THOUGHT OF THE WEEK

It is reported that one of the fashions, Thoudicus newly married ladies of this Sewalt, loan kneads bread with rubber...
 Calamity Howlers, Landon and Knox—have you heard any of their political...
 They have accused Roosevelt and his administration of everything from defying the constitution of the United States to stealing the bells from the necks of buzzards on wall street...

art-mobile industries, Steel mills, textile factories, utilities and hundreds of other industries are all doing a boom time business today where just 3 1-2 years ago they were sitting with closed eyes waiting in the death like stillness for the grim reaper of revolution to utterly destroy them...

Take the Home Paper

We once knew a man who was too stingy to take the newspaper in his home town and always sent out to borrow his neighbor's paper. One evening he sent his son over to borrow the paper, and while his son was on his way he ran into a large swarm of bees and in a few minutes his face looked like a summer squash...

175,000 people greeted president Roosevelt in Boston Mass., where a meager 25,000 greeted candidate Landon—and yet the republicans claim all the New England States. Well, we will see what we will see on the 3rd of November—Get out and vote you democrats, get out and vote.

VOTE!!

The greatest possession of a free people is the ballot—the right to vote. It is a defender of our liberties and a weapon against injustice. Yet that invaluable heritage is not prized by millions of otherwise good citizens. Proof of this statement can be found in undeniable statistics. In most elections, less than half of the persons who are entitled to vote do so. It is exceptional when an election brings to the voting booths more than fifty per cent of enfranchised citizens. One result is that public officials are elected by minorities, the vote of the majority is silent. Another, and worse result, is a flagging of interest by the people in a thing which vitally affects us all, our government.

M.K.T. R. R. LINES DISTRIBUTING INTEREST-INC BOOKLET OF FACTS

An unusual contribution to Texas literature issued in connection with its Centennial, is a brief but stirring history of the state authored for the Missouri-Kansas-Texas lines by J. Frank Davis, noted San Antonio writer and historian. Compressed into an amazingly few words, considering vastness of the subject, the history is extremely comprehensive and omits no single feature of historical importance. Attractively printed, the booklet contains also brief life histories of seven of the state's immortals, for whom lurge and dining cars operating on the Katy Line have been named.

promises to be truly as great as its unique past."

Mr. and Mrs. Oscar Hargus and Elvin Lee and Lorene Murdoch spent last Sunday in Stamford.

Home Agents Notes

(By Miss Ruth Grimes, H. D. A.)

Kitchen Improvement Demonstration

To a housewife, a kitchen which is pleasant to work in and easily kept clean, seems to be the most essential room to be considered in the house, but I started to improve my home in the living room and bedrooms, thinking I would be able before now to complete the rest of the home. Lack of money prevented my doing anything until this spring.

I did not get any pictures of the room before I started the work so I will try to make a word picture of the improvement. The room is 10 by 15 feet and is on the north east corner of the house, with a narrow porch along the east side. It has an east window and a north window, and a door on the south east and west. The room was ceiled overhead and walls woodwork, and ceiling were painted a dark blue grey which was badly smoked. A darker or more dismal place to prepare three meals a day cannot be imagined.

The first thing we did was to change the windows to half windows to give more wall space. I built cabinets across the north end and up each side of the window with a sink beneath the window. The sink was made of a gas tank and given one coat of paint and four coats of enamel. I added a work stool painted green.

The old worn out linoleum was taken up and the whole room given a good scrubbing. All woodwork except the floor was given a coat of flat white paint, then ceiling, walls and doors were finished with quick drying light buff paint. The cabinets and woodwork were enameled in apple green and ivory. I got a linoleum with ivory background figured in green, brown and yellow and red. I needed more ventilation, and as I

needed a window sash just like those for a bedroom window that had the glass broken out, I bought a two sash window for the north window. It can be raised to let in more air and the wind will not blow on the stove which is in the southwest corner of the room. I took an old ecru colored marquisette dress and made my curtains with red tie backs. I did not need much curtain as I did not want to shut out the light.

My husband and daughter helped with the work and it did not take long to complete the kitchen improvement. We all enjoy the easily cleaned and light kitchen.

Mrs. Matt Howell,
Catfish H. D. Club.

