Indians Drop Thriller To Eastland

TO MEET SEYMOUR HERE FRIDAY NIGHT

The "Mighty Warriors" of Haskell High, despite their loss to the Eastland Mavericks last Friday night, 25-13, have nothing to be ashamed of, and a look at the statistics reveal that with a few breaks here and there, could have taken the "grudge battle."

Two Eastland touchdowns in the fourth quarter turned the tide in the evenly played contest. The clincher came on Bob Mace's 95-yard pass interception return. The Eastland defensive back picked-off a Haskell aerial at his own five and scampered into the promised land. Only 20 seconds remained on the clock.

The Mavericks' other scores came on a 15-yard pass from quarterback Craig Lund to Randy Rexroat and a one-yard run by Lund.

Senior halfback, "feet-footed" Charlie Franklin scored both of Haskell's touchdowns. Franklin, who amassed 220 yards rushing, scored on runs of two and 55 yards.

Both Haskell and Eastland are picked to win district and meet in bi-district again this year.

A recovered fumble on the Haskell six and the 90-yard pass interception return in the waning minutes of the game spelled the difference.

Six Haskell turnovers...four on fumbles... failed to dim the luster of Charlie Franklin's dazzling rushing performance.

In the third quarter, "Who's Charlie"... and Eastland does not have to ask that question anymore... actually outgained (Continued on Page 6)

Husband - Wife Team On Lawrence Welk Show Visit Haskell Relatives

The famous husband and wife team, Raina and Guy Hovis, of Los Angeles, California, who appear regularly on the Lawrence Welk Show visited in Haskell Wednesday of last week with relatives and friends. Despite their very busy schedule they also visited a short while with the First United Methodist Church Junior Choir, and at the Rice Springs Care Home.

"A pretty girl is like a melody", and when you see the very pretty and attractive smiling face of Haskell's own Raina flash on your TV screen each Saturday night...you'll have to agree to that statement. Raina and her talented husband, Guy, add greatly to the entertainment of the Welk Show.

Mrs. Hovis, the former Raina English, was born in Haskell, and is the daughter of Mr. and Mrs. Raul English, natives of Haskell. She is the granddaughter of Mrs. W. D. Kemp and niece of Giles Kemp and Willie Mae Fouts of Haskell.

County Fair Plans Shaping

Plans Shaping For The Big "Fair Parade"

Officers, directors and division superintendents of the Haskell County Fair Association met at Folker's Restaurant at 7:30 p. m., Thursday, September 10, in what was called an overall "wrap-up" session for the annual event which is scheduled for October 1st, 2nd and 3rd.

President C. A. Thomas Jr., presided for the meeting which included the reading of the minutes of the last meeting and the presentation of the financial statement by Executive-Secretary-Treasurer Rex Folker. Indications are that the Haskell County Fair Association, Inc., is definitely on a sound financial footing as after some \$1900 having already been disbursed toward defraying the expenditures of this fair, there will be approximately \$2600 left in the Haskell National Bank to insure the success of the 1970 production.

"Frenzy" Thomas called on division superintendents to make a report on their particular phase of the three day fair program and with the exception of a few minor details, everything is in readiness for the big event which will officially get underway at 5 p. m., October 1, with a permanent organization will be set-up, and officers elected.

Mixed Riding Club To Be Organized Here

Plans are underway to organize a "mixed riding club" in Haskell county, according to information released to the Free Press just prior to press time.

Those interested are asked to meet at Folker's Restaurant, Friday night, September 25th, at 7:30 o'clock, at which time a permanent organization will be set-up, and officers elected.

Graveside Rites Held Saturday For Smith Infant

Services were held Saturday, September 12, at 2:00 p. m., Willow Cemetery, (Babyland), for Johnny Allen Smith, infant son of Mr. and Mrs. Henry Allen Smith of Haskell, with Rev. J. W. Davis, pastor of the Church of God, Haskell, officiating. Holden-McCauley Funeral Home was in charge of arrangements.

