## Blow-out Causes Wreck

Robbie Gerold Taylor 18, from Spearman was driving East on Highway 15 Sunday, November 23 at 3:40 p.m. when the pickup he was in, a 1974 Ford F-100 had a blow-out. The accident happened 23 miles East of Stratford. He swerved to the right and the pickup rolled over 1 1/2 times before coming to rest on its side. Taylor was taken to the Spearman Hospital with minor injuries. He was the only one in the pickup and he was wearing his seat belt.

Dwayne Comp of White City, Kansas is the owner of the pickup.

## Police Department To Conduct Alcohol Safety Education Program

The Stratford police department will kick-off a six week alcohol safety education program beginning this week. Included in the program will be the distribution of, "The National Alcohol Awareness Test" at the public schools; free anti-DWI bumper stickers and other items that the police department will utilize to educate both parent and young people on the ever increasing number of people who drink and drive. Also, through the cooperation of the "The Stratford Star", The Police Department will implement a series of public service advertisements.

"In the time it took you to read the first sentence of this paragraph, at least one teenager was killed or injured in a drunk driving accident, and chances are, the drink involved was beer. What most kids don't know, and what most parents and teachers don't teach, is that a typical 12 ounce can of beer is just as "strong" as a glass of wine or a cocktail with liquor," says Chief Dennis Davis.

"The goal of the Stratford Police department is to provide the necessary education to our young people emphasizing the point that a drink is a drink is a drink. Too often, young people have the misconception that one particular type of drink containing alcohol is "not as bad" as another; this program is being implemented to dispell that misnomer," Davis continues.

The Police Department acknowledges that many young people do not drink and probably will never drink. However, there will be or already exist a large percentage of young people who will experiment with alcohol—many of whom will do so while operating an automobile.

"We feel that we need to teach equivalence because the public has been seriously misled. There is no television advertising for liquor, but there is for beer and

wine. Television tells our kids that beer is part of sports. Mountain streams are the backdrop for "Refreshing" beer commercials. Wine is the key to sophisticated entertaining. The most powerful medium in the world brings beer and wine into our living room and makes us comfortable with them. Along the way, our society got the impression that beer is just a "Thirst Quencher", and wine is "Light", and we forgot about the alcohol. Our educational program will help set the record straight. It is a fact that 12 ounces of beer, 5 ounces of wine, and 1 1/4 ounces of liquor are equal in alcohol content. Let's not let another kid get behind the wheel of a car thinking it's safe to drive because he drank "Just" beer, Davis states.

DWI is the most urgent traffic safety issue facing us today. Eight thousand teenagers and 20,000 adults are killed each year as a result of drunk driving. Nearly 30 percent of the police officers who die in the line of duty are the victims of persons abusing alcohol. Two-thirds of the drivers in those accidents were drinking beer.

We all know that kids need to understand that drinking and driving do not mix. But it is equally important for them to know that beer and wine are just the same as liquor.

Chief Davis encourages citizens to obtain an "Anti-DWI" bumper sticker from the Police Department.

### DON'T DRINK AND DRIVE

One simple, unbreakable rule about alcohol and driving: Drinking and driving just don't mix.

All too often, people forget the true nature of what they're drinking. They get behind the wheel of a car thinking they've only had a "couple of beers" or "just a little wine."

The fact is that a 12-ounce glass of beer, a five-ounce glass of wine or 1-1/4 ounces of liquor contain the same amount of pure alcohol, about half an ounce. So, whether it's beer, wine or liquor — none of them mix with driving.

These can be old bears, best loved bears, unusual bears, or just sociable bears. Please bring your bear(s) to the museum by December 10 (with your name firmly attached to each bear) so they can all join in the fun. The party will be Sunday, December 14 from 2:00 to 5:00. Dear Readers:

On The Edge of Common Sense by Baxter Black, D.V.M.

### The Mall

Small towns are takin' a beating. The depressed agricultural and oil economy has a lot of 'em staggering. But there is another more insidious menace that's been closing the small town businessmen door. It's that hangout of teenagers and out-of-work Santas alike; the shopping mall.

I've always preferred to park in front of the store I was shopping in. Parking at a mall requires a wilderness guide. There are three million cars crammed on six sections of bubbling asphalt or glacier ice. Unless you are driving a pink 18-wheeler with a load of giraffes, you may never find your car again.

