Special Awards Presented At Chamber Banquet

AWARD WINNERS at the Chamber of Commerce Banquet Saturday night, left-to-right, Dr. T. W. Williams, Mayor H. V. Woodard, R. V. Earles and Opal Adkins for their outstanding community service.

More than 200 persons were on hand Saturday night, February 13th, for the Annual Dinner Meeting of the Haskell Chamber of Commerce held in the Elementary School Cafeteria. Jim Reese, mayor of Odessa, featured speaker, was introduced by Abe Turner.

Mayor Reese is well known in the West Texas area in the broadcasting field, and is Regional Manager of Eppler, Guerin and Turner, Inc., a member of the New York Stock Exchange. He was named Stockbroker of the year in 1969 and has many credits to his career.

Mayor Reese, in his "off-the-cuff" style of speaking, moved the crowd from the humorous side to a more serious vein when he drove home the fact that we have five important responsibilities: 1. Responsibility to yourself; 2. Responsibility to your family; 3. Responsibility to your community; 4. Responsibility to your country, and 5. Responsibility to God.

Dr. Harry Sarles, pastor of the Presbyterian Church, served as emcee for the evening. Entertainment was provided by the "Scarleteens", a singing group of young ladies, under the direction of Mrs. Sonny Everett, and by the "Cardiac Kids," another singing group comprised of members of the 1970 Haskell High School Indian Football team, also under her direction. Dinner music was provided by the Haskell High School Stage Band under the direction of Wendell Gideon.

Invocation and Benediction was given by Rev. H. O. Abbott, pastor of the First United Methodist Church. Royce Adkins introduced guests; Bob Philpot, retiring Chamber President, presented the 1971 slate of officers and directors and Charles Thornhill presented special awards.

Boy Scout Troop 36 was in charge of the flag ceremony and Guy Davidson led the Pledge of Allegiance. Talented Karen Pippen sang the National Anthem.

R. V. Earles of Paint Creek was the recipient of the coveted "Outstanding Farmer of the Year Award" in the field of soil conservation. Other recognitions went to Mrs. Opal Adkins for her long and untiring Chamber of Commerce work. Mayor H. V. Woodard was (Continued on Page 2, Sec. 1)

Fort Worth Man Injured In One Car Accident

A one-car turnover at 10:45 a. m., Tuesday, on U. S. Highway 277, two miles south of Haskell, resulted in a Fort Worth man, Wesley Griffith, receiving a broken collar bone and bruised ribs. He was taken to the Haskell Memorial Hospital, in a Holden-McCauley ambulance.

Griffith, a drug and dental salesman, was traveling north in a 1970 Ford Station Wagon, and as he rounded a curve he lost control of the vehicle, ran off the left side of the highway, overturned two and one-half times, and the vehicle landed on its top.

Highway patrolman, Skip Lane, who investigated the mishap, said the vehicle was totaled.

Haskell County Sheriff Garth Garrett and Patrolman James Davis, assisted at the scene of the accident.

All-Sports Banquet Saturday Night

The annual All-Sports Banquet for Haskell High unfolds Saturday night at the Elementary School Cafeteria with Bob Wright, assistant Executive Vice President of Texas High School Coaches Association as speaker. A graduate of Howard Payne College in Brownwood, he has coached at Olney, Brownwood High, Howard-Payne College, Ballinger High and Cleburne High.

Bob Wright
Texas High School Coaches Association

In January of 1968 he moved to Austin to assume the duties in the Association Office he now holds. A native of Ballinger, he is one of three men in his family who coach. His father is "Pooch" Wright, veteran coach for Howard Payne College. His brother, Bud, coaches at Brownwood. He and his wife, Tylene, have three children, a son, Robert, 19, and two daughters, Nilah, 15 and Jamie, 12.

Entertainment for the evening will be provided by two singing groups—"The Scarleteens", the group who entertained at the Chamber of Commerce banquet last week; and "The Cardiac Kids", a mixture of football and basketball players and managers from Haskell High.

Leon Jones, president of the Indian Booster Club, will introduce guests; the coaches will recognize all the players, and awards will be presented by Mrs. Dick Gaines, Frank Jenkins and Leon Jones.

Coach Sonny Everett will introduce the speaker.

A luscious steak and all the trimmings meal is planned, and a full evening's entertainment will be enjoyed by all attending. Everyone is welcome; tickets will be on sale at the door.

