

THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS, FRIDAY, JULY 5, 1935

NUMBER 27

Inaugurates Centennial Program

Three three-a-week radio programs marking the 100th anniversary of the Texas Rangers was inaugurated today at 8:45 p. m. when James V. Allred dedicated the program in a speech delivered from executive offices in the Capitol Annex. The broadcasts will be over WFAA, Dallas; WOAI, San Antonio; KPRC, Houston, Texas; and KATZ, Austin.

The program, whose reorganization for the Texas Rangers have been national notice, sketched a story of the adventures and exploits of the Rangers during the century, as well as to outline the plans for the future of the Rangers. The program is a highly efficient modern method of public safety.

Major Allred's speech was the attraction in the Monday's program which introduced a radio program known as "Riding With the Rangers." Also introduced was a program known as "Curly" and "The Colonel," engaging and cowboy tenor, which will be featured during the series.

The accuracy will mark the series of each episode, according to the Kellogg Company of Battle Creek, Michigan, sponsors of the series.

The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast.

The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast. The series is a definition of the Texas broadcast.

A Letter

Austin, Texas
June 24, 1935

Acts of the 43rd Legislature, C. S., ch. 15, sec. 13, the auditor's office is charged with the duty of auditing relief expenditures quarterly reports to the Legislature and the auditor.

However, adequate provisions are not made for auditing expenditures of the various county auditor's offices, where most of the funds are actually disbursed.

Cooperation of the public is requested in this connection, and we are pleased to receive suggestions for improvement in the manner of auditing relief funds by county auditors. Also, any criticism or suggestions will be carefully considered when called to our attention.

Yours very truly,
George B. Simpson,
Auditor.

Mr. Brannen has returned home in Abilene. He has left his aunt Mrs. L. H. Mason.

Margaret Davis returned home in Rule. She has been visiting her aunt Mrs. L. H. Mason.

Mr. Mason has returned from a short visit with friend Mrs. L. H. Mason.

Mrs. Mason from Rule is visiting her aunt Mrs. L. H. Mason.

Mrs. Mason from Rule is visiting her aunt Mrs. L. H. Mason.

At Least One Texan

State Relief Director Adam R. Johnson, bombarded from all sides for the past year with requests for "bigger and better relief grants," suddenly found new faith in the human race this week.

In the morning mail came a money order for \$9.55 from one Mrs. Blanche Perkins of Fort Worth in payment of what she termed a loan from the Tarrant County relief office in April, 1934.

Johnson could scarce believe his eyes. Could this be a client paying back a direct relief grant? There must be some mistake. Probably the woman was a rural rehabilitation client sending a money order to the state office by mistake to apply on a capital goods or subsistence loan.

Johnson communicated with the Fort Worth administrator and asked for a complete history of the case. Records there showed Mrs. Perkins asked for and received direct aid amounting to \$9.55 in April, 1934. Thereafter, no more aid was granted to her and her case was closed in September, 1934.

"As the relief you received was not extended on the loan basis, you have done a most exceptional thing in repaying the government for the aid extended to you. I can not express my commendations for the splendid thing you have done, and I want you to know it has had a really inspiring effect upon me and others of my organization through whose hands your money order passed in order to get back into the account of the Federal Emergency Relief Administration. It is an assurance to us that the spirit, pride and ambition of our forefathers still live in the mind and heart of at least one Texan."

The state director had no other information indicating what fortune had enabled Mrs. Perkins to repay the government, but he said she deserved it all, for the character displayed in this one act.

Picture of Life Below River Shown

Traveling six thousand miles just to look at a tunnel seems an unusual form of entertainment. But Raoul Walsh, noted screen director, did just that as part of his preparation for "Under Pressure," Fox Film production coming to the Palace Theatre on Saturday night previous only.

With most of the dramatic action of this Edmund Lowe-Victor McLaglen feature laid in the grimy depths of a vehicle tunnel, Walsh decided to get his atmospheric data first hand.

Accordingly, in company with Borden Chase, co-author of the original story and the screen play, who has spent most of his adult years in tunnel-driving, Walsh went back to New York to see for himself what the real thing looked like.

There he inspected every detail of the Hudson Mid-town bore, which is being driven from Manhattan to the Jersey shore, learning by actual experience what a "sand hog's" life is like and watching the driving processes a hundred feet below the surface of the Hudson.

George B. Montgomery, general superintendent of Mason and Hanger, contractors for the big tunnel, personally saw to it that he missed nothing. As a consequence the picture will present a vividly realistic portrayal of the dangers and difficulties involved in excavating the various railroad and automobile bores beneath our rivers.