Services Held Saturday For W. A. Hise

W. A. Hise, 84, retired farmer, who resided at Avenue K and South First, Haskell, passed away Thursday, September 10, at 9:00 p. m. in the Haskell Memorial Hospital, where he had been a patient two weeks.

Funeral services were held at 4:00 p. m., Saturday, September 12, at the First Baptist Church, Haskell, with Rev. Troy Culpepper, pastor, and Rev. Hubert Sego, officiating. Holden-McCauley Funeral Home was in charge of arrangements.

Services Held Saturday For W. A. Hise

Born May 10, 1886, in Montague County, Texas, he moved to Haskell County from Montague County in 1923 and settled in the Paint Creek community where he was engaged in farming. He was a member of the Paint Creek Baptist Church.

Mr. Hise was married to Miss Clemmie Lucinda Bandy July 28, 1908, at Montague, Texas. She passed away in 1946. His second marriage was to Mrs. Jewel Hamilton on June 9, 1966 at Montague.

Survivors include his wife, Mrs. Jewel Hise of Haskell; four daughters, Mrs. Lydia Willis, Mrs. Linnie Hickman, both of Haskell, Mrs. Lillie Green of Snyder, Mrs. Dorothy Chapman of Abilene; two sons, William Walker Hise, of Duncanville, Texas, and Sterling Hise of Haskell; one brother, Dave Hise of Lawton, Okla.; one sister, Mrs. Ellen Cox of Fort Worth; 13 grandchildren; 22 great-grandchildren; one step-daughter, Mrs. Sarah Jane Long of Nocona; three step-sons, Lee Roy Hamilton and Jerry Hamilton of Wichita Falls, and C. C. Hamilton of Hutchins, Texas; 10 step-grandchildren.

Haskell Gets Over An Inch Of Moisture

Rain, which began falling late Sunday afternoon and continued intermittently through the night and Monday morning, totaled almost an inch, then another .35 of an inch fell just prior to press time, Wednesday, according to Sam Herren, "The Weatherman." A total of 1.29 inches was gauged in Haskell.

Falling slowly as it did, the run-off was very light, with the much-needed moisture soaking into the ground.

The prolonged drought is still not completely broken, but the continued showers are putting a dent in it.

Food for Thought: The basic test of freedom is perhaps less in what we are free to do than in what we are free not to do...Eric Hoffer.

ASC Community Committeemen Elected, To Convene September 25

Farmers and ranchers of Haskell County have elected a total of 30 ASC community committeemen and alternates in a mail election conducted earlier this month, according to W. M. Reid, chairman of the County Agricultural Stabilization and Conservation (ASC) Committee.

ASC community committeemen assist the County ASC Committee in administering farm programs in Haskell County, such as wheat and cotton acreage allotments, feed grain bases and agricultural conservation cost-sharing measures. They also help keep local producers informed of farm provisions and regulations.

In addition, the just-elected ASC community committees have an important responsibility in the near future in filling vacancies on the County ASC Committee and determining the chairman and vice-chairman for the coming year, Mr. Reid said.

The new ASC community committeemen will convene September 25, 9:00 a. m., at the Haskell County ASC office in an open meeting to the public. They will elect one County Committeeman to serve a three-year term and two alternates to serve one-year terms.

AUTUMN AGAIN

As the days of summer wane and the sun dips below the horizon a little earlier each evening, we know that nature is sending out its first gentle warning of the approach of a new season. On September 23, the sun crosses an imaginary line and Autumn begins. For many parts of the world, Autumn is a season of high color. The leaves of the trees, as they don their most brilliant hues, seem to consciously strive to outdo each other in attracting the attention of passers-by. Legendary visions of a harvest moon and corn shocks usher in the spirit of Halloween.

In the "South 48", Jack Frost treads softly, bringing color and briskness to the scene. Since Alaska has been added to the roster of states, it is fitting to note that Autumn steals across the North with sharper but equally fascinating changes. Those who know say that Alaska, in the fall, is enchanting. But then, what section of our great nation is not, as we turn the corner of a new season?

