County Judge Roberson Speaks At Disaster Training Meeting At Weinert

A timely and thought-provoking program was presented by County Judge B. O. Roberson at the Weinert School Auditorium Friday, January 29, when he challenged his audience to be prepared for any disaster that might befall them. He said that "Even an algebra test can prove disastrous to an unprepared student, but preparation makes any disaster not quite so bad."

Judge Roberson showed a film on fire prevention, which also gave statistics as to the number of lives and amount of property that is destroyed in our nation every minute of the day and night, caused by someone's "carelessness."

The program was sponsored by the Haskell Memorial Hospital Auxiliary and Mrs. M. W. Phemister, president, was in charge of the program. She introduced some of the special guests, which included Jim Silberman, Director of Nurses of Haskell Hospital; Rod Jeter, Lab Technician of the Albany Hospital; Jerry Weatherly, Lab Technician of Haskell Memorial Hospital, and Danny Tollison and Mrs. Marie Ivey of Haskell County Farm Bureau.

After the conclusion of the program, Jerry Weatherly set up his blood typing equipment, and assisted by Mr. Silverman and Mr. Jeter, typed the blood of all those who desired to be typed. Mrs. Ivey assisted with the recording, and a list of blood types will be recorded at the hospital and also at the Farm Bureau office. This part of the program was sponsored by Haskell County Farm Bureau.

January Produces Only Trace Of Moisture Here

Normal rainfall for January is .91 of an inch.

Lowest reading for the month was a frigid 4 degrees above zero on January 5th. Highest reading was on January 13th when the temperature climbed to a warm 79 degrees.

The last general rains in Haskell was back in October, 1970, when 2.54 inches was gauged for that month.

Various Projects Discussed Tuesday At Chamber of Commerce Meeting

Officers, directors and other members of the Chamber of Commerce met at 7:00 p. m., Tuesday, February 2, at Fekler's Restaurant for a regular board meeting of the civic organization with president Bob Philpot presiding for the dinner meeting.

The meeting, designated as a "Membership Meeting" was the initial kickoff program for what directors hope will be a regular monthly affair with more and more Chamber members in attendance each time it is held. This particular type of meeting has been in the planning stages for the past two or three months but due to the holiday season, it was decided to begin the regular monthly membership meetings early this year.

Other than the presentation of the monthly financial statement, the usual business of the board was dispensed with to devote more time to the informal and open discussions of trade programs affecting the future business climate of Haskell.

The chief topic for discussion was the status of the present Dollar Day promotion which has been staged in Haskell for the past 19 years as a monthly event. Due to the recent raise in postage and the fact that several merchants who had been participating in the popular program dropping out, the circular type distribution was stopped in January of this year. However, the consensus of opinion of merchants present, a general re-vamping of the entire program as to number of days and time of month to hold it along with going back to the direct mailing and hand delivery in Haskell and Stamford was deemed necessary to obtain the full benefits of Dollar Day.

Charles Thornhill, manager of the M System Super Market, Mrs. Opal Adkins of the Personality Shoppe, and Mrs. W. V. Felker of Lane-Felker each took a few minutes to stress the importance of Dollar Day for the Haskell trade area.

Excellent participation was received and numerous ideas suggestions were made for the proper solution which would enable Haskell merchants to continue with the popular monthly program. These suggestions will be screened by a special committee appointed by President Bob Philpot for the purpose of combining the best features into one outstanding production to present to Haskell business men and women in a package deal.

Charles Thornhill, Opal Adkins, Mattie Muriel Felker, Loraine Johnson, R. A. Lane, Frances Lane, Nina Cook and Haskell Free Press Publisher Bill Comedy compose the special committee.

Present for the meeting: Don Perry, Dr. T. W. Williams, Mr. and Mrs. Loraine Johnson, Sue Fincher, Nina Cook, Mr. and Mrs. Charles McCauley, Mr. and Mrs. W. V. Felker, Barney (Continued on Page 5, Sec. 1)

Do You Want To Keep The Hospital?

