Jayton, Kent County Texas

Thursday, February 17, 1949

Number 7

Kent County Given 9,000-Foot Wildcat

According to information received this week the Hiawatha Oil and Gas Company is reportedly preparing to drill a 9,000-foot Ellenburger wildcat in east-central Kent County as its No. 1 Bert Wallace, 660 feet from north and west lines of section 57, block 98, H and TC survey.

Drill site, five miles northeast of Clairmont and six miles southwest of Jayton, is 1 1/2 miles northeast of the Sohio Petroleum Company's No. 1 E. E. Wallace, section 55, block 98, H and TC survey, a 7,278 foot failure completed on Nov. 6, 1945.

Exactly when preparations will get under way is not known but it is believed it will be in the near future.

All Farmers May Cooperate In ACP

All farmers of Kent County have an opportunity to cooperate in the 1949 Agricultural Conservation Program, says Wayne Williams, chairman of the county APC committee. The program will be used to meet the most urgently needed soil and water conservation without favor to any class or group of farmers.

The farmers who cooperate in the program will be required to match the assistance provided under ACP with labor, money and experience. This program is a means of cooperating between the Government—representing all the people of the country—and the farmer. Through the ACP, the Government helps to share the cost of approved and needed soil and water conservation practices.

According to the chairman, this program, based on conservation practices approved by each state's foremost technicians as well as practical farmers is proving the most effective and economical way for the Nation to obtain vitally needed conservation.

Williams said that the program is for all farmers—and all farmers are urged to take advantage of this nation-wide effort to conserve the soil. The first step is to contact a farmer committee man or visit the county office for information in conservation practices being stressed in the county.

Looking back on accomplishments of farmers who have cooperated in the program, Mr. Williams said farmers can be proud of what has been done. They are helping the nation protect its most valuable natural resource, safeguarding the food supply, and helping to make a stronger and healthier Nation. And they are paving the way for more widespread effort that still must be made.

By cooperating in this program they have worked for the welfare of the Nation and at the same time have made a better farm for themselves and for those who take over after they leave.

Supper Given In Honor Of Basketball Teams

The night of Monday, February 14th will long be remembered by those who attended the supper given in honor of the basketball teams. This was the climax of the 1948-49 Basketball Season.

The games were started by Mrs. Jones and the girls, but after a little persuasion the boys joined in the games. Once started it was hard for them to stop the games. Some of the games were a three legged race, sack contest, and a heart matching contest. The losers of one of the games had to put on an act to make the audience laugh. Nancy Donoho and John Allen Kelley were the winners, however they had some real competition.

Then the delicious supper was served, consisting of hamburgers and cokes, and pie and ice cream.

The basketball boys and girls wish to take this opportunity of thanking everyone who helped with this supper. It was enjoyed by everyone who attended it.

Local Negro Youth Arrested Monday

Altha Tryels, local Negro youth, was arrested Monday and charged with attempt rape after entering the home of a white family. Tryels is being held in the Dickens County Jail at Dickens due to the lack of heating facilities in the local jail.

"and!!"

The following is an open letter to the people of Jayton that was turned in to "and!!" by two Jayton teen-agers. It is something for the civic clubs of the town to consider. Read it and see if you don't think that these teen-agers don't have a sound and reasonable argument.

To the people of Jayton:

We teen-agers want something to do. We thought about a canteen but we can't do it by ourselves, we need the help of the people.

If we have a canteen we could stay in Jayton and have fun instead of going off somewhere and taking the chance of a wreck and getting into trouble.

All we need is a chance that you people can give us and we can have some good clean fun.

Come on folks get behind the youth of your town.

Signed,
Jayton Teen-agers

The men who brought their tractors and blades to town and worked on the streets last week deserve a lot of praise. They did a very fine job considering the condition of the streets and the size of the equipment they had to work with.

Seems that Spur is following close in the footsteps of Jayton. The night two local business houses were robbed Spur was also visited. We had an expensive gasoline fire, Spur also had a gasoline fire. Last week two local business houses burned and Wednesday of this week a Spur business house was badly damaged by fire. Rather odd don't you think?

If such a pattern continues we may have people from Spur down here patrolling to make sure that nothing happens to good old Jayton.

