Carter-Medford Wedding Vows Read Friday In Home of Bride's Sister

Sallie Jean Carter, daughter of Mr. and Mrs. W. R. Carter, of Haskell, became the bride of Ronnie Dale Medford, at the home of the bride's sister, Mrs. Jerry Sorrells of Haskell, Friday, October 3.

The groom is the son of Mr. and Mrs. Leon Medford of Haskell.

Rev. Troy Culpener, pastor of the First Baptist Church of Haskell read the wedding vows.

The bride, given in marriage by her father, wore a dress of candlelight peau de soie, A-line, princess style, with a high ruffled neck, long bell sleeves of scalloped lace, and a self fabric belt worn above the waist line. She carried feathered carnations and an orchid atop a white Bible. A crown of pearls held her veil of illusion.

Bobbie Carter, Maid of Honor, was her sister's only attendant.

She wore an identical dress, except it was of geranium red peau de soie with short sleeves and a bow above the waist line. A matching bow was worn in her hair and she carried a long stem white mum.

Best man was Johnny Blair, of Odessa, cousin of the bridegroom. Guests were seated by Jerry Sorrells, brother-in-law of the bride.

Pianist, Becky Gholson, played traditional wedding music, "Oh, Promise Me" and "Because."

A reception was held immediately following the ceremony. After a wedding trip to Dallas, the couple will reside in Odessa.

The bride is a graduate of Haskell High School, and for the past three years has been employed at Anderson Construction Company in Haskell.

The bridegroom is a graduate of Paint Creek High School and received his discharge from the United States Army in July and is presently employed by Southwestern Chemical Company of Odessa.

Book Review Opens Magazine Club Year

Friday, Oct. 17th, the opening date for the Magazine Club, featured "Guest Day." The special attraction for this meeting was a book review by Mrs. Virgil Meadors, Jr.

Upon entering the club rooms the guests were served from a tea table presided over by Mrs. Jack Pippin assisted by Mrs. L. R. Burkett, Mrs. Joe Thigpen and Mrs. Buford Cox, social committee.

Miss Nettie McCollum, president, welcomed the guests and club members. She introduced Mrs. Hubert Bell, director of the Nine-Teens. These young ladies provided the musical portion of the afternoon's program. Their selections were: "Dear Hearts and Gentle People," "Blue Skies" and "Haskell Town." The latter number was composed by Mrs. Bell. Sue Wilkinson spoke the first verse with the accompaniment, then the choral group joined in for the second verse. This was most effective and it pleased the audience since they knew that Mrs. Bell had in mind Haskell Homecoming slated for November.

Mrs. C. V. Payne, director for the program, presented Mrs. Meadors' guest speaker. Mrs. Meadors' review "What in the World Is Going On?" was not a book by some one else but per very own collection of facts and related views of today. Though the thoughts were sober in part, not all were gloomy. She injected a great deal of humor and also very skillfully brought out spiritual ideals. Her audience was quick to realize that Mrs. Meadors had presented the basic facets of the American people. The club is most grateful to her for this excellent and timely review.

OUTDOORS -IN- TEXAS

By Vern Sanford

'Tis said that the sunflower is for the birds. But now it's also for industry.

Texas farmers within the past few years have learned that sunflowers are a valuable crop. Sunflowers are processed for their vegetable oil with a value equal to or better than soybeans.

It seems the program was started in southern Canada where a group of farmers planted a Russian variety. The flower is about the size of a breakfast plate, but when properly cultivated its production is heavy.

With a short growing season, the sunflower can be harvested and grain or sorghum planted on the ground for a later season.

Birds love the sunflower seed.

Where fields have been harvested with combines, there is a great concentration of doves, particularly in the fall of the year.

Last year Texas farmers harvested heavy crops of the seed. This was done through the efforts of the Texas Cotton Seed Crushers Association of Dallas. Seeds were processed at local cotton oil mills.