In order to keep the Haskell Memorial Hospital for the convenience of the citizens of Haskell County, Medicare has imposed regulations on the building and staff of the hospital and the present tax revenue is not adequate to maintain what the hospital now has, and keep it around the clock.

The recent bill passed by the 91st Legislature did not relieve the situation because the hospital was staffed with nursing personnel before the bill passed. The bill does not mean that registered nurses are no longer needed to comply with Medicare, it just extended the time limit in which to obtain 24-hour coverage of registered nurses.

It is the consensus of opinion of many Haskell County citizens that it is better to pay taxes in Haskell County Hospital District and keep the hospital here than lose it and possibly have the district abolished and pay the same tax revenue in some other county.

Some of the things which are desperately needed in the hospital are:

1. Piped oxygen.
2. Modern heating and cooling (present one installed in 1939, patched together with cast plaster).
3. Patient rooms and furniture modernized.
4. Drug room moved out of basement.
5. Medical records room moved out of a patients room.
6. Lobby too small, very inadequate and new furniture badly needed.
7. Small chapel.
8. Office space due to Government regulations and increased records.
9. Autoclaves (sterilizing equipment).
10. Emergency room too small.
11. Modernization of operating room and emergency room for safety of patients.

Not only does the hospital meet the emergency needs for the patient, but it is much easier for the patient's family to have the patient close to home.

The hospital has wonderful nursing service and the doctors are the greatest, and it means a great deal to you when you have this personal concern and care for your family when they are ill.

Mr. Ron Jeter of Albany, Mr. Weatherly and Mr. Silverman, anasthesis of the Haskell Memorial Hospital, and Mr. Danny Tollison and his secretary, Mrs. Ivey, of the Farm Bureau, were present.

The guest speaker, Haskell County Judge B. O. Roberson, gave an interesting and informative talk on tornadoes, as the season is approaching. He also showed a film on fire and the tragedy of carelessness and what to do when fire breaks out.

At the conclusion of the program, the blood of all who wanted to be typed was taken by Mr. Silverman, Weatherly and Jeter.

On February 1st at 1:30 p. m., the Haskell Hospital Auxiliary held a special meeting at the community room of the Haskell National Bank, with the president, Mrs. Marvin Phemister, presiding.

Mrs. R. Y. Mobley brought an interesting thought for the day... "What Have I Done and Where Have I Gone to Do Good for Something or Somebody?" Miss Nettie McCollum, secretary, read the minutes of the last meeting and treasurer's report.

Jim Silverman, of the Haskell Memorial Hospital, spoke on plans for the Auxiliary in distress areas and emergency happenings and medical knowledge. He stated that in case of heart ailment everyone should know what to do at once, soon as possible as to resuscitation lest the case be fatal.

Mr. Silverman discussed conducting classes on the "know-how" in handling such cases,

but it is urgent to purchase the necessary equipment for starting such classes in cardio resuscitation. It was voted to search further into these plans before buying the needed equipment.

He reported the bill also raised income limitations that determine if, and how much, VA pension can be awarded to disabled veterans, and widows and children of deceased veterans.

VA pension is paid for disabilities and deaths not due to military service.

The new law was designed to avoid a drop in income for those "current law" pensioners whose Social Security increased during 1970 and who would have had veterans pension benefits reduced beginning January 1, 1971.

An increase in benefits was also given to parents receiving dependency and indemnity compensation (DIC).

Coker said the income limit controlling the receipt of pension was increased by \$300 for both "protected" and "current law" pensioners, as well as parents receiving DIC.

Increases of 10 percent were also authorized for veterans on the current law pension rolls entitled to aid and attendance, as well as for widows receiving death compensation, DIC, or current law pension. The household rate for veterans entitled under the current pension law was also increased by 10 percent.

The new law also removes the requirement for persons age 72 or older who have been in receipt of VA benefits for two consecutive years to file annual income questionnaires, although they are still required to report

5. Certain payments from the military retired family protection plan.

The exclusion applying to the military retired family protection plan also now applies to DIC parents.