Meeting To Be Held At Bank Saturday

There will be a meeting at the Bank Building Saturday, February 19 at 2:30 p. m. All people of this area who desire that Jayton have a Bank are urged to attend. Mr. Sam Weatherall of Paducah, who is very interested in the project and who has had extensive experience in the Banking business, will be present. Mrs. Lee C. Harrison will also be present.

A meeting was held last Saturday but as it was a rushed affair many interested parties could not be contacted and it was decided that another meeting be held this week. Don't forget! Saturday, February 19 2:30 p. m. at the Bank Building.

Boys Complete 1948-49 Basketball Schedule

The Boys' Basketball team officially closed their 1948-49 season by playing Roaring Springs in the local gymnasium last Friday night. On the previous night they met Dickens, also in the local gym.

The boys played a total of twenty one games this season, winning eleven and losing ten—giving them a percentage of fifty two.

In one of the last two games of the season it seemed that the boys had a streak of bad luck since they lost to the Roaring Springs team by a rather large margin. In the Dickens game the final score stood 30 to 15. Sartin was the high point man for the locals. The Roaring Springs five, led the score from the beginning of the game and were never threatened by the local five. The score for the game was 16-44 with Roaring Springs on the long end of the score.

In the games here last week the girls were more fortunate than the boys in that they won both the games, defeating Dickens 22 to 14, with Healer and Harrison leading the scoring. The Roaring Springs team played the local girls a close game with the final score standing at 24 to 22. Sue Cave made the most points for the Jayton team.

Thursday night the girls play their first game in the District tournament. (Tonight) At 7:15 they will play Lockney in the Spur gym.

NOW OR NEVER? Fire, Smoke Damages Variety Store At Spur

"The American success is the story of large numbers of people doing something together. When an enterprise prospers, everybody connected with it prospers, and the success legend must be divided among them." This statement was made by Mr. Crawford Greenwalt, president of the Du Pont Company. The people of Kent County and Jayton would do well to heed this advice, in the matter of a bank that is being proposed for Jayton.

We have heard the pros and cons of doing this or that for the betterment of Jayton and Kent County and as far as the eye can see, there has been very small results. True, we have a highway passing through the heart of our small city; we have some of the best water in this country; a proposed farm to market road; one farm to market road already completed; we have announcement of another oil well to be drilled; highways from east to west and from north to south, from all these things we all benefit, and these were the result of people getting together and getting the things done.

We think a bank for Jayton and Kent County would be as beneficial to as many people in as many different ways as the above mentioned projects. But, in order for home folks to realize such benefits, the home folks have to do their part.

What is the part of the home folks?

A meeting is to be held Saturday afternoon at 2:30 at the bank building in Jayton for the purpose of placing the balance of the stock. If you are in the least interested in the success of this enterprise you can assist by being present at this meeting and if possible invest your extra dollars in the institution. It is up to you, it may be now or never!

Additional Reports From March Of Dimes

Additional, but as yet incomplete, reports of the results of the March of Dimes Campaign. The final total should be available for publication next week showing the grand total for the entire county.

WITH THE CHURCHES

First Baptist Church

We had 70 present for Sunday School last Sunday and a good offering. The weather was very disagreeable but it was worth an effort to see the smiling faces of all your friends.

"My Pastor and Our Community"

I am a bit allergic to the whole question of the Pastor taking a big part in community activities. I must, however, realize that he must be a civic minded person. He must set the example in good citizenship by taking part in worthy community projects. He, after all is a leader for social righteousness and justice. I must walk with him in being a good Christian citizen in exercising our rights of suffrage and in the glorious privilege of free speech concerning community evils. Our community is a better place because of the leadership of my pastor. He and I together can do a lot to make our world a better place to live. It is in our community where we are to witness, personally, to lost souls concerning the living Christ. My Pastor and I are pals and co-workers in this great enterprise.

Next week will complete my story of "My Pastor". Think about what I have written and see if you are helping your pastor or hindering him. He needs our prayers. Go to church on Sunday and show him we are backing him.

Next Sunday at Girard there will be an Associational Singing, starting at 2:30. You are urged to be present.

