At exactly 9:30 a. m. (or thereabout) on that date, an airplane will fly over Haskell, dropping paper plates (or flying saucers) over the city. If you're lucky, you might be able to pick one up.

If you do, you'll find it will be advertising the Vacation Bible School at the First Baptist Church in Haskell. This school will start on Monday, June 7, and classes for children age 3 through the 6th grade.

A parade and enrollment in the VBS will begin at 9:30 a. m. Saturday, followed by refreshments. Classes will be from 8:30 to 11:30 a. m. daily.

Baptist youth, under direction of Tommy Mojica, minister of youth, will conduct a VBS at Independent Baptist Church at 7 o'clock each evening on June 7-11. Rev. Andy Phea is church pastor.

The meeting was opened with a prayer by director George Fouts, after which the manager read the minutes of the last meeting and presented a financial statement for the month of May, also one for the recent Frontier Days Celebration. Both were approved by the board of directors.

Sue Fincher gave a report to the board on the Miss Throckmorton Pageant which was staged in that city on Saturday night of last week. Miss Pat Harris, Haskell county farm bureau queen, was judged to be the winner in talent, bathing suit, formal and was selected as Miss Throckmorton with the privilege of representing that city in the Miss Texas Pageant in 1972. Karen Pippin, also of Haskell, was judged to be the fourth runner-up. Mrs. Fincher was high in her praise of the pageant and especially of the performances turned in by both of Haskell's entries.

Is The Drouth Ready To End? It's Promising! Beneficial Rains Bring Needed Moisture To Area

The drouth may be ready to make an exit from this portion of West Texas. Looks promising, anyway, as farmers begin making plans to plant that cotton crop before it's too late.

The rains we've had during the weekend, though not drouth-breaking, were drouth-chasing—and people in general are hoping that further favorable actions from the weather will

chase said drouth plumb out of the area.

It was a rather disconsolate sigh of dismay Friday morning when Sam Herren, "The Weatherman", reported that the flurry and scurry during the night had produced only .10 of an inch in Haskell—when what we needed was a near-deluge!

But "Mr. Sam" made another call Saturday morning, when he reported the clouds a little more liberal with their moisture content. We had received a total of 2.91 inches—and that tenth of an inch Friday brought the total to 3.01 inches for the two days.

It's nothing like the 9.99 inches reported at Eastland, or the 9.53 at Ranger—but it's a start, and a good one, too! A number of other places reported rains in excess of that received in Haskell.

Rainfall reports received Monday from other points in Haskell County are: Weinert, about 4 inches; Rule, 3.6 inches; Paint Creek, 3 inches; O'Brien, about 6 inches and Rochester 6 to 7 inches; Sagerton 4½ to 5 inches.

The rains have eased the water shortage situation to a great extent. Many of the dried up stock ponds have been refilled, eliminating the necessity of hauling stock water for some stockmen—and one may look carefully and see a wee bit of green coming back in the parched pasture land.

Area farmers will be taking to their fields as soon as land is dry enough. Planting operations have been delayed because of the drouth, with only a small percentage of the dryland crops being planted, and it's growing late for cotton and other crops.

Local Youths To Attend 'Boys State' Which Opens In Austin Saturday

Four Haskell youths will be among the 840 high school and junior boys to converge on the campus of the University of Texas next Saturday for the 1971 session of Boys State, sponsored by the American Legion, Department of Texas.

Under the sponsorship of Rogers-Cox Post 221, the four Haskell youths will each have an additional sponsor. They are:

Bob Mickler, Haskell Bar Association; Milton Schmidt, Lions Club; Gary Black, Rotary Club, and Bill Cox, Haskell National Bank.

This is an annual event in

which the boys are taught the responsibilities of citizenship in actual "do it yourself" type of program from which comes its motto: "Learn by Doing."

Registration will start at 2 p. m. Saturday, with orientation in their respective Boys State cities to follow. They will be housed in 18 cities which will be divided into two precincts, one for the Federalist and one for the Nationalist political party.

"Boys State is one of the outstanding youth training programs sponsored in the state," Commander B. B. Hester stated. "Not only do the youths learn more about the functions of government, but they also see the importance of the role played by each good citizen in discharging his basic responsibilities in voting. They soon discover how the quality of government is related directly to active interest of each citizen."

