## ES HELD TUESDAY FOR J. (TRAV) ARBUCKLE

### Prattle

By AL HINDS

John Crawford and Mrs. Lane had their first air-ride last Saturday morning but they made it a good one.

It was almost a community effort to get them packed and on the Friday morning. Mrs. Maurice Crawford of Dallas picked them up in Dallas and drove them to Dallas where they spent the night. Mrs. Crawford with her son, Horace, and Mrs. Lane with her daughter, Sylvia.

Friday morning, they were at the airport by Mrs. Lane, who is Mrs. Crawford's daughter, and Mrs. Lane's daughter-in-law, Loretta and David Lane, joined on the Braniff Jet Flight in F. Kennedy Airport in New York. It takes only three and a half hours, non-stop.

Five Texans are going to the home of D. B. Crawford who lives in Westfield, N. Y., and works in New York. They are anxiously awaiting travelers return. We know you will have lots of exciting news.

Following poem was written for Memorial Day by the Mrs. B. T. Bridges in 1944. It is appropriate at any time, passed away in 1944 and was written by Mrs. J. M. Diggs of Dallas.

Red red fields where no flowers grow... Are stark white, row on row... When African boys, who still loved... Gave up their all in dark strife... There were flowers upon their bier... We think the angels shed... And God, as He sat... His great white throne... Red down upon them and... And them His own... They unsung heroes in unknown... But they died, as did, the world to save.

My Camp was telling this the other day about the state and asked a fellow big were the fish caught at state, "Oh, all the way two to three feet," he replied.

The non-Texas then asked big were the fish caught Texas. "About 12 inches," Texas replied. The non-Texas began to snigger, guffaw and said, "I thought fishing from Texas was big."

"It's right," the Texan replied, "but you see, we measure between the eyes."

Following little poem was written by Richard Whiteley, early of Haskell, and his son, now serving in Vietnam:

to sleep on a G.I. bed, a G.I. pillow I rest my head, clean, white sheets are all I, too, G.I. miss you, G.I. do.

G.I. bugle wakes me up, I cup, powdered eggs are G.I., G.I. wish I was home with you.

Everything I see is government issue, you're my girl and G.I. miss you, hope you miss me, too, because G.I. love you, G.I. do.

G.I. trucks I go on trips, overseas on a G.I. ship, when this G.I. war is through, G.I. will come home to you.

Note: "Our success or failure is the result of our mental attitude... our thoughts about life and about ourselves... attitudes toward people... toward ourselves" — Dan

The motive of achievements will be the betterment of the race.

When it rains porridge the star always discovers he has spoon.

### "Know Your Neighbor, Understand America," Theme of B&PW Meeting

Beginning with a vivid description of the size, coastal boundaries, weather and general living conditions within the Latin-American countries, Mrs. A. W. Weaver gave an excellent survey of the differences and similarities of life here and in the various Latin-American countries. Tuesday evening, when she addressed the Haskell Business and Professional Women's Club.

"Know Your Neighbor...Understand Latin America" was the theme of the Hemispheric Friendship program. Mrs. Weaver expressed so aptly the desperate need for understanding between the Americas and stressed that we gain more than we give in promoting better and more friendly understanding relations with our neighbors.

Mrs. Miller Montgomery, finance committee chairman, introduced Mrs. Weaver, following the greeting of members and guests by the president, Nettie McCollum.

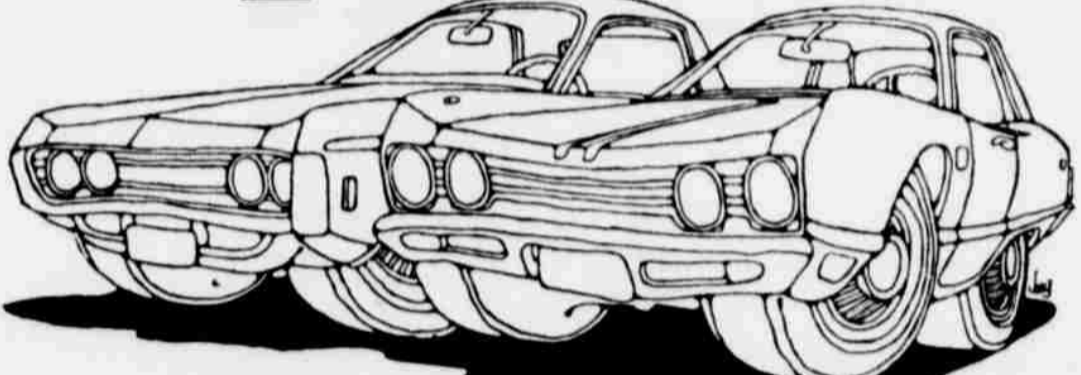

The Texas Federation's 1969 Golden Anniversary Convention to be held in Galveston, June 6-8, was discussed. The club voted to send two children from Abilene State School to camp at Lueders.