Garden Mulches And How To Use Them Is Subject of "New Leaflet"

Garden mulches and how to use them is the subject of a new leaflet available from the USDA Soil Conservation Service.

J. C. Yeary, Jr., SCS district conservationist at Haskell, said the leaflet "Mulches For Your Garden" has the best and most concise explanation of how to use mulches and compost in a garden that he has ever seen. "The leaflet explains how mulches cushion falling raindrops which reduces soil loss and soil compaction," Yeary said. "Mulches keep soil cool in the summer, conserving moisture; they also furnish food for earthworms which are valuable for aerating the soil. Organic matter added by mulches helps keep soil crumbly and easy to work."

Yeary said some mulches are more valuable if composted before using. The new publication shows how to build a simple compost bin out of wire or boards and is complete with drawings and pictures.

The leaflet lists the number of cupsful of various kinds of fertilizer, wood ashes, or epsom salts to add to a bushel of compost to speed decomposition and to increase the compost's plant nutrient value. Details are also given on how to make acid compost for use with azaleas and rhododendrons.

Proper handling of mulches is one of the most important but least understood soil and water conservation measures used in Texas," Yeary said.

The date for the next membership dinner meeting was set for the night of February 16th with time and place to be announced at a later date.

All members of the Haskell Chamber of Commerce are urged and encouraged to mark these special meeting dates on their calendar and make plans to be in attendance because the workings of the chamber will have greater impact if more members participate in the planning sessions.

President Philpot urged those present to push the ticket sales for the 35th annual banquet meeting of the Chamber of Commerce to be held on Saturday night, February 13th, in the Elementary School at which time the featured speaker will be the Honorable Jim Reese, Mayor of the City of Odessa, Texas.

Rotarians And Guests Hear Biard And Hunt

With the president, Bob Herren, presiding, Haskell Rotary Club members and guests met at the City Cafe last Thursday noon, January 28th.

"Prexy" Herren, in a short business session, announced that work had already begun toward giving assistance to the "Governor's Communities Tomorrow" program, one which the Haskell Rotary Club voted to sponsor in a recent meeting.

Herren announced that the Haskell Rotary club had only one 100% meeting the past month, as some of the members had not made up at area clubs, which is a prerequisite to attain and maintain a perfect attendance record.

Brooks Middleton, program chairman for the day, introduced Myron Biard of Haskell who has been a leader and worker in the local AA club for several years. Mr. Biard explained the work of the organization and stressed the drastic need for the work during these times of stress when many thousands of men and women turn to alcohol for seeming relief. He then presented Frankie Hunt of Knox City who assisted in the founding and organization of the Haskell AA club as guest speaker for the day.

Hunt's "off the cuff" speech kept members and guests spellbound as he cited statistics and figures of how many people in America today are alcoholics and that many thousands were now living useful and productive lives due to their association with AA organizations. "The alcoholic is the forgotten man," he said, "and there are several million yet who need to be reached because they have been shunned by society."

"When one person in the United States dies of cancer, four die from alcoholism and when one sobers up, nineteen die," Hunt said. He concluded his inspiring talk with an invitation for visitors to meet at any time with the Haskell AA Association so that they could learn first hand what some of the problems are, and the methods used to solve them.

Invocation was given by Ira Hester and the song lesson was led by R. C. Couch, with Gail Barnett at the piano.

Guests noted were Wayne Baker and Gene Hammond of the Abilene Social Security office, and Haskell High School students, Charley Franklin and Charley Jackson.

Program chairman for today, Thursday noon, February 4, is Charlie Conner, and Bill Comedy is slated to serve in that capacity the following week.

Around \$550.00 damage resulted to Clare's vehicle, and an estimated \$150.00 damage to Mrs. Moeller's car. Mr. Clare was not injured.

