THURSDAY, AUGUST 2, 1973

Animal Selection Pointers Are Given

Extension Specialists conducted training in livestock selection, feeding and management practices at the 4-H Barn, Clairmont on Friday afternoon.

Dr. Dennis White and Gilbert Hollis led the discussion on selection of steers, market hogs, and market lambs. Adult

leaders and club members attending were very complimentary of the work of the Extension Specialists.

Bruce and Nancy Scott, Clairmont 4-H Club members, brought their lambs to the 4-H Barn for the 4-H training session. Dr. White and Dr. Hollis are in the background.

Cecil Hallum Gets Outstanding Young Man Of America Award

The young men from your area listed below have been selected as Outstanding Young Men of America for 1973, according to Doug Blankenship, Chairman of the Board of Advisors for the national awards publication.

Nominated by: Dr. Robert L. Sartin, OYM 1972.

Cecil Ralph Hallum, 3005 - 15th St. Apt. A Metarie, La. 70002.

Now in its ninth year, Outstanding Young Men of America is an annual biographical compilation sponsored by leading men's civic, service and professional organizations. The Awards Volume features the accomplishments of approximately 7,000 young men of exceptional abilities and achievements from across the country.

Criteria for inclusion in Outstanding Young Men of America are service to others, professional excellence, business advancement, charitable activities and civic and professional recognition. The young men chosen

for this distinction are between the ages of 21 and 35.

Ronald L. Zeigler, author of the introductory statement in the 1972 edition, has said of the publication, "the thousands of young Americans whose stories are told in these pages represent only a sampling of the talent that is powering this country into the Seventies...I know that to each of them this is less a book of praise--though praise it is, and well deserved--than a volume of challenge."

Nominations for the awards publication are made by civic organizations, Jaycee chapters, college alumni associations and military commandants.

The 1973 edition of Outstanding Young Men of America, scheduled for publication and national distribution in October, will include a special introductory message by Lieutenant General Alvan C. Gillem, II, Commander, Maxwell AFB, Montgomery, Ala.

Kent County Wins At Dress Revue

Lesia Pickens and Minette Geeslin attended the District III Dress Revue which was held at the Abilene Womens Club.

Kent County was well represented at the District III 4-H Dress Revue on July 26. Minette Geeslin competed in the Senior division and she was one of the four winners. Minette will represent District III at the State 4-H Dress Revue which is held in Dallas at the State Fair. The other girls who will represent District III are: Sharon Fox, From Dickens County; Rhonda Cameron from Childress County; and Kathy Jobe from Young County.

Lesia Pickens participated in the Junior Division. The Juniors received training in poise

and modeling and they modeled their garments in the revue.

The District III Dress Revue was held in the Womens Club at Abilene and the surroundings made a very elegant setting for this important event.

West Texas Utilities sponsored the revue and furnished a delicious luncheon, decorations and the building. The revue was narrated by Louise Green from Abilene and the awards were presented by Curley Hayes and State Representative Charles Fennell.

Others from Kent County who attended the Dress Revue were: Mrs. Mark Geeslin, Mrs. Durward Pickens and Mrs. Bobby Stanaland.

Shortage Of Hay Wire Forces A Feed Shortage And Hurts Beef Supply

WACO-- (Sp1) --Texas Farm Bureau President J. T. (Red) Woodson said that a shortage of baling wire for hay could lead to a livestock feeding crisis this winter.

The farm leader said there are also shortages of fencing wire and cotton bale ties.

Woodson said Farm Bureau is encouraging steel mills to give high priorities to production and distribution of steel products necessary in the production of food and fiber.

He said steel industry officials give the following reasons for shortages of baling wire, fencing wire and cotton bale ties: (1) Imports of steel and steel products have been drastically reduced because the U. S. has

asked foreign countries to limit exports to the U. S. This was done in order to reduce the balance of payments deficits. Also, these nations agreed to such agreements because they are not as anxious to acquire U. S. dollars which are rapidly dropping in value abroad.

(2) Domestic mills cannot take up the slack because they simply do not have capacity. Some blast furnaces have been shut down by regulations of the Environmental Protective Agency.

(3) There is a worldwide shortage of steel. Available supplies are being used in construction of high-priority items such as automobiles.

Kent 4-Hers Attend A District Rally

Seven 4-H boys and girls were selected to attend District Rally Day at Vernon. The youth were selected on basis of interest and achievement in 4-H during the year.

The purpose of Rally Day was to help youth develop leadership abilities. At the Rally Day the boys and girls attended programs on 4-H project development, special 4-H activities and recreation. Everyone was expected to participate in learning experiences and then act as junior leaders in rally days and camps in each individual county. After supper square dancing lessons were given by Joel Wilson from the West Texas Utilities Company and Vesper services were given by Dis-

trict III 4-H Council Officers.

