Please don't forget to bring the Sunday eggs to the Society on Monday.

#### Presbyterian Aid Society.

The Presbyterian Aid Society met Monday at the home of Mrs. R. E. Sherrill. There was a good attendance and much enthusiasm for the work of the coming year. An election of officers was the important event and those chosen were: Mrs. T. C. Williams, president; Mrs. R. R. English, vice-president; Mrs. Marvin Hancock, Secretary and treasurer; Mrs. Jasper Ellis and Mrs. Scott Key, teachers.

Presbytery meets in Haskell in the spring and plans are being made to make it enjoyable in every respect.

The regular course of Bible Study will be followed for the year, and a hearty support will be given the new officers. We especially urge all the ladies of the church who do not belong to join us and help make this a banner year.

Mrs. Sherrill was teacher for the afternoon and the lesson was Ecclesiastes first to fifth chapters, which was interesting and helpful.

After the lesson dainty refreshments of chocolate and wafers were served and the ladies adjourned with expressions of pleasure, to meet next Monday with the new president, Mrs. Williams.

#### A Sermon for Women.

The Woman's Missionary Society of the Methodist church have requested me to preach on the subject of "Christian Stewardship" next Sunday at 11 a. m. Most of the people have an idea of what a sermon on a given subject should be, so, I will try to meet your expectation. Come. And, to the women, may I say? it is your sermon, come and get it.

#### One More Thing to Say.

I am expected to take a safe committee and canvas the membership to collect in cash about \$3,000. This I will endeavor to do, but before we enter into the field I must have five men to pay \$100 each. The first collection is to meet some paper due, that must be paid. And nothing paid now is to be on your former subscription. Brother Burl Cox has agreed to join me in this. We will have to get three more men with \$100 each before start one.

Ed. R. Wallace, Pastor.

## AMONG THE CHURCHES

### The Berean Class.

The young men's Berean Class of the Haskell Baptist church has recently elected the following officers: John R. Hutto, teacher; Alfred Pierson, president; Charlie Conner, first vice-president; Clinton Johnson, second vice-president; Willie Whitaker, secretary.

On account of the increasing growth of this class arrangements have been made for its meetings to be held on the 2nd floor of the Sherrill building.

All members are urged to be present Sunday morning at 9:30 o'clock sharp in the new class room.

Visitors and new members will receive a hearty welcome.  
Reporter.

### A Forward Movement.

Realizing that our Sunday schools and church services are not as largely attended as they should be, and realizing that we pastors are somewhat handicapped in our daily work because we know not where they live who should be connected with our different works, and knowing, as we do that a unanimous effort upon the part of all concerned, will greatly benefit

every church in town; therefore we have agreed to ask all the churches to meet us in the Methodist church house next Sunday afternoon at 3 o'clock for the purpose of perfecting arrangements for a religious census of the city on a Sunday afternoon sometime in the near future.

Are you interested? Do you want to see the work done? Are you anxious for greater Sunday schools? Do you love the souls of men, women, boys and girls enough to fall in line and help move forward?

If so, come and join us and let's make this the greatest move ever.

We are your servants,  
John D. White,  
Ch'm'n Pastor's Association.  
J. F. Lloyd,  
Secretary.

### Methodist Auxiliary Notes.

On Monday, January 11th, the Methodist Missionary Auxiliary met for the regular Bible study. The ladies had studied the lesson and with Mrs. Turrentine as teacher, the meeting was one of the best the Society has had.

**Did You Ever Stop to Think**  
If you read this article thoughtfully you will, and if you are young you will think twice.

Did you ever stop to think that you do four things, just four and no more? You think; you remember; you imagine; you act. When you learn to think better, remember better, imagine better or act better, you are increasing your efficiency, and, therefore, your income. You may feel that you are very successful now. Suppose you are; it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all the laws means complete success. Our aim is to help you observe a higher per cent of the laws of success, and, therefore, enable you to be nearer the maximum success. The late Prof. Jones of Harvard declares that the average man only uses ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean you are only twenty per cent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. Did you ever stop to think that eighty-five per cent of the men of this country are only earning \$15 a week or less? That ninety-two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? We have been very successful in getting men out of the eighty-five, the ninety-two and the ninety-five per cent class. Why not let us help you? We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalog from former students. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of a man, you can if you will. We know that a man is worth only about \$2.00 a day from the chin down, selling muscle, but as high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell the higher type of brains; you can't afford to be a chin downer; there's no room for such a man in the high salaried class. Take our thorough, practical courses of Bookkeeping, shorthand, Business Administration & Finance and Telegraphy. Learn how to think, remember, to imagine and act. Our large catalog is free for the asking, if you will only fill in and mail the following blank.

