THIS WEEK IN JAYTON

A NEWSPAPER IS MANY THINGS to many people. To some it is a reality, a living textbook that records each passing day of world history; to others, it is escape — a refuge of entertainment and relaxation after the day's chores. To the housewife, it is ideas for new menus and new clothes and sensible buying. To the mother, suggestions for raising the youngsters. To the teacher, a homework assignment on current events; to the children, a notebook item. To the lonely diner, a companion; around the family supper table, a topic of conversation. To sports and theater lovers, who and what is playing, when and where. To athletes and actors, scrapbook material. To an unknown, it brings fame; to a well-known, it furthers his fame. To the publicity seeker, it is a haven; to the publicity shyer, a source of annoyance. To the seller, it means a quick response; to the buyers, many questions. To some, it brings good news; to others, sad tidings. To friends and neighbors, it tells about promotions, school movements and who got married, who was born, who died. To the voter, it is guidance; to a politician, friend or foe. To opinion searchers, it stimulates thought.

Cotton Spraying Is In Full Progress

Kent County cotton farmers in the north part of the county are being sprayed in the Cotton Diapause Insect Control program. The spray program is in its third week in the county.

A total of 131 fields were sprayed during the first week, with 44 sprayed the second week and 71 during the third week. Farms are sprayed if boll weevil counts are ten percent in higher infested on each field. Malathion is the insecticide being used in

the control program. Sprayed at the rate of 16 ounces per acre, the spray program is aimed to keep the boll weevil from going into hibernation and to decrease the population next year.

The 1973 spray program completes the 10th year that the boll weevil diapause control program has been in effect. Other research is being done in Kent County to study the habits of the boll weevil, egg laying, hibernation, migration, and other habits.

Jaybirds Get Plowed Under In Opener Friday Night

The Jaybirds got plowed under 13-0 in their first game of the season encounter with Roscoe.

This week Coach English is trying to tell the boys what happened and why, and to effect remedies to see it does not happen again.

The opening plays of

each quarter proved to be the demise of the young, inexperienced Jaybird team. In the opening kickoff, a Bird fumble gave the Plowboys the set up at the Jaybird 23 yard line, and they went in and scored. On the kickoff after the half, Roscoe took the ball and rushed it all the way

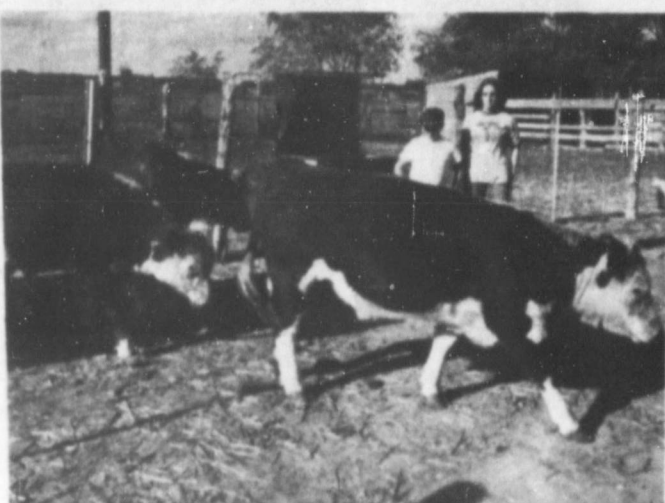

to the double stripe. And this was all the scoring in the contest. Again in the final period, the Kelley Brothers put together a good play that ended in the end zone as Bobby passed to Allen, but the officials were not exactly satisfied with the way things went on the beginning of the play and nullified the whole thing and wiped the scoring run off the record book.

Statistics across the board bear out the Roscoe victory, as the Plowboys led 12-8 in first downs, 204-64 in yards from scrimmage. The Birds held a slight edge in the air, hitting 3 of 11 passes for 24 yards, while the visitors hit one of 3 for 22 yards.