Those who attended were: Julie Panter, Clairmont 4-H Club; Rena Rural, Girard 4-H Club; Minette Geeslin,

Kent County High school 4-H Club; Billy Harrison, Jayton-Junior High 4-H Club; Marion Perkins Clover Boys 4-H Club; Jayton. Bill Wallace also attended and presented a program on the "Citizens Ambassador Program." Bill visited several European Countries with the program and was able to tell the group about these countries and show slides of them.

Joy Panter, Mark Geeslin and Bert Stanaland also attended the Rally Day.

Homemaking Teachers Are In State Conference

Approximately 2,000 Vocational Homemaking Teachers from local school districts in Texas will meet for a week-long in-service conference in Houston July 3-August 3.

The conference is under the direction of Mrs. Elizabeth F. Smith, State Director of Homemaking Education, Texas Education Agency, and the field staff consultants, among which are Mrs. Ima Dora Haile, Consultant, located in Plainview, who serves 38 South Plains and Panhandle counties and Mrs.

Ivah Lou Ashley, Consultant, located in Big Spring who serves the schools in Area II which includes 42 counties of the South Plains and West Texas area.

Special work sessions will include "Effective Communications" by Marjorie Wightman and Phil Miller from the Texas Education Agency in Austin; "Provisions for Change," Mrs. Elizabeth F. Smith and "FHA Impact," led by Annette Reznik, State FHA president from Friona.

Mrs. Haile and Mrs. Ashley, along with eight other area consultants, will hold separate meetings for the teachers in their areas on Friday morning August 3, when special emphasis will be devoted to up-grading programs in local school districts. Teachers from Coordinated Vocational Academic Education, Vocational Education for the Handicapped, Home Economics Cooperative Education, Adults, and of Homemaking Education will be in attendance.

Gas to assist them in locating a new supplier.

Office of Oil and Gas Regional Director Albert Sweeney can be reached in Denton at Area Code 817/387-5811.

Farmers and ranchers who are having problems getting enough fuel should contact Sweeney for assistance.

Of course, we all hope this federal program will not be needed for long. Allocation programs will not solve the long range problem.

And while we are searching for the long range solutions, it is essential that we all use the available energy wisely.

DOGS & 'NOSEPRINTS'
COLUMBUS, OHIO--John Hamer, a former private detective, has started a service to catalog the "noseprints" of dogs for identification purposes.

Returns From European Trip

Bill Wallace recently returned from a 24 day tour of England, France, Germany, Switzerland, Belgium, and Holland. The tour was a part of the People to People program Ambassador program for older 4-H club members.

Bill gave a report of his tour for the District 4-H Club Rally Day in Vernon. Twenty two counties from Extension District III were represented at the 4-H Club Rally Day.

Nauert Gets Master Degree

John Rondal Nauert received the Master of Education degree at Southern State College in Weatherford, Oklahoma, July 27.

Mr. Nauert has been science teacher at Jayton High School seven years.

VISITS PARENTS

Lee J. Grice, Hobbs, N. M., is visiting his parents, Mr. and Mrs. Rube Grice.

Gets Degree In Nursing

Mrs. Ann Randolph daughter of Mrs. G. H. Brown, Jayton, graduated June 15 from Ventura, Calif. with an associate of science degree in Nursing. She carried a 3.2 grade point average.

Mrs. Randolph was an active member of the students Nursing association and received her redcross pin for giving 28 hours of extra community service. Capping Ceremony was held June 5th.

Upon graduation Mrs. Randolph was immediately employed by Community Memorial Hospital. She resides in Ventura, Calif. with her husband, Dee Randolph and children, DeAnn, Steve, Kerry and Randy.

Mrs. Randolph's mother, Mrs. G. H. Brown, flew to Calif. to attend both Capping and Graduation.

Conference Set On

Long Range Land Uses

Long - range land use planning is the subject of a day-long conference to be held in Abilene August 7.

City planners, state and local officials, conservationists, and others interested in sound land use are being urged to attend.

The conference is co-sponsored by the Texas Council of the Soil Conservation Society of America and the West Texas Chamber of Commerce. The meeting will be held in the McGlothlin Student Center on the campus of Abilene Christian College from 9:00 a. m. to 4:00 p. m.

Speakers will include Congressman Omar Burleson; Land Commissioner Bob Armstrong; Emil Rassman, president of the West Texas Chamber of Commerce; A. B. Linford, president of the Soil Conservation Society of America; Doyle Hutcheson, president of the Texas Association of Soil Conservation Society; the Texas Association of Soil and Water Conservation Districts; and other

officials. Paul Larson of Abilene president of the Texas Council of the Soil Conservation Society of America, will preside over the morning session. Bob Scott of Fort Worth, chairman of the Water Conservation Task Force, West Texas Chamber of Commerce, will preside in the afternoon.

Massive urban and industrial growth, coupled with shrinking land resources, is causing many concerned citizens to debate the feasibility of controlling the use of land some time in the future.

They point to the construction of homes in floodplains or factories on prime agricultural land as examples of mis - use of land resources. A total of 17 speakers--farmers, livestock producers, county and city government officials--are scheduled to discuss the advantages and disadvantages of land use planning from their viewpoint.