A full size replica of an actual tunnel, nearly 500 feet long, was built at the studio. This setting contained every bit of apparatus used in actual tunneling operations and its realism aroused the admiration of engineers who visited it.

Besides the Lowe-McLaglen team, the cast of "Under Pressure" includes Florence Rice, Marjorie Rambeau, Charles Bickford, Guinn ("Big Boy") Williams and others.

No Cattle With T. B. Found

For the past two weeks Government inspectors have been testing the cattle in Kent county for T. B. and we are pleased to report that to date they have found none in the county. All the milk stock are tested and ten per cent of the beef herds. This places Kent as one of four counties disease free in so far as cattle goes. The other three are Dickens, Cottle and King.

The Glorious Fourth

It would be a glorious Fourth of July if no accidents occurred to mar the joy of celebrating our one hundred and fifty-ninth anniversary of independence, declared Dr. John W. Brown, State Health Officer. It is most unfortunate that a day of joy and celebration leaves in its wake one hundred and fifty deaths.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails, and other penetrating wounds in which dirt may be carried into the skin, heighten the hazard of tetanus, or lockjaw as the disease is commonly called.

Tetanus is fatal in a large proportion of cases. Fortunately we have tetanus antitoxin as a means of preventing the disease. Antitoxin must be administered promptly following the accident. Treatment after the disease develops is rarely successful. Preventive measures include: the avoidance of such wounds and proper medical treatment.

A few don'ts for the 4th of July celebration would not be amiss.

1. Don't be careless in the handling of explosives.
2. Don't lock into firecrackers which have failed to explode.
3. Don't drive recklessly and at excess speeds.
4. Don't overdo in swimming especially in water of unknown depth.
5. Last and most important: Don't fail to get prompt medical attention if wound is suffered.

"We Miss You, Daddy"

Tuesday morning there was a fatal accident on the Minterburn Hill and when the medical examiner was going through the pockets of the dead man—a telegram was found. It was not very long, just the ordinary ten-word letter, but it was a message that would make any father happy. It read: WE MISS YOU DADDY. WHEN ARE YOU COMING HOME?

That was all. It was sent by one of the children of the man who was killed. He had received the message and was homeward bound. The clothes were minus money but in his pocket he carried that message.

Those who have little children, and those who were once little children, can think of the great blow to the child when the father did return home—DEAD.

"Daddy" will be missed by those children in the long years to come. No longer will they have his support, his earnings, and, more important, his companionship.

If ever there was a reason for people driving more carefully on the road, it is that they might get in an accident and deprive their own child or some other child of their "Daddy."

More might be written, but just let us repeat those words: "We miss you, daddy. When are you coming home?"

Journal, Rockville, Conn.

Claude Kelley Will Manage Williams-Miller Gin

Friends of Claude Kelley will be pleased to learn that he has been selected from a large number of applicants to manage the Williams-Miller Gin this coming season. Claude is well known over the entire trade territory is well liked by everyone and will be found hustling for business from the word go until the last bale is ginned. Present crop prospects are very promising for a better than average harvest.

Very Little Interest Shown

Our effort to locate the "Outstanding Citizen" of Jayton so far has failed to create much interest. We are writing this on Tuesday morning — at which time we have received 10 votes all told.

One party has received 3, another 2, and 5 others 1 each. It looks as if there were no outstanding citizen in the town, or else

every fellow thinks he is the outstanding gentleman but just hates to vote for himself, and his wife knowing him to well, refuses to vote for him.

We are going to extend the time for closing this poll another week. Come on folks and vote. Surely there is someone in the town that can qualify in this line. Give us at least a grand total of 300 votes, that's the one that wins will be encouraged to try and accomplish something.

Jayton, Texas 1935
Mr. _____
Is Jayton's Most Outstanding Citizen.
Signed _____

League Has Ball Game

Patticoats and perfume flew hither, thither, and yon, over the baseball diamond, Friday evening, as the fairest half of the Epworth League met their sturdier opponents, in a hotly contested game of soft ball, score of 32 to 16. Such a great majority over the girls was accomplished, not only by doing their dead-end job, but by working until their legs were tired out in complete exhaustion. The captain of the girls' team told this spectator, confidentially, that the girls are saving their real playing till next time, so it seems that they really have been fooled.

The league wishes to thank all who in any contributed toward this game, and especially do thank Mr. Lester Mathews, who took up the fine collection for the league.

Highlights of the game: Richard Jay's dry-land-belt-buster over the home-plate, when one of Pitcher Maxine Harrison's fast balls completely took him off his guard.

The comical head-on collision of Herbert Wade and Grover Little, which flattened both out.

Last but not least of the highlights was the perfect five-point landing, made by the third baseman, Cora Jane Robinson, when the ground flew up and hit her.