The community room was quite attractive with huge paper flowers and Latin-American figurines. Places were designated with bright floral mats.

The membership committee, in colorful costume, served salad, cheese-dip, Doritos, Fritos, salted nuts and punch. Members of the committee, Mrs. Henry Withers, Mrs. W. C. Johnston and Mrs. Hal Greene, chairman, were assisted by Mrs. Myron Biard.

The meeting was also the annual "May Days Are Pay Days" session when membership is renewed.

# Why Plymouth?

(Instead of a Chevy.)

Plymouth Fury III has front torsion-bar suspension for better handling. Chevy Impala still has coil springs that bounce up and down.

Fury III has 195.1 sq. in. brake lining area. Impala has only 184.3 sq. ins.

Fury III has a single-unit welded body for strength. Impala construction still bolts body to a frame.

To fight rust, Fury III is prepared by a 7-step dip-and-spray treatment. Impala preparation is only by spray.

Fury III wheelbase is a longer 120 ins. for smooth ride. Impala's wheelbase is 119 ins.

Interior room of Fury II is greater than Impala, greater than any car in its class.

Fury III's door opening is 27 1/2 ins. for easy entry. Impala opens only a 24 1/2 in. entrance.

Fury III gives you 3 cu. ft. more trunk room than Impala.

Fury III's instrument panel is fully floodlit. Impala lighting still comes from behind the instruments.

Ammeter and temperature indicators in Fury III are precision gauges. Impala indicators are lights that come on when trouble occurs.

Fury III has a three-spoke padded steering wheel with horn ring. Impala's is not padded and has only two spokes and horn buttons.

Electric clock? Standard in Fury III. Extra-cost option in Impala.

Add it up, and you see why over 3/4 million owners of competitive cars have been won over to Plymouth in the past two years.

Plus, right now, we're putting the big stuff on special Furies (vinyl roof, automatic transmission, radio, power brakes and steering, 8.25 x 15 whitewalls, and deluxe wheel covers) and reducing the price. Why Plymouth? Is there any better way to get a great car and save money in the bargain? See us now.

### Baccalaureate And Commencement Services Held For Haskell Seniors

The 1969 Haskell High School Seniors received black leather-bound sheepskins in Commencement Exercises held Monday evening, May 26, in the First Baptist Church auditorium. Decorated with yellow and orange roses denoting the class colors and flower, the auditorium held capacity crowds for the 84th annual Haskell High School Graduation Exercises which began with the Sunday evening, May 25, 8:00 p. m. Baccalaureate Service.

Processing and recessing to the evoking "Priest's March" by Felix Mendelssohn, played by seniors Pam Harris and Sheila Gilleland on piano and organ, the class of '69 took its seats front center in apparent solemn spirits. Rev. Harry Sarles, Minister of the Presbyterian Church, gave the invocation, followed by Scripture reading by senior Hal Spain. Twenty-four members of the graduating class sang "Now Is The Hour", just preceding the baccalaureate address delivered by Bob Connel, Minister of the Church of Christ. His admonition dealt with the attainment to a happy degree of maturity. Rev. R. D. Williams of the East Side Baptist Church gave the benediction, and the fifty accomplished seniors, among them six honor students, left the auditorium, escorted by juniors Riley Middleton, Paula Mayfield, Terry Chapman and Anita Thigpen. Ushers were Beth Middleton, Judy Therwanger, Susan Wainwright, Sue Wilkinson, Lanny Ivy, Jim Kemp, Donald Love, and Lee Pippin. These ushers and escorts served both at baccalaureate and commencement services.