Weinert Shows Slight Increase In Population

A report from the Census Bureau showed that the population of the city of Haskell in the 1970 "head count" was 3,655 in comparison to 4,016 in 1960.

O'Brien and Rochester also showed losses during the past 10 years; however, Weinert showed a slight increase.

O'Brien's population for 1970 was 258 in comparison to 287 in 1960; Rochester's head count was 529 for 1970, in comparison to 625 in 1960. The 1970 count revealed Weinert's 1970 population was 255 in comparison to 251 in 1960, an increase of four.

Haskell's county population which was released recently showed a count of 8,512 for 1970 in comparison to 11,174 in 1960.

Haskell Retains Post Mark

(EDITOR'S NOTE: The following two pieces of correspondence were received in answer to our request to Cong. Omar Burleson to look into the word received here that Haskell might possibly lose their postmark, and the fact of slow mail service in our area. It clears up two points—Haskell is NOT in danger of losing its postmark; and the problem of mail inadequacies will be looked into by the Post Office Department. We appreciate Congressman Burleson's prompt answer to our inquiries.)

Mr. Billy Comedy, Publisher Haskell Free Press Haskell, Texas 79521

Dear Mr. Comedy:

You will find enclosed a copy of the report which I have now received from the Post Office Department in response to my recent inquiry, in behalf of residents in Haskell who are concerned about the postal situation there.

It is indeed a pleasure to send along this report and, as you

can see, the Post Office Department states it has no plan to deprive the Haskell Post Office of its postmark, and is considering no proposal at this time for action that will further affect mail originating at Haskell.

At any rate, the Director of the Dallas Postal Region is being asked to look into the postal situation at Haskell promptly and take such action as will correct any existing inadequacies in the postal service.

It has been a pleasure to call this matter to the attention of (Continued on Page 2, Sec. 1)

How Adequate Is "Adequate"

By CLYDENE COMEDY

The Haskell Hospital was built in 1939 as a sixteen-bed unit which functioned—and still does—as the only hospital in Haskell County. In 1952 a building program added an additional fourteen rooms and expanded the kitchen facilities to its present size. This, to this date, has been the extent of the remodeling and building done.

Only through the diligence of a dedicated staff can the hospital be run efficiently—and it certainly is. A patient today rarely sees the handicaps the staff functions under, and that is as it should be. However, it is quite obvious even to the most casual observer, that with the labor and delivery rooms in one wing of the hospital, and the nursery and maternity ward in the opposite wing, the new mother and her baby must be wheeled down the halls—direct-

ly by the only waiting room and lobby in the hospital—in order to get from the delivery

The New Farm Program To Be Explained

Sponsored by the Haskell County Farmers Union and Haskell County Farm Bureau, a meeting will be held Friday, February 19th at 7:30 p. m. in the District Courtroom, Haskell County Courthouse.

Lloyd Feemster, Executive Director of the ASCS County Office, speaker for the occasion, will discuss facts pertaining to the new Farm Bill that producers should know.

All farmers are urged to attend this informative meeting

room back to the nursery. Children under 14 years of age are not allowed in the hospital, yet the newborn infant passes practically every room and open area in the hospital within minutes after birth.

I toured—completely, from basement storage closets through every room—the Haskell Memorial Hospital last Thursday. Hospital Administrator Alfred Turnbow, assistant administrator Mrs. Bud Cook; Mrs. Bob Philpot, insurance clerk; and Mrs. Mildred Berry of medical records graciously answered every question put to them, and showed every nook and cranny of the hospital.

This article is not to influence—but to inform. If Phase I of the building program is to be put before the voters of the Haskell Hospital District, it is the duty of this newspaper to cover all phases of the program

to give the voter adequate information on which to base an intelligent vote.

Previous stories carried the past three weeks have adequately informed the citizens of Haskell County of the spiraling costs entailed by requirements set up by Medicare, Medicaid and the State Board of Health, including round-the-clock registered nurses on duty at all times, and the extensive record-keeping involved in the entire operation. Here, we will delve into each portion of the hospital to be affected by the building program.

COMPLETE ADMINISTRATION OFFICES are pictured from just over the registration counter at Haskell Memorial Hospital. Desk in the foreground is used by the admissions and dismissals clerk; Mrs. Mildred Berry of medical records stands beside the desk of Mrs. Bob Philpot, insurance clerk. The open doorway at the rear leads into the only other administration office—a 10x12 room used by the assistant administrator, Mrs. Bud Cook. The vault at the right holds the vital records of the hospital. All other records for the past five years are now stored in a patient's room.