On Friday June 11, the citizens of Boys State will visit the state capitol and actually sit in chairs of the office to which they were elected—and run the state government for a day. A governor's ball will climax the week's activities Friday night.

Property Values For Local School To Be Increased

Due to the increased cost of operating schools and the loss of mineral values, as well as loss of average daily attendance, officials of the Haskell Independent School District state that it is necessary to increase the established value of all property in the district. Haskell school taxes have not been raised since 1958, they said.

The Board of Trustees voted to increase the established values of all property from 40% to 65%, and to lower the tax rate to approximately \$1.20 per hundred. All taxpayers will be notified by mail of the time and place of the equalization board meeting, if you desire to appear before the board.

Most of the cost increase was brought about by acts of the 61st Texas Legislature on the following:

Compulsory kindergarten, ten-month school program, in-service training, salary increases, special education and bus insurance.

STARS DRIVE FRIENDLY—These celebrities are among seven personalities with Texas ties who have joined the state's "Drive Friendly" campaign. The seven have donated their talents to record brief public service announcements for radio urging drivers to "Drive Friendly." Shown are Dan Rather, television newsman (top left); Jeannie C. Riley, singer; Alan L. Bean, astronaut (bottom left); and Dr. Michael DeBakey, surgeon. Others helping the state's traffic safety program are Jim Hall, race car driver; Joe Morgan, baseball star; and Darrell Royal, football coach. The spots are to be released to stations in May.

WASHINGTON, D. C. — Human nature being what it is, we take for granted many of the good things around us. More noticeable are the calamitous and catastrophic events. On the occasion of such happenings there must be action on the part of those with responsibility to meet and deal with the situation. It would do us good to recognize those who are organized for the purpose of preventing calamities and to remedy and administer to them when they unavoidably come about. The hundreds of volunteer fire departments stand as excellent examples. Volunteer fire fighting is a tradition in America. It began in Philadelphia in 1736 when Benjamin Franklin, who seems to have had a hand in about everything, organized the first fire brigade. From that beginning there are today some 25,000 fire companies, 22,000 of which rely on vol-

unteers. The cities, of course, must have wholly professional and paid firemen of which there are about 250,000. Smaller towns have all they can do to provide the essentials with volunteers. Some larger towns and communities have training and equipment on the same level as those of larger companies. This means that volunteers work at their job with all diligence to reach professional qualifications. In thousands of small towns across our Nation when the siren blows and the bells ring men drop their knives and forks, barbers put down their shears and a store clerk leaves a customer. In rapid order they are together, garbed in helmets and slickers and whatever else they have and on their way to extinguish a fire, which is always a tragedy for someone. Such actions occur across the land daily where men from all walks of life—salesmen, laborers, teachers, professional and businessmen and the like provide a service which saves lives

and property. Drawn together by a common desire for protection, unselfish neighbors rally together at the fire station or at the scene, using their own cars or going by foot, at all hours of the day or night and in all kinds of weather. It is estimated by the National Fire Prevention Association that there are 22,000 volunteer fire departments providing \$5 billion worth of service to their communities and towns people each year. Were it not for the volunteer the Nation's fire loss would be far in excess of the estimated \$2 billion loss in 2.5 million fires of all types occurring in 1969. In addition, fire insurance rates are adjusted to the towns' fire-fighting and fire prevention rate. This simply means that if fire losses are low we all get the benefit of our insurance premiums. Why are men willing to inconvenience themselves, endanger their lives and run the risk of injury to fight fires? Obviously the answer is to do

good—to take pride in serving one's community. It was summed up once in a very direct way by a volunteer fireman: "I like to go out and help people who need help. Our department not only fights fires but answers all emergency calls such as accidents and drownings. The men in our organization never hesitate to answer a call and I am proud to be one of them." As the cost of municipal governments has risen, like everything else, many towns simply can not provide the tax money to keep modern fire-fighting equipment. Today's tax crunch threatens even the most simple municipal service. The volunteers make it possible by their unselfish service to provide essential fire protection. They seek no pay, help keep up their own firehouse and equipment, often buy their own gear and make other sacrifices which only the dedicated would do. Oftentimes their wives pitch in to help in fund raising. Just fighting fires is not all

Grant Approved For Development Of Texas Airports
The Federal Aviation Administration has approved a \$419,974 grant to the State of Texas for a comprehensive study of the state's future airport development needs. The grant is one of the first approved under the Federal Airport/Airways Act of 1970, and is the largest award made to any state. There is to it. They attend meetings, drills and sacrifice their time in preparing for the worst. After a run they have to disconnect and repack hose, clean up and do a lot of other things when the fire is over. These then are dedicated fire men in hundreds of towns. Sometimes they may merely rescue a kitten from the bottom of a pit or from a tree top, but may save your life or home tomorrow.