All in all, the game had many exciting and funny moments and was evidently enjoyed by the many spectators.

Bronte Bank Robbed

BRONTE, July 1—Two men robbed the First National Bank here this afternoon of approximately \$500.

The two robbers, armed with sawed off shotguns, entered the rear door of this bank, and called on the five persons in the bank to hold up their hands. They forced the five to lie on the floor while they ransacked the cash drawer, then herded them into the vault and fled.

A posse was being organized this afternoon to search the surrounding country.

Those in the bank at the time were President L. T. Youngblood; Vice President J. T. Harmon; Guy Williams, cashier; Miss Virginia Youngblood, bookkeeper, and Clarine Gilreath, 14.

Attend Home Coming Of Baptist At Cottonwood

Last Sunday was Home Coming Day at Cottonwood, Texas for the members of the Missionary Baptist Church of that place. Jayton was well represented as W. J. Hembree and family C. S. Kenady and Owen Coats went direct from here. Boyce Kenady and family and George Kenady, former citizens of Jayton also attended the Home Coming.

The church where the Home Coming was held was built in 1891 and the official sermon was delivered by Rev. Carter its first regular pastor. Folks were there from as far away as New York and Arizona and a wonderful time was had by all.

Mr. and Mrs. W. J. Hembree are enjoying a visit this week from Mr. Hembree's mother. Her home is in Abilene.

Nobody's Business

(By Julian Capels Jr.)

Austin.—The political picture in Texas has undergone swift and important changes during the past few weeks.

Atty. Gen. Bill McCraw and Chairman E. O. Thompson of the railroad commission, have each let it be known that they are candidates for re-election to their respective offices next summer, "regardless of who else runs or what." Since each had been considered a certain candidate for governor, in the event that Gov. Allred opposed Sen. Sheppard—and since Gov. Allred has maintained his unbroken silence on his plans—the action of McCraw and Thompson surprised some folks. But not those who carefully observed political events in Austin.

The appointment of a brother of the governor to an important post with the Federal Securities Commission regional office in Fort Worth, is the tip-off. Folks who know how federal appointments are distributed know that Allred was not appointed without the endorsement of both Texas senators. They also know that when Sen. Morris Sheppard okayed Allred's appointment, the astute little Texas senator was very certain that Gov. Allred wasn't going to make the race against the senator next year. So now it seems certain Gov. Allred will be a candidate to succeed himself next summer. He probably will have no serious opposition—at least there is none in sight. Many other potential races which hinged on what other candidates would do are off now. McCraw, Thompson, Lieu. Gov. Walter Woodruff—all first timers—will undoubtedly seek to carry out the Democratic precedent of a second term to a faithful public servant.

With Allred out of the running, Rep. Martin Dies, ambitious, stepped into the limelight as the leading potential opponent of Sen. Sheppard. Dies is reported here to have hired press agents, set up a preliminary campaign organization, and he is actively at work, despite the fact that he has made no formal declaration. Being member of the house immigration committee, Dies has seized upon the alien issue upon which to pitch his campaign. He has achieved national publicity twice—once with an article in the Saturday Evening Post, and most reactionary of Republican publications known, whose editors are slightly cracked on the alien issue. The Post hates Democrats, but will support anybody who hates aliens, even a Democrat, like Dies. Little known outside his own district, Dies next stroke was a radio speech on a network program sponsored by a Republican newspaper in Washington. His press agents sowed down Texas newspaper with flattering notices and an unflattering photo in advance of the speech.

Dies says he would relieve the depression by deporting the aliens, leaving the jobs for American citizens. His speeches have frightened some ignorant aliens, to the extent that the U. S. immigration office in principal cities of Texas have felt called upon to issue reassuring statements, when floods of inquires from alarmed foreign-born residents, fearing deportation, came to their offices. One of Dies' predecessors as representative from the 2nd district, Congressman Box, stayed rather hot on the alien question for years, but was never able to make use of the issue successfully as a political lever. Rep. Joe Eagle, of the Houston district, an avowed candidate against Sheppard, has rather faded out of the picture in the face of Dies' recent activity. Unless more formidable opposition develops, Sheppard's friends here feel that next year's campaign will be a cinch for the senator.

Mr. Alfred M. Best, self-appointed New York "rater of insurance companies, became known to Texans several months ago when he sent his men to Austin to tell the Texas legislature it ought not to pass a law to regulate his activities in this state. Details of that activity were chronicled in this column at the time. Now Mr. Best appears in a new role. His divorced wife, Mrs. Myrtle Bennett Best, was found dead in the home of her first husband, John Candelmo, gangster and ex-convict, a few days after Best divorced her.