When you walk through a mall you could be in Abilene, Edmonton, Des Moines or Denver. The stores are alike. The merchandise is the same. The air is filtered and maintained like a hog confinement shed, and interchangeable robots take you money.

I appreciate a merchant rememberin' my name, not having to call the IRS or the

KGB to take my check and offerin' to order something for you if they're out.

But not everybody likes it that way. Many prefer to shop anonymously. There is no such thing as loyalty to a chain store in a mall. You can always look for the cheapest price without feeling guilty. It's convenient, one-stop shopping. And they take that universal bus token; the credit card.

Small town businesses depend on local resident to survive. But good roads, cheap gas and chain store advertising lure even the most civic minded small town citizen to drive a hundred miles to buy furniture, clothes, cars, even groceries.

Those of us in agriculture should understand. You know how we feel when our neighbors buy Argentinian beef or New Zealand lamb. "Buy it at home!" we say, as we get in our Toyota, put on our Mexican boots and drive to the nearest big city shopping mall.

Small town businessmen have no God given right to survive. They are not a protected species, anymore than farmers or ranchers. But we need each other. Our purchases, even little ones, are important in small towns. In a shopping mall you're just another blank face with plastic money.

**COYOTE COWBOY RULE OF THUMB:** Never shop anywhere they have to ask for your I.D. to take your check

# Beat Check

By Dennis Davis

For at least the next four or five weeks, I would like to alternate a two-week compilation of "Beat Check" with a "Crime Prevention" topic.

Due to several of our local citizens having questions concerning door-to-door salesman, I felt that the following information might prove helpful.

One of the most frequent consumer "Rip-offs" is the door-to-door sale scam. Products frequently sold door-to-door and misrepresented include home improvements, such as siding and storm windows, funeral service contracts, books, and magazines. Naturally, not every door-to-door seller of these products makes misrepresentations. However, when someone solicits you at home, you should know your rights and how to avoid becoming a rip-off victim.

There are some specific legal definitions of door-to-door sales, what is covered, and what isn't. A door to door sale (under the law a "Home solicitation transaction") takes place whenever the consumer is at his residence or the residence of another person and purchases goods or services payable in cash or installments of more than \$25.00. \*Sales of farm equipment and insurance are not regulated under this particular law.

\*If the consumer purchases real estate, the cost must be more than \$100.00 and he must be at his own residence, without an attorney or broker to assist in the transaction.

\*The solicitation must be made in person, not over the phone in order for the law on door-to-door sales to apply. But the law will apply if any part of the solicitation involves the seller coming to your home or workplace.

Be suspicious of anyone who tries to sell the service or product by playing on your emotions.

For instance, some sellers will suggest you are neglecting your responsibilities to your family if you don't buy their product.

Be suspicious of anyone who tells you he is selling the service or product at the lowest price or who tells you his competitors do bad work.

While listening to a T.V. choir Sunday A.M. as it sang "Come, Ye Thankful People, Come" we decided that the clause was a good introduction to Scot Notes this time-calling Sherman County Old Timers to again express our thanks to all who helped make the Thanksgiving dinner and meeting such an enjoyable occasion for us. Our first thanks go to the Prospectus Study Club for the planning and work involved in cooking the turkey, dressing and gravy as well as the preparation for serving food to the 120 registered guests. Special thanks to the Girl Scouts, Brownies, Daisies and their leaders for the beautiful table decorations which later were given as door prizes. Grateful thanks for the turkey provided by Riffe Elevator Co. and to Thriftway Groc., First State Bank, North Plains Savings & Loan for personal gifts of treats, first aid kits, calendars, and pencils for each one present-from non-smokers Ass'n came gifts of "Thank-you-for-not-smoking" stickers and books of headless matches!

**T.L.C. Corner**

All of us here at T.L.C. are very proud of "our" kids and curriculum. Regular students include Kathryn and Wesley York, Brady McMillion, Derek Harris, Carson Buckles, Justin Wright, Amy Robbins, Shelli McCarver and Jennifer and Brian Rhoden. From time to time, we have other children drop in for the day.

Among other things this past week, we made 3-D fish scenes with clay; a "Sail Away" mural; cylinder-shaped Indians; Pilgrim and Indian headresses; and lady bugs. We also put one of our many dolls in the hospital and nursed her back to health.

In our language lessons we learned about the letter "Hh" for Happy Harbours and the "h" house and started learning the letter "Ii" for Indians.