Attend Church somewhere Sunday. You are always welcome to the Baptist Church.

C. C. Beaty, Pastor.
Marie Smith, Church Reporter.

The Methodist Church

February 20, 1949
Sunday School, 10:00 A. M.
Services, 11:00 A. M.
Sermon: "Roads with Dead Ends"
Sunday Night Services 7:00 P. M.
Sermon: "When A Man Listens"
Young People and Juniors 6:15 P. M.

Thanks again to the W. S. C. S., and to all who had a part in purging the shrubbery around the parsonage, making it more attractive. May God bless all of you.

A Follower Of Christ

The Christian is a product of God's workmanship. He is a new Creation in Christ. He is not a reformed man, but a regenerated man. His salvation is not a product of his own work, but it is the Gift of God.

"For by grace are ye saved through faith; and that not of yourselves: it is the gift of God. Not of works, lest any man should boast. For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them."—Eph. 2: 8-10.

The purpose of this workmanship and new Creation in Christ is "unto good works." The new life in Christ is prolific of all manner of good works, but the good works, without Christ leaves us "dead in trespasses and sin."

Jesus is "the way, the truth, and the life." The new quickening in Christ brings about such transformation in the lives of men that the world is attracted, and takes knowledge in the fact that something has happened. Of the disciples of the early Christian Church it was said: "They took knowledge that they had been with Jesus." The way of the cross is the only road that leads to Heaven. Are you travelling that road or does the road you are on lead to a "dead end"? To those who are travelling the right road and have their ears open ready "to listen" to what God has to say to them, He will bless them and use them in the building of his kingdom here in this world.

Whoever you are, wherever you

The Ben Franklin Store in Spur, formerly known as East Variety suffered heavy damages as a result of a fire which was discovered about two o'clock Wednesday Morning. The fire which apparently started about midway of the store was discovered by Randolph East, owner of the store. Mr. and Mrs. East, who live in an apartment above the store, were awakened by the smoke. Mr. East immediately called the Fire Department.

The actual fire did little damage in comparison to the smoke and water. The front of the store was badly damaged as was the merchandise.

Also damaged, due to smoke, was the office of Dr. W. K. Callan, Dentist, which is located above the Variety Store.

The damages were estimated at \$25,000.

Swift Recovery Farm Markets Show

Swift recovery from earlier losses featured most southwest farm markets during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Despite sharp breaks early last week, later gains brought corn and milo prices 7 to 12 cents higher Monday than a week earlier, and wheat and oats 3 to 5 cents up. No. 2 yellow corn closed around \$1.55 to \$1.56 at Texas common points, white corn \$1.65 to \$1.68, milo \$2.62, and No. 1 wheat \$2.39 to \$2.44.

Southwest livestock markets generally moved rapidly from heavy receipts and sharply lower prices early last week to lighter offerings and rising values late last week. Most of the week's price movement followed the same pattern.

Most cattle classes failed to recover all the early losses, and closed Monday 50 cents to 11.50 below a week earlier. However, canner and cutter cows showed net gains at some markets. These grades ranged from \$12.50 to \$16 at Houston, \$12 to \$14.50 at San Antonio, \$11 to \$14 at Fort Worth, \$13 to \$14.50 at Oklahoma City, and \$14 to \$15.50 at Denver.

Most butcher hogs closed Monday about the same as a week before, but some lost \$1 or more. Top butcher hogs reached \$18.25 at San Antonio, \$19.50 at Fort Worth, \$20 at Oklahoma City, and \$21.25 at Denver. Sows ranged from \$14 to \$16.

Sheep closed the week little changed. Good woolled lambs sold Monday up to \$21.50 at San Antonio, \$22 at Fort Worth, \$21 at Oklahoma City and \$23.50 at Denver.

Wool contracting in Texas increased this week at higher prices. Twelve-months wools averaged a round 76 cents a pound, and 8 months wools 60 cents, grease basis. Mohair buying also picked up, with adult at 41 cents a pound and kid 75.

Milled rice markets weakened some, although long grained rough rice held firm. Many feed prices dropped to lower levels during the week. Hay sold steady to strong, bolstered by emergency demand in areas of winter storms. Peanut prices remained unchanged to firm despite slow demand.

