Swing Of Southwest Farm Markets

(USDA) — Most southwest farm products found fully steady to strong markets last week, but many fruits and vegetables and a few livestock sold lower, according to the Production and Marketing Administration, U. S. Department of Agriculture.

After early-week declines, spot cotton scored sharp advances following the July 7 acreage report, and netted gains of \$8.50 to \$11.00 per bale. Medium and higher grades found strong demand in light trade. Texas crops made good growth.

Grain markets developed generally strong tendencies last week. Sorghum prices soared again, gaining 60 cents per hundred, as South Texas movement reached full volume, and the July 10 crop report indicated smallest production since 1939. Corn netted little change, for cash premium reductions offset futures market rises. An average crop of 2.6 billion bushels is forecast—675 million less than last year.

Rice prices bounded upward \$4 to \$5 per hundred pounds last week after controls ended June 30. Bran dropped \$4.50 per ton, and shorts \$6.50. Soybean meal sold lower too, but other protein feeds advanced. Hay went forward in most areas. Growing conditions for peanuts continued favorable. Fine and 1/2-bushel free and government owned clothing wools sold actively at strong prices.

Eggs and poultry of good quality found steady to firm markets last week, and lower grades held around steady. Fort Worth bought most eggs on candle grade at 47 cents per dozen for select whites 44 to 45, for best mixed, and 40 to 42 for medium. Denver paid mostly 40 to 42, Dallas 39, and New Orleans around 41.

West Texas potatoes found a dull, weak market at Fort Worth, and Missouri and Kaw Valley prices weakened as shipments neared a peak. Onions held about steady. Watermelons weakened at most markets. Texas Black Diamonds brought \$2.50 per hundred pounds for 35 to 40 pound melons at Kansas City, and \$2 to \$2.50 for 26 to 40 pound sizes at St. Louis. Honeydews and peaches sold some lower at Denver.

Most sheep and lambs gained 25 cents to \$1 or more last week. Medium to good spring lambs brought \$18 to \$20 at San Antonio, and \$21 to \$24 at Oklahoma City. Good and choice grades cleared at \$21 to \$22 at Fort Worth, and \$24.50 to \$25 at Wichita and Denver. San Antonio bought common to medium shorn goats at \$6 to \$7.

Butcher hogs and sows sold 50 cents to \$1.75 higher at southwest markets last week, while stocker and feeder pigs dropped mostly \$1 to \$2. Good and choice barrows and gilts topped at \$25 at San Antonio, \$25.50 at Fort Worth, \$25.75 at Oklahoma City, \$26.35 at Wichita, and \$26.25 at Denver.

Only minor weak spots marred a generally advancing cattle market last week. Houston paid \$25 for choice club yearlings, and \$14 to \$20 for common to medium steers and yearlings. San Antonio bought average medium to low grass steers at \$24, and common to medium steers at \$16 to \$22. Medium to good steers and yearlings brought \$18 to \$24.75 at Fort Worth, and \$20 to \$23 at Wichita. Good fed yearlings drew \$26.50 at Oklahoma City, and steers mostly \$23.50 to \$27.50 at Denver.

We especially enjoy the special numbers presented by these young people. All young people of the town are cordially invited to join with this group.

Everyone is invited to attend these evangelistic services and would that all men say with the psalmist of old "I was glad when they said unto me, Let us go into the house of the Lord."

Health Notes From Austin

AUSTIN. — The fact that dental decay may occur in the mouth of the average person, despite proper home care given the teeth, does not lessen the importance of brushing the teeth and massaging the gums daily, nor does it minimize the need for a cleaning and inspection of the teeth twice a year by the family dentist. Dr. Geo. W. Cox, State Health Officer, says that the lack of these measures gives added power to germs that attack the enamel of the teeth and gum tissues.

"If, despite the practice of proper oral hygiene, decay is suspected or teeth are injured in any way, the thoughtful person will seek the dentist's office promptly for the necessary corrective work," Dr. Cox said.

"It is surprising, though, even in these days of comparatively painless dentistry, that so many persons neglect to have their dental defects corrected, because they foolishly fear the discomfort they might experience in the dentist's chair," said the State Health Officer. There are others who having lost a tooth or several teeth make no effort to obtain replacements. Apparently they believe they can get along without them. Reduced masticating power, the annoyance and sometimes actual discomfort of chewing hard substances on the exposed gums, and crooked teeth are some of the possible consequences on gaps in the teeth.