## Ugh! Calomel Makes You Deathly Sick

Stop using dangerous drug before it salivates you! It's horrible

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick, nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

## Grip Left Me With a Cough

If during the winter you had the grip and are still suffering from the after effects, now is the time to get rid of it. Peruna is your remedy.

**A Very Bad Cough.**  
Mrs. S. J. Kounts, 1015 Scovel St., Nashville, Tenn., writes: "I have had a very bad cough nearly all my life. I have taken almost every kind of cough medicine, but none did me much good. I would have spells of coughing that I thought I would cough myself to death. I took Peruna, and last winter and this winter I have had no cough and I know that Peruna cured me. I was always thin and delicate. Very easy to catch cold, but I am well now and enjoying good health. I feel that I owe it all to Peruna."

**A Severe Case of Grip.**  
Mr. W. S. Brown, R. P. D. 4, Box 82, Rogersville, Tenn., writes: "I recommend Peruna to all sufferers of catarrh or cough. In the year of 1909 I took a severe case of the grippe. I then took a bad cough. Everybody thought I had consumption. I had taken all kinds of cough remedies, but got no relief. I then decided to try Peruna. After taking five bottles my cough stopped and my catarrh was cured. Any one suffering with catarrh in any form I will advise them to take Peruna."

HASKELL, TEXAS, Jan. 16, 1915.

Wise men know a few things.  
Fools know it all.

Nearly all bugs are ruled by the females. So are most men.

The Free Press has sent out statements to its subscribers and hopes that all who can do so will pay us a dollar on their paper. One dollar is not much to you, however much you may need it, yet taken in the aggregate of over a thousand subscribers it will mean much to us

and enable us to meet some very pressing debts. We are going to try to give you a better paper this year than last year. But it takes money to buy paper and pay printers, as well as to keep the wolf from our own doors, hence the reason for our sending out these statements and asking our subscribers to help us out. And we believe you will respond to our plea.

Graft is becoming so common we will have to coin another word for it.

Rockefeller will live long in the memory of men. So will the bedbug.

The man who never advertises is like the fisherman who forgot to bait his hook.

Have you taken notice that we never ask our readers what they think of the stuff in our sheet? No great editor ever does.

Someone wants to know what causes swift pains in the body? Possibly a punch, or seeing the other fellow with your girl.

Have you broken that New Year resolution yet? If so, try it over and perhaps you will remember to keep it next time.

While the low price of cotton has in a sense paralyzed business, and the farmers have suffered great loss in this calamity as well as from the bad weather that has kept them from gathering much of their cotton, still the general condition at the beginning of this year is much better than it was at the beginning of last year. Nearly every farmer has plenty of feed, many of them have their meat, and are starting off with shoats for next fall, and this will be of great benefit to the entire country. So after all, we haven't so much to grumble over. Let's try to be brave and help each other in the struggle to overcome the adverse con-

ditions. If you owe anything, try to pay a little of the debt, and by so doing you will help the other fellow to pay a little on his, that one will help his creditor to pay a little on his, and thus the chain of co-operative aid may reach all and be the means of tiding them over; whereas, if you fail to pay yours, it may be the means of bankrupting some good, honest people.

In the abundance of our generosity, we have refrained from saying something that ought to have been said long ago. We did this through charity, and because we have learned there is none perfect in art, literature, orthography, grammar or composition. We have learned too, that the public expect a higher standard of composition and printing, than they pay the country editor to produce. We have learned what it is to be snobbed, and have our families neglected by some coarse politician, or some member of his family, who had received some respectful notice of which he or they were unworthy. So called society people, or those who have recently butted in, or who are suffering from a wave of temporary prosperity, often undertake to show us their contempt. It has been our habit to proudly ignore such coarse deportment of our own worth and position, we go our way happily. Some people are incapable of culture. A cultured person scatters good will, joy and friendship along their way to the great and humble alike, while coarse and vulgar pretense at refinement, leaves a trail of contempt, offense and disgust.