TILING PAYS

"Garden tiling pays," according to Mrs. E. Peterson of Polar. At the present time her garden has one row of Belle and Pimento pepper plants that are loaded with peppers. In addition to the pepper she has plenty of butterbeans that have been producing all summer. A small tiled garden will produce more than a much larger plot of ground that is not irrigated.

Spanish Pickle

It is time to make tomato relish and chow chow since green tomatoes are rather plentiful. Mrs. W. J. Lane favors the Spanish Pickle that calls for more green tomatoes than ripe. The recipe is as follows:
8 cups chopped green tomatoes
3 cups chopped onion
1 cup chopped green pepper
1 cup chopped celery
2 tbsp. celery seed
4 cups ripe tomatoes
1 tbsp. each of cloves, mace, allspice
1 quart vinegar
1 1-3 cup brown sugar
Place green tomatoes, onion pepper in salt 6 to 8 hours, add celery, ripe tomatoes, and seasoning

Why shield them from every danger except EYESTRAIN?

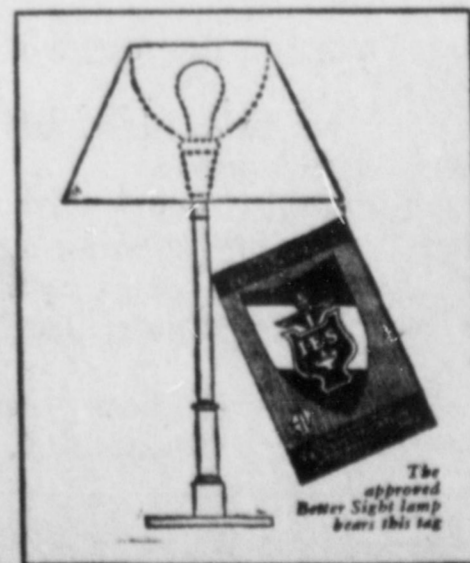

Isn't their sight worth enough to make you find out what your lighting may be doing to it?

You bundle up your children against cold and rain. You see that they are tucked snugly in bed at night. You are constantly on guard lest they be harmed in some way. You try to shield them from every danger . . . but are you sure about eyestrain?

Sight is their most precious possession. Yet do you let them read and play on the floor where the light is never adequate for even simple visual work? Can you say for sure whether the lighting in your home is letting your children's eyes develop normally? Do you know that your child has enough light for his studying tasks?

Don't guess—be sure. There has been too much guessing about proper lighting. And mainly because of improper lighting, one child in every five has defective vision by the time he finishes grade school. The ratio increases to two out of five by the time they reach college age.

The I.E.S. Indirect Floor and Student Lamp is a simple, economical way to be sure that your child is studying under proper lighting conditions. What is more, the entire family can enjoy and will appreciate this modern, better light. See these lamps on display . . . today!

Wide opening at top throws light to ceiling, eliminates shadows.

Glass bowl softens light, prevents glare.

Wide shade spreads light over wide area.

The approved Better Sight lamp bears this tag

THOUGHT OF THE WEEK

Those
 Brown, It is reported that one of the fas-
 tion, The GMA kneads bread with rubber
 Sewalt, gloves on. This incident may be
 est and somewhat peculiar, but there are
 Mary R. others. The publisher of this paper
 Mrs. needs bread with his shoes on, he
 hostess needs bread with his pants on or
 gave a off as the case may be, and unless
 prison some of the delinquent subscribers
 of this "Old Rag of Freedom" pay
 up before long we will need bread
 without a darn thing on, and this
 part of Texas is no place for a nud-
 ist colony in the winter time. —Not
 Original.

and Calamity Howlers, Landon and
 The Knox—have you heard any of their
 at political jamming, or have you
 doll read any if it published in the press
 the of the land? Isn't it hot stuff?
 pre! Don't they give one the shivers? To
 the believe what they put out would be
 boy to believe the moon is a green
 cheese and the stars that ornament
 the heavens at night are tallow
 candles burning in the regions of the
 St demented.

