Co-ordinator And Two Aids Hired By The CAP Board Of Directors

The CAP Board of directors hired Mrs. Mildred Robertson as Co-ordinator of the Community Action Program, which will begin its existence with a neighborhood center located in the former E. B. Evans Elementary School in the northeast part of Haskell. Mrs. Andy Phea and Mrs. Augustina Rodela have been employed as aids to the coordinator.

Repairs on the vacant school building will begin this week-end and the area to be used for office space should be ready for occupancy early next week.

Mrs. Robertson and the aid ladies will begin their training, Friday, November 29, in Abilene.

Felipe Arredondo, chairman of the Haskell CAP Board of Directors, presided at last Monday night's meeting of the board in which 16 more applicants appeared before the board. Six applicants had been interviewed the previous Monday night. Out of 25 applications, 22 persons came before the board.

Arredondo stated that it was difficult to choose just three out of this large number of qualified persons. The ladies chosen reflect the desire of the board that the community action program should benefit all the people in this county, Latin American, Colored and Anglo, who are disadvantaged.

Should other job opportunities arise in connection with the work in the neighborhood center, the board will use unused applications for future references.

Firemen Answer Early Morning Call Tuesday

Haskell Volunteer Firemen answered a call around 6:30 a. m., Tuesday, four-and-one-half miles north of town on the R. A. (Shady) Lane farm, to extinguish a fire at a large tank battery, owned by Hardin Brothers.

A spokesman of the fire department said that from all indications the blaze originated when lightning struck the tank. The top of the 5,000 barrel oil capacity tank was blown-off; however, the tank was only about half full at the time of the fire.

E. J. Stewart, one of the firemen making the call, said the tank did not collapse and that damage was not too extensive.

DEBBIE CAMPBELL Wins Girls' Award

Yuletide Season Will Officially Open Here Saturday, Nov. 30

Santa Claus is coming to Haskell, Saturday, December 7th, with the World's Largest Sleigh to give all the children free rides.

The 30 ft. sleigh, bright red and trimmed in silver, will be pulled by six Shetland ponies. Sixty children can be seated on the sleigh for each ride, Rex Felker, Chamber of Commerce Manager, said.

Santa will personally interview each child on the sleigh. Concealed speakers on the giant sleigh will broadcast the interview throughout the business area. Christmas carols are also played continuously.

Santa's crew, all dressed in costume, will help Santa in taking care of all the boys and girls who want to ride. Miss Merry Christmas will be official hostess.

The sleigh which will follow a route around the square from 10:00 a. m. to 6:00 p. m., cost more than a Cadillac, and is equipped with a music box and a motor to help the Shetland ponies pull it. Chrome-plated sleigh harnesses, red plumes and sleigh bells decorate each of the six ponies.

SANTA CLAUS COMING TO TOWN ON SATURDAY, DECEMBER 7TH

Final plans are complete for the grand opening of Haskell's annual Christmas program, according to information released this week by Wallace Cox, Jr., chairman of the retail trade committee of the chamber of commerce.

Three big days of special features outlined for the 1968 Yule Season will begin on Saturday, November 30, at which time the beautiful street decorations will be up and colored lights will be turned on to usher in the holiday season. Haskell Jaycees, under the leadership of Charles Thornhill, president, began erecting the decorations on Tuesday night of this week.

Haskell merchants will unveil store windows where merchandise available to all shoppers who frequent Haskell will be on display.

Through the cooperation of the management of the Texas Theatre, the children will be guests of the business men at a free show which is scheduled to run from 10 a. m. until 4 p. m., giving all who wish to participate the opportunity to visit the theatre.

At least two refreshment stands will be set up in the business district where free coffee and cookies will be served to the public by members of the Haskell Jaycees who will man the booths.

The outstanding feature of the day's agenda of events will be the scores of young voices singing Christmas carols over a public address system which will be set up on the lawn of the courthouse. This particular part of the days program will begin at 3 p. m. and will last until 5 p. m. or later with many outstanding choirs and choral groups already lined up to appear on the program.

Currently, some ten different groups have notified the chamber of commerce that they would participate in the phase of the program and others are expected to join the afternoon program of Christmas music before next Saturday.