SAGERTON NEWS

MRS. DELBERT LEFEVRE
The best news this week is the rain. Sagerton, as well as all the surrounding communities, got a real old-fashioned rain last Friday and Saturday, about 4 1/2 to 5 inches in all. For the first time in a couple of years the stock tanks are filled, and after it dries up a little bit, there is no doubt about what the farmers will be doing. Mr. and Mrs. F. A. Ulmer visited with the Winston Ulmers in San Antonio last weekend. Mr. and Mrs. Edwin Franke and R. C. of Abilene, Gene Franke and his bride-to-be from Dallas, and Doris Franke, their daughter who teaches school in Colorado all visited in the Herbert Nierdeck home on Sunday. Mrs. Cliff LeFevre was honored with a birthday dinner at the home of Mr. and Mrs. Delbert LeFevre Sunday. Guests were: Mrs. Lela McLeod and her granddaughter, Becky, of Dallas, L. B. White of Rochester, Mrs. Will Stegemoeller, Mr. and Mrs. Cliff LeFevre, and Mr. and Mrs. Reece Clark and their grandchildren, Clark and Kay Terrell of Stamford. Mr. and Mrs. Fred Kupatt, Kris and Kraig, went to Fredricksburg last weekend to visit with Mr. and Mrs. Bruno Kupatt. Mrs. Kupatt has been hospitalized since she fell Tuesday of last week and broke her right arm at the wrist. Her friends here wish her a speedy recovery.

Lions Program Didn't Work Out Again Tuesday!
The Haskell Lions Club held its regular meeting at noon Tuesday at the City Cafe, but no program developed after the meal. Lion Bud Pogue, vice president, was in charge of the meeting in the absence of President Culepper. Wallace Cox Jr., led the singing, with Suzanne Thomas as accompanist at the piano, and the invocation was voiced by Dr. J. F. Cadenhead, Jr. Lion Harold Spain, program chairman for the day, was profuse in his apologies because his program on "coin collecting" failed to materialize. After visiting a while, one Lion remarked: "No program, no singing, no nuthin'—we just as well go home," and the group left the meeting place. Glen Granger of Rochester was a guest of B. O. Robertson for this meeting.

Mr. and Mrs. Virgil Vahlenkamp and children of Denton visited last week with Mr. and Mrs. Leo Monse, Sr. Next Monday, June 7, Vacation Bible School will start at Faith Lutheran Church from 8:30 till 11:30 for a week. Mr. and Mrs. Jan Fouts and daughters of Lubbock visited with Mrs. Otto Lehmann and other relatives here last weekend. Mr. and Mrs. Joe Clark and Mr. and Mrs. Leon Stegemoeller hosted a fish fry in the home of the Joe Clarks in honor of the Rule High Seniors last Thursday evening. Tommy Manske, son of Mr. and Mrs. Oscar Manske, left last week for six months of active duty with the National Guard. He is stationed at Camp Polk, La. Mr. and Mrs. M. Y. Benton went to Big Spring last Thursday for the graduation of their granddaughter, Sharon Cook, for Big Spring High School.

May Rainfall Below Normal
The welcomed rainfall of 3.01 inches that came last Friday and Saturday still failed to bring Haskell's precipitation up to normal for May, according to Sam Herren, "The Weatherman." Total for May, 1971, was 3.33 inches, according to Mr. Herren's records, while normal for the month is 3.99 inches, showing a deficit this year of .66 of an inch. Totals for the year reveal a more discouraging figure. While normal for the first five months in the year is 9.00 inches, Haskell has received only 5.60 thus far in 1971—and that's 3.49 shy of normal. Mr. Herren's records show rainfall last month on the following dates: May 5, .04 of an inch; May 9, .18 of an inch; May 18, .10 of an inch; May 20, .10 of an inch; May 29, 2.58 inches, and May 30, .33 of an inch. Total for month, 3.33 inches. Greatest amount fell on May 29. Lowest temperature for the month was 41 degrees on May 13, and the highest was 97 degrees on May 17. Mr. Herren's records revealed. "The drought isn't broken yet by any means," Mr. Herren commented, "but it's a good start!"