VISITS SISTER

Clifford Haines of Abilene visited his sister, Mrs. Jack Myers, this week.

VISITING

Dean Lewis of Lubbock visited Mrs. Ruby Matthews over the weekend.

It Is Ironic That Texas Now Has A Fuel Shortage

By Lt. Gov. Bill Hobby
Austin--Since Texas produces more than a third of all the oil and gas in the United States, it is ironic that we are today suffering a fuel shortage.

As a state and a nation, we have failed in the past to plan for the proper long range development of our energy resources. In the next dozen years the consumption of energy in the U. S. will double. The rate of new drilling for oil and gas has been decreasing.

Meeting future demands will require improved recovery methods, the substitution of other

fuels, greatly expanded off - shore exploration, development of the Alaskan North Slope, and more imports.

To deal with the immediate problems created by the energy crisis in Texas, we must develop a coordinated state policy.

Governor Dolph Briscoe has created an Energy Advisory Council to develop such a policy.

I was appointed chairman of the council, which included the heads of state agencies involved either in the production or consumption of energy, and representatives of private

consuming and producing groups.

The council will make recommendations which can be implemented immediately by state officials. The council probably will make recommendations to the governor and legislature for changes in the laws and other regulatory policies affecting the production and consumption of energy.

Concern has been expressed that Texas farmers and ranchers may suffer this summer as a result of fuel shortages. A new Federal Voluntary Allocation Program

may help ease these fears.

This program assigns fuel priorities to all food producers as well as health and government-related services and the transportation industry.

Under this program, fuel suppliers have agreed to provide their past customers with the same portion of fuel as they received during the last quarter of 1971 and the first three quarters of 1972.

Farmers and ranchers who no longer have a supplier can call on the Department of the Interior's Office of Oil and

NEWS REPORT FROM WASHINGTON

1976- Latest Poll- Percy's Showing- Disbelief-

WASHINGTON, D.C.--A recent Louis Harris poll caused raised eyebrows and some utter disbelief in Washington recently. Seeking to project the result of the 1976 presidential race, the poll showed Senator Ted Kennedy, as the Democratic candidate, defeating all Republicans against whom he was tested except Senator Charles Percy, of Illinois.
 The other Republicans tested against Kennedy were New York Governor Nelson Rockefeller, Vice President Spiro Agnew, California Governor Ronald Reagan and Texas' John Connally.
 What astounded some was that Percy has usually ranked low in public opinion testing; he is not, in addition, thought to be as well known to the general public as several of the other Republicans.
 Furthermore, he is the only Republican tested the White House would not support. President Nixon is known to lack confidence in Percy.
 Yet it may be this very fact, that he is a political enemy of the White House within his own party, that has boosted Percy in the public's eye--if the poll is correct. Watergate (the Senator pushed the idea of an independent Watergate prosecutor) might have produced

that turnaround in public opinion.
 Percy has been critical of the Nixon Administration for some time, and often less than diplomatic. The President became so disenchanted with him, in fact, that he vowed never to allow the Illinois Senator to become President.
 The question now is whether Mr. Nixon will have much influence over events in 1976. He probably will, assuming he is still around, for that is three years from now and while Watergate will not have been forgotten, its impact will surely be less intense. By then other pluses and minuses of the President's record will have exerted some overlying impression.
 Among political pros, Rockefeller has always been the Republican thought likely to defeat Kennedy in a presidential race; he is also from the east, a moderate, rich and has a long and successful political record.
 Agnew may be tainted by Watergate, though his backers are sure he is the convention favorite. Reagan, a long-shot, has a most interesting, and refreshing, record as California's Governor. Connally, a southerner, is handicapped by anti-South prejudice and other factors.

Heavy Drinkers

Dr. Richard S. Wilbur, Assistant Secretary of Defense, recently released shocking figures revealing the seriousness of the current problem facing the military services caused by excessive drinking. These statistics show the drug problem pales into comparative insignificance when measured against the present alcoholic problem.
 In the Army and Navy the latest study shows more than three-quarters of the junior enlisted men have serious drinking problems. Forty-four per cent of the Army's junior enlisted men are classified as "problem" drinkers and another twenty-nine per cent are occasional heavy binge drinkers.
 The Navy found only 21 per cent of those studied either non-drinkers or "no-problem" drinkers. What is a heavy drinker? The study was based on identification of heavy drinkers as: (1) One who takes five or more drinks four or more times a week; (2) One who takes twelve or more drinks in a day once a month; (3) One who drinks steadily for more than a full day once in three years.
 Dr. Wilbur says the number of alcoholics treated in the services in the past year has risen sharply. An alcoholic, by definition, is one who has marriage, job or financial difficulties because of drinking, or one who cannot function without alcohol.
 Obviously, the cost of alcoholism in the services runs into millions and hundreds of thousands of lost work days. Since junior officers have a less severe drinking problem and senior officers the least severe, the problem relates especially to the younger generation, the television generation which sees each hero guzzle booze in almost every situation; it may also represent a switch from drugs to booze by the younger generation.
 Whatever the causes, more Americans must speak and write the truth about booze. And the truth is that whenever any individual's behavior is adversely or noticeably affected by his intake he is exhibiting, not sophistication or glamor, but lack of consideration of others, bad manners and lack of self-control.