Payments Amount To Almost 4 Much As Welfare Payments

men and children were receiving monthly social security benefits at the beginning of 1970; only 11 million people were drawing cash assistance payments under Federal-State welfare programs.

Tuley recalled that in 1940, when social security monthly benefits first became payable, the situation was quite the reverse.

Then, more than 40 times as much was paid out in public assistance as in social security benefits, and those getting public assistance totaled 7 million—about 2/3 the present number, despite population increase of about 70 million over the past 30 years.

At the end of 1940, only 222,500 persons were collecting monthly social security retirement and survivors benefits, compared to the present 25.6 million.

Social security has taken over much of the load once carried by aid to families with dependent children and by old-age assistance.

The number of children getting monthly social security survivors benefits increased from 18,000 in June 1940 to 2.6 million in 1970. In 1940, almost half of the children receiving welfare payments were orphans.

Today, the large majority are not orphans, but children in needy families.

Since 1950, the percentage of the older population getting old-age assistance has been cut by more than half, dropping from 22 per cent to about 10 per cent.

"But," he pointed out, "social security does much more than reduce the need for public assistance. It has taken a form that has made it not just a program for low-income people, but rather a universal retirement system, supplemented with disability and survivors protection and with health insurance for the aged under medicare."

Some 172,909 Texas Veterans Get Disability Compensation or Pension

Some 172,909 veterans of the 3,180,457 veterans receiving disability compensation or pension from the Veterans Administration are from Texas.

Of these 111,793 are receiving disability payments for service-connected reasons and 61,116 for reasons not related to military service, according to Jack Coker, Director of the VA Regional Office in Waco, who cited statistics made available recently, based on June 1970 reports.

Nationally, 2,091,466 veterans receive payments for injuries or illnesses relating to their military service.

Of the 168,772 Vietnam era veterans receiving compensation or pension, 10,664 are from Texas, and 13,895 of the 264,850 Korean Conflict veterans are from this state.

Most veterans receiving compensation and pension are from World War II—1,786,638 nationally, of which 98,543 are from Texas.

Because World War I veterans are now reaching an average age of 76, most who receive payments do so because they performed military service and are now disabled, rather than for service-connected disabilities—685,889 to 84,595 and 35,714 to 3,908 in Texas.

An additional 185,636 veterans who served in other periods, including 10,304 from Texas, receive VA compensation because of service-related illnesses or injuries.

War-time veterans with a limited income who can no longer work because of disability, whether or not related to their service, should contact their nearest VA office.

Dept. of Public Safety Announces Start of 150-Man Training School

Deaths continue to mount on our streets and highways. Crime is still on the rise. With these facts in mind, the Texas Department of Public Safety announces the start of a 150-man training school.

The school will begin on the 22nd of September and will be held at the Texas Department of Public Safety Law Enforcement Academy in Austin. Trainees will receive a salary of \$345 per month during the four-month training period. Upon graduation the salary will be increased to \$651 per month.

To qualify for one of these positions, an applicant must be between the ages of 20 and 35, a height of not less than 68 in-

ches, a weight of not less than two pounds per inch of height, nor more than three and one-half pounds per inch of height, and be of good sound physical condition. He must have completed high school, or the equivalent. He must be a citizen of the United States and be of good moral character.

The intensive training program, which will consist of some 800 hours of classroom work, is designed to prepare the cadet to handle the various situations which he will be confronted with as a patrolman.

Upon graduation from the Academy, the cadet will be assigned to one of the four uniformed services—Highway Patrol, License and Weight, Motor Vehicle Inspection, or Driver's License.

Uniforms, vehicles, weapons, ammunition and necessary equipment will be furnished. Other benefits include a monthly uniform cleaning allowance and travel expenses when away from their assigned station. Group life and hospitalization insurance are available at a reasonable cost. The patrolmen become members of the Texas Employees Retirement System and the Social Security System. Vacations, holidays, and sick leave are also provided.