Former Haskell Man Says 'Sick' Society Causes Ills of Country

EDITOR'S NOTE: Perry Mason formerly resided in Haskell. At one time he taught and coached football in the Haskell School system:

Dr. Perry Mason, American Legion Department Americanism chairman, and superintendent at Harding Academy, discussed the ills of the country at a joint meeting of the Armstrong-Caldwell Post 106 and the American Legion Auxiliary, January 11.

The speech, titled "I Am Sick," is as follows:

"I am sick— "And there are those who claim that ours' is a "sick" society—that our country is sick, our government is sick, that we are sick.

Well, maybe they're right. I submit that maybe I am sick, and maybe you are too. I am sick of having policemen ridiculed and called "pigs" while cop-killers are hailed as some kind of folk hero.

I am sick of being told that religion is the opiate of the people, but marijuana should be legalized.

I am sick of being told that pornography is the right of a free press, but freedom of the press does not include being able to read a Bible on school grounds.

I am sick of commentators and columnists canonizing anar-

chists, revolutionists, and criminal rapists and condemning law enforcement if it brings such criminals to justice.

I am sick of paying more and more taxes to build schools while I see some faculty members encouraging students to tear them down.

I am sick of Supreme Court decisions which turn criminals loose on society, while other decisions try to take the means of protecting my home and family away from me.

I am sick of being told policemen are mad dogs who should not have guns, but that criminals who use guns to rob, maim, and murder should be understood and helped back into society.

I am sick of being told it is wrong to use napalm to end a war overseas, but if it's a bomb or molotov cocktail at home, I must understand the provocations.

I am sick of pot-smoking entertainers deluging me with their condemnation of my moral standards on late-night television.

I am sick of riots, marches, protests, demonstrations, confrontations, and other mob temper tantrums of people intellectually incapable of working within the system.

I am sick of hearing the same phrases, the same slick slogans, the pat lies of people who must chant the same things like zombies because they haven't the capacity for verbalizing thought.

I am sick of reading so-called modern literature with its kinship to what I used to read on the wall of public rest rooms.

I am sick of those who say I owe them this or that because of the sins of my forefathers, when I have looked down both ends of a gun barrel to defend their rights, their liberties, and their families.

I am sick of cynical attitudes toward patriotism.

I am sick of politicians with no backbones.

I am sick of the dirty, the foul-mouthed, the unwashed.

I am sick of the decline in personal honesty, personal integrity, and human sincerity.

And most of all, I am sick of being told I'm sick. And, I'm sick of being told my country is sick, when we have the greatest nation man has ever

brought forth on the face of the earth; and fully 50 per cent of the people on the face of this earth would willingly trade places with the most deprived, the most underprivileged among us.

Yes, I may be sick. But, if I am only sick, I can get well. And I can help my society get well. And I can help my country get well.

Take note, you in high places. You will not find me under a placard. You will not see me take to the streets. You will not find me throwing a bomb. You will not find me ranting to wild-eyed mobs.

But you will find me expressing my anger and indignation in letters to your political office.

You will find me canceling my subscription to your periodical the next time it condones criminal acts or advertises filth.

You will find me speaking out in support of those people and those institutions which contribute to the elevation of society and not its destruction.

You will find me contributing my time and my personal influence to helping churches, hospitals, charities, and those other volunteer backbones of America which have shown the true spirit of this country's determination to ease pain, eliminate hunger, and generate brotherhood.

But, most of all, you'll find me at the polling place. There, you'll hear the thunder of the

Tax Questions And Answers

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q—The IRS says it will figure the tax for more people this year. Who can take advantage of the offer?

A—Up to 30 million taxpayers may have IRS compute their tax. To qualify, income should be less than \$20,000 and consist only of wages or salaries, tips, dividends, interest, pensions or annuities. The taxpayer must also take the standard deduction.

Previously, IRS could only compute the tax for those with less than \$5,000 of income, per-

common man. There, you'll see us cast our vote, for an America where people can walk the streets without fear, for an America where our children will be educated and not indoctrinated, for an America of brotherhood and understanding, for an America no longer embarrassed to speak its motto "In God We Trust."

