Texans' Wallets Tapped Heavy By Traffic Crashes

Traffic crashes during July tapped the wallets of Texans for \$59 million, according to the Texas Safety Association.

The statewide safety group said today that traffic crashes during the first seven months of the year have cost nearly \$400 million.

TSA says there has been a continuing increase in the number of traffic crashes and fatalities on the state's Farm to Market road system. Preliminary reports for July show collisions on the rural road system are up 26 per cent over the same period last year. A similar trend was first reported by TSA in April.

While the Farm to Market roads are experiencing increases in accidents and deaths, towns with populations under 2,500 are showing a 10 per cent decrease in accidents and a 16 per cent decrease in fatalities.

The Texas Safety Association says motorists using the state's rural road system need to exercise extra caution since there are special hazards like slow-moving vehicles.

TSA also pointed to the need for motorists to utilize their safety belts while driving on any roadway, since their use can increase chances of survival if an accident does occur.

The group also said accidents and fatalities can be reduced if Texans will obey traffic laws and "Drive Friendly."

WASHINGTON
"As it looks from here"
OMAR BURLESON
Congressman
17th District

WASHINGTON, D. C. — The National health crisis has been discussed heretofore and from all indications it may get worse before it gets better. There is, however, concentrated attention being given to meet the situation in spite of high cost, the overcrowding of facilities, and shortage of technical help connected with illness, more people are receiving better care than ever before. But there are deficiencies which still have to be met for certain hospitals to qualify under the Medicare Program.

Special efforts are being directed to providing better nursing care. We probably have some of the best nursing homes to be found anywhere but from reports that are also some pretty bad ones.

One of the great unanswered challenges is the shortage of nurses and yet small hospitals in many of our small towns are being denied medicare benefits because they do not have, and cannot afford to have, at least one registered nurse on duty for each 8-hour shift.

Many of our older and smaller hospitals do not meet the safety standards set by regulations under the Medicare Program. In many instances these physical facilities can be improved to the extent of qualifying but no one wants to spend the money necessary if they are unable to have at least three registered nurses on duty over a 24-hour period.

In Texas alone there are some 170 hospitals which may have their medicare benefits terminated if they have to comply with the unbending strictness of the rules and regulations laid down by the Department of Health, Education, and Welfare. Like most, if not all, Federal programs, administrators must "go by the book" but the book itself, in the form of rules and regulations, is forcing the closing of some small-town hospitals. This means elderly patients would have to go to a hospital located in some larger town. Elderly patients accustomed to local care just simply don't want to leave their community.

Everyone agrees that any hospital or nursing home should have the best and most modern care available but when regulations and rules leave no hospital at all, people are understandably upset. There should be more time for modernizing buildings to meet proper safety standards but under the rules this still leaves the requirement for nurses.

Licensed vocational nurses do a very fine job and could well, under the general supervision of doctors and registered nurses, fill the practical needs.

There is an area of common sense to be provided and particularly until reasonable deficiencies can be met. A hospital less than two years old in South Texas faces the prospect of being denied admittance to the Medicare Program because of the requirement of equipment which probably will not be used and lack of nurses which it cannot afford.

Note: Congressman Omar Burleson's staff advises that he has introduced legislation to amend the Social Security Act which would exempt hospitals having 50 or fewer in-patient beds from the requirement of full 24-hour registered nursing services and his legislation also calls for the relaxation of such requirements when applied to institutions having fewer than 50 in-patients, as requiring an autopsy being performed on 20 percent of deaths occurring in such hospitals.

CARE HELPS BUILD NEW HOMES FOR PERUVIAN QUAKE VICTIMS

Following up its initial shipment of more than \$700,000 in emergency aid to survivors of the May 31 Peru earthquake that killed 70,000 and left 600,000 homeless, CARE has joined the Peruvian government in a home building program in the devastated rural areas.

The long-range project also includes construction of schools as well as community centers and health centers. Irrigation ditches destroyed by the quake will be restored to permit resumption of farming and stem the migration to the cities by thousands of despairing farmers abandoning their lands.

The type of house to be built was designed by Cooperacion Popular, the community development arm of the Peruvian Ministry of Housing. It is 23% feet square and will accommodate four to six people.