Hospital ...

(Continued from Page 1, Sec. 1) space adds to a total of about 500 square feet. Office facilities will hold only three desks, and these are completely surrounded by record files. At the desks are the insurance clerk, the medical records clerk and the assistant administrator. The Haskell Memorial Hospital Administrator has no office—and no desk. He must alternate with the other three who work in this department.

Files are required to be kept for the past five years of operation. ALL files. This requires at the present time, between 8 and ten metal file cabinets. With no space in the office area, where are they kept? In a patient's room—which brings the bed total down to 28, except in an emergency. In that case, two beds can be utilized in this room with the records.

Previously, the files were kept in one of the two labor rooms, but during the month of July last year the four staff doctors had patients between them who were expecting some twenty-seven babies during that month alone. The doctors' plea to clear the labor rooms were heard, and the records were put into an empty patient room, where they are today.

RESTROOM FACILITIES
As you enter the lobby of the hospital, a tiny hallway on the right is filled with vending machines and the only public telephone in the hospital. Opening off either side of this tiny hallway are the men's and women's restrooms, with doors opening about six feet directly apart from each other. The rooms are each perhaps four feet square—only large enough for the commode and lavatory. Persons using the phone, or operating one of the vending machines

FROM THE ADMISSION COUNTER, looking into the only lobby-waiting room of the hospital, it is easy to see that there is a seating capacity only for about 11 people. This is the only waiting-room in the hospital, except for a small area near the delivery room for expectant fathers.

must get out of the way of anyone who uses either facility.

WAITING ROOMS
The waiting-room-lobby and offices are all combined within the same open area. All visitors, patients to be admitted, patients to be dismissed, service men who await instructions, deliveries for the offices, families of patients, and friends of patients MUST use this small area which, as we have stated before, contains approximately 180 square feet of floor space and seats eleven people comfortably.

There is no waiting room of any kind in the emergency ward of the hospital—no waiting room near surgery—and only a small spot for expectant fathers near the delivery room, and none by the nursery at the other side of the hospital.

PRIVATE ROOMS
The hospital has no rooms at the present time above \$22.00 per day. Even the most casual inquiry by any citizen at surrounding towns, both large and small, will reveal that private rooms are from \$30.00 to over \$55.00. The board of Haskell Memorial Hospital feels, however, that they prefer these modest prices for the sake of fairness to every patient.

For example, a hospital patient who pays between \$35 and \$50 today fully realizes that the revenue from his room is partially paying for a charity patient who is not able to pay at all, in some other part of a hospital. The Haskell hospital board does not want to cover hospital overhead in this way, however, and continues the \$22 a day room for private rooms—a price that most insurance policies will cover.

However, some citizens here have policies that cover a \$30-a-day room, and WANT a better room, with more privacy

and quiet. Under the proposed expansion plan, the rooms now occupied by the nursery and maternity ward will be made into four private rooms; carpeted and paneled; with private baths. They are located at the dead-end of the south wing, in the quietest part of the hospital. Seriously ill patients, or patients who want these rooms, will have much more than is now available, at their request.

STAFF DOCTORS
Haskell is fortunate, indeed, to have three full-time M.D.'s, one semi-retired M.D., and two DDS: Dr. James F. Cadenhead, Jr., Dr. R. E. Colbert and Dr. Joe Thigpen, Dr. T. W. Williams, Dr. William J. Kemp, and Dr. J. G. Vaughter. Many counties with our population have less. If the required expansion is not realized, and the requirements of Medicare and Medicaid are not met, Haskell could full well lose the hospital, and conceivably its fine doctors.

Were this to happen, we would probably be included into some other hospital district in this vicinity and still be taxed for its operation and maintenance. Consider these things carefully, as you ponder the pros and cons of this expansion plan.

AN OPEN INVITATION
The Board of Directors of Haskell Memorial Hospital and its administration issues to you, the residents of this hospital district, an invitation to visit the hospital during any working day, at your convenience. A member of the staff will take you on the same tour that I made; answer your questions; and show you YOUR hospital and explain its functions.

A special invitation is also extended to every resident of the surrounding area—Rule, Haskell, Rochester, Weinert, Paint Creek, G'Brien and Sargent—to make the same tour. This is YOUR hospital, and its doors are open to all.