They have accused Roosevelt and
 his administration of everything
 from defying the constitution of the
 United States to stealing the bells
 from the necks of buzzards on wall
 street. To believe them is to believe
 that the administration under Roose-
 velt would Russianize us, Hitlerize us,
 Klu Klux us, sell us out to foreign
 nations, fatten us then eat us hair
 hide and hoof. But in spite of these
 things we find the farmers who under
 Hoover had to sell his cotton for
 5 cents and was told when he com-
 plained to eat Jack rabbits, getting
 from 10 to 13 cents for his cotton
 under Roosevelt and eating pork
 chops and T-bone steak with great
 relish. The wheat farmer who was
 forced to take 20 to 28 cents per
 bushel for his wheat under Hoover
 getting from \$1.00 to \$1.25 since
 Roosevelt took charge, and living on
 the fat of the land. Laborers who
 under Hoover formed soup lines and
 stood for hours wait for a bowl
 of cabbage and a cracker are today
 earning good wages, driving good
 cars and looking the world in the
 face with new hopes and unlimited
 courage.

The bankers who under Hoover
 were driven to suicide by the crash-
 ing around them of the banking in-
 stitutions of the country, can and do
 look the world in the face today
 and proudly say—"Under Roosevelt
 not one National Bank has crashed
 in over thirteen months in this en-
 tire United States, a record for a
 period of more than fifty years.
 Insurance companies, railroads,
 building and loan associations, the

art-mobile industries. Steel mills,
 textile factories, utilities and hun-
 dreds of other industries are all do-
 ing a boom time business today
 where just 3 1-2 years ago they were
 sitting with closed eyes waiting in
 the death like stillness for the grim
 reaper of revolution to utterly des-
 troy them. The truth of the matter
 is, Roosevelt and his administration
 SAVED this nation. Landon knows
 it, Knox knows it, the Liberty Lea-
 guers know it, the so called Jeffer-
 sonian Democrats (what a misnom-
 er) know it and the man who does
 not know it is more to be pitied
 than a one legged farm boy at a
 society hop.

Take the Home Paper

We once knew a man who was too
 stingy to take the newspaper in his
 home town and always sent out to
 borrow his neighbor's paper.
 One evening he sent his son over
 to borrow the paper, and while his
 son was on his way he ran into a
 large swarm of bees and in a few
 minutes his face looked like a sum-
 mer squash.

Hearing the agonizing cries of his
 son, the farmer ran to his assistance,
 and in doing so ran into a barbed
 wire fence, cutting a handful of
 flesh from his anatomy and ruining
 a \$4.69 pair of pants.

The old cow took advantage of
 the hole in the fence, got into the
 cornfield and killed herself eating
 green corn. Hearing to racket the
 farmer's wife ran out of the house,
 upsetting a five-gallon churn into a
 basket of kittens and killed the
 whole flock. She slipped on the
 cream and fell down the steps, break-
 ing her leg and a \$19 dollar set of
 false teeth. The baby left alone,
 crawled through the cream into the
 parlor and ruined a forty dollar car-
 pet. During to excitement, the daugh-
 ter eloped with the hired hand and
 took all the family savings with her.

The moral is that every man
 should be a subscriber to the home
 town paper. — Ex.

175,000 people greeted president
 Roosevelt in Boston Mass., where a
 meager 25,000 greeted candidate
 Landon—and yet the republicans
 claim all the New England States.
 Well, we will see what we will see
 on the 3rd of November—Get out
 and vote you democrats, get out and
 vote.

Mr. and Mrs. Geo. Branch and
 children had business in Rotan and
 Lubbock one day last week.

Mr. and Mrs. Pink Stewart visited
 their daughter Kathleen at Midland
 last week end.

VOTE!!

The greatest possession of a free
 people is the ballot—the right to
 vote. It is a defender of our liber-
 ties and a weapon against injustice.
 Yet that invaluable heritage is
 not prized by millions if otherwise
 good citizens. Proof of this state-
 ment can be found in undeni-
 able statistics. In most elections, less
 than half of the persons who are en-
 titled to vote do so. It is exceptional
 when an election brings to the vot-
 ing booths more than fifty per cent
 of enfranchised citizens.
 One result is that public officials
 are elected by minorities, the vote
 of the majority is silent. Another,
 and worse result, is a flagging of in-
 terest by the people in a thing which
 vitally affects us all, our govern-
 ment.

This year, there are great issues
 before us. No matter where we may
 stand, it is our duty as well as our
 privilege to vote. Only by doing that,
 can we have popular government.

In Germany the right to vote has
 been virtually abrogated, at the last
 election citizens had a choice of en-
 dorsing Hitler or of leaving the bal-
 lot blank, there being no opponent.
 That is true of Italy, of Russia, of
 Greece, of a dozen other powers.
 And here in America, where we still
 have that right which preserves our
 freedom, all of us don't trouble to
 exercise it.