Return of sunshine to the Lower Rio Grande Valley revealed severe damage to beets, lettuce and citrus fruits, and lesser damage to carrots and cabbage. Orange and grapefruit shipments may end about March 1. Canning plants are using as much of the fruit as possible. As shipments of cabbage and carrots increased, prices worked lower, but spinach and broccoli held firm. Steady markets remained for Louisiana sweet potatoes and Colorado potatoes and onions.

Eggs and poultry still showed a weak undertone, but prices changed little.

Cotton overcame early losses for net gains of around \$2.50 per bale. Spot middling 15-16 inch closed Monday at 32.25 cents a pound at Dallas and 32.50 at Houston and New Orleans.

are, and whatever you are, you are always welcome at the Methodist Church. We are looking for you.

THE JAYTON CHRONICLE

T. O. Wade, Editor and Publisher

Published Every Thursday at Jayton, Kent County, Texas

Entered as Second Class Matter, February 10, 1921, at the post office at Jayton, Texas, under the Act of March 6, 1879.

Subscription, One Year, \$1.50

NOTICE TO PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm, or corporation that may appear in the columns of The Jayton Chronicle, will be gladly corrected when called to our attention.

Man boasts himself the lord of creation and we take great pride in the achievements of our athletes.

Glenn Cunningham ran a mile in four minutes and four seconds—but an elephant can run a mile in three minutes! And the deer, greyhound, racehorse, whippet fox and Mongolian wolf are faster than the elephant.

A West Texas jackrabbit can run a mile in one minute and fifteen seconds, which is more than three times as fast as a man.

The gazelle and the pronghorn antelope (I think there are a few of these latter out in the Big Bend) can go a mile in one minute. But the fastest of all runners is the cheetah (whatever that is), who can travel at the rate of 70 miles an hour.

Then take the running broad jump. Jesse Owens once leaped 26 feet 8 1-4 inches—but a kangaroo can jump 39 feet.

And, relatively speaking, consider this: If a man can jump as far

as a flea, size considered, we could stand flat-footed and jump over the San Jacinto battlefield monument.

A few Irish sayings: Young man, you'll be troubled till you marry—and after that you'll never have rest.

Great cry but little wool, as the devil said when he plucked the pig. It's a lonesome washing that there is not a man's shirt in.

Never put your hand out further than you can draw it back.

A good horseman is the man standing on the ground.

You hear of this and that new volume as the "Book of the Month". But what the world needs is to get back to the Book of Eternity, the Bible.

Economic Highligh's

Nothing that could be called alarm is disturbing the business world. However, there is a great deal less unquestioned belief that the postwar boom is going to continue for an indefinite period to come.

A good many of the signs are pointing downward now. There was a noticeable drop in employment during the last months of 1948, and jobs are nowhere near as easy to find as they once were. As 1949 opened, prices were lower than at the beginning of the preceding year—the first time that has happened in 10 years. One automobile manufacturer announced a substantial cut in production, due to the fact that new cars were piling up in their dealers' warehouses. In a long list of lines consumer resistance is noticeable, and a buyer's market is setting in. In almost all lines, more and more consumer caution has been evident. Savings are down, and installment purchasing has increased. In enterprises which live on luxury spending—entertainment, vacation travel, furs and jewelry etc.—the drop in business has been relatively heavy.

This poses a question which only time can answer. Is the decline from the postwar peak simply a normal and inevitable adjustment following an avalanche of spending for goods which were completely unobtainable for years? Or is it the start of a serious business setback that could run into a real depression? Most of the economists still favor the first view. But they have their fingers crossed.

One theory holds that a depression

of the extreme type, such as that of the '30s, is no longer possible—that the government is now geared to immediately prime the pump and through spending and various controls keep the machine ticking at a good rate until normal economic forces for the better could take over. But that is strictly a theory, and no one really knows how it would work out in practice. Few people are willing to bank on it for their economic salvation.