The birds drew 45 yards in penalties while the Plowboys were moved back 62 yards by the officials. The Jaybirds were forced to punt 7 times for a 31 yard average. The Plowboys punted 5 times for a 37 yard average.

This week the Jaybirds are readying themselves for the annual clash with the Spur Bulldogs. The Dogs, idle last week have a new coach who will be trying to get them in the win column.

The Circus Is Coming To Town

This is a picture of the largest Regal python on exhibition by the Fisher Bros. Circus which the Lions Club are sponsoring in Jayton on October for two performances at 8 p. m. Tickets are on sale by members at the low price of \$1.00 to everyone when bought from a member. If purchased at the circus ticket office they are \$1.50 for children and \$2.00 for adults, and all tickets are good for any seats in the big

top as the Fisher Bros. Circus does not have reserved seats.

Beside Congo who is over 20 feet long and weighs over 200 lbs. you will see a very good circus performance with elephant acts, trapeze, jugglers, clowns, balancing acts, something to entertain and please everyone.

Get your ticket in advance from the sponsor. Do this for three very good reasons. One, you save money on the adult

tickets, two, you don't have to stand in line at the ticket office, and last, but not least, you help the sponsor, Jayton Lions make and keep more money as they get a much larger percentage from the advance sale than they do at the door, so if you buy your ticket

from them in advance you put more money into various projects that they do to help better the community.

Not Cheap

A recent New York Times survey showed the number of American tourists visiting Europe this year had declined, and that those who did tour the Old World were spending less freely.

This is good news for America, which is struggling to equalize its international payments balance. More Americans have always traveled abroad than the reverse, and the money gap caused by this outflow of dollars is one of the causes of U.S. payments deficits in recent years, though a relatively minor one in the huge 1971 and 1972 deficits.

The fall of the once-mighty dollar, of course, has helped cause slowed tourism. It has, for Americans, sharply pushed up prices of everything along with inflation, so that Europe is no longer cheap by American standards. In fact, a good meal in European restaurants today costs more than at home.

For those who like to eat, then, and that includes most of us, better fodder, cheaper, is obtainable right here in the good old U.S.A.

The two rulers of Andorra, a small mountain state on the France-Spanish border, met recently to review problems which have arisen in recent years.