District Meeting of The Epworth League

The Stamford District Young People of the Northwest Texas Conference, Methodist Episcopal Church, South convened in Jayton, June 27-28 for a business meeting and inspirational program.

The delegates were entertained with a picnic supper Thursday night after which they returned to the church for a service presented by Woodrow Adcock and for a recreational program. Friday morning's program consisted of a most impressive morning watch conducted by Rev. J. E. Shewbert of Avoca, a song service, and a business meeting led by Frank Cookrell of Avoca. The afternoon session was brought to successful close with a consecration service conducted by Rev. Hicks of Seymour.

Delegates were registered from Elbert, Seymour, Aspermont, Peacock, Spur, Haskell, Rule, Avoca, and Jayton.

The local Leaguers wish to take this opportunity to express our gratitude to those who so willingly opened their homes to the visitors and to all others who assisted in any way.

The Suffering Motorist

The motorist is a helpless victim of taxation because there is no practical substitute for gasoline.

For almost any other commodity the consumer can use a substitute. But when it comes to gasoline, it is pay the tax or stop driving.

The states started taxing gasoline "moderately" but, as with all special taxes, the gas tax soon became exorbitant.

Then the Federal Government decided to take its pound of flesh from the motorist.

Motorists have it in their power to demand a reduction of the tax, including the federal tax.

They also demand that gasoline taxes be no other than road purposes.

When taxes run from 25 to 30 cent on the retail price of any gasoline tax does, it is high time to correct the abuse.

Signs New Contract

L. H. Mason informs us he has signed a new contract with the Chevrolet Motor Co. for the Kent County agency and expects to have his first shipment of Chevrolet cars in around the 15 of this month. This will be good news to Chevrolet lovers who expect to purchase new cars this fall. It is also good news for the business life of the town and county.

Uncle Sam McCombs was here Tuesday morning. When asked about his side kick Guy Brown, he said, "The indians have got him. If he don't make his escape soon we are going to organize a rescue party and go out and bring him in, dead or alive. Guy was a good pal, I miss him more than I like to admit, I don't think they will hurt him, he is such an innocent looking person and I believe they will soon realize he is harmless and send him home to his family and near heart-broken pal."

Uncle Sam was worried—as he talked tears filled his eyes and his voice trembled with hidden emotion.

Best told authorities in New York he financed Candelmo's defense on a murder charge, and later married Candelmo's wife. When Candelmo finished a prison term on another charge, Mrs. Best went back to live with him. Best divorced her. Neither Best nor Candelmo was able to throw any light when questioned on the woman's death, which authorities thought was suicide. The incident, read eagerly in Austin by those who remember the lobbying activities of Best's organization last session, hasn't weakened the sentiment here for a law to curb Best's activity in Texas. It probably will come up again at the future session.

Mrs. J. L. Gordon, daughter and son of Portland, Oregon, came in last Saturday for a three weeks visit with Mrs. Gordon's mother, Mrs. W. K. Moreland and her sister Mrs. W. P. Dowdle, and brother Ode Moreland.

A TALE OF HARD TIMES

Two gay young frogs from inland bogs,
Had spent the night in drinking;
As morning broke and they awoke,
While yet their eyes were blinking,
A farmer's pail came to the swale
And caught the quick as winking.
Ere they could gather scattered senses
Or breathe a prayer for past offenses
The granger grave—that guileless man—
Had dumped them in the milkman's can.
The can filled up the cover down
They soon had started off to town.
The luckless frogs began to quake
And sober up on cold milk shake.
They quickly find their breath will stop
Unless they swim upon the top.
They swim for life and kick and swim
Until their weary eyes grow dim;
Their muscles ache, their breath grows short,
And, gasping, speaks one weary sport:
Say, dear old boy, it's pretty tough
To die so young, but I've enough
Of kicks for life. No more I'll try it;
I was not raised on a milk diet."
"Tut, tut, my lad," the other chides;
"A frog's not dead until he dies;
Let's keep on kicking; that's my plan.
We may yet see outside this can."
"No use, no use," faint heart replied,
Turned up his toes and gently died.
The braver frog undantied still
Kept kicking at a right good will,
"I, with joy too great to utter,
—and he'd churned a lump of butter,
—bing on that chunk of
—with great
—the hard—no trade in
discouraged and go down;
—uggle still—no murmur
—cter—
—ow more kicks may bring the
butter.
—Anonymous

That eternal triangle—man, wife, woman.
The man who really does things does them in his own way.
This is the age of the time-waster.
The man who is governed by his passions is worse than a slave.
The hands of modern commercialism are stained with blood.
The joy of life is in the very living of it.
The very best recipe we know is, work like the devil and don't waste money.
The millenium will put the muck-raker out of business.
If multi-millionaires must be Capt. Kidds and Robin Hoods — pirates on the high seas of finance—the whole thing is wrong.
Make the announcement clear and graded—that you do not propose to be an ignoramus nor a failure.
Special privileges to none, equal privileges to all—that's sound doctrine. And yet, because some men have the ability to use all their privileges, they pass to another. There can be no waste in this realm. To take it out of one pocket is to slip it into another. Are you, because of one's sheer incapacity, going to condemn another because he happens to have more than his fellow? You might make an equal division of all the world's gold and in a while there would still be millions. It is not a question of loot and piracy every time. More often it is the capacity of the one and the incapacity of the other to handle Nature's equally distributed riches.