Confirmation has not been received from two or three churches but definitely scheduled to appear are: The 4-H Club girls of Weinert; The Singing Six, under the direction of Mrs. Clint Kimbrough; The "Scarletleers", directed by Mrs. James Mickler. The Junior choir of the First Methodist Church, directed by Mrs. H. O. Abbott; the First Baptist Church choir; Wendell Gideon; The East Side Baptist Church; Rev. R. D. Williams; and others, expected to be in attendance.

A welcome will be extended by Rex Felker, chamber of commerce manager, who will also serve as master of ceremonies for the program of Christmas caroling.

Everyone is extended a cordial invitation to be in Haskell for this grand opening of the Christmas season.

Santa Claus and the World's largest sleigh will be in Haskell all day Saturday, December 7th, to take all the children for a ride.

Climax of the Christmas program will be the "big Christmas party" at 4:30 p. m., on Monday, December 23, on the courthouse square.

Goodfellows Face Tremendous Task In Providing Christmas For Needy

The "Goodfellows" project, sponsored by Haskell Lions, faces a tremendous task during the next few weeks if the needy families and underprivileged children of Haskell are to have a Merry Christmas.

As in past years, Goodfellows will endeavor to coordinate activities in order that all deserving cases may be included in the Christmas basket distribution.

This will require money—more than the Goodfellows have prospects of getting unless everyone gives generously. From all indications, demands on Goodfellows this year will be greater than last year... So, it is up to all of us to help with this worthy cause.

If you'd like to make some child happy... happy as only children can be at Christmas-time, or to help lighten the burden of some worried parents who dread the approach of an empty Christmas, get in touch with the Goodfellows today, or mail your contribution to "Goodfellows," Haskell Free Press. A contribution in any amount, however small, will mean a lot.

To Mr. and Mrs. Woodrow Frazier goes the honor of making the first contribution to the 1968 Goodfellow Fund, a check for \$10.00.

The second contribution to the Goodfellows fund was a check for \$25.00 from the Friendly Fellows Class of the First Methodist Church.

Mrs. Virgil Meadors and daughter, Martha, recently returned from a "Jet" trip to visit Mrs. Meador's sisters. Their first destination was Harrisburg, Pennsylvania, where they were met by Mrs. E. F. Garno. While there they spent much time in the interesting Pennsylvania Dutch Country, where apple gathering and cider making were at their height and where maple leaves ranged in all shades through green, gold, orange red. They also visited Gettysburg and many other points of historic interest. The next stop was at Nashville, Tennessee at the home of Mrs. E. M. Roggen and family. Tennessee was also dressed in beautifull fall foliage colors. One day was spent with a gathering of cousins at Cummins Falls, near Cookeville, Tenn., the boyhood home of Mrs. Meador's father. The 80-foot Cummins Falls is listed and pictured on the Tennessee vacation map as

a famous point of interest to visitors. The old home where Dr. D. R. Cummins lived as a boy is near enough to hear the roar of the falls. Although the house has been modernized and is occupied by members of the family, there are reminders of bygone days such as the many fireplaces, the ones on the second floor being directly above the ones on the first floor, also the spring house where milk was kept cool in pre-refrigerator days. The place now is becoming somewhat of an art center since a talented member of the family and her artist husband formerly of New York City have retired and built a studio where lessons are given, portraits are painted and sculpture is done. Enroute home Mrs. Meadors and Martha spent the night with Mrs. J. P. Berry of Ft. Worth where they were joined by Mrs. A. B. Pumphrey.

During the business session, Mrs. Bobby Littrell reported that the membership enrollment effort was won by the Kindergarten class with a total of 18. Mrs. A. C. December Draft Call Is Up From November

The December draft call for Texas is 869, up from 523 for November. Colonel Morris S. Schwartz, state Selective Service director, said Tuesday.

This compares with quotas of 774 and 683 for October and September, respectively. The highest monthly call in 1968 was in May, in which a quota of 2,223 was set. Monthly calls in 1967 ranged from 674 to 1,421.

The allocation to all states in December is 17,500 men, 15,000 for the Army and 2,500 for the Marine Corps. The Marine Corps has requested no men through the draft previously this year.

The state director of Selective Service also announced that a total of 1,938 men would be forwarded for pre-induction mental-physical examinations in November, compared to 6,697 being sent for this purpose in October. These men, whether they pass or fail these examinations, are returned to their homes.