The change in the business picture small as it has been, seems to be making itself felt in some congressional circles. As an example, a considerable list of lawmakers, including many on the Democratic side, look with little favor on more taxes either on individuals or corporations on the grounds that they might act as a deterrent to production and plant expansion. There is also a strong sentiment against complete repeal of the Taft-Hartley Act and a return to the Wagner Act, because of the danger that another wave of strikes and other labor-management disputes might result. This sentiment, incidentally, seems to be shared to some extent by members of Mr. Truman's official family.

This town-tailored suit, with its white piqué lapels and bone buttons all in a row scored a bull's eye on Cosmopolitan magazine's Male-Tested Fashions jurors. Mickey Rooney, Jean Sablon, Steve Hannagan and Peter Lind Hayes agreed that they liked the "expensive look" of its "restrained" silhouette. Of Pacific Mills Verdone crepe, with slim, eight gore skirt, the suit is tailored by Handmacher and is available in navy, black, grey, spring green or five other colors at about \$65.

Veterans' News

Hospitalization and outpatient treatment provided by the Veterans Administration are not available to members of veterans' family, VA said in response to a number of inquiries.

Many wives of veterans were treated by Army and Navy doctors while their husbands were in service. Some wives now erroneously believe they also are entitled to medical treatment from VA physicians.

Only ex-servicemen and women, if discharged under conditions other than dishonorable, are entitled to hospital treatment under the following priority system:

First—Emergency cases.
Second—Those suffering from injuries or diseases incurred in or aggravated by military service.

Third—Those who state under oath they are unable to pay hospital charges for treatment of nonservice-connected disabilities or illnesses. These veterans if not in the emergency category, must wait until a bed becomes available.

Outpatient treatment is available only for veterans with service-connected disabilities. Each veteran's eligibility must be determined by VA before treatment of this type can be authorized.

World War II veterans receiving education or training under the GI Bill are urged by the Veterans Administration to include the name and

Uncle Sam Says

In February we observe the birthdays of two very famous Americans, George Washington and Abraham Lincoln. Practical men, they understood the value of thrift, the necessity of a well-ordered method of saving. They had no ready-made plan such as is now offered by the U. S. Savings Bonds program. They had an automatic Payroll Savings Plan or Bond-a-Month Plan which today provides a golden opportunity to have money before you spend it. And it's very simple. You specify the sum to be allotted each payday, when you work. That is the Payroll Savings Plan. If self-employed, use the Bond-a-Month Plan at your bank. And in 10 years, you reap the reward—\$4 for every \$3 you invest.

U.S. Treasury Department

FARM QUESTION BOX

by
ED W. MITCHEL
Farm Advisor
General Electric Station 'GY

Q. Woodchucks are eating up our garden and under the influence of the high cost of meat we propose to eat the woodchucks to get even. How do you catch, kill and prepare them for the table?

A. Woodchucks are good to eat and are in a class with rabbit meat. They are clean and eat only a vegetable diet. However, try and learn to distinguish between the old and the younger ones by color and length of teeth, size, etc. Use the older ones for soup and hamburger and the younger ones to roast or fry. Catch them in steel traps set in the burrow or runways or shoot them with a rifle, skin and clean promptly, taking special pains to remove fat and glands under arms and legs, pits, chill and soak over night in cold salt water and proceed with the cooking. Biscuits and gravy are the conventional accessories with chuck.

Q. While I am not crazy, that I know of, I have got bats in my garret, and I wish you would advise me how to get rid of them.

A. Fumigate to kill them and then plug all holes so no more can get in. Dead bats are quite fragrant and if you are real smart you will leave them alone.

Q. Can you tell me what causes blood spots on egg yolks or in the white, and real blood in others? In a gross of eggs there are sometimes six or seven thus affected. Candling shows up

these defects, but if there is a cure we would like to apply it.

Blood spots and clots result from ruptures in the oviduct. Candling is the only way to detect them. Growing pullets as healthy and vigorous as you can is the only help I know in preventing them. As a rule, they are more numerous as the laying period starts and stops.

Q. What is the meaning of the word thoroughbred? Is a registered cow a thoroughbred or is it the name of a breed of horses?

A. Through long custom and usage, the term "thoroughbred" has come to be applied to pedigree race horses; the term "purebred" to other kinds of livestock and fowls with an adequate or registered pedigree.

