

# All About Nothin'

My habit of backing up to stoves proved to be a bad practice Friday when Rev. O. B. Herring asked Dorothy and me to stand for the wedding ceremony. When I rose to my feet and found my knees steady enough, instinctively my uncertain underpins carried me to a position too near the stove. With a blazing fire at my back, a minister standing in front and an equally nervous bride-in-the-making at my side, I was uncomfortable and scared during the rite. In shows you have noticed the bridegroom fumbling the ring part of the ceremony. I always thought that would never happen to me when I married. But it did. To begin with, I reached into the wrong pocket for the band. When my shaky fingers finally clutched the ring and drew it out to a position just above the top of the pocket the band slipped. When the juggling stopped, the ring was hanging from a button on my vest.

Mr. and Mrs. Frank Craddock were the first local pair to be married in 1937. Jan. 3. Dorothy and I were the last Abernathy couple to say the "I will's", Dec. 31 at 6 p. m.—We have been married since last year—After the ceremony we went to Amarillo. The last time she and I went to that city, last Thanksgiving, we missed death by inches in an automobile accident—Rev. Herring took time out from helping the editor of the Happy Herald to read the wedding rites for the Review's editor, Bro. Herring, an ex-newspaperman, still likes to work in a print shop when he is off from preaching duties—Wonder if we will get the usual presents offered by this column, a free pass to the Rita theatre and 3 months' free subscription to the Review?—We'll take the theatre pass.

—:000:—  
This baffled me:  
Lawrence Carter walks into a local cafe and orders a T-bone steak; the waiter yells, "Bowl of soup," to the cook and cook checks back with "hamburger" and Carter gets a bowl of beans.  
Like Gracie Allen. "I don't get it." Or, maybe I'm the one who is crazy.

—:000:—  
Now I'm confused. This week I have received enough pointers on how to get along with the wife to start a "Voice of Experience" column. Men who have survived the onslaughts of matrimony for years have given me advice on this subject. I thought I had mapped out a course that would keep me out of the dog house, but it doesn't coincide with all the methods given by these men of experience. If you gentlemen who are halter broke will continue giving me advice, I will use the best parts of it for my particular situation.

Note to those who have asked: Mrs. BFD can cook cornbread and she is generally a good cook. All I have to do now is to bring home the bacon.

Which reminds me. If your subscription to the Review is not paid—please.

"If elected to this office, I will co-operate with other members of the commissioners court in handling affairs and moneys of the county with the same business-like administration as if it were my own personal property.

"If I am elected, I will at all times welcome the advice, consultation and suggestions of the people of my precinct in trying to serve you as best I know how.

"I earnestly solicit your support and influence and appreciate your investigation of my qualifications for this office. Please feel free to ask any questions of me in regard to my stand on various county issues."

## H. M. LAFONT IS SEEKING ANOTHER TERM AS JUDGE

County Judge Harold M. LaFont has authorized the announcement of his candidacy for re-election to the office of County Judge of Hale county.

"I have endeavored to perform the duties of the office of County Judge to the best of my ability and have earnestly tried to do those duties with fairness and impartiality toward everyone. I believe that the experience I have had in the past will equip me to serve the people of Hale county, if they see fit to re-elect me. Every man is said to have his peculiar ambition. Whether it be true or not, I can say, for one, that I have no other so great as that of being truly esteemed of my fellow men, by rendering myself worthy of their esteem.

"I appreciate sincerely the confidence that the people have had in me in the past and if they see fit to re-elect me to this office I know of no other way to merit that confidence and support than to make for them as good an officer as is in my power. May I take this opportunity to solicit your support at the primary election."

## Mahon Says Farm Bill May Not Fit This Area

Congressman George Mahon last week, while at his home in Colorado made the following report as to the progress of farm legislation in Congress.

"During the Special Session of Congress the house passed a farm bill differing somewhat from the House bill. Before the farm bill can become law, both houses of Congress must come to full agreement, and the President must approve. These combined bills are 206 pages in length, and a full analysis could not be made in a brief report.

"Having talked with thousands of West Texas farmers before going to the Special Session, I believe I have a sufficient knowledge of their wishes, and the situation in general, to express the opinion that they will not be satisfied with either the House or Senate bills as now written.

"In the first place, over the opposition of all Southern members of Congress both bills were amended so as to prohibit the grazing of diverted acres if proceeds therefrom, such as livestock and produce are to be sold. Northern dairy interests sponsored this amendment. This amendment is a step backward, and unless eliminated will cause much dissatisfaction. Secondly, I see nothing in the bills which will prevent a recurrence of five cent cotton, as parity price, or above is in no way assured for any portion of the crop.

"As to the compulsory features of the bills, compulsory marketing quotas would be established for each farm if two-thirds of the producers voting in a referendum favored the compulsory quotas.

"The bills contemplate an appropriation of \$500,000,000.00 for soil conservation and domestic allotment payments for 1938. Acreage allotments to each farm in the county would be on the same percentage basis, thus placing all farms in the county on a basis of equality as to acreage allotments. This and several other features in the bill are a distinct improvement over the old program. Unfortunately, however, the uniform percentage basis for allotments would not apply to farms in cultivation less than five years. An amendment offered by me to fully remedy this was voted down but some modification was secured. An amendment to the House bill offered by me to discourage the undue displacement of tenants was adopted.

"It is not possible at this time to tell just what changes will be made prior to the final passage of the new farm bill."

Mr. and Mrs. V. Stambaugh, Janell Stambaugh, Mr. and Mrs. R. E. Risinger visited near Hereford Sunday.

## AT THE RITA

### "DANGER, LOVE AT WORK"

Sunday-Monday At Rita  
Completely crazy, downright daffy, this film, starring seven big name stars, is one of the funniest turned out by Hollywood in months. There's not much story, other than Jack Haley tries to buy a farm from a wealthy family, and gets the family's daughter's hand in the deal—amid gobs and gobs of old-time slapstick comedy. Ann Sothern is the girl. Others in the cast are Edward Everett Horton, Mary Boland, Walter Catlett, Bonnie Bartlett and that villain fellow, John Carradine, playing his first light role.  
Also at the Rita will be an Our Gang comedy and a M-G-M miniature musical.