TWO LITTLE ANGELS

MAKING HOLIDAY ANGEL can be a lot of fun, as this little girl has discovered. For wings, cover both sides of cardboard with aluminum foil, sketch the wings, then cut them out. Use six-page thickness of newspaper for body, forming a cone 12 inches high and 5 inches in diameter at base. Wrap foil around cone, securing it with rubber cement. For the head, use 3-inch styrofoam ball, tint with powder and rouge, and wrap angel hair around top of the head. To put the angel together, form hook with straight wire and force through top of head and then into body, using glue to secure. Insert pipe cleaners to form arms. Form sleeves of foil and attach wings with pins.

SOCIAL SECURITY ASKS FOR PROOFS OF AGE, EARNINGS, KINSHIP

Social security benefits don't start automatically for you and your family when you retire. This may seem strange since the social security contribution comes out of the pay check without the worker requesting it, but the monthly retirement benefits do have to be requested. Along with the application certain proofs have to be furnished according to R. R. Tuley, Jr., district manager for the Social Security Administration. What does a person need to get his retirement check started? Proof of a person's age should always be brought with him when he files, says Tuley.

Most people decide to file a claim the first trip to see a social security representative after they see how simple it is, he went on, even though they were just inquiring about how to file. If the spouse and children are also claiming benefits, they will need proof of their age and relationship.

Since most people in this area don't have a birth certificate recorded near the time of birth, they usually need two old documents showing their age, the older the document, the better. Baptismal records, family Bibles, school records, insurance policies, marriage licenses, and practically any other old document showing the person's age can be used to establish his date of birth.

Tuley says that last year's W-2 Form, or tax return, if you were self-employed, should also be brought with you when you plan to apply for social security. The W-2 form is the statement of earnings furnished to employees at the end of each year by the employer.

A representative of the Abilene district office will next be in Haskell every Thursday, except December 26th, at the City Hall Annex, 305 North First at 10:00 o'clock.

O'Brien Home Heavily Damaged By Fire Monday

C. M. Walsworth, 88, received minor burns on his hands and neck in a fire that heavily damaged his home in O'Brien about 8 a. m. Monday.

Units from the O'Brien and Knox City fire departments extinguished the blaze in about 30 minutes.

Walsworth said he believed the fire started in his kitchen stove and spread to a wooden cabinet above it. The kitchen and dining room were gutted, and the rest of the home received smoke damage.

VIETNAM VIEW

I had just finished digging my home for the night and was preparing to enjoy a can of cold ham and eggs, chopped, when I spotted the first one to my left.

It was by no means the first time I had gone hand-to-hand. This would be my 53rd.

No, he was not new to me. He's silent and ever so swift. He's through your lines and on you before you know what happened.

The night I last encountered him was like all the others. At first, as always, I lost sight of him for a while. That's all he needed. He was on me before I knew what happened.

I felt a sharp pain in my left arm. I turned quickly and saw him. I knew this was it!

I swung with all my might as he lunged at me. Thoughts of apple pie, Mom and the girl I left behind raced through my mind.

As quickly as it began, it was over. He lay dead at my side. I felt no remorse for him. I knew it was my duty to rid the world of his kind.

Before I leave Vietnam I know I'll kill many more, as will my fellow Marines.

It makes me happy to think of how many we'll kill... because I hate *&@%* MOSQUITOES!!!

Trung Thu, or the mid-autumn festival, is a long awaited occasion for Vietnamese children. It is a time when parents honor their children. A time for fun, laughter, gaiety and pageantry.

To the children of Cam Le and Hoa Tho the villages near Da Nang, the thought of a joyous Trung Thu was almost inconceivable.

Many had lost parents, relatives and friends in what was termed as the third-phase enemy offensive during the latter part of August. Their hamlets were scenes of heavy house-to-house fighting.

The enemy was stopped by Marine reaction forces.

The villages soon learned of "Project Hope," a combined effort of Marines in Vietnam and groups throughout the United States.

The project began when concerned groups in the Minneapolis-St. Paul area were given a series of slide and lecture presentations by two Marine Vietnam veterans. The slides included scenes of Marine Civic Action work with the Vietnamese. Soon, interested groups began writing commanding officers in Vietnam and the project quickly developed into a major civic action program.