"What do you think about this publicity and talk about pollution?" I asked G. H. "Son, I'll tell you this... you don't know what pollution is until you hole-up in the same place a full year, and just come out one day a year to CAST or not to CAST a shadow."
"I'll tell you another thing, son," G. H. said, "I really cleaned-up on last year's Senatorial race. You see it's like this, son, all of us Groundhogs made up a little wager, put it in a pot...and since I was the only one bettin' on Lloyd Bentsen for U. S. Senator, I really took them Yarbrough boys for a cleanin'."
Prattler intended to ask G. H. many more world-wide important questions, but about that time I realized it was Tuesday and I'd better get back to the office and start pounding that 'ole typewriter...so I picked-up my clipboard and headed for the Free Press. As I left I heard G. H. say...let's talk some more about those Haskell Indians."

The Home Economics Department of a College some time back published a leaflet in chart form which shows what a housewife is worth per week in dollars and cents on the labor market.
Cooking, table setting, serving at \$2.00 an hour...\$50.00.
Dishwashing, at \$1.25 an hour...\$17.50.
Routine housework, at \$1.25 an hour...\$22.50.
Laundry, at \$1.25 an hour...\$6.25.
Ironing, at \$1.25 an hour...\$6.25.
The chart suggests adding 25 percent for miscellaneous work. So the grand total is \$150.00 a week. On a yearly basis, a housewife is worth \$7,800...so says the chart. Since this scribbler's Missus is in her very early 50's, I have been thinking of trading her for a couple of 25's, but at my age what would I do with a couple of 25-year-olds. Perhaps I would like the old dog which chased sport model cars and barked loud and long... and after he catches it... he doesn't know what to do with it.

LETTERS TO THE EDITOR
Panhandle, Texas
January 28, 1971
Dear Editor:
I am seeking information of descendants of some families who lived in Haskell in 1898. My ancestor, Thompson Hodges married Mahala Hill. Their daughter, Elmira, married James Able and their daughter, Victoria, married J. R. Miller. I have an envelope that I found among my grandparents belongings, of a letter from G. I. or J. I. Miller written February 14, 1898 to a Mrs. J. W. Hill at Nocona, Texas. If any of the citizens of Haskell or descendants of these Millers or Hills, would they please contact me. I am working on some Genealogical material and I need their help. Sincerely,
Josslyn Hodges Williams,
Box 54, Panhandle, Tex. 79068

WANTED 3-INCH RAIN

Must Fall By Feb. 23 !
HNB believes in Advertising . . . and the February 23rd deadline is our contract date with the Free Press.

HNB has been relying on that crack(ed) meteorologist Jim McCurdy for weather forecasts and rain the past few months, but we have waited and waited for him to come through with a general, much-needed rainfall.

Therefore, we are turning to our "old reliable" newspaper advertising.

We'll take the moisture in any form—rain, sleet or snow—just so it adds up to 3 inches by February 23.

HNB believes that advertising pays . . . and the Free Press has promised results or this ad will cost us nothing. We're ready to pay, however, so LET IT RAIN!

IT'S IN THE LIBRARY

"We are fighting for the continuance of a great democracy . . ."

One of America's best-known authors addresses himself to some of the major conflicts racking our society. James A. Michener writes about the problems of our cities, about race, education, youth, drugs and crime. He comments on television and the role of the free press, the population crisis and censorship.

At a time when the angry on all sides of these issues are shouting more and listening less, Mr. Michener makes a reasoned plea for balance and for an enlightened response to our problems. In an eloquent statement of his own faith in our American traditions, he relates the solutions of our problems to the enduring strength, stability and flexibility of our basic institutions and values.

The author challenges his fellow Americans to take whatever steps are necessary to enhance the quality of life in this country and provides a solid foundation for positive dialogue between young and old, between radical and conservative.

"The Quality of Life," born out of James Michener's concern over the present, his pride in our past, and his hope for our future, represents an important contribution to our understanding of America in a troubled time.