Q. How can I protect young fruit trees against mice and rabbit injury during the winter? Should I paint them with something?

A. No—don't paint or wrap them. Dig grass and weeds away for two or three feet; hill up six inches with earth around the trunk and put on wire guards. Put out poison baits for mice now, and keep snow tramped down around the trees.

Q. When should a privet hedge be cut down to make it fuller at the bottom—spring or fall?

A. I would cut it very early in the spring—March or April. Winter or early spring cutting seems to stimulate growth, and summer pruning to retard it.

rective therapists at the Winter VA hospital in Topeka, Kansas, to broaden their understanding of the needs and problems of neuropsychiatric patients.

The course—the sixth given for corrective therapy personnel in VA hospitals—was a joint program of the Division of Physical Medicine Rehabilitation of VA's Department of Medicine and Surgery, and the Division of Adjunctive Therapy of the Institute of Psychological Medicine.

Training programs previously were conducted at VA general medical and surgical hospitals in Richmond, Virginia; Hines, Illinois, and Los Angeles, California. Two previous courses also were held at the

Topeka hospital. Future training programs are planned for the Topeka VA hospital and for other general medical and surgical hospitals, to keep corrective personnel informed of the latest developments in their field.

Health Notes

Observance of the first National Children's Dental Health Day on February 7th has been approved and commended to Texas by an Official Memorandum signed by Governor Beauford H. Jester.

The dental health of children is of prime importance to their general well-being, and Dr. Geo. W. Cox,

State Health Officer, says that every child should be under regular care of a competent dentist from the time he is thirty months of age.

"Much can be done in the way of tooth decay prevention by dentists of today," Dr. Cox said, "and studies are under way at present which may lead to still further advances in the control of dental caries. Two Texas cities with almost identical fluorine content in their city water supplies are being used in one experiment. Sodium fluoride is being added to the supply of one city, and the results in the reduction of dental caries checked against that of the city whose water supply is not treated. "This experiment has been in pro-

gress only 29 months and it is far too early to establish a positive evaluation, but the results checked so far have demonstrated a decided tendency to caries reduction in the city where sodium fluoride is added to their drinking water."

Early training of children in good dental hygiene will materially aid them in keeping their teeth and gums in good condition, and their regular visits to the dentists will enable him to make any corrections as soon as they are needed.

Mr. and Mrs. Ralph Brantner visited in Lubbock last Tuesday and Wednesday.

FOR TOUGH CONDITIONS DEARBORN DISC PLOW

This Dearborn Disc Plow is what you need for sticky or waxy soil, or stony or root-filled land. It is ideal in soil that does not scour easily with a moldboard plow . . . or in abrasive land that wears out plow shares quickly. Full 27 inch clearance from ground, sturdy beams, heat treated high carbon steel discs on tapered roller bearings . . . all combine to give fine results in heavy growth.

Can be attached to a Ford Tractor in one minute; lifts and lowers by Hydraulic Touch Control; uniform depth easily maintained. See this great plow!

We are headquarters for Ford Tractors, Dearborn Implements, genuine parts and expert service. Let's get acquainted!

The '49 Ford

AS THE "FASHION CAR OF THE YEAR"

Citation "The 1949 Ford embodies all the essential qualities of good taste, modern design and subtle harmony in line and color. It is indeed a

compliment to the style-conscious woman who will recognize and appreciate the flattering background it provides for her best dressed appearance."

Paul Wilson Hartman
President, The Fashion Academy of New York

And "looks" are only half the story!

The Fashion Academy of New York has been noted for the past 20 years for its annual selection of "America's best dressed women." The '49 Ford was chosen to receive the Fashion Academy Gold Medal after 1949 automobile models of all makes and in all price classes had been carefully studied from the standpoint of excellence in design, simplicity and feminine style appeal. This recognition of Ford leadership in the modern trend of automobile design stands as a unique tribute to the work of Ford's Styling Department and of Design Consultant George Walker of Detroit.