One such group representing three Nebraska communities, Verdel, Verdigre and Niabrara, began sending clothing and foodstuffs to the Force Logistic Command's 1st Military Police Bn. near Da Nang.

Under the chairmanship of Mrs. Norman DeKay, Niabrara, Neb., the organization also contacted local 4-H clubs which

began sending clothing. According to 1st Lt. John W. Judge, Albia, Iowa, the items were distributed to needy Vietnamese in Xuan Hoa, Cam Le and Hoa Tho villages. The Civil Affairs Officer also obtained self-heat kits, purchased through the Marine Corps Reserve Civic Action Fund, and comprised of metal working, carpenter and blacksmith tools, which were given to the villagers to aid in rebuilding their homes and establishing a means of income.

"We also received 150 pounds of candy and 500 packages of toys, but these we saved for a special occasion," recalled Judge.

Earlier this month, on the day marking the start of the three-day mid-autumn festival, Judge and the other Marines distributed the goods to those Vietnamese who had lost so much during the fighting at Cam Le.

With brightly colored lanterns and dancing children, Trung Thu was celebrated at Cam Le, and with the festivities came new hope.

The people of Cam Le had not been forgotten...

A Chieu Hoi is provided a lot of benefits when he defects to the Allied cause, but if he's a barber and is captured by the Fifth Marine Regiment he may reap unexpected benefits.

When a mother approached the command post of Lima Co., 3d Bn., Fifth Marine Regiment, during a recent operation, the Marines were surprised to find she was an envoy for her son who wished to give himself up.

The Chieu Hoi was afraid to approach the Marine encampment on his own and had sent his mother.

Scouts and an interpreter went with the mother to talk to the young VC and brought him back to the Marine lines.

It was discovered the defector carried a pair of barbers clippers and the Marines of Lima Company jumped at the opportunity to get a hair-cut after more than a month in the field.

"My company gunny had been complaining about long hair for some time," said Capt. Robert Snowden, 30, Hollywood, Fla., and he was the first man in the chair.

"A dozen Marines had their hair clipped before our Chieu Hoi was taken back for interrogation," he continued. "At 40 piasters a head, he made about four dollars before he ever qualified for the other benefits of the Chieu Hoi program."

If you are a barber and want to become a Chieu Hoi, the Fifth Marines will stake you to a start in your new life.

Conservation Essay Time Again In California Creek, Soil, Water Dist.

It's conservation essay time again in the California Creek Soil and Water Conservation District.

Chairman Birger Haterius of Avoca announced the contest this week following the November meeting of the District's Board of Supervisors.

"How Conservation Helps Texas" will be the theme for this year's contest. Students are urged to use their imagination in writing about conservation of Texas natural resources.

According to Haterius, the following rules have been set by the Fort Worth Press, state-wide sponsor of the contest:

1. This is an open contest for Texas boys and girls 19 years old or younger, in or out of school, but not a high school graduate.

2. There is no limit on the number of words, but 300 words or less is suggested.

3. Include name, address, school and "California Creek Soil & Water Conservation District No. 515."

4. Send entries by January 8, 1969 to: California Creek SWCD, P. O. Box 509, Stamford, Texas 79553.

"Scholarships certificates for \$25.00, \$20.00, \$15.00, \$10.00 and \$5.00 will be awarded the top five district winners," Haterius said. In addition, all essays will be sent to the Fort Worth Press for entry in state-wide competition, where first prize will be \$200.00. Fifty trophies and medals will also be given. District entries will be judged by a committee from the Stamford Garden Club.

Last year's district winner was Dwight Overton of Paint Creek.

"Prexy" Hartsfield announced an officers and directors meeting for Tuesday, December 3, at 7:00 a. m., Felker's Restaurant.

both points.

Throck scored three touchdowns and a safety in the second period to make it 34-0 at halftime. Freddie Chandler went in from the one. Dick Hibbits raced 40 yards with an intercepted pass and Hargrove connected with Tom London on a 25-yard pass to account for those touchdowns.

The final touchdown came in the last quarter on a 25-yard pass to John Bundy from Randy Nichols.

Throckmorton finishes the season with a 7-3 mark. Rochester was winless in district competition.

Maidens Lose To Knox City

The Haskell Maidens got their first taste of defeat Tuesday night, November 19. They played Knox City with the final score ending up as 51-28.