The Exec. Assistant to the Postmaster General
Washington, D. C. 20269
February 11, 1971

Dear Cong. Burleson:
This has further reference to your letter of January 22, in behalf of residents in Haskell, Texas who are concerned about the postal situation in Haskell:

First, I want to assure you that there is no plan to deprive the Haskell post office of its postmark. Haskell is an associate post office in the Abilene sectional center for some mail handling functions and could conceivably be brought into the nationwide Area Mail Processing Plan later on. At this time, however, we are considering no proposal for action that will further affect mail originating at Haskell. At no office will deterioration of mail service be permitted to result from the operation of the plan under which mail processing is centralized.

In any instance when mail deposited in a post office is sent to a central facility for processing, arrangements will be made for each post office to designate mail receptacles in which customers may deposit mail on which the local postmark is desired.

I am asking the Director of the Dallas Postal Region to look into the postal situation in Haskell promptly and take such action as will correct any existing inadequacies in the postal service.

With kind regards,
Sincerely,
Walter D. Harris

(Cont. from Page 1, Section 1) our absence.

The Press Convention promises a lot of informative clinics. Truman Roberts of the Texas Court of Criminal Appeals will speak on "People, Law and Courts" a program the Rotary Club has had this year. Perhaps Bill will get some new information on these proposed changes.

"Hospital Crises in Small Towns" is another clinic we won't miss at the convention—it ties right in with our present situation in Haskell and we hope to learn a great deal to help our residents here, from this one. We'll also hear a report from our State Legislature by old friend and former Fort Stockton newspaperman, Representative George Baker.

Sandwiched in between these will be news clinics, a session on "advertising problems" and many other phases of newspaper work that, we hope, will help us to serve Haskell County better.

It's a good feeling to know that we have an efficient and dependable staff to hold down the fort while we're gone, so remember to call on them if you need them.

Rotarians Hear Facts About Little League

Rotary Club members and guests met at the City Cafe at noon, Thursday, February 11, with president Bob Herren presiding over the luncheon session.

Bill Comedy, program chairman for the day, introduced Gene Long, secretary, of the Haskell Little League, as the program.

Long presented an interesting and informative program on Little League and stressed the many good phases of the local, as well as the National organization.

"Little League," he stated, "had its origin over thirty years ago and today it could probably be called the greatest Athletic Association in the United States with no benefactors, no tax support and no grants provided for its success or failure."

"Little League teaches the boys three basic qualities, namely: sportsmanship, discipline and decency. We have one hundred and fifty boys in the community of Haskell who train for three hours for five days a week for the two months program of summer Little League. No fifty thousand dollar a year big league player is more dedi-

ated to baseball than the boys of Little League. It is only remuneration for a chance to play because the baseball," he said. "The local managers work hours per day strictly on a volunteer basis. Their sole aim is to give the boys from 8 to 12 years of age the three M's: manhood, manhood, manhood." In citing some of the local practices, he stated that a standard was needed for the support of the program. In a short time, Prexy Herren, District Governor Crawford, of the former Haskell, will be here for the March 4, 1971, invocation. Charles Thornhill, District Chairman, was led by the club players, providing a good example. Cut-of-town boys Bob Harrison, Harry Haynes, son of Stamford, and the son of the Company and Lubbock. Paint Creek Betty Crocker "Homemaker"

Karen L. Bartley, daughter of Mrs. Mary Bartley, has been selected the 1971 Betty Crocker "Homemaker" of Tomorrow at Paint Creek High School on the basis of her score in a written knowledge and attitude test on homemaking given senior girls recently.

Miss Bartley's achievement has made her eligible for state and national scholarships. She is also the recipient of a specially designed award from General Mills, sponsor of the annual education program, and is now eligible for state and national honors.

A state Homemaker of Tomorrow and runner-up will be selected from the winners of the schools in the state.

This is the 17th year of the Betty Crocker Search, initiated in 1954-55 by General Mills to emphasize the importance of homemaking as a career. Since its inception, almost seven and three-quarters million girls have enrolled, and with this year's grants, scholarship awards will total in excess of \$1 3/4 million.

What National Beauty Salon Week Is

By Christine Green

Many women's organizations and professional societies have a special welfare or charity project for which they work during the year. My association, the National Hairdressers and Cosmetologists Association, is no exception.