Perhaps the greatest concentration of the sunflower crop is around Pecos where some 2,000 acres are harvested. Other active areas include the Panhandle, the McKinney section north of Dallas; the honey-producing fields of Uvalde and in Central Texas around Rockdale and Thorndale.

Dove hunters like the sunflower fields for their shooting. In the past these have been wild sunflowers, many of them not much larger than a silver dollar but a few are as large as a saucer. They grow in profusion along fence rows, country lanes and even low mesquite pasture land.

When they are near a stock tank, there is both food and water for doves and quail and the

birds spend much feeding time there.

Of the domestic sunflower, there are several varieties. Basically, however, they are about the size of a breakfast or salad plate, not the large decorative heads that grow in back yards.

Seed for them sells at around 25 cents a pound and a pound will plant an acre of ground. They do demand some attention, however. They must be cultivated to keep out weeds and sprayed to keep down bugs.

They are harvested with modified combines, usually operated on a cooperative basis. Crop dusting is done pretty much in the same manner. County agents have been able to get good assistance for the growers and the same crop dusting equipment used in other row crops is available.

Sportsmen would be wise to plant a few acres of sunflowers in their favorite hunting areas. Although the seeds are much larger than the wild sunflower, they do attract the bird just as well.

All of which makes for better hunting!

Punt, Pass And Kick Contest For Boys 8-13 Set Saturday, October 11

Boys, ages 8 through 13 of Haskell County, and surrounding area, will display their football talents in punting, passing and kicking in the annual "Punt, Pass and Kick" competition, to be held on the football practice field just back of the high school gym, beginning at 1:30 p. m., Saturday, October 11.

Bill Wilson Motor Company will award 18 trophies, one to each of the top three boys in each of the six age groups between 8 and 13. Local winners will go on to higher level competition sponsored nationally by the Ford dealers of America and the National Football League.

For each succeeding win in zone, district, area division and national competition, handsome trophies are awarded in addition to the 18 given local winners by Bill Wilson Motor Company.

J. B. Gipson and Dee Larned, of the Bill Wilson Motor Company, pointed out that punt, pass and kick involves no body contact and that every boy has an equal chance to win since each competes only against boys his own age.

There is no charge for entering the contest, with registration at the Bill Wilson Motor Company, Haskell.

Entrants will be judged on distance and accuracy of their punting, passing and kicking, with points awarded for each foot of distance the ball travels on the fly. Points will be subtracted for each foot the ball lands to the right or left of a center pin.

Good Attendance Noted At Booster Club Meeting

Sixty Booster Club members met Monday night, October 6, at 8:00 p. m. at the high school cafeteria, with the president, Virgil Cobb, presiding.

Minutes of the last meeting were approved as read. The club voted to send flowers to Tommy Davis, who is in Baylor Hospital, Dallas.

Following the business meeting, coach Mickler reported the loss of the Junior High game to Anson. He also gave a scouting report on the Merkel-Hamlin game.

Catch Ivy reported his "B" team was victorious over Breckenridge, 58-22. The "B" team will play Knox City there, tonight, Thursday, October 9th.

4-H Proves Old Adage

"You'd scarcely expect one of my age to speak in public on a stage," recited a 7-year-old school boy. "Don't view me with a critic's eye, but pass my imperfections by... tall oaks from little acorns grow. These thoughts inspire my youthful mind to be the greatest of mankind..."

This lad was not a 4-H'er, but he could have been. He lived in New Ipswich, New Hampshire in 1791.

Fifty years before a poet had written "Tis education forms the common mind; just as the twig is bent the tree's inclined."

Today's 4-H youngsters exemplify those often quoted lines, as did the first Head-Hands-Health youth of the early 1900's.

Boys and girls work on projects that frequently shape their lives and future careers. Millions of 4-H alumni say early 4-H training was a big step toward their success.

"Learning-by-doing" has always been the 4-H way. Showing and sharing new knowledge gained and skills learned is part of the 4-H pattern. The steps to growth are unaltering.

A pre-teen girl enrolled in a clothing program starts out by making a simple item and progresses according to her ability. By the time she is in high school, she makes most of her own clothes. As a teen 4-H leader she teaches younger members how to sew.