Dr. Cox advised those who are interested in experiencing the best dental and bodily health possible, to give daily attention to their mouth and visit the dentist twice each year, and promptly seek the dentist's services should decay or other suspicious conditions arise between the periodic visits.

"In short," Dr. Cox declared, "successful mouth hygiene means not only intelligent personal daily application of prophylaxis but complete and timely cooperation with the family dentist as well."

Tom C. Clark To Speak At Convention

Chicago. — Attorney General Thomas C. Clark links youth delinquency and crime to the breakdown of basic social institutions, especially that of the home.

"Normal home family life lies at the very foundation of effective Christian citizenship," the Cabinet official declared recently. "It is the cornerstone of character growth. In the home, ethical values are learned and standards of conduct are molded. Out of the joys and problems of family living come lessons of life that will help the youth of today build a better America tomorrow."

Mr. Clark is scheduled to address 10,000 delegates at the 21st International Sunday School Convention, which will be held July 23-27 at Des Moines, Iowa. He will speak on "Our Moral Dilemma," the general theme for the day being "The Sunday School and the Home."

Other nationally known speakers have been invited to appear. They will talk on the general theme "Live Christ." Outstanding lay leaders will also tell of their success in Sunday school work. Bible addresses will be given at each morning session.

This convention will be the first since 1938. It follows in the tradition of significant national and international Sunday School gatherings going back to 1832. The sponsor of the convention is The International Council of Religious Education.

A Story Of A Lawbreaker

The driver of this car was killed because he was driving "too fast for conditions." Rounding a curve on damp, slippery pavement, his machine skidded off the road and rolled over and over down the side of a steep embankment, finally coming to rest right-side-up with the driver crushed in the wreckage. Stated speed limits apply only to average conditions, and a safe speed at ordinary times can be a very dangerous speed in bad weather. The law has a right to expect motorists to drive below stated speed limits when special conditions demand it.

BOYCE HOUSE

When Millard Cope, publisher of the Marshall Messenger, was a boy, he lived at Sonora and used to play in "Carver's thicket", so-named from the fact that a notorious outlaw had been killed there.

The arrival of a new traveling man in the town always provided entertainment. Usually, kangaroo court was assembled and he was solemnly placed on trial for some trumped-up offense and after he had been sufficiently alarmed, he was allowed to settle the case by buying drinks all around.

Another procedure was for a merchant to engage the "drummer" in conversation at the foot of a stairway in the store, maneuvering so that the traveling salesman would be standing with his back to the stairs. Suddenly, there came a terrific noise and, looking around, the stranger saw a barrel bouncing down the steps toward him. The merchant, not being startled, would wait till the last instant, then step to one side but the panick-stricken victim of the prank would run wildly from the store with the heavy barrel right at his heels.

The Trot Theater—where would it be? In Cuero of course, the home of the "turkey trot." And as I was leaving Cuero shortly after dawn with a hop halfway across the state ahead of me, just beyond the city limits I heard a "gobble" from the grass beside the highway; a big gobbler gave an appropriate farewell.

Between San Augustine and Jasper, a side-road, "Grist mill runs Saturdays." The highway in this area offers plenty of scenery—the tallest magnolia trees I ever saw; a pool covered with water lilies in bloom; another pool covered with lavender flowers. Just east of Palestine is a lake that is the color of new steel and as one approaches San Augustine there are long, dense hedges thick with flowers—Cherokee roses.

CARRIERS TO BE HONORED

The rural letter carrier — the man who moves through ice and snow in winter and the sweltering heat of summer to deliver mail to even the most isolated sections — will be honored this year by the State Fair of Texas.

W. H. Hitzelberger, executive vice president and general manager of the State Fair, announced that Oct. 5 had been set aside on the Fair's calendar as Rural Letter Carrier's Day.

"It is a privilege to honor this their unflinching faithful service to group," Mr. Hitzelberger said, "for their unflinching faithful service to the citizens of Texas."

Arrangements for the day are being made with Oran T. Gray of Florence, Texas, president of the Texas Rural Letter Carriers' Association, and Bun Raley of Valley Mills, Texas, editor of the organization's official organ, "The Texas Carrier". A special program is to be planned.