Twenty-one years ago we began our National Beauty Salon Week Program. An important part of this program is our institutional welfare activity for which we form work groups of "Beauty Angels" and travel to the nearby homes for the aged and orphaned, hospitals and similar institutions to provide beauty services for the patients who otherwise could not receive such help.

I am giving an elderly lady a permanent and free hair cut to under privileged people.

Included in our National Beauty Salon Week activities is our program to let the public know about our profession and our desire to serve our community.

The National Hairdressers and Cosmetologists Association or NHCA, as we call it, began in 1921 when interested men and women in our profession joined together to help insure high standards of services to the public, as well as the education in our field. Also we were able, as a group, to foster legislation for the protection of the public, including such measures as sanitation and proof of proficiency through licensing.

Most recently we have been working with the Federal Trade Commission on various measures concerning the public interest, including high standards in connection with wigs and hairpieces.

We were instrumental in establishing a commission for accrediting schools of cosmetology with high standards. This Commission, known as the Cosmetology Accrediting Commission, is now recognized by the U. S. Department of Education.

We also have our own advanced education classes and

seminars throughout the year so that our members are brought up to date with the newest fashion trends and techniques to serve you—our patron. In addition, we sponsor courses of advanced cosmetology at various universities throughout the country. This year such courses are being held at more than twenty-five schools of higher learning.

But, probably of most interest to you, four times a year our Official Hair Fashion Committee premieres new styles which are first shown to our members, so they can learn every fashion technique in order to give you the best possible styling service.

I think you'll be interested in knowing that a cosmetologist is trained in such subjects as dermatology and chemistry, as well as fashion. She or he is a professional. Depend on them to help you keep your hair healthy, clean and beautiful.

Remember, "Hair Is It! Make It Beautiful!" is this year's National Beauty Salon Week theme.

Seek professional beauty guidance and care often, so that you can look your very best all the time. And I suggest that you look for a salon that displays this emblem, as a member of our national professional association, NHCA.

I would be happy to answer any questions you might have regarding beauty problems, or the field of cosmetology.

This "little goodie" came across my desk from Mrs. Annie Taylor:

A Doctor fell into a well,
And broke his collar bone.
A Doctor should take care of his sick,
And leave the well alone.

Three Boy Scouts were at a Scout meeting and told the Scoutmaster they had done their "good deed that day."

Well, boys, what did you do?"

"We helped an old lady across the street a little while ago," chimed the boys in unison.

"And did it take all three of you to do that?" asked the master suspiciously.

"Yes, it did," again chimed the boys. Then the smallest one of the three added, "She didn't want to go."

Put steam into your work and you can whistle about it!

In your soul there is a room filled with sunshine, with golden doors, and the true heart carries the key of rays.

Finish every day and be done with it. You have done what you could. Some blunders, no doubt, crept-in. Forget them as soon as you can.

Today we live in a world of sports-minded people...but had you ever thought that old Noah was a great ballplayer. He pitched the ark without and within, and later put the dove on the fly.

Want to keep fit? Then if you do...pitch horseshoes. Don't snicker before you read further. It's a proven fact.

So, if you want to play as you exercise, but find golf, bowling or other sports inaccessible, why not consider horseshoe pitching?

A leading horseshoe pitcher regards the sport as one that makes greater physical demands than golf or bowling. To achieve in this sport, he says you must move all over.

Pitching horseshoes brings many muscles into play. Bending down to pick-up two shoes weighing 2½ pounds each, raising them, taking aim and throwing to a stake 40 feet away puts hand, wrist, forearm, shoulder, back and leg muscles to active use.

In tournament play, a competitor will walk an average of five miles between stakes. He will bend down more than 500 times and, in all, will lift and throw more than a ton of metal.

Early to bed and early to rise, makes a fellow so darn tired!

HASKELL COUNTY FARM BUREAU

HASKELL COUNTY HISTORY

40 YEARS AGO
(February 12, 1931)

Meeting for the purpose of protesting against the proposed issuance of county warrants for the repairing and remodeling of the Haskell County courthouse, a crowd which filled the district court room Tuesday afternoon adopted resolutions condemning the proposed expenditures and heard several speakers denounce the contemplated action of the Court as undemocratic and contrary to the principles of right government.

T. J. Lemmons has accepted the management of the Pan Handle Service Station in this city, succeeding R. T. White who has been transferred to Brokenridge.