Commencement began Monday evening, May 26, 8:00 p. m. with the procession played by seniors Sara Yeary, organ, and Patricia Toliver, piano, led by juniors Riley Middleton and Paula Mayfield. Each carrying a single orange and yellow rose alternating, the senior class was seated in the choir section facing the relatives and friends who had come to witness the finale of their 12-year accomplishment. J. F. Cadenhead III gave the invocation. Salutatorian Janet Follstaedt, 94.05, extended the welcome. Jackie Beauchamp presented T. C. Elliot's "The Hollow Men" in a reading highlighted with several lines sung, underscoring the haunting futility of these hollow men, who think the world will end all right, with a whimper rather than a bang! The nostalgic strains of "When" were sung by eight members of the graduating class, Patricia Toliver, Sheila Gilleland, Jackie Beauchamp, Beverly Owens, Debra Darnell, Pamela Harris, Janis Wall and Sara Yeary. Judy Jeter, valedictorian graduate with a 94.80 average, delivered her address, using colloquial "doing your own thing" but disciplined by the process of education to realize the powers of the individual mind, rather than merely having that mind filled with the accumulated knowledge of other minds, all the while adhering to the '69 class motto: "The happiest people are those who touch life in the greatest number of points."

Legionnaire Harry Sarles presented the "God and Country" award to two recipients. Noting that the awards are presented in honor of the men who have died for the American Ideal, he

observed that it may at times be more difficult to live for this ideal, than to die for it. A certificate, a medal and a pin were presented each to J. F. Cadenhead III and Deana Robertson.

On behalf of the B&PW Club, Miss Nettie McCollum presented the 10th annual business scholarship to Linda Scheets, a four-year business student.

Charles Thornhill, president of the Haskell JC's, presented the 6th annual citizenship award scholarship of \$500, divided into two years, to Ray Acosta, Jr. School Superintendent H. T. Wilkinson then made presentation of the traditional scholarships to the highest ranking and second ranking graduate of the class, they both being girls, the highest ranking boy also received a scholarship. They are Judy Jeter, Janet Follstaedt and J. F. Cadenhead III. Supt. Wilkinson then presented High School Diplomas to fifty glad and sad young men and women. With a dramatic swish of the gold and black tassel on their cap from right to left, the 1969 Haskell High School Senior Class signified to the world that they have graduated.

"Anyone Can Move A Mountain" sang the class, and who could not believe it. It remained only for Jim Smith to give the benediction, a prayer of hope and faith, and then the recessional, led by juniors Anita Thigpen and Terry Chapman, took the historic class of '69 to its fifty routes of individual endeavors.

The National Honor Society hosted a reception in the fellowship hall of the Presbyterian Church.

### Karen Campbell Haskell Speedway "Trophy Girl"

Little Miss Karen Campbell, four-year-old daughter of Mr. and Mrs. Kenneth Campbell, of Haskell, was selected as "Trophy Girl" for the car races at the Haskell Speedway, Saturday night, May 24th.

Karen is almost as enthusiastic and excited over hot-rod races as her racer father. She never misses the races and loves every minute of them. When Mrs. Redwine gave Karen the trophy she whispered to her mother and said: "I'm not giving this to anyone but my daddy."

Carried onto the tracks on the shoulder of Mr. Harley Langford, the "little Miss" did present the trophy to her Daddy. Asked what she did, Karen said, "I loved his neck and gave him sugar and honked the horn for him as he drove away with the trophy."

This was the fifth trophy won by Karen's daddy.

Most color television sets require special "setting up" color adjustments in the home before they function satisfactorily.

This service should be part of the purchase price of the set. To check if the serviceman has done his job:

**Purity:** Tune in a black-and-white picture with a variety of shading but little action. Set the picture for moderate contrast. If, at six or eight feet, you see pronounced blotches of color with irregular outlines, purity is off.

**Convergence:** The convergence needs adjustment if, from normal viewing distance, you see colored outlines around objects in a black-and-white picture.

**Tracking:** The slight color tint of the background in a black-and-white picture should be the same throughout, often grayish blue. If the tint varies across the picture — to green, for example, or to pink — the tracking is out of adjustment.

**Focus:** Viewed at a distance of a foot or two, the horizontal scanning lines should be clearly visible and of uniform thickness. If the serviceman cannot get good focus, your picture tube may be defective.

**Tuning Accuracy:** If your set has a special device to make fine tuning easier, you can check it against your own manual fine tuning. Select a fairly strong station and fine-tune so you get a sharp picture. Then move the control slightly until the picture just appears to "wobble" and move it back again to sharp.

Your tuning indicator should not be at its optimum position. If your set has Automatic Frequency Control, switch it off for this test. After you've tuned, switch on the AFC. It should make no changes in picture sharpness.