Don't forget the Panama Exposition trip. Some young lady is going to have the trip of her life. The Free Press gives 3000 votes with every new yearly subscriber

**To the Ladies**  
We want every Club woman, every society woman and every body who ever got mentioned in the Free Press to read what follows, these lines:

A correction—In the report of the entertainment given at the home of Mrs. J. U. Fields, in last week's issue of the Free Press, there were some minor errors committed by the compositor, which were inadvertently overlooked in the proof, by our proof reader, that was somewhat embarrassing to the reporter. Such mistakes happen daily and weekly in all well regulated printing establishments and the ladies who write these reports, and those who are interested in them should not give such errors so much consideration. We want to say further, that nobody has ever sent in a correct piece of copy to the Free Press. We will guarantee that for every error we make, we make an average of correcting one for the writer. Some years ago, a lady in Haskell handed the senior editor a report of a lecture by a member of our National congress. She also informed the senior that she had written it correctly, had punctuated it correctly and every word was spelled correctly, and wanted it to go without any change. She had the word "Santiago" spelled "Santiago." We corrected it for her, but she never thought to thank us, but we never get off from a lecture if we make a mistake.

As men and women become more and more educated, and have more to do with literary work and publishing they become broader, and learn how errors occur, are less critical of their equals or superiors, and are not so caustic in criticism when they do happen to catch someone in an error.

Many people go through life overlooking the little things and vainly grasping at the big ones. When death claims them they are still grasping, but not possessing. There is a reason, and that is, they started wrong. No one, man or woman, who starts right with a firm grasp on the little things, will fail later in life to attain the bigger ones. All things are small in the beginning, but they attain size in accordance with the acumen, the energy, the perseverance, of the one who guides their destinies. We must learn to not despise the smaller things, if we would attain to the bigger ones.

Ship owners are handing us columns of rhetoric on the subject of future safety at sea, there being so many disasters lately. About the most effective method we know of would be to stay on the land.

Keep the money at home Give the Free Press your job work. Get it done right. We can DO IT RIGHT at fair prices.

# MULES

## MULES! - MULES!!

I have fifty-five head of young three-year old mules that I will have in a lot at Haskell, Saturday, January 16th. Will sell one or the whole bunch for cash or satisfactory note. These mules are smooth, well developed and no blemishes. In good shape and ready for work. Have been fed on grain the past 40 days. Were raised gentle but are not broke. Have sold lots of them from my ranch and never heard of a pair giving trouble. They have not been picked over and will not be. I am going to sell and not fool about it. Come on the above named date if you want a mule. Also a few good horses and mares and a good jack for sale.

"What did the couple do then?" inquired one of the women anxiously.

"Kept right on going. The widow knew the way."—St. Louis Post-Dispatch.

"Nobody told me," was the quiet rejoinder of the perplexed youngster, "but every time I go to church they always sing something about the 'consecrated cross-eyed bear.'"—Philadelphia Telegraph.

## WHAT HAPPENED TO THE COTTON LOAN?

FARMERS WANT TO KNOW.

Producers Tired of "Watchful Waiting."

By Peter Radford  
Lecturer National Farmers' Union

The government officially estimates the 1914 cotton crop at 15,969,000 bales. This is the largest production in the history of the cotton industry. The 1911 crop held the record to the present year with a production of 15,690,701 bales. I estimate we have at least two million bales in the field, much of it deserted by the discouraged farmer and will probably never be gathered. The 1914 crop also ranks among the largest in production per acre, averaging 208 pounds per acre and reaches the low water mark in price. The price officially estimated for the 1914 crop is 6 cents per pound against an average price of 12 cents per pound in 1913 and a production of 182 pounds per acre.

**Greatest Crop—Lowest Value.**  
The value of the 1914 crop is six cents less per pound, or \$480,000,000 less than the value of last year's crop. This is a greater financial blow to the South than the freeing of the slaves and it has sent millions of Southern farmers and their families staggering down the thoroughfares of poverty, but the South is brave and can meet adversity. When the war was over we beat our swords into plow shares and we have the courage and ability to transform a calamity into a blessing.