So—vote on November 3. Vote
 for Roosevelt, Landon, Lemke, Thom-
 as, whoever you believe is the best
 man for president. Do the same for
 other offices. It is your inalienable
 right to vote for whomever you
 please. And only by voting on the
 men and issues of the time, can that
 right be preserved.

Mr. and Mrs. Clarence Lane's
 two children of Spur spent this week
 with their grandmother Mrs. W. J.
 Lane while their parents took in the
 Centennial.

Nettie Faye Shaffer spent last
 Sunday in Aspermont.

Mrs. J. H. Donoho is at home for
 a while treating her rheumatism.

M.K.T. R. R. LINES DISTRIBUTING INTEREST- INC BOOKLET OF FACTS

An unusual contribution to Tex-
 as literature issued in connection
 with its Centennial, is a brief but
 stirringly interesting history of the
 state authored for the Missouri-
 Kansas-Texas lines by J. Frank
 Davis, noted San Antonio writer and
 historian. Compressed into an amaz-
 ingly few words, considering vast-
 ness of the subject, the history is
 extremely comprehensive and omits
 no single feature of historical im-
 portance. Attractively printed, the
 booklet contains also brief life
 histories of seven of the state's im-
 merials, for whom lounge and din-
 ing cars operating on the Katy Line
 have been named.

The booklet is being distributed
 by the Katy to its patrons in all
 parts of the country, to Texas
 school officials, members of histori-
 cal societies and others, as one of
 its contributions to the observance
 of the state's centennial.

Purpose of the booklet as describ-
 ed in a foreword by Matthew S.
 Egan, chairman of the board and
 president, is not only "to pay tribute
 to the state it honors and in whose
 life and progress has had an active
 part for 64 years, but to spread to
 other sections a greater understand-
 ing and appreciation of the history
 of which all Texans are justifiably
 proud.

Mr. Davis tells the story of Texas
 from the time the Spanis' explorers
 encountered the friendly Tejas In-
 dians, from whom the state derived
 its name, with an economy of words
 that serves to make its stirring
 struggle for development and inde-
 pendence doubly impressive, and his
 sketches of Austin, Houston, Travis
 Bowie, Crockett, Benham and Fan-
 nin are masterpieces of dramatic
 brevity.

The Katy's booklet will no doubt
 be in wide demand, especially by
 those who want a ready reference
 to salient facts about Texas, and it
 will serve admirably as an elemen-
 tary textbook concerning a state
 whose future, as Mr. Davis declares

"promises to be truly as great as its
 unique past."

Mr. and Mrs. Oscar Hargus and
 Elvin Lee and Lorene Murdoch spent
 last Sunday in Stamford.

Sight is their most precious possession. Yet do you let them read and play on the floor where the light is never adequate for even simple visual work? Can you say for sure whether the lighting in your home is letting your children's eyes develop normally? Do you know that your child has enough light for his studying tasks?

Don't guess—be sure. There has been too much guessing about proper lighting. And mainly because of improper lighting, one child in every five has defective vision by the time he finishes grade school. The ratio increases to two out of five by the time they reach college age.

The I.E.S. Indirect Floor and Student Lamp is a simple, economical way to be sure that your child is studying under proper lighting conditions. What is more, the entire family can enjoy and will appreciate this modern, better light. See these lamps on display . . . today!

Wide opening at top throws light to ceiling, eliminates shadows.

Glass globe softens light, prevents glare.

Wide shade spreads light over wide area.

The approved Better Sight lamp bears this tag

West Texas Utilities Company

County Agent's Report

Thurs Mrs. Ve bers of home. After bridge t YoYur Trench Silo Dug

Before the Feed is Ready

Many of the farmers are getting light up with their cotton picking the silo will have a few days breathing well before their feed is ready to harvest. One can dig a good sized trench silo in two days and have it ready for the feed when the time comes to cut it. Let this immature seed stand in the field until the seeds mature or it is killed with the frost before you cut it. If the frost catches it, let it stand about two weeks and then cut it and put it in the silo and you will have some feed the stock will eat this winter.