For our recipe of the week, Mrs. Sue McGee, Stenographer for the Child Welfare Department, submitted this pie recipe that will be perfect for the hot summer months.

**Fruit Salad Pie**  
1 can pie cherries  
1 large can crushed pineapple  
6 tsp. cornstarch  
2 cups sugar  
6 sliced bananas  
2 cups nuts

Take juice from cherries and pineapple; add enough water to make 2 cups liquid. Add cornstarch and cook until thick. Add cherries, pineapple, and sugar and let cool. Add bananas and nuts. Pour into baked pie shells; top with whipped cream. Makes two 10-inch pies.

**CARD OF THANKS**

WASHINGTON "As it looks from here" OMAR DURLSON Congressman 17th District

WASHINGTON, D. C.—"After Vietnam" is a favorite expression here in Washington. It seems that about everything anyone wants done can be accomplished "after Vietnam."

Some are promising that all will be set right when the war in Vietnam is concluded. Problems now challenging the Government on every hand can supposedly be cured in short order. This includes the renovation of cities, soothing the unrest which agitates the younger generation and the minority groups and even a refurbishment of spiritual and economic destitution which afflicts many Americans.

This attitude adds up to an assumption prevalent in our society's life during the last several decades that money is all that is needed to cure everything.

The whole idea seems to be that when we get things quieted down in Southeast Asia, the billions now being spent in that area can immediately be put to use here at home.

The cost of the effort in Vietnam is blamed for not having all of the desirable things here at home which we will have "after Vietnam." Many of these same people have never expressed a concern about Government spending before.

The concern seems only directed at the purpose for which it is spent. That same objection will also be directed against the refurbishing of our National Defense, which is going to be necessary to a very large degree "after Vietnam," if we are to maintain a position of strength in the world.

The refrain grows that there should be a reappraisal of our military commitments. Apparently this means a reappraisal of the kind of world in which we live. Some sort of an assumption must be drawn that somehow our potential enemies have had a change of heart and that if we are not strong militarily, they will not fear us but will love us in our weakness.

The advocates of everything "after Vietnam" do not show signs of considering what would happen if it should turn out that high expenditures for military spending must continue. There is no admitting possibilities that the balance of power in the world may be shifting in favor of our adversaries instead of the other way around.

The whole implication is that no such thing could result from a full-scale reappraisal of our military needs. It is rather that the United States can safely pull in its horns, slash military spending and turn her whole attention to curing the evils on the home front. The fact is that the "after Vietnam" thesis is so strong that priorities are already being established. These priorities leave military preparedness some place down the line from those activities which are supposed to relieve all our society's ills. It is already being talked that to bail out bankrupt cities the Federal Government must come across with another \$20 billion per year, which just about doubles the present Federal contribution. It is further being talked that the Federal Government will need to pay about one-third of cost of all local and State Governments.

There is reason for suspicion about some of this "after Vietnam" business. In the first place, there just might be reason to question whether it is being used as a convenient cover for lack of workable programs at the present time. There should be a question as to whether all of this money we don't have will be available for all these things. No one is saying anything about using "after Vietnam" resources to get our fiscal house in order—like paying off some of our debts, stemming inflation by balancing the budget, strengthening the integrity of the dollar by reducing some of the tax burden from the necks of the taxpayer.

There is nothing wrong in looking to the time when problems of our society can be solved to the greatest possible extent. At the same time the idea that money alone can meet the challenge is false. In the opinion of some who have espoused this concept in the past, the \$20 billion or more now being spent on some of these problems has resulted in chaos. Another \$20 billion or so under present methods could produce twice as much chaos unless the spending is done more effectively.

This, coupled with the need for refurbishing our military, hardly holds out the promises some are making "after Vietnam."

Q—How long does one have to serve in Viet-Nam to be eligible for the G. I. Bill to return to college, and how much would a married veteran with no children receive each month?

A—Actual service in Viet-Nam itself is not a requirement for benefits (including educational assistance) under the G. I. Bill.  
The law requires that the veteran must have at least 181

## Stamford Electric Mailing Capital Credit Checks

Capital Credit checks totaling \$30,275.00 will be mailed to members of Stamford Electric Cooperative, on Thursday, May 29, 1969, according to Charles W. Stenholm, Manager. These checks represent the retirement of 1956 and 1957 capital credit investments by SEC members.