As It Looks From Here
 By Rep. Omar Burleson
 Member of Congress, Texas

Washington, D. C. -- The draft ended last month and nothing short of an international emergency is likely to bring it back. For the first time since 1947 the President has no authority to order inductions. At this point, there is no firm assurance how the new total dependence on volunteers to maintain necessary manpower levels will work out.
 At this point, however, the new system is lagging in spite of increased pay and bonuses for enlistment. Since there is really no choice, it has got to be made workable even though the cost may be more painful than previously anticipated.
 Actually there has been no draft since last December when inductions were stopped with the withdrawal of U. S. troops from Vietnam.
 The Nixon Administration has been concerned about getting the voluntary machinery tuned up to take the place of the draft and to fulfill the President's 1968 pledge to end conscription.
 The trouble is that right now without the draft as an incentive, enlistments are running far behind. The Marines and the Air Force have seemingly been doing pretty good but the Army and Navy are short of their recruitment efforts since February.
 Educational requirements have been raised, along with other qualifications, which has had an effect but there is apprehension that even the enormous new outlays for higher salaries and broader benefits will not attract enough people into the armed services. The cost has already indicated that defense expenditures can not be reasonably reduced. The increased costs under the new recruiting program will run to about \$3.2 billion in the next fiscal year.
 Some hard choices have to be made in balancing new sophisticated weaponry and manpower. There has always been a running argument on military preparedness between the upgrading of new weapons of war with that of keeping the man with a rifle.
 New weapons, a n d

particularly of the nuclear type, require better training for the man behind them. This means a quality and ability of men to learn highly technical performances. It will take time and expert training to develop such abilities.
 In purely manpower, options are being considered for recruiting more women and older men for non-combat duties. Bonuses are being considered for college educations and the Navy offers a \$15,000 payment for Navy career petty officers trained in the use of highly advanced weaponry. In proposed new pay schedules, enlistment bonuses may go to \$2,500.
 There is just no way to maintain an all-voluntary defense force, numbering more than 2 million, to keep a strength considered necessary without tremendously increased costs. The requirement is inescapable.
 Defense procurement legislation in the congress this week ran flags up all over the place to reduce our military capability. Efforts were made to reduce our air power, cut out a new nuclear aircraft carrier, fewer advanced submarines, and numerous other reductions in our defenses. Some of the advocates of such action argued that money saved by a cutback in our military preparedness should go for other programs. In other words, their concern is not for economy generally but is a matter of priorities. It is difficult to see any greater priority than to be as sure as possible that our strength to defend this Country does not drop to number 2 or 3.

Incidentally, back to the matter of the draft, it might be well to remember that young men of age 18 still must register and receive their lottery numbers. Although the draft is over, the Selective Service machinery still functions to provide ready manpower in the event of a national emergency. It is considered that, although an inconvenience, it is a necessary precaution that can not soon be abandoned.

There are a number of interesting dates in the month of August. Perhaps the most nostalgic is August 14th, the day President Truman announced the surrender of Japan, ending World War II, in 1945.
 Hitler committed suicide in the face of Germany's defeat and his imminent capture in Berlin by the Russians on the last day of April. Germany surrendered on the 8th of May, ending the war in Europe. But the Japanese struggled on, even though President Truman and the retiring Prime Minister of Great Britain, Winston Churchill, gave Tokyo a virtual ultimatum at Potsdam on July 26th, warning that unless they surrendered the nation faced "prompt and utter destruction."
 The massive U.S. fleet steamed into Tokyo Bay and sank the remainder of the Japanese fleet. Army and Navy bombers struck hard at many targets. The Japanese fought on until the first atom bomb fell on August 6th, on Hiroshima. In a few days another was used, and further warnings were issued. These new weapons and the horror of their destructive potential proved decisive. Japan surrendered, almost certainly thereby avoiding hundreds of thousands of casualties which would have been suffered in an invasion of Japan itself.
 On the 14th, in 1935--ten years earlier--social security was established in the United States, amid cries from the opposition that it would ruin the nation. Columbus sailed from Palos, Spain, on August 3rd, 1492, in his voyage to the New World. And David Crockett was born August 17th, 1786, in Hawkins County, Tennessee.
 A political assassination in 1935 took the life of Huey Long of Louisiana, then the virtual dictator of that state, who was born August 30, 1893, in Winfield, Louisiana. And finally, the worst earthquake known east of the Mississippi occurred August 31st, 1886. It was most disastrous at Charleston, South Carolina, but was felt from Jacksonville, Florida, north to Canada, and west to Iowa.

August, 1973

The flowers withered on their stems,
 The leaves hung limp and wan,
 Within the trees a wistful breeze
 Whispered and was gone.
 -Anne Mary Lawler.