At the last meeting of the City Council, the time for payment of 1931 Street Taxes was extended through the month of February, after which time the penalty of \$2.00 will be added and assessed against all citizens of Haskell liable for the tax. Notwithstanding, the street tax of \$3.00 must be paid by February 1st each year, and the extension of time in which it may be paid will mean a considerable saving to all taxpayers.

Mrs. Grace Killingsworth, J. W. Martin and Misses Ruby Martin, Mildred Jones, Cecil Bray and little June Watson spent the day in Wichita last Friday.

Courtesy Hunt made a business trip to Dallas the first of this week.

Mrs. Roy Killingsworth, Mrs. V. Davis and Miss Nettie McCallum were in Abilene on Thursday.

Mr. and Mrs. Jno. Rika of Aspermont visited friends and relatives here the past weekend.

Miss Edythe DeWitt has signed a contract with Universal Film Corporation to furnish all of the theme songs for Universal talking pictures beginning April 1. One of Miss DeWitt's compositions, "I Wonder," has been selected for the theme song of Universal's new talkie, "Utah."

Dick Rose of Rule was a visitor in Haskell, Wednesday.

40 YEARS AGO
(February 18, 1931)

On last Sunday, Joe Stokes shipped two cars of bulls and Earl Cogdell one car of bulls and two cars of steers to Fort Worth. The cattle were fat and no doubt brought a good price.

There will be a prohibition rally at the courthouse next Sunday evening at 8:00 o'clock. Mr. R. C. Dial of Claremore, and Hon. W. P. Lane, Comptroller, will be the speakers for the hour.

K. D. Simmons has sold his interest in the livery stable to his brother, Jack Simmons, who will continue the livery business at the old stand.

Tom Wiley and Miss Susie Cox of the southeast part of the county were married last Sunday. Squire J. B. Davis performed the ceremony.

J. R. Johnson and A. Chaney of the west part attended the session of the Commissioners Court this week.

Dr. A. J. Lewis will return to Haskell in a few days and take up the practice as a Veterinary Surgeon.

The members of the Farmers' Congress who met at the courthouse Monday, show they are interested in the movement for better cultural methods.

Mrs. Minnie N. Goley, an experienced milliner, will be in charge of the millinery department of E. G. Alexander & Sons. Mrs. Goley arrived Wednesday night and will begin at once to arrange for the Spring opening.

J. B. Davis of the south side attended Commissioner's Court here this week.

J. L. Jones of Rule was an active participant in the Farmers' Congress, Monday.

Mrs. J. U. Fields gave a six o'clock dinner to the following young ladies on last Wednesday evening: Misses Fields, Grammer, Meadows, Anthony, Anida and Lucille Hughes.

L. S. Grandstaff has moved to Haskell County from Whitt, and is now located on his farm north of town. He purchased a section of fine Haskell County land.

HOW'S THIS FOR A LINE-UP! This fine-looking group is called "The Cardiac Kids." Left to right are: Bill Cox, Gary Cobb, Steve Guess, Clifford Campbell, Eddie Harris, Guy Davidson, Terry Pringle, Lawrence Kilgore, Charlie Franklin, Joe Mickler, Jack Smith, Randy Stone, Jackie Young and Gary Black. Standing front and center is Ray Lee Kilgore, one of the Haskell Indian managers. The group is a mixture of football and basketball players. Not pictured, but also singing with the group are Keith Everett and Johnny Fouts. They are directed by Nancy Mickler, and will entertain at the Athletic Banquet Saturday night, along with the "Scalleteens."

Haskell Church of Christ Announces New Daily Herald of Truth Program

Curtain To Rise Friday Night On Senior Play

The Haskell Church of Christ has announced a new daily Herald of Truth program in Spanish. The program series is entitled "La Busqueda" (the quest). It is broadcast Monday through Friday over about 25 stations on the RPM radio network at 6:30 a. m. Glen Owen, Abilene, Texas, was named director and speaker of the outreach in Spanish.

Herald of Truth and La Busqueda are produced by the Highland Church of Christ in Abilene and are supported by churches of Christ around the world. An extensive correspondence course program is planned and is being written specifically for the Latin American audience.

La Busqueda will be expanded to encompass most of the Spanish speaking people in Mexico, Central and South America and in the United States. Owen, a Native Texan, attended Abilene Christian College and then preached for congregations of the Church of Christ in Fargo and Iowa Park, Tex. He and his family were members of an original group of 13 families who moved to Brazil in 1961 for evangelistic efforts there. Fluent both in Spanish and Portuguese, Owen has had several

years experience speaking over radio networks in Brazil.