Songs we have sung include Over in the Harbour, My Rag Doll, Indian Drums and Did You Ever See A Happy?. Along with learning these songs we learn to move our bodies in games such as: moving insect pantomimes and Indian dancing.

Other activities include "Hairy Heads", a science project involving growing grass, "Healthy Henrietta" and a study of insects. "Ten little Indians go Hunting" was the title of this weeks drama. In math class we learned the number 7, the drum counting game, we matched sizes and shapes and sorting by numbers.

Daily activities include the Pledge of Alligience, a Bible verse, recognition of each child's name by phonetics and recognizing the days of the week and month. Each Wednesday, all the children go to Coldwater Manor visiting. For Thanksgiving we will be taking a fruit and

vegetable basket to the residents of Coldwater Manor.

We will be starting a new program here at T.L.C. Starting December 2, 1986 we will have a regular pre-school class on Monday, Wednesday and Friday from 9-12 a.m. or 1-4 p.m. Cost will be \$40 per month and

will include children ages 2 years up to kindergarten age. Vicki Gore will be the teacher. She is a licensed, experienced school teacher. Curriculum will include all basic pre-school language, math, science, art and motor skills. Call 2038 for more information and to pre-register your child.

## Check Safety To Make The Holidays Bright

- Before hanging strings of lights, spread them on the floor and check for frayed or bare wires, cracked insulation, loose connections, and damaged plugs or light sockets.
- Check extension cords for wear or damage and don't run them across walking areas.
- Test lights before putting them on the tree. Unplug them before making repairs or replacing bulbs.
- Overloading circuits with too many lights can cause fire. Follow manufacturer's instructions about the number of lights allowed on one circuit.
- Choose a fresh, green tree, trim its base and keep it in plenty of water. If the needles are brown and break off easily, it could be a fire risk.
- If you buy an artificial tree, make sure it has been tested for flammability by Underwriters Laboratories (UL).
- Place your tree away from the fireplace or other heat sources and out of the traffic pattern.
- Never string lights on a metallic tree. Light strings with damaged insulation can electrically charge a metallic tree. Instead, shine unattached colored floodlights or spotlights on the tree.
- Always turn off lights before leaving home or going to bed. You'll save money and be safer, too.
- Never use lighted candles on a tree or near evergreens. And don't burn evergreens in the fireplace.
- Do not use inside lights on the outside. All outside lighting equipment, including lights, cords and plugs, should be waterproof and made for outdoor use. Also, hang sockets downward and don't leave a socket empty.
- When hanging lights on the rooftop or in tall trees outdoors, stay clear of electrical lines. Make sure you or your decorations don't come in contact with them.
- Should you receive a CB radio or television this Christmas, let a qualified serviceman install the CB base unit or television antenna for you. This delicate job is best left to the professionals.
- Be sure electrical toys are tested for safety. Look for the UL mark.

Wishing You A Safe,  
Happy Holiday

## Beat Check cont. from Pg. 2

(3) Provide the consumer with a notice of cancellation giving the consumer the address where he may send written notice of the cancellation.

(4) Also, if the seller made any "Improvements" to your property and you want it restored to its original condition, the seller must do so.

(5) Unless the door-to-door salesman is selling insurance or farm equipment, Stratford city ordinance mandates that he be in possession of a permit issued by the city allowing him to sell door-to-door. Don't be too bashful to ask to see his permit! (The permit allows the police department to "Check-out" the subject and his product.)

If the seller has provided you with the right forms, you may simply sign the one titled "Notice of Cancellation," date it, and mail it to the merchant's address. In order to obtain a full refund, you must do this before midnight of the third business day after the sale. Keep a copy of the form.

If the seller did not provide such a form, you may still cancel your

contract. Because the seller has violated the law in failing to provide the form, the buyer has extra time. But remember, you must cancel in writing. Be sure to keep a copy of the contract and your letter notifying the seller of cancellation. The sooner you do this, the better.

(1) After you cancel, the seller has 10 business days to either refund your money or return any note you may have signed in connection with the sale.

(2) The seller of the goods must notify you within 10 days whether he intends to retrieve the goods or abandon them. He may not require you to mail or ship the goods back to him.

(3) If the seller fails to notify you of his intention to repossess the goods within 20 days after cancellation, you cannot be forced to return the goods at a later date. You, the consumer, will not be required to return goods to the seller until you have recovered either your money, your note, or both.