True
 Truth may be stranger than fiction but it will never sell for as much.

Disillusionment
 A pessimist is a guy who sizes himself up and gets sore about it.

THE FAMILY LAWYER
 Work-Connected Recreation

Harrison, an appliance salesman, waltzed so strenuously at a company party that he suffered a fatal heart attack. Was his widow entitled to collect workmen's compensation for his death?
 The company said no.
 "Obviously, he was not at work when he was dancing," the company reasoned in a court hearing.
 But Mrs. Harrison pointed out that the party had taken place on company premises, under company sponsorship, as part of a company contest--and that all the company's salesmen were expected to show up.
 The court decided that the dancing had indeed arisen out of the job, and granted the widow's claim. The court said the party was simply the company's way of inspiring its employees to greater effort.
 Workmen's compensation laws generally cover accidents that occur in the course of employment. As a rule, courts have included any recreational activities that are closely connected with the job.
 This is especially true when the company plays an active role in the event.
 Thus, in a case arising out of a company picnic, the court granted compensation for an accident largely because of the participation of the company president. It seems he would use these occasions to present special prizes to employees and to give them pep talks about "our one big family."
 Still, not every recreational occasion is covered. In another picnic case, a woman employee was hurt during a foot race. But when she sought compensation, the company pointed out
 1) that it paid only part of the cost of the picnic;
 2) that the picnic was held on a non-working day, away from the company premises, with no pressure on anyone to attend; and
 3) that the company had nothing to do with the arrangements.
 The court decided it would be stretching language to call the woman's injury "an incident of her employment." Result: no compensation.

Little Cars

The news from Detroit is that the American car buyer has unexpectedly turned to smaller cars in recent months--probably because of the gasoline shortage--or alleged shortage.
 It is now said U.S. makers face a glut of big automobiles at a time when so many dealers can't get enough compacts or small cars. Since the big cars must be passed on to dealers the glut in big cars is to be also a dealer problem--even at a time of near-record sales, in a good car-buying year.
 The new turn in buyer preference became apparent too late to change production schedules. Next year's models are, in fact, the current preoccupation of manufacturers.
 Since the turn in buyer preference has meant increased foreign-car sales, the new trend will have major significance. If it reduces gasoline consumption, that is, the rate of increase, this will help alleviate an expected future fuel shortage. If it means more smaller cars burning less fuel, creating less pollution on the nation's roads and highways, this will be a plus.

Tapes & Subpoenas

President Nixon flatly rejected two official requests for Watergate-related presidential tapes. As a result he was served with subpoenas from the Senate Watergate committee and the office of the special Watergate prosecutor.

Trial and Error

He who never makes a mistake actually never makes a discovery either.

How True

Never question your wife's judgment--look who she married.
 -Tribune, Oakland

U.S. Violence

The World Health Organization of the United Nations has released results of its survey on violence; Venezuela and the United States lead the rest of the nations of the world in homicide, the survey shows.
 The U.S. homicide rate is 6.4 per hundred thousand population compared to such rates as 0.9 for Italy, 0.8 for France and 0.7 for Britain, very low rates for the Scandinavian countries and a 0.4 rate for Ireland!
 Thus the United States homicide rate is eight or nine times higher than that in the other leading democracies and about fifteen times the rate in Ireland!
 These shocking statistics should persuade even the most penny-minded commercial television producer and sponsor of the danger in glamorizing and constantly featuring violence on the television screen. And they prove emphasis on law and order is not an empty phrase or one designed to work against any group or ethnic strain but an overdue effort to attack a scandalous crime situation in the United States.

A Weekly Report Of Agri-Business News

Farmcast

Compiled From Sources Of The Texas Department Of Agriculture
John C. White, Commissioner

Milk Production Declines As Predicted... Broilers, Eggs Also Show Declines... Citrus Tree Plantings Increase... Cattle Feeding Increases.

Milk production in Texas as well as the nation is showing a year-long pattern of declines, which has been predicted by dairy group spokesmen. Texas milk production for June is 5 per cent below the previous month's production, although it is slightly above June of a year ago.

Nationwide, milk producing is 2.5 per cent less than a year earlier. Production during the first half of this year is down 2 per cent under 1977. The number of milk cows, nationwide, also has declined by 2 per cent.

The cost price squeeze in the dairy industry is also dramatized in the milk-feed price ratio. That ratio is down 10 per cent from a year ago. It is also the lowest June ratio since 1955.

EGG production in Texas during June is down 4 per cent from a year ago and 5 per cent under last month. Nationwide, a decrease of 5 per cent is noted from the same month a year ago.

Broiler chick hatch in Texas during June is down 7 per cent from a year ago and 10 per cent under the preceding month.

The turkey poult hatch for Texas during June is up 9 per cent from a year ago, but is 9 per cent under a month ago.

The June hatch of egg-type chicks in Texas is up 34 per cent from a month ago and 3 per cent above a month earlier.