Broadcasts

A dumb reported is one who thinks a veterinary hospital is where the old soldiers go.
Things you'll never hear about, union reporter quitting his job just as murder verdict comes in, because

Times may be getting better, but no advertiser has as yet been thrown bodily out of a newspaper office for demanding space.

War and capital punishment, says a writer, are the two greatest stupidities of man—How about betting on sports' editors predictions?

It begins to look as if it would be a good idea for editorial writers to start now thinking of something to be thankful for next Thanksgiving day.

War talk in Europe is reviving hope of a columnist's hearts. Many of them have already rewritten these one about what the sergeant said to the general.

A proofreader is a man who seldom corrects errors in spelling or grammar except when the piece is marked: "Folo copy."

Statesman says what this country suffers from is a "lunatic fringe." Maybe Huey Long better start his talks: "My fringe and fellow-countrymen. . ."

The only reason the print is put on some newspapers is to keep the paper from looking so bare.

No. 15,768: An editor is a man who thinks the downfall of Ethiopian cabinet is more important than the price of pork chops.

Mental detachment is what enables an editorial writer to praise the New Deal while being turned down for an HOLC loan.

Justice: Outdoor advertising executive getting so interested in a billboard he runs his car into a ditch.

Not Begging

Please don't get the idea in your minds that we folks who desire and are going to see the road to the cemetery is made suitable for travel are out on a begging expedition. Far from it. Our idea was that if we did not give the folks a chance to assist in this work that many would feel hurt. Perhaps we were wrong—at this time it seems that we were as only two parties have come forward to pay a part of the

mother—we appreciate this contribution—and the spirit in which it was made—and if no other donations are made the work will be done any how, thanks to H. D. Black and others who are working with him.

Good Friends of Ours

Last week a good friend of ours living in the south central west part of the county looked us over with a critical eye and then handed us two dollars on subscription—adding, you look hungry.

This week another old stand by from the southeast part of the county handed us a dollar and said, A little soup might do you good, and we are feeling better already. We do not know where they got the money—it is none of our business. It was not hot, we know that, but even if it had been, it looked darn good to us, and we wish we had about five hundred more friends like the above—for they are the kind that make life possible for a hungry editor.

If all men had the energy and were endowed with the love of work as is our friend J. H. Deavers, there would be very few people in this good old world on the relief rolls. Not quite a hundred years young, this pioneer West Texan daily sets an example to the young and strong of our community that they may do well to profit by. It isn't the money he makes that looks big to him, it is the knowledge that he is doing good and keeping employed and making an honest living inspite of hard luck, depressions and this age of honorable idleness.

Know Texas and Texas Heroes

Mexico offered in 1844 to recognize the Independence of Texas provided it would not seek annexation to the United States of America. A few months following this offer of recognition, the Republic of Texas was admitted as a state in to the United States.

Moses Austin was a Spanish subject before he ever had his "dream" of colonizing Texas. He swore allegiance to the flag of Spain when he removed from Virginia to Missouri to go into the lead mine business. What later became the Louisiana purchase was at that time under Spanish control due to a treaty existent between Spain and France. Spain later ceded the territory back to France and the latter nation sold it to the

Despite the fact that there are many coal deposits in Texas and that many of them have been mined profitably, natural gas in the state has practically ended the coal mine business. Texas is noted throughout the land as a state with clean cities, due to the use of natural gas.

When Sam Houston first took charge of the Texas forces as their Commander-in-Chief he sent orders to Col. Wm. B. Travis to dynamite the Alamo, which he termed a "death trap" and Col. Travis to retreat. Both these orders were disobeyed.

The South Llano River which forms in Edwards County is water flowing from 700 springs to be found on the side of a hill.

"Your name and fame will be enrolled amongst the greatest chiefs," Andrew Jackson, wrote Major General Andrew Jackson, former lieutenant—Sam Houston, following his victory at San Jacinto.

The census of Negroes in 1853 was 1272 as follows: bachelors, 319; spinsters, 291; married couples, 122; widowers, 9; widows, 34; and minors, 375.