High pointers for the night were Janice Medford with 13 and Judy Jeter with 8.

Offensive starters were Judy Jeter, Janice Medford, and Anita Thigpen.

Defensive starters were Deanna Robertson, Paula Mayfield, and Diana Davis. A new manager, Pam Burson, has been added to the team.

The Indians and Maidens are all looking to student support during the coming season.

Lueders-Avooca Pops Paint Creek 58-12

Host Lueders-Avooca entered the bidistrict, six-man playoffs against Blackwell, by smashing Paint Creek, 58-12, upping its record to 10-0.

The win also gave Avooca the 4-B championship. Paint Creek ended the year at 7-3.

The game was called in the third period because of the 45-point rule.

Gary Harvey scored five touchdowns for the winners, with Junior Barnes scoring three and throwing a TD pass to Harvey. Barnes also kicked for 10 points.

Lueders held a 34-12 bulge entering the third period.

Harvey raced 68 yards on a kickoff and Barnes' kick made it 42-12. Barnes scored on a 10-yarder and his boot made it 56-12.

The clinching points came on a 58-yard pass from Barnes to Harvey and a Barnes kick.

Jimmy Ballard scored both Paint Creek touchdowns on runs of 15 and 10 yards.

Benjamin Nips Weinert 47-42

Visiting Benjamin (2-2) out-slugged Weinert (0-4), 47-42, in a District 4-B, six-man football finale last Thursday night at Weinert.

ONLY TWO TOES

Although most hoofed animals have four toes on each foot, the antelope has only two.

Rule Squeezes Past Newcastle

The Rule Bobcats held on to take a cliff-hanger in a high-scoring game to clinch second place in District 3-B play with a 33-32 win over Newcastle.

Newcastle quarterback John Bullock started things rolling in the first quarter by scampering 70 yards for the first touchdown.

Sophomore fullback Jimmy Lisle put Rule on the scoreboard late in the first quarter.

hitting paydirt on a two-yard lunge. Halfback Charles Lott kicked the point after and Rule led 7-6 at the end of the first quarter.

Rule came back early in the second quarter when Jimmy Lisle romped over from five yards out for the touchdown. But Bullock hit halfback Mike Choate with a seven-yard effort that put Newcastle on the big board. Point-after failed.

Senior halfback Charles Lott kept the action alive by scoring on a ten-yard run for Rule. Quarterback Kent LeFevre hit end Donnie Barbee with a ten-yard pass to add another Rule touchdown before the half and the score at halftime was Rule 25, Newcastle 12.

Newcastle came roaring back in the third quarter with halfback Kent Creel going over from six yards out. Creel then took the ball in for the two-points after. Rule failed to get on the board in the third quarter.

Early in the fourth period Bullock hit end Buster Mitchell with a ten yard effort to keep the Newcastle hopes alive.

Then Jimmy Lisle came roaring back on the second play from scrimmage from his own 20-yard line to romp 80 yards for another Rule touchdown. Lott nailed down the win when he rolled in the two points after the touchdown.

Bullock added another Newcastle touchdown but the point after failed and the hard-fought battle ended.

A DAY OF THANKSGIVING

Thanksgiving is the oldest observance, unique to the United States, which we now commemorate as a national holiday. It began with the pilgrims at Plymouth after their first harvest in 1621. From their tenuous foothold on the edge of an unknown continent, whose limits they were never to know, grew the English colonies, the conviction that government derived its powers from the people, the American Revolution and finally the United States of America.

What happened then through the years of our national history and what we have the opportunity of carrying forward today should be remembered with humility and thanksgiving on the 28th of November, 1968. We defend again the principles of human freedom on the battlefield. We should be thankful that we have the strength to do so. Our harvests were never more abundant, and our material wealth never greater. Our original dedication to the worth of the individual is intact, and our institutions in these fast changing times are proving equal to the task of living up to this dedication. The faith of our forefathers was strong, and it built the land we live in today. Let us give thanks that we have been able to fulfill that faith to this point in our history and continue in our common purpose to pass it onward with courage and with wisdom for generations yet to come.

TAX MAN SAM SEZ:

The Commissioner of Internal Revenue gives these statistics on mathematical verification of individual tax returns in his Annual Report Summary for the Fiscal Year 1967:

—65.4 million returns were mathematically verified.