COTTON MARKET REVIEW FOR TEXAS AND OKLAHOMA

Cotton escaped last week's break in commodity prices with only minor losses, according to records kept by the Production and Marketing Administration, U. S. Department of Agriculture. Trading in Oklahoma and Texas country markets tightened when spot cotton dropped 40 to 45 points last Tuesday. Buyers were reluctant to take any offers on equities. Spot prices rebounded toward the week-end and closed Friday 25 cents per bale higher than Monday at \$1.85 cents, Dallas. Since the first of the year, cotton climbed from 32.10 cents per pound to 32.95 before the break time. Cotton followed a similar pattern during February last year, opening the month at 34.45 cents per pound, Dallas, and dropping to 31.30 the close of the second week. Total sales at Dallas, Houston and Galveston ran only a few hundred

bales below those of the previous week. Domestic inquiries were small but export demand continued good. Cotton textile markets have been relatively active in the past few weeks. Business has improved considerably in some sections of the gray goods market, principally print-cloth and she-tings. In some others, the prolonged slow spell continues. Unsettled prices have recently deterred buying to some extent but second quarter business is being booked in fair volume.

Vocation Tips Given By Dr. Hob Gray

AUSTIN, Feb. 9.—Attention high school seniors: the University of Texas Teacher Placement Service can give you a tip on a good vocational field to enter. Director Hob Gray says the greatest demand for teachers right now is in the field of library science, and

Uncle Sam Says

Here's an old saying: "There's nothing like being without money to make one appreciate having it." And now is your opportunity to make certain that you'll always have plenty of it by putting some into U. S. Savings Bonds every payday. The safest, surest way of providing future security is by saving the regular, automatic way through the Payroll Savings Plan where you work. Or, if self-employed, enroll for the Bond-a-Month Plan at your bank. No fuss, no bother with either plan. Your bonds will be delivered to you. And in 10 years your money will come back to you with interest, \$4 for every \$3 you invest. U.S. Treasury Department

he would recommend it as a study course with excellent employment possibilities.

There is a shortage of trained library personnel, partially because there are few schools of library science in this part of the country, Dr. Gray says. (The University of Texas re-opened its Library School this fall.)

In addition to a standing demand for high school librarians, Dr. Gray says the placement service has many calls for elementary education teachers (grades one to seven); and teachers of high school mathematics, science, commercial subjects, and health and physical education for women.

Supply has just about caught up with demand in the areas of high school English and social studies teachers, he says.

New Cotton Product Available in South

One of cotton's newer commercial products, flameproof cotton insulation will be given added distribution throughout the South this week as Stuart, Roebuck and Co. begins sale of the material through its principal outlets in Southern states, the National Cotton Council announced today.

Cotton insulation has been handled for years in northern branches of Sars. Since the war the South has become increasingly insulation conscious. Flameproof cotton's heat and cold resistant qualities, plus its lighter weight and ease of installation, makes it one of the most efficient and economical insulations on the market.

DRAFT CALLS TO RESUME IN APRIL OR MAY

Selective Service headquarters indicated Wednesday that when the Army resumes its draft calls, possibly in April or May, the older men will be called up first regardless of where they live.

New rulings issued by Maj. Gen. Lewis B. Hershey, Selective Service director, to state headquarters for local board observance, highlighted these changes in draft policy:

1. The older men of draft age (19 through 25) will be called first. Previously, each state has had its monthly quota and has called up its required number of men even if it had to dip into lower age groups than did some other states.

2. Draft registrants may volunteer for service in any of the armed forces so long as the Army's cancellation of draft calls is in effect. Up to now

When a man was tapped for the draft, he could not sign up voluntarily since his voluntary service could be for less than the 21 months required for draft duty.

Who came to his earth To save sinner men.

She'd point them to heaven, So many mansions up there That Jesus is building From stones, oh so rare!

IN MEMORY OF GRANDMOTHER WILLIS (Who passed away Dec. 20, 1948)

Dear Grandmother we miss you. In our hearts there's a place That down thru the years Time can never erase.

To us who knew her She was dearest and best. And all who passed by In some way were blessed.

The poor she took in, Gave food, clothes and rest. Her advice and encouragement Was always the best.

For she'd tell them of Jesus, Our Savior and friend,

In her heart she was longing, We oft' heard her say, Just to go to this place There, forever to stay.