The capital credits plan is one aspect of SEC's non-profit operation under which members agree that all amounts paid for service in excess of operation costs are furnished as capital. Each member invests in his cooperative in proportion to the amount of electricity that he uses. Amounts thus invested and credited to member accounts are returned when the Cooperative's financial position permits.

The Board of Directors of SEC is charged with making decisions on finances and other policies of the cooperative. It has been the policy of SEC over

the years to pay back as quickly as economically feasible all REA loan funds. This has been done to the extent that members today have a 96.1% equity in their own business.

It is now possible to refund members capital investments on a regular basis. All such retirement of capital are made in the order of priority according to year in which capital was furnished and credited, the capital first received by the cooperative being first retired.

"With the mailing of the 1956 and 1957 checks, this will make a total of \$982,449.44 thus refunded since the cooperative's organization in 1939," said Stenholm, "and during this period SEC has served every applicant for service in the area served by the cooperative, no matter how small or far away."

**CARD OF THANKS**  
We wish to express our sincere thanks and appreciation to our friends and neighbors, for flowers and food, cards and words of consolation at this time of sorrow. The Milton Anderson family.

## News from Weinert . . .

MRS. ERON JENKINS

The weather has been hot and dry, with cool damp nights, and the fields are almost dry, only spots where the farmers have to turn on. If it will just stay like it is for two or three weeks, the cotton will be in and the wheat out. The harvest crews are all set to get started, and only waiting until the wheat is just right, and cotton planting days are past. I wonder if there were any farmers at all that got to plant cotton on the 19th and 20th. It's still not too late, though. It looks like the cotton will be late this year. The weather is still unsettled and probably someone is getting rain. They probably need dry, sunny weather as badly as we do. Let's all hope for good weather until after wheat harvest.

Mrs. J. J. Smith and Mrs. Don Coffman from Goree were guests of Mr. and Mrs. George Brockett last week. While here

Pearl Lackey and Mr. and Mrs. W. O. Lewis. Also visiting Mr. and Mrs. Brockett last week were Mrs. Sarah Stewart and Mrs. Opha Owens from Munday. Mr. and Mrs. R. M. Walker (Cont. on Page 6, Section 2)

**WHAT'S RIGHT?**

Despite all the bad things we hear...there are many things right about America!

For every Hell's Angels motorcycle gang, there are thousands of Boy Scouts and Girl Scouts and Camp Fire Girls.

For every long-haired, uncouth, repulsive hoodlum, there are untold multitudes of decent, clean, upright young ladies and gentlemen who are the hope of the world.

For every school dropout there are countless brilliant students who study infinitely harder than their parents did.

For every crook in business, there are innumerable honorable and upright men who would go bankrupt before they would be dishonest.

For every draft card burner, there are thousands of young men...who are giving their last full measure of devotion in duty...far-off Vietnam. That is what is right about America.

# COTTON PICKIN'S

Rolling Plains Cotton Growers, Inc.

There is an old saying in the writing business that goes "If it can be misunderstood, it will be."

Evidently, the editorial in "Cotton Picks" last week concerning the \$1.00 per bale program and the CPI budget fell into that category, or I sure hit some raw nerves. Squeals were heard all the way to Memphis, Tennessee.

Most of us Monday morning quarterbackers find it easy to point out flaws in game plans that didn't quite work out. It is a different matter to create the plan. I certainly don't envy the CPI trustees their enormous responsibility to invest wisely the millions of dollars donated by cotton farmers as to research and promotion. But the Rolling Plains donated about \$600,000 last fall, and we are vitally interested.

I am whole-heartedly in favor of the \$1 per bale program. Whether cotton lives or dies as an industry may depend on it. It is a shame that we didn't have such a program years before.

But my point is still valid. Cotton farmers must make a profit to stay in business.

Prices must be competitive. Polyester and rayon prices have steadily declined. Foreign cotton prices are down. There is little hope for a substantial, or prolonged increase in the price of our product in the near future. We do not have a monopoly.

Texas A&M University, in a formal presentation to the National Fibers Committee of the Texas House of Representatives on June 14, 1968, agreed that, quote, "At present and in the foreseeable future, we see no possibility of raising the prices of natural fibers. Therefore, producers must concentrate on lowering cost of production."

Congressman Bob Poage, Chairman of the House Agriculture Committee, in a recent speech voiced his opinion that the "salvation" of the cotton farmer may depend on his ability to reduce production costs.