CITRUS tree plantings are on the increase in the Lower Rio Grande Valley. Licensed citrus nurserymen and private citrus nurserymen in the Valley reported 230,000 citrus moved from nurseries to groves during the period July 1, 1972 to June 30, 1973.

This is 12 per cent above the previous year when 205,000 trees were set out; these totals reflect new plantings in commercial groves.

Of the total, about 98 per cent are grapefruit; about 2 per cent oranges; less than 1 per cent lemons, limes, tangerines and tangelos.

The number of grapefruit trees planted was up 15 per cent from the previous year. More than half of the 1972-73 plantings were of the Star Ruby variety.

Movement of orange trees to groves continues to decline. Plantings at 4,000 trees were down 50 per cent from the previous season and far below the planting rate of prior years.

CATTLE on feed in Texas and the nation continues to increase. As of July 1, a total of 2,335,000 head of cattle and calves were on feed in Texas. This is 10 per cent above a year ago, 4 per cent above June 1, and 3 per cent above April 1.

Large feedlots--those with 1,000 plus capacity--numbered 234. Steers accounted for 1,513,000 head of the cattle on feed.

Cattle placements on feed in Texas feedlots from April 1 to July 1 were down 11 per cent compared to a year ago. Cattle marketed out of Texas feedlots is 4 per cent above marketings compared to the same period of a year ago.

Feedlot operators intend to market 1,238,000 cattle between now and September 30. This would be 6 per cent more than marketed during the same quarter last year.

Nationwide, cattle and calves on feed is up 2 per cent from a year ago. Cattle feeders plan to market about 1 per cent more than those actually sold during the July to September period of a year ago.

DADDY'S PRAYERS LIVE ON

As a girl I remember my Daddy. Each night as we knelt to pray, he prayed Lord, keep your hand on my children, and help them to serve you each day.

Yes, he prayed every day for his children, saying, Lord, don't let one go astray.

But the world had so much to offer, and the devil said you can't live that way.

In the Bible he read this promise. That his house - hold would be saved someday. If he'd train them to follow Jesus, and to walk in the straight narrow way.

Yes he lived a great life before us, a good example, for all was my dad.

Yet, some failed to follow in his foot-steps, but his prayers, still will be answered yet.

For I see the Lord working among us, telling each one, for heaven prepare.

So that we all can be together, in that beautiful City up there.

Yes, our daddy has gone on to heaven, to that beautiful City, so fair.

And I'm going to heaven to meet him, He is waiting for his children up there.

Written in memory of our beloved daddy, Tommie Sanders, by Aline Love.

BIBLE VERSE

"Man looketh on the outward appearance, but the Lord looketh on the heart."

1. To whom was this verse spoken?
2. By whom was it spoken?
3. In connection with what incident?
4. Where may the verse be found?

Answers To Bible Verse

1. To the Prophet Samuel.
2. By Jehovah.
3. The anointing of David, the son of Jesse.
4. I Samuel 16:7b.

Lowell P. Weicker, Member of the Senate Watergate Committee (R-Conn): "I'd like to see the President of the United States put the Ervin committee out of business."

BOX 2177, Kansas City, Mo. 64142.

Jones Funeral Is Held In Jayton

Services for Mrs. Carl (Maggie Lee) Jones, 74, a longtime resident of Kent County, were held at 2 p. m. Friday in the First Baptist Church of Jayton.

Burial was in the Jayton Cemetery under the direction McCoy Funeral Home in Aspermont.

Mrs. Jones died Wednesday in West Texas Abilene after a short illness.

Mrs. Jones was a native of Erath County. She married Carl Jones in Paducah Nov. 8, 1917. The couple have been

residents of Jayton 22 years. Mrs. Jones was a member of the First Baptist Church there.

Survivors include her husband; one son, Rex Lee of Guyman, Okla., a daughter, Mrs. Lorraine Nelson of Twin Falls, Idaho; a brother, Monroe Boucher of Pampa; four sisters, Mrs. Mamie Matthews of Fort Worth, Mrs. Ida Hill of Mobeetie, Mrs. Curly Ayers of Ropesville and Mrs. Elizabeth Wooley of Amarillo; and five grandchildren; and three great-grandchildren.

Congressional Pay

As some writers had predicted months ago, Congress recently made a quiet effort to hike congressional salaries and set up a commission which would see to it raises come regularly hereafter.

Although Senators and Congressmen now get \$42,500 a year in salary, a very large office expense allowance, running into the hundreds of thousands, and many other financial benefits, that apparently is not enough.

So the Senate, with no debate and no roll call vote (by which members' views could be checked by constituents) passed a bill in the second week of July to provide regular pay hikes for themselves, judges and certain executive branch officials.

The hope is that President Nixon will veto the legislation, assuming it clears the House. Members of Congress apparently feel the President, hard pressed by Watergate, will be unlikely to antagonize members by vetoing it, but one hopes the President vetoes it nevertheless.

DRUGS

BY PETE FRITCHIE
WASHINGTON, D.C.--Daniel Hanley, a member of the Olympic Committee Medical Commission, spoke out recently in Washington on the use of drugs by athletes.