Establishment of world peace is the most important problem facing the United States in the opinion of Democratic Senator Tom Connally of Texas, above, who is quoted in the July issue of Cosmopolitan magazine as saying: "The most urgent problem facing the American people today, in my judgment, is the establishment of world peace. Until this is accomplished, the world will remain in a state of uncertainty and insecurity. The governments and peoples of the devastated areas will be unable to readjust their economy and become once more self-sustaining until treaties are signed and hatreds are buried. There can be no lasting prosperity for America with a great portion of the world unable to purchase goods from us for the necessities of life."

ALL RIGHT,

maybe Bert the Barber doesn't know a kilowatt from a cable, but that does not stop him from being one of our bosses, just the same.

Surprised? Didn't you know your electric light and power company is owned by Bert, and a lot of people like him—and like you, too?

People from all walks of life—doctors and industrial workers, teachers and farmers, mechanics and milkmen—have put some of their savings into our company. Those people are direct owners.

But there are countless indirect owners, too—many (like Bert the Barber) who haven't an idea that they have a stake in the electric industry. Those are the people who have savings accounts or life insurance policies. Nowadays, that means practically everybody!

Here's how it works: When banks and insurance companies accept your money, they must invest it wisely—and soundly. And because business-managed electric companies have a long record of faithful service, much of this money is invested in their securities.

So you, too—like Bert the Barber—are very likely to be one of our bosses.

World peace is the most urgent problem facing the United States in the opinion of Republican Senator Arthur H. Vandenberg of Michigan, above, who is quoted in the July issue of Cosmopolitan magazine as saying: "Peace at home and abroad is the most urgent problem facing the American people today. We must find a way to stabilize labor-management relationships at home so high and uninterrupted production can sustain high wages and low prices. On the other hand, we must persistently hunt for collective peace and security in the world—not only to stop another war but also to remove the burden of armaments from national economies of all concerned. There are other problems. We must sustain Western Democracy against Eastern Communism, at least in the West. But the greatest of all is my first one—PEACE."

HITCHHIKING NOT PROHIBITED

Austin. — Contrary to inaccurate reports, the new Uniform Traffic Code does not prohibit hitchhiking, George Clarke, managing director of the Texas Safety Association, said today in Austin.

The Code, which goes into effect September 5, was supported by the Texas Safety Association and 58 statewide cooperating groups in the recent session of the legislature as a safety measure.

The two-line subsection of the traffic code pertaining to hitchhikers reads:

"No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle."

A roadway is defined in the bill at "that portion of the highway improved, designed or ordinarily used for vehicular travel."

The bill defines a highway as "the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public purposes of vehicular travel."

Clarke emphasized that the bill does not forbid any person to stand on the shoulder of the road for the purpose of soliciting a ride from a driver.

He said that it is a prevalent practice in the state for hitchhikers to stand on the concrete or corrugated surface of the road, and that this action constitutes a definite hazard to the hitchhiker, as well as to traffic.

Penalties for violations of the act range from \$1 to \$200.

Mr. and Mrs. Bill Barnett and Mr. and Mrs. B. M. Robinson of Post, Texas spent Sunday in Jayton with relatives and friends.

With a final payment to the U. S. Treasury recently from the St. Paul Land Bank, all of the 12 land banks in the U. S. became completely owned by the farmer and ranchmen patrons.

Dr. and Mrs. W. J. Garrett of Van, Texas and Mr. and Mrs. Olan Wilson of Cross Plains, Texas spent last week end in Jayton with Mr. and Mrs. W. J. Garrett.

SAFETY OR DEATH

College Station. — One out of every ten farmers in the United States will be disabled by injuries during 1947, unless they give safety on the farm more attention.

That prediction is made by the National Safety Council, which has announced the week beginning July 20 as National Farm Safety Week.

Every day of 1947, 52 farm people will die as a result of accidents; the council also predicts on a basis of past years' figures. Two farm residents will be killed accidentally and 205 injured during the noon hour every day, unless better safety precautions are taken.

The safety council urges farm families to look for the hazards that endanger lives at home, at work and on the highway; to eliminate as many of these hazards as possible; and to remember that carelessness on the part of any family member can mean unhappiness and even death to the entire family.

By calling attention to farm safety, the council hopes to see a big reduction in such figures as these: four farm buildings destroyed by fire every hour; 4,500 farm workers killed and 300,000 injured in 1946; 186 workers injured by some type of farm machinery, 193 hurt by falls, 104 injured by livestock, and 92 crippled from cuts, falling trees, burns and other smaller accidents.