**Creek Visit**  
 The Senior Class of the Haskell High School visited the famous Royal Gorge, Colorado Springs, Colorado, on their recent tour.

The highlight of a trip to the scenic points of interest in and around the Colorado Springs area was the visit to the Royal Gorge, they found the highest point above the (100 feet above the Kansas River), rode the steepest incline (90 percent grade) of Colorado's scenic beauty.

The Royal Gorge, the most spectacular view in America, is nearing completion and will probably be ready in June.

**Master Sergeant J. C. Holt Helps Launch Missile**

SGT. J. C. HOLT

Master Sergeant J. C. Holt, son of Mrs. Clara Holt, Haskell, recently helped launch a U. S. Air Force Minuteman II intercontinental ballistic missile from Vandenberg AFB, Calif.

Sergeant Holt, a missile equipment superintendent, traveled to Vandenberg from his home station at Grand Forks AFB, N. D., for the mission.

The launch was one in a series of operational testing launches conducted by the Strategic Air Command (SAC). The missile, selected at random from those on alert at Grand Forks, was transported with its maintenance and launch crews to Vandenberg.

The crews operated from the Vandenberg control center where they monitored the missile in an alert status. When the launch message was received from SAC headquarters, the crews reacted, launching the missile as they would from their home base in a combat operation.

Sergeant Holt, a graduate of Rule High School, is married to the former Mary J. Norbie, daughter of Mr. and Mrs. Nels Norbie, Rt. 4, Memidji, Minn.

**TAX MAN SAM SEZ:**

The new thing in auditing income tax returns this year is that the computer gives a "score" to each taxpayer with an income of less than \$10,000. Next year the computer will "score" everyone (and if you made more than \$10,000, don't think that Internal Revenue will forget you until next year).

A score is determined by how close the return comes to what IRS considers the norm for a taxpayer of that income bracket with that particular type of business, with similar dependents or deductions, with that particular variety of income sources, in that geographic area, etc.

"Nation's Business" magazine recently reported that approximately 2.5 million returns receiving the poorest scores in 1969 will be reported back to the regional and district offices and will be thoroughly audited. If your return gets a good score at Martinsburg it most likely will never be audited. However, returns which "flunk" the score will be "eyeballed" at length at the taxpayer's IRS district office. Here the trained tax people review the mechanical thinking of the digitized selector and rule out those cases where it is obvious the taxpayer does not need an audit.

Social Security holds that persons born on the first day of a month reach an attained age the month before their birthday.

**MRS. FAYE DUNNAM**  
 Chapter Added To The Fairy Book

Derrell Sorrell was forced to withdraw from school because of financial reasons, but he was always wondering how it would be possible for him to get a high school education. He realized he needed this for his own satisfaction.

When the Rule School announced that they would conduct Adult Education classes, Derrell lost no time in enrolling in the Level III Class. He worked diligently to review and learn the basic facts that he missed when he dropped out of school.

One night he did not get to attend his class because the Annual dinner meeting of the Rule Chamber of Commerce was being held. As it was his custom to take part in all civic affairs of his community, Derrell attended the dinner meeting.

Derrell Sorrell, a drop-out from school, that night was chosen as the Outstanding Citizen of Rule—1968. After the meeting, he related how the enrollment in the Adult Basic Education Class had given him a sense of pride, for when he received the plaque, he was trying to accomplish something about his interrupted formal education.

Some of Derrell's accomplishments as listed that night were his courteous ways, willingness to participate in local activities such as Boy Scouts and Little League baseball, active in church and his community affairs and a valuable member in Rotary Club, Rule Recreation Club and Chamber of Commerce.

After Derrell received this honor he studied even more for he knew he was going to take the General Education Development Tests. He scored very high on the test and as a result he will receive the equivalency of a High School Diploma from the Texas Education Agency.

**Annual Report In A.B.E.**

Rule enrolled 84 students in three levels of A.B.E. classes. The average was between the ages of 25 and 34. Thirty-nine were Latin Americans, and three were Negroes. Students attended 2,286 hours of instruction out of a possible 5,160 hours. Some seven were not citizens of the United States. Five students had perfect attendance.

Three teachers and three aides were employed. The Superintendent and Supervisor of Instruction worked many hours working out the details of the program.

Some twenty students have passed their General Education Development Tests after they reviewed instruction in Level III Class and have been issued a diploma from the Texas Education Agency.