Thomas J. Rusk came to Texas when he was 29 years old in search of a promoter who had swindled him of his fortune in a Georgia gold mine deal. He caught the swindler but the latter had lost Rusk's money at the gambling table.

Col. James W. Fannin, a Georgian, was a graduate of the United States Military Academy and resigned his Commission in the United States Army to lead a life of adventure.

The Texas Declaration of Independence was signed by men from ten American States, and six foreign countries, as follows: Virginia, 11; Tennessee, 9; North Carolina, 9; Kentucky, 5; South Carolina, 4; Georgia, 4; Pennsylvania, 2; New York, 2; Massachusetts, 1; New Jersey, 1; Mexico, 3; Ireland, 1; Scotland, 1; England, 1; Canada, 1, and three unknown.

Texas sold a portion of five states—Oklahoma, Kansas, Wyoming, Colorado, and New Mexico, covering 100,000 square miles of land to the United States government for \$10,000,000.

Nearly all of the mineral wealth new enjoyed by the United States of America came into the country directly due to the Texas Revolution, as most of it lies within the states carved from the Mexican acquisition following America's War with Mexico over the annexation of Texas.

EPWORTH LEAGUE PROGRAM

Subject: Life More Abundant.
Song: Give of Your Best to the Master. Living For Jesus.
Comments on scripture—Jane Robinson.
More Time on Your Heads—Joe Gilbert.
Your Leisure Reveals What You Are—Pearl Fuller.
Do I Live Abundantly in My Leisure Time—Aletha Sprouls.
What Can A Person Do—R. E. Willis.

We are getting the Chronicle out early this week on account of the 4th coming on Thursday. If its not just what it should be — forget it.

Amelia Louise Moreland returned home with her Aunt Mrs. J. H. Eberle where she will spend her vacation at Albuquerque N. M. She will also visit her grand parents Mr. and Mrs. R. W. E. Vencil of Plainview, Texas.

Mrs Lizzie Green and son Dave of the coast country visited her sister Mrs. Minnie Moreland a few days of last week. They left for points near Lubbock to visit her children.

Mrs J. H. Eberle and son Bob of Albuquerque, New Mexico, after spending two weeks in Stonewall turned home last week.

Charley Taylor and wife left Friday morning for a farm west of Lubbock where he will drive a tractor during the wheat harvest.

Miss VereLee Jones our official Home Demonstration Agent was in the Polar community Tuesday. The part of the countrf was h't hf a 9 or 4 inch rain last Saturday night.

Mrs Nora Lee and children and Mr. and Mrs. Aaron Ferguson left early Sunday morning for Llano, Mason, and Burnet counties to visit relatives for a week. Mrs. Lee's father Mr. Lee Wilson is not expected to live but a short time.

The soft ballers are going to play Spur a big double header Thursday

NOTICE FARMERS

Kent County will start measuring all cotton farms with in the next ten days or two weeks. All lands planted to cotton together with the rented acres will be measured this year. It is very important that the rented acres be staked with some kind of a marker so it will make the measuring faster for the supervisor. All Contract farms will be notified when the supervisor will start work in your community and each producer will have to help the supervisor measure and the producer will also have to sign the compliance sheet. The field supervisor will be able to make only one trip to each farm and it is very important that the you have your rented acres staked off and be at your farm the day that the supervisor notifies you that he will be at your farm, the faster the County gets this work completed the faster we will receive our second rental check.

All acres planted to cotton that are not under contract, will also be measured this year, under the Bank-head Law.

COMING SOON THE LEAGLIAN BROTHER CIRCUS. TO JAYTON.

Jack Helley tells us he has lost his girl, his chum and now has nothing to do but work and sleep.

Mrs. Tackett and Mrs. Check Jay of Girard were shopping in Jayton Tuesday.

Mrs. Jack Hunter and daughter of Wichita Falls visited Francis Hunter last week.

Mr. Tackett of Girard was in Jayton, Tuesday morning attending to business and seeing friends.

Cecil Mason and wife of Haskell were Jayton visitors Sunday.

Chas. Fincher of Girard was here Tuesday afternoon. He told us he had been having a big war with the weeds on his place, but had then about killed out.

The State Highway Department is preparing to hard surface that portion of Highway 18 in Kent which which had the grading and drainage structure built last fall. The surveyors arrived in Jayton, Tuesday.

Bill Barnett and wife are here this week from Beaverhead, N. M. visiting relatives and friends.

W. O. Casey and family of Abilene were here over this week end visiting Mrs. Casey's parents J. C. Miller and wife.

Cobb Wade is now located at Carlbad, N. M. where he is for the time being holding down a job as linotype operator. He went out there last Saturday. John Fowler and E. C. Wade made the trip out with him and visited the famous cavern getting back home early Monday morning.

