cox, state health officer.

Trichinosis is a big word, but the disease is easy to prevent. All you need to do is cook the meat until the pink color turns to white. When the change of color occurs, the meat is safe to eat. Farmers who raise hogs for sale as meat, and who feed them garbage, should cook the garbage first, or the meat may become contaminated. If butchered pork is stored at a temperature of five degrees above zero, Fahrenheit, for 20 days, trichinosis parasites should are elected by the College of Cardie, if there are any.

If a person eats a pork chop, for example, that contains trichinae, they are swallowed in the form of tiny capsules. In the intestines these capsules develop and discharge minute worms which are carried by the bloodstream to various parts of the body . . . settling in muscles, where after a period of time they become calcified and die.

What are the symptoms of trichnosis? Stomach upsets and muscular pains, a feeling of chilliness, sore throat, and sometimes considerable fever, are some of the signs. An acute attach of the illness lasts about one or two weeks. The disease has a low death rate, but recovery is fairly slow.

Woodrow Wilson originated the phrase, "To make the world safe for democracy."

Keeping house is child's play!

Yes, housework can really be child's play when you call on electricity to help you. Flip a switch, and electric service rushes to your aid to wash and iron, cook and clean and sew-even to amuse you while you work.

It's so dependable you can take it for granted, around the clock and around the calendar-yet this hard-working service costs the average family less than a pack of cigarettes a day.

Your friends and neighbors in this company, under sound business management, have used their skill and experience to make electricity the smallest item in your family budget-and the hardest working. What else gives you so much real living value—at so little cost?