—3.9 million returns required correction.

—2.4 million were taxpayer errors that caused the taxpayer to underpay his tax. IRS collected \$207.5 additional millions from these folks. However,

—1.5 million made errors in favor of the government, and

Internal Revenue refunded \$94.3 million to these taxpayers who had cheated themselves out of almost \$100 million through their own bad arithmetic.

This may not prove that most taxpayers would flunk grammar school arithmetic, but it seems to prove Internal Revenue's repeated warning... "Check it again—carefully—before you mail it." That dollar you save will be your own.

compared with 35,005 bales ginned to November 14, 1927, according to Jas. E. Lindsey of Rule, special agent of the United States Department of Commerce.

One of the largest floral plants in this section, and one that is equal of any in the larger cities, is the one recently completed by the Conner Nursery and Floral Company, located four blocks north and two west of the Methodist Church, which is now open to the public, according to Mr. Conner. The plant includes all the latest nursery equipment, and Mr. Conner is prepared to render service that equals that of florists in the more larger towns of the state. He states that his show room is now open and invites the public to call and inspect his plant.

Mr. and Mrs. Fred Monke of the Myers community were shopping in Haskell Saturday.

H. M. Smith and Sam Roberts returned Tuesday night from Mason country where they spent the past week hunting deer. No statement is forthcoming from either of them, other than emphasis should be placed on the fact they were "hunting."

The club ladies of the Roberts community met at the home of Mrs. W. E. Stanford last Thursday and canned a beef. There were 12 or 15 of the ladies present. There were 78 cans after they were through canning, which contained steak, roast, chili, veal loaf, and they also canned quite a lot of hog sausage extra and called it a day.

The Haskell Indians and Robby Lions played a scoreless tie at Roby last Friday, neither team scoring, although goals were threatened several times during the game.

The Commissioner of Internal Revenue, in his Annual Report Summary for the Fiscal Year of 1967, states "The Mission of the Service is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and regulations and to maintain the highest degree of public confidence in the integrity and efficiency of the Service. This includes communicating the requirements of the law to the public, determining the extent of non-compliance, and doing all things needful to a proper enforcement of the law."

On the last page of the Commissioner's Report Summary, under the title "Investigation of Alleged Tax Fraud," there is listed "Plea of guilty or nolo contendere or conviction after trial ... 1,173." Apparently out of 100 million, there were still 1,000 who didn't volunteer.

Traffic Safety Must Be 'Sold'

The public is reluctant to demand, or even accept, some of the driver restrictions that may be necessary to make traffic safe and efficient. Nils A. Lofgren, Acting President, Insurance Institute for Highway Safety, Washington, D. C., told members of the Texas Safety Association's Board of Directors at a recent meeting held in Houston.

He explained that organizations, such as the statewide Safety Association, would have to sell the public on needed traffic safety measures.

"Organizations, such as yours, will have to sell the idea of making driver licenses harder to get and harder to keep," Mr. Lofgren said, and added: "You will have to sell the idea that you must have adequate remedial measures to control the use of alcohol while driving. You will also have to sell motor vehicle inspection and high school driver education if you are to achieve the complete and effective programs you ought to have."

By contrast, he noted that the public is quite willing to accept mechanical design improvements in their vehicles—"although they may not be willing to make full use of such safety features as the restraining devices."

The IHS President pointed out that the auto design features now being recommended by the National Highway Safety Bureau are standards based upon experience, research, and studies and that in the next four or five years most of the vehicles on the nation's highways will be equipped with these safety features.

A Holiday Can Be A Happy Day For An Orphan If Someone Cares

A holiday can be a happy day for an orphan, if someone cares; and being a Vietnamese orphan on Tet Nui Dong or mid-Autumn Festival is like being an American orphan at Christmas.

The festival is a special occasion for parents to honor their children with gifts; a night when parents traditionally delight in preparing a party for their children.

American Marines played the role of parents during the Tet Nui Dong this year at Dong Ha. For over 400 youngsters from the Dong Ha orphanage and school system, Tet Nui Dong was a joyous occasion, because Marines cared.

A day-long festival of gifts, games, entertainment and food was organized for the children by Marine Capt. Joseph F. Mahoney, West Seneca, N. Y., civil affairs officer for Force Logistic Support Group Bravo (FLSG-B) a unit of the Force Logistic Command.