The Farmers' Union asked Congress to meet the emergency by lending money on cotton so as to enable poor farmers to hold their crop, but the request was rejected, or rather modified by the government agreeing to join with bankers in providing a fund of \$135,000,000 for lending on cotton. The anti-trust law had a special construction placed upon it, the patriotism of bankers was appealed to and headlines full of hope were flashed across the columns of the leading newspapers of the nation for a few months, but where is the money? No farmer has ever seen a dollar of it. There is nothing quite so destructive to those in distress as false hope, and if this movement which has been so persistently heralded to the world has failed, we are entitled to know it.

I want to call attention to the fact that the farmer—the owner of the property involved—was never consulted in the transaction. The story was told him as children are told the story of Arabian Nights and the bed-time story of the rainbow with the pot of gold, and it seems to be about the same sort of literature. The farmers were never taken into the confidence of the councils of the business men and the government officials engaged in the transaction. We do not know why.

**Farmers Have Squared Accounts Unaided.**

It is perhaps sufficient to say that a business movement having for its component parts the most powerful forces on the American continent made an honest and strenuous effort to help the farmer and failed, and the farmers of the South are now drinking the bitter dregs of that failure. Approximately three-fourths of the cotton crop is now out of the hands of the producer and the poor farmer who most needed the money has already squared accounts and has begun the struggle to overcome the deficit that has taken school books from his children, shoes off his wife and threatens the shelter of his family, and it is to his permanent relief that the government and the business men of the nation should now turn their attention.

The problem has three factors: the farmers, the business men and the government, and if all three elements will unite we can easily work out plans for relief, and the organized farmers of America are ready to do their share.

**A Spontaneous A Fair.**  
One day Miss Maria Thompson Daviess, the author, walked down a street in Nashville. The street was crowded with negroes, who were forming in a line for a parade.

"What's the occasion for the parade, Tom?" she asked of a boy. The boy looked at her with a grin.  
"La, Miss Daviess," he replied, "don't you-all know colored folks well 'nough to know dat dey don't 'nough 'n occasion for a parade?"

**Puzzled Elizabeth.**  
Little Elizabeth and her mother were having luncheon together and the mother, who always tried to impress facts upon her young daughter, said:

"These little sardines, Elizabeth, are sometimes eaten by the larger fish."  
Elizabeth gazed at the sardines in wonder and then asked:  
"But, mother, how do the large fish get the cans open?"—Exchange.

## "Cascarets" Relieve Sick, Sour Stomach

Move Acids, Gases and clogged waste from liver and bowels

Get a 10-cent box now. That awful sourness, belching of acid and foul gas; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which can not be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

## ASK RELIEF FOR TENANT FARMER

Farmers' Union Officials Want a Law Enacted That Will Fulfill its Purpose.

Fort Worth, Texas.—The most important problem that confronts the Texas Legislature in its 34th session is relief for the tenant farmer.

Out of the 219,575 tenant farmers the Federal Census Bureau shows that 17,500, or less than 10 per cent, pay cash rent and we estimate that 60 per cent rent on the basis of one-third grain and one-fourth cotton and 30 per cent pay more than a third and a fourth. There are perhaps 65,000 tenant farmers in this State, who, in some form or other, pay a rental of more than a third and a fourth on land. To this number we may add the 17,500 cash tenants, for it is there the worst forms of rental extortion exist, although it might be difficult to prohibit, by law, a willing renter paying a willing landlord an agreed sum for use of property.

**Abuses of Tenancy System.**  
There are many abuses growing out of our tenancy system which should be corrected and punished by law if they cannot be corrected peaceably. We will mention a few of them. Out of the 65,000 tenant farmers who pay more than a third and a fourth land rental, we estimate that 40 per cent, or 26,000, pay direct to the landlord and the remaining 39,000 pay it to brokers and agents who rent lands on a basis of a third and a fourth and then sub-rent at a profit, charging a cash bonus for the farm or advancing the rents beyond the price they pay. Such practices should be broken up by law for they constitute an illegitimate occupation. The owner of property should look after his business personally or hire some one to do so, paying them a reasonable sum out of his own pocket, and not become a party to an injurious system of speculation. We leave the legislature to deal with the iniquitous tenant system, according to their wisdom.