The Haskell Church of Christ has supported the Herald of Truth for many years. A series in English, designed to help man with his daily problems, can be seen on KTXS-TV at 8 a. m., Sundays.

The senior class of Haskell High School will present its senior play "Charley's Aunt" on Friday night, February 19, at 7:30 p. m.

This is the world famous farce which has moved millions to tears of laughter. It was first produced at the Royalty Theatre, London, on December 21, 1892, and had a successful run for four years.

The now famous plot centers around a young Oxford undergraduate, played by Larry Hartfield, who comes to the aid of two other students by posing as the aunt from Brazil, "where the nuts come from," who failed to show up in time for a luncheon in the young men's room at which the young men were to introduce her to their sweethearts, who of course would not appear without assurance of proper chaperonage.

In the comic confusion which results, support is given by Guy Davidson, Johnny Fouts, Andy Gannaway, Eddie Harris, Van Jasselet, Penny Darnell, Brenda Nanny and Sheila Parsons.

This class production is an

other in a long line of stage and motion picture revivals of "Charley's Aunt" and is being directed by class sponsor, Mrs. Brooks Middleton.

Tickets will be on sale at the door and reserved seats may be purchased from class members. General admission is 50c and reserved seat tickets, 75c.

FUTURE FARMERS

At one time farming consisted of "40 acres and a man did well if he was able to feed himself and his family. In 1971, the story is far different. Farming is big business, a highly advanced industry employing thousands among many disciplines.

A successful career in agriculture must start at the door and there are such organizations as the Future Farmers of America which will be observing FFA Week, Feb. 20-27. The theme of FFA week this year is "Involved in the Future." No theme could be more appropriate. No one is more closely involved with the future of Haskell County and the country than agriculture.

The FFA is a national organization of students interested in agriculture in public schools. The foundation of it is built on leadership, community service, improved agriculture, citizenship, patriotism, etc. in Haskell County and in fact all over America are to the agriculture leaders of tomorrow.

Those engaged in agriculture are a declining percentage of our country. As the number of farmers and responsibilities of each agricultural producer become fewer, on the average, every farmer feeds nearly 30 people. Hats off to the Future Farmers of America, an organization commended for preparing young people for carrying forth the bounty of the land to supply the growing nation and the world.

The Future Farmers of America Organization of Haskell School is sponsoring "work-days" on Saturday, Feb. 20 and 27th. So if you need any odd jobs done around the farm, contact the FFA members as they need to raise money for coming banquet for FFA members and parents.

What America Has Given Me

By GAIL BARNETT
(Second Place Winner in the Annual Essay Contest Sponsored by The Progressive Study Club)

A hundred and ninety odd years ago, we, as a nation, asserted that all men were created equal, that there was importance in the supreme worth of the individual and his right to life, liberty, and the pursuit of happiness. Those were large assertions, but we have tried to live up to them. We have not always succeeded; we have often failed. But our will and desire as a nation, America, have been to live up to them.

Now, in chorus with other free nations, we say that those children you see and other children like them all over the world shall grow to manhood and womanhood free from fear. We

say that neither their minds nor their bodies shall be cramped or broken by tyranny or oppression. We say they shall have a chance; and an equal chance, to grow and develop and lead the lives they choose to lead, and not lives mapped out for them by a master. And we say that freedom for ourselves involves freedom for others—that it is a universal right, neither lightly given by providence nor to be maintained by words alone, but by acts and deeds and living.

These children will live by the laws of society—the laws of virtue. In their authority we see not the array of force and terror, but the image of our country's honor. Every good citizen makes that honor his own and cherishes it not only as precious, but as sacred. He is willing to risk his life in its defense and is conscience that he gains protection while he gives it.

America's children will be

lieve in an all-wise and all-loving God, named by whatever name, and that the individual's highest fulfillment, greatest happiness, and widest usefulness are to be found in living in harmony with His will.

Being one of these children, I see Liberty in the distance. Behind, I see America's slaughtered countrymen, orphans and desolate fields. But before my sight a star rises, which points to Justice that is and shall always be if we cherish it.

Yes, America is the youngest of the nations and inherits all that went before in history. And being one of America's young children, into my hands