APPROVED PLANS President Nixon has approved plans for a \$14 million replacement hospital for the VA complex in San Francisco.

Other benefits include the personal satisfaction of contributing to the society in which we live and knowing that this contribution is necessary to our way of life. If you are interested in meeting the challenge of today's world, contact your nearest Texas Department of Public Safety office, or patrolman, for an application or details.

TAX MAN SAYS:

In a recent report on federal tax collections the Internal Revenue Service says that the total Internal Revenue collections for the United States in the calendar year 1969 was \$195,141,923,000. Texas tax collections ran more than \$8 billion for the first time. Collections in the Dallas District, covering our area in northern Texas, amounted to \$3,593,898,000, of which \$2,791,651,000 came from individual income and employment taxes. Since each of us must pay about one-fifth of our total pay as our share of our country's cost, it is obvious that taxes are and will continue to be very important to us.

FUTURE BENEFITS TIED TO ANNUAL CREDITABLE EARNINGS

"Over 80 million individual postings were made to social security earnings records for the last quarter," according to R. R. Tuley, Jr., social security district manager in Abilene.

"Social Security has a very good record-keeping system but errors do happen," he said. "Everyone should check his record every two or three years to be sure it is correct."

The Social Security Administration keeps 183 million individual records of workers' earnings, but any worker or self-employed person may start a check of his record by calling the local office for a special post card.

"The amount of social security benefits payable depends on the earnings shown on the worker's record," Tuley added. "So be sure it is correct by calling (915) 677-5262 and asking for the post card form to check your record."

EAR To The Ground

The Knox City Greyhounds proved to be too much for the Steers Friday night as they won by a 34-0 margin.

The Greyhounds drew first blood as quarterback Mike Newton connected with Rogers Langford for a 43-yard pass in the second quarter.

Despite the score, the Rochester defense made a good showing.

On offense the Steers couldn't find a scoring combination, plus they had six turnovers.

The last three Greyhound scores came against the second team Steer defense.

Next the Rochester Steers go to Hawley to battle the Bearcats. The Steers have won both previous games with Hawley and have slunked them both times but this year they will try to gain revenge. Both the Steers and Bearcats are 0-1 for the season. It may turn out to be a good battle.

FRAZIER'S APPLIANCES

Announcing the 1971 Duster.

The big difference in small cars.

We first introduced the Duster as the best transportation bargain in America. It still is. And we built Duster to be America's "small-enough-but-big-enough" car. And it still is.

Small car lovers of America, your day has come.

You have more tires to kick, more doors to slam, more hoods to look under, more colors to choose from and more test drives to take than ever before.

Which leaves us to convince you that Duster gives you the most car for the money. That it's small enough, but big enough. And that, all in all, it's the ideal small car.

Room. More of it to accommodate more passengers. More of it to accommodate more luggage.

Most small cars are four-passenger cars. And when you sit in some of them, they feel like they were built for three-and-a-half passengers.

Duster's a five-passenger car. It seats five, comfortably. Besides carrying more up front, Duster carries more in the trunk. You can stuff 15.9 cubic feet of stuff into it. (One of the new small cars has about a third as much trunk space.)

Small enough for maneuverability. Big enough for stability.

Duster's small enough to slip into about 3/4 of a parking space. Yet it's big enough to give you stability on the open highway.

It has our unique torsion-bar suspension (for better handling). And unibody construction—its strength completely surrounds you. So Duster can handle stop-and-go city traffic as well as freeway traffic because it's the right size, the right weight and it handles.

Our small-enough-but-big-enough car has a small-enough-but-big-enough engine.

Duster's standard engine is our rugged 198 cubic inch, 125-horsepower Six. It gives you great gas mileage and a little

more power than other small cars' smaller engines.

And that's a perfect combination.

Options. You have over 50 to choose from when you order a Duster.