Assisting were Navy Chaplain Joseph R. Grosko, Pittsburgh, Penn., and Sgt. Nathaniel F. Johnson, Chicago, Ill.

The festival was held at the Dong Ha High School, a structure which has been severely hit by enemy artillery during recent attacks on the city. Enemy attacks were forgotten during the children's festival, as Vietnamese entertainers shared the stage with the 3rd Marine Division band. Shopping bags filled with gifts were passed from Marines to children. The bags containing sewing and school kits, clothes,

toothbrushes, soap, tops, gum and cookies. Volunteers from FLSG-B served fried chicken, rice, gravy, milk, fruit and ice cream.

This year's mid-Autumn Festival ended with smiles as Vietnamese children, weighed down with gifts, paraded home. Vietnamese children now fully understand a message chalked that morning on their high school bulletin board, "Welcome Marines."

But this was only one aspect of FLC participation in Tet Nui Dong festivities.

Maj. J. D. Crawford, Burbank, Calif., the Command's Civil Affairs Officer, indicates that FLC spearheaded assistance to 28 hamlets within the Civil Affairs Area 5.

This 20 square mile area northwest of Da Nang contains about 40,000 Vietnamese—20,000 of whom are refugees.

"We gave out enough gifts for roughly 8,000 children," the major said.

Mrs. Corsie P. Johnston Attends State Meeting

Corsie P. Johnston, administrator representing Rice Springs Care Home of Haskell, has just returned from the 18th Annual Texas Nursing Home Association Convention and Educational Trade Display, held November 18-21, at the Sheraton Dallas Hotel in Dallas.

Based on the theme, "Service...The Key To The Future," the meeting drew over 1,000 nursing home owners, administrators, and representatives from the health care field.

The convention keynote address was delivered by General James H. Doolittle (Ret.) famed World War II aviator.

Patient care, always the first concern of the nursing home, was the major emphasis of the meeting. Other emphasis during the sessions centered on medicare, Medicaid (Title XIX), intermediate care, volunteer service, licensure of administrators and facilities, and numerous other topics.

The gala Installation Banquet saw James P. Baker of Lufkin installed as the 1969 President of the Texas Nursing Home Association.

The Texas Nursing Home Association, with 671 members representing almost 31,200 beds, is the professional association of licensed nursing homes in the state. Its members are both privately owned and non-profit facilities and all are affiliated with the American Nursing Home Association. The TNHA is dedicated to the improvement of health care for the aged.

Cotton Classing Report

The Munday Cotton Classing Office processed 12,223 samples during the week November 16-22, bringing the season's total to 67,878, according to A. D. Peebles, in charge. The USDA Office is about two and one-half days behind in classing.

Grades stayed about the same, showing only a slight increase in the amount of Light Spotted Cotton. Sixty percent of the cotton was white with 46 percent being Middling, Middling Light Spotted made up 32 percent of the cotton and 5 per-

cent was Strict Low Middling Light Spotted.

Staple lengths showed an increase in the percent of cotton stapling 1 1/16 of an inch with 43 percent and in 31/32 with 22 percent. Eleven percent was 1 inch, 4 percent was 1-1/32, and 12 percent was 1-1/16.

A slight drop in high miking cotton will make some farmers happy. Only 5 percent of the cotton miked 5.3 or up. Twenty percent miked 5.0-5.2 and 74 percent was in the premium range of 3.5-4.9. The Pressley strength reading average for the week dropped slightly to 81,000 pounds per square inch. Market activity was slowed with another drop in the basis last week. White grades brought from 75 to 125 points above CCC Loan and Light Spotted grades from 100 to 200 points above the Loan. Farmers are beginning to put some cotton into CCC Loan. This is mainly cotton stapling above 1-inch.

Cotton Farmers Will Not Be Paid To Leave Allotment Acres Idle

Cotton farmers will not be paid to leave allotment acres idle in 1969, according to word received by Charles Bragg, executive vice-president of Rolling Plains Cotton Growers, Inc. Bragg was advised by officials in Washington that regulations of the 1969 cotton program will provide for elimination of both mandatory and voluntary diversion next year. Farmers will, however, receive a higher price support on cotton planted within the farm's domestic allotment.