It's Not Too Late to Prune Back Those Spring Flowering Shrubs

1. It is not too late to prune back those spring flowering shrubs, to encourage the growth of new wood for next season's show. Thin out old canes and remove dead wood making all cuts close to the ground. Included in this group are the Forsythia (Golden Bells), mock orange, flowering quince, deutzia and spirea.

2. Pinch back annuals such as ageratum, petunia, zinnia, catenula, drummond phlox, dianthus, verbena, salpiglossis, and snapdragons. Pinching stops the terminal growth, resulting in bushier plants and more flower buds. Annuals that should not be pinched include strawflower, cockscomb, and poppy.

3. Peonies should be growing vigorously at this time. For maximum flower size and stem length, be sure to supply supplemental irrigation during this period. Extra large buds can be produced by removing all lateral flower buds on each stem, allowing only the terminal bud to develop into a flower.

4. Sheared hedges require frequent pruning during periods of fast plant growth. Always prune so that the bottom of the hedge is wider than the top. This allows light to reach the lower foliage and prevents loss of the lower leaves due to shading.

5. Daylily beds that have become crowded can be transplanted and thinned out as soon as they finish blooming. This allows you to dig, divide and replant while you can remember the color. Do not allow the plants to get too dry until the roots become well established.

6. Watch for White Fly on your favorite evergreens. Considerable damage can be done before you realize it, unless you pay close attention. Malathion and Diazinon are effective against this pest. Two or more applications at weekly intervals may be necessary to eliminate this pest. (Use according to manufacturers instructions.)

7. Bagworms are probably feeding on your evergreen trees and shrubs. Sevin is very effective if used while the worms are small. Plants should be watched closely when Sevin is used as its use frequently leads to an increase of spider mite population since many of their natural enemies are eliminated.

Additional Loans Available For Water, Sewer

An economic boost toward the development of rural Texas was announced last week by J. Lynn Futch, State Director of the Farmers Home Administration in Temple.

Futch pointed out that an additional \$12,600,000.00 has been released for the current fiscal year, through June 30, for rural water and sewer system loans in Texas. He emphasized the need for rural residents desiring water and sewer system loans to move quickly. The State Office of Farmers Home Administration must have completed loan applications for review and approval before June 15, 1971. Mr. Futch also said that more money would be available for the new fiscal year of 1971.

Jerry Johnson of Nacogdoches, President of the Texas Association of Rural Water Corporations, urged existing systems to take advantage of the current supply of loan money. "Many systems that have been operating for several years now need additional loan money to provide new consumer service and now is the time to take advantage of the \$12.6 million allocation for our state," commented Johnson.

Rural residents desiring additional information concerning the loan funds should contact their county Farmers Home Administration supervisor or the Texas Association of Rural Water Corporations in Austin.

New Forage Crop Is Studied On Field Trip To Alton Sanders Farm

A number of farmers in this area attended the field day last Monday at the farm of Alton Sanders of Weimer to see a new forage for spring grazing under actual growing conditions.

Mr. Sanders, cooperating with the Wichita-Brazos Soil and Water Conservation District, said: "Wintergraze is a hybrid cross of wheat and wheat grass. He sowed his seed with vetch, fertilized with 150 pounds of 21 per cent nitrogen per acre, irrigated four times, putting approximately 4.5 inches of water per application.

He grazed this new crop twice, and in about three weeks time has another 18 inches of forage for grazing.

Twenty farmers who are neighbors to the Sanders experimental operation were present for an official tour of the Sanders farm and to see this experimental work with this wheat-wheatgrass cross.

HASKELL COUNTY HISTORY

40 YEARS AGO (May 14, 1931)

The home of Mr. and Mrs. Cal Wilfong, a large 6-room structure, in the south part of Haskell was totally destroyed by fire of undetermined origin last Saturday morning about 2:30 o'clock. The fire was thought to have started in the attic of the house, and when Mr. and Mrs. Wilfong were awakened by flames and smoke, the fire had spread throughout the structure. They and their children barely had time to escape from the burning building, and were unable to save any of the household effects. Neighbors were quickly aroused and an alarm turned in but flames had spread to such extent that firemen were unable to save any part of the structure, the house and all contents being a total loss. Mr. Wilfong states that the loss on the house and furniture is partially covered by insurance.