Think of it this way. It's a convenience to have a lot of conveniences to choose from. If you're considering buying a new small car, and you have certain options in mind to go along with it, you may find Duster the only small car that offers them.

There are things like a Stereo Cassette Tape Player, V-8 engine, vinyl roof and power brakes that you just can't get on some small cars.

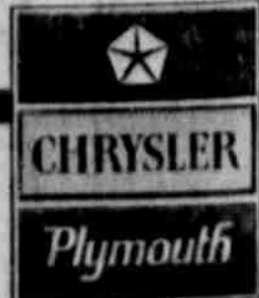

The Duster success story: to be continued.

No doubt about it. Duster is the car for a lifetime.

Over 175,000 Duster buyers thought so last year. And we expect more of the same kind of success with the 1971 Duster.

Before you buy a small car, look at our small car.

Duster. Built and engineered with extra care.

See the new Plymouth Duster today.

September 20th Through 26th Is Proclaimed Young Homemakers Week

The week of September 20th through 26th has been proclaimed by Mayor H. V. Woodard as "Young Homemakers Week." This week has not only been designated for Haskell Young Homemakers, but also for clubs throughout the state. Young Homemakers are joining hands around the state to work toward a 1970-71 goal of "Happiness." The Haskell Chapter cooperates fully with a motto this year called "Young Homemakers... The Heart of the Home." The creed states as follows, "We, the Young Homemakers of Texas, seek to strengthen the bonds of family, with knowledge, integrity, love, understanding, and faith in God... In order that our homes may be established in the firm foundation of our community, State, Nation, and the World...upholding the right of each individual to dream, to work, and to assume the privileges and responsibilities of the Democratic way of life. Activities to celebrate this week started by proclaiming September 20th through 26th as "Young Homemakers Week." Pep Rally
Our first pep rally was a very exciting one for most of us, but a special one for me. Coach David Mimms introduced our Pirate team and each one of them said a few lines, which really boosted our spirits. Then the pep squad put on a play which raised laughter in the crowd. After a few yells and a speech by our sponsor, Mrs. Mimms, the FFA members announced the Paint Creek Chapter Sweetheart. Melanie Trautvetter was lectured as sweetheart and presented a jacket from the boys. The rally was ended by our school song.

the whole Eastland offense which amassed 229 yards to Haskell's 379.

It took Haskell only five plays after the ensuing kick-off to grab the lead away from the startled Mavericks. On the second play, Franklin broke a tackle at the line and threaded his way 55 yards to the Eastland three. Two plays later, Franklin broke another tackle and squirmed into the end zone from three yards out for the game-tying T.D. Randy Stone kicked the point after for Haskell's 7-6 lead with 3:41 to play in the first half.

Late in the third period, Haskell led 13-12, and it appeared as if Haskell's one-point lead would hold up.

With 5:05 left in the game, Lund hit pay dirt for the Mavericks and Edison booted the conversion.

Twice the Indians had to gamble on fourth down situations, but Everett still had the Indians rolling at the Eastland 25 as the final 30 seconds ticked away.

Haskell: Charlie Franklin 2 run (Randy Stone kick)
 Eastland: Lund run (pass fail.)
 Haskell: Franklin 55 run (run failed)
 Eastland: Reuben Gaeta 1 run (Bob Mace kick)
 Eastland: Mace 95 interception (kick failed)

Panthers Next

The Seymour Panthers will invade Haskell tomorrow night, Friday, to meet the Indians in another non-conference tilt at 8:00 o'clock.

The Panthers clobbered the Munday Moguls, 60-0, last Friday night, thus it looks as if the Indians will have their hands full. The Indians scalped the Panthers 34-13 last year, and it appears that another "grudge" battle will be on tap Friday night.

Prison Rodeo To Furnish Thrills, Spills

There's never a dull moment during the Annual Texas Prison Rodeo held in Huntsville each Sunday in October in the Texas Department of Corrections' 25,000-seat stadium.