Don't be pushed into signing a contract or giving your money to a salesperson unless you're sure you want the product. Take time to think about it. You should always do some comparison shopping. Remember, any

time you get a "once in a lifetime" offer, you should be suspicious.

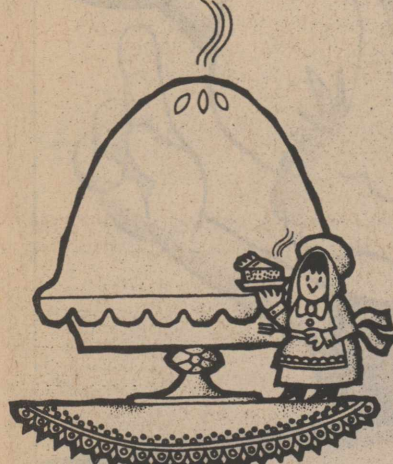

You must receive a notice of cancellation under Texas law. You always have 3 days to cancel the contract,

regardless of whether you have received any goods or services.

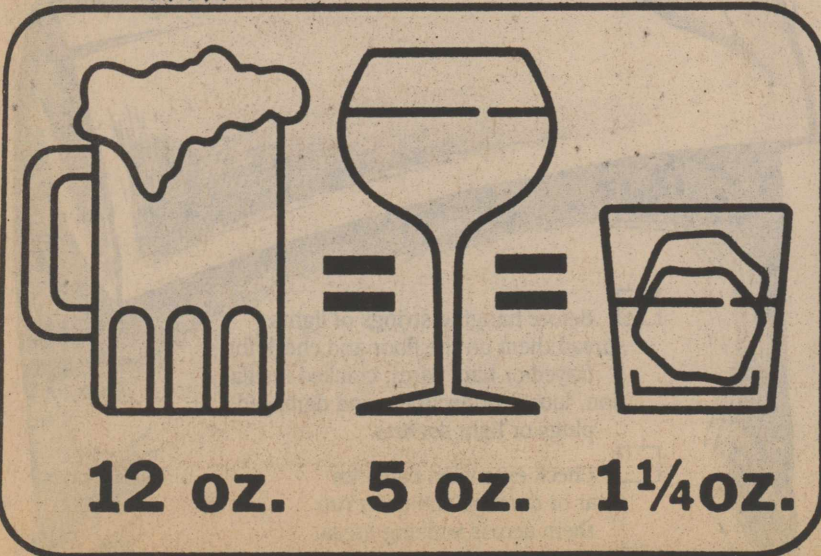

Keep your receipt or contract and a copy of your notice of cancellation. You may need them if you must

seek legal help.

And last but not least, contact the Police Department if you are suspicious about any person attempting to sell you something door-to-door.

Go figure it: the only recorded instance of a go-kart being driven around the world was a circumnavigation in 1961 over 23,300 land miles.

### 'Plain - View' of Griggs

We have all been enjoying the pretty weather the past few days after our spell of winter. The milo farmers are also glad to be able to get on with their cutting.

Our love and best wishes are extended to those of our community who are ill, Rev. Lloyd Mattocks and James Elms.

Mrs. Mildred and Betty Grabeal left last Saturday and drove to Hammon Okla. to visit the Larry Grabeals and Tim Grabeals, then on to Lone Wolf where they visited Mildred's brothers and families of Lewis and Harold Downen and a sister and husband Mr. and Mrs. Steve DeAnda visited Mildred Grabeal last Monday. Martin and Bonnie Grabeal and Charley ate Sunday dinner with Mildred and Betty.

Anita Elliott and Lois Cayton went to Amarillo Saturday to visit Rev. Mattocks at the Veterans hospital. His room number is 374. There will be a

missionary speaker from Kenya Africa at the Church of God next Sunday.

Erin Kincannon from Boise City spent the weekend with her grandparents Mr. and Mrs. Leroy Kincannon. The Ronald Kincannon joined them for Sunday dinner.

Mr. and Mrs. Darrell Ferguson of Dalhart spent Saturday night with the Albert Fergusons.

The Marella women entertained at the Boise City Nursing home Tuesday afternoon.

The Howard Warrens were Sunday dinner guests of the Ralph Warrens.

Mr. and Mrs. George Twombly went to Perryton, Texas Sunday to attend the wedding of Ralph Hedley who used to be in camp with George. He saw several other friends he hadn't seen for 50 years so it was a very enjoyable occasion for them.

Please call 6478 if you have any news.