**Union Calls Upon Legislature for Building Material.**

We believe a rural credit bill, properly drawn, permitting long time loans at a low rate of interest, will place a home within the reach of every tenant farmer and automatically eliminate many of the evils of farm tenancy, as well as help the home owner. We believe that agriculture will receive more substantial benefit from increasing opportunity than in multiplying penalties. We think it a greater legislative achievement to expand the area of opportunity than to increase the zone of crime. It is an important function of government to keep open and enlarge the avenues of choice, but no effort should be made to restrain freedom of judgment and action.

The farmers, like every other class of people, have the weak and incapable. There are some tenant farmers, who, if offered a home in the skies, would prefer to rent so they could move once a year, and no amount of constructive legislation will benefit them. We do not favor restrictive legislation that involves the entire structure of society in order to benefit the incompetent. Give the man who tries a chance and give it abundantly.

We invite the Texas Bankers' Association to appoint a committee to assist in framing a bill that is sound commercially and one they can recommend the securities to their customers. We have too many "still-born" laws on the statute books now and there is no use for the legislature to waste time creating securities which cannot be financed.

W. D. Lewis, President, Farmers' Educational & Co-operative Union of Texas.

**Prompt Action Will Stop Your Cough**

When you first catch a cold (often indicated by a sneeze or cough), break it up at once. The idea that "It does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my cough" is one of many honest testimonials. 50c at your Druggist.

**The Lesser Evil.**

Seeing Chamberlain's Tablets so highly recommended, I bought a bottle of them and they helped me right away." For sale by all dealers.

**Mistake Corrected.**

Look here! said an excited man to a druggist. You gave me morphin for quinin this morning.  
"Is that so?" replied the druggist. Then you owe twenty-five cents.—Christian Register.

**Dangers of a Cold**  
Do you know that of all the minor ailments colds are by far most dangerous? It is not the colds themselves that you need to fear, but the serious diseases that they so often lead to. For that reason every cold should be gotten rid of with the least possible delay. To accomplish this you will find Chamberlain's Cough Remedy of great help to you. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold. For sale by all dealers.

Landlady—Yes, I put it there. You've been complaining, I understand, about lack of change in your meals.—Boston Transcript.

## THE COUNTY FAIR

By Peter Radford  
Lecturer National Farmers' Union.

The farmer gets more out of the fair than anyone else. The fair to a city man is an entertainment; to a farmer it is education. Let us take a stroll through the fair grounds and linger a moment at a few of the points of greatest interest. We will first visit the mechanical department and hold communion with the world's greatest thinkers.

You are now attending a congress of the mental giants in mechanical science of all ages. They are addressing you in tongues of iron and steel and in language mute and powerful tell an eloquent story of the world's progress. The inventive geniuses are the most valuable farm hands we have and they perform an enduring service to mankind. We can all help others for a brief period while we live, but it takes a master mind to tower into the realm of science and light a torch of progress that will illuminate the pathway of civilization for future generations. The men who gave us the sickle, the binder, the cotton gin and hundreds of other valuable inventions work in every field on earth and will continue their labors as long as time. Their bright intellects have conquered death and they will live and serve mankind on and on forever, without money and without price. They have shown us how grand and noble it is to work for others; they have also taught us lessons in economy and efficiency, how to make one hour do the work of two or more; have lengthened our lives, multiplied our opportunities and taken toil off the back of humanity.

They are the most practical men the world ever produced. Their inventions have stood the acid test of utility and efficiency. Like all useful men, they do not seek publicity, yet millions of machines sing their praises from every harvest field on earth and as many plows turn the soil in mute applause of their marvelous achievements.

## FARMER RADFORD ON WOMAN SUFFRAGE.

The home is the greatest contribution of women to the world, and the hearthstone is her throne. Our social structure is built around her, and social righteousness is in her charge. Her beautiful life lights the skies of hope and her refinement is the charm of twentieth century civilization. Her graces and her power are the cumulative products of generations of queenly conquest, and her crown of exalted womanhood is jeweled with the wisdom of saintly mothers. She has been a great factor in the glory of our country, and her noble achievements should not be marred or her hallowed influence blighted by the coarser duties of citizenship. American chivalry should never permit her to bear the burdens of defending and maintaining government, but should preserve her unsullied from the allied influences of politics, and protect her from the weighty responsibilities of the sordid affairs of life that will crush her ideals and lower her standards. The motherhood of the farm is our inspiration, she is the guardian of our domestic welfare and a guide to a higher life, but directing the affairs of government is not within woman's sphere, and political gossip would cause her to neglect the home, forget to mend our clothes and burn the biscuits.