Like the New England boy and the poet, 4-H youths find plenty of inspiration for mind-stretching and using their hands to master skills. Projects are designed to arouse their curiosity and raise questions. The more they learn, the more competent they become to experiment, explore and find the answers, believes the Cooperative Extension Service which supervises 4-H.

And there are rewards both intrinsic and material.

More than \$1 million contributed annually by private sources is channeled to 4-H members through the National 4-H Service Committee. Funds are used for county, regional, state and national awards ranging from certificates and medals to \$1,000 scholarships. And educational aids covering many subjects are published and distributed to 4-H leaders and members.

For nearly 50 years, private funds have augmented the public-financed 4-H program. Some of the oldest and largest business enterprises in the U.S. have supported 4-H work since its inception.

Among the scores of 4-H sponsors are: Allis-Chalmers, Armour and Company, Carnation Company, Coats & Clark Inc., The Firestone Tire & Rubber Company, General Foods Corporation, General Motors, Illinois Central Railroad and International Harvester Company.

Also, Kerr Glass Manufacturing Corporation, Montgomery Ward, Moorman Mfg. Co., Olin Mathieson Chemical Corporation, Ralston Purina Company, The Singer Company, Santa Fe Railway System, and Wilson & Co., Inc., A Subsidiary of Ling-Temco-Vought Inc.

Haskell Livestock Grant Is Approved For Aspermont Small Business Development Center

Governor Preston Smith announced Monday of his approval of a Community Action grant for \$36,701 in new federal funds to the Small Business Development Center of Aspermont, Texas.

This grant, under Title II of the Economic Opportunity Act, also authorized use of carry-over funds in the amount of \$689, making a total of \$37,390 assigned for a 12-month period beginning October 1, 1969, to this agency's economic development program.

Established in 1965 and serving 17 rural counties in West Texas, the SBDC strives to assist and direct those persons from low income and minority groups by the screening and processing of applications to the Small Business Administration for Title IV loans to initiate or expand small businesses, as well as arranging for other sources of credit for the needy.

The SBDC also provides management training and counseling for loan recipients and for potential applicants for loans.

And carrying out the overall program, the center has been enlisting services from each community served. Groups who have assisted included professional businessmen, non-professional businessmen, chambers of commerce, banks, civic clubs, Community Action Agencies, and neighborhood centers.

The program of the SBDC provides one to one counseling, screening, assistance in preparation of applications, and financial assistance, which the Small Business Administration is unable to provide because of limited staff.

Clyde Grice of Haskell County is a member of the Board of Directors.

VIETNAM VIEW

QUANG TRI, Vietnam—Take a tall, lean Texas, make him a Marine, teach him Vietnamese and send him to Vietnam. What results is one of the finest American ambassadors to ever leave a footprint on Vietnam soil.

If there is any doubt, ask the children surrounding Dong Ha, about Bobby.

Cpl. Robert A. Burns, 170 34th St. N.W., Paris, Texas, civil affairs representative for Marine Force Logistic Support Group Bravo (FLSG-B), exchanged his Texas drawl for Vietnamese by taking a short course in the foreign language before he enlisted in the Marine Corps more than two years ago.

After graduation from Marine boot camp, Burns was assigned to motor transport school. Staging battalion at Camp Pendleton, Calif., came next, and two days before he was scheduled to leave for Vietnam, the Texas Leatherneck was sent to the Vietnamese language school at Monterey, Calif.

"Since I was assigned as a truck driver at first, I thought I would forget what I learned in language school," says Burns.

"But I soon found that Vietnamese children gather around Marines, and this gave me an opportunity to use what I had learned, and learn more."

Burns served with the truck company for nearly 12 months, then extended his Vietnam tour for six additional months so he could be reassigned to the FLSG-B civil affairs section.

"I became the section's interpreter," explains Burns, "and began spending most of my time talking with the village chiefs about the Civil Affairs self-help projects."