### Worley Initiated Into Alpha Chi

Shelly Worley of Texhoma was recently initiated into Alpha Chi during ceremonies held in the Panhandle State University ballroom.

### Texhoma Tattler by Clara Brock

(FORMERLY HOMEBEAT)

United Methodist Women heard another in the series "Our Indian Heritage". Emphasis was placed on the customs, life-styles, trials and tribulations experienced by these native Americans--In particular, the lack of communication-broken treaties, disease and hunger-some of which can be blamed on the white man in the early years of our country's settlement.

Several cards were signed and sent to local shut-ins.

Hostess, Mrs. Jim Berry, served refreshments to mesdames Wanda Vinson; Altha Brown; G.G. Freeman; J.A. Palmer; George McDaniell; Edgar Royse; L.D. Rhoden; Jan Putnam and Glenn Nusz.

Lee Atchley is at home following a month's stay in an Amarillo hospital. she feels that the love and concern shown her speeded her recovery.

Dayle Bunch, 69, youngest brother of Lonnie King, passed away November 18. He had taught in the Pleasant Valley school in Amarillo for many years-had been a teacher more than 40 years.

Bill and Robbie Baber are happy to announce the arrival of their son, Bradford Wyatt born November 19, 1986 at High Plains Baptist Hospital, Amarillo, Tx. He weighed 6 pounds 7 ounces and was 18 inches long.

He has two sisters, Jenni

and Mandi.

Maternal grandparents Mr. and Mrs. Robert Bradford of Dalhart, Tx and great grandmother Lyons of Waynoka, Ok.

Paternal grandparents are Frank and Rose Baber and great grandmother Gertrude Baber, all of Texhoma and Amanda Davis of Wapakoneta, Ohio.

Mr. and Mrs. Leonard Stumbaugh of Gridley, Ca are visiting their sisters, Margie Martin and June Fox and other relatives-an early arrival for a Thanksgiving visit.

Texhoma Rebekah Lodge #290 met in the community center November 20 with noble grand, June Fox, presiding.

Officers for the 1987 term were elected as follows, Nellie Miller, noble grand; Elizabeth Howard, vice-grand; Bernice Noble, secretary; Marie McKinley, treasurer; Ila Fry and Ruth Stump, trustees; June Fox, degree captain and May Ellen Turpen, drill captain.

Gifts of corsages were presented to Ila Fry, outgoing lodge deputy and Clara Brock, incoming lodge deputy.

Delicious refreshments were served by Elizabeth Howard and May Ellen Turpen to June Fox, Ila Fry, Bernice Noble, Marie McKinley, Sherry Beck, Ruth Stump, Nellie Miller and Clara Brock.

### Collector Show & Sale

Keyes Collectors Club will be sponsoring a Collector Show and Sale November 29 and 30, 1986, at the Cimarron County Fair Building in Boise City, Oklahoma. Hours are 9-6 Saturday and 9-4 on Sunday. For information you may contact Dick Clifford, Box 45, Keyes, Okla. 73947. Phone: 405-546-7286 or 405-546-7686. Dealers may set up displays after 4 p.m. on Friday. Refreshments will be available and a guard on duty.

### Conservation Compliance

A list of highly erodible and potentially highly erodible soils was released this week by the USDA Soil Conservation Service as mandated by the Food Security Act of 1985.

The list revealed that all land in Sherman County is highly erodible. All acres in cropland are considered as highly erodible due to the wind erosion susceptibility.

The conservation compliance provisions of the Act denies most USDA farm program benefits to farmers who farm highly erodible land unless the land is being farmed in accordance with a conservation plan approved by the Sherman County Soil and Water Conservation District.

The Act allows a grace period for those who are not using a conservation plan. They have until January 1, 1990 to develop and begin actively applying a plan. They have until January 1, 1995 to have the plan fully in effect.

The provisions will have no effect on farmers who are using up-to-date conservation plans. If you are farming highly erodible land with a conservation plan, check with your local Soil Conservation Service office to find out if it meets conservation compliance provisions.

"We are ready to help anyone prepare a conservation plan that doesn't have one," Richie Brotherton, district conservationist for the SCS said. "We will be able to write a conservation plan containing the essential conservation practices to keep them in compliance with the 1985 farm bill." This plan simply tells farmers what they need to do to maintain compliance.

Such plans may include crop rotations, crop residue management, conservation tillage, and other measures.

Farmers with highly erodible land may also want to consider placing it in the conservation reserve, Brotherton said.