Terracing Has Started In Kent County

Terrace lines were run on seven farms by the local county agent during the past few days. All of these farmers are planning to terrace their entire farms this fall, as soon as they complete their harvesting. Many other farmers have expressed their desire to terrace this year. The few farms which were terraced last year have more than paid for the expense of terracing in added production this year. The Spur Experiment Station records indicate that terraced land will average approximately twice the production of land which is not terraced.

Tenant Farmers and Soil Erosion

Speaking in general terms the average tenant is not interested in preserving the soil because many of them do not expect to remain on the same farm two years in succession; so they endeavor to make all they can with as little outlay of expense as possible. It would be much to the advantage of both the tenant and landlord if they could arrange some way to stay on the same place for a period of years. That should give the tenant an incentive to build up the productivity of the soil and to a better job of farming the land. That should prove more satisfactory to both the landlord and tenant. Please think this over and tell your County Agent your reaction.

Planting Good Seed Pays

"Planting good seed pays" says Wade Wright of Girard. Wade Wright planted a part of his acreage with Mebane seed this year and the rest of it with gin run seed. The cotton grown from the Mebane seed is turning out a 500

pound bale from 1600 pounds of seed cotton. The cotton grown from gin run seed takes approximately 2000 pounds of seed cotton to make a 500 pound bale.

KNOW TEXAS

Vermiculite, a strange mineral which floats on water after heat treatment, has been found in Texas by the Texas Planning Board's mineral resources committee and efforts now are being made to interest industry to use it for insulation on ice boxes and hot water heaters. In the raw state vermiculite looks like mica. It is heat resistant.

Although Texas has the largest sheep and wool industry in the United States none of the Texas wool is consumed by Texas manufacturers and practically the entire output is shipped to New England in the raw state with Texas paying \$750,000 annually in freight rates on grease and dirt in sending its wool to market, according to a survey of the wool scouring industry which is being made by the Texas Planning Board.

Although there are 230 kinds of fishes in Texas waters, Texas has failed to appreciate the opportunities for a great fishing industry, according to data compiled by the Texas Planning Board which also shows that the Texas oyster catch declined from 114,729 barrels in 1910 to 48,704 in 1930.

Well it begins to look like we are not only in for an early winter but a severe one. Us poor folks just naturally have an —ell of a time anyway.

Tuesday, November 3rd, General Election Day — keep this in mind and be sure to vote.

Wednesday morning we noticed quite a crowd gathered at Jayton's temple of Justice. Our reporter investigated and was informed that it was just a matter of a fistcuffing fracas at an adjoining counties beer joint and that was that.

CLAIREMONT NEWS ITEMS

Mrs. Dick Sampson's sister and brother-in-law Mr. and Mrs. Jim Phillips of Fort Worth are visiting her.

Mr. and Mrs. Gene Johnston are visiting Mr. and Mrs. F. M. Mayfield.

Mr. and Mrs. Basil Carins are in Dallas attending the Centennial. We understand Mr. Carins has been in

the hospital for a minor operation. We trust they will soon be home.

Miss Sowell and Miss Brant visited in Lubbock and Post last week end.

Many of the Clairemont citizens are attending court in Roby this week.

Mr. and Mrs. C. Worthen and family of Rising Star have moved into Clairemont.

Mrs. Nannie Stoneman who has been visiting in Amarillo returned home last week.

As it has been estimated that approximately 300,000 Texans are 65 years of age or over, more than two thirds of the aged population of the state have applied for assistance. About 150,000 are expected to be eligible under the present liberal law.

Governor James V. Allred announced this week that he would not

open the subject of correcting the present Old Age Assistance Law until after the Third Called session of the 44th legislature passes a revenue measure.

Old age assistance checks can not be sent out November 1 unless the Legislature provides additional funds.

Total applications for aid received by the Old Age Assistance Commission reach 212,000 in number this week.

LIFE SENTENCE GIVEN J. D. ECHOLS OF ROBY

ROBY, Oct. 21 — Convicted on a charge of conspiracy to rob the First National bank of Rotan, J. D. Echols Tuesday was given a life sentence in the penitentiary, the penalty automatically carried on conviction under the habitual criminal act.

Indictment against Echols alleged conviction in 12 felony cases prior to the current one and testimony of officers was presented in proof.

Council for Echols said motion for a new trial will be filed.

offices of the Old Age Assistance Commission indicated this week that approximately 3,000 old people are filing applications each month.