The Haskell High School Indians, musical organization formed several years ago under the direction of Joe Meacham, has developed into one of the outstanding organizations of its kind in West Texas, and services of the Band are constantly in demand throughout this section.

Members of the band include: Elvin Bland, Raymond Bynum, John E. Fouts, Buford Gholson, Carl Cook, Hermann Pittman, R. C. Couch, Joe Maples, Edwin Bledsoe, R. H. Moser, Clinton Herren, Ira Hester, Anita Collier, H. J. Hamblen, Elzie Whitley, E. W. Johnson, Debra Frazier, Felix Frierson, Ed Hester, Bob Herren, Wilda Pippen, Blanche Hollar, Carl Armbuckle, Edith Foote, Robert Darnell, Anna Maud Taylor, Frances Walling, Bates Thornton, John Oates, Howard Whitley, Woodrow Dishong, O. D. Cook, Lillian Kaugler, Rondell Bailey, Joe Bryant, Floyd Taylor, Felix Mullino, Marvin Gholson, Sue Couch, Elizabeth Gilbert and Atehison.

The Haskell youth baseball team defeated Douglas last Sunday afternoon. Haskell players were Cobb, Crouch, Viney, Sook, Adkins, Bartlett, Howard, Rose and Adkins.

Courtney Hunt and daughter, Miss Madeline spent the day in San Angelo, Sunday.

60 YEARS AGO (May 27, 1911)

Friday morning about 4:30 the large two-story building occupied by the Farmers' Cooperative store, Dr. Robertson's drug store, Haskell State Bank, and a buggy warehouse by McNeil & Smith, J. L. Robertson real estate and loan agency, J. Stein & Co. real estate, J. E. Poole Secretary Board of Trade, Dr. Moore Judge Jas. P. Kinnard and the Elks club and lodge rooms, was discovered to be on fire. The alarm was given and though it was only a few minutes till the fire boys got to the building the whole roof was breaking into flames and great volumes of black smoke was curling from the whole building. Soon the Volunteer Fire Dept. had four streams of water playing on the building and in the course of an hour they had the fire extinguished. This was one of the most successful attempts to control a big fire we ever saw. If it had not been for the splendid work of the fire boys, Haskell would probably have suffered a quarter of a million dollar fire loss. The Free Press thinks the city at an early date should give the fire boys and their wives and sweethearts a big banquet and show them we appreciate their work. Judge Kinnard's library was slightly damaged. All furniture in the second story

More Emergency Loan Funds Are Expected For Texas Drought Areas

Emergency loan funds are available applications are being taken, and more money has been requested to combat the serious effects of the drought which grips Texas, Lynn Futch, state director of Farmers Home Administration, said today.

President Nixon has asked the Congress to add \$65 million to the fund from which FHA finances its nationwide emergency farm loan program, Mr. Futch said.

The Farmers Home Administration has already made 1,503 emergency loans totaling \$15 million to farmers and ranchers in Texas to help them overcome the disastrous effects of the drought which has scorched parts of the state since the spring of 1970.

Emergency loans are made to enable farmers and ranchers to continue normal opera-

tions which have been disrupted by natural disasters. These loans previously were available in 53 Texas counties, and last month, the Secretary of Agriculture increased the number to 235 counties.

The impact of the drought has centered primarily in Texas and Oklahoma, but Mr. Futch said that emergency loans may be made outside of designated areas to eligible applicants who have suffered severe losses as a result of the drought.

Current interest rates on emergency loans are 4 7/8 percent, repayable as soon as possible consistent with the financial ability of borrowers, Mr. Futch said.

Application for loans should be made at county offices of Farmers Home Administration, usually located in the county seat town in which the farm property is located.

Tonkawa Downs Racing Program Slated At Graham

An announcement is being made this week that Tonkawa Downs, Inc., which will feature racing programs in the future, is being opened seven miles southwest of Graham, on the Breckenridge highway.

A quarter horse racing program is slated for Sunday, June 6, from 3:00 to 7:00 p. m.

Located on the banks of the Brazos, Tonkawa Downs is said to be "an ideal place for the entire family" where racing can be enjoyed in the shade of 1,000 pecan trees.

can still apply today. Here are some of the quips we found... "One thing in favor of the man who kills himself—he generally gets to the one responsible for his troubles." Can you improve on that today?