One student had to have this equivalency to a high school diploma to continue the position he held. Another was the county sheriff, who felt he could better serve his people if he had the satisfaction of having completed a high school education. Five women wanted to enter License Vocational Nurses training and needed this preparation to be accepted. The oldest student, who was a retired postmaster, wanted the satisfaction of having a high school diploma. Four students owned their own business and wanted a challenge so that they could accomplish more in their business adventures.

A "last of school exercise" was held so that families and friends could share with the students their accomplishments. Those who passed their General Education Development Tests were recognized at the High School Graduation Exercises.

We feel we have accomplished much this year and plans are being made for greater things next year.

**Publicity Used**

Rule school left nothing to be desired in the way of publicity when they were approved for Adult Basic Education classes. Announcement of the Adult Basic Education classes was made through the local newspapers, as well as the regional papers. A form was inserted with the announcement to fill in if a person wanted to enroll in the Adult Basic Education Class.

Spot advertising several times during the day through the radio media about the classes and how to register for the course was used.

Personal contacts were made with prospective students to encourage them to enroll in the courses. A Latin American, who spoke English and Spanish fluently, made many contacts among the Latin American people to influence them to enroll in the Adult Basic Education classes.

If these steps are taken in getting a start in classes, we believe any school will be successful in enrolling students.

Linda Rhoads and Nicki Hunt from grades one through three; Cynthia Carroll and Calvin Stegemoller from grades four through eight.

**Tax Questions And Answers**

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q—I have my refund. Does that mean my return was all right and will not be audited?  
 A—No, it does not. The fact that you have your refund indicates only that your return contained all the required information to process it.

IRS generally has three years from the filing deadline of the return to examine the return and propose an adjustment in the tax liability.

For this reason, keep your tax records for at least three years from the due date of the return. Some records, such as those relating to the acquisition of a house or other property, should be kept longer.

Q—I lost my refund check. Can I get it replaced?  
 A—Yes, report the loss to the IRS Service Center where you filed your return. They will send you the forms needed to apply for a replacement check.

Q—I forgot to deduct my

letter from IRS explaining why it is delayed.

Q—I mailed my return just before the deadline. When should my refund come?  
 A—The increased volume of returns received by IRS offices during April should extend slightly the 5-6 week processing cycle for refund returns that are accurately and completely prepared.

You should have your refund within 10 weeks from the date you filed or, in any event, a

medical expenses when I filed my 1968 tax return. Is it too late to do it?  
 A—No, it is not too late to amend a 1968 return. To make a change, obtain a Form 1040X, Amended U. S. Individual Income Tax Return, from your local IRS office and enter the information called for. It is not necessary to file a completely new return.

Q—Is a gardener considered household help? If so, will I have to withhold social security taxes on wages paid?  
 A—Wages paid to a gardener are subject to social security taxes. If you pay him cash wages of \$50 or more during a calendar quarter then you are required to file a Form 942, Employer's Quarterly Tax Return for Household Employees, and pay social security taxes. Income taxes, however, do not have to be withheld from wages paid gardeners and other household help.

# June 1 Is Third Anniversary Post-Korean GI Bill Training Program

June 1, is the third anniversary of the post-Korean GI Bill education and training program. During the past three years, more than 1,148,000 veterans and 83,000 servicemen nationwide entered training under this program, Jack Coker, Manager of the Waco Veterans Administration Regional Office, said today.

In Texas, more than 68,739 veterans and servicemen entered training during the past three years, some 43,390 of which went to college and 23,383 entered schools below the college level.

There were also 1966 veterans entered as on-the-job trainees since October 1, 1967, when this benefit went into effect.

This spring more than 33,451 veterans in Texas were enrolled in training. This is an all-time high for the three-year-old post-Korean GI Bill, Coker said. More than 21,770 were enrolled in institutions of higher learning.

To be eligible for post-Korean GI Bill education and training from VA, a veteran must have

had at least 181 days of service, part of which was after January 31, 1955, and have received an other than dishonorable discharge, Coker said.

A recent change gives a veteran one and a half months of educational entitlement for each month of service with a maximum of 36 months entitlement. Veterans eligible under two or more VA programs may have a total entitlement of 48 months education.

Veterans who have not completed high school may receive full VA educational assistance while earning their high school diploma without having any of this time charged to their maximum entitlement to college training, Coker emphasized.

He reminded post-Korean and Vietnam era veterans in Texas that they must complete their training by May 31, 1974, or eight years after separation from service, whichever is later.