Although the main attraction begins at 2:00 p. m., when the prison's toughest convict cowboys match their skills against bruising rodeo stock, there are all sorts of extras for visitors to what has been termed the world's wildest rodeo.

Beginning at 9:00 a. m., each Sunday in October, selected inmates entertain visitors on the Midway in front of the Huntsville Prison until noon. Then from 1:00-2:00 p. m., a host of variety acts are presented inside the stadium.

To round out the well-balanced, fast moving, two-hour rodeo, prison rodeo officials have booked four of the nation's top-flight country recording stars as added attractions.

The guest stars for this year's Prison Rodeo series include Conway Twitty on October 4; Willie Nelson on October 11; Jerry Lee Lewis on October 18 and Faron Young on October 25th.

Another added attraction each Sunday will be thrilling Chuck Wagon Races.

Reserved seat tickets are now on sale and may be obtained by writing Prison Rodeo, Box 99, Huntsville, Texas 77340, enclosing check or money order. Tickets are priced from \$3.00 to \$5.00. There is no discount for children's tickets.

Net proceeds from ticket sales go to rehabilitative services for more than 13,000 inmates of the state's sprawling penal system.

Dr. Cadenhead Speaker At B&PW Meeting

The B&PW Club met Tuesday night, September 15, at the Haskell National Bank Community Room. The president, Ramia Lee Frazier, welcomed members and guests and Leone Pearsey read the "Club Collect."

A short business session was held, and the finance committee presented the program.

Edna Mae Lyles introduced Dr. Frank Cadenhead as the evening's speaker. He gave a very interesting and education-

al program on "Pollution."

"The air is being used up at an unbelievable rate as it is polluted by so many things, such as cars, burning trash and waste," the speaker said.

The statistics on pollution is outstanding and it makes one aware that everyone could be cautious and have a part in helping control pollution.

The telephone committee, with Mrs. Veta Furrh, chairman, served as hostess for the evening.

Five Accidents On Rural Highways Investigated In County In August

The Texas Highway Patrol investigated five accidents on rural highways in Haskell County during the month of August, according to Sergeant Frank Jirok, Highway Patrol Supervisor of this area.

These crashes resulted in one person killed, two persons injured, and an estimated property damage of \$2,825.00.

The rural accident summary for this county during the first eight months of 1970 shows a total of 60 accidents resulting in three persons killed, 35 persons injured, and an estimated property damage of \$52,650.00.

The sergeant reminded all Texas motorists that vehicles bearing red motor vehicle in-

spection stickers with the large black numeral "9" in the lower left-hand corner of the windshield must be reinspected before midnight, September 30.

All motor vehicles and certain classes of trailers registered in Texas are subject to the mandatory inspection of certain equipment which includes brakes, lighting, horns and warning devices, mirrors, windshield wipers, steering, wheels and rims, exhaust system, exhaust emission system, and front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle.

ed to the three floats deemed to be the most outstanding.

Clarence Meier, superintendent of the old-time fiddling contest and the country and western music part of the three night's of entertainment, reported that several string bands had already notified him that they would be here for the Saturday night extravaganza and that the old time fiddlers had been advised that their contest would be held Friday night, 7:30. The state prison band of Huntsville, Texas promised to be a highlight of the first day's entertainment features. They will play a concert on the stage on the Midway beginning promptly at 7 p. m., after the parade. Immediately following their presentation, the Gospel Singing will get underway under the direction of Tom Watson of Haskell.

Saturday night's features will be a Western Night in the rodeo arena with numerous contests scheduled for the boys and girls who love rodeo competition. It will be under the direction of Jerry and Maxine Hanzel, who reported that they are expecting a lot of entries in the contests for beautiful and lasting trophies. While this is going on at the rodeo grounds, other visitors on the midway will have the privilege of being entertained by the western bands on the outdoor stage.

This, plus the carnival attractions of the Mid Central Shows, will guarantee to all corners that there will be entertainment to their liking at the Haskell County Fair.