"It is reported that complaints are being heard in some cities because the soup kitchens do not give curb service to automobiles? How about 'Welfare Cadillac' that's so popular in this age?"

"Some European nations express fear that the talks will make all the world talk English. Not the talkies we've heard." In today's talkies—both in movies and on television—we might be able to pick up some new English cuss words!

"Nowadays, when opportunity knocks at a man's door he's likely to be out on the golf links." With practically every farm and ranch pond stocked with fish, man had another place to go—that is until the drouth began drying up those ponds.

A man who was doing some research was in this office several days ago to look through our files of 1934, seeking information on the time we plowed up cotton by the acres and killed off cattle by the hundreds in what was, we guess, the first government aid program during the "great depression." This

4-H Club Work Is Reviewed At Rotary Club

Haskell Rotary members and guests met at the City Cafe at noon, Thursday, May 27, for a regular weekly luncheon meeting with president Bob Herren presiding.

Invocation for the meeting was voiced by Charles Thornhill and the song session led by Mayor H. V. Woodard, who led the group in several musical numbers.

Guests were introduced by C. A. Thomas Jr., in the persons of: Faye Bledsoe and Betty Wainscott of the Haskell National Bank and guests of president Abe Turner; Jack Ralston of Dallas, Lone Star Gas Company representative; Lester Barry of Abilene, guest of Ira Hester, and Pat Hale, Ted Elliott and County Judge B. O. Roberson of Haskell.

Program chairman for the day was C. A. Thomas Jr., who introduced Haskell County Agent Max Stapleton who proceeded to present a most interesting program on the 4-H Club work being done in the county and especially the success of the boys and girls in the work during 1970. He stated that from 60 to 70 head of beef cattle were on feed last year, 35 barrows and 15 head of sheep.

The livestock projects were shown at 13 shows during the year, including the Houston Fat Stock Show and Rodeo, reputed to be the largest live-

aid from our government has continued in various forms since that time—and what a tremendous benefit it has been to thousands upon thousands. Our representatives in Washington continue to ask for more aid in our present drouth-stricken area.

We wouldn't belittle these aid programs one whit, but we can recall that before the 1934 episode, when Dad had exhausted his credit at the bank, the only type of aid we knew was to tighten up our belts and make out on the meagre resources we could command. And we still hear occasionally someone expressing the belief that "supply and demand" would take care of many of our ills.

We heard via radio when driving to Haskell one morning that people were born with a whole batch of brain cells that control our memory, and stuff like that. Instead of being able to divide and reproduce, like some other cells, they deteriorate and disappear as we grow older. When we've past 40, we begin to gradually get in pretty bad shape.

That's why, we guess, it's so easy now for us to throw our mind out of gear—and what brings on the statement we've repeatedly made in most recent times: "I learn slow—but forget fast!"

The truth of that statement has been brought home to us during the past four weeks—since occupying Prattler's office!

Local Teacher Retiring After 35-Year Tenure

MRS. OLIS MACON

After a tenure of 35 years in the teaching profession, and in area schools most of the time, Mrs. Olis (Nora) Macon has announced her retirement with the close of this school year.

When she started her teaching career, Mrs. Macon taught for 13 years, interrupting her career at this point to be a farmer's wife and rear her son. When her son entered school, she returned to her profession to help with his education.

She started in a one-teacher school known as "Vernon" in Haskell County, where she was teacher, superintendent, janitor, etc. She later taught in Sagerton, Old Glory and finally Haskell. This ends 21 years in the Haskell Elementary School.

Mrs. Macon's son, Carrol, is a structural draftsman for Terry, Rosenbend & Co. of Dallas, which firm is currently working on the regional airport being built between Fort Worth and Dallas. He is married and lives in Dallas.

Mr. Macon is a retired farmer. He and Mrs. Macon live on their farm one mile east of Rule.

Mrs. Macon plans to relax and do some of the things she has wanted to do but "never quite got around to them." She has many hobbies, some of which are painting, knitting and gardening.

Bond Sales At 17 Per Cent Of Year's Quota

April sales of Series E and H United States Savings Bonds in Haskell County were \$5,516, according to County Board Chairman, R. W. Herren. Sales for the first four months totaled \$37,289 with 17 per cent of the 1971 goal achieved.