"I'll never regret extending my tour here," Burns emphasizes. "Working with the Vietnamese people has been very rewarding."

Bobby Burns is an American, a Marine, and a man respected and loved by the Vietnamese.

Older children flock to the well to lend a hand as mothers search the village and bring forth every dirty baby they can find.

And Woodard is winning his campaign. He says baby bathing is cutting into the cases of impetigo and other skin maladies and that "our babies have 80 percent fewer skin diseases."

Good Attendance Noted At Booster Club Meeting

Sixty Booster Club members met Monday night, October 6, at 8:00 p. m. at the high school cafeteria, with the president, Virgil Cobb, presiding.

Minutes of the last meeting were approved as read. The club voted to send flowers to Tommy Davis, who is in Baylor Hospital, Dallas.

Following the business meeting, coach Mickler reported the loss of the Junior High game to Anson. He also gave a scouting report on the Merkel-Hamlin game.

Catch Ivy reported his "B" team was victorious over Breckenridge, 58-22. The "B" team will play Knox City there, tonight, Thursday, October 9th.

4-H Proves Old Adage

"You'd scarcely expect one of my age to speak in public on a stage," recited a 7-year-old school boy. "Don't view me with a critic's eye, but pass my imperfections by... tall oaks from little acorns grow. These thoughts inspire my youthful mind to be the greatest of mankind..."

This lad was not a 4-H'er, but he could have been. He lived in New Ipswich, New Hampshire in 1791.

Fifty years before a poet had written "Tis education forms the common mind; just as the twig is bent the tree's inclined."

Today's 4-H youngsters exemplify those often quoted lines, as did the first Head-Hands-Health youth of the early 1900's.

Boys and girls work on projects that frequently shape their lives and future careers. Millions of 4-H alumni say early 4-H training was a big step toward their success.

"Learning-by-doing" has always been the 4-H way. Showing and sharing new knowledge gained and skills learned is part of the 4-H pattern. The steps to growth are unaltering.

A pre-teen girl enrolled in a clothing program starts out by making a simple item and progresses according to her ability. By the time she is in high school, she makes most of her own clothes. As a teen 4-H leader she teaches younger members how to sew.

Rule, Aspermont Fight To 6-6 Tie

The Bobcats tied the score in the third quarter on Winston May's 23-yard jaunt. The point-after touchdown failed and the score remained tied.

An Expression of Appreciation

No better evidence of the improved health and longevity of U. S. citizens can be found than in the announcement by the American Association of Blood Banks that the age limit for giving blood has been raised to 66 instead of 60, as in the past.

Liberalization of the age limit for donating blood was agreed to jointly by the American Association of Blood Banks and the American National Red Cross. The two organizations together collect and process 90 per cent of the more than 6.5 million pints of blood used annually for surgery and therapy in U. S. hospitals. Some time ago, it was suggested that seasonal blood shortages might be alleviated if people were encouraged to celebrate their birthdays by donating a pint of blood at the nearest blood bank or collection center. Offering to donate blood is also one way in which we can express appreciation of the health services and miracle drugs that have added years to our lives.

Rochester Trips Trent
The Rochester Steers powered their way to a 22-0 romp over the Trent Gorillas. The non-district bout gave Rochester an overall season record of 2-2.

Tony Hollingsworth started the Steer scoring as he caught a Gorilla in the end zone, for a 2-point safety. Then speedy Roger Webb ran 69 yards for a Steer TD. Sid Smart converted and the Steers led at the half 10-0. Then it was a blocked punt that gave the ball to the Steers on the Trent 15, and QB Bob Hudspeth carried over from the three.

Another blocker punt on the 15 gave Rochester the ball and Sid Smart went over from the two. Both PAT's failed, and the Steers ended with a 22-0 victory. This week the Steers travel to Matador to meet the Matadors.

Rochester Junior High traveled to Knox City last Thursday and continued their winning ways as the Yearlings beat the Pups 30-22, in a close game. The win gave the Yearlings a record of 3-0, as they defeated Munday Junior High last week.