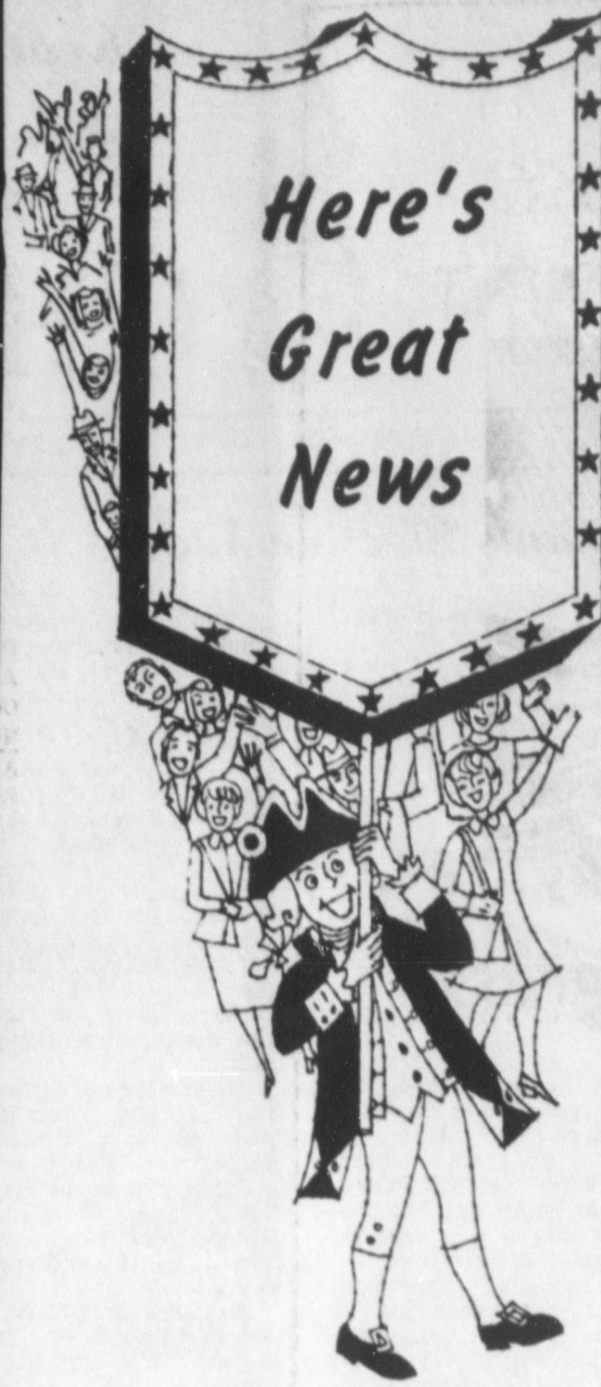

The rulers are the French President, who inherited that right from the French kings, and the Spanish Catholic Bishop of Urgel, who still retains his ruling authority, which goes back many centuries.

Andorra is a largely quiet country of only 20,000 inhabitants, and there is not much business, or many problems.

center of life

At our house bedtime reading ranges from the "just so stories" to the encyclopedia, from "Mary Poppins" to the Bible, depending upon Billy's interest.

And always there are the questions. "How high are the stars, Daddy?" "Where did the dinosaurs go?" "Daddy, did Adam love Eve?" "What makes electricity spark?"

How challenging to watch the alert mind of a youngster mature! I know I'll have to keep on my toes with new ideas in every field, if I want answers for Billy as his questions grow more profound.

Of one thing I am confident, the age-old truths of my church and the Bible never change. Integrity, responsibility and the love of God are a source of strength now as in every age. I have no qualms about teaching my son that God's Church is the center of a man's life.

The legislature is empowered to limit by general or special law the total principal amount of general obligations which may be issued, but unless and until the legislature acts to do so, the limitations established by statute with respect to the total principal amount of bonds which may be issued by independent school districts shall apply as the rate limitation on cities, towns, and villages.

The wording of the proposed constitutional amendment as it appears on the ballot is as follows:

"The constitutional amendment to authorize cities, towns, and villages to levy such ad valorem taxes as are sufficient to pay the principal of and interest on their general obligations hereafter issued subject to the restrictions provided by law."

NUMBER NINE ON THE BALLOT (S.J.R. 25)

Article VIII of the Texas Constitution is amended by adding a new Section 2C which:

Allows the Legislature, by general law, to exempt all real and personal property used by non-profit water supply corporations or cooperatives from all property taxes. The exemption would apply only to such property as is reasonably necessary to conduct the business of a non-profit water supply corporation or cooperative.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing the legislature to exempt from property taxes certain property used by a non-profit water supply corporation or a non-profit water supply cooperative."

FIRST PLACE SECOND PLACE THIRD PLACE

Join the fun. Guess the winners. Nothing to buy. Just circle the teams you think will win, fill in your name and address, and bring it to the Chronicle office, or get it into the mail before 5 p. m. Friday. Everyone is eligible except employees of the Jayton Chronicle, and members of their families.

Use this from here in the paper. Come by the office and we will give you a free form. Or, write it out on a piece of paper, in the same order as printed here, and that will do. The editor of the Jayton Chronicle is the sole judge as to the winner. In the case of tie, the amount will be shared. Be sure and mark the tie breaker score, which we will use in an attempt to break the tie. That is all there is to it, and you have a lot of fun. This contest is sponsored by the firms listed on this page. They are supporting the Jayton Jaybirds, Regional Champions, all the way.