Actual construction work is being undertaken by student volunteers from Peruvian colleges and universities and by other Peruvians eager to contribute their labor to the rehabilitation program.

terms, surveying instruments and, for use of the volunteers, tents, sleeping bags and first aid kits. Total value of CARE's initial share in the project is \$62,500.

Executing CARE's activities in Peru is Arthur Greenfield II, who served as mission chief in the early 1950s when CARE maintained a regular mission there.

In a letter of Executive Director Frank L. Goffio, Peru's Minister of Housing Luis Vargas Caballero has expressed "in the name of the Peruvian Government, the villagers affected by the earthquake and myself our most sincere thanks for your most selfless assistance."

Donations for continued aid to the victims of the disaster are now being accepted by CARE. Address: Peru Emergency Fund, 109 N. Akard Street, Dallas, Texas 75201.

this team will have to be reckoned with.

(4) Merkel. With nine offensive and ten defensive regulars returning, better watch out for this strong aggregation. Barring injuries they could do much better than winding-up in fourth place.

(5) Anson. Could be a little weak in the quarterback slot, but they have seven offensive and four defensive holdovers from last year.

(6) Rotan. Moves up this year from Class A competition. They have seven offensive and seven defensive holdovers; however, they must gain experience in the big-time AA bracket.

Now let's take a look at the Southwest Conference and here is the way Prattler picks 'em:

(1) Arkansas. Frank Broyles big piggies, year-in-and-year-out, come up with a sizzling team. The big shot dopsters pick the Razorbacks to wind-up second, but 'ole Prattler can't go along with that. It does look as if the big game will be between the Horns and the Piggies in Austin.

(2) Texas. Predicted by practically every sports writer to "take it all again this year." Could be, my friends, could be...but seldom does a team in the Southwest Conference come up with two championships in a row. The Steers, no question about it, have the material and Darrel Royal to guide them, but I am placing my hunch on the "two-in-a-row" jinx. I could be wrong, if so I'll apologize at the end of the season to pipe-pulling, tooth-filling Dr. William J. Kemp.

(3) Texas Tech. Under their new coach, Jim Carlen, the "Big Red" up at Tornado City, Lubbock, will be more or less re-shuffling and rebuilding. The defense looks pretty potent and the offense doesn't look bad, either. Just wait until next year; however, don't sell the Red Raiders out now. They could fool you.

(4) Texas A&M. If it were

September Draft Call For Texas Up From August

The September draft call for Texas is 704, and no man will be selected and ordered for induction higher than 195. It appears that the ceiling will go no higher than 195 for the remainder of 1970. Col. Charles M. Duncan, deputy state Selective Service director, said Monday.

Colonel Duncan explained that an influx of new manpower, mostly formerly deferred students, has helped to keep the ceiling on sequence numbers at 195.

The September quota is up from 560 in August, which is also being filled with men having random sequence numbers no higher than 195.

The state quota for pre-induction physical and mental exam-

inations in September is 7,171, up from 1,490 in August. Men sent for these examinations will be limited to those with random sequence numbers 1 through 215 from the drawing in December 1969 and men born in 1951, numbers 1 through 100, from the July 1970 draw-

ing. Colonel Duncan said that approximately 6,100 men of the 1951 age group will be examined along with 1,071 older men. Deferred or exempt men, such as teachers, college students, and vocational or trade school students with random sequence numbers 1 through 215

may be forwarded for these examinations if they are likely to lose their deferred or exempt status during the next five months, Colonel Duncan said.

All volunteers at the draft boards must be inducted ahead of the non-volunteers selected and ordered to report for induction by random sequence number.

The Texas induction quota of 704 for September is the state's share of a national call for 12,000 men, all for the Army.

Telethon To Be Seen Here For The First Time

A super-spectacular, which has smashed all records for programs of this kind in New York and several other cities, is coming to Abilene for the first time this Labor Day weekend. It's the Jerry Lewis Telethon to raise funds for the fight against muscular dystrophy and related diseases.

The show will be seen in this area over KTXS, Channel 12, starting at 8:30 p. m., September 6, and continuing, without interruption, until 5:30 p. m.,

September 7.