Other details of the program are about as expected, Bragg said. The allotment is unchanged at 16.2 million acres; the price support loan rate is again at 20.25 cents per pound basis middling one-inch. The national average yield for payment purposes remains at 545 pounds and skip-row planting regulations will be the same as those in effect in 1968.

In 1968, cotton farmers were required to divert from production 5 percent of each farm allotment and were paid 10.76 cents per pound on the farm's projected yield. In addition, growers were offered 6 cents per pound to leave another 30 percent of the allotment idle.

For 1969, both voluntary and mandatory diversion have been eliminated. Because of the so-called "El-Lender Amendment" to the 1965 Farm Act, which requires that price support and loan levels equal 65 percent of parity, farmers will receive a direct price support payment of 14.73 cents per pound, up to 2.5 cents from the 1968 level.

Any producer who has a projected yield of 500 pounds per acre for 1969 could receive a payment of \$73.65 per acre on the first 65 percent of his allotment. He will receive no payment on acreage in excess of 65 percent.

There are no changes announced in regard to the mail referendum scheduled for December 2 through December 6. If more than a third of the producers participating in the referendum turn down marketing quotas for the 1969 crop year, there will be no support program. But producers who stay within their allotments will be eligible to place their production in CCC loans, amounting to about 22 cents per pound middling one-inch basis.

Bragg sees little likelihood of a sign-up period since the previous sign-up periods were held in order to determine the extent of participation and the amount of advance payments due producers.

Changes in the cotton program

will place producers on their own. Their total income will be determined on the productive capacity of the farmers and not on the amount of their diversion payments.

Registration Provisions Under Gun Law

Detailed procedures for registering machine gun, sawed-off shotgun, sawed-off rifle, silencer, deactivated war trophy and other destructive devices were announced today by B. Frank White, Regional Commissioner of Internal Revenue for the Southwest Region.

The Gun Control Act of 1968 requires that weapons and devices of this type must be registered with the Internal Revenue Service by December 1.

Mr. White said that copies of Registration Form 4467 are available at Alcohol and Tobacco Tax and other IRS offices. The forms are prepared in three copies, two of which should be mailed to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington, D. C. 20024. The third copy may be kept by the owner of the firearm or destructive device.

Firearms or destructive devices should not be brought to an IRS office to be registered, Mr. White said.

Under the new law all firearms and destructive devices requiring registration must be identified by a serial number. If a firearm or device does not have a serial number, the owner should phone, visit, or write the nearest IRS Alcohol and Tobacco Tax Office and a number will be assigned.

After obtaining the number, the owner is responsible for affixing it to the firearm or device before completing the registration form. Additional information may be obtained by contacting the nearest Alcohol and Tobacco Tax or other IRS office.

VISITED YOKOSUKA JAPAN

Airman Apprentice Lewis L. Davis, USN, 20, son of Mr. and Mrs. Leonard M. Davis of Rt. 1, O'Brien, visited Yokosuka, Japan aboard the attack aircraft USSS Constellation.

Constellation arrived in Yokosuka from conducting combat operations with the Seventh Fleet off the coast of Vietnam.

In addition to sight-seeing in Yokosuka, many crewmen enjoyed tours to Tokyo, Yokohama, Kamakura, and Hakone.

The San Diego-based carrier recently spent a 28-day period in the Gulf of Tonkin where Constellation pilots continued to disrupt and impede supplies flowing into South Vietnam. While knocking out nine bridges and destroying 134 trucks and 280 supply barges, they also silenced 56 anti-aircraft gun emplacements and struck four surface-to-air missile sites.

Stitching And Stewing

By Ruth Ann Fansler
County H. D. Agent

With the increase of knit fashions, knowing the care they require is important. Check the fiber content of the knit garment or piece goods you purchase and pass the information along to your dry cleaner. Many knit garments are not labeled permanently. Therefore, your dry cleaner has no way of knowing the fiber content unless you give it to him.

I would like to stress this because acrylic knits must be handled differently from wool knits. Knits of textured acetate require special handling in dry-cleaning. Knits containing heat sensitive fibers should usually be air-dried and often cannot withstand the steam of finishing.

A dry cleaner who is furnished the care information will be able to give you better service.

Mrs. Carolyn Reynolds, a very familiar person around the courthouse has submitted this week's recipe.
