**Texas Will Furnish Only 384 Men In June Draft Call**

Austin, Texas. — State draft boards will be called on in June for only 384 men, Brigadier General Paul L. Wakefield, state Selective Service director, announced today.

Quotas to local boards for this call, smallest received by the state since July 1951, will be figured and placed in the mail on or about May 7. The June state quota of 384 is Texas' share of a national quota of 10,000.

General Wakefield predicted that calls on Texas will increase greatly, beginning in July. He pointed out that the first draftees inducted after invasion of South Korea will be eligible for release late this summer and early this fall.

He said everything points toward heavier calls the remainder of this year and the first four or five months of 1953.

The June induction call probably can be filled with examined and acceptable men 21 years old and older. Latest available information from local boards shows state draft boards have around 600 men of this category.

The boards are authorized to induct men 20 years old, if necessary, but can go no lower unless a man is a delinquent or a volunteer.

General Wakefield indicated that the state will have a physical examination schedule of around 3,000 men a month during the summer, beginning in June. He said such intention is subject to revision month-by-month.

A total of 2,965 are scheduled for the pre-induction physical and mental examination in May. In addition, a May call for the re-examination of 624 4-F registrants was mailed to 43 boards from state headquarters, April 28.

A total of 89,690 Texas youths have taken the regular physical and mental examinations and 37,427 have been inducted since the

Mr. and Mrs. Wm. N. Johnson and Mr. and Mrs. Richard Happer attended a meeting of Boy Scout counselors in Taft last week.

Edgar Jackman is in Spohn Hospital in Corpus Christi, where he had major surgery.

His capability has been recognized within the publishing fraternity by his being named to the board of directors and the executive board of the Texas Press Association for the past five years. He was elected to the presidency of the South Texas Press Association at its annual meeting recently.

He has served the South Texas Chamber of Commerce as a member of the board of directors since prior to moving to Refugio County. Selective Service Qualification Tests Will Be Held May 22

Austin, Texas. — An additional Selective Service college qualification test to be held May 22 at 60 testing centers in Texas for the benefit of students prevented by illness or other emergency from taking the test in December and April was announced recently by Brigadier General Paul L. Wakefield, state draft director.

General Wakefield emphasized that students who have a certificate of admission for either the December or April tests which they failed to use on the assigned date must submit a new application if they wish to take the May 22 test.

Application blanks for the May 22 test may be obtained from the nearest local board and should be sent in as soon as possible to the Educational Testing Service, Princeton, New Jersey. Applications postmarked later than midnight, May 10, 1952, will not be accepted.

The test on May 22 will be given at more than 1,000 testing centers throughout the nation. Students who attain a prescribed upper class standing or make a score of 70 or better on the May 22 test are eligible for consideration by their local boards for deferment during the next academic year.

Local boards are not required to defer students who meet one or both of the criteria, General Wakefield pointed out, but their classifications are subject to appeal.

Mr. and Mrs. Henry Bordeaux left this morning for a week's vacation in Monterrey, Mexico.

From where I sit... by Joe Marsh

As a Matter of Fact...

Out of all the newspaper and magazine columns I read, the ones I enjoy most are those that pack in a whole lot of facts — unrelated facts, but each one an interesting bit of information in itself.

These columns go something like this: "Did you know that humpback whales are addicted to snoring? That bees have been bred with red, brown, and buff-color eyes?"

"Did you know that lead can be converted to gold — at a cost of \$1,000,000 an ounce? That a 555-pound fat girl went on a diet and lost 401 pounds in 12 months? That

a chrysanthemum has been developed that smells like a violet?"

From where I sit, maybe I'm a kind of "Johnny-one-note." My own columns always seem to revolve around one idea—a plea for us to make sure we respect the other fellow's rights—like the right to vote for your own choice or the right to enjoy a glass of beer now and then. I may not be in style, but I believe my one fact is worth repeating—and remembering!