Other attractions on the agenda for the three-day exposition include a horseback ride which will originate at Rule and will culminate at Haskell in time for the street parade on Thursday. Area horse back riders are being urged to participate in the ride which is scheduled for Thursday.

The new show barn and the new livestock barn which were both erected this summer, are ready and they are expected to enhance the overall fair program with their beauty and the features involved which will make it easier for both exhibitors and spectators to thoroughly enjoy being present.

Several hundred head of show calves, hogs, sheep and rabbits are expected to be on display under the well lighted barns and visitors are urged to look them over while attending the fair.

The errant building adjacent will again house many exhibits to include flower shows under auspices of the county Garden Clubs, education exhibits, arts and antiques, agricultural products, 4-H Council handicraft and commercial exhibits.

Max Stapleton, Haskell County Farm Agent, is in charge of agricultural exhibits and he is urging all farmers to bring in

day"... a day which stands out in our memory — a day of significance. This phrase emanates from the Prayer Book and was originally a church festival, which was indicated in the Prayer Book by red letters. This was a significant day and the term eventually came into common use to indicate any day of special significance.

It was the first day of school and the kindergarten teacher asked the children what they wanted to be when they grew up. One little boy spoke up importantly: "When I grow up, I'm gonna be a lion tamer. I'll have lots of fierce lions and tigers, and I'll walk in the cage and..." he hesitated, then continued, "but, of course, I'll have my mother with me."

About the only difference between hard work and recreation is that intangible something called "mental attitude." Whether the job is a grueling task or heaps of fun, depends not on the job itself, but what you think about it.

Today's youth doesn't have to work as hard as his parents did because they did.

Executive ability is a talent for deciding something quickly and getting somebody else to do it.

The average man in his lifetime spends twenty years working. He spends another twenty years sleeping, sixteen years playing, five years shaving and dressing, five years eating, and three years just waiting. In a lifetime the average man spends 8,760 hours telephoning, the equivalent of one full year. I guess 'ole Prattler could not be considered an average man, because in editing this newspaper it seems I spend that many hours a week on the telephone. In fact, my left ear is calloused from holding the receiver to it. And the statistics which reveal three years of waiting in a lifetime just couldn't be right... as this scribe, in 36 years of married life, has already topped that three years of waiting on the Missus.

Someone has decided that the letter "E" is the most unfortunate letter in the alphabet. It is always out of cash, forever in debt, never out of danger, and always in hell. No little credit is due, however, in that it is never in war and always in peace. And we are deeply indebted to the little letter since it is the beginning of existence, the commencement of ease, and

Several Livestock Producers From Haskell County To Attend Field Day

Several livestock producers from Haskell County will be in Throckmorton, Thursday, September 24, for the biennial field day of the Texas Experimental Ranch.

The ranch is a unit in the Texas A&M University College of Agriculture, and is 10 miles north of Throckmorton, just off U. S. 183.

The several hundred guests expected from throughout Texas will see and hear discussed the latest results of long-range research in several areas, among them:

1. Cattle production on the basis of three levels of protein supplement during the winter.
 2. Calving performance of dry-lot cows during an 11-year period.
 3. Brush control and the response of vegetation to various intensities of grazing.
- Tours of the many research pastures will begin at 9:30 a. m., and continue until 11:30. Lunch will be in the Throckmorton Agricultural Building, date-treat.

The following speakers are scheduled during a brief discussion period after lunch: Jim

Homecoming At Weinert Set October 3rd

According to the president, Jerry Jetton, plans for the Weinert Homecoming slated Saturday, October 3, are moving along on schedule.

An outstanding speaker has been engaged, and an interesting musical program is now underway in practice sessions.

Jetton said: "We are looking forward to having one of the best homecomings ever, with a large number of friends, ex-students, teachers, patrons and visitors."