Jayton's soft ballers motored up to Spur, Monday afternoon and took another good beating. But it did not hurt as they are used to it.

Rosendahl Defends Use of Dirigibles; Drive Launched for Construction

America's Foremost Air-ship Expert Cites Record of Graf Zeppelin in Commercial Service in Defense of Lighter-Than-Air Craft

"SINCE the War, submarine accidents have caused two and a half times as great a loss of life as air-ships; marine disasters forty times, railroads 300 times, automobiles, 1,000 times; yet we hear no talk of discontinuing construction of submarines, steamships, railroads, or automobiles," cried Lt. Comdr. Charles E. Rosendahl, U.S.N., before the Society of Automotive Engineers, meeting in New York. Slender, youthful, assured, a striking figure in naval uniform, the man who is considered one of America's foremost experts on the construction and navigation of air-ships made a brilliant defense of dirigibles both for peace and war, reports The Literary Digest. His

International The Graf Zeppelin soars over New York City on her first crossing of the North Atlantic in 1935.

address is expected to launch a new campaign in this country for continued construction of large rigid air-ships for naval defense and commercial development. It was the first public offering of "lighter-than-air" advocates since the loss of the *Macon* at sea off the California Coast, on February 14, 1934, roused a storm of opposition to further air-ship construction. No Real Opposition In the audience were engineers and scientists of international reputation, several of whom, it was reported, had come for the purpose of "blowing up" the air-ship idea. If this was the case, they must have become converted before the hour of questioning arrived, for no very real opposition appeared. 1. Large load-capacity. 2. Long cruising-range. 3. Ability to go slowly, or even stop in midair, without falling. As commercial carriers of passengers, dirigibles since the War have hung up a record untouched by any other type of transport. More than half a million paying passengers have been carried, without the loss or injury of a single passenger. The Graf Zeppelin, for example, since September, 1928, and up to December, 1934, had made 423 individual trips, flying a distance of 630,000 miles. She had carried 10,500 passengers, at a speed averaging sixty miles an hour; mail to the extent of 57,500 pounds; freight, 96,000 pounds. Her total time in the air was 10,005 hours.

THE LADIES WHO WANT TO LOOK NICE

We guarantee our beauty work to be good as any in West Texas and the prices just as reasonable.

Now is the time to get that summer permanent.

LET US MAKE YOUR VACATION TRIP SAFER

If you start on your holiday trip, completely inspect your car. There is a charge for this service and it will result in a safer and more enjoyable trip.

Firestone has established more than 100 service stations throughout the country, and thousands of Firestone service stations are also equipped with complete tools and complete service parts, to test and service your tires, batteries, spark plugs, in addition to lubrication and crank case service.

THE DANGER OF BLOWOUTS

Blowouts remove the danger of blowouts during their main cause—internal heat. This is accomplished by Firestone's special tread.

THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY:

1. The tread give me the greatest traction and protection against skidding.

Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes.

For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death.

2. "Are they blowout-proof?" Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah; 3,000 miles, averaging 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind.

3. "Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. In fact, unequalled mileage records of thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.

Equip your car with a set of Firestone Gum-Dipped Non-Skid Tires, the safest tires ever built and avoid the dangers of skidding and blowouts.

Stock of Central Banks Usually Privately Owned

Of all the central banks at present existing there are only four whose stock is owned by the government. The newest central bank is that of Canada, which opened its doors only a few months ago after a most exhaustive study had been made of the central banks of all nations with the result that the stock of the Bank of Canada is privately owned.

Agriculture and Industry

Returns for the first quarter of 1935 for industrial corporations publishing quarterly reports show net profits 21 per cent more than for the same in 1934. The total farm value of all important crops, exclusive of livestock, rose in 1934 to \$4,782,423,000, as compared with \$4,114,265,000 in the previous year and \$2,582,195,000 in 1932.

This World's Sorrows Makes Heaven a Necessity.

FEED OF ALL KIND

If it is feed of any kind for cows, horses, mules, or hogs, we have it. If you have produce to sell, we will buy it. When you are ready to sell your wheat or oats figure with us.

H. D. Club News

SCHOLARSHIPS FOR FARMER'S SHORT COURSE GIVEN AT DRESS CONTEST

Thirty five dresses and slips made from foundation patterns were styled by home demonstration club women at the dress contest June 29. The class one and class two wardrobe demonstrators and the cooperators placing first in the contest were given scholarships to the Annual Farmers Short Course which will be held at A. M. College the 29 of July thru the 3rd of August. Two of the scholarships were given by the county home demonstration council and one by Mr. Thos. P. Johnson, of the Bryant Link Stores.