Lewis reports that such stars as Danny Thomas, Joan Crawford, Sidney Blackmer, Danny Kaye, Dorothy Collins, Hildgarde, Peter Lind Hayes and Mary Healy have already agreed to appear.

East Stars Tackle West In Greenbelt Tilt

The East won a 19-14 victory over the West Saturday night in the 21st renewal of the annual Greenbelt Bowl football game for graduated high school football players, at Childress Saturday night.

Roy Pittman and Donald Love, of Haskell, saw action on the East squad. The Greenbelt Athletic Association selected Pittman and Love to participate in the bowl game because of their athletic abilities.

Pittman selected Miss Diane Thomas as his candidate for the Greenbelt Bowl Queen contest, and Love chose Judy Thewanger as his candidate for Queen.

Several sports-minded fans

from Haskell were in Childress Saturday night to view the game.

ON THE EDGE OF SERVITUDE

Saturday, May 9, was an unusual day. That was the day in 1970 when the average American taxpayer finally quit working for the government and began working for himself. From January 1 until May 9...over four months...every dollar he earned would be required to pay taxes on his earnings for the year. Stated in another way, the average American taxpayer worked two hours and 49 minutes out of an eight-hour day just to pay his tax bills.

If this is not chilling enough, consider then the following figures: half of the federal individual income tax in the United States is paid by persons earning between \$5,000 and \$15,000 a year. It took the U. S. government 186 years to reach its first \$100-billion budget...and only nine years to reach \$200-billion. The interest on the federal debt today is \$20 billion...more than the entire cost of operating the federal government only 29 years ago in 1941. State and local governmental revenues are going up at the rate of approximately 12 per cent a year and will double in less than seven years. The \$201 billion federal budget for 1971 will cost every individual in the United States, from the newborn baby to the oldest centurion, almost \$1,000...to be exact, \$890. In spite of all this, the old fallacy still persists that a handout from Uncle Sam is free.

30 YEARS AGO

(August 23, 1940)

A. H. Fleming of Pampa, Texas, has taken over management of the Home Town Bakery in this city, formerly operated by Mrs. Allie Ford, and name of the establishment will be changed to the Fleming Bakery.

TAX MAN AAM SEIZ:

The tax folks pride themselves on having most American taxpayers voluntarily comply with the law. IRS has a lot of proof that most Americans are fairly honest and law-abiding—at least in Federal tax matters. However, in spite of all the talk about voluntary compliance, there is another side. A few thoroughly screened tax fraud and tax evasion cases are selected each year for the thorough type of investigation required of the Government in making a case that will send a tax cheater to jail.

During the past six months, the court records show that the United States Attorney and the Internal Revenue Special Agents who work the cases, took to court. These officers and operators two-manual partnership, a law Association used car money. Six were charged with false income tax returns and one was charged with holding Federal money. The three across the country indicate that tax law can be mandatory.

Quite a party of young people enjoyed a good supper at the home of Mrs. H. R. Jones last Saturday night. Everybody had a good time, and all say that Mrs. Jones knows exactly how to entertain young people. They went from there to the lake where they indulged in boat riding and "42".

Mr. J. T. Therwanger and son of the Weinert community were in town Monday. They stated that crops are looking fairly well about Weinert considering the year.

Mr. W. E. Coburn has returned from a trip to Tyler, Cleburne, Hillsboro and other points. He says crops are spotted in some sections of the country, in others they are good.

Mr. Iron Pearsey and family moved to Cook County this week.

Mr. Henry Alexander left on Sunday for St. Louis and Chicago.

Mr. Curren Hunt left Sunday night for the Eastern Markets to lay in his fall stock of goods. He was accompanied as far as Dallas by his little daughter, Oriene.

The Haskell Bottling Works sold to Mosier & Miller at Rule Monday 166 cases of Sodawater. They are putting out their products all over the State, which is another success for Haskell.

Miss Julia Winn is visiting in Dallas this week.

Mr. Jno. E. Robertson of Weinert was in the city Wednesday. He recently returned from Galveston where he represented Haskell County in the Democratic State Convention.