Concerning the Munich games in 1972, Hanley said most of the doping was in the weight-lifting and cycling events. But he said those who turn to drugs are misled.

The Bowdoin College physician said: "There is no place in sports for the use of stimulant drugs or steroids. There is no chemical answer to improve performance in sports."

"To the best of our knowledge, there is no way to supercharge a normal cell. This statement is not always acceptable in the sporting world, but it is nonetheless true--there is no known substance which consistently improves performance in a normal, healthy, well-trained, well-conditioned athlete."

Hanley said of thousands of tests made in the Munich games, twelve were positive.

Always
After all is said and done, you usually find more has been said than done.

True
Housework is what a woman does that no one ever notices unless she doesn't do it.

NEWS VIEWS

Sam J. Ervin Jr., Senator: "It appears that a hoax has been perpetrated upon the committee, at least upon the chairman of the committee."

Richard Nixon, President, announcing Phase 4 rules: "There is no way, with or without controls, to prevent a substantial rise of food prices."

George Meany, AFL-CIO President: "After two freezes and three phases, the administration has succeeded only

in accelerating inflation."
John C. Stennis, Senator (D-Miss): "The people will not again support a war that Congress is unwilling to declare."

William L. Dickinson, Congressman (R-Ala): "Issuing food stamps to strikers destroys the balance necessary to maintain a true collective bargaining system."

Reason Enough
The fact that figures don't lie is a good reason to stick to a diet.

Maybe you know her as Miss Lizzie or Granny Hill or Aunt Mary Jones. Through the years she's been a tower of strength in her community... helping with the sick, sharing with the poor... a friend to all.

She doesn't seem to worry about the future, just looks to the brighter side and is happy. You envy her, thinking she gets much out of life that you miss. Does she have a secret, a magic formula?

No, you can't say that her fellowship with God is a secret, for God is for everyone!

Would you like to possess some of her strength to look ahead, to face danger and conquer fear? The Church can help you reach this goal. All through the years it has strengthened mankind and helped him find the best in himself and in others.

From The Recipe Files Of Opal Richards Main Dish Salads

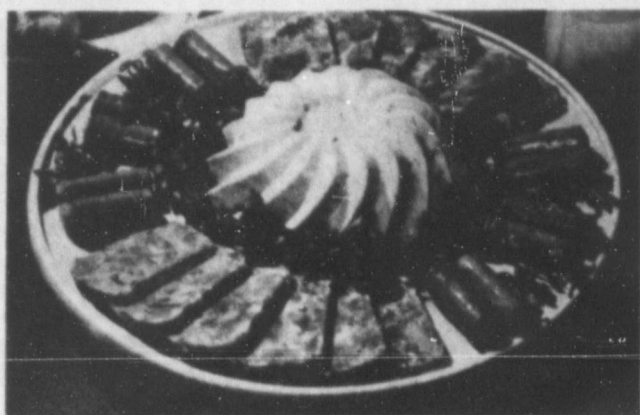

A main dish salad is a meal in itself—hearty and nutritious. Such a salad is usually built around meat, fish, eggs, or cheese in combination with salad greens and a zesty dressing. However, a light main course salad may be just a generous serving of canned fruit topped with cottage cheese or sherbet. Menus featuring main dish salads may be planned for luncheon, supper, or dinner. They're perfect for spur-of-the-moment meals too, since preparation and service are so easy.

A general pattern for a main dish salad menu goes like this: hot soup, the salad of your choice, a bread accompaniment, dessert, and beverage.

VIENNA'D MACARONI SALAD

Heap Vienna'd Macaroni Salad on salad greens in the center of a large serving plate. "Spoke" Vienna Sausages over the top. Arrange halves of deviled eggs around the salad.
Vienna'd Macaroni Salad: Cook 1 8-oz. pkg. elbow macaroni just until tender. Drain, blanch in cold water, and drain thoroughly. Combine with 1 cup chopped celery, 1 cup chopped Sweet Pickles, 2 tablespoons grated onion, and 1 can Vienna Sausage cut into thin slices. Blend 1 cup mayonnaise with 2 tablespoons juice from pickles, 1 teaspoon salt, and 1/4 teaspoon pepper. Add to macaroni mixture. Chill. 6 servings.