Those who have an address of an individual they would like to place on the Association's mailing address list, mail the address to: Weinert Homecoming Assn., Weinert, Texas 76388. "Happiness is... October Draft Call For Texas Below September

The October draft call for Texas is 674, and no man will be selected and ordered for induction with a random sequence number higher than 195. Colonel Charles M. Duncan, acting state Selective Service director, said. The October quota is down from 704 in September.

The Texas October draft quo-

ta of 674 is the state's share of a national quota for 12,000 men, all for the Army.

The state quota for pre-induction physical and mental examinations in October is 4,285, down from 7,171 in September. Men sent for these examinations will be limited to those with random sequence numbers 1 through 195 from the drawing in December 1969 and numbers 1 through 100, from the July 1970 drawing for those born in 1951. Colonel Duncan said that approximately 4,100 men of the 1951 age group will be examined along with 185 old-

er men. In filling this call for examination, draft boards will order I-A, I-A-O, and I-O men of the 1970 random selection group before men born in 1951.

No registrant who is maintaining a bona fide family relationship with a child or children, and who qualifies for III-A, will be ordered to report for examination.

All volunteers at the draft boards must be inducted ahead of the non-volunteers selected and ordered to report for induction by random sequence number.

PROMOTED TO SERGEANT

William G. LeFlar, 21, son of Mr. and Mrs. Leeroy LeFlar (sic), Route 2, Munday, recently was promoted to Army sergeant while serving as a rifleman in Company B, 2nd Battalion, 8th Cavalry of the 1st Cavalry Division (Airmobile) near Quan Loi, Vietnam.

He entered the Army in May 1969, completed basic training at Ft. Bliss, and was last stationed at Ft. Benning, Ga.

The 1971 Torino sports subtle styling refinements to enhance its popular 1970 design. A new recessed, two-section grille dominates the front appearance of the Torino 500, Torino GT (top) and Torino Brougham models. The Torino Squire (bottom) is available in six- and eight-passenger variations and will add to Ford's "Wagonmaster" reputation.

Cattlemen's Round-Up Off To Good Start

The Cattlemen's Round-Up for Crippled Children is off to a good start in 1970 with pledges of registered prize cattle from leading ranches throughout the state. The first sale of the Cattlemen's Round-Up for Crippled Children will be the cattle sale on Monday, September 28, at the Ranchers and Farmers Livestock Auction in Abilene.

The Cattlemen's Round-Up for Crippled Children is the original cattle drive for the handicapped. It was originated in Abilene in 1960. During the past ten years nearly three quarters of a million dollars has been raised to help the handicapped of the Southwest through the Round-Up's support to the West Texas Rehabilitation Center's facilities.

THE ENTIRE STAFF AT BILL WILSON MOTOR COMPANY IS "PROUD AS PUNCH" OF THE NEW 1971 MERCURY AND FORD AND CORDIALLY INVITE EVERYONE TO COME IN TO SEE AND TEST DRIVE THE CAR OF THEIR CHOICE.

THE '71 MODELS ARE GREAT!

The 1971 Ford LTD is highlighted by this new front end treatment featuring a forward-thrusting center grille section and dual exposed headlamps. This LTD two-door Brougham includes a new, standard high back bench seat which eliminates the need for separate headrests. Ford's new side impact protection system, flush door handles, concealed windshield wipers and a new two-tiered, coved instrument panel also are standard features of the 1971 Ford.

The 1971 Mustang Mach I (top) features a unique hood, grille and front bumper. The keyed, air-foil-shaped, urethane molded bumper doubles as an efficient air spoiler, improving high speed roadability. The Mustang SportsRoof model (bottom) features a unique "roof" design in combination with Mustang's all-new sheet metal for '71.

Thunderbird for 1971 features a new horizontal grille theme and chrome-plated front valance panel. It is available in three models — two-door hardtop and two- and four-door Landaus. This new two-door formal-roof Landau is reminiscent of other classic designs and gives the '71 Thunderbird an elegant town car appearance. A new door weatherstrip system results in a more quiet '71 Thunderbird, while 24 exterior paint selections make it one of the most colorful cars on the road.