## RURAL SOCIAL CENTERS.

We need social centers where our young people can be entertained, amused and instructed under the direction of cultured, clean and competent leadership, where aesthetic surroundings stir the love for the beautiful, where art charges the atmosphere with inspiration and power and innocent amusements instruct and brighten their lives.

## Your Cold is Dangerous, Break it Up Now

A cold is readily catching. A run-down system is susceptible to germs. You owe it to your self and to others of your household to fight the germs at once. Dr. Bell's Pine-Tar-Honey is fine for Colds and Coughs. It loosens the Mucous, stops the Cough and soothes the lungs. It's guaranteed. Only 25c at your Druggist.

## COTTON POOL A DISASTER

Fort Worth, Texas—Peter Radford, National Lecturer of the Farmers' Union, when asked by a representative of the press if the farmers of the South would apply for loans under the terms of the \$135,000,000 cotton pool, said:

"I do not know of a banker in Texas or elsewhere who is willing to lend money to the farmers at six per cent under the provisions of the pool, and I do not think many farmers would care to qualify for a loan. It is to be regretted that the officers of that movement are not frank enough to admit that the failure of the pool is due to inherent defects of the plan. It has not only failed completely, but it has indirectly cost the Southern cotton producers millions of dollars. I think it can be truthfully said that had the plan never been suggested, several millions of dollars would have been loaned against cotton in the South by many banks who subscribed to the fund in good faith, and naturally, with such a pledge becoming a liability they might be called upon to assume, they did not give consideration to making direct loans as the Southern bankers have always done, and as a result the pool cut off the local money supply and forced the cotton on the market. I have no doubt the promoters acted in good faith, but the movement has been a serious disaster to the South."

### THE TEXAS TENANT FARMER.

Texas has more tenant farmers than any other State in the Union.

About 60 per cent of the tenant farmers of Texas move every year.

Only 8,000 of the 220,000 tenant farmers in Texas have not moved during the past ten years.

Only 99,734 or 24 per cent of the farms of Texas are entirely owned by the farmers operating them.

There are 314,263 homeless farmers in Texas, and only 55,000 of them are negroes, leaving 259,263 white farmers that do not own the soil they till or the homes in which they live.

There are 219,575 tenant farmers in Texas, and in addition to this number 28,348 farm land owners rent additional land, making a total of 247,923 farm land renters in this State.

More than 202,000 Texas tenant farmers operate on a share basis, while only 17,549 pay cash rental.

Nearly ten per cent of the tenant farmers in the United States live in Texas, while only five per cent of the nation's farm home owners reside in this State.

In 1880 only 38 per cent of the Texas farmers were tenants, 42 per cent in 1890, 50 per cent in 1900 and 53 per cent in 1910.

Less than eight per cent of the Texas tenant farmers pay cash rental.

During the past twenty years the number of all farms in Texas has increased 83 per cent, while the farms operated by tenants show a gain of 130 per cent. Farm home owners have increased only 50 per cent during this time.

Tenants constitute 53 per cent of the farm operators of Texas and cultivate 47 per cent of our tillable land.

The land and buildings on the tenant farms of Texas are worth only one-half as much as those on the farms operated by owners.

The land operated by Texas tenant farmers is equal in area to the State of Pennsylvania, Indiana or Maine.

Farm tenancy in Texas directly affects 1,500,000 people, which is equal to the entire population of the State of Arkansas, Louisiana or Oklahoma.

## JOINT DISTRICT SUMMER NORMAL

The counties of Haskell, Throckmorton, Knox and Stone-wall have agreed to unite in having a District Summer Normal during the Summer of 1915. It is a custom of the public school men to provide summer normals for the benefit of untrained and inexperienced teachers. Summer normals are held all over the state for this purpose.