Class one wardrobe demonstrators placed as follows: Mrs. Edith Hamilton of Center Point first, Mrs. H. D. May, of Jayton second; Mrs. J. E. Mayfield of Girard, third; class two, Mrs. Sid Munsey of Clipper, first; Mrs. Jewel Puryear of Harmony placed first among cooperators, Mrs. Van North of Jayton, second; Mrs. Johnson of Girard, third; and Mrs. Claude Dardin of Jayton, fourth.

Center Point won the distinction of being the only club in the county accomplishing their goal 100 per cent. This means, that ever club member exhibited a dress and slip at the dress contest. Girard scored highest in expansion work.

BEDROOM IMPROVEMENT OF COOPERATORS OF 4-H CLUBS

Twenty five bed spreads and thirty two mattress pads were provided, sixty bedrooms have had the accessories rearranged as attractively as possible by seventy one girls who are enrolled as bedroom improvement cooperators of the four 4-H clubs in the county.

As an outgrowth of the cooperators goals; to provide a mattress pad and a bed spread, to arrange bedroom accessories attractively; and the work of the bedroom demonstrators in their respective clubs the cooperators have added furnishings for convenience and comfort in their bedrooms. According to reports these are as follows: four girls refinished the wood-work by painting and varnishing; fifteen floors were stained, eight closets built, seven dressing ta-

bles made, five study tables were provided, ten book shelves built, three bedside tables added and seven chairs rebuilt for use. Seven pairs of sheets each three yards in length, and eleven pairs of pillow cases have been added in the way of bedroom linens. Four braided rugs, two crocheted and one hooked rug adorn their rooms.

The cost reported for providing the twenty five bedspreads was \$26.40, and for the other improvements in furnishings \$18.55, making a total of \$44.95.

Those girls not having finished their spreads and mattress pads are working on them thru the summer months.

WILT IN TOMATOES

"We immediately destroy all tomato vines, by pulling them up and burning them, that show symptoms of wilt as a means of attempting to check this disease of wilt spreading throughout the tomato patch, says Mrs. I. D. McCombs, Cooperator of the Clairmont H. D. Club.

"We were foolish and took a chance by buying tomato plants of unknown variety. Hoping they would be wilt resistant varieties such as the June Pink, Earliana, or Marglobe, as the person selling them thought they would. Next year we are growing our own tomato plants, she said.

Wilt is caused by a fungus than enters the roots from infected soil. It is also carried in the seed. The only prevention is to plant wilt resistant varieties of tomato seed.

SALAD DEMONSTRATION GIVEN TO POLAR 4-H CLUB

Pickled beets make a very good salad when sliced and placed on a lettuce leaf and graded carrots sprinkled lightly over the top. About a tea spoon of cooked salad dressing makes this salad one that will improve any meal.

Other use of beets and carrots was demonstrated by the C. H. D. A., to the Polar 4-H Club which met the 25 of June.

GIRARD H. D. CLUB

"When making lace dresses sew seems with paper to keep from pulling in," said Miss Jones, Kent county Club Demonstrator to the Girard Club at the home of Mrs. Earl Mayfield, June 25.

We decided to give a pie supper Saturday night July 13, to raise funds for our club work. Every one is invited to come. The ladies bring the pies and the men the pocket books.

On Texas Farms

Government reports received here indicate that Texas handled wheat contracts covering 3,674,186 acres which, by October 1, 1934, had brought first rental payments of \$3,726,395.44 to producers.

The average local cost of handling

this work in Texas was 1.2 cents per bushel. For the United States as a whole the cost was 1.42 cents.

Parker county with a cost of 4.2 cents per bushel, Ellis with 4.3 cents, Fannin with 4.6 cents, and Hockly with 5 cents, are the highest for the state.

Sherman is the lowest with a .7 cents cost per bushel. Next are Bell, Briscoe, Jack, Knox, and Ochiltree counties with the costs of .8 cents per bushel.

Close to them are Grayson, Hemp-

hill, Lipscomb, Roberts and Runnels counties with a .9 cents.

Texas has handled AAA programs in which the aggregate payments amounted to about one-stventh of the

total for the United States. Texas expenses for this work amounted to one-tenth of the total of the United States.

ANNOUNCING AMAZING TYPEWRITER BARGAIN

FREE HOME TYPING COURSE

ONLY \$49.50 CASH

BRAND NEW MODEL No. 5 REMINGTON PORTABLE

FREE COURSE IN TYPING & CARRYING CASE

The opportunity you've waited for! A brand new Model 5 Remington Portable for only \$49.50 cash. An easy, practical Home Typing Course FREE!