COTTON FOR ROADS USED ON 578 MILES OF 1936 PROJECTS

COLLEGE STATION — About 8,500 bales of cotton were used in highway construction during the summer of 1936, according to a report from the Department of Agriculture. This cotton was evenly divided between two projects, under the commodity division programs of the AAA, which involve the use of fabric binders for bituminous surfaced roads and mats for curing concrete.

More than six million square yards of cotton, close to four thousand bales, were used by 24 states in the fabric reinforcement program, enough for building 578 miles of new road. The rest of the cotton was utilized in the construction of 89,500 mats for concrete curing in 23 states, both materials are made available to state highway departments by the government subject to performance reports.

The fabric is designed to reinforce secondary, or farm-to-market roads, where heavy trucking and severe climatic conditions have run up an immense seasonal repair bill. Comparative sections were laid with three types of fabrics and without fabric on each project to determine costs, and early reports of this season's work justify the findings of preliminary tests.

The mat project was developed on the basis of tests made by the Bureau of Public roads and the Highway departments of Texas and Pennsylvania. Mats or pads simplify the curing problem by assuring proper moisture and temperature conditions. The mats are made from a single ply layer or bat of low grade cotton or cotton waste quilted between cotton cloth covers. Such mats retain moisture for a number of hours and are durable, easily handled, and capable of repeated use. In regions where water is scarce, their moisture retaining qualities constitute a distinct advantage. Where excessively high temperature or freezing are problems their insulating qualities are important.

Each room has been decorating for Hallowe'en. There is a prize to be given at the end of the second month for the most attractive room in school.

Clairemont School Activity Reports

School is progressing nicely as every thing seems to be in full swing. There are a number of new students.

A P.-T.A. was organized about two weeks ago with Mrs. Rome Rogers as President, Mrs. Wesley Osman, as vice president and Mrs. Pink Stewart as Secretary and Treasurer.

An active program is being planned which will be of great benefit to the school. The P.-T. A. plans to sponsor a Hallowe'en Carnival to be held at the high school auditorium Friday October 30. There will be two one act plays free, many booths, fortune telling, cats and etc. So come on and see the Ghosts

and goblins. The regular time of meeting for the P.-T.A. will be each first Wednesday in the month.

We hope every parent will become a member and help us help your boy or girl.

A picnic was held at the school Friday afternoon and two basket ball games were played with Girard. The boys were victorious but the girls lost. We returned the games Friday night but lost both games. At the close of the picnic Friday afternoon sandwiches cocoa and coffee were enjoyed.

Honor rolls will be published next week.

A splendid chapel program has been presented every two weeks. Several parents have been attending the programs. We hope more will come.

Mrs. E. Raney was called to Lubbock Tuesday to be with her sister, Mrs. James McAteer who was to undergo an operation there that day.

Mrs. Wade Thornton had the pleasure of having her sister from Idalou visit her last week.

Mr. and Mrs. M. V. Jay and children spent last Sunday with her parents C. O. Fox and wife at Snyder.

Mr. F. T. Whitaker and Bob Whitaker have been in Mineral Wells taking treatment.

Sis Rose of Spur spent Saturday night and Sunday here with her son Ray Smith and her mother, Mrs. Wren Rose.

Mr. and Mrs. F. T. Whitaker spent one day last week at Quitaque Texas with Fred Estes and his children and mother.

Dr. P. C. Wray of Breckenridge Texas was a business visitor in Jayton this week.

We Warned You....

We have been telling you about this weather and now its here. Have you prepared for it? If not see us for those good warm blankets, that heavy winter underwear, sweaters, leather coats, boots, and water proof shoes. Its better to be safe than risking having to pay for being sick.

Stoves for every purpose....

We have plenty of stoves of all kinds and should you need a good stove for heating or cooking we believe we can make it to your interests to come in and trade with us.

REGARDLESS OF PRICE—THE SAME PERSONALIZED SERVICE

Every year we conduct funerals in every price range—funerals for those in the most moderate circumstances and for people of wealth. But in every instance the same expert care, the same thoughtful attention to detail, characterizes each service.

The only difference lies in the selection of the merchandise. The family alone decides what shall be the cost of the funeral.

Dignified Service in a Sympathetic Way

REMEMBER:- If you are indebted to us and have something saleable we will buy it and give you a liberal price.