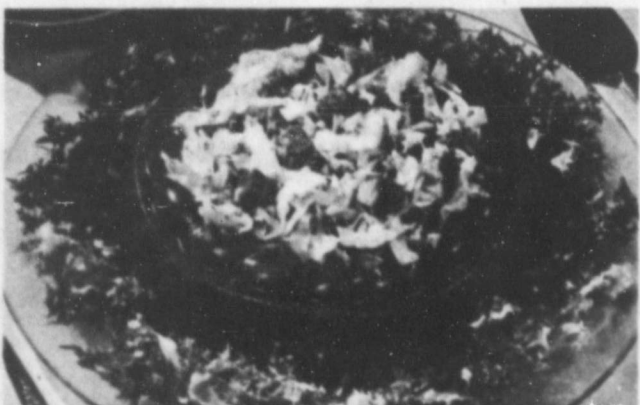

SPECIAL OCCASION MEAT PLATTER

Unmold Deviled Ham Mousse in the center of a large serving plate; surround with watercress. Arrange slices of kabbage Corned Beef and pairs of Vienna Sausage around the Mousse. Serve with iced Pineapple Juice.
Deviled Ham Mousse: Soften 1 envelope unflavored gelatin in 1/4 cup cold water; dissolve over hot water. Blend 3/4 cup mayonnaise with 2 3-oz. cans Genuine Deviled Ham, 1 1/2 teaspoons grated onion, 1/2 cup chopped celery, 1/4 cup chopped green pepper, and 1/4 cup chopped Sweet Pickles. Pour mixture into a pint mold; chill until firm. 6 servings.

SALMON 'N FRUIT LUNCHEON PLATE

Arrange a generous serving of Salmon Salad and a Molded Pear in lettuce cups. Garnish with potato chips, pickle fans, and watercress.
Salmon Salad: Combine the following: 1 1-lb. can Salmon, drained and flaked; 1/2 cup each, chopped celery and Sweet Pickles; 2 tablespoons chopped green pepper; 1/2 teaspoon salt; 1 tablespoon lemon juice, and 1/2 cup mayonnaise. Chill. 4 servings.
Molded Pears: Dissolve 1 pkg. lime-flavored gelatin in 1 cup hot water; add 1 cup gingerale. Chill until slightly thickened. Arrange Pear Halves, cut side up, in rows in a flat pan. Pour in gelatin; chill until firm. Cut so each piece contains a pear half.

TOMATO ASPIC WITH CABBAGE SLAW

Unmold a Tomato Juice Aspic Ring on a serving plate. Fill the center with cabbage slaw to which Corned Beef, cut in cubes, has been added. Garnish with lemon greens. Other fillings are: cottage cheese, potato salad, egg, chicken, or salmon salad.
Tomato Juice Aspic: (For the eight-inch ring mold pictured, make three times this basic tomato juice aspic recipe.) Soften 1 envelope unflavored gelatin in 1/4 cup cold Tomato Juice. Heat 1 1/2 cups Tomato Juice to a boil. Add 1 teaspoon grated onion, 1/2 teaspoon salt, and softened gelatin, stirring until the gelatin is dissolved. Pour into individual molds and chill until firm. 4 servings.

Youths "Speak Out" in 4-H Public Speaking

Youth today have strong opinions on many different subjects. And they aren't afraid to express their feelings. Through the national 4-H public speaking program, sponsored by Union Oil Company of California, 4-H boys and girls are encouraged to "speak out" on topics important to them.

Public speaking skills are stressed in the Cooperative Extension Service conducted program. 4-H'ers also are encouraged to use their talents in their everyday communications.

Besides the satisfaction of improving communicating ideas and thoughts to others, 4-H'ers in the program are

eligible for other recognition. Up to four medals of honor are awarded to outstanding 4-H public speakers in each county. The top 4-H boy and girl public speaker in each state receives a \$50 U.S. Savings Bond from Union Oil and a chance to be one of 18 sectional winners in the 4-H public speaking program. These youths receive expense-paid trips to National 4-H Congress in Chicago, Nov. 25-29.

At that event, six national winners are announced. Each receives a \$700 educational scholarship provided by the company.

One of the 1972 national winners says, "Old and young

alike will listen if I have something worthwhile to say and present it to the best of my ability." She is Jill Hopper, of Pueblo, Colo., an active 4-H public speaker who makes some 50 speeches a year.

In addition to appearing before local audiences, Miss Hopper has narrated local 4-H Dress Revues, made radio appearances promoting 4-H, assisted younger members in their public speaking work, and won many awards for her oratorical ability.

To hear these young speakers and to get further information on the 4-H public speaking program, contact the county extension office.

NOTICE TO PUBLIC

There will be a budget hearing on August 9, at 8 p. m. at the board room of the Jayton Public Schools.

The purpose of the meeting will be to examine the school budget for the coming school year.

All interested persons are asked to attend this meeting.

Signed: R. N. Pierce, Superintendent of the Jayton - Girard Independent School District.

NOTICE TO BIDDERS

Bids will be opened August 9, at 8 p. m. for the purchase of gas, oil, propane and milk for the 1973-74 school term, of the Jayton school.

Any persons or firms interested in submitting bids are hereby notified.

Signed: R. N. Pierce, Superintendent of the Jayton - Girard Independent School District.

NOTICE TO BIDDERS

The Commissioners' Court of Kent County will accept bids prior to 10:00 a.m. August 13, 1973 for the purchase of a new 1973 model vehicle equipped as an emergency life saving ambulance. A 1971 Ford Sedan may be offered as trade in. Interested bidders should contact Judge Norman Hahn, Kent County Courthouse, Jayton, Texas for specifications and equipment.

Signed this 17th day of July 1973.

Norman Hahn
County Judge