Sales in Texas during April totaled \$17,799,730, while year-to-date sales were \$69,658,537 with 38 per cent of the 1971 goal of \$181.9 million achieved.

Nationally, Savings Bond sales during the month totaled \$463 million, 26.7 per cent above 1970 sales. Sales for the four-month period amounted to \$1,838 million, 18.1 per cent above a year earlier.

"During this time of year many people are looking for suitable graduation and wedding gifts. Savings Bonds make ideal gifts for any occasion for they are the gift that keeps on giving. They can be bought at your local bank and the Savings Bond Division has supplied all banks with special gift envelopes when bonds are given as gifts," Chairman Herren stated.

stock show in the nation. Haskell county animals won 42 places in beef cattle, 25 barrows and 15 lambs which included 10 grand champions and three grand championships of pens of five.

It is believed that Haskell County had more winners in the different shows last year than any other county in the 254 counties of Texas. Mr. Stapleton stressed that they purchased the majority of their show animals from Haskell County breeders and that they had received good results.

In a short business session, proxy Herren asked for a vote as to whether the club should register the Boy Scout bus and was voted unanimously to do so.

Program chairman for June 3rd is Ferrel Coston.

Larry Cockrell was valedictorian and Mike Brazell was salutatorian of the class. Graduates were: Jesse Gundalcazar, Mike Brazell, Lupe Gonzales, Larry Cockrell, Randy Arand, Eddie Howeth, Caron Bartley and Connie Harvey.

Mrs. Allen Isbell and Mrs. Paul Fischer attended graduation at Haskell High School on Monday evening.

Mr. and Mrs. Bruce McCain entertained the McKinsey Trail Shrine Club at their lake home last Friday evening with a fish fry. About a hundred members and guests attended.

It rained from two inches to four inches over the community. Many of the stock tanks are brim full, and the land drank

the water up, and got all ready for us to plant cotton. The lake rose several inches, but it takes a heap of water to raise the lake level. Fishing should be good now though, especially where the creeks run into the lake.

Mr. and Mrs. Eddie Swanner and sons have moved to Mc-Camey this week.

Miss Jean Ann Raughton of Bronte spent last week with her grandparents, Mr. and Mrs. Roy Overton. The Overtons took Jean Ann home Sunday and Janie Lynn Raughton came home with them for a week's visit. Jean Ann and Janie are the daughters of Mr. and Mrs. James Merle Raughton.

Jeannine Isbell returned to San Angelo State University on Sunday where she will attend the first semester of summer school.

Ricky Perry, who completed his junior year at Texas A&M last semester, will attend R.O.T.C. Air Force camp in Florida.

Mrs. Gene Overton attended the Methodist Church Conference with Rev. and Mrs. H. O. Abbott and Mrs. W. H. Pitman in Amarillo. On Monday evening of the Conference, Steve Harper was ordained a deacon.

Mr. and Mrs. Joe Harper and Mr. and Mrs. Wallace Cox Sr. were there. Mrs. Overton visited her sister and her husband,

Mr. and Mrs. Charles McBeath in Amarillo, and her mother, Mrs. Lennis W. Jones of Rule was also visiting them.

Mr. and Mrs. Phil Coleman, Mr. and Mrs. Dale Middlebrook, Mrs. Velton Middlebrook, Mr. and Mrs. Louie Kuenstler, Mrs. Della Dean and Jesse Dean attended the wedding of Nanette Kuenstler and George David Ashby at Claytonville last Sunday. Nanette's father, Truett Kuenstler is pastor of the Claytonville church. Mrs. Dean is her maternal grandmother. Phyllis Coleman, a cousin, was organist for the wedding. David's parents, Mr. and Mrs. Calvin Ashby of Vernon, are related to several Paint Creek families. Another son of theirs, Mike, married our Vicki Morrison.

Last Tuesday the water engineer from Abilene was supposed to meet at the Corinth Gin with representatives of the Paint Creek Water Board and two other potential water districts. But the weather was rather threatening, and Wallar Overton and Jerry Terrell and three men from the other communities met and sat for almost an hour during the rain, and no one else came. Perhaps they can meet this week. The other communities may help us work out a way of joining them and so forming a water district in spite of our small number of meters.

The senior class returned from their senior trip last Tuesday. They visited Colorado Springs and Denver, and then