So dear loved ones don't weep, Tho' her face you can't see, She now is just waiting To welcome you and me.

She fought a good fight, Her life race is run, But the battle is over And a crown she has won.

We can only be patient, Just labor and wait For some day we too Must enter that gate.

Penny Wise

For six sun treatments, one penny can Help you preserve that Summer tan!

For a penny (one-tenth of a dime, you know) You can have a full evening of radiol!

For hungry families that must be fed, One penny will toast two loaves of bread!

This is penny wisdom that never varies, whether it's told in poetry, prose or pictures. It's the story of living the electric way—easily, comfortably, healthfully. Though electric service is just about the smallest item in your family budget, what else offers such great living at so little cost?

West Texas Utilities Company

Winter Uses For Summer Fans

"Many families do not realize that portable electric fans can be used in the winter as well as the summer."

Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, points out. "Usually at the end of summer, the fans are put away until the next warm season. But actually they can be put to use in several ways during the winter months."

For instance, a house that is improperly insulated is usually unevenly heated, cooler at the floor than near the ceiling. A fan placed near the heater or heating unit, aimed at an adjacent wall toward the ceiling and set at a slow speed, will circulate the warm air around the room.

Another winter use for an electric fan is for drying clothes indoors. Winter weather sometimes makes it difficult to dry clothing even in the house. "Set a fan at one end of the line of clothes," Mrs. Claytor says, "and it will speed the drying process. Or use it to dry coats and overshoes soaked by rain or snow."

Portable electric fans can be used at any season of the year to carry off cooking odors from the kitchen. "If your home does not have a large ventilating fan in the wall or window you may face a portable fan toward a slightly open window and allow it to run while foods with strong odors are cooking. The odors will go out the window," Mrs. Claytor concludes.

Mrs. M. E. Bond spent last week in Mason, Texas with Mr. and Mrs. Ben Schuessler.

Billy Cade was in the Rotan Hospital last week for treatment.

I know we will meet her, In my heart there's no doubt, But oh, such happiness When we again hear her shout!

"Come in, all my children Let's gather 'round the throne And praise our dear savior Who provided this home."

Together we will be Forever up there, If we'll only be faithful Our cross, here to bear.

There to ever be with Jesus, And we'll walk streets of gold, In that lovely place called 'Heaven', Where we'll never more grow old.

Written by Mrs. Clyde Hagar

W. S. C. S. Meeting Monday Night

The W. S. C. S. met Monday night in the home of Mrs. Marvin Fuller. Fourteen women were present and enjoyed the Bible Lesson taught by Mrs. Taylor. Devotional was given by Mrs. Elbert Walker.

Highlight of the program was the presentation of a Life Time Membership Pin to Mrs. Fuller by the local society.

The women were proud of the shrubs they had had put out at the parsonage. A delicious Valentine plate was served by the hostess, Mrs. Monroe Davis.

The next meeting will be next Monday night at 7:00 P. M. in the home of Mrs. C. R. Kelley. We urge each woman of the Church to consider herself a member and come study and worship with us. Please bring or send games, sheet music, pictures, etc., for a box to be sent to the Girls Reformatory at Gainesville.

BRANNAN ASKS CCC CONTROL

Secretary of Agriculture Brannan asked Congress Wednesday for direct control of the multi-billion dollar Commodity Credit Corporation. The request was quickly challenged by some members of the Senate Agriculture Committee.

The CCC is the government agency that makes price supporting loans and purchases of major farm products.

It has been used to buy millions of dollars worth of foods and farm products for shipment overseas under foreign aid programs.

Uncle Sam Says

In February we observe the birthdays of two very famous Americans, George Washington and Abraham Lincoln. Practical men, they understood the value of thrift, the necessity for a well-ordered method of saving. They had no ready-made plan such as is now offered by the U. S. Savings Bonds program. They had no automatic Payroll Savings Plan or Bond-a-Month Plan which today provides a golden opportunity to save money before you spend it. And it's very simple. You specify the sum to be allotted each payday, where you work. That is the Payroll Savings Plan. If self-employed, use the Bond-a-Month Plan at your bank. And in 10 years, you reap the reward—\$4 for every \$3 you invest.