A summer normal would help the town of Haskell and the schools of the county in general. Forty-five of the sixty teachers in the common districts and sixty-five of the one hundred teachers of the entire county came to the schools this year as rank strangers to us. These teachers, in fact, are proving to be the very best of teachers and it is the county's business to manage to keep them as long as the made good. So let us provide a good summer normal for them during the summer of 1915.

Do the people of Haskell want a summer normal?

Cure Old Sores, Other Remedies Won't Cure. The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c. 50c. \$1.00

The treasurer's report showed that the Club has received \$181.23 and paid out \$103.50 to the following causes: Training school for girls, library extension, Buchanan fund, endowment fund and books. The Club is in good financial condition and is striving to extend its field of activity. The following officers were elected for the year beginning October, 1915: Mrs. W. H. ## Thick, Glossy Hair, Free From Dandruff

Girls! Try It! Hair gets soft, fluffy and luxuriant at once—no more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

## Mother! Is Child's Stomach Sour, Sick?

If tongue is coated or if cross, feverish, constipated give "California Syrup of Figs"

Don't scold your fretful, peevish child. See if tongue is coated: this is a sure sign its little stomach liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little insides clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

### Bledsoe-Adams.

On last Sunday afternoon at 5 o'clock at the home of Mr. and Mrs. C. W. Bledsoe, their sweet and accomplished daughter, Miss Thelma, was married to Mr. Allen D. Adams, one of Haskell's fine young men, Rev. Geo. Beavers performing the ceremony that made them man and wife. Miss Minnie McNeely and Mr. Virgil Bailey were bride's maid and best man. The bride was beautifully dressed in light blue messaline, trimmed in all-over lace, edged in narrow ribbon.

A delicious wedding supper was served to about fifty guests by Mrs. Bledsoe.

The friends of the bride and groom presented them with many useful presents.

After a week's visit among relatives and friends the young couple will reside at their home five miles west of town.

Their many friends extend to them hearty congratulations and best wishes for a happy and prosperous married life.

## Texas Factory Makes Over Two Thousand Cans Per Hour

Over eight hundred miles of cans were manufactured last year in Texas by The Texas Company to supply the requirements of its business in other countries.

In that huge factory at Port Arthur, Texas, supplied with the most modern machinery and equipment, covering a large area of ground, built of concrete and arranged to give the most favorable working conditions, the busy workmen are making over 2000 cans per hour.

This is merely a small part of the requirements in labor and output necessary for the conduct of a business like The Texas Company, shipping the oil products manufactured in this State to countries all over the world.

Besides these, there are thousands upon thousands of wooden barrels to be made, wagons to be secured, tanks to be built and innumerable carloads of supplies, tools, machinery and equipment.

Even the printing of stationery and supplies is sufficient to keep a number of print shops moving.

Wherever possible all these incidental requirements are filled from Texas factories. The making of cans and wooden cases, the manufacture of wooden barrels and a number of the other items give labor to a large number of Texas citizens, and bring money from all over the world to Texas.

Quality and service are as much a part of the equipment of The Texas Company as they are of its goods, and the Star and Green Emblem of The Texas Company is the sign of this quality. Buy the goods marked with the Red Star and Green T.

## "CADET" SCIENTIFIC STOCKINGS

The Best Stockings Made

If you thought a certain stocking might be the best made, wouldn't you at least try it. In claiming "Cadet" to be absolutely the most satisfactory hose manufactured, we support the statement with the reasons, and back them with an honest guarantee.

### Reinforced With Linen Rub-Proof, Stub-Proof, Rot-Proof

All the points of the stocking that are usually first to give way are reinforced with stout Cadet Linen, the strongest fabric known. "Cadet" stockings are Rub-Proof and Stub-Proof. Stockings are sensitive to the effects of perspiration, which rots the fabric. "Cadet" linen does not rot. "Cadet" stockings are Rot-Proof.

### Scientific Dyeing No Foot Burn

In dyeing, a special process (the Cadet process) is used. The dye is absolutely pure and harmless. There is no acid to weaken and eat away the fabric; no poisonous chemicals to make the feet sore and tender. "Cadet" stockings give absolute comfort to the feet. Having no seam to rub any tender parts.

### Notice to Purchasers The Guarantee

Every pair of these stockings is guaranteed by the manufacturer. If after wearing, you think you have not received satisfactory wear from them, please launder the stockings and return to us, and we will give you another pair or refund your money.
